Official Proceedings, Galien School Board

Minutes of the Annual School Meeting July 14th, 1930

The annual school meeting of the qualified electors of Galien Township School District met at the town hall at 10 a. m. Monday, July 14th, 1930 for the purpose of electing two school trustees for the term of three years each, and for such other business that might be brought before it.

The election board was organized at 10 a. m. consisting of the following, O. W. Grooms, Morton Hampton, Carl Renbarger, Ernest James and Clark Glover.

The minutes of the previous annual meeting were read. It was moved by Grooms, seconded by James that the minutes be approved. Motion carried.

The treasurer's report was read. Moved by Glover, seconded by Grooms that report be accepted. Motion carried.

It was moved by Grooms and seconded by Renbarger that we have nine months school the coming year. Motion carried.

It was moved by Grooms and seconded by Glover that we raise \$500.00 in the repair fund. Motion carried.

It was moved by James and seconded by Glover that we accept the parcel of ground offered by the owners of the former Blakeslee estate providing that there is nothing binding in regards to building up on the site. Motion carried.

The returns of the election inspectors were as follows: "The undersigned constituting the Board of Election Inspectors at the annual meeting of the qualified electors of the Galien Township School Unit at Galien Township, Berrien County, Michigan, held in the Town Hall in the village of Galien in said district on Monday, the 14th day of July, 1930, hereby certify that the polls of said election were declared open at ten o'clock a. m. on the said 14th day of July and were kept open continuously until 5 o'clock p. m., that a proper poll list was kept at said meeting, and that a suitable ballot box was used, and upon a canvass of the votes cast for the election of two school trustees it was found that the whole number of ballots cast was 95 of which Clark Glover received 32, Morton Hampton received 30, miscellaneous, 33.

Signed, "Carl Renbarger, Ernest James, O. W. Grooms."

Clark Glover and Morton Hampton receiving the largest number of votes cast were publicly declared elected by the chairman.

C. A. Glover, Secretary.

"Nerves"

DO they harass you by day and keep you awake at night?

Don't neglect them. They'll ruin your charm and beauty, alienate your friends, interfere with your business and social success.

When you're nervous, take Dr. Miles' Nervine. It's the prescription of a successful Nerve Specialist put up in convenient form especially for people in your condition.

Dr. Miles' Nervine is now made in two forms—Liquid and Effervescent Tablet. Both are the same therapeutically.

NOTICE SPECIAL EXAMINATIONS Special examinations for pupils tutored during summer will be given Friday, August 29, at the high school building beginning at 9 a. m. H. C. STARIC, Supt. of Schools Salesman Drives 17,500 Miles in 125-Day Journey The vital importance of automobile transportation to the modern salesman is revealed in the experience of John Sullivan, who has traveled 17,500 miles by motor during the last 125 days for the Albert L. Brahm Co., produce merchants of Pittsburgh, an average of 140 miles per day. It is obvious that the automobile confers upon the present day salesman a tremendous advantage over the "drummer" who rode passenger trains, way freights and livery rigs during the early years of the century.

Relief from Curse of Constipation A Battle Creek physician says: "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Ordeevils has been discovered. This tablet attracts water from the system into the laxy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation Chew a Rexall Ordeevil at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Wm. N. Brodick. 16132

Farm Co-Ops Will Truck Feeds From Chicago

PURCHASE \$1,500,000 FEED YRLY

Transporting by Truck Eliminates Haul From Car to Warehouse.

15 CO-OPS. REPRESENTED

President Jesse Boyle is Delegate from St. Joe Valley Shipping Assoc.

The letting of a block contract for the transfer of \$1,500,000 in farm feeds from Chicago to the Farm Bureau co-operatives of Berrien County, was the object of a meeting held at St. Joseph Monday night, in which President Jesse G. Boyle represented the St. Joe Valley Shipping Association in which fifteen county co-ops had delegates present.

The co-ops are all furnished with farm feeds by the Arcadia Milling company of Chicago, which has a contract to furnish its products to the Farm Bureau purchasing organizations of Michigan, Indiana and Illinois.

Many of the individual co-ops have contracted with trucks to haul their feeds from Chicago at rates about equal to the freight charges of the railroads. The trucking service brings the feeds immediately to the ware houses eliminating the necessity of unloading the feeds from the box cars and trucking it to the co-op. It also permits the purchasing organization

This New Powder Kills Rats and Mice But Nothing Else!

Rid your premises of rats and mice without danger to your livestock, pets and poultry. This means more to you than you think. The United States Department of Agriculture estimates the cost of each rat per year at \$1.36 in food consumed and property destroyed.

Maro can be used freely in the home, barn or poultry house with absolute safety.

Not a Poison

Maro is a Red Squill preparation. Red Squill is recommended by the U. S. Department of Agriculture as being taken readily by rats, and relatively harmless to human beings and domestic animals.

