SEMDAC invites the Sunshine When the sunshine streams in the windows it sweetens the air. But how cruelly it shows up the dull, smeary spots on floor and woodwork. How pitiless it is to grime. When you use SEMDAC LIQUID GLOSS you need never be ashamed to receive the royal visit of the sunshine. Semdac keeps down the dust. A little Semdac on your dustcloth or mop does the job. It dissolves grime like magic. It preserves the fine finish of natural wood. It leaves surfaces smoothly gleaming. And it's so easy to use. Get a tin today. GREATER B. H. CLAIMS 19,000 WITH SUBURBS

POPULATION OF LAKE COUNTY IS REDUCED BY DIVISION. While the city proper of Benton Harbor is credited with only 15,406 population, a total of over 19,000 is claimed for "Greater Benton Harbor," which includes the suburbs of Fair Plain, East Lawn, Higman Park and the North Shore Drive settlements in which an estimated population of 3,600 people reside.

GLENNA MADE PILOT

Miss Glenna Collett, captain of the American Women's Golf team, that is to oppose a picked British team in the first International Women's team match in England.

Benton Township Has Pop. Growth of 51 Per Cent

Census returns for 1930 credit Benton township with a population of 5,624, an increase of 51 per cent over the population of 3,703 allotted to the township in 1920. Benton has by far the largest population of any township in the county, due to the fact that it surrounds Benton Harbor on three sides and includes the suburbs of Fairplain, Eastlawn, Higman Park and the North Shore Drive and Baker-Vawter Hill territory.

County Normal Graduates 16 at Bridgman Tonight

The Berrien County Normal will hold its commencement tonight in connection with that of the Bridgman high school, the graduating class numbering 16. All receive diplomas and teaching certificates. Each graduate had twelve weeks of practice teaching in the Berrien County Normal Training room, under the direction of Mrs. Ethel Buchanan.

Baroda; Gareth Dornly, Benton Harbor; Minnie Gast, Bridgman; Laurel Groenke, Baroda; Maribel Hinkley, Berrien Springs; Alice Jones, Benton Harbor; Charles Priebe, Baroda; Katherine Scott, Bridgman; Rhea Rouse, Bridgman; Marguerite Scharnowski, Bridgman; Nelson Schultz, Baroda; Evelyn Seel, Benton Harbor, and Hazel Wetzel, Berrien Springs.

The Kansas highway department has started a drive to bar from highways trucks not complying with limits of size and loads set by law.

Hills Corners

Mrs. Donald Rhoades, who was a patient at the Mt. Faber Sanitarium until Saturday, is now convalescing at the home of her mother, Mrs. Ada Hartline. The Coveney school picnic which was to have been held May 23, will be held May 28th.

Berrien-Cass Boy Scouts will Stage Field Meet, May 24

Berrien Cass area council of Boy Scouts will stage the largest Field Day this Council has ever attempted. The meet is to be held at Pym Park, Niles, on the afternoon of May 24, at 1:30. The scouts will start congregating on the afternoon and evening of the 23rd as many are planning on camping over night.

fire by friction, fire building and string burning contest, patrol knot tying, tent, pitching. Each troop in the area will be assigned a section of the camp and will post their colors and establish a headquarters. Technique judges from the cities of both counties will judge all events.

Aged Eau Claire Woman Injured in Automobile Crash

Mrs. Emma Clark, 72-year old Eau Claire woman, was injured Saturday afternoon when the automobile in which she was riding collided with another driven by James Bonner of St. Joseph on U. S. 31 about three miles south of Niles. Mrs. Clark was riding in a car driven by her daughter, Mrs. Henry Maynard of Eau Claire. She was taken to Pawating hospital to undergo an x-ray examination to determine the extent of her injuries.

State to Install Radios in County Sheriff's Offices

Short wave radio sets are to be established in every county jail and police squad car in Michigan free of cost on application to Lansing, according to an announcement made last week by the state administrative board. This will make it possible to warn all sheriff's offices and state police within a few minutes after the commission of crimes. The sets are to be looked so that they can be tuned in only on the wave length of the state station at East Lansing. A long distance call from any part of the state will make it possible to warn all sheriff and police department to be on watch.

Truck Runs Down Watervliet Boy

David Steele, 15-year-old Watervliet boy, was run over by a light truck Wednesday while he was serving as a safety patrol for the smaller pupils at a street intersection. It is reported that the boy slipped and fell directly in the path of the truck when he jumped to escape another car. He was unconscious when picked up and examination revealed that none of his injuries were serious.

KONJOLA PUTS GRATEFUL MAN BACK ON JOB

MR. O. E. MITTELBUSCHER "Read of my amazing experience with Konjola and then judge for yourself as to its merits," said Mr. O. E. Mittelbuscher, 4638 Cope Street, Detroit. "I suffered from stomach trouble in various forms for ten years. Practically everything I ate caused me to have cramping spells and my stomach bloated with gas. For weeks at a time I was not able to eat any solid foods, nor drink anything cold. I was restless at night and became very nervous. Continually, I suffered from headaches and was only able to work part time. "I first heard of Konjola thru the recommendation of friends. I decided to find out what it would do for me. Before I finished the second bottle my condition improved wonderfully. I continued with the treatment until I had taken six bottles, and at the end of that time I was eating whatever I pleased without the slightest distress. My nerves were calmed and headaches disappeared. It has been four months since I quit taking Konjola and I have regained my strength. I have not lost a day's work since I completed the treatment." Although many sufferers are greatly benefited within a week or two, it is best to take Konjola for six or eight weeks to obtain thorough results. "Konjola is sold in Buchanan, Michigan, at W. N. Wodrich's drug store, and by all the best druggists in all towns throughout this entire section."

It's human nature!

Pride in personal appearance is inherent in all of us. No one wants to look seedy, unkempt, to appear ill-dressed or classed as a has-been. It's only human nature after all.

Advertisements are the barometers of style. The advertisements of collars and clothes have served as the models after which the modern well-groomed young man patterns his personal appearance—even to the dressing of his hair.

The advertisements of fashionable gowns from Paris, the exquisitely dressed women pictured in the advertising of silks and other dress materials, are the criterions by which the twentieth century woman judges whether she is costumed to the minute or not.

You cannot ignore advertising and be up-to-date in matters of dress. No more can you pass over advertisements that tell you of the latest necessities and luxuries that make for better and happier living. In fact, advertising keeps us modern in every sense if its reading is made a daily habit.

Read advertisements regularly and you will soon surprise yourself with your keen knowledge of values—to say nothing of your increased knowledge of every day affairs.

The regular and systematic study of the advertisements in this newspaper is a liberal education in economics.

Social, Organization Activities

Hill Climbers Class Picnic The Hill Climbers Sunday School class of the Methodist church drove to the Home of Virginia and Ralph A. Cross, west of Buchanan, after the close of the church services Sunday, where they enjoyed a pot luck dinner. Sixteen members of the class and the teacher, Dr. Keyes, and Mrs. Keyes were present.

Kenneth Blake and Noah Resler, Mrs. Thomas Rice was awarded a prize for the most suitable costume for the party. At the close of the evening light refreshments were served. A picnic dinner is being planned for the June meeting.

The attendants were Miss Alice L. Bergland, Hinsdale, Ill., and Arnold Hansen, Chicago, Ill., cousin of the bride. Mr. and Mrs. Peterson will reside at 37 E. Rittenhouse Avenue, Battle Creek, Mich.

Window Display Illustrates Cause Traffic Accidents An attractive display illustrating the occasion of types of traffic accidents has been arranged in the window of the Schram agency of the Republic Automobile Insurance Company, miniature highways having been designed on a background of green matting, with toy autos at intersections.

CHURCH ANNOUNCEMENTS

First Presbyterian Church Church School at 10 a. m. Morning service at 11 a. m. Sermon subject "Will Christ Come Again?" Music by robed choir. Evening service at 8 p. m. The annual Memorial Service will be observed this year at the Evangelical church. The Rev. Thomas Rice, pastor of the M. E. church, will deliver the address.

Methodist Episcopal Church Sunday School at 10 o'clock. Each class aims to study practical lessons for every day life, suitable for each age. Come. Morning worship at 11 o'clock. Ruth Denno made a splendid leader in the senior group last Sunday. A group of young people from Benton Harbor added to a very interesting meeting. The junior league as well as the senior is increasing in attendance. We invite any young people who do not have anywhere else to go to try these popular meetings.

There will be a union service in the Evangelical church at 8 o'clock. The services at Oronoko will begin at 9 o'clock. There will be special music. A union service at the church Thursday at 7:30.

The young people of the Epworth League are planning to attend a county rally at Benton Harbor this Friday. Supper begins at 6:30. Meet at the church at 5:30.

