

COUNCIL TO ACT ON FAST TIME

SENIOR CLASS TO SHOW TONS OF MONEY MAY 23-24

Now Here's the Proposition

The Mystery of How I guess the Lord, who put the spots on frogs...

BUCHANAN'S FLOAT WINS FIRST PLACE

Tops Nine Competitors in The Village Division. SILVER TROPHY decorations Were Ruined by the Rain on the Way Home.

Buchanan's eleventh hour contribution to the Blossom Day parade was honored with first place and trophy for the village division...

The Buchanan float was piloted through the parade by Skipper Ormiston, who weathered the storm of traffic, only to see his good ship wrecked in the torrential downpour on the way home.

The award is a large loving cup which is now on exhibition in a window in the Twin Cities and which will be turned over later...

The Berrien Springs float which scored second in this division was also a striking creation...

Prize winners in all divisions were: The divisional prize winners in this year's Blossom parade follow: Sweepstakes—Preston Lumber company...

STOP DOESN'T MEAN STOP SO AUTOS CRASH

Drivers Give Street Warnings a Broad Meaning.

TWO ACCIDENTS OCCUR Cars Collide at Dewey and Main and at Front Streets.

Further illustration of what may be expected when the word "stop" is found on approaches to through streets, is interpreted as meaning something else than stop...

A similar accident occurred the previous week when a car dashed from Main on Front street without pausing, colliding with a car driven by Dr. Strayer...

The word "stop" apparently receives various interpretations in various places, being interpreted literally by some traffic authorities and as "slowing down your car and then going ahead if you have a clear field" by others...

Harold Hanlin Severely Hurt In Auto Mishap

Harold Hanlin, son of Mr. and Mrs. M. L. Hanlin, 113 Clark street, is a patient at the Pawating Hospital at Niles recuperating from injuries received in an automobile accident at Crawfordsville, Ind., Thursday evening.

Young Hanlin, who is a student at Wabash College at Crawfordsville, was riding in the front seat of a car driven by one of the instructors of the school, when another automobile without lights dashed in from a side road without observing the stop signal and collided with them...

Mr. and Mrs. M. L. Hanlin were on their way to Crawfordsville at the time to attend Father's and Mother's Day, and had stopped for the night at Lafayette, Ind. They returned the following evening, bringing their son with them.

B. H. S. Track Star Out of Kazoo Meet Account of Injuries

Jim Eisenhart, Buchanan high school dependence in the pole vault, was incapacitated for further track work this season when he severely cut the muscles of his right arm while reaching through a broken pane to unfasten a window at the Dewey Avenue school Tuesday, in an attempt to get his track suit...

Mr. and Mrs. Fred Welsh and family spent the week end in the home of the former's aunt, Mrs. Lafe Geiger of Gobles, Mich.

MAYOR CALLS FOR CLEAN-UP MAY 20 TO 25

ALL RESIDENTS ARE ASKED TO FILE RUBBISH FOR TRUCKS.

The coming week, May 20-25th inclusive, will witness the annual city clean-up, announcement that effect having been made by President Claude Glover.

It is customary to schedule this occasion each year on dates immediately preceding Decoration Day, and arrangements to that effect have been made in a number of surrounding towns.

IMPROVEMENT CLEAR LAKE ROAD IS ASKED

125 Taxpayers Sign the Petition to the Township.

VALUATIONS GROW

A petition was presented to the Buchanan township board Monday bearing the signatures of 125 Buchanan business men and main tax payers who endorsed the widening and graveling of the mile stretch road leading from M-60 to the Clear Lake Woods resort.

The plea for the road improvement is based on the rapid increase of tax values there since the development started two years ago, and the favorable proposal of much greater development in the future. It is stated that tax assessments on the property have tripled in two years, and that the actual increase in taxes paid for one year would nearly pay the cost of improvements asked on the road.

Developments there will be materially hindered unless the road through the woods to the lake is improved, say the promoters as it is the main difficulty to overcome in interesting prospective buyers of summer homes. That they have basis for complaint is evidenced by the fact that Lee McIvaine and Fred Wilkeney found difficulty in getting through with truck loads of goods while moving from Chicago to their summer homes there during the week end, and their truck was actually mired down on the road over Saturday evening.

Local Marksmen Smash Clay Birds In Topnotch Form

Local marksmen showed the best form of the season thus far in Sunday's shoot when William Fette of Buchanan registered a perfect score, smashing 25 out of a possible 25 of the clay birds, and Dalrymple of Buchanan and Salisbury of Dayton accounted for 24 out of 25.

Eighteen marksmen shot, their scores being as follows: C. Bennett, 17 13 9; F. Merson, 9 9 13; Delbaac, 18 18 17; Gleisner, 18 18; Ferris, 17; Manning, 15 11 15; Seabasty, 14 11 15; Straub, 20 15; Diment, 11; Fette, 19 25 23; L. Miller, 9 8; Salisbury, 15 13 24; Dilley, 14; C. Marble, 16; C. Rasmiller, 11; Nelson, 13 11; C. Dalrymple, 24; Sands, 12 12.

BERRIEN DOGS QUARANTINED FOR RABIES

Order Follows The Out-Break Near Galien.

CAN VACCINATE Ban Will Become Effective May 9 to August 5 Inclusive.

Notice has been received by Chief of Police Ed. Mitchell and by members of the county sheriff's department from J. B. Killham, veterinarian in the employ of the State Department of Agriculture to the effect that all dogs in Berrien County must either be vaccinated for rabies or kept confined during the period beginning May 9 and ending August 5.

This action apparently follows the discovery of dogs affected with rabies which ran rampant biting stock and other dogs in the vicinity of Galien and New Troy several weeks ago. It is feared that other dogs have been infected and that a more serious outbreak may come with the arrival of hot weather.

Accordingly no dogs will be allowed to run loose during the period defined above unless they have been vaccinated within the past year by a competent veterinarian. There are two veterinarians in Niles and one in Three Oaks.

The order received by Mitchell follows:

Notice is hereby given that all dogs owned or kept in Berrien county, State of Michigan, unless properly vaccinated against rabies within one year by a qualified veterinarian and tagged for ready identification, shall be securely chained or otherwise properly confined on the premises of their owner or keeper, or if allowed to run at large shall be securely muzzled to prevent the aforesaid dogs from biting any other animals or persons. All owners or keepers of dogs are hereby prohibited from removing any dog whatsoever from said county during the period of this quarantine, unless the dog is properly vaccinated against rabies by a qualified veterinarian within one year of, and at least sixty days prior to, date of removal.

The attention of all owners or keepers of dogs in the above named territory is hereby called to the following sections of the Michigan State laws relating to the Bureau of Animal Industry which provide for violations of this quarantine order and read as follows:

Section 6. "Said Commissioner shall have power to declare and enforce a quarantine on dogs in any district of this state in which there is an outbreak of rabies, dog cholera, hoof and mouth disease, or any other contagious or infectious disease among the live stock; and may order that all dogs in said district shall be securely chained or otherwise confined. Any dog found at large in contravention of the terms of such a quarantine or order may be killed. It shall be the duty of the sheriff of each county in the district affected and of his deputies, constables and other municipal police officers to see to it that such quarantine and orders are enforced. Any officer killing a dog pursuant to the provisions of this act shall not be subject to any liability therefor."

Section 23. "Any person violating, disregarding or evading any of the provisions of this act, or any of the rules, regulations, orders or directions of the Commissioner of Animal Industry, (Commissioner of Agriculture) made pursuant hereto shall be deemed to be guilty of a misdemeanor and by conviction thereof shall be punished by a fine of not less than ten dollars nor more than five hundred dollars, or shall be imprisoned in the county jail for not more than six months, or both such fine and imprisonment in the discretion of the court. The doing of any act herein declared to be unlawful, or herein forbidden, shall be deemed to constitute a violation hereof."

This quarantine order shall be in full force and effect from and during the period between May 9, 1929 and August 5, 1929 inclusive.

Houswerth Moves Radio Headquarters

C. L. Houswerth has moved his stock of radios and accessories from the New Battery Shop to larger quarters in the former Chamber of Commerce rooms at 304 West Front street, next door to the post office, where he will be able to carry a fuller line. The transfer was made Wednesday.

MAY 25 TO BE DOLLAR DAY IN BUCHANAN

The Record Arranges for a Special Sale on Saturday.

SPECIAL OFFERS

Saturday, May 25, will be Dollar Day in Buchanan.

No town which pretends to be a center of any trade, from village to city, ceases without its Dollar Day and presumes to maintain itself in favor of the buying public, which has testified its approval of the idea most strikingly during the past ten years since the idea has been established. If Buchanan people cannot get their Dollar Day at home, they will go where they can get them.

It is for this reason that the Record has arranged for a Dollar Day sale among Buchanan merchants on the date given above.

No other device has a similar success in cementing the trade relations between the marketing center and its territory, and in emphasizing the offers which may be found in the home town markets, without the time and expense of motoring abroad to outside trade points. Friendly relations between merchant and customer are promoted by these sales to an extent that may be accomplished in no other manner. Through it the merchants are best able to combat the idea so easily accepted that the "furtherest brought and the dearest bought" is necessarily the best.

The Buchanan residents have every reason for trading in their home town, when it is proved to them that they can be served as well in quality and price as elsewhere. By patronizing the home merchant when they can be so served, they aid themselves by cementing friendly relations with the merchant who is their neighbor and their ally in the support of all home institutions. They are lending their financial aid to business establishments on whose success the town is dependent to a very great degree. They are building up properties which share with them local burdens of taxation and in that manner they are indirectly getting a refund such as they cannot secure by taking their money elsewhere.

The local merchants co-operation in this sale will be the most effective teachers of the "buy at home" idea, by demonstrating that after all it is the cheapest and most satisfactory procedure. They will emphasize the fact that the staples are offered here on terms as satisfactory as elsewhere.

Mrs. H. Thompson Attends National Parent Congress

Mrs. H. B. Thompson returned Monday from Washington, D. C. where she had spent ten days in attendance at the National Congress of Parents and Teachers. This was the 33d annual congress to be held by the organization, which is similar in organization and purpose to the Parent-Teachers association, although not identical. Representatives were present from every state save one, and that one has no membership. The theme of discussion was "Worthy Home Membership."

Dr. and Mrs. Rolla Butts, Wesley Ford, George French and daughters, Misses Dorothy and Marjory of Chicago, were week end guests of Mr. and Mrs. Fred French, Main street.

WILL CLEAR MYSTERY OF STREET SIGN

Cast of Ten Give A Face on English Smart Life.

POPULAR IN LONDON Town Chippendales Will Be Ransacked for the Stage.

Did you ever see a ton of money? Well, probably not, if you never had a job in the mint, but the shortcomings in your opportunities will be remedied next week by the 1929 graduating class of the Buchanan high school, who will present "Tons of Money" on the auditorium stage Thursday and Friday evenings, May 23 and 24.

As you may infer from the title, the senior class play this year will be a strictly heavyweight production. It is an English play, of course, inasmuch as you have "pounds" of money to make a ton. Whether or not the seniors will be giving anything away is a matter not fully set forth in the advertisements, but at least the public is assured their money's worth, and more in first class entertainment.

Take-offs on English social life have an unusual appeal to the American audience, and the senior class of this year are capitalizing on this appeal with an English play which ran 738 times in London theatres from 1922 to 1924, when it was withdrawn. Typically English parts are being carried by Virginia Snowden and Fred Smith, who have been carefully drilled in a stage characterization of English manners and accents.

