

HIGHWAY TRAFFIC HELD IN ICY VISE

FRIDAY AND SATURDAY WILL BE OPPORTUNITY DAYS

CAR TRAVEL BROUGHT TO STANDSTILL

Scores of Cars Go In Ditches On All Roads.

BUSES STOPPED Duration Surpasses Any Previous Experience.

State highway trucks took the field this morning strewing main trunk roads in this vicinity with salt to break the worst ice blockade which Buchanan has experienced in the memory of the oldest residents here.

The icy road conditions, which began with the freeze following the rain of Thursday, Jan. 3, were made much worse Tuesday by a rain and sleet which started in the morning and then froze to the pavement about 4 p. m. effectually tying up traffic.

That night scores of cars driven by Clark employees living in outside points went into the ditches on all roads leading from Buchanan. Wreckers worked night and day to extricate cars from difficulty, but so bad was the situation that much of the time the wreckers were in trouble. At one time Tuesday night 56 cars were reported to be in the ditches at the side of M-60 along the twelve stretch from Buchanan to the hill opposite the Orchard Hills Country Club golf grounds. In the morning a Buchanan man who returned from Niles on foot reported 27 cars which had apparently stood in the ditches all night. That evening a car which negotiated the Portage Prairie road from South Bend to Buchanan reported 39 cars in the ditch along the way. At various times the number of cars in the ditch between Buchanan and Niles were estimated from 25 to 40, other cars sliding in faster than the wreckers could extricate them.

No serious accidents were reported, due to the fact that cars crept along at a slow rate. Several cars went through the fence into the fields at the turn in M-60 about a mile west of Buchanan. Several top-heavy trucks which went into the ditch turned over without damage, among them being the large yellow Ziebart's Pure Food truck, a meat truck from Dowagiac, and an oil truck. A large seat truck bound west from Buchanan to Niles turned over yesterday morning.

Many accidents were doubtless prevented from the fact that Clark employees driving without claims were unable to negotiate either the Niles Hill or the Front street hill, and remained in town. Accommodations at the Hotel Rex and at all rooming houses in town were early exhausted, and many spent the night in lobby chairs and sofas.

Buses Stop.

The South Bend bus line suspended traffic, making no runs after 11 a. m. Tuesday, and notice of resumption had been received at the Hotel Rex at 11 a. m. this morning.

Automobile travel was practically suspended yesterday and today, and the streets were deserted of traffic from outside points and even the nearby farms yesterday and today.

The McCollum Transfer Company had two taxis in the ditch at one time, attempting to take passengers through on urgent business. Ray File starting at 4 p. m. Tuesday for Niles and getting back at 2:30 a. m. Wednesday. Bob Sherwood drove to Chicago with the McCollum truck early Tuesday morning, and was obliged to leave his truck at Michigan City on his return that afternoon. One Jones Cadillac which got through from Chicago at 7 p. m. Tuesday reported scores of cars in the ditch on the Lake Shore road, including several large buses.

Sidewalk Slippery.

Walking on Buchanan sidewalks, dangerous operation, and scores of especially on the hills became a tumbles and minor bruises were reported, including a few very regrettable accidents. Village mail carriers donned the spiked heels, known as "ice creepers," and negotiated their routes under extreme difficulties. The supply of creepers carried at the hardware was early exhausted.

Travel conditions improved slightly Wednesday and more this morning, but were still very difficult.

Now Here's the Proposition

HERE'S PROPOSITION BEING THE SAD TALE OF THIS HERE ULYSSES AND MELLISSES

Bl Haws.

When the brave Ulysses Lister wooed the fair Melissa Wister. "List," said he, "be you my missus and so list me for your mister." So fair was Melissa Wister, scarce Ulysses could resist her. This is why Ulysses kissed 'er, decked her wrists with golden wristers.

But how very often this is the sad fate of human blisses. This here brave Ulysses Lister has Miss Wister for his missus. Misses blisses he from kisses from the missus that now is his. So he seeks some other sister and the blisses miss the missus.

He two-times some other sister with the kiss that was Mellis's. Missed the Missus is that his. For some other sis than his is. Ended are the blissful kisses of Melissa and Ulysses. This here kissless Missus Lister gets so hot she fairly sisses.

Thus it is the wedded blisses list away into a twister. 'Tis not all is gold that glisters, this here Missus Wister-Lister. Missing blisses turns to hisses, hires a lawyer to assist 'er. Compensate the bliss that missed 'er by a blister on the mister.

Seeing We Skit Occasionally.

We see by the editorial pronouncements in the Record of last week that we are "making great strides" in the solution of sewer problems, and we wonder if the "inotype man didn't read it wrong and substitute "strides" for "slides." And he might have added that some of the fellows that have been digging them, have been taking some great rides, too.

The Lost Chords.

If anybody detects any wandering syllables straying through the homeless air, grab 'em, they are probably Martin Kean's voice which he mislaid somewhere this week. Meanwhile Buchanan is witnessing the phenomenon of a voiceless barber. Science tells us that the same nerve controls the right arm and the lower jaw bone of a barber and they both have to work at the same time. However, he can doubtless bridge it over until his voice comes back by chewing gum or something.

It is true that it is not so bad overhead as it is underfoot this kind of weather, but the trouble is that we are underfoot so much of the time.

RECORD COOKING SCHOOL FOR 1929 LASTS FOUR DAYS

MRS. HUNT TO LEAD AGAIN, FEBRUARY 26 TO MARCH 1

Dates have been arranged for the 1929 Record Cooking School to be staged in collaboration with the Indiana & Michigan Electric Company on February 26-27-28 and March 1, the duration of the course having doubled on the basis of sentiment expressed among local women attending last year.

The school will again be in charge of Mrs. Alma Hunt of Chicago. The community is fortunate to secure the services of Mrs. Hunt, as she conducts schools regularly in many of the larger cities. The Indiana & Michigan have been fortunate in securing her for the entire series of schools which they conduct in their territory, through their connection as customers with the Edison Electric Company, which employs her.

A four day school will be held at Berrien Springs March 12-14-15, and at Three Oaks on March 26-27-28-29.

Sam Bunker, 84 year old Civil War veteran and pioneer resident of Buchanan, fell and fractured the upper bone of his right leg while taking some exercise walking in the back yard at his home on Charles Court Wednesday morning.

MERCHANTS UNITE IN BIG SALES EFFORT

Buchanan Stores To Join in Bargain Offerings.

VARIED SHOWING

Pennants of Orange And Blue Will Guide You.

O-P-P, P-O-R-P, T-U-N-E time, I y, T-B-E to tee off, as in golf.

That's the way we spell it and that's the way we're going to yell it Friday and Saturday, January 25 and 26, here in Buchanan. You noticed that "tune" right in the middle of it. Well, we're the boys that put it there. And the Buchanan merchants are the boys that are going to jazz up the melody. Then you noticed that "I" in there, well, that means "me"—or in other words you, he, she, and also it. But of course she has "it" so we didn't really have to mention it. And that "poor," well, that means the kind of fish we are if we fail to take advantage of our opportunities. And then it ends with "tee" and we're now all ready to tee off on the big sale.

Friday and Saturday are the days on which the merchants of Buchanan are going to take sides in the well known battle between the pay check and the high costs of living.

Thus far the pay check has been getting the worst of it, taking the long count regularly about once per week. This week the pay check is going to stage a come back. You'll know your friends Opportunity Day, they'll be all dolled up in pennants of orange, blue, white and black. They will be the colors of Opportunity Friday and Saturday. And after that you can change the colors on your account book, putting away that red ink, the second bottle this year, and taking out the black ink and pounding the dead flies out of it and add water.

The opportunities presented will cover practically all the necessities of life unless you count hooch, and every day is opportunity day for that. There will be grocery opportunities, dry goods opportunities, drug opportunities, and other opportunities. Opportunities will be so thick that if you miss one opportunity you will be sure to bump into another.

Every merchant in this big price shave has provided each clerk with a new improved dollar stretcher, with full instructions as to manipulation. On entering the store you will band your dollar to the clerk and the clerk will stretch it till it looks like a stair carpet. And as for that price shave referred to above, why the merchants have had all the barbers in town working overtime shaving the prices, and you would hardly know them now, mean you really wouldn't.

So arrange your schedule to make it convenient to come to Buchanan Friday and Saturday and see what the town will do for you. And bring your dollar and see how far they will travel. They'll travel so far that they'll be footsore when they get back to you with the notice that they couldn't carry all the packages, which will be delivered at your door via truck.

7,000 Panes Glass To Be Installed in River Street Add.

The roof of the River street addition to the Clark plant is nearing completion this week, all the tile having been laid and the force being at work installing the top layer of felt paper.

The force of glaziers arrived Tuesday to begin the installation of the 7,000 panes of glass which will be required to fill the openings in the side of the 100x300 foot monitor structure. Work has been held up for the past month by storm and icy conditions, preventing any estimate on the date of completion.

Buchanan State Bank has a Check Dating Back to French Revolutionary Days

There's a check now reposing in the possession of Herbert Roe, cashier of the Buchanan State Bank, which might be the cause of international complications in case the French government heard about it.

In brief, it is an antiquated draft for \$36, drawn on the Continental government in payment of interest due to France for loans made during the Revolution. It was signed over to two various parties in succession, presumably in an effort to deliver the money to Paris through the cordon of British ships. It was last made payable to "Captain Simeon Samson," then a captain of an American privateer, harrying British commerce on the high seas. Captain Samson was evidently supposed to run the blockade and deliver the money to the French government in payment of interest due.

STATE HEALTH FED. WORKERS DEPT. HOLDS MEET MONDAY TO MOTHERS

Lecture Parents On Social and Moral Education.

SEPARATE TALKS

The January meeting of the Buchanan Parent-Teachers' Association will be held Monday, Jan. 25, in the form of two separate assemblies of men and women, to be held at the high school building, beginning at 7:30 p. m.

