

Now Here's
the
PropositionWOMEN
By Haws

I like women
While they stay.
In the background,
Out in the way.
As the echo
To the sound
That's what it's like to have
Woman around.
Nice to have a
Few about—
They don't count but
They help out.
As the cracker
To the cheese;
Like the puppy,
Like the chick;
Like the onion
To the hash.
Like the raisin
To the mash.
Like the kerchief,
To the nose;
And a few more
Things like those.
Like the chaser
Needs a stick.
They're what gives this
Life its kick.
They're the music
Of life's song—
WHILE THEY STAY WHERE
THEY BELONG!!!!

THOSE WE
LOVE ARE NEVER OLD

By Haws

Those whom we truly love are
never old.
Though seasons change, and many
years should pass.
Despite the lying story of the glass
The boyish head shall keep its
clustered gold;
The girlish form its lissome grace
shall hold;
And every lineament of the well-
known face
Shall keep for us its old accus-
tomed grace
Save for new beauty that the
years unfold.
What though the hateful, crow
shall tread the eyes,
And age draw on with maimed
and altered guise,
Marring the youthful face with
line and blot;
For us who love them they shall
ever keep
The undimmed glory till the last
long sleep.
Change is alone for those who
know them not.

SAFETY BUS WINS
ST. JOE-SOUTH
BEND FRANCHISE

The Safety Motor Coach corpora-
tion, after a fight for an inter-
state bus permit to operate be-
tween St. Joseph and South Bend,
Ind., at a hearing before the Mich-
igan public utilities commission
Friday.

Hearing on its application for an
intrastate permit was set for the
first week in September.

Delegation Voices Protest.
W. D. Bryant attended the hear-
ing to voice the protest of the
Southern Michigan Banning com-
pany, main objectors to the grant-
ing of the permit. He presented
legal references intended to show
the impossibility of giving the
Safety Motor Coach Corporation
such a permit. Attorney R. E.
Barr, St. Joseph, representing the
Emmanuel Missionary college at
Berrien Springs, also
appeared to protest against issu-
ance of the permit.

Members of the commission ex-
plained that as the law now stands
they can not refuse an interstate
permit to any concern which
applies for one, provided they
meet certain basic requirements.
The order for the permit was be-
ing drawn up this afternoon.

Rear Loss of Interurban
Berrien Springs interests fought
the move of the bus company to
save the possible abandonment of
the interurban line which is the
only means of freight service for
the village. They brought out the
fact that since the commission
permitted the Pere Marquette to
abandon its spur line through
Berrien Springs that all freight in
and out of that village was moved
over the interurban line.

They also tried to convince the
members of the Lansing com-
mission that the traction company
has been operating under a re-
ceivership for some time; has not
paid dividends for several years
and that the loss of the passenger
traffic which will result by the
operation of the bus line will
ultimately cause the loss of the
interurban line.

St. Joseph Enters Protest
Both chambers of commerce of
St. Joseph and Benton Harbor
entered protests to the issuance
of the permit to the bus company.

It was said that a concerted
effort on the part of all cities and
villages along the interurban line
will be made to fight the move of
the bus company.

FRENCH IS
INJURED IN
ROAD MISHAPIncurs Broken Leg When His
Motorcycle Goes in Ditch
To Avoid Collision

OCCURS BERRIEN SPGS.

Town Marshall Is Taken To
Epworth Hospital In
South Bend

Fred French, Buchanan mar-
shal and deputy sheriff, incurred a
bad fracture of his left leg im-
mediately above the knee when he
was obliged to take to the ditch
with his motorcycle to avoid a
collision on the St. Joseph road a
mile north of Berrien Springs.

French was riding south toward
Berrien Springs, when Clarence
Smith of that place drove out of
the lane leading from the
Emmanuel Missionary College and
entered the road ahead of him. At
the same time a car was driving
north opposite Smith, and French
was obliged to take to the ditch
to avoid striking one of the ve-
hicles. He had righted his motor-
cycle in the ditch and was ap-
parently all right, when the pedal
caught on the bank, throwing him
heavily.

Smith, who was driving a Stan-
dard Oil truck, picked French up
and brought him to the Clark
hospital, where he was kept until
late that evening and then taken
to the Epworth Hospital at South
Bend.

Harold Meyers Has
Strange Accident
At Niles Sunday

Harold Meyers of Liberty
Heights narrowly missed serious
injury shortly before midnight
Sunday while driving to his usual
work on the early morning shift
at the Michigan Central railway
yards at Niles. While driving out
Lake Street, northeast of Niles, he
lost control of his car which left
the pavement and struck a tree.
When Meyers regained conscious-
ness he was walking along the
pavement back toward the city,
with no memory of how his pre-
dicament came about. He was not
injured but the car was wrecked.

Dr. H. M. Beistle
Closes Office
For Operation

Dr. H. M. Beistle has closed his
office in the Redden building until
August 20, while he is recovering
from a major operation which he
underwent Monday at the Clark
Hospital. He is reported to be
convalescing satisfactorily.

Friend of Clara
Barton To Speak
Here Sunday Eve.

Mrs. Dixie Owen of Oakland,
California, president of the Clara
Barton Memorial Association of
America and former friend and
associate of the famous founder
of the American Red Cross, will
speak at Union services at the
Evangelical Church at 7:30 p. m.
Sunday, Aug. 5, her subject being,
"The Ideal Woman." Mrs. Owen
has spent 40 years touring the
United States as a platform lec-
turer, crossing the continent 30
times in that time. The public is
invited to avail themselves of this
exceptional opportunity.

ED MITCHELL
IS APPOINTED
TOWN MARSHALVILLAGE OFFICER FORBID-
DEN TO SERVE COUNTY AS
DEPUTY SHERIFF

Ed Mitchell was appointed to
the position of village marshal at
a special meeting of the council
held Monday evening, taking the
place left vacant by the serious
injury of Fred French. Mitchell
served as marshal for two years
under the administrations of Dr.
John Strayer and M. L. Sands,
quitting the post two years ago.

In connection with the appoint-
ment the council stipulated that
the marshal should not serve as
under sheriff, putting in part time
in county service.

Mitchell began his duties yester-
day morning, with no provision as
to length of service.

Recommendations were made by
council members that the marshal
open his term of office by enforce-
ing a cleanup of the lots behind
stores on the east side of Main
Street, bought by the village as a
parking place, and by cleaning and
painting the town jail.

FORMER BUCHANAN
WOMAN RUN DOWN
BY AN AUTOMOBILEMRS. MARY DAISY, KILLED AT
ST. JOSEPH, ONCE
LIVED HERE

Mrs. Mary Daisy, wife of James
Daisy of St. Joseph and a former
resident of Buchanan, was fatally
injured Thursday when knocked
down by an automobile while
crossing Empire avenue in that
city Thursday evening.

Mrs. Daisy was known in Bu-
chanan as Mrs. Mary Perry, and
made her home for several years
on Lake Street.

She was on her way to a church
meeting when she stepped from
the curb in front of a car driven
by Dr. A. C. Rinkenberger and
was knocked down and run over.
Her dress caught in the brake of
the car and she was dragged
several yards before being re-
leased. She was dying when
picked up and expired a few
moments afterward while being
rushed to Mercy Hospital.