Mrs. Velma Danbar is coaching the play and her success in drilling previous high school performances is warrant for the statement that this item will be well taken care of. Miss Tina Skeels is in charge of properties and Harold Knight is stage manager. The supply of Chippendales and other furniture antiques in Buchanan has been ransacked to secure an effective stage setting, representing the London library and drawing room.

The entire cast will be as follows:

- Sprules a butler, Harry Banke, Simpson, a parlor maid, Thelma Whitaker, Miss Benita Mullett, Virginia Snowden, Louise Allington, Zeldia Schumaker, Aubrey Henry Mainland Allington, Fred Smith, Giles, a gardener, Robert Koenigs, James Chesterton, a solicitor, Don Fette, Jean Everhard, Hazel Johnson, Henry, Robert Morse, George Maintland, Phay Wilcox.

Tickets are now on sale by the seniors and may be reserved at Glenn Smith's store Saturday. Buy early and get a good seat.

GRAHAM-PAIGE HOLDS FORMAL OPENING SAT.

The Niles Motor Inc., dealers in Graham-Paige automobiles, will be hosts to the public all day Saturday on the occasion of the opening of their branch office in the new building at 205 Dewey avenue, now being completed for them by Lauver and Babcock.

L. C. Carr, who is well known to the people of Buchanan through his previous residence and business connections here, will be in charge of the branch office. New car models will be on display in the fine show room, which is 18x28 feet in dimension. Bob Rinker will assist Carr, having taken a position as salesman. A service garage is being opened in the rear of the building, with Arthur E. Sloan, an experienced and competent mechanic, in charge. He has been with the Graham-Paige company as service man for several years.

The opening of the branch office was made necessary by the rapid increase in business since the time of the formal opening in Niles.

STUDENT GRANGE TO CONFER DEGREE ON CLASS OF 20

TEAM FROM EAST LANSING HEADED BY NILES YOUTH.

A class of about 20 Grange candidates, mainly from the Wagner and Mt. Tabor granges, will receive the fifth degree on the evening of Saturday, May 25, at Mt. Tabor hall, when the fifth degree team from the student grange at Michigan State college, East Lansing, will be present to exemplify the work.

The college team will be headed by its master, Vernon Armstrong, who is the son of Mr. and Mrs. Wayne Armstrong of Niles, master and lecturer respectively of the Berrien County Pomona Grange.

CITY BEGINS PORTAGE ST. SEWER WORK

Hipskind Tries a New Device to Drain the Trenches.

TO LAY TILE DRY

Excavations were begun Monday morning by a force of city employees working under the supervision of John Hipskind, South Bend sewer expert, on the relaying of sections of the Portage street sewer, the first work being the excavation of the section between Third street and Dewey avenue.

Hipskind in beginning the work with an experiment in draining the trench with well points, in an effort to remove the water in advance of installation so that a narrow trench may be dug without pilings. The ground was excavated to a depth of 14 feet, about two feet above the top of the sewer tile, and a row of well points has been installed on each side of the tile to cut off the inflow of water which has already been lowered. In case this is successful, the tile will be exhumed and laid in a trench clear of water. If the result cannot be secured by this method, Hipskind will dig a trench alongside the tile and a short distance away, in which he will install a centrifugal pump and lower the water below the level of the sewer. In any event, the tile will not be laid in water, which was the cause of the difficulties experienced by Reed.

Hipskind stated that he would first get under way with a solution of the Portage street situation, before starting a crew on Third street.

LANG BEGINS WALTON ROAD PAVING TODAY

Work was begun this morning by the W. J. Lang Construction company of Chicago, at the River street bridge on the long delayed section of Walton Road pavement thru Buchanan.

The completion of the road from the River Street bridge to the Michigan Central through Portage street has been delayed for over nine months by reason of the uncompleted sewer installation. The company has been waiting the assurance that the sewer installation would be undertaken by competent hands and carried through to the finish. Accordingly their equipment was placed on the ground immediately following the commencement of the sewer by the Hipskind outfit. The work is in charge of C. G. Gribble, superintendent in the employ of the Lang Construction company who makes his home on the Walton Road near the railway crossing. Gribble stated that the section to be paved is about a mile and a half in length. The paving is to be 20 feet in width except for the section from the junction of Portage and River to Chicago street, which will be 30 feet wide.

MAYOR CALLS MEETING FOR FRIDAY EVE

Asks All Those Interested Pro or Con to Be Present.

S. B. ACTION REVIVES

Industries Complain They are Now Out of Step With Cities.

Notice was given this morning by Mayor Glover of a special meeting of the village council to consider the question of adopting the daylight savings program, to be held tomorrow (Friday) evening at the council rooms.

Glover stated that every interest in the community which felt in any way affected by the adoption of the advanced time schedule, either favorably or adversely, should be present and present their grounds of approval or objection, in order that the council might have full grounds for their decision.

Interest has been revived at this time by the adoption of the schedule in South Bend and by industries of the Twin Cities. Since Buchanan is perhaps more intimately connected with South Bend than with any other city in a business and industrial way, the change in that city vitally affects local affairs and affords reasons for adoption that were not in effect when the council acted several weeks ago.

CHL BUCHANAN SOCIETY PICNIC SET FOR JUNE 29

PLANS ARE MADE TO TURN EVEN INTO ANNUAL HOME COMING.

Buchanan people and all those who claim this place as their home town are hereby apprised that the Chicago-Buchanan picnic, which is scheduled to become the equivalent of Home Coming Day here, is scheduled this summer for June 29.

The Chicago-Buchanan society has been holding an annual banquet in Chicago on a winter date for many years. It claims the unique distinction of being the only society in Chicago composed of residents of the "old home town" of their nativity or former residence. No other town or city represented in the vast conglomeration of inhabitants that make up the three million population of the third city of the world appears to have an equal hold on the loyalty of its former sons and daughters, a compliment of a most unusual sort.

It is a further testimony to the quality of the pioneer stock of Buchanan that many of its former sons and daughters occupy positions of high honor and trust in Chicago and in other cities of their adoption.

It is the desire of the management of the summer picnic that it becomes more than merely a Chicago-Buchanan affair, but that former residents come from any place, if they find it possible. It is likely that more ex-Buchanans live in Chicago than in any other city or town, but "old timers" from South Bend, Michigan, City or Zanzibar, for that matter, will be equally welcome.

Mrs. Harry Brown is chairman of arrangements for the picnic here this summer. Further announcements will be made concerning definite plans and arrangements.

Local Residents Very Helpful in Clean-up Campaign

Some people in Buchanan are sure the little helpers when it comes to improving the appearance of their home city, according to R. E. Schwartz, who has been carrying on a house building and town improvement campaign "on his own." Last week Schwartz cleaned up a vacant lot at Main and Fourth streets that had been used for a dump previously, preparatory to building a house. The next day he found a foundation already laid for his residence in the form of a pile of discarded bed springs, an old gas range and other refuse. And this on a private lot in the heart of the residence district.

News From Galien and Vicinity

Conklin Preaches Touching Sermon On Mothers Day

Last Sunday was Mothers Day. There was bright sunshine, cheery singing of birds and beautiful budding, sweet ordered scenery to make it ideal in Galien and vicinity. Red and white flowers were in evidence everywhere in honor of a loved mother, whether here or beyond the skies. Special services were held in the evening at the M. E. church conducted by the pastor, Rev. Conklin. His remarks and the special music were touching and effective and the large congregation breathed prayers of thanksgiving for Mother. Each mother present received a special favor.

Family Gathering Honors Birthday of Mrs. M. Goodenough

A family gathering of the children, grandchildren and the great grandchildren of Mrs. Margaret Goodenough assembled Sunday at the home of her grandson and his wife, Mr. and Mrs. Herbert Goodenough, in honor of her 83rd birthday and Mothers Day. Mrs. Goodenough is blessed with nine children, who were all present on this occasion. Thirteen grandchildren and nine great grandchildren were also present. Forty-six enjoyed the pot luck dinner at noon. This worthy mother received a great many gifts, flowers and potted plants.

Out of town guests were Mr. and Mrs. McKercher and six children from Louisville, Ky., Mr. and Mrs. Wade Haines, LaPorte; Mr. and Mrs. Guy Martin and family, Mishawaka; Mrs. Moxall, Forest Goodenough, South Bend; Mr. and Mrs. Jesse Goodenough, Chicago; Mr. and Mrs. Albert Goodenough, Three Oaks; Mr. and Mrs. Chris Goodenough, Maple Grove and Mr. and Mrs. Ellis Goodenough, Galien.

Galien Locals

Mr. and Mrs. Jesse James entertained at Sunday dinner Mr. and Mrs. Wilbur Sheeley and family of Chicago.

Mr. and Mrs. Foster Bowker and daughter spent Friday evening with Mr. and Mrs. Frank Clark.

Stamped pillow cases, lunchon cloths, aprons, etc., at 15 per cent off Saturday at the Galien Hardware Gift Dept. 191c

Mr. and Mrs. J. A. Sheeley entertained at their home last Sunday Mr. and Mrs. Earl Ingles and sons.

The Junior class of the high school entertained the Senior class with a banquet at the Hotel LaSalle last Friday evening after which all enjoyed the theater.

Callers at the James Renbarger home Sunday were Mr. and Mrs. L. L. Bissell of Buchanan and daughter, Fern of South Bend, Mr. and Mrs. Ellis Renbarger and son, Harold, of Three Oaks, Forest Goodenough, Mrs. O. A. Dever and daughter, Lila of South Bend.

Mr. and Mrs. A. Warkke entertained at Sunday dinner Mr. and Mrs. Henry Klasner and son, Frank. Mr. and Mrs. Charles Partridge. Callers in the afternoon were Mr. and Mrs. Curry McLaren and daughter.

Mrs. J. A. Sheeley, Mrs. Frank Clark and Mrs. Russell McLaren and daughter spent Friday in Niles.

Mrs. Alba Unruh and daughter, Muriel; Mrs. Frank Clark were business callers in South Bend, Saturday.

The baccalaureate services will be held Sunday evening at the L. D. S. church and will be in charge of Rev. Conklin, pastor of the M. E. Church.

The Community Library management is very grateful to Mr. and Mrs. Rowe who formerly lived in Galien, but now live in Niles, who presented the library with a complete set of Histories last week which are entirely new and are very interesting.

Buy your summer supply of fancy work at 15 per cent discount Saturday at the Galien Hardware Gift Department. 191c

Robert James, who is attending school at Kalamazoo, spent the week end with his parents, Mr. and Mrs. Ernest James.

C. A. Roberts, who is working at Plainwell, spent the week end with his family.

Mrs. Conklin was a Monday caller on Mrs. Oscar Grooms, who is a little better this week.

Mr. and Mrs. Jesse Goodenough returned to their home in Chicago Sunday after a visit at the James Renbarger home.

Mr. and Mrs. Frank Lawson entertained at Sunday dinner, Mr. and Mrs. C. A. Andlauer and daughter, and Miss Enk of Buchanan.

Mr. and Mrs. James Thomas, Mrs. Morrissey of Chicago, Mr. and Mrs. Chris Andrews and son, Bob, were Sunday callers on Mr. and Mrs. F. V. Stoum.

Clarence Renbarger underwent a successful operation at Pawating hospital at Niles, Tuesday morning.

