Miss Katherine Susan, 68, native of Bakertown, and a summer resident of Buchanan for several years died suddenly at her home on Chippewa Street as the result of neart attack Monday evening.

She had been down town during the afternoon, but complained of not feeling well. Shortly after 6 p. m. two neighbors, Mrs. Mary DePotter and Mrs. A. McFarland called to inquire after her health and found her dying, the end coming before the physician they sum moned had arrived.

Miss Susan was born in Bakertown May 16, 1862, the daughter of Martin Susan. She grew to womanhood there, later moving womanhood there, later with her parents to Niles. About thirty years ago she entered hotel work in Chicago, rising to the position of assistant housekeeper the Blackstone Hotel. She was in charge of house cleaning operations at that hotel this spring, fatigue from over work at that task bringing on the attack that ended her life.

She was the last of her immediate family. Two nephews survive, Powley Monroe of Jackson and

BEETS THINNED IN MAY FOR FIRST TIME HERE; 1200 ACRES PLANGED.

Prospects for a beet crop in the Galien-Glendora district are better at the present time than they were at the present date in the six years that he has been field superintendent, according to Warren Hagley of Galien, for the Holland-St. Louis Sugar company.

Mr. Hagley states that he has an acreage of 1,200 acres this year, and that crop operations are advanced to an unusual degree. The beet acreage profited heavily by the adverse conditions affecting the peppermint industry, and also by the decline in wheat acreage due to low prices. At the present date, sugar beets are the only erop with a guaranteed market price. The company is paying the excellent price of \$7.50 per ton, with free seed which is higher than last year in spite of an adverse sugar market. # Instantaneous seed potato treatment **INCREASES YIEI**

Semesan Bel dip treatment gave Carl E. Randolph, Maine, a yield increase of 21 barrels an acre, as shown above.

#### Semesan Bel saves time in treating Controls seed-borne diseases Produces better stands

By increasing yields and improving crop quality, seed potato treatment pays a handsome profit on its small ost. Most growers know this.

But, until recently, seed treatment took so much time and tedious labor that many farmers omitted it. They preferred to chance getting a large crop, rather than spend an hour and a half to two hours soaking every lot

of seed before planting.

Now, Du Bay Semesan Bel has removed this time handicap from seed potato treatment. With this safe dip, you can treat your seed potatoes easily and instantly! No soaking; just dip and plant. One man alone can treat as much as 400 bushels of seed in a single day by this quick method.

#### Controls seed-borne diseases

Instantaneous Semesan Bel treatment kills surface seed-borne infections of scab, Rhizoctonia and black leg, thus scan, renzocionis and olacities, thus improving the stand and making possible a bigger yield per acre. In 1928 Maine tests, according to Phytopathology for January (1930),

Semesan Bel treatment of clean seed produced a yield increase of 58.2 bushels per acre. In similar tests on diseased seed in 1926 and 1927, Semesan Bel caused an average yield in-crease of 53.6 bushels per acre.

Growers' reports convincing Enthusiastic reports by growers who have used Semesan Bel are fully as

ment by at least 15 to 20%." When tested in Adams County, Wisconsin, Semesan Bel (formerly known as Dip Dust) gave an increase of 11.4

convincing as results of such tests by agricultural authorities.

Farmers in Grant County, N. Dakota, increased their potato yields

from 10 to 24% by this treatment.

Elmer Osking, of the same state, writes: "Semesan Bel has anything beat that we have ever tried for treat-

the bulletin states

Surface-borne black rot and scurf or soil stain of sweet potatoes are easily controlled with Semesan Bel by quick seed treatment and dipping the sprouts before setting. Bigger yields are reported by many growers who protect the crop this way.

An economical treatment

One pound of Semesan Bel will treat from 16 bushels of small seed to 21 bushels of large sced potatoes. So it costs little when used according to simple directions. Your dealer will gladly give you a free copy of the new Semosan Bel pamphlet. Or, write to Bayer Semesan Company, Inc. 105 Hudson St., New York, N. Y.

Drawings and Dolls After studying Shakespeare's "As You Like It," the tenth grade has submitted projects illustrating the story. Many drawings and dolls were brought in describing the different characters and scenes of the play. Of the many original objects, Thessel Mitchell submitted a poster representing the melancholy of Jacques' famous speech, "All the World's a Stage, etc." Drawn upon the poster was a stage with characters represent-

ing the seven ages of life.

Philip Hanlin submitted a very clever painting of Touchstone, the clown of the play. A pamphlet was submitted by Meryle Rouse, showing free hand drawings of the characters and the descriptions. the characters and the descriptions

# The Old Timer's Corner

### Old Timer Visits City; Accuses us of Golf Habit

Old Timer's Corner I spent from Friday night un-til Sunday morning "at home" in be seen.

I called to see "ye editor" of the Record, Saturday afternoon but I suppose he was out playing golf, or at any rate, he wasn't on the job. Maybe just "out to lunch." Ha Ha. Better luck next time.

I don't think that the present business depression" has affected you people as much as it has those in the larger cities. I didn't see any "bread line" while there and mostly every one had money to buy food and clothes and that is saying more than we can here in Chicago. I have made it my business to look over several so called "prosperous" towns of late and none of them can hold a candle to old Buchanan for general enter rise and cleanliness, etc. Some of them have more "millionaires" but them have more "millionaires" but they seem to be sort of like a turtle with its head pulled back into its shell. I believe in Buchanan and always have. Never have been ashamed to tell people where I hailed from. When they say, upon hearing its name, "Why I have been do that they have been as the say of that they have been as the say of that they have been as the say of the transparence." never heard of that town before.' I just tell them that is their mis fortune. When I left there many rears ago, I wanted to make some thing out of my talent for music and I felt that I could do that best in a large place. I was right at that. I have accomplished my end, and now I have "retired" as far as music is concerned, and like to sit back and listen to the young ones "do their stuff" on the radio Guess I am too tired to sing much any more, and I get to hear a lot of my old friends and acquaintances, just sitting back and

listening. They are still on the job, many of them, and I say more power to them. It's all right with un sunuay morning "at nome" in power to them. It's all right with Buchanan. It sure seemed good to be there and enjoy seeing several old time friends. The town out of it in pleasure as well as looks good to me, every time I money. But I figured that it was come over, and I have half a nobetter to stop singing while they tion to come there to stop way to the first to stop singing while they looks good to me, every time I money. But I figured that it was come over, and I have half a nobetter to stop singing while they tion to come there to stay. Maybe still said "he is pretty good" than and maybe not. I will come if I to wait and say 'he is rotten,' follow my personal desires and I So that now when I hear people will not if I don't. It remains to speak of my work in that line I speak of my work in that line I am grateful, mostly always, for the fact that I stopped in time.

I had a good laugh while home, talking to an old triend who has false teeth but who was only wearing the "uppers" and I asked him where the "lowers" were. He said they were broken. He could not wear them and carried them in his hip pocket. He sat down on them and broke them in two. Lucky they didn't bite him. Now that is no place to wear your teeth. I told him I guessed that would have to open an office in Buchanan again and fix them up so he could wear them in the right olace.

I think that Buchanan is to be congratulated that "M-60" is to go 'past" them instead of "through" he town. It means a lot of traffic that don't do you much good. Buchanan, being situated as it is, with a hill that gives them a start as they pass through town, doesn't get any thanks for it. To be sure you will miss the smoke and smudge from their cars, but I guess a little less smoke won't nurt you any.

If you see any out of town "old timers" tell them about our picnic that is to be held June 28th. Tell them they are welcome and we will hope to see them, no matter where they live nor how many grandchildren they bring along. OLD TIMER.