Scout Boatmen
Here on Their
Way Down River

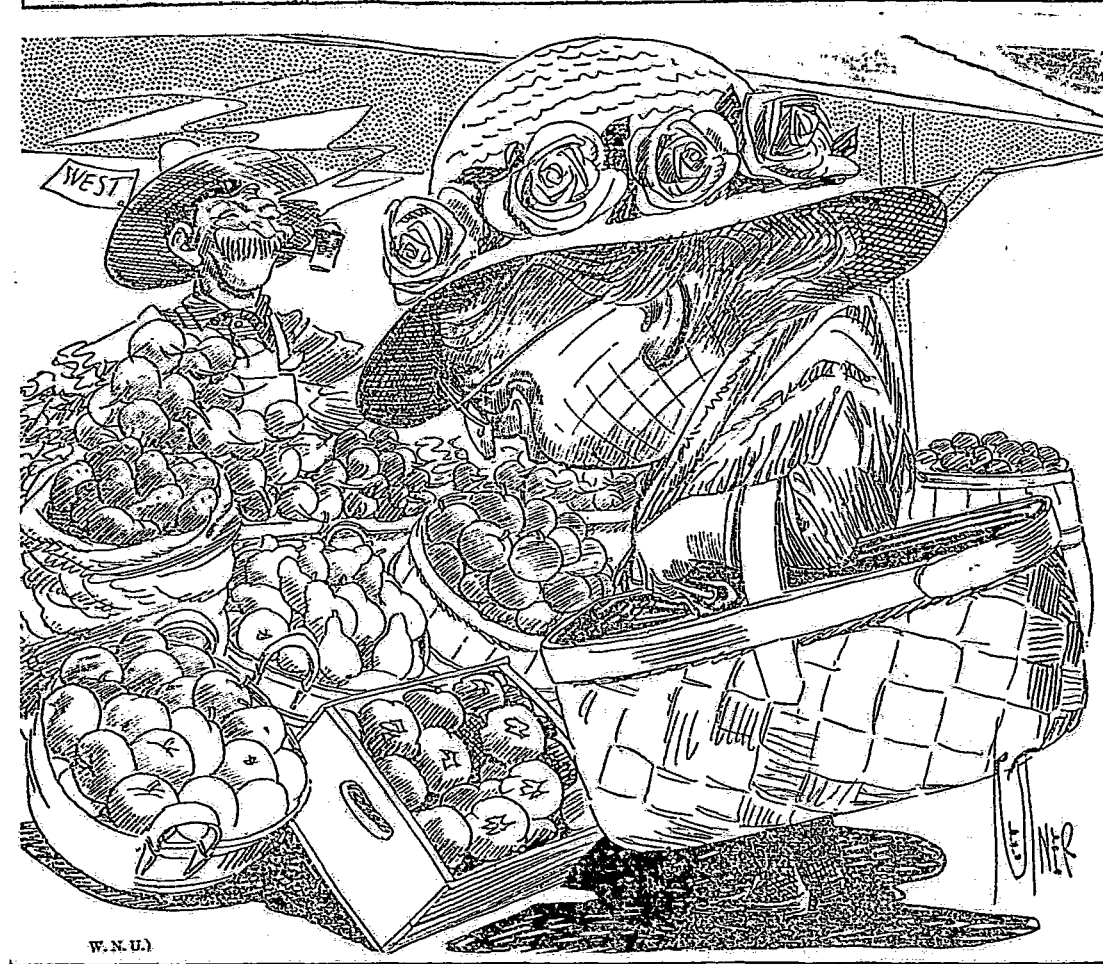

Paul Easton and other members
of the Berrien-Cass Boy Scout
canoe expedition camped last
night at the Evangelical Church
camp on the St. Joseph River, a
mile and a half east of Buchanan.
They report that they had a
fine trip to Three Rivers taking
eight days to reach that point.
They turned down stream Tues-
day morning, and plan to reach
St. Joseph in four days, arriving
there Friday night.

The main session at Camp
Madron will begin August 6.

Charles Maxson
Takes Possession
Buchanan Ice Co.

Charles Maxson, groceryman on
West Alexander Street, purchased
the Buchanan Ice Company from
John Hardiger Monday, taking
over the route Tuesday. He is
now operating the business him-
self but is considering employing
a driver to handle it.

The World's Market

BUCHANAN TO BE
SHOWN IN FILM
AT THE PRINCESSKRAMER FILM PRODUCTION
SHOOTING FEATURES OF
TOWN THIS WEEK

During the last week Buchanan
has been the center of a new
activity, namely a motion picture
production. The mobile studio
unit of the Kramer Film Produc-
tions nationally known as produc-
ers of civic pictures have been
here "shooting" the town for
Theatre.

Our city departments, streets
and everything of local interest
have been included by the camera
crew and within the next ten days
the picture will be on display at
the Princess after which it will re-
main in Buchanan as a historical
record of Buchanan in 1928.

Many of the mercantile and
the manufacturing establishments
have been invited to participate in
the review and the industrial sec-
tion will give a vivid portrayal of
how many of the things are manu-
factured for which Buchanan is
noted.

A special feature of the event
will be the actual taking of motion
pictures under actual studio con-
ditions on the stage of the Prin-
cess on Friday night at 9 o'clock
and through special arrangements
the producers have arranged to
shoot a few scenes using local
people in the cast. Through this
medium an opportunity is offered
anyone in Buchanan who would
like to see how they look on the
silver screen to have that oppor-
tunity as all that is required is to
have your name in at the box
office any time before Friday night
and to be on hand at the theatre
before 9 o'clock on that evening.

Marie Ham Wedded
To Melvin Shupe

Miss Marie Ham was wedded to
Melvin Shupe at 10 a. m. Tuesday
in the Three Oaks parsonage.
Father Oms of that place pre-
siding at the ceremony, and Miss
Lorraine Morstener and George
Franklin acting as witnesses.

After the ceremony they re-
turned to Buchanan where a wed-
ding breakfast was served at the
home of the brides parents on Oak
Street, after which the wedded
couple left for a ten day trip to
Niagara Falls.

The bride is the daughter of Mr.
and Mrs. William Ham, 406 South
Oak Street, and previous to her
marriage had been employed in
the Hamblin Jewelry Store. She
was born and reared in Buchanan
and has a host of friends here who
wish her many happy returns. Mr.
Shupe is foreman in the employ of
the Michigan Bell Telephone Com-
pany at Holland, Michigan, where
he has established a home for his
bride.

Arthur Culver Is
Injured in Auto
Accident Monday

Arthur Culver, an employee of
the Clark Equipment Company
plant, incurred cuts on the side of
his face and on the chin when the
car in which he was riding with
Morris Nelson collided with a car
driven by Ed. Kubis on the Clark
grounds early Monday morning.
Charges have been entered by
Culver and Morris to the effect
that Kubis was on the wrong side
of the street.

DANIEL MYERS
MEETS SUDDEN
DEATH FRIDAYOld Time Resident Gallien
and Buchanan Dies
While Working

CAME HERE 60 YRS. AGO

Daniel S. Myers, 74, a resident
of Gallien and Buchanan for the
greater part of his life, died
suddenly Friday afternoon while
working with a threshing outfit on
the Glenn Hasslet farm northeast
of town.

Mr. Myers had been in appar-
ently more than usual good health
Friday morning, telling his daugh-
ter, Mrs. Clara Baldwin, with
whom he was staying temporarily,
that he had not felt better for a
long time. Milton Bliss called
early in the morning, asking him
to help while the machine was
threshing the J. W. Terrill crop
on the Glenn Hasslet farm.

He went with Bliss, taking a
grain wagon. He was in appar-
ent good health and high spirits dur-
ing the day. Shortly after five
o'clock in the afternoon, while
loading the wagon in the field, he
was seen to bend over and slump
on the grain. At first it was
thought that he had fainted, but
when water failed to restore him,
a physician was sent for and he
was pronounced dead. He had
been a sufferer from heart trouble
all his life.

He was born in Ohio, Jan. 3,
1854. As a child he came with his
parents to Michigan, living until
several years after he came to
manhood at Gallien. There he was
married to Miss Samantha
Schradar of South Bend. Ten
children were born to this union,
of whom the following five are
still living: Mrs. Ida Cleghorn,
South Bend; Mrs. Winnie Drum-
meller, Mishawaka; Mrs. Clara
Baldwin, Burkhardt Addition of
Buchanan; Mrs. Edith Dewees, 121
West Chicago Street; Jacob Myers,
South Bend.

A few years after he was
married he moved to Buchanan,
making his home in the house on
South Oak Street, now occupied by
Mrs. Cephus Glover. There he
lived until his wife died 21 years
ago, since when he has made his
home with his children, moving
from one home to another.

He is also survived by the fol-
lowing brothers and sisters: Mrs.
Clarence Glover, Gallien; Mrs.
Cephus Glover, Buchanan; Will
Myers, Gallien; Mrs. Ella Pierce,
Syracuse, N. Y.

The funeral was delayed until
yesterday awaiting the arrival of
Mrs. Ella Pierce from Syracuse.
It was then held at 2 p. m. from
the home of Mrs. Edith Dewees,
121 West Chicago Street, Rev. J. J.
Terry preaching the funeral ser-
mon, and interment was made in
the Gallien cemetery.

Harold Boyce Gets
Fractured Wrist
In Cranking Ford

Harold Boyce incurred a frac-
tured wrist in his right arm
yesterday while cranking the Ford
truck owned by the Buchanan
Hatchery. He was taken to Dr.
Curtis, who accompanied him to
South Bend for an X-ray examina-
tion.

JACK KNIGHT IS
FORCED DOWN IN
NON STOP FLIGHTBUCHANAN AIR MAIL ACE
HAS BAD LUCK IN COAST
TO COAST FLIGHT

Jack Knight, son of Mrs. Emma
Knight, and a former Buchanan
resident, lost to mechanical
troubles Sunday in an attempted
non-stop flight from Roosevelt
Field, N. Y., to Los Angeles, when
his plane was forced down South
of Buchanan near Grand Island, Neb.,
on account of a defective spark plug.

Knight hopped off from Roose-
velt Field at 4:28 p. m. Saturday
in a Buhl Sesqui plane, accom-
panied by the designer, Etienne
Dorney, renowned also as a design-
er of the French Spads used dur-
ing the World War. He planned
to make the trip in 25 hours.

Knight first leapt into national
prominence as a flier in 1921,
when in air mail night tests he
flew unrelieved from Cheyenne to
Chicago, a distance of 1200 miles,
making the major part of the
flight during darkness. Knight
was to have been relieved at Miss
Omaha, but when no relief pilot
was available he refueled his plane
and went on to Chicago by dark-
ness over a course uncharted by
beacons.

Two years ago Knight made
another thrilling dash from
Cheyenne, Wyo., to Buchanan,
Michigan, in eleven hours and
fifteen minutes, to reach the bed-
side of his dying father. In all, he
is credited with a total of 100,000
miles of air flight.