Both meetings will deal with the general subject of social and moral education among young people, with representatives of the State Department of Health at Lansing in charge. Dr. Poole of Lansing will address the men in the senior high school assembly, and Miss Hutzel, registered nurse, in the employ of the Department of Health, will talk to the women in the Junior high school assembly. These meetings are open not only to the fathers and mothers of school children but to all men and women who are interested in the social and moral welfare of young people. Following the separate lectures, a joint social meeting will be held.

In the afternoon of the same day, Dr. Poole and Miss Hutzel will talk to separate meetings of the boys and girls on similar topics.

Three Quarantines Made For Measles In Buchanan Dist.

What may become the usual annual winter epidemic of measles began here during the past week, according to City Physician Dr. John Strayer, two quarantines being imposed in town and one in the country. The homes of Clyde Blake on Roe street and of Henry Raven on Chicago street, are under quarantine. At the home of Peter Freehling near Hills Corners, there are four cases of measles with one case of pneumonia following measles.

Male Belles to Ring Bell Again tonight in Heart Shattering array feminine attire

Swell dames, swell dames! In fact the fortunate number who braved the ice blockade to attend the opening performance of the Womanless Wedding staged last night at the Clark Theatre witnessed what was doubtless the most eye-falling array of feminine loveliness ever seen in Buchanan. There was certainly nothing in the audience that quite measured up to the standard set by the performers on the other side of the footlights. A number of the cast displayed absolutely startling possibilities under the capable hands of Miss Lucille Becker, director, and her staff of assistants from the Thirty Club, thus effectually establishing the theory held by many scientists that the male is better looking than the female when he really takes pains to evolve his latent charms.

In spite of the many handicaps

Classes Scheduled In Maternal-Infant Hygiene.

WOMEN INVITED

The first of the series of three classes in maternal and infant hygiene to be held here during the coming month by Federal specialists is scheduled for next Wednesday, Jan. 30, to be held between the hours of 9 a. m. and 11 a. m. in the Kindergarten room of the Dewey avenue school.

The meetings will be in charge of Dr. Ida Alexander and Miss Ludington, R. N., who are employed under the provisions of the Shepherd-Towner act for aid to mothers. For the first two hour class the subject will be as follows: First hour, Prenatal Care, by Dr. Alexander.

Second hour, demonstration of first care to mother and baby, by Miss Ludington.

These meetings are, open not only to young mothers and young women in general, but also to older women who have to give advice concerning the care of children. Those attending are requested to bring notebook and pencils, and to come prepared to ask questions on any phase of the subject in which they may be interested.

The federal workers in charge are to cover the entire county, giving a series of two hour classes in central points. Notice will be given of subsequent meetings in future issues. The meetings represent an unusual opportunity, the first of the kind to be afforded Buchanan and local women should avail themselves of the education offered.

Zoroneski Breaks Knee This Morning En Route to Work

Charles Zoroneski, 108 Artie street, fell while on his way to the Clark Equipment Company plant this morning, twisting and effecting a slight knee fracture.

LEISURE IS BIG PROBLEM SAYS DR. HALL

Worker Has 32 Hours Less Work Weekly Than Father.

SHOULD BUDGET

In the Next Generation Work Will Be Done in 20-Hour Week.

"Woe be unto the young man or woman who fails to make good use of his leisure time, and thrice woe to him who dissipates during his leisure time," said Rev. Winfield Scott Hall, in an address on "Whither America" delivered at the Sunday morning services at the Presbyterian church.

"It is just as important for us to budget our leisure as it is to budget any other department of business," said Dr. Hall, "for in the proper disposition of the new leisure, that is coming to be ours lies the future of America. If a man uses his leisure rightly he lifts himself to loftier planes of thinking and living. Misused leisure is the path to decadence."

The 44 hour week has already become the rule in a great part of American industry, Dr. Hall stated, as compared with the 72-hour week of our grandfathers. This 32 hours per week of leisure time which we have won constitutes our problem. Within a generation the working hours per week may be cut down to 20, which will increase leisure and the problem that rises from it.

The problem of proper utilization of the immense wealth and leisure which has been created in America during the last generation is the problem of survival for the white Caucasian race, according to Dr. Hall. The culture that has developed in the territory extending from the Rio Grande to Hudson Bay represents the apex of the civilization of the white race. Contributing to it were four previous civilizations, the Egyptian, the Meso-Potamian, the Graeco-Roman, and the European. The last of these, the civilization of northern Europe, is already on the decline, in the belief of Dr. Hall. The nations of northern Europe were already on the down-grade when the World War started. In that conflict the nations of northern Europe lost 10,000,000 outright on the battlefield, and another 15,000,000 to 20,000,000 from starvation, disease and other causes consequent on war, making a total loss of from 25,000,000 to 30,000,000, drawn mainly from the young men woman and children, the flower of the populations.

It is the belief of competent observers that Europe can never fully recover from the blow received. The supremacy has definitely passed to the Western Hemisphere, where the United States already possesses over half of the wealth of the world, far in excess of any amount ever possessed by any 130,000,000 people in the previous history of the human race.

CREAMERY CO. HOLDS ANNUAL MEET SATURDAY

WILL ELECT HEADS AND PAY DIVIDEND OF 10 PER CENT.

The annual meeting of the stockholders of the St. Joe Valley Creamery will be held Saturday, Jan. 26, starting at 2 p. m. sharp, in the St. Joe Valley Shipping Association building.

At this time an entire new directorate will be elected, the annual dividend of 10 percent will be paid, and other business pertinent to the annual meeting will be transacted.

The capital stock of \$5500 is divided among 84 stockholders, all of whom are eligible to attend and vote. The most of the holdings range from one to twenty shares, only two stockholders exceeding this amount.

ANNUAL CHICAGO BUCHANAN DINNER INVITATIONS OUT

RESERVATIONS MUST BE MADE BEFORE JAN. 30

Notices have been received here of the Chicago-Buchanan Society annual dinner, which is to be held February 1 at the Woman's City Club, 360 North Michigan Avenue, Chicago, starting at 6:30 p. m.

In addition to the former Buchananites living in Chicago, many ex-residents living elsewhere are expected, and there will be a considerable attendance from Buchanan. Anyone who may care to attend is urged to write at once to Mrs. Floyd A. Near, 1755 East 67th Street, Chicago, who is chairman of the arrangements committee, making reservations before January 30.

The annual society dinner is yearly becoming a more popular feature and the idea has been extended to include a summer reunion in Buchanan, which will be arranged at the February 1 meeting.

S. B. SEWER MAN STATES TILE ON PORTAGE OKEH

WAS SATISFACTORY IN SAME CONDITIONS IN INDIANA

The Prestite tile which were used by Contractor Frank Reed in the Portage Street sewer were used in 800 feet of installation in Richmond, Ind., with satisfactory results, according to A. E. Hipskind, South Bend sewer contractor, who is installing the new water system at Baroda.

Hipskind stated that they encountered a strong flow of water at Richmond, but that they countered that difficulty by digging cisterns at the side of and below the level of the bottom of the trench, which drained off the water which was then pumped out. He stated that his firm also encountered some difficulty in fitting the joints, throwing out many tile before solving the problem, but that they finally were able to install the tile without saving off the ends, as was done in the Portage street sewer.

Portz Bakery to Begin Output Of Bread Saturday

John Portz is installing his bakery equipment in the Charles Boyle building on Main Street this week, with expectations of starting to bake by Saturday.

The front of the building is being remodeled, show windows installed, a partial partition built in, and the entire interior thoroughly cleaned and redecorated. Portz has bought a new Middleton & Marshall portable oven, with a capacity of 150 large loaves. He will install a steam table later for his delicatessen service.

On the following Saturday, Feb. 2, Mr. Portz plans a grand opening day, to which the general public are invited.

U. S. CRADLE OF LIBERTY SAYS DIVINE

New Governments Of Old World Begin in America.

VISITS THE CITIES

Sees Cornerstones Of Nations Laid By Emigrants.

The foreign quarters of American cities have been for many years the incubators of ideas of political freedom, which received their preliminary organization here and then were translated to Old World soil and supported in their beginning by contributions from the earnings of the emigrants engaged in American industries, according to Rev. Archibald McClure, South Bend minister, in a very interesting talk before the Men's Goodwill Club, which held its January meeting in the basement of the Methodist church Thursday evening.

Rev. McClure spent a year in his young manhood living and working in the foreign quarters of American cities, learning conditions at first hand, and had the privilege of witnessing the birth of several foreign governments, which were actually organized in America. While in the Chinese quarter of San Francisco he saw the son of Dr. Sun Yat Sen, organizer and first president of the Chinese republic, then soliciting funds for the support of the new movement for Chinese freedom.

Foreign emigrants to the United States became imbued with ideas of liberty during residence here, and ambitious of translating similar institutions to their own countries. The prophets of those movements came here and effected the first organization and collect funds. This was the case in the organization of several of the new Slav nations of southeast Europe, according to McClure. He had the privilege of attending meetings leading to the formation of the nation of Jugo-Slavia, which was headed by Masaryk, former professor in the University of Chicago.

He attended meetings of Ukrainians in New York City previous to the organization of the Republic of Ukraine after the Russian Revolution. He interviewed a priest of the Russian Orthodox church in a foreign quarter of a New Jersey city, who told him in 1915 of the movements afoot for the establishment of a new order in Russia, and who predicted the Revolution and the overthrow of the Russian church which actually came to pass in 1917.

He attended meetings of Bohemians, before the organization of that nation, where portraits of the racial heroes decorated the wall and the spirit of nationalism ran high.

During these visits, Rev. McClure gained a new knowledge of these foreign quarters as the birth place of ideas of freedom which were afterwards translated to foreign lands, rendering the United States in fact the cradle of liberty for all countries of the world. His talk was extremely interesting and greatly enjoyed by the men attending.

IND. & MICH. BEGINS WORK ON NEW GARAGE

STEEL AND CONCRETE BLDG. TO HOUSE 20 CARS

The Indiana & Michigan Electric Company is constructing a new garage in the rear of the Days Avenue headquarters, W. J. Miller having the contract. The structure will be 50x70 feet in dimensions, on the foundation of concrete. There some time ago, it will be one story, of steel and concrete, with room for about 20 cars and trucks belonging to the company and the local employees.