Maro retails at 50 cents. Demand Maro. Accept no substitute. The Corner Drug Store.

izations to buy in less than carload lots, by ordering less at a time to carry smaller stocks.

The feed included "Milkmaaker" dairy feeds, mixed poultry feeds, shorts, bran and other stock rations.

The meeting was presided over by Alfred George, field manager of the purchasing department of the Michigan Farm Bureau.

AUG. 1 EST. POTATO CROP BELOW AVERAGE

PROSPECTS IN NORTH STATES REDUCED BY DROUGHT DURING JULY.

The Aug. 1 estimate was for a total United States crop of approximately 377,000,000 bushels of potatoes. If this quantity is realized, it will be only three per cent larger than last year's short crop and five per cent below the average production of the preceding five years. The condition declined sharply during July in practically all northern states from Nebraska and the Dakotas through to the Middle Atlantic coast. Since August 1, the heat and continued drought have further reduced the prospects in those states. Rains have occurred in some sections in sufficient amount to improve the outlook, but a large percentage of the area is still extremely dry and it now seems probable that later estimates will be several million bushels lower than the August 1 figures.

Advices from New York, New Jersey and New England, indicate better than average yields except in Aroostook County, Maine, where excessive rains will likely cut the yield to a point slightly below average. The South Atlantic States will probably have the lowest yield since 1914 and the south central states, the lowest since 1927. The southern states show an increase of 11 per cent over 1929.

It is too early in the season to offer any accurate prediction as to the final results but, unless there is decided and unexpected improvement over many states, it is reasonable to assume that prices will be above the average of past years. Good rains in the near future will be of considerable benefit to the late crop and might materially improve the volume of production in the northern tier of states. But with the southern and early northern crop already matured, it is very doubtful if the total crop will be large enough to materially depress prices below present indications.

COLOMA GARDEN CLUB HOLDS 4TH ANNUAL EXHIBIT

DROUGHT CUTS SIZE OF DISPLAY BUT ENTRIES HAVE RARE QUALITY.

The Fourth Annual Flower and Garden Show which is sponsored by the Coloma Garden Club was held last week at the Cottagers Country Club at Beechwood Point with a large attendance.

The flower display was smaller this year than at previous shows, due to the drought, but the specimens on display were of wonderful size and coloring. Both professional and amateur growers entered their products in the various classifications.

In addition to the flowers a fine art display was on exhibit, featuring the pictures of Florence White Williams, prominent Chicago artist and Tunis Ponsen, prominent Dutch artist of Chicago.

Some interesting antiques were shown, including a display of hooked rugs and various ancient pieces by the Gavin Handicraft Company of Allegan. One rug is a reproduction of the one used by George and Martha Washington in their home at Mt. Vernon.

The Pottawatomie Indian booth attracted much attention. It consisted of specimens of teepee and basket work with Mrs. Quigano, a grand daughter of Chief Simon Pokagon demonstrating basket-weaving.

A model roadside market designed by Mrs. Henry Ford and reproduced by the Coloma Garden Club in miniature with boxes and crates for materials, was on display.

IND. & MICH. 3 OAKS OFFICE IS ROBBED SAT.

PAINTER AND FEMALE CONSTORT ARRESTED CHARGED WITH THEFT.

Gordon Miller, 26, and Miss Catherine Lewis, 27, both of Mishawaka, were placed under arrest at Three Oaks Saturday, charged with having stolen \$67.75 from the Three Oaks office of the Indiana & Michigan Electric Company, during the noon hour.

The theft was discovered by the office manager, Miss Lena Van Gandervan, after she returned to the office from lunch. The money was then gone and Miller, who had been painting the office was missing. Miss VanGandervan reported the loss at once, and the police seized Miller and Mrs. Lewis as they were entering a taxicab to leave town. The Lewis woman came to Three Oaks a week before the robbery and posed as Miller's wife. She told officers after her arrest that she had been an entertainer in a Toledo cabaret.

A woman can legally qualify for the presidency of the United States or any other federal office.

Dentist's Daughter: Well, have you asked papa for my hand? Her sweetie: No, every time I step into his office I lose courage. Today I allowed him to pull another tooth.

THREE LIVES LOST IN STRONG LAKE UNDERTOW SUN.

TWO CHICAGO AND ONE ST. JOSEPH YOUTHS SWAMPED TO THEIR DEATHS.

An unusually strong undertow in Lake Michigan Sunday took toll of three lives, when Robert Bender, 21, of St. Joseph, his cousin, Raymond A. Nems, 21, of Chicago, and George Linder, 21, of Chicago, were caught in its toils and drowned.