W. C. T. U. Scans
Dry Records Of
Major Parties

The W. C. T. U. enjoyed a very
pleasant and profitable meeting
Friday afternoon at the beautiful
country home of Mrs. Emory
Rough on the South Bend road.

The meeting was called to order
by the president Mrs. Homer
Cooper, who acted as leader for
the day. There being no special
topic assigned, the program was
taken entirely from the July
number of the "Michigan Union",
the following parts being assigned:
The Republican Plank—Mrs. Mary
Pangborn.
Our Country's Flag—Mrs. W.
F. Runner.

Information about Registering—
Mrs. L. M. Otwell.
Greeting from the National
President—Mae Mills.

Plans were also made for the
distribution of more literature,
similar to that which has been
distributed in all the local churches
during the past few weeks.

Mrs. W. F. Runner and Mrs. H.
Cooper sang two beautiful solos
during the program. Delicious re-
freshments were served by the
hostess. There will be no meet-
ing in August.

Old William Rough
Homestead Passes
Into Alien Hands

The original George H. Rough
homestead, which had been in the
hands of the Rough family for
over 75 years, passed into alien
hands last week, when it was sold
by Elmer Rough to R. C. Atkinson
of Niles. The farm is located on
the Chicago road four miles south-
west of Niles.

Dick Pears Ends
Endurance Flight
In Twelfth Place

The air over Buchanan was vi-
brant Saturday morning with the
hum of 24 air planes, winging
their way to Detroit on the last
day's flight of the Ford National
Reliability Air Tour.

Interest was increased in the
flight from the fact that Dick
Pears was among the twenty-four
to successfully complete the flight,
receiving a rating of twelfth
among the 24, with a point rating
of 15,974.5 as compared with a
rating of 27,034.4 for the winner,
John Wood. Pears' standing
placed him just outside of the first
ten, who were included in the
money awards.

Pears drove a Fairchild cabin
plane, representing the Fairchild
company of Minneapolis, N. Y.

The planes sped over Buchanan
shortly after nine o'clock Saturday
morning, practically all being
visible from Buchanan. After stop-
ping at Battle Creek for a lunch
at the Kellogg Sanitarium, they
started on the last leg at 2 p. m.
Saturday, arriving at Detroit 50
minutes later.

STATE DECLARES
BUCHANAN WATER
FREE FROM GERMSANALYSIS BY LANSING HEAD
SHOWS ENTIRE LACK OF
CONTAMINATION

The Buchanan water supply re-
ceived a perfect bill of health from
C. C. Young, director of labora-
tories of the Michigan department
of Health, as the result of a
sample which was sent to them by
Archie Clark, village water works
engineer, on July 3d.

The analysis sheet which was
returned last week to Village
President, Claude Glover, showed
no fermentation discoverable in
10cc of water, although one part
in ten was allowable. There was
also no trace of typhoid or coli
infection due to sewage contami-
nation.

Director Young stated that a
representative of the state De-
partment of Health would be in
Buchanan at an early date to post
notices carrying the favorable
analysis.

Doris Swam Wed
Kalamazoo Man
At Gallien, Wedn.

A beautiful lawn wedding was
solemnized Wednesday at three
o'clock, at the home of Mr. and
Mrs. Henry Swam near Gallien
when their daughter, Doris, was
united in marriage with Mr. Earl
Rizor of Kalamazoo, Mich., son
of Mr. and Mrs. T. C. Rizor of
Battle Creek.

The bride was attended by Miss
Allene Ward of Kalamazoo, as
bridesmaid, Winifred Coors and
Maureen Stewell, of Kalamazoo,
dressed in pink and green crepe
and carrying baskets of white
daisies, preceded the bridesmaid,
who was attired in green georgette
and carried an arm bouquet of
columbia roses.

Little Betty Hamilton, of Bu-
chanan, dressed in powder blue
regarding the ring on a white
wedding pillow. She was fol-
lowed by the bride who was beau-
tiful in her gown of white crepe
Elizabeth. She wore a bandeau of
rhinestones in her hair, and
carried a shower bouquet of tea
roses.

They were met at the im-
proved altar of ferns and
gladioli by the groom and best
man, Mr. Phillip Reed, also of
Kalamazoo.

The impressive ring ceremony
was used by Rev. D. Stanley
Coors, pastor of the First Metho-
dist Church, of Kalamazoo.

Preceding the ceremony Mrs.
Leota Britton of Kalamazoo sang,
"My Love Is Come To Me."

Mrs. John Wood of Kalamazoo
played the processional of Loheng-
rin's Wedding March.

There were over one hundred
guests present, and they received
a large number of beautiful and
costly gifts.

The bride is a graduate of the
Gallen high school, and Western
State Teacher's College of Kala-
mazoo. Mr. Rizor is a graduate
of Marion high school and West-
ern State Teacher's College, where
he received his A.B. degree. He
holds a responsible position with
the Kalamazoo Packament Paper
company. They will be at home to
their many friends after August 6,
at 805 S. Rose Street, in their
newly furnished apartment.

The guests from a distance in-
cluded: Mr. and Mrs. T. C. Rizor
and Lola, and Mrs. David
Young, Mrs. Edward Ashley and
son of Battle Creek, Mr. and Mrs.
Arwin Faber of Greenville, Mrs.
Ray Bourne, South Haven, and the
following from Kalamazoo: Mr.

FIRE STARTS
IN 3D FLOOR
STORE BLDG.Desenberg Block Threatened
Monday By Flames Of
Unknown Origin.

WATER CAUSES DAMAGE

Livingston's and Maccabees
Suffer Main Damages;
Estimated \$2,000

Fire originating from some un-
known origin in the store room of
the Maccabees Hall on the third
floor of the Sig Desenberg build-
ing caused a furor in the busi-
ness section for a half hour Mon-
day afternoon, until the blaze was
extinguished by the fire depart-
ment, with total estimated
damages of \$2,000.

A mysterious feature of the
blaze was the fact that the third
story had been locked and no one was
known to have been in for two
months. The fire was first dis-
covered by passers by who saw
the smoke pouring out of the
roof. An alarm was turned in,
and the chemical truck was rushed
to the front of the building, the
hose being carried up the front
stair. Here it was found im-
possible to get at the fire on ac-
count of the smoke.

Meanwhile the pump truck had
been rushed to the rear and the
hose was carried up the fire
escape. Within a few minutes
after the water was turned on, the
blaze was out. It was found that
the fire had originated in a cup-
board in the store room, and had
not spread much further. The
plaster and wood work of the
store room were damaged by
smoke and the Maccabees robes
were slightly damaged, the total
loss suffered by the order being
estimated at \$75.

Some damage was incurred in
the rug department and reserve
stock room of Livingston's, lo-
cated on the second story, by
water mixed with chemicals which
found its way through the ceiling.
Some difficulty was incurred by
the crew manning the fire truck
from the fact that Russell Atherton,
lately deceased, had been ac-
customed to man the nozzle and
was the only one of the fire de-
partment who understood its
operation. Until this difficulty was
solved, the department failed to
get much pressure through the
hose.

Auto Takes Nose
Dive Into Clark
Lake Wed. Noon

There was an exciting half
hour at the Clark plant grounds
shortly after one o'clock yesterday
when a Chevrolet roadster, the
property of Grace VanHail of the
office force, apparently became
inbued with the idea that it was
a hydromobile and escaped the
control of its driver, plunging
through the spirea hedge on the
south side of the west driveway
and diving down the embankment
into the lake, where it embedded
in the mud so that it was neces-
sary to secure the services of
Herb Beck's crane to extract it.
Mrs. VanHail stated that the ac-
celerator became stuck and she
bent down to attempt to pull it
back with her hands, when the
machine escaped her control.

Two Residences
On Portage Street
Change Last Week

Two residence properties on
Portage Street changed hands last
week, according to Harry Boyce,
W. J. Kennedy of Chicago buying
the house at the corner of Central
Court and Portage, and Grace
Meyers buying the Ed Riffert prop-
erty. Kennedy is now making re-
pairs on his property preparatory
to moving his family here.

Blues to Travel;
Grays to Play
-At Home Sunday

The usual baseball schedule for
Buchanan will be reversed on the
coming Sunday afternoon, the
Grays engaging the Sarano Ma-
chine Company mine on the local
diamond, and the Blues journeying
to Christiana Lake to match skill
with the Elkhart Merch

Two very pretty girls met on the street and kissed each other rapturously. Two young men watched the meeting. "There's another of those things that are so unfair," said one. "What is that?" said his friend. He pointed to the scene: "Women doing men's work!" Pa (to his bright infant): "What's wrong?" Son (twelve years old): "I had a terrible scene with your wife."

Hints for the Home

—by Nancy Hart

Are you finding it difficult to keep the bed looking as immaculately dressed as though it had "just stepped out of a band box?"

Then have a look at the new tinted damask spreads and their cool smoothness will certainly tempt you to try them as a solution for the problem.

The damask surface is as satiny as one's best table cloth, and—like tinted table linen—stands a great deal of handling before it shows signs of soiling. Then the spread may be popped into a bowl of suds and laundered quickly, with no loss of its original beauty or texture.