Evangelical Church Rev. W. D. Hayes, Minister Sunday School at 10 a. m. Sermon, "Kindness", at 11 p. m. The four leagues meet at 7 p. m. The Union Memorial Service will be held at this church at 8 o'clock. All patriotic citizens will want to attend this service. Let us not fail to pay our tribute and respect to those who sacrificed their lives upon the altar of our great country.

Prayer meetings for both young people and adults Thursday at 8. The Mother and Daughter banquet will be held in the church parlors Saturday night at 7. Those who are taking part in the children's Day program are requested to be at the church for practice after school Friday night.

The losers in the Adult League contest will entertain the winners Monday evening, May 26, in the church basement. This will be an interesting meeting, as much interest has been shown throughout the contest.

The junior choir meets each Tuesday night after school. Children up to 13 years of age who can sing are invited to the rehearsals at the church, under the direction of Marion VanEvery.

We are now beginning a new conference year. We hope to make it a year of real achievement along the spiritual line. You are cordially invited to these services.

Christian Science Church Sunday School at 9:45 a. m. Sunday service at 11 a. m. Subject, "Soul and Body." Wednesday evening meeting at 7:45.

Reading room, located in the church at Dewey avenue and Oak street is open each Wednesday afternoon from 2 till 4 o'clock.

Church of Christ J. L. Griffith, Pastor Bible school and preaching service at 10 a. m. Bible Study, "The Future of the Kingdom," Matt. 24: 1-13. Sermon, "Some Things to Remember."

The Christian Endeavor Societies meet at 6:30 p. m. Topic, How Missionaries Advance World Peace Senior Leader, Miss Thelma Howard.

Scout Troop No. 42 will meet on Tuesday at 7:15 p. m. Let every scout be present to greet the new scoutmaster.

A Pentecost radio service will be held at the church Sunday afternoon at 3:30 o'clock. Dr. George W. Knepper of Akron, O. will deliver the sermon. Mrs. Alice Burgess Seiring of Pittsburg, Pa., will sing.

A workers conference will be held Tuesday, May 27, at 7:30 p. m. Sunday evening we are uniting in a Union Memorial Service at the Evangelical church. Every Christian and patriotic citizen should be present at this service.

Redeemer Lutheran Mission Corner Front and Main, 2nd floor Divine service every Sunday at 10:30 a. m.

Relief from Curse of Constipation A Battle Creek physician says: "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowels called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Write Dr. Fredrick, 1116 1632

be dark from then until Saturday, June 7, being open Saturdays only until the regular season's opening the last Saturday in June.

The pretty rendezvous is to be thoroughly renovated and redecorated before the formal opening, a new road has been opened from the new U. S. 12 to the pavilion. An attractive entrance is to be erected at the intersection. The new road will give much more parking space which was needed very much, especially on Saturday nights and holidays.

Miss O. Donnel, the manager, promises a number of novelties and innovations during the coming season. Steak and chicken dinners, also dainty toasted sandwiches, and refreshing beverages will be served by efficient and courteous waitresses, catering to only the better class of patrons.

Christian Science Churches "Mortals and Immortals" was the subject of the lesson-sermon in all Christian Science churches Sunday, May 18.

Among the citations which comprised the lesson-sermon was the following from the Bible: "Be not thou therefore ashamed of the testimony of our Lord, nor of me his prisoner; but be thou partaker of the afflictions of the gospel according to the power of God." (II

Tim. 1:8.) The lesson-sermon also included the following passages from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Immortal men and women are models of spiritual sense, drawn by perfect Mind and reflecting those higher conceptions of loveliness which transcend all material sense." (p. 247).

NO EXCUSE FOR A "SPLITTING HEAD" There's no need for an aching head to spoil your day. At the first warning think of Dillard's Aspergum. Chewing it a few minutes. Almost before you realize it, you have chewed the pain away. It's as simple as that—no trouble, and harmless—for Dillard's Aspergum is the new and easier way to take aspirin.

Dillard's Aspergum is the finest aspirin in delicious chewing gum form. You can take it any time—any place. You need no water to swallow it down. There is no unpleasant taste—no choking.

Because you chew Dillard's Aspergum the aspirin mixes thoroughly with the saliva so that all its soothing qualities are effective quickly, continuously.

Keep a package of Aspergum on hand for quick, harmless relief from the pain of headaches, neuralgia, neuritis, etc. It helps break up a cold, and soothes irritated throats, even such severe cases as follow tonsil operations. If your druggist does not have Dillard's Aspergum, send for free sample to Health Products Corporation, Dept. A, 113 North 13th Street, Newark, N. J.

BUCKS PLACE IN REGIONAL TRACK MEET

R. Pflingst Wins Heat and Second Place in Quarter Mile.

ARONSON, MORSE SCORE

Place Winners to go to the State Meet at Lansing Saturday.

Buchanan high school's track team, which walked all over their rivals in the county meet at Niles, had a little more competition at the regional meet at Kalamazoo and scored only six points, placing in the second division of a field of fifteen entries.

Ralph Pflingst, running the 440 in competition for the first time, won his heat in .55 and placed a close second in the final, which was won by Scott of Plainwell in the fast time of .53.

LaMar (Red) Aronson took a third in his specialty, the 120 yard low hurdles, the winner's time being .14 flat, very fast for high school runners. Louie Morse, Buchanan's freshman hurdler, also took a fourth in this event.

Buchanan's neighbor, Bridgman, rolled up 15 points in the meet, mostly through the efforts of Word, who scored 13 points alone. Emlong completed their scoring with a third in the mile.

Pflingst and Aronson, accompanied by the Bridgman team, will leave Friday for East Lansing, where the state meet will be held. The respective coaches, Bradfield and Peets, are expecting their proteges to make a good showing, inasmuch as the Kalamazoo records were exceptionally good.

Grade News

3rd grade—Simmons. The children as well as the parents enjoyed the exhibit of the year's work.

There are several pupils absent on account of illness.

We are still banking 100 per cent.

We are giving out the drawings and other work for the children to take home with them.

Kindergarten—Ebbert

Wednesday morning we illustrated the story of "The Three Bears." Some very clever and interesting pictures were made.

We have made two upholstered chairs. The boys enjoyed taking orange crates apart and turning them into chairs. They are covered with cretonne and padded with toweling.

Our garden which was planted Friday is now several inches high. We have radishes, carrots and morning glory vines in the garden.

Our gaily colored birds pasted on clothes pins and strung across the room add much to the appearance of our room.

Mrs. Lura French was unable to report Monday, so Mrs. Mary Zerbe taught for her.

Miss Lois Milburn, formerly of our primary department, visited our schools Friday. Miss Milburn is teaching near Kalamazoo.

Our grade faculty are making plans, studying catalogues and making out schedules for their summer's work in different schools for the first term during the summer season.

SCHOOL SLANTS

Margaret Koons was surprised at a party, celebrating her 18th birthday, last Wednesday evening, by her parents. Vivian Wissler won first prize at bunco and the booby prize went to Ruby Robe.

Last Tuesday night a delegation from the Girls' Glee club sang for the Jeannette Stevenson Guild at the Presbyterian church. The same delegation made a trip to Portage Prairie Thursday night.

Ruth Pierce and Jane Habicht attended the track meet at Kalamazoo, Saturday. Hoopay for them.

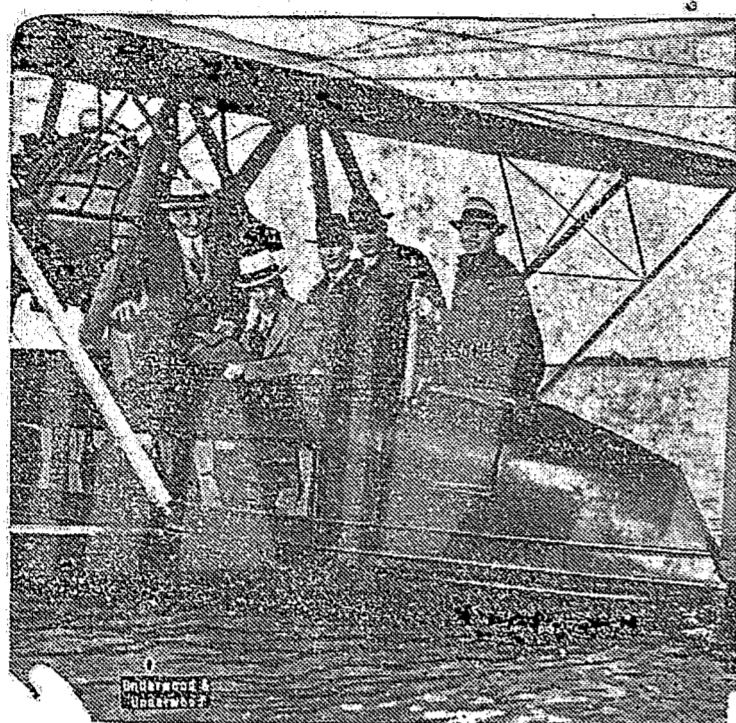

Have you purchased your Annual yet? If not, why not? The Annual is going through its finishing touches right now and within a very short time will be available. Of course, you want to be one of the first to enjoy it. Order one now and be sure of getting one. Do your bit for B. H. S.