News From Galien and Vicinity

Market Likely to Drive Peppermint From Galien Dist.

Mint raising and distillation will become a thing of the past in the Glendora and Galien sections unless prices assume an upward trend within a reasonable time, according to George Kool, who was selling the bottled product in Buchanan last week.

The price is now \$2.75, or in the neighborhood of 50 percent of production costs. Many growers have already made arrangements to replace their mint fields with other crops. A few of the growers are still holding their 1928 distillation for higher prices.

Galien Peppermint Is Basis Of Smith Bros. Cough Drops

Galien raised and distilled peppermint is one of the principal ingredients of the world-famous Smith Bros. Cough Drops, manufactured at Michigan City, according to George Kool, who markets a part of his product to the Smith Bros. factory each year. Peppermint in itself is a prime remedy for colds and lung infections, and forms the basis of many of the commercial mixtures to be inhaled or used as rubs. Many of the residents of the mint belt have learned to compound their own remedies.

Rebekahs Honor Couple by Shower

A miscellaneous shower was given Mr. and Mrs. Forest Potter Saturday evening in the I. O. O. F. hall by the Rebekah Lodge. One hundred and twenty-five were present and enjoyed the evening in dancing and playing cards. A prize-waltz was given, and the prize was won by Mrs. Bernard Renbarger and the groom, Forest Potter. The bride and groom received many useful and beautiful gifts, after which a pot-luck supper was served.

Galien Culture Club Considers Civil Government

The Culture Club held their regular meeting Friday afternoon at the home of Mrs. Ed. Shearer. "Civil Government" was the afternoon study, and was in charge of Mrs. R. Wentland and assisted by Mrs. C. C. Glover, Mrs. C. Smith and Mrs. Ed. Shearer. Mrs. Tooley from California was the afternoon guest of honor. The hostess served a delicious luncheon.

State Lecturers Offer Course on Maternal Hygiene

State workers representing the United States Department of Education, in work under the provisions of the Sheppard-Towner Act, will be at Galien Friday, Feb. 1, for the first of a series of three two-hour classes, dealing with maternal and infant hygiene. The program for the first meeting will be:

First hour, Prenatal Care, by Dr. Ida Alexander.
Second hour, First Care of Mother and Baby, by Miss Ludington, with nursing demonstration.
It is expected that all mothers and other women, young and old, who may be interested, attend, equipped with notebooks and prepared to ask questions. Mrs. John R. Hoinville will act as chairman.

O. Laymen Dies After Operation At Michigan City

Heavy sorrow came to the home of Mr. and Mrs. Otto Koloff Sunday night when they received word that their son-in-law, Orval Layman, who with his wife, makes their home with them, had passed away at St. Anthony's hospital in Michigan City, Ind., after an operation he underwent Friday for appendicitis.

Orval Layman was born May 22, 1901. On May 5, 1928, he was happily married to Miss Mary Koloff, youngest daughter of Mr. and Mrs. Otto Koloff, who with his father and mother, Mr. and Mrs. Mike Layman of Three Oaks, five brothers and one sister besides a host of relatives and friends, are left to mourn their loss. Funeral services were held Wednesday afternoon at the German Lutheran church, Three Oaks, conducted by Rev. Louis Kling. Burial in the Riverside cemetery.

Human Nature
When two start out into the world together, he that is behind, unless his mind proves generous, will be displeased with the other—Collier.

'Nother Johnson
"Irate Man—"Your boy threw a stone at me." "Proud Mother—"Did he hit you?" "I M—"No." "P. M—"Then he didn't do it. He never misses."—Page Gates, Everden.

Galien Locals

Mr. and Mrs. Ed. Gallaspy entertained at their home Sunday, Mr. and Mrs. Frank Stringer and three children.

Mr. and Mrs. Walter Morley are both confined to bed with the flu. Mrs. Morley's mother, Mrs. Addison is caring for them.

J. L. Redmond who makes his home with Mr. and Mrs. Owen Stearns is recovering from his recent illness.

Mr. and Mrs. Wilbur Watkins welcomed into their home Sunday, Jan. 20, an 8 1/2 lbs. daughter.

Mrs. Floyd Bailey and little son are guests this week of her parents, Mr. and Mrs. Will Hess.

Mr. and Mrs. George Foster from Lansing spent the week-end with Mr. and Mrs. Tom Foster, and was accompanied home Monday by the former's mother, Mr. Tom Foster.

Mr. and Mrs. A. S. Stodder, Mr. and Mrs. Louis Michel were business callers in South Bend Thursday.

Mrs. William Bowers and son spent Friday evening with Mrs. Carl Renbarger.

William Dempsey was a Monday caller on R. V. Sloum.

Mr. and Mrs. D. O. Marble is spending a few days with their son in South Bend.

Mrs. Emma Kool returned home after a few days visit with her sister, Mrs. Alta Horner.

Mrs. Fanny Truitt is spending a few days this week with her brother and sister in Benton Harbor.

Mr. and Mrs. Doane Straub entertained at dinner Sunday, Mr. and Mrs. J. W. Toland, and Rev. Mead.

A. F. Storm of Niles was a Saturday caller on R. V. Sloum.

Mr. and Mrs. Clayton Smith entertained Sunday, Mr. and Mrs. Ray Stevens of Niles, Mr. and Mrs. Carl Renbarger and family.

Mr. and Mrs. Leonard Hawkins and son from Buchanan, Mr. and Mrs. Leonard Hudson from South Bend, spent Sunday with their parents, Mr. and Mrs. George Mecklenburg.

Mr. and Mrs. Louis Truitt entertained at dinner Sunday, Mr. and Mrs. G. Noggle of Buchanan, Mr. and Mrs. Leslie Smith and son of South Bend.

Mr. and Mrs. Chester Sargatz spent Sunday with the former's parents, Mr. and Mrs. August Sargatz at Baroda, Mr. and Mrs. Herman Mitz were also dinner guests.

Mrs. Charles Partridge was the Tuesday guest of Mrs. A. Wanke. Mr. and Mrs. Ernest Hess were

Sunday callers on Mr. and Mrs. George Lano, and Mr. and Mrs. Charles Seabast at Buchanan.

The Ladies' Aid Society of St. M. E. church will serve the dinner Saturday at the Louis Ender farm sale.

Safety, silence and simplicity are features of the new Ford six-brake system

ONE of the first things you will notice when you drive the new Ford is the quick, effective, silent action of its six-brake system.

This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate emergency or parking brakes are all of the mechanical, internal expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

The many advantages of this type of braking system have long been recognized. They are brought to you in the new Ford through a series of mechanical improvements embodying much that is new in design and manufacture. A particularly unique feature is the simple way by which a special drum has been constructed to permit the use of two sets of internal brakes on the rear wheels.

A further improvement in braking performance is effected by the self-centering feature of the four-wheel brakes—an exclusive Ford development. Through

this construction, the entire surface of the shoe is brought in steady, uniform contact with the drum the instant you press your foot on the brake pedal. This prevents screeching and howling and makes the Ford brakes unusually silent in operation.

Another feature of the Ford brakes is the ease of adjustment.

The four-wheel brakes are adjusted by turning a screw conveniently located on the outside of each brake plate. This screw is so notched that all four brakes can be set alike simply by listening to the "clicks."

The emergency or parking brakes on the new Ford require little attention. However, should they need adjustment at any time, consult your Ford dealer for prompt, courteous, and economical service. He works under close factory supervision and he has been specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at a minimum of trouble and expense.

FORD MOTOR COMPANY

U.S. Boardman

LOCAL HAPPENINGS

Mrs. Mable Walton, junior high teacher, is ill at her home in Niles. Mrs. Mary Zerbe is substituting for her.

Mrs. Harold Stark has her mother, Mrs. O'Meara, Hillsdale, as her guest for a few days.

Announcing the arrival of a baby daughter, Barbara Lee, at the home of Mr. and Mrs. A. C. Boot of Kalamazoo. Mrs. A. C. Boot is the daughter of Mr. and Mrs. H. E. Mittan of Kalamazoo.

Colds and la grippe can be quickly overcome by our treatments. Improvements begin at once. Calls made promptly. Phone 132. Drs. L. F. and Bernice Widmeyer.

Professor Gregg of the Michigan State College and County Agent Lurkins were at the Buchanan High School Tuesday evening for the purpose of holding a meeting of local farmers in the interest of landscaping of farm-house grounds. Only the farmers were able to be present on account of travel difficulties.

"For 20 years I took soda for indigestion and stomach gas. One bottle of Adierka brought me complete relief." John S. Hardy. Adierka relieves gas and sour stomach at once. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adierka give your stomach and bowels a REAL cleaning and see how good you feel! Overcomes constipation. W. N. Brodrick, Druggist.

Dorothy Charles Honored on Stage At State College

Miss Dorothy Charles, daughter of Mr. and Mrs. Al Charles, and a graduate of Buchanan high school with the class of 1928, has attained stage honors at the Michigan State College by winning a place in the cast of "The Twelve Mile Limit," a musical comedy which

is being staged by the student body. This year only 24 girls were included, who will carry all of the singing and dancing parts. Previously different girls were included in each dance act, greatly increasing the chances of making the cast. The Detroit Free Press of Sunday carried a picture of the "Cross-word Puzzle Chorus" one of the numbers in which Miss Charles takes part.

Village to Lay Water Mains To Hillview Add.

Six hundred feet of four inch tile have been delivered at the Hillview subdivision, which has been plotted as a residence section on West Terre Coupe by Martin Pearson to be installed for a water main connecting with the Terre Coupe main.