The spread comes in maize, green, mauve, raspberry, amber—all shades that tone in with modern decorative schemes and provide an interesting color note for the room.

Macearoni Salad

Cut fine a cup of cold cooked macearoni and add to it a half cup each of shredded cabbage, diced celery, and green pepper; season and mold the mixture in lemon-flavored gelatin. Serve with mayonnaise and garnish with stuffed olives.

Jump in a Jiffy

When you hear a home-maker boast that she made raspberry jam in less than fifteen minutes from the time she took the berries from the ice box until pans were washed and put away you will know she used a short-process recipe and the natural jelling agent of liquid pectine instead of the long-cooking method used by old-fashioned cooks.

A Hint for the Hostess

It is a nice courtesy to keep on the pantry shelf a small supply of decaffeinated coffee or a cereal beverage for guests who do not use stimulating drinks. The personal thought pleases them immensely and adds much to their enjoyment of the meal.

To Whip Cream Rapidly

Wrap the jar in a wet towel sprinkled with salt; keep close to the ice for a short time before whipping, and add a pinch of salt to the cream.

Makes Them Like Carrots

Have you ever tried mashing and beating carrots as you would mashed potatoes? It makes them delicious, and even those who think they do not like carrots find them acceptable when prepared this way.

When Custards Curdle

Do not be alarmed if the custard curdles in cooking. If the saucepan is placed in cold water and the custard beaten briskly with an egg beater the texture will become smooth again.

Removing Tea or Coffee Stains

An easy way to take out tea or coffee spots is to apply a little glycerine to the spot as soon as possible. Then when washed the stain will come out easily.

To Peel Onions Quickly

If you will drop onions into scalding water for a few seconds before peeling the hard outer skin will come off very easily.

To Clean Piano Keys

Discolored piano keys disfigure the instrument and give an appearance of slipshod housekeeping. To bleach them, cover with a paste of prepared chalk and alcohol and when dry, remove, rub keys with alcohol and dry with soft cloth.

Protecting the Egg Beater

Put only the ends of the rotary egg beater in water, being careful to keep the cogs and wheels dry, or they will rust.

Cleans Smoked Ceilings

Painted ceilings that have become smoked may be cleaned by washing with cloths wrung out of water in which a small piece of washing soda has been dissolved.

Glycerine Removes Coffee Spots

Delicate material that has been spotted with coffee may be restored by brushing the spots with pure glycerine and rinsing in lukewarm water.

LAZY AUGUST DAYS

We know what is coming before we are fully awake. While we indulge in that heaven sent luxury of meandering back to life after a night of sweet sleep, there steals over us a sense of languor that is plainly of the very atmosphere of the air of lazy August, when almost every other person we know is off on a vacation while we are making excuses of "press of business" and everything else conventional to keep up our feeling of voluntary continuance hereabout.

This spirit of August is abroad throughout all our valleys. There is a certain tone of lassitude about even the matutinal boasting of Sir Chanticleer. His is not the bold challenge of April or May. It is merely a rather pertentory pronouncement of the persistence of the status quo then secured by his vigorous campaigning.

There are some reasons why August ought to be a "jazz" month. In nature the cicadas and grasshoppers and crickets and others of the tympanic persuasion touch up their instruments in consonance with the spirit of things. But it is a lazy, sleepy sort of "jazz," not the sort that blares and bangs and crashes in the ballrooms of January. On the whole there are many good reasons for preferring the August movements and renditions to those of winter, and amid the languorous hummings and buzzings of midsummer days we may luxuriate in a relaxation from the strenuous times when frost puts vigor into our mechanisms.

Along with the sweet fragrance of new-mown hay comes now the sweeter perfume of corn in the silk and an occasional breath of some scented grass or the aroma of the roadside fruit. A downy woods pecker flies victoriously as at any season into a nearby tree and announces with rattling call his arrival. He alone seems to have retained his energetic temper throughout these lazy days. The only difference is that he less seldom manifests it. His call is as though all his pent up energy had to be relieved in what is little more than an explosive sigh. It is truly explosive, however, and indicative of pressure behind it that differentiates it from almost any other August expression.

Bob whines in the meadows, flickers in the woods, blue jays on the hills sound the August motif. And like the wheezing accompaniment of bagpipes, that barbaric note in which the most virile and subtle race of today finds what it

CONTENT ELUDES US ALL

When one is born into this world naked, with no place provided in advance for shelter and no provision made for food, such person, if he have a grain of intellect, becomes a reformer. He questions the right of the more fortunate to be born to downy cradles or frescoed ceilings. He is earnestly bent on an equal distribution of the good things of the more fortunate or the better born.

On the other hand, he who is born rich or attains to riches soon learns that all the gorgeous creatures in their fine houses and automobiles, silks and laces, furs and diamonds, are chasing in the same race with himself—after the unattainable. The real aristocracy, like the foot of the rainbow, vanishes as he approaches.

There are two phases of life unfavorable to peace and comfort; the one is adversity, the other prosperity.

It is hard to tell in which a man is more discontented with himself and more offensive to others. When prosperous he patronizes;

When evil trouble falls upon him he whines and is a horrible bore. When he is down his friends wish him up on their own account; when he is high up they sigh for mountains to fall on him and bury him out of sight.

The only thing wrong with any country is the people.

A new broom may sweep clean, but it always wears out.

The hand that rocks the cradle doesn't roll the cigar.

The demand for politeness is great; but the supply is short.

Suppose the radio wave does travel more slowly than light. It gets there just the same.

A scientific item says that among those who use extremely fine wires are surgeons and dentists. And politicians.

5,000 ATTEND FARMERS DAY AT STATE COLLEGE

East Lansing, Aug. 2—Five thousand farmers deserted their harvest fields July 27 to attend the Farmers Day program of Michigan State College, and to compete in the series of contests held during the day.

The cradlers contest drew a large gallery which did not hesitate to express opinions on the technique of the contestants. E. A. Clise, Bath, aged 74, was awarded the cup offered for the best cradling; Joseph Shaw, Mason, aged 34 was the oldest cradler, and Thomas Howe, Aurelia Center, cut a forty-five yard long swath in the shortest time.

Mrs. L. W. Leffingwell, Owosso; Richard Paulus, Williamston; Clifford Spare, Howell; J. P. Hosen, Three Rivers, and Mrs. M. N. Stickney, Clarkston, were the winners in judging poultry.

A check for 100 dollars was won by the choir from the Flushing Methodist Episcopal church, Flushing. Other places in this contest were won by Walled Lake Methodist Episcopal, Walled Lake; First Methodist Episcopal, Clarkston; and Blissfield Methodist Episcopal, Blissfield.

The audience had difficulty retaining a position of unconcerned judicial calm during the dinner calling contest which was won by Mrs. John Curran, Crosswell. The carrying power and the seductive tones employed by F. E. Peck, Eaton Rapids, in the hog calling contest won him first place in that event.

Swallows Three False Front Teeth!

New York, Aug. 2—John Magee, railroad and coal magnate, is recovering from an odd experience with false teeth. During the course of a meal several days ago he discovered that three front teeth were missing.

He searched for them with no success. Suddenly a sharp pain went shooting through him.

He was X-rayed and the teeth showed up in a picture, thus clearing up the mystery of what had become of the teeth.

"Who is playing the castanets around here?"

"Don't be silly, that's my uncle eating his pie with his new set of teeth."

Earliest Newspapers

It is hard to say just when newspapers began, for the first papers, or pamphlets, publishing news, did not appear with any regularity. They appeared when there was something important to tell. For instance, there was a French pamphlet published in 1492 telling of the surrender of Granada by the Moors to Ferdinand and Isabella. Possibly there was another edition when Columbus discovered America, but no record has been found of that.

Women Not Allowed to Wear Trousers in Iowa, Kan.

Iola Kan., Aug. 2—Chief of Police J. J. Davis believes that trousers are all right in their place, but do not belong on women—at least, not in Iola.

Davis issued an order prohibiting women from wearing trousers in the streets of Iola, and sent two women out of town because they were wearing overalls.

Heavy Toad Migration

Due to Wet Weather

An unusual number of migrating toads is attributed by biologists of the United States Department of Agriculture to an extraordinarily wet season. There is on record a migration of thousands of these little amphibians along seven or eight miles of the Dallas-California highway on the east shore of Upper Klamath lake, Oregon. The toads were all moving in one direction across the road and automobiles were killing them by the hundreds. The live ones were hopping over the dead ones and continuing their journey. The dead toads probably rushed toward food for crowds and uncles, as there was scarcely a local toad to be seen when the same region was visited a day later.

These toads, upon emergence from their winter hibernation retreats, proceed to the shallow edges of some lake, pond or stream, and the female begins laying from 3,000 to 5,000 eggs. The hatching period depends upon the temperature, usually requiring from three to twelve days. The transformation of a tadpole to a young toad takes place some time between fifty and sixty-five days after hatching and under abnormal conditions may require two hundred days. The newly transformed toads leave the water and many of them perish before they find some sheltered retreat. Under certain conditions literally thousands of these young toads emerge from the water at the same time.

His Reason

"What on earth made you get such an enormous kennel for that tiny dog of yours?" asked the clown.

