

Now Here's the Proposition

Thanksgiving Day, 1929... Let there be held a season of Thanksgiving...

Why may we not a season put behind us... The little apprehensions of today...

Why may we not give thanks unto the Giver... Who placed us in this fair and pleasant town?

Why should we chain our thoughts in gloomy fetters? Who is more blest, more fortunate than we?

State to Lease Mineral Lands; Royalty Basis

A policy of disposing of all mineral and non-metallic minerals on a royalty basis was adopted by the Conservation Commission at its November meeting.

In the future instead of selling its mineral and non-metallic mineral rights on its own land and on land which it has disposed of but has reserved these rights, the state will sell on a royalty basis, receiving compensation in proportion to the amount of raw materials taken from the ground.

Recently the commission adopted a plan for the disposal of oil and gas on a royalty basis.

While the Commission adopted a general policy of disposal by royalties, no definite royalty rates have been fixed and before the system is placed in effect it will be necessary to draft rules and regulations covering all of the metals and non-metallic minerals found in Michigan.

The state now owns approximately a million and a half acres of land outright, and holds all mineral and oil rights on these acres. In addition it controls the mineral rights on large areas which it has sold in the past.

The most generally found minerals to be disposed of on a royalty basis are iron and copper. The most generally found non-metallic mineral to be disposed of in the same way as is stone.

State Motorists Pay \$41,000,000 For Road Building

Michigan's greatest highway year, both in point of finance and amount of construction completed, came to a close this week. Frank D. Fitzgerald, business manager for the highway department, estimates that all records for mileage completed, revenue collected, and amounts paid to counties have been shattered.

He fixes collections from motor vehicle owners, in gasoline, weight and other taxes in excess of \$41,000,000. This would compare with net receipts in 1928 of approximately \$38,800,000.

Completed mileage of paved highways will reach close to the 400 mark as compared with 348 miles last year, he said.

Counties have already been paid the largest amount prior to final settlement after the first of the year ever released by the state.

They have received \$6,500,000. It is estimated the weight tax will reach \$21,000,000, perhaps more, which would entitle the counties to about \$4,000,000 more.

In 1928 net receipts from the weight tax, license transfers and so forth, was \$20,056,647, and from the gasoline tax \$17,547,104. Thus far this year the gasoline levy has yielded \$17,202,351, and there are three months to go, indicating a total of over \$20,000,000 for the year.

Game Department Issues Warning of Fur Act Violations

Reports of violations of the "fur shipping" permit provision of an act of the 1929 legislature has caused the Department of Conservation to issue a warning to all fur dealers, express companies and other common carriers concerning the provisions of the export permit law.

This law requires that before any raw skins or furs legally taken or killed during the open season, are shipped out of the state, a permit must be obtained from the Department of Conservation. The application for this permit must state the name of the consignee and the consignor, destination, and number and kinds of fur-bearing animals or the raw skins of fur-bearing animals that are to be shipped.

The permit obtained from the Department, a yellow card, must be attached to the package to be shipped and any common carrier is forbidden to transport this package unless the permit tag is attached.

All permits must be signed by the local conservation officer before they may be attached to packages for shipment. A "stub" of the permit must be mailed to the Department of Conservation.

The penalty clause for violation of the act, besides fine or imprisonment, provides for confiscation of all furs, hides and pelts illegally shipped.

Beauties of Luce County are Unknown To Michiganders

Ideal resort and club sites on beautiful lakes and along fine trout streams are scattered thru-out the northern part of Luce County and when the existing means of accessibility and other information become more widely known an increase in the popularity of that section of the state is expected.

This part of Luce County comprises one of the least known sections of the state. Its long shore line on Lake Superior is sandy, unlike rock cliffs of the pictured rock shores in Alger County.

There are several large lakes and many trout streams and much of the area is well adapted to a wide variety of recreational use.

This is some of the information obtained by the field party of the Land Economic Survey which completed its work in Luce County, Nov. 15. Reports and maps will be prepared at the Lansing office during the winter months and are expected to be available for distribution about June 1, 1930.

The survey that the Department of Conservation has been conducting in Luce County in co-operation with the Soils Section of the Michigan Agricultural Experiment Station, the Geological Survey Division of the Department of Conservation, the United States Bureau of Chemistry and Soils and the Lake States Forest Experimental Station will give the public much valuable information on this little known region of the upper peninsula.

This survey covers an inventory and mapping of the lakes, stream and man-made improvements, the soil and forest conditions together with investigations on the hard rock and glacial geology, land ownership and the status of the economic development.

Francis Forburger will assume a position as head mechanic with the I. & M. Power Co., upon the completion of the company's new garage building.

Miss Ruth Riley was in Berrien Springs Monday, where she made arrangements for a home economic demonstration at the Sparks library Dec. 4. The Wednesday Club of Berrien Springs is back of the demonstration.

SCHOOL ZONE ESTABLISHED IN BUCHANAN

Former Zone Signs were Destroyed and Never Replaced.

ON FOUR STREETS Stop Signs Installed at Five Junctions on Portage Street.

School zones have again been re-established on Front, Chicago, Moccasin and Oak Streets, action being initiated by the appeal of the Parent-Teacher Association to Mayor F. C. Hathaway.

School zones were established a number of years ago, but the signs had been destroyed and were never renewed. The zones are now defined as follows:

Front Street: 1/4 mile from the Bishop residence west.