Mary Erdlich spent the weekend in Chicago, visiting her brother and family.

Haven't you missed someone, sort of bright light, around school lately? Think hard! Sure, Valmore Speckline has the chicken pox.

The English 12 class finished their novelettes Monday and passed them. The class was divided into groups of three, each three writing a novelette, consisting of three chapters.

Study Traffic Conditions From Air

These men, judges and other officials of Chicago, made a flight over the city to observe traffic conditions during the rush hours, especially over the Boulevard bridge, the north side outer drive system and the Skokie valley district.

Editorial

Two silver cups are awarded each year to outstanding high school students.

The winner of the Buchanan State Bank citizenship cup is decided by a vote of the high school. Members of all four classes are eligible for this honor. Citizenship, as defined on the ballot, includes honesty, sportsmanship, loyalty to school, courtesy, obedience, readiness to work and trustworthiness.

The First National Bank honor trophy is awarded each year to a member of the graduating class. The faculty selects the winner of this cup. They take into consideration scholarship, citizenship, athletics, debating, class activities, club activities, music and drama.

Letters Awarded To Debating Team

Letters were awarded members of the debating team of this year and two members of last year's team, Friday morning in assembly. Mrs. Knoblauch awarded letters to Kathryn Reed and Esther Bradley of last year's team and to Arthur Anderson, Richard Zerbe, Marvin Gross and Walter Squier of this year's team.

It was urged upon the minds of students to go out for debating if they felt they had any ability whatever, because as Mr. Ormiston said, "it is one of the most helpful subjects that may be taken during the high school course."

Girl Athletes Turn From Track To the Diamond

Track having ended with the track meet at Niles with the Buchanan girls winning by three points, 67 to 64, baseball is the sport for this week. So far there has been several games in which the "freshies" have taken the lead.

The first game was between the seventh and eighth grades, the eighth grade winning by a score of 20 to 9. Then the eighth grade and freshmen played a game which ended with the "fresh" as winners, 16 to 4. Then the "soph's" came up for their beating, being sadly walloped with a score of 18 to 25.

When the Juniors had their turn at the "freshies", the "fresh" came out on top with a 30 to 12 score.

As yet the seniors have not played.

Faculty Picnic, Elect Officers

The faculty enjoyed themselves at a picnic at Hudson lake Wednesday after school hours. About twenty members were present. A business meeting was held and officers for the following year were elected with Mrs. Dunbar, president; Mrs. French, vice president; Mr. Hyink, secretary, and Mr. Knoblauch, treasurer.

A six o'clock supper was eaten at the Casino, which menu consisted, among other delicious food, of baked ham, potato salad, cake, etc. After dinner some returned home and others remained for dancing.

The seed pods of the poppy resemble a pepper shaker in both looks and actions. As the pods sway in the wind, seeds are sifted in all directions.

SENIORS VIEW WONDERS AT ST. ON SKIP OUTING

GIVE JAIL, THEATER, RESORT FACTORY BEAT THE ONCE OVER.

Of course, no one knew that the seniors were going. It was an absolute secret. But most of their fellow students became wiser informed in plenty of time to wish them a good time.

Early Wednesday morning the jolly forty-two met at the Rex Hotel, ready for action. Even Bill Marble managed to be there on time, and so, after noses were counted, they loaded into the waiting cars and set out for the A. E. Morse Co., St. Joe, where our Annual is printed. A jolly two hours were spent there, as they were shown the various departments of the factory. The most interesting of the departments was, perhaps, the art department, where an artist was tinting flowers. Many souvenirs were obtained, legally and otherwise.

Then our worthy hod-downers of the trip, Mrs. Dunbar and Mr. Hubbard, led them to the jail. Some were afraid, some weren't, but everyone went in. Many interesting sights were seen in those dingy cells, such as "Big Chief" of our own city, a crazy woman, and numerous other desperate characters, but after coming to three boys of their own age, Helen Kean and Mary Frickich couldn't be dragged farther. Thrills and plenty. The tour ended by a showing of the machine gun that was used by the Chicago gangster on St. Valentine's day.

Silver Beach was their next stop for a picnic dinner and everyone ate to their hearts content with no formalities. Then the management opened up the Merry-Go-Round and the Roller Coaster for the group, which provided enough hilarious fun to last awhile. Shorty Mitchell and LaMar Aronson were the only ones left on the coaster after their fifteenth consecutive ride, and they took their last ride quite dizzy, clinging to the seat.

"The What Nots", as Mr. Hubbard classed them, were now ready for a matinee and decided that "Under Texas Moon," at the Liberty theater, in St. Joseph, would be appropriate, for the title could be changed easily to "Under a Michigan Moon." Olive Knight and Don Carlos from Michigan and Hollywood, respectively, are planning to get together on the subject of moons. Olive thinks he could show Don something in the way of technique. We wonder?

After everyone was sufficiently provided with pop corn, hand-

hand, they took in the show, after which there was an hour and a half intermission before dinner at the Jefferson Cafe.

Dinner, and more souvenirs collected. For every lump of sugar put in their coffee, two went in their pockets. Mr. Hubbard, revived by the delicious food (the matinee was too much for him), decided that we would have a toast program, and so arose and announced the speakers. The subjects given to the various individuals to speak upon were very fitting, and caused much merriment.

Finally, after much fun, the gang journeyed back to Shadowland at Silver Beach, to dance the evening away into the wee hours of the morn.

Seventh Grade Lit Class Writes Verse

The seventh grade class in literature have been spending some time on poetry. At the conclusion of that study, original poems were written by the pupils. Among the best were those contributed by Ruth Dekker, Junior Reinke, Ruth Schultz, Ruth Hayes, Joyce Kohlman, Alice Ruth and Marion Campbell.

Decorating dinner-tables for private parties is a well-paid business in New York, the fees charged ranging from \$200 to \$1,000. Many firms of the sort earn from \$20,000 to \$30,000 a year.

In Germany more than 200,000 persons have joined gliding clubs.

PILGRIMAGE BADGE

This is the badge to be worn by Gold Star mothers and widows on their pilgrimage to the cemeteries and battle fields of France. It was authorized by the War department and issued by the quartermaster's corps.

State Liberates Domesticated Ducks To Increase Game

Continuing an experiment started last year to determine the practicability of increasing the numbers of local ducks by releasing captive-reared mallards as breeding stock, the game division of the Department of Conservation has recently liberated more than 200 wild mallards.

A year ago the state purchased 250 mallards for release, but this year's planting consisted entirely of ducks reared last summer at the state game farm near Mason. To date all releases have consisted of Gray Mallards, commonly referred to as green heads.

The purpose of this experiment is to find out whether the planting of captive-reared mallards will re-establish this duck as a nesting species at more of Michigan's lakes and marshes, and to find out machine makes ice cream.

whether these ducks or the young return to nest in the area where the birds were planted. Before being released, these ducks were identified by the usual leg bands; and to keep them from migrating, the flight feathers on one wing were partially clipped. The clipped feathers are renewed at the mid-summer molt so that the ducks are again on the wing by August.

So far as practicable, trapping and banding stations will be maintained for marking the young ducks and to obtain return records the following year.

If the experiment shows that the numbers of breeding mallards may be materially increased, and if local raised ducks remain with us for at least a few weeks of the open season, many individuals and groups are likely to establish duck "farms" not only for the mallards, but possibly for pin-tails and other ducks.

The College Honor System.

From Ohio Wesleyan comes word that the honor system in effect among students there is about to be abandoned because it has not worked. This mere bald statement of the situation would seem to indicate that so many of Ohio Wesleyan students are dishonest and such a system cannot be effective. The real weakness of the system, however, lies in the fact that it depends for its successful operation upon the willingness of all students to report others who are cheating in examinations.

Students as a whole realize that they have come to college for their own profit. They cannot be aroused over the fact that a few of their number, for some unknown reason, try to beat a pleasant system of acquiring knowledge and of stimulating the desire for wisdom. If some of their fellows see reason to cheat, it has no concern of the main body. It is not their loss, nor the faculty's loss. No one loses by the cheater.

Colleges are not primarily institutions to enforce discipline. No one is forced to attend college. To enroll is a voluntary act and is done by the individual because he believes he will enjoy college life and a close contact with learning, and in the belief that his mind will be stimulated and he himself will benefit. If some of his neighbors, by some peculiar twist of mind, will insist upon attending classes even though he despises them, and then will cheat to pass an examination, it is not his worry. Why should he run to the faculty with tales? It would do him no good, the faculty would be no better off, and the cheater still would be a cheater.