The other turned about and inspected his dog's kennel. Then he swung round and faced his questioner, an artful smile hovering round his mouth.

"Well, between you and me and the gatepost," he began, "it's because I sometimes come home late and my wife locks the door!"

Old Timer Harks Back To Ye Olde Town Days and Ways

"I suppose that you carry a memento of some sort in that pocket of yours."

"Yes, it is a lock of my husband's hair."

"But, your husband is still living?"

"O, yes, but his hair is gone."

So it is with many of the "old timers" in good old Buchanan and vicinity. The following articles written by an "Old Timer" are to be a sort of chat about different people and things as they were when we were in the old town.

Do you remember the old meat market that was run by Tip Tourje? Of course you do. It was in the old frame building at the corner of Front St. and Oak Street. "Tip" was short and husky, and had a red face. He had good meats and was always smiling. In the top of the room hanging from the ceiling was a large round decoration of issue paper that was always loaded with flies. It was the wonder of my youthful days, how they ever fastened it there. My mother would give me two bits and send me to the market to get meat for a family of seven, and I always brought back plenty of meat for that many people, too, for you will remember that 25c went farther then than \$2.00 will go at the present day. When I left home to go to this market barefooted and with a few clothes on as possible, I would run all the way to the market and keep repeating the order which my mother had given for the meat she wanted, and it would be "Twenty-five cents worth of veal" and I would say it over and over all the way to the market so as not to forget it. Mr. Tourje would know about what I wanted when he saw me coming and would try to mix me up on the order, trying to make me believe that I wanted liver instead of veal. "Them were the days of real sport," all right.

One of my oldest recollections is the little store that was run by Mr. Ballance. He sold school supplies, in a little store in connection with the postoffice. I think he afterward sold it to Mr. Binns. Remember Mr. Ballance? Big, fat fellow, ruddy complexion, and very quiet in manner. He waited upon you with a grace and dignity of one selling precious stones or dealing out prayer books. I was always very careful to speak my very best English when I went to his store. He had the very best slates and slate pencils in town, and would explain to you that you must keep the pencil sharp and not scratch your slate, etc.

Mr. Alexander had the postoffice at that time, and was ready at all times to hunt for the mail you might be looking for. He had sandy colored whiskers and was everlastingly stroking them while

he talked to you. He lived only two doors west of the postoffice, and sometimes would accommodate a late arrival when they came too late to get their mail, by coming over and getting their mail for them after he had closed up shop. I always had a warm spot in my heart for him. He seemed a real human being and was in presses the youngsters, if they are normal, I think.

Now we start down the street and one of the first people we meet is Truman Fuller, with his hominy pail on his arm. He was so short and fat that his pail nearly touched the ground. He made his own hominy and it was always just himself, as you will remember. Sometimes he would get too much of his hominy, and he would trudge slowly home to his little house north of town; most always someone would pick him up and give him a "lift," on his way. When he was "tipsy" he was quiet and noncommittal, so he wasn't bad company at any time.

Speaking of short men, such as Truman Fuller, we are reminded of a man about town that was as directly his opposite as two people could well be. I mean John Barnes. Over six feet tall with a busy look upon his countenance, and always in a hurry. Had a very good business in furniture manufacturing, and lived well and brought up his family in very good conditions. I think he must have been an Englishman, but that didn't hurt John, any. He was one of "the village dads," in fact was president of the village for some time. Was always prominent in all civic movements, and well-known and liked by all.

In those times one didn't have to wonder about his funeral arrangements for Jake Hahn was always the first to hear if any one was seriously sick. He also rang the fire bell in case of conflagrations, and was always in sight on the streets, waddling around with his peculiar walk, talking and laughing with young and old alike. He was one of the characters of the town, but one we are proud now, at this late date, to give full credit for being on the job and helping make Buchanan what it has become.

When we old timers go back, we see a few of the older ones still there, that were our age, etc., but the town has gone forward by leaps and bounds, to us as we see it and compare it with the old times. Those who live there are so used to it that they don't see the change, but I am proud of the development it has made and glad to call myself an old timer, from Buchanan.

Old Timer.

MRS. A. GLOVER WRITES HISTORY CHURCH OF CHRIST

WAS ORGANIZED DEC. 17, 1854
BY REV. WILLIAM ROE,
AUTHOR'S FATHER

The following history of the Christian Church of Buchanan, known in recent years as the Church of Christ, was written by Mrs. Abner Glover and read before a ladies' organization of that church. The William Roe mentioned as the founder and first minister of the church was the father of Mrs. Glover. Several others mentioned have descendants living here, among them the following: A. W. McCollum and Elizabeth McCollum, the grandparents of Clint McCollum, Cornelius and Susannah Sparks, the grandparents of Irenus Sparks; Jesse J. Roe, father of Herbert Roe; Dr. John Roe, grandfather of Arlin Clark.

The paper will recall many memories to the older residents here. With a few omissions, it is hereafter reproduced:

In the year 1851, Dr. J. M. Roe came to Buchanan to engage in the practice of medicine. Through his influence his brother, William M. Roe, was induced to settle in the very small village of Buchanan, early in 1854 to undertake the organization of a Christian Church. By herculean effort and gratuitous toil this object was accomplished, and a building for worship erected during the next five years and dedicated Sunday, Sept. 18, 1859 by that gifted minister, Elder Theodore Brooks, then of Troy, New York. This room was definitely designed for and was consecrated to the worship of God. Let it not be desecrated by use for any other purpose.

This country was then almost a dense forest. Lumber and building material were cheap, and without any financial remuneration the few members managed to do most of the labor. Charles Roe was the possessor of at least two strong horses, so he hauled the lumber from his mill north of town and attended to the team work. Bill Roe, Jr., and Everett McCollum did the carpenter work as their apportionment, so the actual cost of the original building was only about three thousand dollars.

After twelve years of continuous ministry, Wm. M. Roe left this congregation with an active membership of 250.

Since that the following pastors have served the church: Elder Marsh, J. B. Jackson, J. J. Roe, John Martindale, D. H. Gary, J. A.

Wilson, H. T. Morrison, Wm. P. Birdsall, A. M. Collins, J. B. Stover, Everet Gates, E. W. Brickett, B. H. Allen, N. H. Sheppard, W. G. McCalley, E. R. Black, W. B. Thompson, J. P. Martindale, H. W. Thorsen, A. T. Antry, J. J. Terry and perhaps others unintentionally not named.

At a meeting of the Disciples of Christ held at the school house in the village of Buchanan on Sunday afternoon, December 17, 1854, for the purpose of organizing a congregation for the worship of God in said village, Wm. M. Roe, A. W. McCollum, and Wm. P. Birdsall were chosen elders, and Newton Baldwin and Levi Sparks were chosen deacons.

The following persons then enrolled their names as members of the Christian Church: A. W. McCollum, Elizabeth McCollum, Maryette McCollum, Cornelius Sparks, Susannah Sparks, Newton Baldwin, Sophia Bates, Wm. P. Birdsall, Adella Birdsall, John M. Roe, Robert M. Roe, Wm. M. Roe, Harriet M. Roe, Jesse J. Roe, Anna Maria Roe, Levi Sparks, Maria Sparks, James R. Case.

To these charter members and those who soon thereafter entered into fellowship with them, has the Christian church in Buchanan owed its existence during the years that have intervened since its organization. These have ever constituted the bone and sinew of the church. Coming to Buchanan in 1851, Asahel W. McCollum was among the first settlers in this region of the county, and was one of the gifted who on December 17, 1854 gathered together in a congregational capacity. Except for a short residence in Rolling Prairie, Ind., he was an elder in this congregation until July 31, 1868, when he was called to the greater congregation above.

Wm. P. Birdsall also acted as elder in this church from its inception until the close of his earthly career. Many of us well remember his more than ordinary dignity and ability as a public speaker.

Both these men were manifestations of true Christian patience, humility, and resignation, and their lives triumphant approached even the Bible requirements of an elder.

Wm. P. Birdsall was too busy about his Master's business to accumulate much of this world's goods.

Very soon after its organization, Eli Roe, Sr., and Margaret Martindale Roe, his wife, mostly on account of prospective religious privileges, left their farm home on the prairie north of South Bend, Ind., and came to Buchanan, where they spent the remainder of their lives surrounded by their eight sons, one son having shortly before this departed to the great unknown, and two daughters, all

for many years very sustaining and important in the success of this church.

In this very edifice, for from forty to fifty years, at prayer meetings, Sunday services, and on innumerable funeral and other occasions, always in tune, has been heard the golden and superlative voice of Jesse J. Roe, he of the "ninety and nine." Are we then so soon forgotten when we're gone?

To all these we owe a debt that never can be paid till the check is cashed in the Bank of Heaven. Let us stand with uncovered heads in their invisible but majestic presence, and while flowers of appreciation are being laid upon their graves, let these divine words be read: "These are they which came out of great tribulation, and have washed their robes and made them white in the blood of the Lamb. For the Lamb which is in the midst of the throne shall feed them, and shall lead them unto living fountains of waters; and God shall wipe away all tears from their eyes."