Oak Street: Third Street to the Post Office.

Chicago Street: Cayuga to Clark.

Moccasin Avenue: Bishop residence to Third Street.

Street Commissioner Ed. Mitchell is establishing stop signs along Portage Streets at the junctions with River, Third, Fourth, Central Court and Smith Streets.

28 NEW MEMBERS ADDED TO F. B. IN 2-DAY DRIVE

STORM INTERFERES WITH EAST AND WEST SIDE CO-OPERATION.

A county-wide drive that proved to be not quite country-wide, due to extremely adverse weather conditions, netted the Berrien County Farm Bureau 28 new members last week, by an odd coincidence, exactly half of this number being from the opposite sides of the county.

The drive opened Monday with a meeting at the Galien Methodist Church, attended by 90 farm bureau members. Dinner was served at noon, following which Clark Brodie, state Farm Bureau executive, delivered a talk on the relations of the newly organized Federal Farm Board to agriculture.

The new board, Brodie stated, can co-operate only with farmers united in large organizations, and those farmers outside the organizations may hope for only an indirect benefit. Owing to this incentive for organization development, Farm Bureau membership is again on the ascendancy in Berrien County, according to Jesse G. Boyle, county president, after declining for several years. With the 90 members secured through the Trade-a-Day campaign of last summer, the total membership of the county has been increased 118, bringing the aggregate to approximately 500.

The county had been divided into two sections, the east and west sides, with the St. Joe River as a dividing line. On Wednesday fifteen canvassers from each side of the county met at Berrien Springs and teamed in pairs, the home delegate of each team driving and the guest delegate canvassing covering in that manner as much as possible of the west side. On Friday the process was reversed, the teams covering the east side. A considerable portion of each side was left for a latter canvass, due to the stormy weather and bad roads.

Friday evening a get-together meeting was held at Berrien Springs, with President Otto Voyles of the Calumet Fertilizer Co., delivering a talk on farm fertilizers.

Raymond Babcock, Terre Coupe Road, left Tuesday for Texas for a ten day visit.

Mr. and Mrs. William Nelson are visiting with relatives of the latter at Havre, Mont.

PHIL LANDSMAN OPENS OFFICE FOR PRACTICE OF LAW

QUARTERS FITTED IN BATCH-ELOR'S OLD OFFICE OVER STATE BANK.

Phil Landsman, former Buchanan boy, returned last week to open a branch office for the law firm of Burns & Hadsell of Niles, in quarters that have been remodelled for the firm over the Buchanan State Bank.

Landsman was graduated from Buchanan high school with the class of 1922, later taking his L. L. B. degree from the law department of Notre Dame. He then passed the Michigan State bar examination successfully and was taken into the Niles firm as a junior partner.

The former office occupied by C. H. Batchelor has been cut into three rooms, one to serve as a reception and waiting room, one as an office for Landsman and one for an office for Burns & Hadsell, who will spend some time in Buchanan. Landsman has a wide acquaintance ready made here which will greatly aid him in his business.

CHARITABLE ASSOC. MAKES CASH REPORT

Clothing, Especially for the Children, is Urgently Needed.

NEED IS URGENT

The following report of the receipts to date of the United Charities of Buchanan is furnished to the Record by the treasurer of the organization, Mrs. John Fydel. Donations below were made in cash. In addition clothing may be taken to either the president, Mrs. Herbert Roe; the treasurer, Mrs. John Fydel; or to the Buchanan State Bank. All clothing in good condition, especially that suitable for children, will be appreciated. Such donations should be made at once so that the recipients may not suffer from the arrival of severe winter weather.

V. Shaner Taken To Illinois to Answer Charge of Forgery

Vernon Shaner, 24, was arrested Friday by Undersheriff Clarence Dunbar at his home two miles north of Buchanan Friday on a charge of having signed another name to a check while on a visit to Danville, Ill. He was taken to St. Joseph where he waived extradition. Shaner has a wife and two children. He was employed at the Clark Equipment Company, but was recently laid off.

New License Plates For Automobiles to Be Available Dec. 1

Purchasers of new cars may use the 1930 license plates after Dec. 1, according to an announcement received from the secretary of state's office by Berrien county officials. The new plates may also be used on all cars on which title shows that the 1929 tax has been paid. In order to familiarize the auto users with the state laws, a pamphlet containing a digest of the laws is to be furnished with each set of licenses. The 1930 licenses are to have black letters against an orange ground, reversing the colors of the present year.

Pneumonia Takes M. Murphy After Five Day Illness

Marvin Murphy, 24, passed away Tuesday afternoon, at 1:30 o'clock in Pawling hospital, Niles.

He was born in Berrien township, Berrien County, Michigan, and for the past nine years has resided in Buchanan township.

Mr. Murphy was employed as a moulder in the foundry of the Clark Equipment company. Friday of last week he was taken suddenly ill, and was removed to Pawling hospital Sunday.

He is survived by his wife, Mrs. Margaret Murphy, a four months old daughter, Thelma; his parents, Mr. and Mrs. Miles Murphy; two brothers, Win Murphy of Jackson, and Marion Murphy of Lansing; two sisters, Mrs. Julia Scofield of Dowagiac, and Miss Marjorie Murphy of Berrien Springs, also by grandparents.