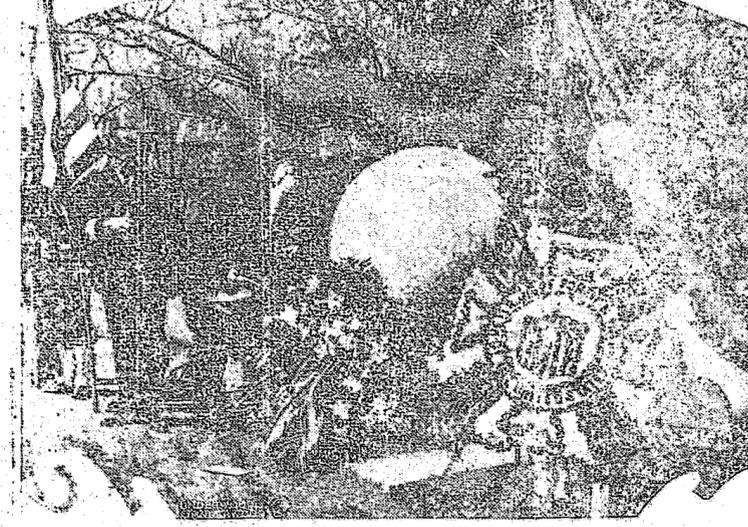

15 per cent discount on all stamped goods Saturday at Galien Hardware Gift Dept. 191c

Lauver & Son Add To Working Force For Summer Rush

The working force of the Lauver & Son filling station received another addition in anticipation of the rush of summer business with the arrival Sunday of John Coleman, Jr. With the advent of Coleman Jr., the gas pumping contract was taken over by Coleman and Son. The junior member of the firm is at present in the Pawating hospital, but will be recovered sufficiently in a few days to assist his father in the rush business.

Mr. and Mrs. A. V. Skimmer, Mr. and Mrs. Fumell Bradberry and Mr. and Mrs. Ralph Skimmer returned Friday from Shelby, Ind., where they attended the funeral of A. Skinner.

Anniversary of North Pole Discovery Observed

The ranking officials of the navy observing the twentieth anniversary of the discovery of the North Pole. Rear Admiral Robert E. Peary in exercises at his tomb in Arlington National cemetery, Assistant Secretary of the Navy Ernest L. Jahncke, in civilian clothes, and Rear Admiral E. Gregory, laying a wreath on the tomb.

Book Club Host At Open Meeting

On Friday afternoon, May 10th, the Book club entertained their friends at an open meeting at the beautiful home of Mrs. E. C. Mogford on Front street, which had been profusely decorated with tulips, pansies and valley lilies for the occasion. Mrs. Stevenson, director of the club, introduced the speaker, Mrs. Frank J. Sheehan of Gary, director of the National Federation of Clubs, a woman of charming personality, who gave an inspiring and enjoyable talk on "Women and the Changing World." In opening, she described two women; the old-fashioned mother and housewife with her substantial virtues and her equally substantial modern woman with her advanced ideas and her new standards of thought and morality. In conclusion she set before her hearers a high ideal for the woman of today, who creates the atmosphere of the home and sways the spiritual outlook of the world. Mrs. Sheehan was given the closest attention throughout her address.

Many Niles club women were among the guests. Mrs. Pascoe

and Mrs. Lillocoat each sang two numbers at the opening. Mrs. Lillocoat's being "Maytime," by Dudley Bach; and "The Bluebell," by McDowell, and Mrs. Pascoe's number was "Down in the Forest," by Renald.

At the conclusion of the program the sang a duet, "O, That We Were Maying," and "Dearest and Sweetest."

Mrs. Mabel Harper To Present Recital Saturday Afternoon

A recital will be given by the dramatic pupils of Mrs. Harold Harper of Niles on Saturday afternoon at 2:30 at the First M. E. church at Buchanan. The recital is open to the public and there will be no charge. The program follows:

"The Apple Tree" (original poem), "The House With Nobody in It," "Picture Pests," Marjory Campbell; "She Wouldn't Go to Bed," "Our House," Helen Liddicoat.

coat; "A Little Girl's Secret," "Dressmakers," Betty Ann Ryan; "The Little Girl Who Won't Regrets," "The Yellow Booties," Buelah Liddicoat; "Our Hired Girl," Esther Young; "The Dollies Bazaar," Martha Young; "When There's Company for Tea," "Soap," Paul Liddicoat; "The Duel," "The Moo-Crow-Moo," Marian Dalenberg; "The Morning Call," "Bill Smith," Helen Mogford; "Circus Day," "The World is Against Me," Bobby Stewart; "My Mother,"

"When You Know a Fellow," Rosabelle Roberts; "Her First Call on the Butcher," "Dad tries Umpiring," Ruth French; "At the Hairdressers," "The New Piano," Barbara Dunnick; "Human Tonic," Caroline Richardson; "47th to 71st Street, Gratts," "The Conqueror," Mrs. Paul Zielinski; saxophone solo, Valma Eagley; trombone solo, Maynard Post; piano solo, Ruth Jean Haslett.

NOTICE
The Board of Review of the Village of Buchanan will meet in the council room Friday and Saturday, May 17 and 18, 1929 for the purpose of reviewing the 1929 assessment roll. Any person feeling themselves aggrieved by said assessment may then be heard.
H. C. Eisela,
Village Assessor.

PORTZ BAKE SHOP

"Serve It With Cake and Rolls"

It costs very little to recondition a MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

12,000 Poles of Michigan Bell Co. Require Replacing

Telephone lines in Michigan have been harder hit by wind and sleet storms this spring than in any year since 1922, it is stated by H. G. Shannon, manager for the Michigan Bell Telephone company in this area. Three unusually severe storms, occurring March 6, March 31, and May 2, broke and displaced more than 12,000 poles and a thousand miles of circuits of the Michigan Bell company, causing total damage estimated at over a million dollars. Many of the smaller companies and rural co-operative lines also were hard hit, it is stated. The last storm struck before damage caused by that of March 31 had been repaired, and it may be two weeks before service can be restored fully to normal.

The circuits were broken and poles were toppled under the weight of heavy wind and sleet. Ice formed on the wires from one to three inches thick, during these storms.

The district most affected in the May 2nd storm was within an area bounded roughly by lines drawn from Grand Rapids to Owosso, on the north, and from Lansing, Jackson, Kalamazoo and Dowagiac to Niles, on the east and south. Telephone plant was damaged most seriously in Graton, Elmdale, Alto, Clarksville, Corning, Belding, Greenville, Ionia, Sarganac, Lowell, Woodland, Lake Odessa, Freeport, Mulliken, Calcedonia, Middleville, Hastings, Vermontville, Nashville, Scott, Gellen, Alamo, Paw Paw, Lawton, Lawrence, Downiac, Cassopolis, Marcellus and Decatur.

Service in other sections of the state, was affected to a lesser degree, by that storm. Twenty-nine Detroit long distance circuits and several important telephone arteries in the Thumb area were broken. Principal among the latter were the Saginaw-Bad Axe, Reese-Elkton and Bad Axe-Harbor Beach long distance leads. Long distance service in that area was completely cut off, temporarily. East Tawas and communities to the north also were isolated. Service to East Tawas was restored very shortly after the storm, and circuits to points farther north have been re-established. Deep snow hampered the work to some extent. Ten emergency repair crews are working in the Thumb area.

Those towns that suffered the greatest damage in the March 31 storm and where repairs are about completed, were: Schewa-

ing, Bay City, Auburn, Freeland, Ubly, Bad Axe, Midland, West Branch, St. Charles, Claire, Standish, Linwood, Birch Run, Rosebush, Coleman, Saginaw, Arden, De, Peck, Crosswell, Fort Huron, Grand Rapids, Grandville, Byron Center, Clarksville, Rockford, Ionia, Belding, Lowell, Greenville, Big Rapids, Sarganac, Grant, Cedar Springs, Cassovia, Sand Lake, Sparta, Lake Odessa, Calcedonia, Kent City, Ada, Marne, Dutton, Jamestown and Graton.

The Michigan Bell has had 100 crews of telephone repairmen at work on an emergency basis, night and day, to restore the service. Ohio Bell, Indiana Bell and the American Telephone & Telegraph company crews are assisting. President Burch Foraker of the Michigan Bell company visited the affected districts, and inspected the damage and directed the beginning of general restoration work, following the May 2 storm.

Restoration of service after each storm was gotten under way before the storm was more than a few hours old, and carloads of poles, wire, cable and other equipment were being headed toward the affected districts. Temporary circuits were established at all points, and arrangements were completed to handle emergency calls within a few hours.

Officials of the Michigan Bell announced that an adjustment of telephone bills would be made, as soon as possible, in cases of service interruption over its lines due to the storm and requested that customers affected who do not receive such adjustment notify the company.

Ancient Auto Is Feature of the Pioneer Fete

By far the biggest attraction at the 13th annual "pioneer day" observance in Three Oaks last Wednesday was the 18-year-old Overland automobile driven into the village by I. W. Duffie, 32-year old Berrien Springs resident. On the high seat beside her husband sat Mrs. Duffie, 13 years her husband's junior.

The car is of the 2-seated open variety, old-fashioned acetylene lights on each side of the machine serving as headlights. Straps held down the protecting leather curtains.

"Yes, we made good time, and came right along without a mishap or any tire or machine trouble," said Mr. Duffie, alighting with the agility of a man 20 years his junior and assisting his smiling "better half" to the curb in front of the Chamberlain Memorial museum where the festivities were staged all day.

Another exhibit of ancient vintage was the tall silk plug hat worn by William Schrader, leading the band of descendants of pioneers. In his quartet, appeared Fred Edinger, Frank and Lester Lee, brothers, and Eldon Lee, son of Frank. As the players concluded their selections Director Schrader doffed the hat piece with all the aplomb of a Beau Brummel.

Ninety people were present who had been born in Berrien county. Twenty-four were enrolled who were between 70 and 80.

Of the 400 present Eli Helmick, of South Bend, born 89 years ago in Berrien county, was the oldest person answering roll call. He was presented with a \$5 gold piece from President Fred Edinger, of the Pioneer society. The youngest there was the infant child of Mr. and Mrs. W. Keefe, local residents.

The excellent dinner served at St. John's parish hall was enjoyed by 250 guests, who represented many states. Some came from Indiana. Their dinner neighbors were from Chicago or perhaps Wisconsin or New York. Far distant points were represented in the notable gathering.

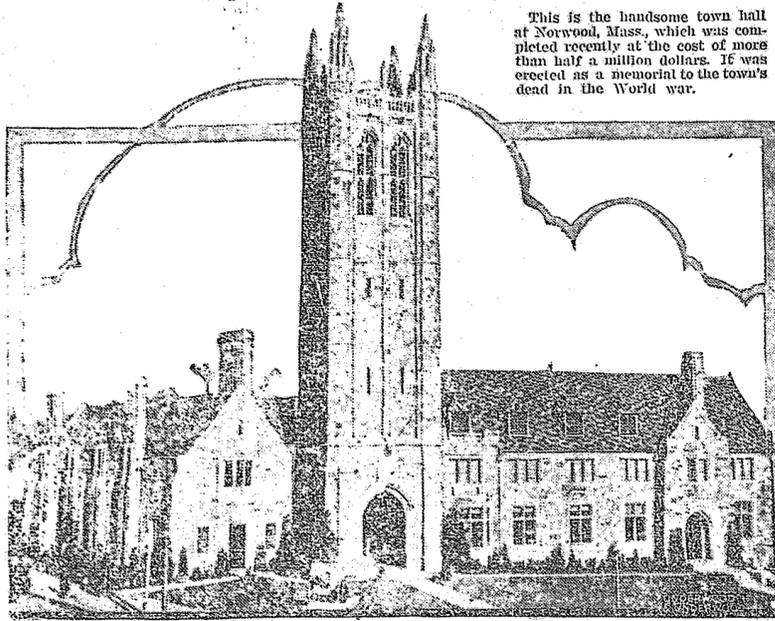

After dinner George Fox, the director of the Chamberlain Museum association, announced that 40 had died in the past year. The names were memorialized with floral offerings laid on the special table.