At the close of the Sunday morning service it was customary for the early Christians to go around and about amid happy tears, with solemnity take "In parting hand" with all present, as if possibly preparing for the final separation and entrance into the "house not made with hands." That the sanctity of the church was indelibly impressed on the minds and hearts of the rising generation, some of us can testify. In decorum, faithfulness, devotion and piety, let the present membership emulate the founders of, and first adherents to, the Christian Church in Buchanan, Michigan, seventy years ago, organized by Wm. M. Roe, December 17, 1854.

John Ham Tells Of Lifetime Spent Boosting Castoria

Started Sweeping Out Drug Store; Rose to Control \$1,000,000 Budget

A half century ago John Hamm then a boy in his early teens, "washed the windows and swept the floor and polished up the handle of the big front door" in the old drug store then located on the present site of the First National Bank and owned by W. A. Severson. And so faithfully did he keep his charge over small things that 20 years later he was not the "admiral of the queen's navy" perhaps, but a long ways up in the line of succession—director of advertising for Fletcher's Castoria, with a million dollar budget.

Hamm is now in Buchanan from White Plains, N. Y., on his annual summer visit at the home of his sister, Mary Hamm. He was born on a farm three miles north of Niles, but his parents moved when he was small to Buchanan, where he grew up and attended school. At the age of fourteen Hamm got a job in Severson's Drug store. First he worked nights and mornings and holidays. Then his work began to overshadow school in interest, and at the end of his junior year in high school he persuaded his father to let him break off the educational process, at least as far as school was concerned and put in full time at the drug store. After three years he went to Chicago and secured a place as clerk in the Fuller and Morrison Drug Store, then one of the largest in the metropolis.

But even the walls of the drug store irked him, and he cast his eyes about for a job on the road. His application was in for a place as travelling representative for the Fuller and Morrison Company, and he had been promised a place as soon as there should be an opening.

Then came his "big break." He went to New York City on a visit with relatives. While there he chanced to pick up a copy of the New York Herald and noted an advertisement inserted by the Centaur Company, manufacturers of Castoria, calling for a travelling representative with a knowledge of drugs. He answered the advertisement and started on a career with the Centaur Company that lasted close to a half century.

Hamm spent 11 years as traveling representative of the company, his business being placing advertising in newspapers in all parts of the United States and Canada. In this capacity he travelled many parts of the West when that district was yet an Indian infested wilderness, making hundreds of miles by stage coach. In 1893 he was called to the company headquarters at New York City and placed in full charge of the advertising, with authority to select copy, assign it to metropolitan papers, with an advertising fund that ranged from \$500,000 to \$1,000,000 in days of "outthroat competition" between the proprietary medicine companies.

He held this position until 1923, when the Centaur Company was purchased by the Sterling Remedy, a giant combine financed by great banking interests and owning a long string of proprietary medicines that had formerly been manufactured by independent companies, competing with the Centaur Company.

With the amalgamation of these interests, national advertising on the scale previously practiced became a thing of the past, and advertising appropriations were cut to fractional quotas. Hamm then quit the employ of the Centaur Company which still nominally retained its identity, and set up an office at White Plains, N. Y. as

"counselor in national advertising" with advisory connections with a number of great drug companies, which business he still follows.

Advertising methods have changed greatly since the eighties and 'nineties when proprietary medicine space provided the principal income of the newspapers, according to Hamm. The Centaur Company however was always scrupulous in its advertising methods, eschewing the old style "testimonial," which was usually spurious. Only the testimonials of practicing physicians were used by the Centaur Company.

A Real Improvement in the Fit of Silk Hosiery

You may now purchase some truly remarkable hosiery. This new hosiery is made in a new and distinctive way—by a patented process, to properly fit your feet.

1. Glove-Fitting Instep. Now your hosiery will fit you perfectly at the instep—just like your gloves fit. This is accomplished by removing the unnecessary fabric at the instep and adding fabric at the sole where it is needed.

2. Smooth Toe. The Ironclad toe is beautifully pointed because all excessive fabric at the toe is eliminated. Thus all folds, puffs or wrinkles at the top of the toe, customary with the usual type of hosiery, are completely eliminated.

3. Non Wrinkle Ankle. No wrinkles or fullness at your ankle any more. Compare this new Ironclad Hosiery with any hosiery you have ever worn for perfect fit at ankles and instep, and for elasticity and foot comfort.

4. Snug-Fitting Heel. The heel fits snugly. No wrinkles. No folds. Shaped exactly like your own heel. The best fitting and most comfortable feeling stockings you have ever worn.

5. Knit-to-Fit. No uncomfortable seams, wrinkles, or knots. The foot is placed at correct angle to leg. With this construction there is absolutely no tendency to wrinkle or fold at the instep or ankle.

From the top to the beautifully pointed toe this hosiery represents impressive value and genuine comfort. You have awaited and wished for this new and different hosiery. May you wear and enjoy it with supreme comfort, happiness and pride.

THE SOCIAL CIRCLE

CHURCHES - LODGES - CLUBS - SOCIETY

The regular meeting of the Royal Neighbor lodge was held Friday evening at the Front street hall. Several interesting talks were given. Mrs. Ada Schwartz gave an interesting account of her trip to California and short talks were also given by Mrs. Edna Heckathorne, of Dayton and Mrs. Martin, of Indianapolis, Ind.

The Fortnightly club held a theatre party in South Bend, Thursday afternoon, followed by refreshments.

Twenty-four members of the "Mothers and Others" club, of Three Oaks, motored to Buchanan, Thursday, where they were joined by Mrs. Ray Kiefer, of Main street, a former teacher in the Three Oaks school. The entire party then motored to Niles, where they spent the day as guests at the home of Mrs. Paul Johnson.

The members of the Orchard Hills Country club entertained at a 6:30 o'clock dinner followed by bridge, Thursday evening. Mrs. J. A. White and Mrs. Loren Howe won the honors among the ladies and J. A. White and Arnold Webb held high honors among the men.

The Past Noble Grand club of the Rebekah lodge, No. 248, entertained the F. D. I. club at the hall on Front street, Thursday evening. Eunice formed the diversion of the evening. F. D. I. prize winners were: Minnie Smith, Dora Boone and Mrs. Mona Dellinger. Those of the P. N. G. club winning prizes were: Mrs. Harley Squier, Betty Smith, Mrs. R. F. Hickok and Mrs. Hathaway. Light refreshments were served.

The members of the Ladies Aid of the Church of Christ held an automobile supper at the church, Thursday night. Regular weekly prayer meeting followed. The Rev. Jesse Griffith spoke on the subject: "Getting a Thrill Out of Christian Life."

About 20 members of the American Legion auxiliary attended the all day session held at Clear lake, where they were the guests of Mrs. Charles Fuller. Pot-luck dinner was served at noon. Swimming was the diversion of the day.

The annual Alumni Banquet of the Buchanan Schools will be held Saturday evening, August 25th in the American Legion Hall at 6:30. A prize complete program will be given later.

Elephants Were Lightest

The true dance brings the highest possible bodily perfection. Through it one can attain perfect poise. It is not a question of weight. A few years ago, in the Hippodrome, I saw a troupe of dancers. They were little girls, none over seven. Yet their little bodies were tense and rigid, and they came down bump! Then came some performing elephants. The beasts weighed thousands of pounds, yet as they danced from side to side, no one could hear the sound of their feet. The animals had poise—they were at ease, and they had natural understanding of the laws of balance and movement.—Edwin Stravbridge in the Dance Magazine.

Two I. & M. Men Seriously Hurt This Morning

Herman Boyer Struck By Car; Herbert Horn Fell From Pole

Herman Boyer and Herbert Horn, both employees of the Indiana & Michigan Electric company, suffered painful injuries this morning while at work on the maintenance crews west of Buchanan.

Boyer incurred a broken right leg when he stepped from the rear of the company truck directly in the path of a Ford car which was approaching from the opposite direction. The smaller bone of the lower leg and an ankle bone were fractured. The accident occurred a mile west of Three Oaks.

Herbert Horn incurred a broken bone in his heel when he jumped 25 feet from a falling pole, lighting on his feet on the concrete pavement. The pole had rotted at the base.

Pigeon Got Through

A homing pigeon was liberated with an important message at Grand Pre, during the World war, at 2:35 p. m. during intense machine gun and artillery action. This bird delivered its message to the loft at Rampton, a distance of 24.31 miles, in 25 minutes. One leg had been shot off and the breast had been injured by a machine gun bullet, but even under these conditions the bird delivered the message.

FARMERS OF BERRIEN HOLD ANNUAL MEET

Barney Kizer and Mrs. Ruth Metzger Are Winners Calling Contests

HINCHMAN WINS GAME

Barney Kizer of Three Oaks was top hog caller in the contest held yesterday at the Berrien County Farmers' Picnic held at Indian Fields, the judges awarding him the prize of a hamper donated by Runners Hardware for the best volume and invitational quality.

Mrs. Ruth Metzger of Berrien Springs led a field of nine housewives in broadcasting the groceries her dinner call satisfying the judges best. Others who competed in this event were: Mesdames Anna Martin, Ida Wagner, Fattie Davis, Hannah Dumas, Wiseman, Matti Lockinaw, Carpenter. The winner received \$1.