Funeral services will be held in the farm residence of his parents, two miles east of Berrien Springs, Thursday at 2 p. m., over 28th. Interment will be made in Union cemetery, Berrien township.

Miller, Landsman Named Appraisors Of Campbell Plant

W. J. Miller and Atty. Phil Landsman were appointed as appraisors of the plant and equipment of the Campbell Company at a meeting held Tuesday in the offices of Burns & Hadsell, the understanding being that the work of valuation would be completed this week. W. F. Harrah and Herbert Roe formally accepted the offices of receiver and were sworn in at this meeting.

Three Oaks Women Hurt in Car Upset on M-60 Saturday

Mrs. Elizabeth Dedrick, Three Oaks, suffered a painful cut on the face when a car was involved in an automobile accident two miles west of Buchanan on M-60 Saturday.

Mrs. Dedrick and Mrs. Harb, both of Three Oaks, were motoring to Niles, when their car skidded off the icy road and headed into a culvert, the machine turning over. A piece of shattered glass penetrated Mrs. Dedrick's cheek to the interior of her mouth. She was taken to the Wallace hospital, where 26 stitches were taken on the exterior and one stitch on the interior of the cheek. Mrs. Harb suffered a less severe cheek injury and a badly bruised leg.

Indiana Woman Dies on Visit To Home of Son

Mrs. Nancy Tubbs, 67, of Rensselaer, Ind., died suddenly of a heart attack Friday afternoon, while visiting at the home of her son, William Jenkins, at the Virginia Apartments. She had risen Friday morning, apparently in her usual good health, but was seized later in the day with a spell of dizziness, and returned to bed. Her daughter came into the bedroom and failing to rouse her, called a physician, who pronounced her decease due to heart trouble, from which she had frequently suffered. She was the wife of Charles Tubbs of Rensselaer, where the body was taken on Sunday for funeral services and burial.

Biscuits a day old may be made as soft and light as when first baked if they are wrapped in a towel and placed in a colander over a kettle of boiling water.

Place left over rolls and biscuits in a paper sack and tie it up tightly. Sprinkle the bag with water and warm in the oven. They will taste like fresh rolls.

Wash and rinse a white sweater in warm, not hot, water. Wash it in warm soap suds, then rinse in warm clear water.

When you have a little piece of pie crust left over make it into tarts and fill them with fresh berries. Sprinkle with sugar and serve for dessert.

When putting away clothing in moth bags place a gummed tag on each bag and on the tag mark the contents. It will not then be necessary to open or tear the bags in order to find out what is in them.

Mousses may be made in baking powder cans and frozen in a pan in which finely shaved ice is packed. Use plenty of salt to insure a rapid freezing. Three parts ice to two parts salt is recommended.

Silver-backed hair brushes must not be put into water. Rub the bristles well in flour until they are clean, then use soft paper to remove all the flour. Polish the backs of the brushes with silver polish.

A few drops of oil of lavender in a cup of boiling water is a very efficient deodorizer.

To remove smoke stains from the bricks in front of the fireplace mix 2 ounces of soda, 1 ounce of pumice stone, 1 ounce of salt with water sufficient to make a cream. Rub the bricks well with this composition and let stand for a few minutes. Then brush off with a stiff brush.

You can make a good night-light by packing salt around the wick of an ordinary candle, leaving just enough of the wick to light.

CHINA'S AIR CHIEF

Have coat hangers at hand on ironing day so that the freshly ironed dress or blouses may be slipped on them as soon as they are ironed. They will be absolutely free from wrinkles if this is done.

Olive oil should be poured from the tin can as soon as opened and placed in a glass container and then kept in the refrigerator. It will keep sweet indefinitely if this is done. Kept in the tin in a warm place it will soon become rancid.

Nearly Killed by Gas—Druggist Saves Her

"Gas on my stomach was so bad it nearly killed me. My druggist told me about Adlerka. The gas is gone now and I feel fine." Mrs. A. A. Adamek.

Simple glycerin, buckthorn, saline, etc., as mixed in Adlerka, helps GAS on stomach in 10 minutes! Most remedies act on lower bowel only, but Adlerka acts on BOTH upper and lower bowel, removing poisonous waste you never knew was there. Relieves constipation in 2 hours. It will surprise you. W. N. Your Dentist and Your BANKER. Just as it is a wise practice to have your dentist examine your teeth every six months, so it is a valuable precaution to allow your banker to check over your securities periodically. In either case you may have every reason to believe that everything is all right. But it's comforting to know for sure. And in the event your dentist should discover a cavity—or your banker a risky investment—what better time to have it remedied than right then and there, before it is too late? To help you follow out this plan, this bank gladly offers you the benefits of its facilities and contacts. Why not come in and allow us to check over your holdings now? Christian Science Churches on
Sunday, Nov. 24.
Among the citations which com-
prised the Lesson-Sermon was the
following from the Bible: "I will
greatly rejoice in the Lord, my
soul shall be joyful in my God;
for he hath clothed me with the
garments of salvation, he hath
covered me with the robe of right-
eousness." (Isa. 61:10).
The Lesson-Sermon also included
the following passages from the
Christian Science textbook, "Sci-
ence and Health with Key to the
Scriptures," by Mary Baker Eddy:
"Sooner or later we shall learn
that the fetters of man's finite
capacity are forged by the illusion
that he lives in body instead of in
Soul, in matter instead of in
Spirit." (p. 223).