Promoting Home Ownership

Michigan has been fortunate in having savings banks and building and loan organizations that have been persistent in presenting the idea of home ownership to their customers and the public, and have been able to provide funds to wage workers and others who decided to build and own their own homes. These institutions are distributed over the state, all large cities and many smaller places boast one or more, and in every growing municipality one may count homes owned by the occupants that were purchased with the assistance of these financial houses. Should one count the homes purchased in that way in all the cities and towns of the state the number would be astounding.

Other states are not so well supplied with banks and savings associations to proclaim the goodly gospel of home ownership and supply the funds required. In such states the percentage of home owners in cities and towns is smaller than Michigan is able to show. These states have missed the advantages that come with home ownership, the larger interest in civic and social problems, the development of a higher order of citizenship. All students of human problems agree on the betterment of the social order when the ambition to own homes has been gratified.

President Hoover made that thought prominent in his address before the National Chamber of Commerce. That idea was not given a place of prominence on the program but the president made it a major point in his address, emphasizing the need for a thoroughly organized national movement to supply funds for home building. Fortunately for Michigan this state does not need the strength of the proposed organization. Michigan banks and building associations long have been fostering the home ownership idea and providing the funds as required. It has been Michigan funds gathered in strong institutions and used for promoting some of the foundation advantages needed by all strong states. These institutions have done and are doing the job in a fine way. They are splendid corporate citizens of the state.

Watermelons.

Contrary to general opinion, science sometimes is benevolent. Now take the case of the watermelon. There was a fruit with a host of friends. The ripening of the watermelon served to reconcile humanity to the chill arrival of fall. When all nature seems to be going back on us; when the sweet promises of spring and the glorious realizations of summer met disillusionment in the frosts of autumn, the watermelon was our compensation.

One thing only the watermelon was thought to lack. It was beautiful. Artists, particularly those with commissions from the seed catalog publishers, have studied its lovely geometric proportions and its voluptuous coloring. Painted with one huge slice cut out and laid beside it on the platter, its luscious red contrasting deliciously with the rich mahogany tones of its ripened seeds were as satisfying to the painter as its full-flavored sweetness was to the epicure.

But still it was supposed to fall short of the ideal. For even its best friends never gave it credit as a source of much nourishment. "Mostly sugar and water," they said. "And now comes along the department of agriculture and declares it is chock-full of vitamins A. That alone would have saved it. Any fruit that comes with a vitamin can get by with the dietitians. But, hold. The watermelon has vitamins B, also, and C

and G. What a fruit!
 Please pass the watermelon.

Scenes on the Farm.

Farm relief may become the football of politics, earnest appeals for a fair deal may fall on deaf ears, produce may be selling at prices too low to provide profit, grain markets may be weak and tending lower, but the farmer uses winter months to plan his work and loses no time putting it under way when the spring season arrives. The farmer smiles and goes on his way, the backbone of the nation, providing food for the world, the finest illustration of courage and determination to be found in the land.

One sees many cheerful and inspiring scenes if one takes a drive of a few hours along one of the main highways and studies conditions on the farms. The planting season is at hand. It is one of the interesting times of the year to visit the farms. The fields sown to wheat last fall are in good condition, oats are showing well, the corn fields are in readiness for planting and many fields have been planted. Drive out a half hundred miles from Buchanan in any direction and good farming is in evidence continually. The farmer today knows how to plow his land well, then the disc is used to mellow the soil; the harrow smooths it in readiness for the planter. One with good eyes and understanding may see a magnificent story of work well done in these fields.

Much courage is required after a season of low prices to strike out boldly for production in a large way the next year. The farmer risks the use of his farm, the cost of operation, all his hard work of planting, cultivation and care, with full faith that good crops may be harvested and market conditions will be good. He is the one worker in the country who is everlastingly on the job, sticking to it, refusing to become discouraged, fighting it out, risking weather conditions and all else.

As a rule the good farmer drives his team or tractor in a straight line across the field, the smooth, even furrows, straight as the line of an engineer, there is evidence to prove the mastery of man in doing his work neatly and well. He drives the corn planter along the same straight line. Watch the fields when the corn is up, note the beauty of the straight line, and the classy distinction it gives to the farmer. As a man of courage the farmer stands far out in front. We can count on him for the food we require. The nation can count on him, he never learned how to quit, he refuses to become discouraged. We hope the crop yield will be good, and prices will bring him a profit commensurate with the toil and courage he has invested.

Farmers and the Tariff.

There is a deep seated feeling against the provisions of the tariff bill in the hearts of the farmers in the northwest. They are doubly pinched by the tariff. Many things they must purchase come from a protected market and prices are high. Most of the things they sell have prices fixed in world markets and values are low. They cannot break down the protected prices, they cannot inflate the world market prices. The tariff measures give additional protection to sugar, shoes, clothing and other things they must purchase and they know additional protection will be reflected in higher prices.

It is folly to figure the sentiment of the people on the farm has not been aroused against the protective tariff run wild rates that are in the pending bill. They see new burdens that will be forced on their shoulders, and there is hot resentment that will be shown at the polls in all states.

Elimination of home brewing by stopping sale of the wherewithals will remove from the field a class of competition with which our hard-working bootleggers have long had to contend.

Judging from the various shipbuilding programs announced since the naval conference closed, it was nothing much but an inspirational meeting.

Secretary of Labor Davis says he wears a night shirt about half the time, with pants, no doubt, getting the other two quarters of the business.

It's human nature to enjoy being flattered, and a man always feels a happy sense of importance whenever he receives literature relating to an automobile which is about three times better than he can afford.

A college professor down in Georgia attributes crime partly to coffee. Some of it is a crime.

Some girls are so vivacious that they give the impression their sole and exclusive diet consists of Mexican jumping beans.

Has anyone found out yet for sure which that birdlike 286 pound airplane runs on, gasoline or worms?

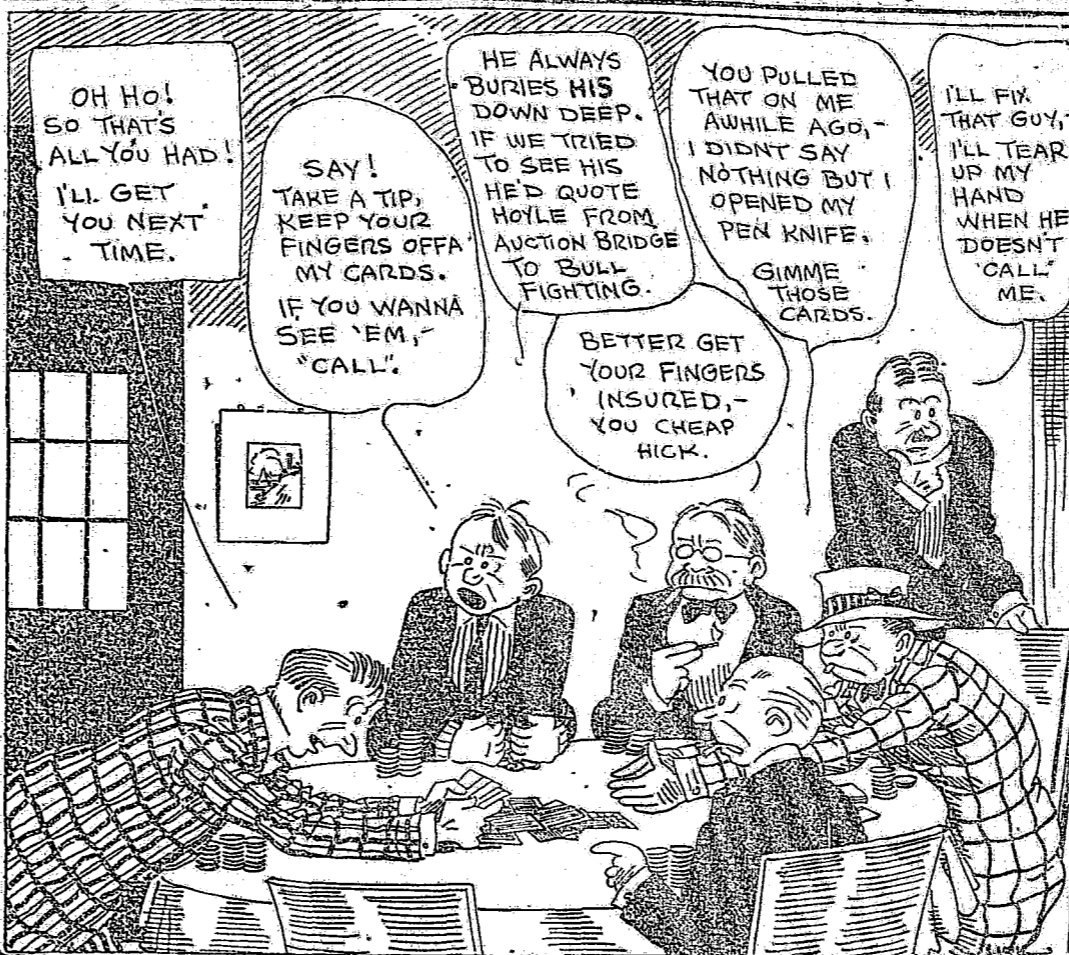

Always when a person asks you to take a broadminded view of something he means to look at it from his side.