Winners in the races were as follows:

Under 12 years: first, Andrew

Zeck of Berrien Springs, pocket knife from Runners Hardware; second, Edward Eifenback, St. Joseph, fifty cents.

Under 12 years (girls): first, Dorothy Hansen, Berrien Springs, St. Joseph, fifty cents; second, Alice Bender, St. Joe, fifty cents.

Free for all race: first, Ralph Phelps, St. Joseph, \$2; second, Vernon Read, Berrien Springs, \$1.

In the baseball game, the Hinchman nine defeated the Michigan Central Reserves of Niles, 7-5.

A good crowd attended, nearly all from the berry districts of Berrien Springs and St. Joseph, where the close of the raspberry harvest brought a lull in work.

Due to the rush of threshing activities, the attendance from the Buchanan district was small.

Lawyer, 76, to Hike Through Europe

Philadelphia, Pa., Aug. 2—Samuel E. Cavin, seventy-six-year-old Philadelphia lawyer, has left for a three months' walking tour through Ireland, England, Scotland and France. He will limit himself to 500 miles per month. This is taking it easy, as Mr. Cavin is able to do forty miles a day without trouble. Several years ago he hiked 61 miles in one day. To celebrate his seventieth birthday, he walked 70 miles. He has celebrated each succeeding birthday by walking 50 miles.

FARM GRANARY EXCESS BAGGAGE SAYS MANAGER

GROWER WHO HOLDS WHEAT FOR HIGH PRICES BETTER PROTECT BY HEDGING

The granary on the farm for the purpose of holding grain for higher markets is an institution that has not a leg to stand on, according to Frank Harrington, manager of the St. Joe Valley Shipping Association.

The safest policy for the farmer in marketing his wheat, according to Harrington, is to get a fleet of trucks and rush it to the market. At that time, he has more wheat in pounds weight than he will have at any later date. Then, in case he is not satisfied with the market, let him protect himself by buying December futures.

He will receive the market price of his wheat; he will pay down 20 percent of the market on his hedging. In that way, he will have approximately 80 percent of his crop returns at once, plus the opportunity to benefit by any future market advances.

By this procedure, he will save the first cost of the granary, its upkeep, the interest on 80 percent of his crop returns, the loss from shrinkage, mice and other causes, the disadvantage of double handling and of winter marketing over bad roads. If the market satisfies him at any date before December 1, he can sell, but he will settle on his hedging in December, either taking the advance or paying the loss, which is in substance exactly what he would have done had he held the wheat in the granary.

If he is still unsatisfied with the market, he may settle his December hedgings and then buy May futures.

Although this is condemned as gambling by some, the farmer who holds his grain in the bin is ten times the gambler on every count, according to Harrington. Everything is in favor of the man who does not have the grain on his hands.

Sweepstakes Race Will Be Held In Kalamazoo, Aug. 12

Kalamazoo, Mich., Aug. 2—This city has been awarded the Great Lakes sweepstakes 100 mile auto race that annually is awarded to some city in the middle west. The date set for the big motor classic is Sunday, August 12th. Detroit held the test last year. The race in addition to the usual prize money carries with it the middle states championship and a cash bonus. In past events of this nature drivers from every section of the country compete for the sweepstakes crown. This years race should be no exception. In fact with the granting of sanction No. 2021 by the contest board of the American Automobile Association for the August 12th classic, officials in charge believe that a great many of leading drivers in this country will enter the Kazoo battle.

Over fifty entry blanks have been sent out to A. A. A. registered drivers and indications are that the number of nominations will exceed the number of starters at Indianapolis this year. Entries close August 10th at midnight.

The local track is considered one of the fastest mile ovals in this section of the country, which incidentally played an important part in the awarding of the sweepstakes to this city.

Californians Certainly Like to Weigh Themselves!

Sacramento, Cal., Aug. 2—Californians spend \$5,000,000 a year to find out how much they weigh.

HARVESTING OF PEPPERMINT ON IN BARODA DIST.

ACREAGE IS CUT IN HALF ON ACCOUNT LOW PRICE AND WINTER KILLING

The peppermint harvest started this week, ten days behind the normal date on the farms of Beebe Brothers, leading mint growers of Berrien County, at Baroda and Niles, and on the holdings of other growers in the mint section, with about half of the normal acreage, due to winter-killing and to reductions in acreage on account of lower prices for the distilled product.

Mowers were started the first of the week and the stills are scheduled to begin Friday and Saturday. Beebe Brothers report 300 acres on their Baroda farm this year, as compared with 700 acres three years ago when the price mounted as high as \$25 per pound. The price is opening this year on the New York market at \$2.75 per pound.

The mint beetle added to adverse winter conditions to cut down the crop, and as a result the growers are turning to cabbage,

sugar beets and other cultivated crops in place of the mint.

BERRY MARKET IS STRONG AGAIN AS HARVEST CLOSES

REDS CLOSE AT \$2.50. BLACKCAPS AND BLACKBERRIES ARE LOWER

Red raspberry growers are closing their accounts this week after one of the most variable markets in the history of the industry here, prices having started at \$4.50 per crate, tobogganed down to 80 cents per crate and then climbed back to the closing figure of \$2.50.

Growers will make good returns this year, due to a better than average crop, plus a fair average price. The last of the red raspberries came in the first of the week, but a few black raspberries are still coming, with offerings of only \$1.25 per pint crate. Blackberries were on the Berrien Springs market this week, growers receiving only \$1.25 per crate.

The first of the Yellow Transparents and Dutchess apples were also sold at 75 cents per bushel. Cucumbers sold at \$1.90 cents and 75 cents, per jumbo basket of four quarts, according to grade.

PRINCESS THEATRE

"The August Princess Theatre programs will be the finest I have ever presented," declares Manager Homer P. Morley. Fans will sit up and take notice at this, knowing the splendid past offerings.

From the opening feature, "Seventh Heaven," to the last days of the month with Al Jolson in "The Jazz Singer," with the spoken word and Al Jolson's own singing reproduced, no metropolitan house can offer anything better.

"Seventh Heaven" has been listed by critics as one of the ten greatest movies ever produced. It is an adaptation of the famous John Golden play, by the Famous Players, assuring supreme quality in every feature. It is here today and tomorrow.

"The Jazz Singer," which Mr. Morley secured too late to be on the printed programs, created a furor in Detroit last week. The most famous of all modern minstrels was heard to sing again, and to stand before the audience in his own inimitable way, and his aged mother sat in the

Tickets are being sold already for this show, August 7 and 8. It deserves packed houses, for its worth as a show, and also for the intended purpose.

Animals are represented on the screen in August by Silver Buck, Buck Jones' delightful horse, and Dynamite, the dog in "Four-Footed Ranger." Karl Dane and Geo. K. Arthur are seen in "Circus Rookies," which includes not only the circus, but a hair-raising runaway train and a fearsome gorilla. Many other favorites are on the program, and will be announced in the advertising week by week.

EARLY POTATO CROP GOES ON MARKET AT 90c BUSHEL

Early potato harvesting started last week, with prospects of a crop averaging 100 bushels, and with prices starting at \$1 and ranging down to 90c this week. The acreage is lower than usual this year, but yield is above normal in many sections and of good quality.

Berrien County Highway Travel Shows Increase

Vehicle traffic in Berrien county has shown a large increase thus far this year over that of last year, according to figures released today by M. V. Carmody, superintendent of maintenance for the state highway department.

The crowds of visitors in and about the twin cities and the balance of the county last Sunday indicated that traffic was much heavier and today's figures bear that indication out.

The official state count taken last Sunday revealed that 8,734 vehicles passed the lighthouse, dance hall at New Buffalo in a

period of 14 hours, from 7 a. m. to 9 p. m. This shows a big increase over the figures of last year for the same place and same number of hours. Last year there were only 6,871 vehicles checked. These figures were taken on U. S. 12, at Grand Beach on U. S. 12 the increase was even greater, being 9,154 vehicles for last Sunday and 6,480 vehicles for a year ago last Sunday.

Other spots throughout the county where officials' counts were taken reveal that traffic was correspondingly increased as at the two places quoted above.

In the entire county there were eleven official counts made as follows:

U. S. 12 and new road north of Stevensville, 5,814.

U. S. 12 and 31 at Coloma and

county road, 7,680.

U. S. 12 corner of new road at Bridgman, 6,430.

U. S. 12 Lighthouse at New Buffalo, 8,734.

U. S. 12 at Grand Beach, 9,154.

U. S. 31 and Stevensville road, 3,280.

U. S. 31 and Watervliet road north of Niles, 4,952.

U. S. 31 at Bertrand, 9,026.

M60 between Niles and Buchanan, 2,372.

U. S. 31 and Bangor road just north of Covert, 4,751.

Radio and History BY R. M. SHERKILL Radio Engineer

The recent Independence Day celebrations remind us that radio has a long list of useful accomplishments to its credit and that not the least of these is its teaching of history to the American public. There is not a national holiday or scarcely any important anniversary date of an historical event or of a great statesman that passes without some radio comment. This comment frequently runs into a complete dissertation on the particular event or the particular man, which is both interesting and instructive.