A union Thanksgiving service
will be held at this church at 10
o'clock Thanksgiving Day. Presi-
dent Hoover recommends that all
people go to places of worship on
that day. Let us be patriotic as
well as thankful. The patriotic will
last just one hour. A thank-
sgiving will be taken up, either for
local relief work, or for the Red
Cross.
Don't wait to be carried to the
church by six men, but come now
when you can hear the sermon and
the singing. It will do you a lot
more good. You are cordially in-
vited.

The Biscuit and the Ad

There's a blank sheet of paper lying white on the window sill. A can of baking powder rests on it, and a white, fluffy pinch of the powder itself. Taste it. It seems good. Yet you'd have to consult your chemist to make sure it is good. You have to mix that powder with flour, milk, eggs—make biscuits, cakes with it—to make sure how good it is. Then keep it a month, try it again, to make sure it continues good.
Yet if that sheet of paper were an advertisement about baking powder—you'd see a name that stands for quality and purity. You'd read about the fluffy cakes and biscuits that that powder makes—and will continue to make. You'd know more about that powder than if you held the can in your hand. Advertisements are short-cuts to finding out truths. The truths about everything you want to buy. The names in advertisements are names of solid reputation. The labels in advertisements are symbols of satisfaction. It pays to read the advertisements, for then you know what is good. The products they tell about are being bought, tested constantly. The fact that they're still being advertised is alone proof of their worth.
An easy, frequent glancing over these advertising columns is better than fallen biscuits, soggy cakes—and other failure buys. If you know what's advertised, you can always buy what's good.

BUYING ADVERTISED PRODUCTS CANCELS RISKS.

SPECIAL MEETING OF CITY COMMISSION
Special meeting of the city commission held in the city clerk's office in the library building on Tuesday evening, Nov. 19, 1929, on the following call, To all Commissioners:
You are hereby notified that there will be a special meeting of the city commission held in the city clerk's office in the library building on Tuesday evening, Nov. 19th, 1929, at 7:30 p. m. for the purpose of considering settlement with the township board, in regard to the division of properties and accounts held jointly by the old township board and the village of Buchanan.
Signed
F. C. Hathaway, Mayor
H. A. Post, City Clerk
Meeting was called to order by Mayor Hathaway. Commissioners present were Hathaway, Leiter and Merson. Absent Pears and Kelling.
After some discussion the following resolution was read:
In order to adjust the property and financial affairs existing between the township of Buchanan and city of Buchanan, by reason of the latter voting to become a city, Therefore be it Resolved, by the city of Buchanan and by the township board, that the following settlement be and hereafter for all time be confirmed and adopted, as a just, fair and equitable settlement between the municipalities, to wit:
That the ratio of the property assessment in the township is 24 per cent and in the city 76 per cent according to the last preceding assessment and upon which settlement is made.
That the township of Buchanan is to have all road machinery, one election booth, one table and two ballot boxes and pay 24 per cent of all indebtedness owned by the township, before said separation, as of date, September 1st, 1929, that all money in the treasury, as of above date, all sums received from the estate of Mrs. Lawton and all delinquent taxes received up to and including this date to be applied against such indebtedness.
The City of Buchanan, to have, own and control the township library, safe, adding machine and all other fixtures now located in the library building and used in connection therewith, said city to reimburse the township for any money expended in behalf of the library after date of September 1st, 1929, said city to have remaining ballot boxes and booths and pay 76 per cent of the indebtedness owned by the township previous to September 1st, 1929.
That the Mandamus suit now pending, commenced by the village of Buchanan, is to be dismissed, without cost to the township of Buchanan, and the city of Buchanan, waives and hereby relinquishes any claim to a portion of the Highway Improvement Fund Tax for the year 1928, or any previous years.
Moved by Com. Leiter, supported by Com. Merson, that the resolution as read be adopted.
Upon roll call the following commissioners voted aye: Hathaway, Leiter and Merson. Nay: None.
Moved by Com. Leiter, supported by Com. Merson, that the mayor and clerk be authorized to draw up notes to cover the city portion of the indebtedness held jointly by the old township board and the village of Buchanan.
Upon roll call the following commissioners voted aye: Hathaway, Leiter and Merson. Nay: None.
Upon motion by Com. Merson and supported by Com. Leiter, meeting adjourned.
Harry A. Post, City Clerk.
PRINCESS THEATRE
A program of more than ordinary interest is being presented this week at the Princess. It consists of several outstanding features, the first of which is "Father and Son." It is a story of human misunderstanding, family strife and sacrifice, backed by the most beautiful and strongest love in existence—that of a father for his only son. A hypercritical step-mother, too shallow to realize she was envying against an invincible barrier, attempts to destroy this bond. The action that results will hold you enthralled. Father and Son will be shown Thursday and Friday.
At last our favorite western star has taken to the air, and how in "Winged Horseman." Hoot Gibson has enlisted the services of Ruth Elder, the famous Atlantic aviatix. It's wild—it's funny—it's thrilling. You see he took her for an airplane ride and found himself in a parachute. Motorcycles, horses, airplanes, parachutes, are all alike to this daredevil. From all reports it is Hoot's greatest picture.
William Boyd and Alan Hale, the two pals in "Skyscraper" who were an enviable spot in the hearts of the theatre going public in that memorable picture, again appear as pals in "Power," the attraction for Sunday and Monday. The many admirers of these film favorites will be more than pleased with "Power," which is equal if not superior to their former picture, "Skyscraper."
A double feature program is arranged for on next Tuesday and Wednesday with Rex, the king of wild horses, with Jack Perrin and Helen Foster in "Hoofoats of Vengeance." This feature alone is more than worth the price of admission, but it is supported by even a bigger picture, "The Haunted House," starring Chester Conklin and Thelma Todd. Miss Todd

will be remembered for her beauty in "Vamping Venus" while Ches-ter Conklin needs little introduction. He has long been known for his ability to make you laugh.