Olive Branch

Marie Jannasch was a Sunday caller in the Nina James home on Sunday.

Mr. and Mrs. Jake Sheeley and Mr. and Mrs. Frank Clark were Sunday afternoon callers in the Russell McLaren home.

Mrs. Sadie Huston of South Bend spent the week end in the Firmon Nye home.

Col. and Mrs. John Seymour were in Three Oaks Friday.

Mrs. Harry Williams and daughter, Evelyn, went to Niles Saturday to spend a week or two.

Mr. and Mrs. Gene Sprague and family, Marjora and Ralph spent Sunday in the Frank Sprague home near Dowagiac.

Paul Wright of Richmond, who is staying in the Millie Bowler home has been very sick with something like quinsy, but is better at present.

Foster Bowler and brother, Beryl, and their families, were the Sunday visitors in the Millie Bowler home.

Mrs. Celia Wade and son, Devere of Dowagiac, and Mr. and Mrs. Uric Jeffries of South Bend were Sunday visitors in the Firmon Nye home.

Mr. and Mrs. Paul Smith attended a P. T. A. meeting Friday evening at the Hills school near Glendora. Mrs. Paul Smith and Arthur Swem have taught there for two years. During the evening they presented Mrs. Smith with a lovely blue enameled clock and a green one to Mr. Swem.

Last Saturday morning early, the roof of the dwelling house of Mr. and Mrs. George France caught fire from the chimney. Had it not been for the neighbors who came the house would have burned to the ground, but all worked and saved the house.

Ewood Rickerman and mother and sister, Elma Kolburg were in Michigan City Wednesday to see Dr. Warren. Miss Kolburg is gaining every day.

Mrs. Firmon Nye left Monday afternoon for Dowagiac, to spend a few days with her sister, Mrs. Celia Wade and while there will attend at the Elk's Temple the pictures that Paul Rader, world famed evangelist, who took a trip around the world in the interests of Missions recently. He was with an interpreter in China, Japan, India, Siam, France, Palestine and other places and took some wonderful pictures. He is sending Rev. W. B. Hogg, a southern evangelist, who will explain the wonderful pictures. Accompanying him will be Mr. and Mrs. Ramsyer and other radio artists.

Mrs. Lyle Nye received word from her cousin, Jerome Wood of Valparaiso, Chile. Mr. Wood telephoned his mother, Mrs. J. Walter Wood of Niles for a Mother's Day greeting and greetings to other relatives. Mrs. Wood was advised early Saturday morning from New York that at 2 o'clock she would be put into communication with Chile, it being necessary to make arrangements previously for such a connection. Just at 2 o'clock the phone rang and almost immediately Mrs. Wood heard her son's voice at a distance of 7,500 miles, with a mother's day greeting. Mr. Wood and their other son, Reynold, also talked with Jerome. His voice and theirs were heard almost perfectly and had they not known that he was in Valparaiso, they would have imagined he was in New York, so distinct was the speaking voice.

Manufactured products of Budapest reached \$577,600,000 in 1928, three times what they were in 1921.

The horned toad or lizard of the Southwest has the power to eject streams of blood from its eyes when disturbed or frightened.

CONTEST HELD TO FIND BEST BEAN GROWER IN MICH.

AWARDS TO 20 PRODUCERS WHO RECEIVE GREATEST PROFIT.

Search for the best bean growers in Michigan will be made this year by the farm crops department of Michigan State College through a contest sponsored jointly by the college, the Michigan Crop Improvement Association, and the Michigan Bean Jobbers Association.

Awards will be made to the 20 bean growers who receive the greatest margin of profit per acre from their crop. Production costs, yield, and quality of product will be considered in selecting the winners. A special award will be made to the individual grower having the best crop record for the season, based upon total acreage, crop rotation, cultural methods, and quality and yield.

A uniform price for beans, and uniform charges for man, horse, and tractor labor hours will be used in determining the value of

the crop, the cost of production, and net returns.

Growers who expect to enter the contest should keep accurate records of labor, methods, and materials on blanks which are furnished by the college. All contestants must be enrolled by July 1.

This little rack has a mighty interesting story to tell you

You may see for yourself that New Iso-Vis does not thin out. Ask to see the Ball and Bottle Test at any Standard Oil Service Station.

That New Iso-Vis Motor Oil will not thin out in your crankcase is almost unbelievable. Yet it is a fact. In each of our small bottles of oil is a tiny metal ball. The speed with which these balls drop to the bottom of the bottles shows you the heaviness of the oils. If the oil is thinned out, the ball falls more quickly.

This test enables you to compare "used" New Iso-Vis with fresh New Iso-Vis—also "used" New Iso-Vis with other kinds of used oil. New Iso-Vis is the only motor oil that will not thin out. The carbon deposit from New Iso-Vis has been shown by tests to be 50% less than the average deposit of various better grade oils. Also this new oil lubricates at high temperatures, yet flows in icicle weather. Never before has one oil rated so high on so many important points that are vital to the long life of your engine. You will find New Iso-Vis at all Standard Oil dealers or service stations.

New ISO-VIS Motor Oil

The New Polarine also is produced by our new refining process—giving it an efficiency which is exceeded only by New Iso-Vis. The price is 25¢ a quart.

News from New Troy

Rev. Blewfield of Benton Harbor New Troy Baccalaureate Speaker

Six High School Graduates and Thirty Eighth Grade Graduates Attend in Body; Girls' Glee Club Sang Numbers in Uniform; Stage Beautifully Decorated with Flowers and Colored Lights.

The New Troy baccalaureate services were held in the high school auditorium Sunday evening, May 18. The hall was packed. The many baskets of flowers and ferneries on the platform, added much to the beauty of the services. To the accompaniment of Mrs. Kelley at the piano the Girls' Glee Club entered from the rear of the hall marching down to the front seats. The girls were all attired in white with green ties. Following them came the seniors, sixteen in number, as follows:

Katherine Boyd, Paul Conklin, Ruth Conklin, Helen Finkel, Gerald Johns, Evelyn Kempton, Theodore Klunke, Russell Most, Dorothy O' Barton, Rex Paul, Robert Payne, Phil Sexton, Victor Seeder, Irene Styburska, Vera Spaulding, Clarence Wirth.

After the seniors marched the eighth grade graduates. Mighty proud were these folks for this is the first time a division has been made here between the eighth grade and the high school. Following is the eighth grade class roll:

Velva Brown, Bruno Dietrich, Ruth Edwards, Beverly Ginther, Harold Hanover, Alice Hendrickson, John Howe, Lester Hutchinson, Mildred Karbusicky, Hope Kelley, Chas. Kennedy, Lois Long, Ethel Mae Marks, Helen McClellan, Selma Oelke, LaVerne Orris, Virginia O'Donnohue, Isabelle Pader, Frederick Prenkert, Cecil Renbarger, Eva Ritchie, George Ritchie, Jacob Sinner, Thomas Sowersby, Marjorie Stearns, James Tornquist, Walter Wetzel, Ivenell Wisner, Walter Wisner, Caroline Yeske.

Following the eighth grade graduates marched the school faculty and the school board.

First on the program was a song, "Lift Up Your Heads, Ye Gaius," by the Girls' Glee Club, after which Rev. John English offered prayer.

Miss Eileen Sexton rendered a very beautiful solo, "My Task." The baccalaureate sermon was delivered by Rev. Floyd L. Blewfield, pastor of the Benton Harbor Peace Temple. In the course of his address he compared life with a balloon. He said that just as a balloon is tied to the earth before ascending, so many lives are held down by handicaps and bags. Both have the inclination, the desire to rise but are held down.

In the first place many are held down by the spirit of despair—just because much of the past has gone wrong and possibly you were born on Friday, the 13th, what's the use. But such should not be the case. He gave an example of just the opposite in telling of a boy who longed to go to college. His parents were in favor of education but reminded him of their poverty. The young fellow was determined to rise and one day some one gave him two little pigs that seemed worthless, but this fellow saw in them the beginning of a college education. When the pigs grew to nice big porkers he exchanged them for a calf and that in turn was passed on for a thorough bred colt which he himself broke and later sold for \$175, a good beginning in those days for the first year of college. Thus Scofield Scott rose to the presidency of the Northwestern University, Chicago. Perseverance spelled his success. God gives a spirit of optimism that will overcome the spirit of despair.