Many of us who remember what a bitter pill the compulsory school study of history used to be, now enjoy the radio lessons and yearn for more. It may be that radio will eventually wipe out the stigma that Americans have abroad of being so poorly informed on their own history.

Airplane Radio Makes Record

An unusual distance for an airplane transmitter was covered recently when a coast guard seaplane operating off the coast of Florida was heard by the Block Island radio station, off the coast of Rhode Island, 1,200 miles away.

Pilot's Radio Helmet Improved

Radio helmets worn by pilots of army aircraft are to be the last word in comfort and convenience. The latest of a series of improvements made by the radio engineering division of the Signal Corps, which designed the helmet, is a chamois pad on the chin strap. This pad eliminates the discomfort of strap or buckle rubbing against the pilot's chin.

Two tiny ear cups, connected to the radio receiver, are inserted in pockets between the lining and leather.

One of these helmets would be just the thing for home use when you wished to cut out the local interference caused by a bunch of kids in the room.

"Wave Wobbler" Gets the Axe

The federal radio commission has ordered station WNBA, maintained by Michael J. Rafferty at Forest Park, Ill., to discontinue operation indefinitely because of failure to keep within the kilocycle assignment allotted to the station by the commission. The order of the commission constitutes the first case in the Chicago zone in which a station has been summarily closed down.

WNBA, authorized to operate on a 1,440 kilocycle assignment with 200 watts of power, has been dividing time with WJBZ at Chicago Heights. Numerous complaints have been received by the commission that the Forest Park station had been "wobbling" in its kilocycle operation and had caused interference with other programs by failure to keep within the maximum deviation.

RADIO QUESTIONS AND ANSWERS

Q.—W. E. S. says: "I have a tickler-tapped honey-comb coil receiver that I have been using for some time. As it is now used only for broadcasting stations and as it interferes with my neighbors' sets, I would like to make it non-regenerative. I would like also to add a second tube. How can these changes be best made?"

Ans.: You could add the extra tube as an audio frequency amplifier. To do this replace the tickler coil with the primary of the audio frequency transformer, using the standard amplifier circuit. The primary of the transformer should be by-passed with a 0.001 mfd fixed condenser.

Q.—E. E. C. asks: "Will you please let me know on what wavelength the naval observatory time signals are transmitted from the Arlington station?"

Ans.: These time signals are sent by station NAA on a wavelength of approximately 2600 meters.

METHODISTS WILL MEET AT CRYSTAL SPRINGS, AUG. 5-12

Summerville, Aug. 2—The date of the seventieth Camp-meeting of Methodists at Crystal Springs Camp Grounds near here has been announced for August 3 to 12 inclusive. Already the grounds and buildings have been prepared for the constantly increasing crowds that spend their summer vacations under the forest trees alongside the Dowagiac Creek, seven miles south of Dowagiac and eight miles north of Niles on M40.

The trustees have made numerous improvements in sanitation, water supply, shelters, cottages and conveniences. The board now consists of Attorney W. F. Harvey of Benton Harbor; Robert Rahn, St. Joseph; C. L. Valentine, treasurer; Berrien Springs; T. S. Burnett, Kalamazoo; Fred Franz, Niles; Charles Funk, South Haven; H. H. Rider, Sturgis; and A. H. Hiller, secretary, Buchanan, with Dr. Robert E. Meader, district superintendent, ex-officio chairman.

The great spring for which the camp was named, was made famous in those old days when Methodists came from a hundred miles around in wagons drawn by horses or oxen, or walked or rode horses, and camped under the trees in covered wagons or tents, and cooked out-of-doors to be present for the annual revival. Almost a calamity happened a few weeks ago when drainage engineers accidentally cut the source; but they say they will have it running again for the opening of the campmeeting. To make sure of adequate water supply, wells have been lowered and large pumps installed and there is an abundance of water on the grounds.

The big hotel has been put in order, and repairs made on furniture and dining room, where 2,500 may be seated and fed. Signs pointing to the Camp have been put up for miles around. Hundreds of autos are expected daily and free parking space is provided. Admission has always been free.

The Kalamazoo District consists of Berrien, Cass, Kalamazoo, Van Buren and St. Joseph counties. About seventy five Methodist churches will be practically closed during the camp period. Scores own cottages on the grounds and will live there, and other cottages are being engaged.

Great changes have come over the meetings since the beginning. Not all of the time is now devoted to revival preaching. There are classes and conferences on social, political, industrial, and educational problems, as well.

A successful effort has been made to appeal to men who are active in business, professions, and politics. "Instead of just learning to be good," says Dr. Meader, "they will learn how to be good for something. It is to be a revival of physical and intellectual power, as well as of normal adjustments."

In line with the more modern policy, Dr. Elmer Guy Cutshall, president of Hiff Divinity School of Denver University, has been brought here again to preach each day. In line with the great preachers of the past, such as Bishop Quayle, Bishop Simpson and Bishop Matt Hughes, he is said to satisfy the most exacting in his forensic ability as well as his keenness of intellect, which is compared favorably with that of Bishop Francis McConnell, the outstanding thinker of the board of Methodist Bishops.

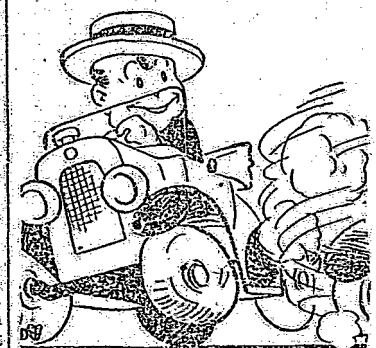

Dr. Cutshall will discuss "Contemporary Thought" before a class of laymen and pastors each morning at 8:30 during the week. This is in addition to his sermons, and promises to be a real stimulus to gray matter. However, he is not the only appeal to men.

Dr. Clement D. Rockey is a world leader, statesman, teacher, writer and translator of the Bible. He is a traveler and student of international affairs who will conduct another discussion period daily at 9:30 for laymen and pastors on International Relations. Dr. Rockey was born in India, married a girl born in China, graduated from Ohio Wesleyan University and studied a year in Jerusalem after graduating from

Drew Theological Seminary. He returns to India next year.

Other famous preachers will be present and preach at one of the three meetings each day, outside of class hours. Music, pageantry, picnics and social good times will make this camp, which opens next week, a fit place for vacation for the entire family.

Sparton Presents

A Revolutionary Radio Development

The EQUASONNE

Again Sparton's pledge to maintain a position a year ahead of the radio industry as a whole is fulfilled. After pioneering the development of All-Electric reception, Sparton introduces another and equally important innovation—the EQUASONNE circuit.

In range it will increase the number of stations which can be heard by more than 300 percent. This is done partly by better distance reception but mainly by making stations with short wave lengths more satisfactory in reception.

In tone qualities a new fullness and depth is attained by tuning squarely across a definite wave band instead of tuning "to a peak" in the center of a band, thus reproducing faithfully the overtones on which rich quality depends.

The Equasonne eliminates practically all alternating current hum.

Much improvement has also been obtained in the ratio of signal to static, thereby reducing this interference.

The Equasonne will soon be on display at MATHIE'S BATTERY SERVICE

The Human Sphinx

Read of the mysterious happenings in the home of John Drane—one of the finest houses in Westcote—the scene of a baffling murder—

Why was the undertaker the most frequent visitor at this house of mystery, over which hovered the shadow of death? Why were all the servants at this house sufferers from chronic ills? What did Simon Judd, amateur detective, know about John Drane?

Mystery of Brain

An "Institute of brains" has been opened in Moscow for special research into the "mysteries of the human nervous system" and the brain, says Popular Mechanics Magazine. One of the aids in use there is a remarkable instrument that divides the brain into five equal sections, and makes a wax impression of it at the same time. After this, the organ is cut into 25,000 to 30,000 thin slices for study under the microscope. The brain of Lenin, the late Russian leader, has been studied in this way and directors of the institute propose to examine the brains of other great persons in Russia after their death.

Evan. Church of Portage Prairie Forms Orchestra

The newly formed orchestra of the Portage Prairie Evangelical Church held an organization meeting recently, electing the following officers: president, Mrs. Car-

son Houswerth; vice president, Glenn Vite; secretary, Trilla Rough; treasurer, Wilma Carling.

This orchestra was organized at the beginning of the summer by Albert Houswerth to assist in the church services, in place of the old orchestra which was disbanded a few years ago on account of the death of the leaders. Its personnel at present is as follows: leader, Albert Houswerth; violins, Esther Rhoades, Florence Mitchell, Wilma Carling, Edna Vite, Garman Houswerth, clarinets, Glenn Vite, Mary Kandupa, Lena Houswerth; cello, Trilla Rough; flute, Robert Kall; cornet, Joe Kandupa, Stanley Mitchell; saxophone, Donald Rhoades; trombone, John Kandupa; piano, Mrs. Carson Houswerth.

Her father retiring for the night at twelve o'clock says to the boy friend: "Give me a call when you go, please, I've got to be up early in the morning."