Bucanneer Athletes Now Turn From Grid to Basketball

Pierce, Pfingst and Knight Are Nucleus of Last Year's Varsity.
50 CANDIDATES ARE OUT
Bradfield to Select a Squad of Thirty; Have Scheduled Thirteen Games.

With the closing of the 1929 football season, the thoughts of all Buchanan high school athletes turn to that favorite winter sport, basketball. In fact, the whole school awaits the opening game with growing impatience.

Coach Harold Bradfield's arrival to the local institution marked the beginning of a new era in basketball. Although handicapped by loss of two stars at mid-season, "Curly" sent a team to Kalamazoo the first year he was here.

Coach Bradfield will have three letter men back to carry the maroon and white through the season of 1929-30. Harold "Juggy" Pierce, all regional center, playing his third year as a regular; Ralph Pfingst, flashy forward, playing his second year; and Harold "Olive" Knight, all regional guard, playing his third year, compose the trio around which Buchanan attack will be built.

All of the aforementioned players are seniors except Chubb, and so "Curly" has devised a new scheme to develop stars for next year. He has announced that besides the usual twenty players on the first and second squad, an additional ten freshmen will be carried thereby having experienced under-classesmen next year.

The team this year will face a schedule of thirteen games, four with class B schools, eight with class C and one with class D. Bridgman, changed from a class D to class C school this year, will be met in a home and home series, as will all except Stevensville, who has but one game there on the contract.

Willing Workers Lead Speed Test

If statistics mean anything, the workers still lead in the shorthand contest. They are gaining by leaps and bounds. The shorthand contest is in its third week—the Speed Demons lead the first week, but the workers gained and passed them during the second week and are evidently holding the lead.

Type Class Steps On the Accelerator

The advanced typing class is having keen competition to gain accuracy. As it is our great ambition to become the most accurate typists, we have two teams of equal talent who exhibit their ability each day. The captains and their teams are as follows: Hilma Rastatter—Marie Mitchell, Mildred Morse, Velma Eagley, Violet Platz; Mary Krich—Alene Welbaum, Irene Bachman, Dorothea Eisele, Marjorie Howe.

The students of English 10 and 11 were given standardized tests this week over "Silas Marner" and "The House of Seven Gables." This seemed to be a very satisfactory way of checking on material read outside of class.

Grade News

Kindergarten—Miss Ebbert
The children have been busy all week making the decorations and favors for the Thanksgiving party which is to be given next week for our mothers.

Kindergarten—Miss Vandenberg
We have had great fun this week preparing the invitations and favors for our Thanksgiving party. We have an interesting program and are expecting many of our mothers.

First Grade—Miss Myers
The following children have been neither absent nor tardy this year: Florence Ferris, Madeline and Madonna Huebner, Edward Kimball, Donald Ochenryder, Donna Pazder.

Second Grade—Mrs. Fischer
The following pupils received 100 in spelling last Friday: Vivian Carlisle, Virginia Arnold, Mary Schindler, Ruth Goehring, Edward Pascoe, Catherine Wynn, Jimmy King, Donna Smith, Thelma McKinzie, Mabel Wilson, Lorna Anttiss, Doris Patterson, Zelpha Barker and Lester Hanover.

Second Grade—Mrs. Wilcox
Those who still remain on the honor roll in spelling are: Arthur Robt, Jack Jerue, Robert Fairman, Mary Staver, Wanda Foyne, Johanna Burk, Dickie Pierce, Fone Swain, Ruth Rumsey, Freda Hafner, Dickie Dilley, George Lauver, Ruth Campbell, Dorothy Irvin and Elaine Blaney.

Third Grade—Mrs. French
The third division in reading dramatized the story of Hiawatha's childhood as told in their reader. The geography class is much interested in a new map of the United States.

Ninth Grade
English classes have just finished the second section of their new exercise books. This was on the apostrophe. A preliminary test over the use of the apostrophe in possessives and contractions was given on Thursday and the final test, Friday. Note taking and outlining in connection with written reproduction and books on outside reading formed the remainder of the week's work.

Latin and French Pupils Spell Down

The two beginning Latin and two beginning French classes reviewed their vocabulary last week by the spell-down method. Competition grew quite keen as the number standing on each side diminished. In each of the four classes there were several potential winners but finally each was downed.

First Convictions Are Made Under New Drunken Hunter Law

Three men, the first to be convicted in Michigan under the "drunken hunter" ruling are serving terms ranging from 15 to 30 days each in the Clare County jail. Charles Cruchfield, 53, and George Crane, 44, both of Temple, Mich., were sentenced to 30 days and Norman Furbush, 26, Boston, Mass., was sentenced to pay a fine of \$15 and serve 15 days in jail.