The second sand bag Rev. Blewfield mentioned was the spirit of hate. War can only thrive on human hate and this holds men down in the lowlands instead of rising to the heights.

The third sand bag was the sand bag of debt. There is the debt we owe to another in human relationship. Many graduates think only of salary and positions to be obtained instead of service to men

told of the rapidly growing M. E. Sunday School recently organized in that vicinity, and how many more people would go to church if they had better clothes to wear. Clothing is badly needed there. Boys were mighty proud if they had even a new pair of overalls to wear to church. Miss Burbank pictured the real need and said that any clothing anyone wished to give to these people would be greatly appreciated.

NEW TROY

A young lady from Constantine has been hired to teach in the Home Economics department of the school here, to fill the vacancy caused by Mrs. Earl Berry's resignation.

Mr. and Mrs. John Ludlum visited at the George Daniels home Sunday. Dean Morley has set out 14 or 15 acres of cherries southwest of the grist mill. Mr. and Mrs. Charles Peterson and daughter, Alice, of Chicago, visited at the Sol McKee home last week end. Howard Wooley visited at the George Daniels home last Sunday. George Crawford and son sank a sixty foot well in the cemetery here last Wednesday.

The new Barhous home was wired last Wednesday. Last week E. V. Zurflay purchased Mrs. Delia Fletcher's home here, occupied by Mrs. Rood and Helen.

Last Tuesday afternoon Mrs. H. O. Piper and daughter, Nina, called at the Frank Weed home on their cousins, Mrs. Ella Byrum of Three Oaks, former resident of New Troy, who suffered a stroke a short time ago and is now much better.

Mrs. Flora Guettler and sons will move into the house just vacated by the Bob Liskey family about the first of June.

Mr. and Mrs. Frank Hallman and family of Benton Harbor, spent Sunday with Mr. and Mrs. Ross Conant.

The annual meeting of the town board was held last Tuesday to transact business before election. Mr. Bowyer has taken the job of cleaning up the cemetery.

Ed Gallinger has taken the job of cleaning Smith cemetery in the second precinct.

Rev. Conklin delivered the baccalaureate sermon to the Galleen graduates last Sunday evening. The William Priest funeral was held last Friday at 2 o'clock at his home, Rev. John English officiating. Burial was made at Riverside.

Last Friday evening a shower was given for Jack Kempton in the basement of the Brethren church and about 50 or 60 attended. Games of all kinds were played and enjoyed. Jack received

Former Twin City Aviator Is Killed

Ray Allen, former manager of the Benton Harbor airport at Michigan field, was killed Friday in a crash near Adrian, Mich., a passenger, Virgil Thurman of Trenton, also losing his life, when the ship in which they were flying crashed into the edge of a forest. Motor trouble apparently caused the tragedy, as the ship was seen by witnesses in two tail spins, the

county and lived at New Troy until a few years ago.

House of David Adds Birds, Animals to Park Collection

Fifty new species of birds have been added to the collection on exhibit in the House of David Park which opened at Benton Harbor last week for the summer season. Among the additions to the birds and animals is an Australian "laughing bird," a six months old mountain lion picked up by Judge Dewhirst on a recent trip west and named "Queen Marie;" a Chinese white fallow deer, and a ringtail cat from Arizona. The colony is building a \$5,000 addition to the zoo and making other improvements at the park.

Ross Hinchman Buried Thursday At Michigan City

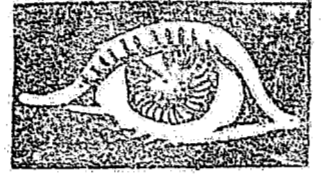

Ross Hinchman was buried last Thursday at Michigan City. Mr. Hinchman died of double pneumonia following only a week's illness at St. Anthony's hospital at Michigan City. He is survived by his parents, Mr. and Mrs. Albert Hinchman of Three Oaks and his wife and four children. Deceased was born and raised in Berrien

A Telephone Is Protection!

7th, 8th Exams At New Troy H. S.

Miss Emily Reitschneider had charge of the 7th grade county examinations in the school here last Thursday and the eighth grade county examinations Friday. Due to the many outside students who came Thursday for the examination the seventh grade room was dismissed for the day.

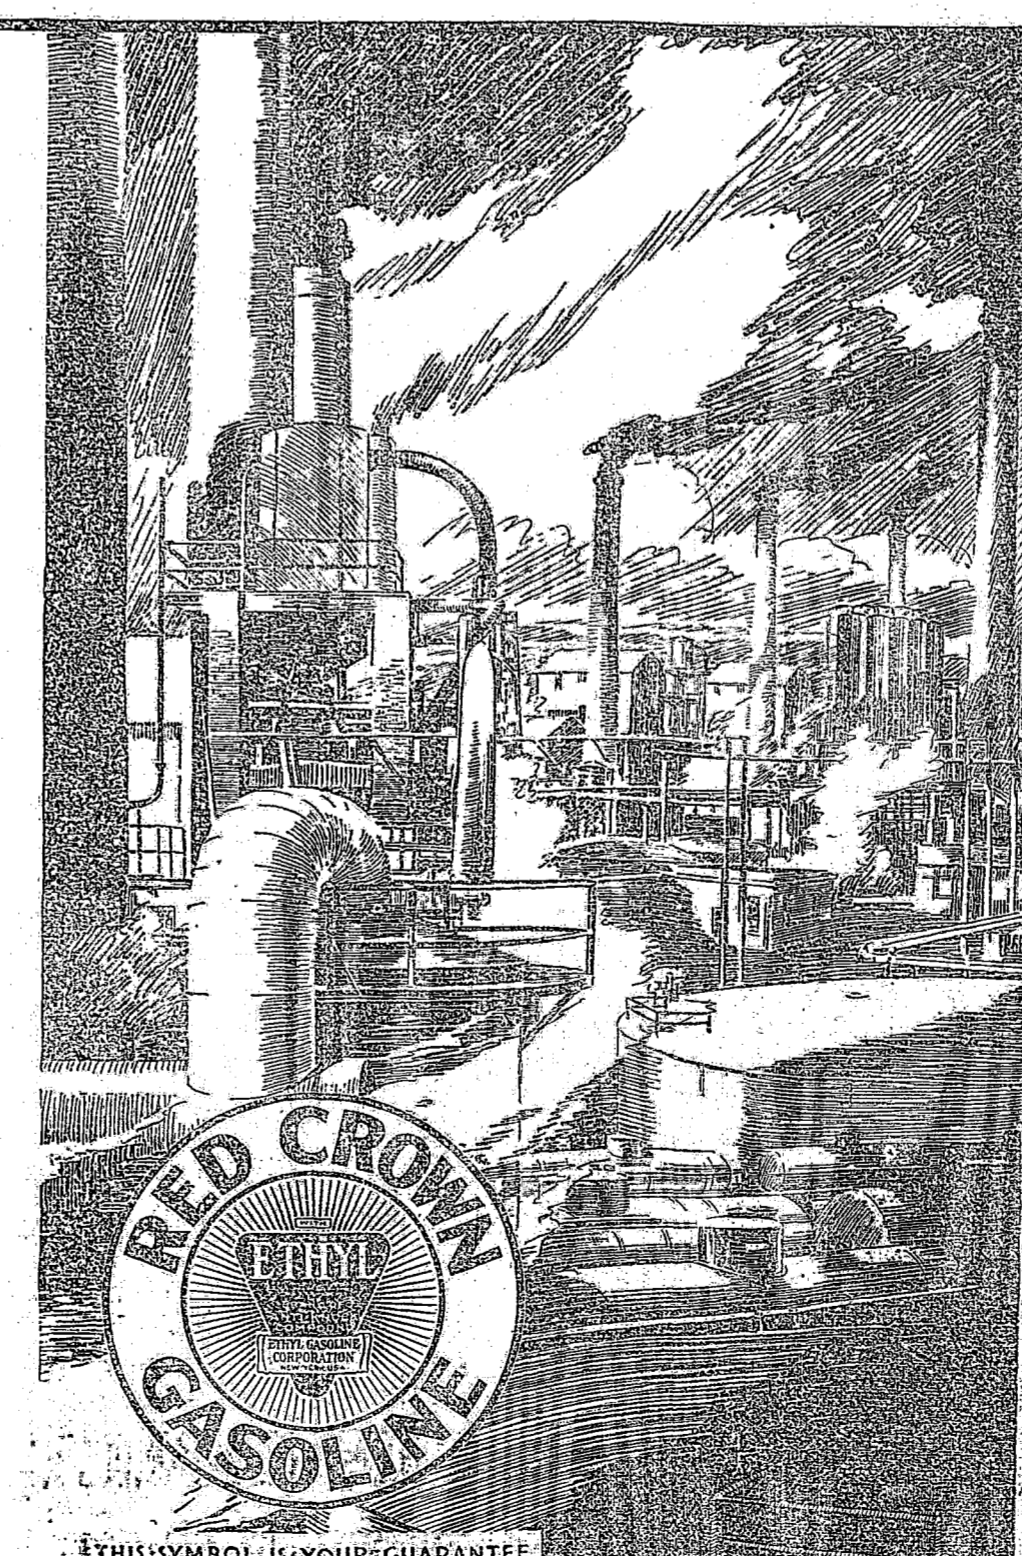

Jennie Burbank Talks on Mountain Schools of South

The M. E. Sunday School was very pleased to have Miss Jennie Burbank with them Sunday morning. Miss Burbank, formerly a teacher in our school, has for the last nine months been working among the mountain folks of South Carolina and teaching their schools. She gave the Sunday School a few interesting facts regarding the life of those people. She mentioned the scantily furnished homes and said that never in all those months did she see a framed picture in any home as she visited the families. Occasionally a page from a seed catalogue would be seen pinned upon the wall but even this was rare. She