Areas Become Free From Tuberculosis

The progress of the campaign for the eradication of bovine tuberculosis in Michigan is so far advanced that it is now possible, for the first time, to select animals for a consignment sale from herds which represent leading blood lines in the state and which are also located in modified accredited areas, according to a statement by dairy specialists at Michigan State College.

Sixty-six counties of the state are now accredited with having less than one-half of one per cent

Fine Town Hall Is Also a World War Memorial

This is the handsome town hall at Norwood, Mass., which was completed recently at the cost of more than half a million dollars. It was erected as a memorial to the town's dead in the World war.

of cattle infected with tuberculosis in the herds within the county. Animals which will be sent to the State Holstein sale at East Lansing, May 21, will not have to be tested individually, as in previous years, because the area test plan has eliminated infected animals in the sections from which cattle will be consigned.

Many of the animals which will be at East Lansing, May 21, were chosen because they represent the type of young stock which is desired by 4-H club members in the state.

Owners of the consigned animals, except three, have had their herds under test in herd improvement associations, and the three which are not in the associations have tested their cattle under advanced registry supervision.

I love children. They do not prattle of yesterday; their interests are all of today and the to-morrows—I love children.—Mansfield.

OIL DRILLING START AT ONCE AT WATERVLIET

FIRST WELL IS SUNK ON THE NORTH SHORE OF PAW PAW LAKE.

Exploration for oil in North Watervliet is to be started at once by the Blatchford Oil & Gas Exploration company. Announcement has been made by J. K. Blatchford of Chicago, president of the company to this effect. A well drilling outfit is enroute there by trucks from Toledo, and will be set at the location decided upon this week.

The well drilling outfit is being brought to Watervliet by R. C. Steele of Muskegon, oil drilling contractor, who has the contract for the drilling of the first test

well for the Blatchford company, and has received a down payment on the contract.

The location of the first exploration test is to be on what was formerly the Frank Blake farm, on the north shore of Paw Paw Lake. The property is now owned by Mr. Blatchford.

The officers and directors of the Blatchford company, who it seems are to make the first real exploration test for oil in this county are as follows: President, J. K. Blatchford, Chicago; vice president, former Congressman W. Wilson of Chicago; secretary, Warren Nichols, prominent Chicago attorney; treasurer, John Calvey, manager of the Auditorium Hotel, Chicago; directors besides the foregoing, W. W. Myers, Denver; L. B. Jenks, of the Youngstown Steel & Tube Co., Geo White of the Pure Oil company.

Mr. Blatchford and R. A. Darling, engineer for the company on the ground, were in Watervliet recently. Mr. Blatchford stated that part of the drilling out-

fit is now on the location and the balance is enroute by truck. The derrick will be erected by the middle of next week and actual drilling operations will be started in ten days.

Mr. Darling stated that the hole will be started with 10-inch casing and that they are prepared to go to the Niagara sands if necessary. They expect to strike the Traverse formation at approximately 1000 feet, the Dundee at 1700 and the Niagara at 2800 feet, should oil not be struck before that depth.

Mr. Darling says they expect to have easy drilling for the first thousand feet.

Mrs. A. G. Haslett Elected President St. Joseph D. A. R.

Niles, May 11—Mrs. A. G. Haslett Buchanan, was elected regent of Fort St. Joseph chapter, Daughters of the American Revolution, at the annual meeting of the chapter held on Thursday afternoon at the home of Mrs. Wm. Umholtz.

Other officers elected were Mrs. Benjamin H. Smith, vice regent; Mrs. D. D. Waltz, recording secretary; Mrs. J. D. Greenmeyer, corresponding secretary; Mrs. H. L. Fox, treasurer; Mrs. Maude Michael, registrar; Mrs. N. A. Herring, historian; Mrs. G. W. Simon, chaplain. Mrs. Haslett may attend the Michigan state convention of the D. A. R. in Kalamazoo in October, as regent, and Mrs. Waltz was chosen as alternate regent, Mrs. C. E. Moom, first delegate, Mrs. L. M. Desenberg, second delegate, and Mrs. G. W. Simon, alternate.

The next meeting of the chapter will be held on Flag Day, June 1, with Mrs. Desenberg in Buchanan.

cd and circulated in said county. WILLIAM H. ANDREWS, Judge of Probate. SEAL. A true copy. Lillia O. Sprague, Register of Probate.

1st insertion May 9; last May 23 STATE OF MICHIGAN, in the Circuit Court for the County of Berrien.

At a session of said court held at the probate office in the city of St. Joseph in said county, on the 4th day of May A. D. 1929. Present Hon. William H. Andrews, Judge of Probate. In the matter of the estate of Carrie Peer, deceased.

It is further ordered that public notice thereof be given by publication of a copy of this order, once each month for four months prior to the month set for said hearing, in the Berrien County Record, a newspaper printed and circulated in said county.

It is further ordered that notice thereof also be given to each person named in said petition as heirs-at-law, or next of kin, by depositing copies of this order in a postoffice, in envelopes addressed one to each of them at their respective last known postoffice addresses, duly registered and postpaid, within thirty days after the filing of said petition.

WILLIAM H. ANDREWS, Judge of Probate. SEAL. A true copy. Lillia O. Sprague, Register of Probate.

1st insertion May 9; last June 13 STATE OF MICHIGAN, in the Circuit Court for the County of Berrien, in Chancery. Arlin B. Clarke, plaintiff, vs. Hon. E. Hoffman, Cyrus Dana-Hiram F. Mather, the wife of Cogswell K. Green, if any, John L. Schoolcraft, the wife of Edwin Morgan, if any, Lillie E. Clark and John C. Clarke, and the unknown and unascertained heirs, devisees and legatees of each and all of them, defendants.

At a session of said court held in the Circuit court room in the city of St. Joseph in said county on the 6th day of May, 1929. Present Hon. Charles E. White, Circuit Judge. It appearing that the defendants are not residents of the State of Michigan, and their respective places of residence are unknown.

On motion of A. A. Worthington, Attorney for plaintiff, it is ordered that said defendants, and the unknown and unascertained heirs, devisees, legatees and assigns of each and all of them, cause their appearance to be entered herein within three (3) months from the date of this order, and in default thereof the bill of complaint herein be taken as confessed by them.

Publication hereof to be made in the Berrien County Record, a newspaper published and circulating in said county, within forty (40) days after the date hereof, such publication to continue therein once in each week for six weeks in succession.

CHAS. E. WHITE, Circuit Judge. TAKE NOTICE that this suit is brought to quiet the title to the following lands in Buchanan township, Berrien county, Michigan, to wit: The east sixty (60) acres of the west half of the northeast quarter of section thirty-three (33) town seven (7) south, range eighteen (18) west.

Monday brings Al Wilson, the daring aviator, in "The Sky Skidder," a typical Wilson showing, with air stunts that nobody else attempts.

Tuesday and Wednesday brings Marton Davies in "Show People." This is a picture of life as it is lived by those on the stage, and has the usual lure for every lover of human interest stories.

Arthur Morley is Planting Trees on Pike's Peak Forest

Seven hundred trees per day per man is the way they plant 'em in the U. S. national forests, according to Arthur Morley, son of Mr. and Mrs. Perry Morley, who is now engaged in forestry work in the Pike's Peak National Forest in Colorado.

Arthur Morley pursued a forestry course for a time at Michigan State college, going last year to Idaho, where he was a ranger in a national forest.

Not So Dumb Chippy was regarded as the town simpleton, but occasionally he showed a disconcerting gift of repartee.

Mr. and Mrs. Ray Anderson and son Bobby, accompanied by Emil Johnson and daughter Josephine, motored to Chicago Saturday to visit relatives, returning home Sunday evening.

Mr. and Mrs. Carl Lehrke of Detroit, and Mr. and Mrs. Ed Mischke of Kalamazoo, spent the week-end at the Albert Lehrke home. Mrs. Frank Wright, who has been quite ill, is reported as some what improved.

Miss Laurene Wright entered the employ of the Bell Telephone Co. at Buchanan. Mr. Albert Lehrke received a bad injury to his left shoulder, while harnessing a team of mules last week.

Mr. and Mrs. Charles Hess were dinner guests Tuesday at the home of Mr. and Mrs. Frank Fulkerson south of Niles. School will close the 24th with a picnic dinner.

The seventh and eighth grade pupils are taking county examinations at Buchanan this week Thursday and Friday. Regular meeting of the Wagner Grange Friday evening.

Life for Pint Law Replaced Aug. 1, By Cuthbertson Act

Jail sentences for convicted bootleggers, instead of light fines, are guaranteed in Michigan by a new law, just signed by Fred W. Green, governor.

The Cuthbertson law, effective Aug. 29, makes mandatory a jail term for from one to four years on commercial violators of the dry laws. It was enacted following repeal of Michigan's "life for a

thefts at Buchanan. Mr. and Mrs. Frank Lange and son of Michigan City, Mr. and Mrs. Louis Compass and sons of Gary, Mr. and Mrs. Beryl Bowker and daughter of Galien, spent Mothers Day with their parents.

Mr. and Mrs. W. O. Sessine entertained Mr. and Mrs. Floyd Harigan and children of Gary, and Miss Mildred Miller of Mishawaka, and Mr. Ernest Brown of Elkhart over the week end.

Mr. and Mrs. Herbert Weber and son and his boy friend of South Bend and Mr. Weber's mother of Watertown, Wis., were afternoon guests at the Sessine home, Sunday.

W. O. Sessine spent Mothers day with his mother at LaGrange, Ind. pint law," which proved difficult of enforcement, although several persons were sent to prison for life under its terms.

Dry leaders united in pressing the Cuthbertson bill, which has been called Michigan's "Jones Law." It provides a mandatory prison term of one year and a fine of at least \$100 for anyone who shall "sell or keep for sale, manufacture for sale, transport for sale, or have in possession for sale any of the beverages prohibited by the state liquor law."

The maximum penalty for a first offense is four years in prison and a fine of \$2,000. For other violations the bill provides a fine of not more than \$2000 or imprisonment of not more than two years, or both.

Only 14 persons got straight jail sentences from recorders' court in Detroit under the present law in 1928. The average sentence was

about 75 days. Average fines for the first half of 1928 were \$70.56, for the second half, \$65.02.

In the last six months of 1928 927 liquor cases were prosecuted in Wayne county. Of these 395 were convicted, 89 acquitted, 64 nolle prossed, 11 discharged on examination, 115 paroled, 35 given suspended sentences.

In the last six months of 1928 only three violators were given jail sentences, two for 30 days each and one for 45 days. Judges say it has been difficult to get juries to convict liquor offenders and the prosecutor's office adopted the policy of accepting nominal fines, if offenders would waive jury trials and plead guilty, thereby clearing the docket.

Mount Lassen volcano in California, is the only one that has erupted in this country during this century.

EIGHTH GRADE LABOR BEHALF CIVIC BEAUTY

Complete Landscape Work on the Sunken Gardens.

BEGUN LAST YEAR

Vacant Lots are Sown to Grass; Flowers are Planted.

At least one eye sore of Buchanan has been transformed into a thing of beauty...

This work was begun last year, when a start was made through the efforts of the boy scouts...

The Civics class took charge of the completion of the work this year, and under the efficient direction of their teacher...

Early in the spring a number of tulips and other bulbs donated by D. L. Boardman were planted in a circular bed in the foreground...

The money used by the Civics class in buying shrubs, flowers and grass seed came from the class fund raised through monthly dues of five cents each...

The two divisions meet together monthly, carrying on the meeting in regular parliamentary form...

This cup represented the gift of the class, an annual custom followed for several years...