BUCKS UNABLE TO COPE WITH ST. JOE JINX

Outplay the County Seaters But Lose on the Breaks of the Game.
CAPTAIN LADWIG STARS
Eight Members of the First Team in Uniform for the Last Time.

The old St. Joseph "jinx" still holds sway; so proved the football game staged at the local field Saturday. So far as the old grads can remember, the "Bucks" have yet to cop a game from the Harbortites, and Saturday's encounter gave the Bluejackets one more victory to add to their string.

But don't get the idea that all the Bluejackets here to do was go out and say, "Boo!" In fact, they were entirely outplayed except for about two minutes when they scored their first touchdown.

St. Joe opened the scoring on a long return of a punt by Capt. Ladwig, and a 19 yard run by Watt, followed by a plunge by Lutz, fullback. St. Joe tried for extra point by rushing, but failed.

The local's score came in the third quarter. Pfingst and Pierce carried the ball from midfield to the 13 yard line. Pierce galloped around end for a first down on the 3 yard line, and on the next play the big fullback plowed thru the line for a touchdown. His kick for extra point went square between the goal posts.

Eight members of the "fightin' outfit" donned the maroon and white moleskins for the last time. Capt. Harold Pierce, all-state fullback, played above this usual hard-up game as leader of the local's attack. Co-captain Harold "Olive" Knight, the ever-fighting tackle, was the heart and sole of the local defense.

Wondering Elizabeth Montgomery
I sometimes sit and softly meditate
On what lies beyond this earth of ours.
In my dreams I see the golden towers
Of another world, beautiful and great.
And then the morbid comes, my hopes of late
Fall crushed and I once more remain the coward.
Oh, could I pierce the shell of human power,
And see beyond the realms of common fate!
The birds and beasts know even-ness than I,
The laws of nature keep them pure and good,
Life is too short for sorrow and regret,
Live, laugh and love! The future we'll forget.
On Armistice Day the students were given a few minutes to express themselves in writing of the "Unknown Soldier." The following came from Carleton Marble:
It was a dark, murky day on the transport steamer. One man alone stood on the lower deck in mist. He wore the ensign of an aviator. In other words he was a seven minute man. Just seven min-

utes to live after setting foot on French soil.
Ten days before he had completed his solo flight at Kelley Field; had been taken to the colonel headquarters and given a short, decisive talk.
"Everything's against you. They have better guns, better planes. You are going to sure death. Go down fighting. That's all."
The transport docked. The men were rustled ashore. The aviator was rushed to the front in a laboring truck. Two hours after being established at the front he was sent on a mission. He had only witnessed four hours in the air. His fifth was to be his last. He went—never to return.

The Old Timer's Corner

Mrs. Winch Recalls Early Teaching Days

When I taught school in a room of the two-room school house in New Buffalo, I boarded in the family of the Methodist minister. He was also Circuit Rider in the country around New Buffalo, in the corner of Berrien county, was a "destina Green" for runaway ecclesies to marry. Neither Illinois nor Indiana allowed marriage without a license. Michigan had no restriction then. Many times I was a witness of nuptial comedies. Once an old man who wanted a housekeeper and a woman who wanted a home, were joined together. After which the man said, "Mr. Woodard I have no money but I have a field of potatoes and when I dig them I will pay you."

Two couples from Illinois were married and one man said, "I have traveled some today. I have been in Illinois, Indiana, Michigan and the state of single blessedness and the state of matrimony. Most of the weddings seemed an escapade. The war was over. The Butte Lumber company employed many young men. Ed Sullivan, Jimmy Calkins, the Butler Boys and others who afterwards lived in Buchanan. Beans had been as scarce with the girls as country schools were with the excess teachers. With the returning of soldiers, soldier on furlough or discharge, dating had become quite respect able. Really acceptable among the young folks. But in a minister's family, no. Ostensibly I went to stay all night with Lizzie K. Carter. In fact, I went with five others, to a private house dance at Wilkinson's Pier. Then came a Michigan "squall" from old the lake. Furious! Indescribable! Thunder, lightning, torrents of rain and the six revelers were soaked with wetness. Why didn't we wait? We feared to cross the old bridge, shaky, with sunken piers, and danger of a rain. We crossed the old bridge across the Gallen river, and broad marsh at Buffalo, wet and weary, but joyous. The minister continued to preach and I to teach with no illusions. My room of youths in the Buffalo school was the finest set of pupils I ever had. Big girls, chiefly from precocious boys. My schools in Berrien county were a prediction of good citizenship to follow. The children were universally well behaved. The local daily tells of hilarious expectations in one school Halloween night. Another of the celebration of the annual carnival of the monthly birthday party at the Orphan's home. Citizens whose birthdays come that month were invited to a party. A glorious revolution in the schools and the homes since I heard, so long ago, that Dolly, my envisioned child, was only a "graven image." Christmas festivals were "popery." "Friday gifts extravagance" and "Hallowe'en" was unknown; that, "In Adams' fall we sinned all." That, I could not understand so I cried and cried, fearing the "boggy man," who got all original sinners. "Satan" was more clearly demonstrated.

I congratulate the children and youth of Buchanan on their fairy books of mythical lore, their plays, festivals and feasts of food and fun. The games, the clubs, the lectures, the picture shows and more and much more, that was unknown or condemned in Buchanan in early days. I am glad, although I loved Buchanan as it was.