News from New Troy

Saturday evening, January 19, a basketball game between New Troy high school and Three Oaks, resulted in a New Troy victory by the score, 15 to 12. Richardson, New Troy forward secured enough points to beat Three Oaks single handed. The local scoring accounted 4 field goals and 5 free throws for a total of 13 points. Erickson center scored one other two points for Troy with a basket from the field. Class C was playing without its captain and forward, Francis Heckathorne, who is afflicted with boils. With him missing, the brunt of the Three Oaks' attack fell upon Stangene, a forward who came forward like a veteran, but had no one to work with him. The local reserve team took part of the sting out of the first team defeat by beating the locals, 25 to 9, in a preliminary contest.

The beautiful weather brought out a crowd at the Methodist sermon Sunday morning and the fine sermon by Rev. Conklin and especially singing by Mr. Iona and Ralph Soversky.

Mr. S. R. Ritome was a caller at the Ed. Barnhart home Sunday afternoon.

The Ladies Aid Society met Wednesday with Mrs. Ed. Brodbeck at day for work. Its attendance is decreasing as the flu is passing. The meeting this week will be with Mrs. Mitchell at her residence. Every member is urged to attend.

Dr. O. A. Gregg, landscape artist at Michigan State College, who is to plan the laying out of the school grounds at the new building in New Troy in the spring, will address members of the P. T. A., January 25. The regular meeting of the society was scheduled for Thursday of this week but was postponed by President Sexton because Dr. Gregg had an open date at that time.

Floyd R. Maxima who has lately resigned as postmaster at New Troy, is selling Whipper cars.

Don't forget the faculty play will be well worth attending, Feb. 1st.

Thursday evening New Troy basketball team won over Stevensville, 24 to 22. The new gym was packed to capacity. Ott was the star of the game with 12 points, holding Richardson well in check throughout the contest.

NEW TROY SCHOOL NOTES
The Fourth, Fifth and Sixth grades participated in the County Spelling Contest which was held the past week. Supt. Eddy of 3 Oaks compiles the results for the entire County and will probably publish them sometime this week.

The Ninth grade shop class have just completed a game scene for the Faculty play, "His Uncle's Niece," which is to be presented Friday, Feb. 1st.

Plans are now under way for the Poultry and Egg show which will be held in high school auditorium in a few weeks. The date will be announced in next week's news. This show is sponsored by the Agricultural club of the high school. They are attempting to get the head of the Poultry department at Michigan State College.

The first game in the inter-school basketball tournament was held Wednesday night between the Third and Fourth grades. The score was 6 to 1 in favor of the Fourth graders. The teams were composed of the following members: Third grade, Billy Hanover, Joe Cox, Leonard Marks, Jr.; Goodline, Jimmy Bihlmire; Fourth grade, Harold Wiesner, John Bihlmire, Theodore Sexton, George Christie, Robert McKen.

Our school attendance has again reached normal since most of the flu victims have recovered from their illness.

The applied art class is designing and making curtains for the dining room adjoining the home economics room.

The faculty play date has been set. February 1st is the time you want to be prepared to laugh if you intend to see the side splitting comedy to be presented by the members of the New Troy high school faculty. This is predicted to be one of the most entertaining events of the season and the question has already come up in relation to whether our auditorium will be big enough to seat the crowd. "His Uncle's Niece" is the title of the play and take our word for it that the niece is worth meeting.

There was considerable discussion as to whether we should have reserved seats or not but it was finally decided that just a general admission fee of 20 and 25 cents will be charged with no reserved seats.

The shop class has been staining the big cupboard which has been installed in the Home Economics room by the Ziegler Lumber Co. The cupboard is supposed to receive its last coat of varnish this week. The boys are getting plenty of practice in cabinet making now days. They are now working on a set of drawers for the home economics cupboard.

A basketball tournament is now under way between all the grades of the school including the intermediate room. This is causing considerable excitement in the entire school.

Last Friday night was one of the best games of the season for the New Troy fans. A double header in basketball was played with Three Oaks high school at the New Troy high school gym. The reserve game was rather one sided in favor of Three Oaks but the big game was a big game all the way through. Three Oaks took the lead twice during the game by a small margin but New Troy was on top during most of the game especially when the final whistle blew with a score of 15 to 12.

Another "Bee" was in progress at the high school last Saturday morning. It was composed of Mr. Keefe, Mr. Hodges and Mr. Guetier of the faculty who painted the lines on the gym floor for the girls' basketball court. It can be described as being about half way between a straight line and a cucumber vine. The secret is withheld as to who laid out the plan.

Bridgman vs. New Troy is the game scheduled for Friday. All of the Bridgman fans say they will be here. Special arrangements are being made to seat the crowd.

Bend of the River
Montgomery Ward & Co. have installed furnaces in the homes of Clyde Penwell and Chester Walkdon.

Little Junior Briney cut his thumb Monday so badly that he had to be taken to the doctor for dressing.

Glen Dale, the little son of Mr. and Mrs. Van Wagner, who resides on the camp grounds is reported as being seriously ill.

The Paul Dewitt family who have all been ill with bad colds are reported as being on the gain.

Howard Barber met with an accident, Tuesday while going to South Bend, when his car skidded and ran into the ditch, he was somewhat injured about the head but resumed his trip later in the day.

Mr. and Mrs. Harry Hartline and family spent Saturday evening at the Andrew Huss home.

Freddie Hoag spent Thursday night, with Donald Weaver.

Mr. and Mrs. Harold Stiller of Niles spent Sunday afternoon with the former's parents, Mr. and Mrs. Herb Briney.

Dr. and Mrs. Rolla Butts of

Chicago came to attend the funeral of Mrs. Lillian Butts, and remained over the week-end.

Galien Loses In 2d Hairbreadth Game vs. St. Johns

Galien High School staged another hair-breadth finish in a basketball game with St. John's school of Benton Harbor on the former's floor last night, the winning score in the main game again coinciding with referee's closing whistle.

The two teams played neck and neck, the score at the end of the first half being in favor of Galien, 9-3. At the beginning of the last three minutes of play, the teams were tied at 13-13. No scores were made until the referee called a foul on a Galien man just as the whistle blew, and the point by free throw was made by St. John's after the end of the game, making the score 14-13 for the visitors.

In the game won by Galien at Benton Harbor, the winning basket was in the air when the whistle blew.

The second Galien team lost to the St. Johns reserves by a score of 7-5.

Monday.

MYRON M. MARBLE IS TAKEN TO BAY CITY FOR BURIAL

NORTH MICH. PIONEER DIES AT HOME OF BROTHER HERE

Merrick Myron Marble, 66, died Tuesday evening at 7:10 o'clock, in the home of Orson Chapel, 706 Berrien St., death being attributed to influenza and pneumonia.

He was born in New York state on April 15th, 1862, and when just a small child he moved with his parents to Bay City, Mich., where he grew to manhood. Twenty years ago he went to Boyne City, Mich., coming to Buchanan three years ago where he has since resided.

For the past eight years, Mr. Marble has been in ill health, and unable to work. He never married. He was one of a family of nine children, of whom two brothers survive: Stephen of Buchanan, and Dan Marble, of Barn Hill, Ohio.

The body was taken to Bay City on the 9:45 train Thursday morning, where services will be held Saturday. Burial will be made in Heaven Rest cemetery, of that place.

Stephen Marble accompanied the body.

SOUTH BERRIEN HOME EC. CLUB GATHERS JAN. 15

STATE LEADER GIVES INSTRUCTIONS ON COSTUMING

The South End Home Economics Club met in the Home Economics room at Buchanan high school, all day Tuesday, Jan. 15.

The aims of the club are to help women be more becomingly costumed and to help them to become increasingly more observing and more sensitive to beauty in nature home surroundings and clothes.

Miss Gardner, an extension worker from Michigan State College, led the discussion. The second of the four meetings to be held was devoted to "Becoming Colors." Some of the points discussed and studied were, the personality and build of different types of women in order to plan costume design which will be most becoming to each woman taking the project; the coloring of women of different types in relation to selection of becoming materials.

The South Berrien Home Economics Club is composed of two leaders from each of the various Community Home Economics clubs. Those communities and their leaders are as follows: Galien,

Mrs. Walter Morley and Mrs. John Honeville; Niles, Mrs. Reg Harger and Mrs. Will Unholtz; Three Oaks, Mrs. Frank Martell and Mrs. Cecil Phillips; Niles, Mrs. Earl Bestle and Mrs. Reum; Bend of River, Mrs. Howard Barbour and Mrs. Josephine Penwell; Berrien Springs, Mrs. Arthur Spaulding and Mrs. Loy Skinner; Glendora, Mrs. Carrie Weaver and Mrs. Jennie Finkel; Hills Corners, Miss Marion Boyle and Miss Anita Boyle. This group has been organized and the chairman is Mrs. Arthur Spaulding, the secretary, treasurer, Miss Anita Boyle.

CHURCH ANNOUNCEMENTS

Methodist Community Church.

Church school at 10 a. m. Mr. Ormiston, Supt. Mrs. Kestler, Jr., Supt. Morning worship at 11 a. m. Sermon, "Fellowship with God." Duets, Mrs. Kean and Mrs. Reist. Epworth League at 6 p. m. Question and Answer Night—7 a. m.

1. What is the greatest challenge a Christian character may encounter?

2. How would you advise a parent to go about laying a cornerstone of Christianity for his home?

3. Does the economic condition of a community govern its Christian output?

4. Do we and should we practice economy and efficiency in our Christian living?

5. Is immersion in baptism essential to future salvation?

6. Christ was in the tomb three days. He said to Mary at his resurrection, "Touch me not, for I have not yet ascended unto my Father." Where was Christ during those three days?

7. What has become of the souls of the people who died before Christ came? Will they be saved in the Judgment?

8. Does not the doctrine of the Brotherhood man breakdown before the evident inferiority of certain races?

9. What did Dr. Little of Ann Arbor mean in Battle Creek recently, when he said, "The Church is ten or twelve centuries behind the times?" Does this have anything to do with his resignation?

H. Liddicoat, Minister.

First Presbyterian Church.

Church school at 10 a. m. Morning Service at 11 a. m. subject: "Spiritual Power."