The Old Timer's Corner

Old Timer Tells of Plans For Reunion

I have been enjoying reading the things that have appeared in "The Corner" for some time now that I have not written myself. The articles last week with regard to building of a log house was very interesting to me for I have helped to build one myself, but with more modern equipment of course. My father was in the lumber business for years and I knew more or less about such things from what I "absorbed" rather than from experience. But it was very well told and interesting all thru.

The week before with the items from an old issue of "The Record" were also interesting. Maybe more so than things that I could contribute. But I want to see "The Corner" continue so I will try and send my little "bit" from time to time, to help it along.

I have been busy for the past two weeks about such things from what I "absorbed" rather than from experience. But it was very well told and interesting all thru.

The week before with the items from an old issue of "The Record" were also interesting. Maybe more so than things that I could contribute. But I want to see "The Corner" continue so I will try and send my little "bit" from time to time, to help it along.

It is past the middle of May, already, which don't seem possible. June will soon be here and that brings us to the annual picnic of the Chicago-Buchanan Society, which will be held in Buchanan on June 23 (which comes on Saturday.) I am going to write to Matt Kelling and ask him to cooperate with us and try to dig up more of the local "old timers" for that event.

I wish that some of you folks that like gardens could take a peep into our back yard. To be sure it is not so big, but it is very completely occupied. I have every thing nearly that we used to have in the garden at home. Grapes, blackberries, raspberries, gooseberries, currants, horseradish, lettuce, beets, onions, carrots, parsnips, tomatoes and a larger bed of ever-bearing strawberries. Several shrubs and trees, a fence covered with morning glories and other vines (of course it is not yet covered, but they are getting there fast) and a lot of flowers in the making with tulips, lily of the valley and one shrub in blossom and a lot of iris and other things coming along as fast as they can. I have an arbor across one side of the garage covered with old fashioned Virginia Creeper and all the beds laid out with red brick. The lawn got the worst of it last winter, but have patched it up with some new grass so that it begins to look like a regular place again.

I like to putter around in the garden and it makes me think back to times when I was working on the farm, only now I like to do it better than when I was a kid. Guess that comes with "age."

I wanted to get over to Buchanan during Blossom Week and help swell the crowd a little and meet a lot of old friends but was too busy here at the house and couldn't make it. But I think I shall be over there very soon now and see my old friends for a few days.

This is Sunday and raining as usual. We have had ideal summer time weather for some time but guess we are due for a little setback but that will be all right so long as we don't have frosts. I would hate to see my garden get the worst of it now. Have a lot of panes in bloom and they are beautiful.

I hope that Mrs. Winch and John Holmes will come to the front again soon with some interesting talks from "The Corner" and anyone else that can find time to send in a letter.

Now don't forget the date for the picnic this year and try to arrange to be on hand. Ask all your folks and friends that have lived in or about Buchanan to come home for that date, June 28th, no matter where they live now. They will find many old friends that they have often thought about and with the glad to see at the picnic.

This is not for Chicago people, alone, as you know, but a home coming for all of us that just happened to be started by the Chicago delegation. We want to see you or we wouldn't come over. We hope that you want to see some of us, and so will make your plans to be there, lunch basket and all.

The class that I graduated with from high school in 1894 is planning to have a reunion on that date, and Ada Slocum Montague comes from New York City and Lottie Thayer Smith comes from Los Angeles. Mrs. Anna Irving (our old high school teacher) will come from California. Mae Brewster's mother, now living in Niles, (her name is now Strick) will be with us and many "other" ones. We have ten left out of the '13' that graduated together, and we have hopes of seeing them all. I hope that other classes will follow in line and get as many of them together as possible.

OLD TIMER.

BUCHANAN 40 YEARS AGO

Items taken from the Record, issue of May 15, 1890.

There was a snow in Buchanan on May 20, 1889. So do not be discouraged if warm weather does not come soon enough to suit you.

KIDS

John Bishop has bought several carloads of what is in Berrien Springs the past two weeks, shipping over to the St. Joseph Valley road.

L. P. Alexander is to be census enumerator for this township, his appointment having gone to Washington for approval.

Elmer Remington has bought the Harger building next south of his blacksmith shop and is having it materially improved. He will do his work in there hereafter, giving him much better room.

There is a fine new girl at Charles Blodgett's, but this fact will not raise the price of tile and brick.

Mr. and Mrs. E. E. Plimpton of Benton Harbor stopped in Buchanan Sunday on their way home from their wedding trip.

There was frost in this section Sunday morning which singed some of the grape shoots, killed strawberries that were in bloom, and nipped some of the tender vegetables. The peach buds in Berrien county have been about all killed previously, but in the county north of us there will be a fair crop.

A letter from Mrs. J. H. Roe says that her husband is much improved in health and that if the improvement continues they will visit Denver before returning to their home.

Editor of Record: Why can't we have the doings of the Village Board published? The people want to know what is being done by their "dads". Reader.

That is the question the Record has been asking for three or four years.

Mrs. Tiffany has sold her residence on Fourth Street to Ira Sparks and she will soon join her husband in Nebraska.

At the District Conference in Benton Harbor recently, the Trustees of the Crystal Springs camp ground were authorized to build a tabernacle to seat 5,000 people to cost \$3,000 on the grounds in time for the August gathering.

The Common Council has appointed William Osborn village assessor to succeed Newton Smith, resigned. They also passed a resolution allowing the saloons to remain open until ten o'clock at night during the next six months. It must be that some of the members do not care for re-election.

The heavy rains of the past week have washed several grains of sand down from the bluffs on to the St. Joseph Valley track but the locomotive has shown her ability to climb a sand bank to be equal to that of the little narrow gauge smoker, and has never missed a trip.

At a meeting of the Common Council Friday evening N. E. Smith resigned the office of village assessor. The assessment of taxes was voted at the meeting, at a percentage of seven mills on the dollar valuation, the same percentage as last year, but as the assessed valuation is about \$49,000 less this year, the amount raised is considerable less than last year.

A lodge of the Knights of Macca-bees was formed at this place last week with 35 charter members and is known as Cutler Tent No. 21. The officers of the local camp are: W. W. East, P. C.; L. E. Smith, O.; Charles F. Pears, Lt. C.; John R. Bishop, P. K.; George H. Black, E. K.; Rev. F. Klump, Pre.; M. M. Knight and W. J. Bradley, physicians; C. C. High, sergeant; T. F. Barnes, M. at A.; A. B. Richards, 1st M. of G.; W. A. Sparks, 2d M. of G.; E. G. Willden, Sen.; G. A. Friday, Pic.

Notice is hereby given that sealed proposals will be received by the township clerk of the township of Bertrand, or by the supervisor of said township, until the 17th day of May A. D. 1890 at one o'clock p. m., for the building of a town hall two miles south of Buchanan near the Howe school house. John H. Housewerth, clerk.

Emigrant remittances are one of the main invisible items of Greece's balance of payments. The United States is the most important country of origin.

\$1,000,000 or less. The number of small banks has decreased to 17,984 as of January, 1930, from 18,709 as of January, 1929.

There are only 6,496 banks in the country with deposits of more than \$1,000,000, compared with 6,698 in 1929. The decrease in number is largely accounted for by consolidations and absorptions.

THRIPS THREAT DAMAGE STATE FRUIT CROPS

REPORTED IN UNUSUAL NUMBERS IN MICHIGAN THIS YEAR.

An insect, the flower thrips, which is not usually present in Michigan in sufficient numbers to cause damage to fruits or crops is reported to be so abundant this year that the entomology department at Michigan State college advises the use of control measures to prevent injuries to fruit.