Myrtle Lambert, a young New Jersey girl has been disowned by her father because of her persistent habit of riding freight trains. He said: "I have knocked her cold several times, but I can't knock this foolishness out of her."

That looks dangerous may prove otherwise and vice versa. After crossing the Atlantic seven times in a submarine during the war, Dennis Bradley of Wilmington, Del., was drowned while trying to swim a small creek.

Tom Kelley, an eccentric Chicagoan, who died recently, left his \$25,000 diamond ring to his two nieces. His will stipulated that the two ladies must shoot craps for the ring, which will be done as soon as one of them recovers from an illness.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping." Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you're feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. why smokers graduate to

CAMELS—

The phrase "I've Graduated to Camels" originated with a Camel smoker. It expresses the experience of millions who through Camels have learned to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality. New smokers may not be critical but when they once experience the true mildness and surpassing fragrance of the Camel blend, they realize that here is a real superiority. It is for smokers of such discernment that Camels are made... for them the choicest tobaccos are selected... and this quality is maintained for the millions who know genuine smoking pleasure:

when they learn the difference they flock to **Camels**

Linking these subterranean workers and their companions on the surface is a telephone system, keeping the miners in constant communication with "the top". On each underground "level", a telephone enables the "shift bosses" to receive directions from the superintendent above, or to report particular developments.

As a safety device, the telephone is indispensable.

The far-reaching telephone wireways are partners of mining, not only underground but in the surface plant, in the offices, and between all points in the nation. The copper, iron, salt, oil, and other mining industries of our state utilize the telephone to sell their products, to buy materials and to direct shipping.

Michigan is proud of her mining industry, proud of her position in the production of these minerals. The Michigan Bell Telephone Company is proud to be a partner of this industry and to do its part in aiding its development.

Modern Apparatus Used To Handle Cable Reels

Unloading Cable Reel From Truck

HUGE cable reels marked "Western Electric" are familiar sights in all parts of the country. The handling of these heavy cable reels is no easy task, since a cable reel may weigh as much as five tons. The telephone engineers have introduced modern methods to lighten the job. Motor-driven trucks, winches and derricks help in the arduous work of transporting these great cable reels from rail to the points where cable lines are being built and to incorporate them into the transmission system that carries the telephonic speech of the nation. At the beginning of the present year, there were more than 57,000,000 miles of wire in cables in the service of the public, throughout the Bell System.

TIME TO LOOK FOR SPUD SEED SAYS CO. AGENT

MICHIGAN CROP FALLS FAR BELOW THE 1928 RETURNS.

The November first potato crop estimate was 353,977,000 bushel in the United States which is about 9 million above the estimate for October 1, but still November first estimate is nearly 1/2 under our big crop of 1928 which was 484,453,000 bushels. The United States five year average from 1923 to 1927 inclusive was 382,756,000 bu.

This year's crop will be the smallest since 1925 from present indications. Michigan's carlot shipment of potatoes to date is 907 cars and last year up to this time Michigan had shipped 3774 car loads.

If you have not already covered your sod with manure where you expect to plant potatoes next year, now is the time to begin thinking about it. If you have but a little manure, spread it as thinly as possible that you may cover more ground thus helping to inoculate the entire area with bacteria that is in the manure. It is the bacteria in the manure that will help rot your sod and all the vegetable material so it may be taken up by the plant with the soil moisture.

Another thing to begin thinking about is our source of seed if we haven't good seed enough already or if we want a little certified seed for a plot next year.

CLUB CHAMPIONS GO TO CHICAGO

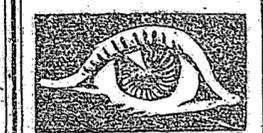

MICHIGAN SENDS 49 DELEGATES FROM 20 COUNTIES TO NAT'L CONGRESS.

Michigan's delegation to the National Boys and Girls Club Congress will consist of 49 club champions from 29 counties. The national club congress will be held in Chicago Nov. 30 to Dec. 7 in connection with the International Livestock and Grain and Hay Show.

Of the 40 delegates, 25 won honors at the Michigan State Fair and their expenses to the Club Congress will be paid by the Fair association. Many others are winners of prizes offered by commercial organizations and their expenses will be paid through this course. One club member will be sent to Chicago by a county board of supervisors, two by business men, and others by county fair associations.

Sore Throats And Coughs

QUICKLY RELIEVED BY THIS SAFE PRESCRIPTION.

Here's a doctor's prescription that is really throat insurance. Sore or irritated throats are relieved and soothed almost instantly with the very first swallow. About 90 per cent of all coughs are caused by an irritated throat; consequently for most coughs there is nothing better than this famous prescription—it goes direct to the internal cause. It is put up under the name Thoxine and is guaranteed to stop coughs and relieve sore throats in 15 minutes or your money will be refunded. Singers and speakers find Thoxine very valuable.

The remarkable thing about Thoxine is that while it relieves almost instantly, it contains nothing harmful, is pleasant tasting and safe for the whole family. Ask for Thoxine 35c, 60c, and \$1.00 bottles. Sold by the Wisner Pharmacy and all other good drug stores.