Young People's Society at 5 p. m. Evening service at 7 p. m. Subject: "The Great Giver."

Harry W. Staver, Minister.

Evangelical Church.

Bible school at 10 a. m. Preaching at 11 a. m.

Subject, "God Dwelling in Men." E. L. C. E. at 6 p. m.

Evening service to begin at 7 with song service led by Rev.

Lewis May and Evangelistic service to follow prayer meetings at 7:30 p. m.

The adult in charge of T. E. Van Every, and Mrs. L. Decker in charge of the young people.

Christian Science Church.

Sunday school at 9:45 a. m. Sunday service at 11 a. m. Subject: "Truth."

Testimonial meeting Wednesday evening at 7:45.

Reading room open each Wednesday afternoon from 2 to 4.

"Life" was the subject of the Lesson-Sermon in all Christian Science churches on Sunday, Jan. 20.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "When Christ, who is our life, shall appear then shall we also appear with him in glory." (Col. 3:4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus said substantially, 'He that believeth in me shall not see death.' That is, he who perceives the true idea of Life loses his being in death. He who has the true idea of good loses all sense of evil, and by reason of this is being ushered into the undying realities of Spirit" (p. 324).

Church of Christ.

Unified Bible School and preaching service at 10 a. m.

Bible study, "The Holy Spirit." Sermon subject, "The Free Gift of God."

Christian Endeavor Societies meet at 6 p. m.

The Senior Society will debate the subject, "Resolved that the church school is of greater value to the community than the public school."

Midweek service, Thursday evening at 7:30 p. m. Evangelistic service Sunday night, sermon subject, "The doctrine of calling, are some called to be saved and others predestined to be damned." Bible school workers conference, Tuesday evening, January 29.

Twelve Heirs to Parketon Estate

The \$1,900 estate left by the late Gordon Nelson Parketon will be divided among twelve heirs, according to a petition for appointment of an administrator filed at the Probate Court this week. The property left consists of \$1,400 in real estate and \$500 in personal property. The heirs include the son, George Parketon of Buchanan, two daughters, Mrs. Carrie E. Hollenbeck of Berrien Springs and Mrs. Ada Kinney of Buchanan. The other heirs are grand children.

RECORD LINERS PAY

Buchanan State Bank Has Check

(Continued from Page One.)

It seems he never made the delivery and over a century after the uncashed draft was found in the home of his grandson, George Samson, who then lived in the house now occupied by Ed. Arney in South Buchanan. What the unpaid interest would now amount to, compounded annually, would be something imposing and would doubtless square the present debt owed by France to the United States, with enough left over to build a couple of French cruisers.

The check was originally drawn by "Nathaniel Appleton, Commissioner of the Continental Loan Office, State of Massachusetts Bay," to "the Commission and Commissioners of the United States of America at Paris." It was dated "the fifth day of February, 1777, and was drawn for \$36 in payment of 180 livres tournois, the sum due in French money."

Evidently from some cause or other Samson never made payment, possibly because another draft to cover the same payment arrived in Paris first. He placed it in his samson's chest, which, when he went the way of all flesh, he bequeathed to his son, Horatio Samson. The latter came to Buchanan nearly a hundred years ago, and this was the family home until about sixteen years ago, when the surviving representative, George Samson, went to Orange Beach, Ga., where he still lives at the age of more than eighty years.

A few years before he left Buchanan, George Samson went into the garret of his home and searched through the chest that had been the property of his "privateering grandfather, finding the draft above described and in addition the following pieces of colonial money of the issues of 1776-7-8. Three sixpence of 1778, eight \$1 bills of 1776, one \$5 bill of 1776, 1 \$2 bill of 1777.

Both the draft and the money described above are for sale by Mr. Samson.

State Specialist Talks Landscape To Local Farmers

Ed. Rotzine, employee at the Clark Equipment Company, circumvented traffic conditions between Buchanan and his Dayton home by donning ice skates Wednesday and skating to work on the highways.

Past Crisis

The youngster of today sees and hears many wonderful things, but the thrill when a skittish horse gets one of the lines under its tail at the top of a long hill he has not known nor will ever know.—Portland Oregonian.

BUCHANAN HIGH
MARCHES FOR
SECOND TITLETakes 6th Successive
Game of Season
From 3 Oaks.CAPT. ROE STAR
Heckathorne Boxed by
Fast Work of B. H.
S. Guards.

Buchanan High School's quintet took its sixth successive game this season from Three Oaks, at Three Oaks, on their diminutive floor last Friday night, 19 to 10. The Maroon and White covered Heckathorne, Three Oaks star forward, so closely, that they completely threw him off form, allowing him to make but three points, a basket and a free throw.

Coach "Curly" Bradfield sent his First String Reserves in the first quarter to start things off, and Three Oaks made 2 points in the first quarter against them. The second quarter saw the first team in. They had a real scrap on their hands to even the score up by the half, when it stood 7 to 7. The third quarter Buchanan squeaked out a lead of two points, score 11 to 9. The fourth quarter, the "Fightin' Outfit" was really warmed up to their stuff, and they held Three Oaks to one point while they made 3, final score, Buchanan 19, Three Oaks 10.

Captain Roe was the star of the evening, making 8 points for Buchanan. Morse came next with 4 points. Buchanan's first team again turned in scores for each of its men. Three Oaks' entire scoring was done by three men, Stanage 4 points, Heckathorne 3, and Long 3.

Humane education is compulsory in Kentucky schools, and many animal pets are used to demonstrate the effects of kindness upon dumb brutes. Which shows that Mary and her little lamb were merely ahead of their day and generation.

Three thousand pounds of rose leaves are required to produce one pound of the precious attar of roses.

Miss Rosemary Lytton, daughter of a millionaire Chicago merchant, tried society life for a while but it bored her. She got her father's consent to work in his men's clothing store. She likes that better and hopes to make good.

A Window Cleaners' "Paradise"

THE craze in Germany for light and air has spread to commercial buildings and architects are specifying glass to an enormous extent in conjunction with steel. Photo depicts the wing of a modern office building nearing completion in Stuttgart which is formed almost entirely of glass and steel.

Buchanan to Meet
Bridgman Friday
In Tilt of Season

The Buchanan High School basketball team will probably meet its most difficult game next Friday evening at Bridgman, against the latter's tall fast team. Bridgman has won all her games except the one Buchanan took by the narrow margin of one point. Buchanan having won all her games, it promises to be a francis royal. The Buchanan Seconds won against Bridgman's Seconds by a lone point too. Coach "Curly" Bradfield and his squad are working hard to take next Friday's game.

There is a fine spirit of friendly sports feeling between Bridgman and Buchanan fans, which has been growing for several years now; it has resulted in many fine friendships.

There are to be two games as usual starting at 7:30. Those going should be there for both games, if possible, for they are bound to be real interesting.

Buchanan Holds
Last Debate With
Cassopolis Tonight

The Buchanan debating team is going to debate Cassopolis, Thursday, January 24. This debate will be the last debate of the season for the locals, since they have lost two previous debaters. Notwithstanding this fact, the squad, consisting of Richard Zerbe, Kathryn Reed, and Esther Bradley, are busily engaged preparing a case for the coming conflict.

Buchanan will uphold the negative side of the question at Cassopolis. The question for debate is as follows: Resolved that a Federal subsidy for the development of an American merchant marine would be a wise national policy.

This and That.

This County Spelling Contest took place in the various schools last Wednesday between 10:30 and 11:00 o'clock. The results were sent to Supt. Eddy of Three Oaks, who will publish same after receiving all returns. Our school had a better margin than they did last year. Results: Sixth grade, sec. 1, ave., 76; sec. 2, ave., 78.5; Fifth grade, sec. 1, ave., 55.3; sec. 2, ave., 53.3; Fourth grade, sec. 1, ave., 79; sec. 2, ave., 81.5.

Mrs. Walton was absent from her Junior High duties last Friday morning on account of illness. Several of our pupils are still absent. This interferes with their regular work and will mean a heavy pull for the finals for some.

Our girls and boys are enjoying making health posters, showing what a child should eat for breakfast.

In language we are studying about the animals of the North. We have made polar bears and reindeer in drawing, and write our own stories about them in language period.

Everything comes to him that waits, it is said. Captain W. P. Scott of the United States Navy has just received a medal awarded to him by the then Sultan of Turkey 27 years ago "for sinking the Spanish Navy, assisted by Admiral Dewey."

His Best Possessions

Man's most precious possessions are his friends and his credit rating.—Atchison Globe.

Olive Branch

Rev. H. D. Meads was a dinner guest in the Chas. Smith home Monday.

Mrs. Ed. Vantilburg is happy over a new Maytag washing machine, purchased last week of Victor Layman of Berrien Center.

Charles Shepherd has been on the sick list for the past week. Gus Bohn is still very sick with flu and has been for some time.

Boy Scouts' Service.

More and more through the years the Boy Scouts have been winning the confidence of the American public. The popular favor they have won will have an illustration shortly when the Scouts observe the 19th anniversary of their establishment in the United States. The organization had been in England for a number of years before it was introduced here and now is in more than a score of countries on both continents.

Work of the Scouts in time of trouble, when there has been a fire, flood, tornado or other major disaster, has brought them a friendly support of the greatest value. Probably that form of service hardly was contemplated when the organization was formed, but the ability of the Scouts to perform community service has been highly developed in many places and has been of the utmost value to the communities and the boys.

Twice in Florida, when tornadoes swept through cities and country, the Scouts were of inestimable value in the service given. In Cincinnati they have been used by the city manager in checking traffic, helping direct traffic at one time, and in gathering information on which city policies were based. In each of these tests the Scouts have been good soldiers and served their community admirably. They have won a high place in public confidence by the importance of their contribution to public and community service, and that has brought them into the most friendly partnership with men in office and leaders in civic life. That has been a great experience for the Scouts, has given them an idea of their own importance and made plain to them that they can serve the public well and that, when they do, the public is quick to show its friendly appreciation.