It is rumored about that the city plans to prosecute certain scholars of Buchanan High as a result of their attempted advertising scheme for the senior play...

Everything would have been hotsy, except that their purpose was misconceived by a local pillar of the law...

Local Limb of Law Confiscates Senior Play Advt.

It is rumored about that the city plans to prosecute certain scholars of Buchanan High as a result of their attempted advertising scheme for the senior play...

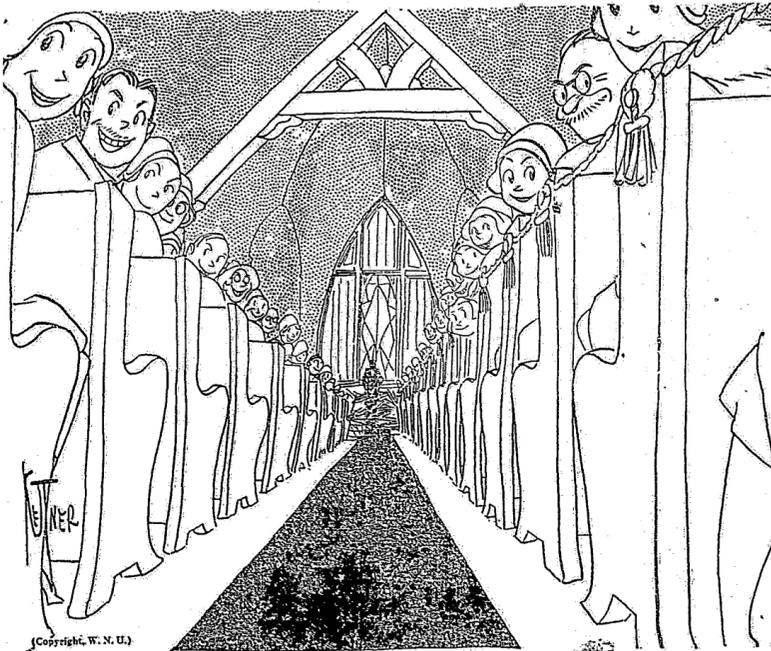

Messrs. Ormiston and Smith, the big guns of the local school system, decided to be original in their advertising...

When the rambling members of the Buchanan High School were informed of the law's actions, they too were stirred to righteous anger...

They immediately betook themselves to the aforementioned pillar but when everything had been explained, due apologies were rendered and permission was granted for the signs to be redistributed...

So far, so good, but when the signs were again looked for, it transpired that Manager John McGraw, local baseball magnate, on perceiving signs in his back alley, had decided that said signs might

Here She Comes

make good base lines for his ball park. What he didn't use he destroyed. This was too much! The case of state versus Senior guns for assault and battery, is set for May 23 and 24.

Seniors Celebrate Skip Day Wednesday

Last Wednesday noon thirty guilty-looking people were seen climbing into cars parked in front of the Hotel Rex and then they were seen being rapidly driven away. Who were they? What was it all about? Don't you know? It was the annual Senior Skip Day.

Conceiving the brilliant idea of going to school Wednesday morning for a sort of camouflage, they took every one by surprise when they did not appear in the afternoon.

Theater going was the first thing on the program, and as South Bend was the destination there was a large assortment of places to pick from. Some, of course, went to the usual "talkie" while others preferred the stage drama. Next came dinner, and every one met at the Terrace Gardens where dancing as well as eating one's fill of chop suey was indulged in.

The remainder of the evening was spent as the different parties wished individually. The majority, however, voted on a dancing party, and as a result, the orchestra at the Hudson Lake Casino furnished the entertainment for the conclusion of the evening.

After sleeping off the results of the night before the entire group returned to school Thursday afternoon ready to resume their work.

Grade News

FIRST GRADE Dovey Avenue We had a spell down on Friday. Johanna Burks, Ruth Rumsey and George Lauer stood up the longest.

SECOND GRADE George Lakin spelled the school down last Friday. The girls and boys in Mrs. Fischmar's room are enjoying the gold fish and tadpoles that Elberta and Orlo Maxon brought us last Thursday.

THIRD GRADE This week we have had nearly 100 per cent attendance, the best during the year. Norma Jean Hess is absent on account of illness.

FOURTH GRADE Barbara Jean Schram has been on the sick list. We had for our guest Monday, Dorothy Reid from South Bend. She is visiting Ruth Lightfoot.

FIFTH GRADE Miss Hopkins' room is very proud of the Chinese display held this week. The collection consists of a silk embroidered Chinese coat, head-dress, silk embroidered handkerchief and an elaborate wedding veil, Chinese nuts, a box of tea, a newspaper, a pillow with an embroidered ricshah, a backscratcher and several books showing Chinese customs in stories and illustrations. They wish to thank

THE REPORTING INQUIRER

Question: Do you like the wind blown bob? Charlotte Arnold: "Whoopie, some relief to get all that hair off my head. Now I won't even need to comb my hair and nobody will notice it. When summer comes and we go in swimming think what a relief it will be not to have to fuss with my hair. I should say I do like it."

Marjory Hickey: "Well, I should really hate to say, but as long as I have to write something, here goes. One girl in the high school heard the girls tried to look like Cleopatra, but they did not have enough sense to know they needed long hair. They all were trying to catch a man, but Cleo had a much better chance."

Sheldon Ryan: "I was asked to write a few lines on 'Do you like the wind-blown bob?' Well, it's like this, I don't stay awake nights worrying about the way girls have their hair cut, but I will say a wind blown bob makes quite a change in some girls for the better, but not for others. But then the looks of some girls can't be spoiled anyway."

Mary Feklich: "The wind blown bob has become the rage of our high school flappers and has almost become the limit. My advice to the rest of the girls is: 'Leave your hair as it is and be different!'"

The year 5690 of the Jewish era begins at sunset on Oct. 4, 1929.

Students Fancy Turns to Thoughts of Summer Jobs

Toward the end of the year it is a natural thing for students to think of vacation. School work gets somewhat tiresome and every one waits anxiously for it to cease.

Ordinarily, looking forward to vacation does not mean looking forward to leisure, at least in the case of most students. There are many different kinds of summer occupations such as working in the shops, clerking in a store, working on the road or farming. There are countless opportunities open. The main thing is to take them.

In every occupation there is some benefit to be derived if only in a financial way. At the end of the summer every one should ask himself the question, have I spent a profitable vacation? Some material benefit should be obtained from a summer's labor. If every one has derived a benefit from his vacation, then vacations are not in vain. It is a good plan to make your vacation profitable.

Tickets for the Senior Class play, "Tons of Money," to be presented May 23 and 24, may be purchased at Glenn Smith's Shoe Store, as well as from any member of the Senior class.

Public Speaking Class Complete Oratory Efforts

Students of the Public Speaking class have completed their work on orations, each member having to write one as a necessary portion of the course—without which credit cannot be secured. This week stories with a moral have been told by members of the class in an effort to gain ease before an audience, and to stress or bring out the points of a speech.

Herman Schooben, more than 50 years a hermit in the Black Forest, was found dead from starvation.

Game Preserve is Located Near City

That Buchanan has a "game refuge" within a few hundred yards of the city limits in which wild geese and pheasants are living and propagating in conditions approximating their native habitat may be news to many here, but such is the achievement of A. A. Hurlbutt on his farm immediately west of the town. The Hurlbutt farm includes

NEW TROY SCHOOL NEWS

The rural school field day was a grand success. Six schools participated although several more schools were represented. The first number on the program was the old fashioned spelling bee which was won by Miss Bertha Burk of the Pyle school.

The second number included the athletic events of both track and field of which the results were as follows: 1st, New Troy, 42 points; 2nd, Berlin, 13 points; 3rd, Sawyer, 9 points; 4th, Pyle, 5 points.

New Troy retains the silver cup and it becomes the permanent possession of the school as they have won it three times in succession. Next year a new cup will be put up for the contest and it is hoped to have individual awards.

The last event on the program was a baseball game between New Troy and Galien high schools with New Troy coming out on top with a score of 7 to 3.

The Senior Play will not be staged this week as was mentioned in a previous news article. "The Tumult" is the title of the play and promises to be a very fine presentation. The date will probably be May 24th. It will be announced in next week's issue.

RECO ATHLETIC'S Parade Bases in Disastrous Game

What was scheduled as a baseball game proved to be a slaughter when the Reco Athletics of South Bend pounded four pitchers mercilessly and crossed the home plate 32 times in nine innings, while the Buchanan Blues suffered the worst rout ever administered to a team bearing the name, in the contest here Sunday afternoon.

In justice to the locals, it should be said that the Reco's were perhaps the strongest team to appear on a local diamond for many years. They represent a reorganization of the former East Side Merchants, which defeated the Blues two out of three games last year, and which have received several additions which render them stronger than ever.

WYMAN'S SOUTH BEND, IND.

The clever woman makes her own frocks--

and everybody knows it is much more economical. For such smart prints and plain colors (the very ones that "Vogue" talks about) are displayed in the silk shop, one can't help but be chic as well as practical. You will thank us for suggesting a trip to town to see our wonderful collection.

Mrs. Dennett's Case.

Mrs. Mary Ware Dennett, found guilty by a federal jury in New York of sending an obscene pamphlet through the mails, announces with spirit that she will go to jail rather than pay the \$300 fine assessed against her. She will go to jail, she says, only because the government is physically stronger than she is. Our guess is that she will neither pay the fine nor go to jail. The verdict against her may be in accordance with the letter of some law but it does not appear to be in accordance with common sense or justice. It is probable that it will be reversed by a higher court.

Mrs. Dennett, who is 53 years old and a woman of intelligence and good standing, wrote the pamphlet in question some years ago for the guidance of her own young sons, as a means of keeping them in the path of clean-mindedness and virtue. She did not intend it for general circulation, not feeling herself responsible for the moral welfare of the whole adolescent world, but someone found out about it and 26,000 copies have been distributed with the indorsement of such agencies as the Y. M. C. A., the Y. W. C. A. and the churches. Now 100 prominent men have arranged to send a copy through the mails to President Hoover for his judgment. If they have not already done so, thus deliberately and defiantly laying themselves liable to the law as interpreted in Mrs. Dennett's case.

It is impossible to believe that "that woman is trying to corrupt the pure boys and girls of America with her filth," as her prosecutor charged. Whether wisely or not, she tried to purify, rather than corrupt. It looks like a case where the letter of the law is in direct conflict with its own spirit. How hard it is to achieve personal morality thru legislation.

Installment Plan Investing.

Mr. Raskob now proposes the application of the installment plan to the purchase of a competency or a fortune. He figures on organizing two corporations, an acceptance corporation to lend money for investment, and an investment corporation to do the investing in the common stocks of standard industrial enterprises which experts believe to be safe and in line for expansion. It is the same plan on which many people buy their automobiles now but in this case they would be buying future independence, paying for it by the month, instead of present convenience and pleasure.

Of course the same thing can be done now. A man can save \$200, say, go to the bank and buy a \$1,000 bond, borrowing the rest of the money, to be paid off in a lump or in installments, and leaving the bond as security for the loan. Or he can buy a block of stock in that way or an interest in an investment trust, which, like Mr. Raskob's plan, gives him the advantage of diversification. In fact, what Mr. Raskob proposes is an investment trust with accompanying borrowing facilities.

In itself the idea is perfectly sound and the organization of the associated Raskob corporations probably would encourage many people to save systematically. Such an enterprise, conservatively and expertly conducted, would offer, as some of the investment trusts do now, safety for one's money with a reasonable hope of considerable accretion in values as the country grows and prospers. But a person who has the good sense to wish to save and invest does not need to wait for the consummation of the Raskob plan. He can call on a good banker, get some valuable advice as to ways and means and start at once.