The last previous years when damage was done by the insect in this state were 1913 and 1910. Especially favorable weather conditions or the absence of natural enemies apparently permit the thrips to multiply rapidly in certain years.

Damage to fruit can be prevented by the use of nicotine, either as a spray or as a dust. The nicotine can be applied as a special spray or can be included in the regular early sprays. Peaches should be sprayed as soon as the shucks fall, and raspberries should receive the spray before the plants blossom.

Detailed directions for the proper mixing of sprays for the control of thrips can be obtained from the entomology department at the college or from county agricultural agents.

Most of the reports of the presence of thrips have been made from the western section of the state, but it is probably present in all parts. It is a tiny insect which will escape notice unless the plants upon which it is feeding are closely inspected.

For the good of the shrubbery, rake the leaves toward the shrubs and leave them there.

PAVEMENTS ARE FARMERS' TOOLS

FARMERS ON PAVEMENTS MORE LIKELY TO OWN TRUCKS.

Profitable farming is dependent upon good highway transportation and the better the roads the more profitable the farming. This is the conclusion reached in a recent survey conducted by the Agricultural Experiment Station of Cornell University.

Fewer motor trucks are owned by farmers living along dirt roads, the survey reveals. Only one-half of the farmers living along dirt roads own trucks in New York, while three-fifths of those along pavements operate them. The farmers near hard surfaced pavements drove their trucks an average of 725 miles more a year than the farmers served by dirt roads.

This indicates that the rural districts served by pavements have been able to market their produce farther away from home, thereby obtaining better prices. The Cornell survey points out that the farmer living along the dirt road can only economically deliver to the local market. Farmers on paved roads, however, have their choice of three markets, city mar-

OUR SPECIALTIES Spaghetti Kavaloli and Mushrooms

DINE HERE

kets, local markets or shipping points, or buyers who come to the farm.

The high cost of poor roads is brought to light in the Cornell survey. Snow prevented New York farmers on pavements from hauling full truck loads 40 days a year, while snow and mud prohibited full truck loads on inferior roads 90 days a year, or a quarter of the time.

The survey contains reports from 48 farmers living along dirt roads who could not hold their crops for a rise in price, but who had to sell when the roads were passable. The survey reads: "The following estimates of their losses were made by eight farmers: \$2,000, \$1,000, \$700, \$300, \$250, \$100, \$1,160. The last named amount was lost on potatoes which could

not be moved when the price was high."

The cost of building hard surfaced highways cannot justly be measured in terms of taxation alone. The benefits of year round pavements are manifold, the losses farmers are yearly accumulating through poor marketing conditions would oftentimes alone more than outweigh the annual cost of first class pavements.

An evening gown of white chiffon has a short flared cape of chiffon covered with tiny fringes made of crystal.

An unusual memorial to the officers and men of the Royal Navy who worshipped in Portsmouth cathedral, has been placed in that church. It is a model of the Mary Rose, a famous man-of-war which sank off Southsea Castle some 400 years ago.

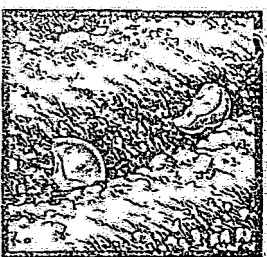

Latvia has decided to establish a free port at Libau.

The sale of the Ottoman jewels, valued at \$25,000,000, has been suggested as a means of obtaining capital for the Turkish national bank.

Why waste two hours doing a TEN-SECOND JOB?

Just DIP... and PLANT

Treat seed potatoes with Semesan Bel. Saves time and labor. Increases yields.

Time spent treating seed potatoes by old-fashioned, mussy soak methods to control surface seed-borne diseases, is time wasted. When such treatment methods are used, every lot of seed must be soaked from an hour and a half to two hours. The job is slow and tiresome. Sometimes severe seed injury occurs during soaking.

Now you can treat your seed potatoes instantly, easily, safely! By using Du Bay Semesan Bel, the instantaneous dip disinfectant, you can do the old two-hour job of seed treatment in 10 seconds or less. Just dip your seed potatoes and plant. That is all! No soaking, no risk of seed injury, and no costly equipment necessary. With this quick method, one man alone can easily treat as much as 400 bushels of seed potatoes a day.

Wisconsin, Semesan Bel (formerly known as Dip Dust) increased the yield by 11.4 bushels per acre.

Reporting on seed treatment tests, Bulletin 405 of the Wisconsin Agricultural Experiment Station says: "With few exceptions the plants germinated more rapidly and made a more vigorous early growth where Dip Dust or Semesan Bel was used." This treatment also increased the yield, the bulletin states.

Certified seed needs treatment

Do not think seed is completely free of disease, because it is certified. Dr. Wm. H. Martin, of the New Jersey Experiment Station, said in the American Produce Grower that there is no state which does not permit at least 10% of scab and Rhizoctonia in certified seed.

By treating all your seed with Semesan Bel, you can guard your crop against these diseases.

Improves sweet potato yields

Semesan Bel treatment also improves sweet potato yields by controlling surface-borne black rot and scurf or soil stain. Just treat the seed and dip the sprouts before setting.

Economical, easy treatment

One pound of Semesan Bel will treat from 15 bushels of small seed to 21 bushels of large seed potatoes. So it costs little when applied easily according to simple directions. Ask your dealer for a copy of our free new Semesan Bel pamphlet. Or, write to Bayer-Semesan Company, Inc., 105 Hudson St., New York, N. Y.

Increases yield per acre

Because Semesan Bel dip treatment of seed potatoes destroys surface-borne infections of Rhizoctonia, scab and black leg, better field stands and bigger yields result from seed which has been given this protection.

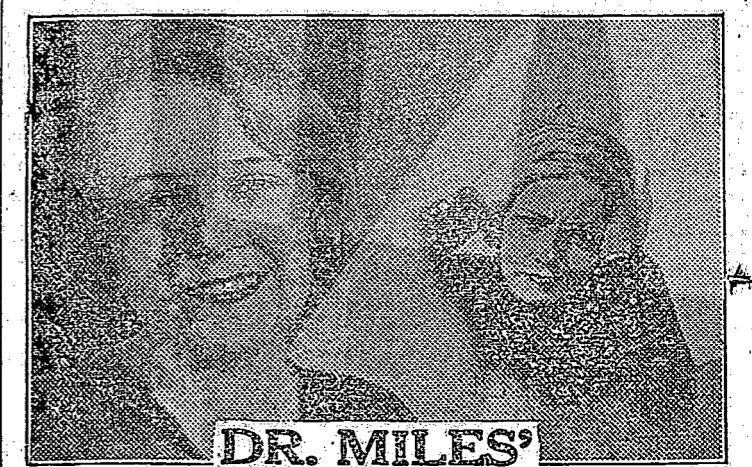

A report in the January (1930) issue of Phytopathology shows that Semesan Bel treatment of clean seed produced an increase of 58.2 bushels per acre in 1928 Maine tests. When tested on diseased seed during 1926 and 1927, this instantaneous dip gave an average yield increase of 53.6 bushels per acre.

In Grant County, N. Dakota, Semesan Bel dip treatment increased potato yields from 10 to 24% per acre. In a test in Adams County,

These modern features make it wise to choose a Chevrolet Six

In selecting a low-priced car, bear these all-important facts in mind:

The new Chevrolet is a Six—and six cylinders make a wonderful difference—in smooth, quiet, flexible, long-lasting motor car performance.

Chevrolet also offers the all-weather security of perfectly equalized four-wheel brakes that are completely enclosed, both front and rear, against mud and water.

Chevrolet gives you the comfort and safety of four long semi-elliptic springs, which are mounted in the direction of car travel, and are controlled by four Lovejoy hydraulic shock absorbers.

Chevrolet uses the modern "pump" method of fuel supply, which makes it possible to mount the gasoline tank

in the rear, away from the engine and car occupants.

Chevrolet is the only car in its price field that offers Body by Fisher. And that means not only the style, smartness and distinction of costly cars, but it means hardwood-and-steel body construction—the strongest, safest and most durable type known to the industry.

ALL PRICES F. O. B. FACTORY FLINT, MICH.	

Chevrolet provides every feature of modern coachwork—adjustable driver's seat, Fisher non-glare windshield, twin-beam headlamps, form-fitting cushions, long-wearing upholsteries, and high-grade hardware.

Finally, don't forget that you can enjoy all these advantages without added expense for operation or upkeep. The new Chevrolet costs no more for gas—for oil—for tires—for service. Moreover, Chevrolet's new Owner Service Policy provides for free replacement, including both parts and labor, of all materials within the terms of Chevrolet's standard warranty.

See your nearest Chevrolet dealer today. Learn for how small a down payment and on what easy terms you can own a new Chevrolet Six.