More than 2,000,000 boys and leaders are in the Scout movement in the world today, and nearly one-half of that number are in the United States. There will be a nationwide observance of the anniversary of the organization of the Scouts in this country. They are good citizens and deserve the cordial support of the public.

The Zipper.

One of the great inventions of this age of scientific and mechanical development is the zipper fastening. A few years ago the zipper was unknown to the world, now it is seen everywhere, on sweaters, on overshoes, on children's leggings, on women's handbags, on men's tobacco pouches and probably, if one looked closely, in a hundred other places.

How the zipper works, the mechanical principle on which it operates, we have never been able to understand precisely, though we have observed it in action many times. We only know that it does work and that is enough. All education may be valuable, as Dr. Eliot said, but we have never seen much sense in burdening one's mind with the details of matters outside one's own sphere, especially when these details come hard, if at all. It would be like compiling one's own dictionary when Webster's and the Standard and the Century are available. One might learn a lot but one certainly would have to take a great deal of time from one's regular work. All we really care to know about the zipper is that it zips and it certainly does that. We have heard tales of zippers that, after zipping, refused to unzip and had to have their clenched teeth separated by the use of cold chisels but we imagine such instances are very rare, if not wholly fanciful. We have never seen anyone being hewn out of a sweater or a galosh, thought, if it had to happen anyway, we should like to.

It is said that the way to make money is to place something that everybody wants on the market and sell it for a nickel. We wonder if something like that is not happening to the zipper manufacturers. It would be interesting to compare their financial statement with those of the moving picture, airplane or radio people. At any rate, we imagine zipper stock is a good investment.

The Snow.

Almost everybody likes the snow—the morning after it fell. It is beautiful, it transforms the most unlovely back yard into a glorious spectacle. It dignifies and beautifies even the ash heap. There is a pleasurable excitement even in going out and tramping about in it—for the first time. The daylight soon wears off, however. The unburned particles of coal from the chimneys settle down on the earth's white covering and sadly mar its looks. One's feet get cold, one's car skids and one begins to dread the inevitable slush. Only the children, with their sleds and their carefree attitude toward cold, wet feet, enjoyed it to the last smudged flake. Children have a great affinity for snow. We have seen them excitedly trying to coast and slide on it when there wasn't enough of it to make the pavement more than light gray.

The snow which we woke up to recently was the heaviest, if we are not mistaken, that we have had for two years or more. Next to the children, the farmers doubtless found most reason to rejoice in it. The chief reason why the winter wheat crop has amounted to little of late is that the roots of the plants have had no protection against

sudden freezes and have been forced out of the ground to die. This snow is a godsend to wheat farmers and they would welcome more, enough to last until the middle of March. Maybe they'll have it. There has been comparatively little snow in the last few years and meteorological conditions, like the other experiences of life, have a way of evening up in the long run, though no one can tell just when the evening-up process will begin to take place.

Steel as a Barometer.

Business men who regard the steel trade as a dependable barometer of business have a pleasant picture before them as they study the reports from the steel mills and become familiar with conditions in the steel trade in the opening month of the new year. Orders booked during December were larger than in previous months and the increase over November was the largest monthly gain shown in 1928. The production of steel ingots is around 84 per cent and inquiries show an abundance of heavy orders that will be placed shortly.

Orders for steel cars have been numerous, others are in sight, the companies in the West have placed many orders for steel rails and the large railway systems in the East are making inquiries for important supplies to be ordered shortly. In support of the inspiring outlook for the year is the fact that last year was one of the best for trade the steel mills have had recently and the unfilled tonnage at the end of the year was above the record of the previous year.

The steel barometer tells of continuing business in a large way, of substantial development in many lines, and of business that will be satisfactory for the interests that make ready and meet the situation.

Franklin's Anniversary.

In a number of cities men and women gathered on Jan. 17 each year to honor the memory of Benjamin Franklin and tell again some of the stories of the great movements in early American life with which he was connected. That fine old philosopher and statesman was born Jan. 17, 1706, and died April 17, 1790. His was a life of action and he left a record of achievement in many lines. It would be helpful to the young people of this country if the life work of Franklin were brought to their attention many times.

He had the rare privilege of placing his signature on four of the greatest documents in the early days of this country. He signed the Declaration of Independence, the treaty of alliance with France, the treaty of peace with England following the Revolutionary War and he helped construct and then signed the Constitution of the United States. It would have been a great honor for any man to have signed one of the great documents, but to sign four is an outstanding honor and tells the story of the place the man held in public life.

He left to posterity and the world his lessons on thrift, which have been of continuing value through the years. His personal and official honesty never was challenged, it stood then and stands today. There was a natural simplicity of manner and a sense of justice that has caused his utterances to be quoted, a patience and persistence in the right that would be an inspiration if one studied the record of the man. He was a great American citizen. It is well to call public attention to the life work of the man. There is much in his record the world might emulate with profit.

Undoubtedly the maddest good old girl in our set is the one who thought it said in the paper that rubbing the legs with cocoa butter for half an hour every night would reduce them and now, six weeks later, learns that what it really said was that it would develop them.

President Coolidge seems so different from what he used to be that we shouldn't wonder if Mr. Hoover had very little chance to tell about his trip to Latin America at the recent conferences, on account of being obliged to hear so much about Sapelo Island.

Orange juice is so good that it often surprises us that the eminent dietitians still speak a kind word for it occasionally, as if it might not actually hurt you to take a little once in a while instead of sauerkraut or tomato juice.

One good old girl of our set remarked in her doleful way yesterday that she often gets up in the morning feeling like Miss America and goes to bed at night feeling like a face-lifting operation.

Probably as trying an experience as any is to endeavor desperately for a long time to keep from sneezing when to sneeze would be especially inopportune and finally to fail.

The man who coined the simile may have had reason to think that a wet hen is mad but to us she just looks disconsolate and utterly disillusioned.

Another thing which, like the New England conscience, in our opinion has been somewhat overrated is the New England boiled dinner.

Our great party is for anything calculated to advance the noble cause of world peace that the Democrats won't get the credit for.

When they get to making paper towels of cornstalks we shouldn't wonder if we'd come out unequivocally against farm relief.

Our simile for the day: As cold as the milkman.

This Week

To Live Long, But Little.
A Small Piece of Land.
No Peace Prize.
Two Coolidge Virtues.

Reasonable expectation of life is now limited to forty-five years for the average. Formerly, when open sewers ran through streets, with graveyards on hillside draining into wells below, life averaged less than twenty years. Science says we already have sufficient medical knowledge to make life's expectation twelve years longer, but we don't use what we know.

The big problem is extending life for men and women past fifty. Barring cancer and other troubles, not understood, prolonging life is not complicated. Eat, sleep, exercise and breathe properly and living to ninety will not be difficult. Eating is especially important. We are what we eat.

Luigi Cornaro proved it when, at forty years of age, doctors told him his case was hopeless.

He cut his diet to twelve ounces of solid food, with fifteen ounces of light wine per day, wrote an interesting book when past ninety, lived past one hundred and wrote to the Archbishop of Venice: "I mount my horse without difficulty and had to live past ninety to realize that the world is beautiful." He made his wife live as he lived, and she passed one hundred. Francis Bacon supplies interesting details of Cornaro's life, as do other ancient writers.

Real estate dealers, old and young, pass in your hats.

One hundred years ago a small piece of land, part of the old Botanical Gardens in New York, was bought for \$4,507.36. The land, three blocks, is on Fifth avenue.

John D. Rockefeller, Jr., has just secured that piece of property for \$100,000,000, an increase to make a good single taxer shudder.

Mr. Rockefeller will use part of the property for a new Opera House, to be built in fashion to please students and others that have musical talent, but no diamond necklaces, to see and hear.

The money goes to Columbia college, which now owns the land. That probably reconciles Mr. Rockefeller to so large an investment.

The Peace Tower Of Canada's Parliament

RATHER a remarkably artistic photographic study—the above. It's a fine view of the Canadian Houses of Parliament at Ottawa. Our photographer snapped it from a point just behind the portico, which marks the entrance to the prime minister's building.

when the fault is entirely in their being over-cooked. Both of these useful vegetables contain vitamins that are destroyed if kept too long in the kettle; neither should be cooked over fifteen minutes. Old or tough specimens, that will not surrender in less than an hour's boiling, are unfit for use—just so much bulk, of no nutritive value.

Cabbage and turnips should be steamed. Enough water in your kettle to almost cover the vegetable and seasoning, should make enough steam to thoroughly tender them in the quarter of an hour devoted to that purpose.

Frying is a make-shift, a time-saver. Fried foods are at the other extreme—they are cooked too fast; the vital principles are driven out by the fierce heat, the hard and indigestible parts being left. Meats should be cooked in a vessel nearly air-tight, and in their own juices. A "Dutch-oven" is admirable for the purpose.

A Kansas City telegraph clerk automatically proceeded to count the words of a message presented by a stranger. There was no signature, so the clerk read the message, which said: "I am holding this place up." Confirmation was evidenced by the muzzle of a revolver, which also indicated that the message was "collected." And the customer collected \$42.35; all the money in the till.

Bachelors of Damascus complain bitterly of the exorbitant prices charged by fathers of comely prospective brides, and some suitors have been obliged to arrange installment payments. Really it would be tough to see wifey pick up and leave with half the installments unpaid.

Alexander Szbo, Hungarian actor, has just taken his twelfth wife, saying that the other 11 were nice girls and "if at the time I thought some of them treated me badly I have forgiven them and have forgotten what it was all about."

Dancing contests of the coming season will be devoted to illustrations of a new series of gyrations called the "bendola," according to a press dispatch. The new dance is said to combine the worse features of the cake-walk, the Charleston and the St. Vitus.

A collection of miserable human beings, losing sleep, undergoing useless torture, engage in a "talking marathon."

The one remaining awake and talking, for the greatest number of hours receives \$1,000. A civilization that does not allow one man to torture another should not allow human beings to torture themselves for profit.