Chicago's Payroll Scandals.

Practical politics, as it is played in Chicago, places on the public treasury a large part of the cost of maintaining a highly organized and effective political machine for use in campaigns. Men and women whose influence is sought are put on the payroll, positions are created, the list is extended, good salaries are fixed, and a large army is paid though it does not perform the slightest service for the public.

Repeatedly during recent years the payroll scandals have been developed in part and brought before the public. Not a single complete story has been secured, because payrolls are hidden, the public is refused access to them. The Chicago board of education has been involved in payroll scandals for years and enough has been shown to prove that millions of dollars have been paid to partisan favorites and without service.

The sanitary district board is charged with having diverted funds, raised by bond issues for permanent improvements, and using them to pay the demands from the loaded payroll. Thus far the men charged with that offense have been able to hide the payrolls. There is pending in the legislature a bill that would require full publication twice each year of all public payrolls. That would be expensive, but it would cost less than the indicated frauds, and it would let light into dark places.

Machine politicians are fighting the bill, do not want it to become a law, because it would prevent their crookedness. Chicago has been a great sufferer from the quality of

political government it has permitted. Probably if light on the payroll graft were supplied it might help the city to supply government that would serve the public rather than the machine.

Railroads Give Farm Relief.

While Congress talked the American railroads provided farm relief, not the political kind but a financial relief that will become effective as quickly as the Interstate Commerce Commission approves it. Export freight rates from the wheat states to the seaboard have been slashed an average of three cents per bushel to help move 150,000,000 bushels of wheat carried over from last year, that the market might be clear for the advantage of the growing crop during the summer. In doing that the railroads contribute a portion of their earnings in order that wheat growers may have normal market conditions when the new crop is ready for sale. Present indications point to a heavy crop.

If the 150,000,000 bushels of wheat remaining from the crop last year were left in the elevators and bins of this country, it would be a handicap to wheat prices as the new crop comes in and a situation that might become calamitous would be possible; in fact, it might be difficult to prevent it. The agreement to reduce the freight rates so the surplus crop could be moved quickly into the markets of the world was reached after conferences between railroad leaders with Secretary Hyde of the department of agriculture and Secretary Lamont of the department of commerce. It will mean a market for the surplus wheat and advantage to the wheat growers and will clear the market situation for normal operations during the summer. It was a striking bit of farm relief work, done by the railroads. It has an immediate value and an importance to the future that makes it worthy of careful consideration.

Fire Insurance Facts.

Growth of fire insurance business in this country has been rapid during the last two decades. The large stock companies in that field never were stronger than they are today. The business generally has been prosperous and conditions were satisfactory as the year 1928 ended. That is the story announced by The Spectator, veteran insurance journal, in its analysis of business handled and conditions revealed. There are 285 large stock companies in the fire insurance field. Since 1908 their combined capital stock has been increased five-fold, their assets have been increased in the same degree and their annual premium income has been quadrupled.

These facts have a nation-wide interest because every property owner who is wise and prudent carries fire insurance and is affected in his property investments by the condition of the insurance companies. When companies are financed strongly and managed successfully and direct their affairs along constructive lines, it means safe insurance to the public. The 285 stock companies had total assets at the end of last year amounting to \$2,439,315,189. Their surplus funds were \$891,472,584, their combined capital stock was \$363,950,210, their total income last year was \$1,150,171,453, of which the net premiums were \$924,756,350. Growth of net premium earnings has been retarded by the activity of companies in urging policyholders to add safeguards that cut their rate and so reduce premium collections. The safety engineers are the busiest men in the fire insurance organizations. They do not want fires. In making fires less frequent they serve the public in a valuable way.

The danger is that if President Hoover puts too many eminent members of the bar on his commission to investigate the prohibition situation and allied infelicities the report will be so long and involved that nobody will read it and it won't do any more good than a rabbit.

Reducing has been going on for 10 years now among the members of the ladies' auxiliary of the old fighting class between 41 and 4 and practically all our girl friends still look far more suitable for the shot-put than the 100-yard dash.

Neither Louisiana nor Mississippi have ever had an earthquake and we'll bet the loyal citizens of those sovereign states would lots rather talk about earthquakes than floods.

When a loyal but conscientious Republican editor doesn't dare say a policy is rotten, when it is, he says the question calls for careful study.

Probably the funniest thing about the modern Pharisee is his utter inability to see that what the Bible says about the ancient one applies to him at all.

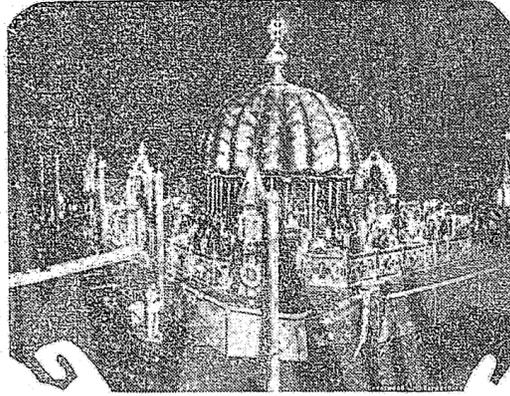

She is the kind of woman, we said in our bitterly intolerant way, that thinks a photograph is much better if she calls it a studio portrait.

Greater faith hath no woman than this, that she trusts her husband to take something out of the oven at a certain specified time in her absence.

Another point of view we can't quite get is that of the anonymous philanthropist and we'd want 'em to know it.

If it were not for the rumble seat we'd find it pretty hard to believe some of the dry goods advertisements.

To Pack Michigan Potatoes in 15 Lb. Cloth Sacks

Shipping potatoes in 15-pound cloth bags is the latest move on the part of Michigan potato growers to make a bigger place for themselves on the markets of the country.

A trial shipment of a carload of 2400 of these small sacks to Buffalo last week met with an excellent demand for the best class of trade and brought a premium over stock packed in other ways.

Shipper of the first car of American potatoes to be packed in small bags was the Farmers Marketing Co-operative Exchange, of Boyne City, Mich. The car was directed to F. P. Coward and Son, Buffalo commission house, and was handled through the Michigan Potato Growers Exchange, Cadillac, of which Fred G. Hibst is manager.

Encouraged by the success of their initial venture, Michigan growers are making plans to make further shipments of the same kind, not only to Buffalo, but to other markets throughout the country where there is a demand for northern potatoes.

A whole new method of merchandising potatoes is looked for by Mr. Hibst as a result of this new idea of packing potatoes in small sacks. The intention of the Michigan growers is to pack only large, clean, selected potatoes in these small sacks, and to create a permanent demand for these by guaranteeing the product right thru to the consumer. In this way they hope to receive the better prices usually brought by quality products but also to do away with the need of diverting cars from market to market. Above all, they hope to put an end to the hit-or-miss system under which potatoes are marketed at present.

Not only the grower, but every one in the potato deal stands to benefit from the new arrangement, according to Mr. Hibst, manager of the Michigan Potato Growers Exchange. The wholesaler will always be able to get the same kind of potatoes from the same source.

The retailer will save a lot of time now spent by him or his clerk in weighing out potatoes. But the housewife perhaps stands to make the greatest gain. Not only will she always be able to get the potatoes exactly to her liking, but with every purchase she knows she will get without cost a bag of strong durable cloth which she can use as a jelly strainer, broom cover, "dustless" duster, vegetable or fruit bag or many other uses around the home or for the family.

1531 Airports Are Ready For Service

The United States now has 1,531 airports operating and less than 10 per cent of them are on the regular air mail and passenger routes, according to a survey made by the American Air Transport Association. The report points out that the large number of airports and landing fields off the regular

always is the best proof possible that air transport in this country is scheduled for enormous growth. "Those communities," says the Association, "which, though not now receiving air mail and air passenger service from the regularly operated lines, are showing a splendid foresightedness in that where airports are located and functioning, the air transport operator, sooner or later, is bound to come. Cities and towns are looking forward to that day and are urging it along with offers of free facilities to air lines and are swamping the postoffice department with requests for air mail service. The Washington authorities have many applications on file and they are backed by Chambers of Commerce and other civic bodies who offer to fill the plane cockpits with mail if the department will place them on the routes.

"North and South Dakota cities which have no service, are among the sections most insistent that direct air mail be made available to them. A line from Fargo to Omaha bisecting both states from north to south, has been proposed and

has the backing of various municipal agencies. The postal authorities have not announced additional routes, with the exception of a line between Louisville and Dallas, Texas, for which bids will shortly be asked. Cities along these and other prospective routes, passenger as well as mail, have busy airports today, due to private enterprise which has started air taxi, crop dusting, aerial photograph and short hop passenger businesses, all of which are augmented by the activities of private flyers whose number grows larger daily."

The Model Aeroplane Club of Ferndale High School, under the direction of Mr. E. Ferguson, is planning a contest to be held in April. The members expect to give several prizes. The first prize will be a trip in the Ford tri-motored plane. There will be several smaller prizes in cash to be credited on a trip in the same plane at a later date. This is certainly something to work for and ought to be an incentive to every Aeroplane Club member.

Check

Value for Value
Price for Price!

If you are considering the purchase of an automobile, you owe it to yourself to learn the true extent of Chevrolet's value leadership. And all you need to do is check the new Chevrolet Six against any other car—value for value and price for price!

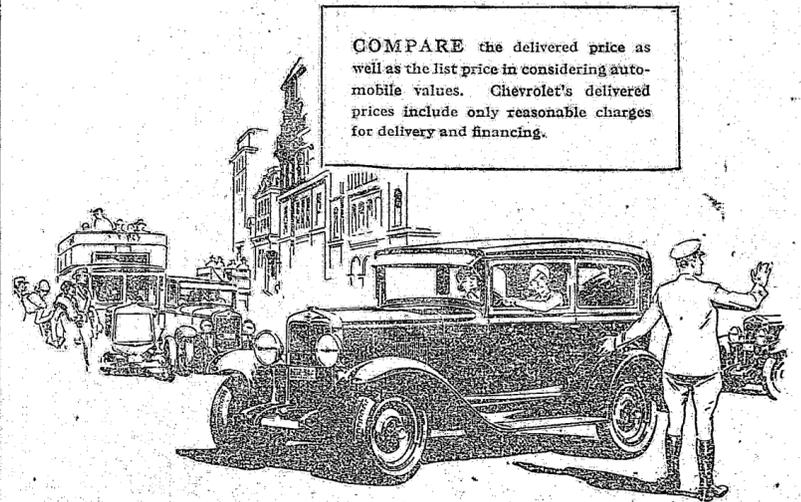

Here, in the price range of the four, is offered a smooth, powerful, six-cylinder valve-in-head motor—which delivers better than 20 miles to the gallon of gasoline—and whose smooth, quiet, velvety operation, with its complete lack of drumming and vibration, is a revelation—even to those who are accustomed to driving high-priced automobiles. Here are beautiful bodies by Fisher. Here, in all closed models, are fittings by Ternstedt... rich, deep-tufted upholsteries... adjustable driver's seat... and a completely-equipped instrument panel. And throughout the entire chassis are found numerous examples of advanced engineering—such as quiet, non-locking 4-wheel brakes... ball bearing steering mechanism... automatic acceleration pump... and chromium plating on all bright metal.

But no mere recital of features can give you any conception of Chevrolet's value leadership. So we urge you to come in and see for yourself why over 500,000 people have chosen the new Chevrolet Six since January 1st!