Hoekstra Takes Step Toward State Light Heavy Title. Johnny Hoekstra, former Clark Equipment Company employee and resident of Berrien Springs, who has broken into the big time fight game during the past year, added to his laurels Thursday evening by out-pointing Jack Scarton of Detroit in a ten-round mill at the South Bend Armory. The bout was the first of a series of matches through which Hoekstra will attempt to gain the light heavyweight title of Michigan. Hoekstra won a clean cut decision, being awarded nine out of the ten rounds. He punished his opponent severely but was unable to knock him out. Hoekstra's next fight will be with Emmett Curtice at Muskegon, Dec. 12.

KONJOLA FREED THIS MAN OF HIS STOMACH PAINS. HENRY GEDDES. "For some time I suffered intense distress from a very disordered stomach," said Mr. Henry Geddes, 1231 Cass Avenue, Grand Rapids, Mich. "Every meal caused suffering and I could not eat a bite of food without having indigestion pains and gas bloating. The food formed a heavy mass in the pit of my stomach and always brought on smothering spells. I found it impossible to get sound, refreshing sleep. "Konjola marked the turning point of my health. Day by day the different ailments became less severe and then, like magic, they disappeared. Today I eat what I please, enjoy the food and digest it as nature intends. Sound, refreshing sleep is mine. I owe this all to Konjola and I praise it with all my heart and soul." Konjola is sold in Buchanan, Mich., at W. N. Brodrick's drug store, and by all the best druggists in all towns throughout this entire section.

Berrien County News in Brief

SUICIDE VERDICT IS RETURNED IN 3 OAKS TRAGEDY. STOCK MARKET LOSSES BELIEVED REASON; WIFE EXONERATED. Suicide as the result of losses in the recent stock market collapse is believed to have been responsible for the death of Frank M. Kohlbeck, 53, whose body was found in a decomposed state at his home near Three Oaks last week.

His widow, Mrs. Erna Kohlbeck, 33, who kept vigil at the home with the body for 15 days before the tragedy was discovered, was released Friday as the result of evidence which secured a verdict of suicide from the coroner's jury. A letter from a LaPorte, Ind., bank revealed that Kohlbeck sold \$3,700 in stocks on Sept. 21. He paid off a \$1,000 note and plunged in the stock market with the balance. He lost that and a considerable amount more, his wife stated.

A post mortem was held by Dr. C. W. Spawer of Benton Harbor and Dr. W. L. Helkie of Three Oaks, the two physicians concurring in the opinion that death was caused by a .25 calibre bullet fired from a gun close to the body. Kohlbeck had apparently leaned heavily on the gun so that the muzzle dented deeply into the flesh before pulling the trigger. The bullet went thru the heart at an angle that rendered it unlikely that it was fired by another person.

Sale of Christmas Seals Will Start on Thanksgiving Day. Thanksgiving Day will mark the official opening of the Christmas seal sale in Berrien county when 1,908,000 of the health stickers will be mailed to residents of the county, according to announcement of the Michigan Tuberculosis Association.

Heartened by the returns from the 1928 sale, which for the first time saw the \$250,000 mark reached in Michigan, officials of the state and local groups in charge of the campaign have set as their 1929 goal the sum of \$260,000, or an amount larger by 4 per cent than was subscribed last year. Explaining the reason for the increased quotas, F. E. Mills, president of the Michigan Tuberculosis Association states that "further reductions in the tuberculosis death rate will be brought about only through greatly increased effort and expense. The time of large decreases at comparatively small cost has passed. To combat tuberculosis successfully in the future, it will be necessary not only to continue our past activities but to add to them new types of preventive work, particularly among children."

Last year \$3,281.08 worth of the seals were sold in Berrien county, the sale averaging 4.59 seals per person. The state average in 1928 was 5.59 seals per capita.

Three Oaks Twp. Buys Fire Truck. At a special meeting the Three Oaks Township board voted to purchase a fire truck from a Logansport manufacturing firm for \$3,800 to furnish fire protection for the entire township. The township is already equipped with a smaller truck and a hook and ladder apparatus, kept at the village fire station.

Watervliet Oil Test Stops at 1536 Feet. Drilling operations have been abandoned by the T. & R. Gas & Oil Company on the Emanuel Home campgrounds near Watervliet, after the drilling crew had bored a 1,536 foot hole, entering over 100 feet into the Trenton formation. The crew are now engaged in pulling the 5,040 feet of casing in the well, plugging the hole as fast as the casing is pulled.

The test well was described by company officials as a "teaser" as the project was on the eve of abandonment several times when promising indications suddenly appeared, inducing further boring. The company will drill another test well somewhere on its 5,000 acre lease, known as the North Watervliet field.

BERRIEN CORP. TO BEGIN DRILLING ON FRANZ FARM

SAME COMPANY LEASED THE BEND OF RIVER LANDS LAST SPRING. Drilling operations are scheduled to begin soon on the Franz farm north of Niles by the Berrien Petroleum Syndicate, which is the organization of St. Joseph, Benton Harbor and Niles men that leased a block in the Bend of the River last spring. An oil rig has been located on the place and a derrick erected. Operations are scheduled to begin this week under the direction of V. M. Voorhees of Muskegon. It is expected that the Traverse sand, carrying oil near Decatur will be encountered here at about 950 feet. The Upper Monroe and Niagara, both oil bearing possibilities, are expected at 1,200 and 1,600 respectively.