About Your Health

Things You Should Know

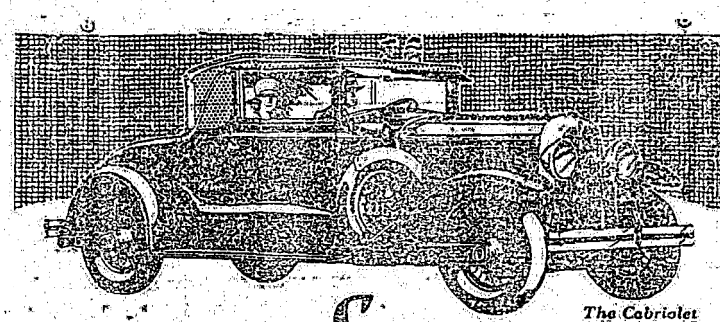

HINTS ON COOKING

The lower animals in natural state live on food that is uncooked, and do so, unless they become domesticated. With highly organized man, it is different; for the most part, his nourishment is more perfect with cooked foods.

Cooking serves two principal purposes; tough fibers are made tender—and, heat sterilizes. In these days of many microbes, the latter is a very important. Infected food is one of the most common causes of disease.

A very common fault is in the over-cooking of vegetables; the humble turnip and the plebeian cabbage are frequently blamed for causing digestive disturbances,

Some Day Soon you're going to Drive this Great New Car...

Some day soon you're going to drive a New All-American. And what a glorious experience that will be!... What a revelation in brilliant performance. In smoothness... in silence... in flashing change of pace. In the safety provided by its squeakless internal-expanding four-wheel brakes. In the power produced by a big, smooth, silent engine... with its dynamically balanced, counter-weighted crankshaft... its exclusive patented rubber cushioned mountings... its Harmonic Balancer... its G-M-R cylinder head. And what a discovery in new and effective beauty... Come in and arrange to drive this triumphant new car.

Prices \$1115 to \$1375, f.o.b. factory, plus delivery charges. Lowley Hydraulic Shock Absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Positive Cooking Results with the FEDERAL 4-way Oven

Your cooking results are positive and certain when your food is placed in a Federal Gas Range oven—bread and biscuits come out light and fluffy—cakes have an evenness of texture.

The new patented feature—4 way circulation of heat—assures even delivery of heat to every part of the oven—top and bottom as well as the four sides are equally heated.

How much better foods taste and how much more inviting do they appear when they have been evenly cooked.

Michigan Gas & Electric Co.

Berrien-Cass Scouts to Start Leadership Training

The organization meeting of all patrol leaders was held in the headquarters office Saturday afternoon for the purpose of starting the training course for these Scouts.

The boys who are patrol leaders in the various troops will be formed into regular troop formation and will be taught the proper ways of handling patrol meetings as well as troop work. Test work will be taught by the "game method" and many projects in handicraft will also be taken up. Dramatization of Patrol meetings will be held and the balance of the group will be the critics. The five patrol leaders were elected as follows: Charles Erick, Art Abraham, Bob Upton, Bud Myers and Charles Miller. The first meeting of the conference will be held on February 2nd in the Congregational church of St. Joseph at 1 p. m. The boys will have a potluck dinner. Much enthusiasm has been aroused in the planning of these sessions and the scout organization will derive great benefit from the work.

The "Patrol System" which is being used throughout the country in troops will be the basis of this work, and then be used in the troops that these boys are members of.

The Scoutmasters Training Course will open during the week of February 5th, Anniversary Week. It is estimated that 38 men are to take this work. The Standard course as well as the Advanced course for leaders will be given. There are 12 sessions in each course and the men plan to finish by April 1st.

Men completing five years of this training are given a Scoutmasters Key by the National Council and the recognition of that body.

New Troy Faculty Plan to Present His Uncle's Niece

The faculty of the New Troy schools will present the three-act comedy entitled "His Uncle's Niece" at the high school auditorium Friday, Feb. 1. This play is guaranteed to be a side splitter and will surely be one of the cleverest productions of the year. New stage scenery is being built for the occasion and also new furniture will be added as permanent equipment of the stage. It is planned to pay for these extras with the proceeds from the show. If you want to see a show as good as those direct from Broadway come to the New Troy high school auditorium Feb. 1, and meet his Uncle's Niece.

Former Buchanan Minister Builds Lansing Church

The Rev. Wm. Maylan Jones, formerly pastor of the Buchanan Methodist Episcopal Church, has led the congregation at Mt. Hope Methodist church, Lansing, Mich., in the successful building of an addition to the church costing \$55,600. The dedication, according to the Michigan Christian Advocate of last week, and programs received by Buchanan people, was on January 8th, the program extending over the week ending Sunday, January 13th.

Mr. Jones, who had a very successful pastorate here, being a popular preacher and pastor, went to Mt. Hope church in September, 1926, and immediately proposed that a building be erected, finding the people ready. At once \$15,000 was placed in a fund. In March, 1928 \$22,000 was subscribed, and \$18,369 was subscribed on dedication day, with more to be heard from, thus assuring the entire amount.

The newly dedicated church, with the addition, seats 750 in the main auditorium, with about 250 to be accommodated by throwing open the doors to a smaller room. It has kitchen facilities and seating capacity in the dining room for 400. Separate quarters are provided in the building for nursery, kindergarten, primary, junior and intermediate departments of the Sunday school, and club rooms are provided for boys and girls and men and women. The large primary room will be used for prayer meetings, Epworth League and other devotional meetings.

The Jones family was quarantined for scarlet fever and measles at the time of the dedication, but Mr. Jones had been sleeping in his study, and "Billy," the oldest boy, had gained access to his own room at the parsonage by means of a ladder to the window, so they two were present. Bishop Thomas Nicholson, D. D., and Dr. Wm. H. Phelps, editor of the Michigan Christian Advocate, were the chief speakers, while Dr. Clarence E. Hoag, superintendent of Lansing district, assisted during the week.

Berrien Medical Society Installs Officers Jan. 23

The Berrien County Medical Society held their January meeting at the Hotel Whitcomb in St. Joseph on Wednesday evening, January 23.

Dr. Guy S. Kiefer, commissioner of public health for the State of Michigan, was the speaker for the evening, but owing to the farewell dinner which is to be given in Lansing for Frank Hall, secretary to the governor, Dr. Kiefer will be unable to attend and will send in his place, Dr. Griswold, deputy commissioner.

Dr. Griswold explained to the Berrien County physicians the new county health act, which the State Board of Health is attempting to get the different counties to adopt. The Cass County physicians have been invited to attend as well as all the public health nurses of the county. This is the first meeting of the society for the new year and the installation of the new officers for 1929 took place.

There was an address by the retiring president, Dr. Strayer of Buchanan; also Dr. Frank King of Benton Harbor, retiring vice president gave a short talk. Then followed the talks by the president elect, Dr. H. O. Westervelt of Benton Harbor and vice-president elect, Dr. J. J. McDermott of St. Joseph. The secretary's report for the past year was also given. The business meeting was preceded by a dinner at 6:30 in the banquet room of the Whitcomb.

Poor Brakes No Excuse.

The courts hold that there is no excuse for poor brakes as a cause of accidents.

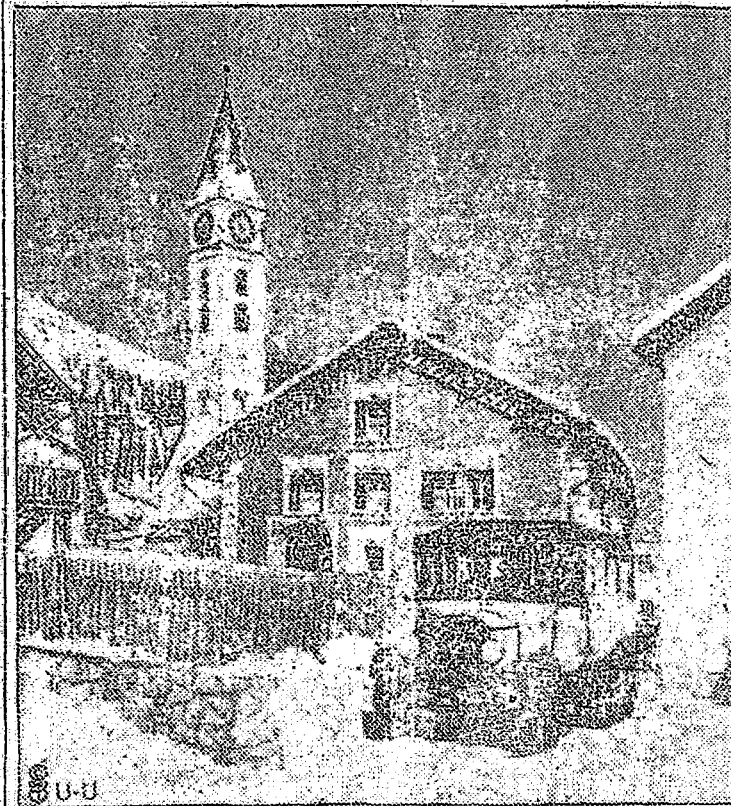

A woman living in Indiana 106 years has just seen a train for the first time. Her age makes us think she has not seen many automobiles.

WHEAT CHAMPION.

A Montana farmer won the world championship title for wheat growing in the late and grain show of the International Live Stock exposition, Chicago. C. Edson Smith, Corvallis, Mont., was awarded the championship cup, which he is shown holding.

Swiss Put Snow "Runners" On Motor Buses

ONE of the Swiss government's motor coaches passing through a quaint Engadine village. Note the sleigh-runners under the front wheels and, though hardly visible, there's a connecting chain belt system over the rear wheels. Very practical, we'd say, for travel over the snow.

Shield Furniture from Summer Sun

If you would retain the soft glossy finish of your furniture do not allow the hot summer sun to beat upon it. Mahogany is especially in need of protection, as strong sun fades it.

Ripe Pear Jam Peel and core about three

pounds ripe pears; chop or slice very thin and measure four solid cups fruit into large kettle. Add seven and a half level cups sugar and mix well. Use hottest fire, bring to a full rolling boil and boil hard one minute. Remove from fire and stir in one bottle liquid pectin.