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

The Old Timers' Corner

Mother's Day

Sunday was Mother's day. It is a newer custom that didn't use to exist when we were youngsters, or else I didn't think about it. But all days were Mother's day, to my way of thinking. Every one knows that they had the very best mother that ever lived. That is only natural, for we are of her, and we know her best and she knows us best, and we love each other with an understanding that is never known in any other combination. Her life is a sacrifice from our inception until she is forced to leave us. That is the only really unkind thing that she is forced to do us, to leave us.

We all have fathers, and like them, but there is a different feeling for Mother. She is the last word when it comes to devotion and love. A child that does not love his or her mother is unnatural.

She watches you from infancy to manhood and sees the different traits of herself or your father, coming to the forefront in your nature, and she sighs with mature wisdom and forbearance, and she loves you just the same, for no matter what you may do, nor what your associations may lead you to, she is still for you and loves you, for she knows that even if some things come forth that are bad, that still inside, down deep in your heart, that she has not placed her trust in you in vain.

It must be a terrible thing, to be a mother and to see her son or daughter slipping away from her into ways that she knows all too well, can lead to no good and still she is powerless to stop them. She simply bleeds for them, inwardly in her heart, and suffers the tortures that none of us can ever understand who are outside the experience. But as time passes, and our dear little mother has left us, and we have the experience of life with all its sorrows and all its joys, then we begin to realize the fullness of a mother's love. We know that we caused her many sorrowful hours, and we hope also that we caused her sometimes, a pride in us, that may have overbalanced the bad, for us. We like to remember it that way, anyway, for she is gone now and we cannot undo what was done in the folly of youth.

On the farm, as you all know, there are many things that the women folks used to do that are not done in these latter days. One of them was the "milking" of the cows. My mother used to think that unless she was there to see that everything was done right that the cows would all be "died up" in a short time. So she milked the cows along with the youngsters as we grew up, but I was the last of the boys and so it fell to my lot to take care of the cows, when I was quite a youngster, and mother "helped" me. She was forty years old when I was born, and I insisted that when she was fifty (then I would be ten years old) and that I could then assume the entire work of taking care of the cows, and so on her fiftieth birthday, she stayed in the house at "milking time" and I was the proudest kid in the country to be allowed full control and responsibility for the cattle. I liked all the animals on the farm, and the cows and sheep and pigs and even the horses and hens would follow me where ever I walked in the pasture fields, etc., for I didn't abuse them. I had a temper, plenty of it, but some way, those dumb animals were my friends and I liked them. So on my mother's 50th birthday was the first Mother's Day that I remember. She often used to speak of it in later years when we had left the farm, and on her birthdays that followed she would say, "It is ten years ago today that I stopped milking the cows, etc." and always with a wee bit of pride in my direction, for I know that she appreciated that little thought on my part.

It is often a matter of conjecture on the part of some of us old timers, just what sort of mothers the modern flapper will make and what will be the outcome of the present generation in this regard. I have confidence in the natural laws of things in general to the extent that I believe that when they are brought to the test, that they will make good. People do not live as we were raised to live and think, and that is the real difference. It is

true, also, in the way we now raise animals on the farms that are run scientifically, they raise more chickens, for instance, and get better results from them than we ever did with less science and more space. So with the coming "mothers" of this generation. They are of a different warp entirely from what your mother and my mother was, as a girl, but they have the fundamental ground work of all mother-love, by instinct, and they will still be "mothers" when all the rest of the things in the world are different.

Not many of our "old timers" still have their mothers with them, but if you have, count yourself very fortunate, and be good to her. She is our reason for being here, to love and honor and to take care of in her declining years.

Mother
In each man's life there is but one that clasps him tight and calls him "son."

She knows your faults and weaknesses,
Loves you thru health and sicknesses.

She loves to see the "man" in you
Hers is the only love and trust that's true.

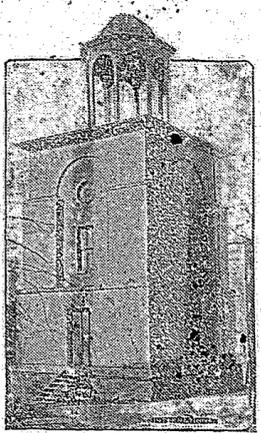

No friend nor sweetheart, sister
Nor brother,
Can ever replace the abiding love of Mother.

By G. E. R.
OLD TIMER.

Detroit Becoming Center of Aerial Craft Manufacture

Detroit's position as a center of air transportation was greatly strengthened during the past week by the announcement that Stout Air Services, operating the Detroit-Cleveland-Chicago airlines, had been acquired by a nationally known group of aeronautical manufacturers and would become an important unit in a transcontinental passenger airline connecting the Atlantic and Pacific. A second aerial announcement of importance made known the fact that a group, headed by A. A. Schantz, president of the Detroit & Cleveland Navigation Company, has acquired the American manufacturing rights for the Dornier-Wahl, a well-known German flying boat, and that the plane will be made in Detroit and

WILL BE RESTORED

Old bell tower which was erected in 1824 in the Capital square of Richmond, Va., and which is to be restored by the Daughters of the American Revolution. The tower was erected to house Virginia's first "standing army," the public guard, which was maintained in the Capital square to keep order. The bell in the tower was used to summon the members of the troop to the defense of the commonwealth.

will be used in the establishment of a number of new airlines. Detroit is off the beaten path of the present transcontinental airlines and, because of its geographical location, there has been some question whether such routes would ever pass directly through here. With the Stout passenger airlines, however, becoming an important part of the proposed new transcontinental service, Detroit's position as a cross-country air depot will be firmly established. Passenger transportation by air is rapidly becoming an important adjunct of business, industry and commerce and immediate connection by air with all parts of the country is certain to be of value to the industrial and commercial interest of this state. The acquisition of the Stout airlines calls attention to the prom-

inent part played by this organization in the development of passenger air transportation in the country. The company was the first to carry passengers, without mail, on regular schedules in the United States. Such service was closely watched by aircraft manufacturers and air-minded individuals in various parts of the country and its success resulted in the establishment of a large number of similar services in other states. Pioneers always deserve credit and the Stout airlines were the pioneers in this rapidly developing form of passenger transportation.

The Dornier-Wahl flying boat promises to add importance to Detroit as an aircraft manufacturing center. It is distinctly a water craft and, with Michigan almost surrounded by water, should prove a popular transportation medium. Not only is Michigan almost surrounded by the Great Lakes, but she boasts within her borders hundreds of smaller lakes which provide a multitude of "landing-fields" for flying boats.

Calves Not Injured By Cottonseed Meal

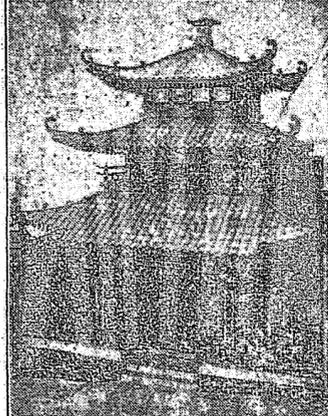

East Lansing, May 16.—That cotton seed meal contains no substance which is injurious to dairy calves or older cattle is indicated by feeding trials conducted by research workers at Michigan State College.

These trials have been made by members of the dairy department and indicate that injuries to the health of cattle which were formerly attributed to the feeding of cottonseed meal may be caused by the overfeeding of any concentrate feed if a good roughage is not included in the animal's ration.

Calves which received either cottonseed meal or corn distillers grain and gluten meal but which were fed wheat straw for roughage suffered marked physical injuries, but the calves which received the distillers grain and gluten feed showed the same physical defects as those which were fed cottonseed meal.

In one of the feeding experiments, five heifers were fed 2.4 pounds of cottonseed meal daily from the time they were five months old until they were two years old. These animals received timothy hay and all the silage which they would clean up. None of the heifers showed any bad effects from the heavy feeding for cottonseed meal which they received.

A RARE BIT OF OLD CHINA

Telephone Exchange in San Francisco with Chinese Motif.

Another group of five calves were fed an identical ration except that the cottonseed meal was replaced with old process linseed oil meal. These animals made no better gains and were in no better physical condition than the ones which ate cottonseed meal. Both trials were continued for the same length of time.

Farmers Save Money By Using Soil Test

East Lansing, May 16.—Michigan farmers have saved thousands of dollars during the past six years through the use of a simple test for soil acidity which was perfect-

ed by a member of the soils department at Michigan State College, according to the records of the soils department. The department has sold 40,000 of the testing outfits, since its invention, at a price which is 75 cents less than the commercial companies charge for the same outfit when it is sold in other states.

Soils had to be sent to some laboratory for testing before the present method was developed, and the determination of the degree of soil acidity took several hours. Now the farmer can test his own soil in a few minutes, and, as Michigan soils are of many different types, this is a marked advantage because the farmers will test all the soil types on their farms.

A great deal of the farm land in the state needs lime but it is often found that some parts of a field need a heavy application of lime while other parts of the same field need none.

CELIA BRONSON BUNKER
Celia Ione Bronson, daughter of Lyman and Susanne Bronson, was born in Niles township, Berrien county, Michigan, June 14, 1855, and died at the home of her daughter, Mrs. Ben Davis, very near the place of her birth, May 5, 1929, at the age of 73 years, 10 months and 21 days. Except the few years she lived with her parents near St. Joseph, she spent her entire life in one neighborhood.

Nov. 11, 1877 she was united in marriage to Hiram A. Bunker, who departed this life April 1, 1919. To this union four children were born,

three of whom survive her: Ira, who died at the age of 12; Clinton H. Bunker of Milwaukee, Wis., who is too ill to leave his home; Mrs. Iva E. Davis and Earnest V. Bunker, both of whom abide in the old home neighborhood.

For many years she has been a member of the Church of Christ of Buchanan, living and dying in the faith.

Besides her three children she leaves three grandsons, one granddaughter and a great number of friends who knew and loved her.

In the Church of Christ at Buchanan funeral services, conducted by J. J. Terry, were held Wednesday at 2 p. m., May 8. Interment in Oak Ridge cemetery.

Zonite For pyorrhea

For prevention against gum infections, use Zonite, the new powerful antiseptic. Also guards against colds, coughs and more serious diseases of nose and throat.

Make no Mistake - there is only one RED CROWN ETHYL!

It is the gasoline that "knocks out that knock" —makes your car eager to get away—hungry for hills—and powerful in hard going.

There are a number of ethyl gasolines on the market but there is only one Red Crown Ethyl. It is made by combining proved, dependable Red Crown gasoline and Ethyl Brand Anti-knock Compound.

Red Crown Ethyl is sweet, clean and fast. All gums, sulphur compounds and other matter which might cause you endless trouble have been eliminated.

To rid gasoline of these harmful agents is expensive but it must be done. Their presence means corroded wrist pins and driving rods, etched cylinders and faulty pistons which call for expensive repairs.

You can buy cheap gasoline but can you afford to use it?

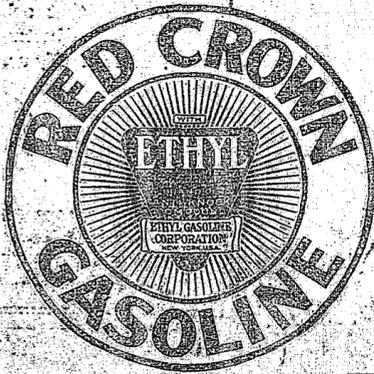

You'll never know what your car can do until you use Red Crown Ethyl. You can get it anywhere. It is sold at as low a price as you can afford to pay for an Ethyl gasoline.