Skim, pour and seal at once. "And puttee, Nebuchadnezzar, how doth that go?" "Petunia Old Gray Bonnet With Blue Ribbon on It."

Paper Towels for Kitchen A roll of paper toweling should be in every kitchen, for it has many economical uses, such as wiping out pans, cleaning the sink, cleaning stove, etc.; use it

also to give a quick final polish to glassware.

Plagues the Growing Boy. Chocolate bread pudding is very wholesome and beloved by the children. Use your usual recipe for plain bread pudding, but add to the scalded milk 3 squares melted bitter chocolate. This pudding is delicious served with cream.

Boy, 10, Wrecks Train—Just A Joke

Glassboro, N. Y.—George Brisco, 10, has confessed he pulled a switch on the West Jersey and Seashore Railroad a week ago just to "see what would happen." The result was the derailment of a passenger train, but no one was injured.

Card of Thanks.

The Old Timers' Corner

Joys of Bob Sledding told of in Old Timer's Letter

It has become a regular old-fashioned winter here, for the past week or more and I am sure enjoying it. Do I like it when it is "below zero"? Sure I do. I may be "old" but not that old. I saw some youngsters out for an "old fashioned bob sled ride" here in the city, the other night and I was sorry for them. Having to drive on side streets and trying to find enough snow to ride on. Boy! When we were kids there was no such thing as hunting for snow, for it was everywhere and plenty of it. The thing we might have to "hunt for" would be a road that was sufficiently "open" so that we could

get through, at all, with that load of human "catamounts." Everyone yelling and having a good time. These youngsters were yelling, and trying to have a good time, but what with stop lights and street cars and taxis and millions of traffic, the poor things didn't have a complete city block where they could ride along and have a good time. But that's one of the things that I claim is against raising children in a city. They have certain advantages, but they sure miss a whole lot of good things, too. Then when they are through with their ride, the driver dumps them out on a street corner and they are all so near home that

they have to go home. And who wants to go home when he is out for a good time with his sweetie? Now when we were out of the bob sled, in Buchanan, we were usually dumped out down town some place and then you had the sweet pleasure of taking your lady friend home after that and then walk a mile or two home to the farm. It was a gay life, all right. Here, they can look for only one thrill and that is a collision with some street car or truck or something. No nice clean snow banks to tip over into. O boy! some mix up!

One of the bob sled parties that I remember most, was a trip we made down north-west to town to the home of Henry and Emma Ellis's folks. They had an oyster supper for us, and they had a lot of things besides oysters, too. We ate so much we were sleepy going home and most of us crawled down under the robes and went to sleep (or at least we pretended to be asleep) ha, ha!

Another one was when we went to the home of Ed Bird's wife's people. I can't remember their names, it is German, I think, and they lived west and south of Berrien Springs. We were had a wonderful time down there also. Mrs Bird's family were just like she is, a regular good scout at all times and every one likes her, and so everyone had a dandy good time. The minute you were in the house you felt "at home." Just plain, every day "folks." That's what lasts the longest in friendship, any way. The ones that try to put on "wagon" and style, etc., make me sick. I like to sit in around the stove and take off your coat and "arctics" and talk as if you were human. The crops, the stock, the prospects of better prices, etc. Something good to eat from the kitchen, a drink of cider, maybe, and you have had a good time and no one has sprained a leg to put on any fancy airs. Just plain "folks." That's me.

I sometimes wonder if the farmer folks talk and think of the same problems that we used to have to talk and think about when we were on the farm. I suppose they do. I would sure like to spend a year or more out on some farm with some real people and get the smoke out of my lungs for a change. When we were kids and attending school, I remember in the Physiology class that our teacher told us that people that lived in the large cities breathed so much coal smoke, etc., that the lung tissues were a dark brown in color whereas they should be pink and clean, as were ours, out there in the country. Then when I went to college and had a job of cutting into those tissues in my course of work, I remembered what she had said and made it my business to find out if it was true. Well, it is, to a certain extent, but I expected to find them all cluttered up with hunks of hard coal, more or less. Such was not the case, of course, but they were of a darker texture, and so I say I would like to spend a year or so cleaning out the smoke from my own lungs. But it doesn't matter much, for "it won't be long now," any way. Ha, ha!

Last week I wrote about your teeth. I am expecting and hoping that I will hear from some of you and that you will ask me some questions. I don't want you to think I am trying to ask your patronage, for that is not the case. I only thought I might be able to help some one or more to keep "that cavity" for a while longer.

The Chicago-Buchanan Society dinner is to be pretty soon, the first Friday in February I think, here in Chicago, and I sure would like to see a lot of the Old Timers over here to that dinner. This organization was put on its feet by Frank Filpington, and others, formerly from Buchanan. They just get together and chat and talk with old friends about other old friends and it is really worth ones while to go for. You will have a good time and keep in touch with those that were and are still, really your friends.

Hoping to see a lot of you, over here soon, I am.

Old Timer.

Resourceful

One of the reasons why the cat is supposed to be invested with supernatural powers is because he is so well adapted to take care of himself. Put him in a bag at noon, tie the bag, take him 20 miles from home over country unknown to him, release him from the bag and he will be home in time for supper that same night!

Very Trying

During a heat wave a magistrate was discussing with a few club friends the question of summer drinks, and he admitted that he did not know of a good thirst quencher. "Have you tried gin and ginger beer?" asked one of the group. "No," but I've tried many people who have," was the response.—Glasgow Evening Citizen.

No Wild Canary

The biological survey says there is no wild canary in North America. The bird that is sometimes called by that name is either the goldfinch or the yellow warbler. Both of these birds are protected by state law and the yellow warbler is protected by federal law. The birds cannot be kept in captivity.

Dirt Walls Lasting

Prehistoric examples of dirt-rammed walls are still existing in South America. There is such a house in Washington, D. C., that was built in 1779.

Dignified
"Newsie"
Wears Plug
Hat While
On The Job

R. E. McLANE, a 65-year-old "newsboy" of Los Angeles, who insists upon sporting a plug hat day in and day out.

Whether the "stove-piper" is a sign that he has seen palmer days in his youth or just a sort of advertising trademark, McLane won't say.

Anyhow, it has its attention-compelling value.

In Memoriam to Mrs. Bremer.

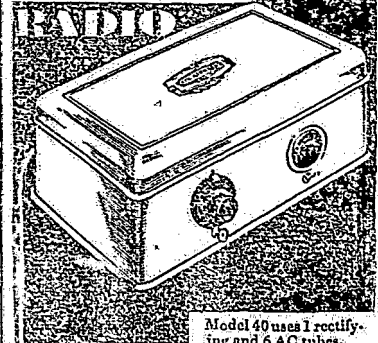

In such depths of heartfelt longing that words cannot express our grief and love for her cherished memory we send these lines in fond remembrance of our mother, and grandmother, dear, who left us for the Great Beyond to her Heavenly home, a year ago, January 22.

Pull well she carried on for over fifty years her work of labor and love for her husband, children, grandchildren, her neighbors, those in need, her church and for her God. To those who were ill and suffering she was ever ready to care for them.

We would have her with us to enjoy the fruits of her labor and love, but we cannot call her back from the Father's House where love and peace abide. Her daughter and grandchildren.

Mrs. Herman Shultz is confined to her home by illness.

Mrs. E. W. Mead spent Sunday in St. Joseph at the Harold Knight home.

Mr. Eugene Bauer and son, Warren, and Mrs. Frances Johns are all on the sick list the past week.

Mrs. Rose Kegie and son, Glen, spent Thursday in the Twin Cities on business.

Wm. Phiscator has been confined to his home the past week with illness.

Miss Christina Bean and Mary Bruner spent Thursday in the Twin Cities.

Mrs. Anna Swope was confined to her home with illness the past week.

Mr. Orville Miller of Berrien Springs spent several days the past week with friends and relatives here.

Fred Boldt who has been on the sick list for the past three weeks is now able to be up and around in his home.

Mr. Stephen A. Bihlmire spent several days in Benton Harbor, the past week on business.

Mr. Peter B. Meuser is also on the list of the sick ones here.

Mr. T. N. Chilson of Three Oaks was a business caller here on Monday.

Mrs. Wm. Phiscator is confined to her home by illness.

Edward Landon of Decatur, Mich., spent the past week here with friends and relatives.

Mr. and Mrs. Edward DeMorrow and son, Frank, of Lakeside spent Wednesday evening at the E. H. Swope home.

Holmes School.

Every one is back to school except Robert Hempel. We hope he is well enough to return soon.

Our school had a birthday party for Charles Boltz and Miss Batten. The children surprised their teacher with a beautiful angel-food cake decorated with red candles and roses. Ivan Price brought the cake. Pop corn balls were also served.

We started a good English club last week. Leona Seyfred and Enid Stevens were initiated as new members.

Everyone is glad that half semester examinations are over.

SHAWNEE.

Clair Dungleberg spent the week end and Sunday with her mother, Mrs. Jennie Dungleberg. Lazell Weaver spent the week-end with her grandparents and was taken home Sunday ill with a cold.

There was a Parent-Teachers meeting held at the Shawnee school house Thursday and a fairly good audience listened to an interesting talk about the customs and religion of China, delivered by Rev. Westworth of the E. M. College of Berrien Springs which was much appreciated. Refreshments were served.

Quite a number of car accidents are reported in and near this vicinity owing to icy roads but none serious.

Miss Evelyn Schaffer has been stopping with her grandmother the past week, caring for the latter who is improving slowly.

John Glidea, New York bridegroom, was disillusioned early. Immediately after his marriage to Rosalind Stanford he attempted to kiss his bride, but she objected, finally submitting to a formal carous on the cheek. John said, "I didn't know they got that way for a year or two."

"I believe in free speech!" "That's nice. I'd hate to have to pay to hear you."

Indigestion

Immediate Relief!

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate.

With no bad after-effects. Once you learn this fact you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.