COOKING SPEED! -plus

An Amazing Thrift Cooker that makes this the most economical electric range to use

THE marvelous new Hotpoint Automatic Electric Range is not only fastest, but most economical, too. Only Hotpoint has the amazing Thrift Cooker, which fits in the cooking top in place of one of the heating units—convenient for any cooking purpose. This Thrift Cooker is extremely economical. The "high" heat, for rapid pre-heating, uses as little current as a toaster. Even the "medium" heat, for boiling, uses less than half of the "low" on any range unit. And "low" for simmering and maintaining the cooking temperature requires but little more current than a heating pad.

The Hotpoint Thrift Cooker saves current on a host of everyday cooking operations. It boils potatoes and other vegetables, cooks cereals, makes stew, cooks, truits and preserves, makes soups, steams corn, cauliflower, etc., pot-roads.

Before buying any electric range, see the Hotpoint with the marvelous Thrift Cooker. (If you already

have a Hotpoint Range, but without the Cooker, have one added in a few minutes' time.)

Among the other exclusive advantages of Hotpoint Automatic Ranges are the Automatically Maintained Temperature; Patented Calrod Units, practically indestructible; Unbeatable Speed; and Larger Ovens.

See the full line of Hotpoint Automatic Electric Ranges before you buy and learn in how many ways they are superior to all others.

There's a Hotpoint Electric Range for every purse and purpose.

New Troy

America's Oldest Twins Are 95

The third quarterly meeting of the Methodist church on the Galien charge will be held at New Troy Tuesday afternoon, May 28. Dr. R. E. Meader, district superintendent will be in charge.

Mr. and Mrs. Henry Barkman and Mr. and Mrs. Elmer Barkman of Chicago, were visitors at the home of Mr. and Mrs. Zorphy over the week end, the latter couple were bride and groom. They attended the services at the M. E. church.

Quite a number from here attended the festivities at Benton Harbor during blossom week and many drove Saturday to see the beautiful parade.

Mrs. Nina Fischner, who is a teacher in the Buchanan schools spent the week end at her home here.

The children of the grades of most of the surrounding school districts were on hand at the school building early on the morning of field day, May 10th ready for a day of pleasure and also to compete with Bertha Burk of the Pyle district. The cup was won by New Troy for the third time which will make it a permanent possession of the New Troy school. In the afternoon a ball game was staged between Galien and New Troy which ended with the score in favor of New Troy.

Miss Hulda Borg, a teacher in our school who was out last week because of illness came from her home in Ludington Sunday and is able to take her accustomed place in the school room today.

Mr. and Mrs. Richard Wentland of Galien, were callers at the Piper, Caroline Findal and Barnhart homes Monday.

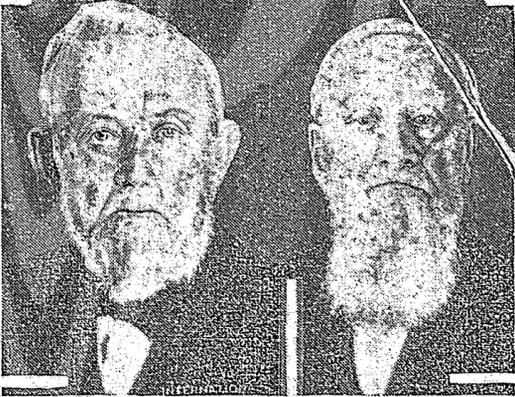

Mrs. Kate Boyce of Three Oaks visited with her mother, Mrs. C. Findal, Tuesday.

Mr. and Mrs. Howard Wooley and family spent the day with their parents, Mr. and Mrs. Geo. Daniels, Sunday and attended the Mothers' Day exercises at the M. E. church.

Mr. and Mrs. John Wood were supper guests at the Bender home in Derby Sunday afternoon.

Miss Rebecca Barnhart returned to her work in Battle Creek on Sunday afternoon having spent Mothers' Day with her parents. Genevieve Boyd and Thelma Tatro of Sawyer, students at Kalamazoo college, returned with her as far as that city.

Everyone attending the M. E. Sunday school services Sunday was presented with a red or white ribbon bow to pin on their dresses in memory of their mother and at the services Rev. C. M. Conklin presented each mother a beautiful souvenir of the day consisting of a beautiful satin ribbon with a promise of God printed on it. Singing by the men's choir was very much enjoyed also a trio composed of Rev. Conklin and his two sons and a solo by Ralph Sowersby, a tribute to mothers, which was beautiful. At the close of the sermon one young man dedicated his life to the service of God when the invitation was given and the services concluded with a prayer service at the altar. The church was very beautifully decorated with flowers. There was

William and Henry Bruns of Woodville, Ohio, who are believed to be the oldest twins in this country, recently celebrated their ninety-fifth birthday anniversary. They came to America from Germany in 1852 and were merchants in Woodville for more than sixty years.

a large number in attendance.

Mr. and Mrs. A. J. Barnhart of Berrien Springs, Mr. and Mrs. C. F. McKeen and son, Mr. and Mrs. R. E. McKeen and daughter and Edwin McKeen of Benton Harbor spent Sunday afternoon at the Barnhart home.

Mr. and Mrs. Moss of Sawyer, attended the exercises at the M. E. church Sunday also several from Bethany Beach.

Mrs. Leslie Tirrell and little daughter of Washington, D. C., visited her twin brother, George Crawford, and old friends here this week.

Mr. Harry Boyce and sons and Mrs. Ada Boyce and daughter, Lois, of Buchanan, spent Sunday afternoon at the S. E. Fletcher home after they visited the cemetery.

Mr. and Mrs. Arthur Meyer and daughter, Grace, Mr. and Mrs. Roland Meyer and daughter, all of Grainger, visited at the Ed. Barnhart home Saturday.

Ed. Barnhart, justice of the peace, was called Saturday to the Lewis Paul home on the Galien road to view sheep that had been killed by dogs. They had destroyed and taken off 12 lambs.

A fine Mothers' Day program was given at the Brethren Sunday school Sunday with special instrumental music by Ervin Pierson and a duet by Irvin and Evelyn Hampton, "A son of Mother." A Mothers' Day sermon was given by Rev. J. English.

Drill 25 Wells in Southwest Michigan

That twenty-five test wells will be drilled on lands in southwestern Michigan leased for oil and gas exploration during the summer is the prediction made at Decatur by President Rhodehamel of the Wolverine Oil & Exploration Syndicate now operating near Decatur. The Wolverine company is said

to have arranged for the financing of an extensive drilling campaign for southern Van Buren county and northern Cass county and expects to have a number of wells started this summer and Mr. Rhodehamel predicts that 25 wells will be started in the Van Buren-Cass territory within the next ninety days.

This drilling campaign should definitely outline the oil pool and determine the subsurface conditions with reasonable accuracy before the year is out, he says.

Mr. Rhodehamel has been in conference with representatives of several of the major companies and has arranged with them to carry out the leasing program in which the major companies will participate, and the locations for the test wells will be made on a scientific basis so that the field will have a thorough test.

Representatives of practically all of the large companies have been in Decatur recently, says the Decatur Republican, and have expressed their confidence in the field and prophesy that there is a very promising outlook.

Mervine Shine, chief scout for the Wolverine company, who has been operating out of the Muskegon office of the General Petroleum and Engineering Corporation and his crew of five men, have been leasing in the vicinity of De-

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping." Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

cat and Paw Paw. They succeeded in obtaining over 7,000 acres and were successful in getting the blocks almost sold.

OLIVE BRANCH

Juanita Jannasch spent the week end with Mr. and Mrs. Carlson of St. Joseph.

Rev. H. D. Meads visited Mrs. Oscar Grooms in Galien, who is ill.

Mr. and Mrs. Morton Hampton and family visited Sunday in the home of Mr. and Mrs. Lincoln Burrus of near Buchanan.

Mrs. Madames Millie Bowker, Myrtle Kiefer, Essie Sprague, Ruth Bowker and daughter, Betty Jean, were callers at the hatchery at Niles, Friday.

Mr. and Mrs. Art Carlson and Mr. and Mrs. Raas were Sunday visitors in the Wm. Jannasch home. Mr. Raas had a light stroke in his face but is gaining rapidly.

Mr. and Mrs. Currie McLaren were host and hostess Sunday to a number of friends from South Bend.

Mr. and Mrs. Mike Bowker entertained the following relatives Sunday, Mr. and Mrs. Glenn Snelley and children of New Carlisle, Kenneth Bowker and son Dean of South Bend, Mr. and Mrs. Foster Bowker and baby, Beryl Bowker and family and Tom Bowker and son.

Mr. and Mrs. Arthur Straub were week end guests in the Mary Straub home.

Mr. and Mrs. Chas. Smith received the sad news Friday of the death of a very dear friend, Mrs. Ashley of Cassopolis, who was a near neighbor of them when they lived in Cassopolis.

Quite a bunch went from here to

St. Joseph and Benton Harbor on Saturday to see the Blossom parade. We enjoyed the lovely floats and the beautiful blossom queens.

The U. E. Ladies Aid met last Thursday in the Ira Lee home and held a very enjoyable meeting. Mesdames Violet Svem, Genevieve Nye, Chas. Diedrich, Nellie Clark and Lydia Slocum served a splendid supper of meat sandwiches, coffee, salad, pickles and ice cream and lovely cakes which was appreciated. Mrs. Foster Bowker presented the Aid with a large coffee pot and Mrs. Ira Lee gave a linen table drape for the church. The next Aid meeting will be held in the Jasper Toland home in Galien.

Club Members Given Trip to Washington

East Lansing, May 16—Four Michigan 4-H club members, John Converse, Union City; Ruth A. Gingell, Johannesburg; David Bergman, Ruydard; and Ingrid Mattson, Iron River, have been awarded trips to the national club encampment at Washington, D. C. on June 19 to 25, for outstanding work during the past year.

The Michigan delegation is chosen by state club leaders and their selection is based upon the completion of club projects and their records as leaders of clubs in their communities. Each of the boys and girls in this year's group has been a club member for several years.

Ruth A. Gingell has won most of the honors possible to obtain for proficiency in preserving food in cans; John Converse has participated in all sorts of club

projects, specializing in crops, but one year canned 200 quarts of fruit and vegetables; David Bergman is a livestock producer and now has a herd of purebred Holsteins, and Ingrid Mattson owns a flock of 120 laying hens which were raised last year as a club project.

The following statements made by these four club members summarize their belief in the work: "Dad has always helped me to get the things to use in the exhibits

and mother has helped me just as much." "I like to act as club leader because the little folks here can hardly wait until they are old enough to begin."

"We have learned to work together and play together." "The great lesson of club work is to learn to win without bragging and to lose without squealing."

There are 1,752,719 bachelors in England and Wales. More than 213,000 of these live in London.

Spelling Test
A spelling test which bowls many over is as follows: "A harassed cobbler met an embarrassed peddler, of many idiosyncrasies, in a cemetery gazing the symmetry of the sculpture with unparalleled ecstasy."
John C. Calhoun, vice president under John Quincy Adams, was the only one ever to resign from that office.

After all's said and done, the pleasure you get in smoking is what counts

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown. The Camel blend of Domestic and Turkish tobaccos has never been equaled. Camels are mild and mellow. They do not tire the taste. They leave no cigaretty after-taste. Camels have a delightful fragrance that is pleasing to everyone.

Storm Damage and Your Telephone Bill

Emergency crews of telephone repairmen are restoring the local and long distance service, which was seriously interrupted at many points by the storm of May 2.

Damage to our telephone plant in this storm and that of March 31st amounted to more than \$1,000,000. Temporary facilities have been supplied in most of the affected area and permanent repairs will be completed very soon.

No charge will be made for service for the period of interruption. Telephone bills will be adjusted accordingly, as soon as possible. It is requested that subscribers who fail to receive adjustment for interrupted service, notify us.