Nems and Bender and the latter's brother, Allen Bender, 18, had entered the lake near Glenford. The three youths raced to the water and plunged in, the two elder swimming for deep water. Allen Bender stated that he was behind his companions when he saw them suddenly go down. At the same time he felt a strong undertow that nearly swept him off his feet. After a futile attempt to reach the others, he managed to reach shore and ran to a house where he telephoned for help. Coast guardsmen responded and Nems was recovered while still alive, but died soon afterward.

George Linder, who was unable to swim, had gone to the lake at Bethany Beach to bathe at 7 a. m. Sunday. When he failed to return search was instituted by a party commanded by Carl Andreason of Sawyer, but had failed of recovery at sundown, the strong insur rendering operations difficult.

125,000 Workmen Return to State's Automobile Plants

Michigan business this week suddenly awakened from a period of summer torpor with the announcement that 125,000 wage earners had returned to a dozen Michigan automotive plants, shut down last month for "inventory" or "vacation." The response of business was electric. Stocks have rebounded. The general feeling, freely expressed, is that the low point of the prevailing depression had passed.

The significance of this revival lies in the vast scope of the motor car industry. It is the largest user of steel, gasoline, rubber, plate glass, nickel and lead. It buys tremendous quantities of

1 Airplane to 19,800 People

Registration figures for airplanes and automobiles reveal one licensed plane to every 19,800 people and one motor vehicle to about every 4.7 persons.

Probably the most important event of the week was the resumption of operations by the Ford Motor Company after a three-week lay-off. Ford has curtailed production to four days a week but his plants are operating at the rate of 8,000 units, which is more than 85 per cent daily capacity.

More than 115,000 men are back at work in the Detroit area; 3,000 have been added to pay rolls at Toledo; 1,500 are back at work in Lansing and 1,000 more are drawing pay at St. Joseph. In other cities of Michigan and in many sections of the nation, gains in employment are reported.

While the re-opening of closed motor car plants has spread optimism throughout industry, automobile manufacturers continue in a cautious mood, strangely in contrast to the normal attitude of the industry. Convinced that the low point of the depression was reached in July, motor car manufacturers feel, however, that the recovery will be slow, perhaps painfully slow. Some see a return to normal business by late fall. Others feel the readjustment will not be complete before next spring.

A recent survey declares that the average husband prefers a wife who can cook. These survey experts are simply finding out everything.

California leads the country in the number of licensed and identified aircraft, with 1,237 planes. New York is the only other state that has more than 1,000 planes.

having a total of 1,267. These are in order among the first 10 are Illinois, Ohio, Missouri, Michigan, Texas, Pennsylvania, Kansas and Oklahoma.

A New York man was sent to prison for stealing an accordion. But the neighbors of the owner would probably give the thief a vote of thanks.

JOSEPH ROTI ROTI

"He Always Gets His Man!"

To the Voters of Berrien County

- Why does Berrien County have a Sheriff?
- What are the duties of a Sheriff?
- What are the qualifications for a Sheriff?
- WHY YOU SHOULD VOTE FOR GEORGE C. BRIDGMAN!

Answers

- Berrien County maintains a Sheriff for the protection of life and property; the enforcement of the law, and to CAPTURE those that commit crime.
- A Sheriff's duty is to first, last and ALL THE TIME PROTECT the lives and property entrusted to his care; to enforce the law and to CAPTURE the criminal.

Qualifications

(A) He MUST be fearless.
(B) He must know the Community so when a crime is committed he instantly has in mind some one who may have done it.
(C) He must be able to draw the right conclusion from the manner in which the crime is committed.
(D) He must know what evidence can be used in Court.
(E) He must have no fear in the path of duty.
(F) He must never QUIT until the criminal is caught.

These are the qualifications of a REAL Sheriff!
These are the qualifications of George Bridgman!
These are the qualifications that give you the protection you pay for.

Bridgman's Record

These are the qualifications that give you the protection you pay for.

No major crime was committed during his term of office that was not solved, and the perpetrator apprehended!

Every murder committed during his term was solved, and the perpetrator CONVICTED!

We call your attention, at this time, to a few of the major crimes, and will tell you later about the others.

When the "REDS" met at Bridgman to carry on their nefarious work, it was Bridgman and his men that broke up the meeting! RUTHENBERG WAS CONVICTED! Bridgman did it!

The Galien bank robbers are safe in Michigan state prison. Bridgman did it!

It took two years to solve the Gerling murder, but—Bridgman did it!

When W. G. Handy's murdered body was found in the St. Joe river there was not one single clue as to who did it; today the culprit is in Marquette prison. BRIDGMAN did it!

Not promises, but acts, determine!
By his Deeds shall ye judge him!

His record is the foundation on which he has earned the reputation:
"Bridgman ALWAYS gets his man!"

On his record he stands!
By his record he asks you to judge him!
On your honest judgment of his qualifications to fill the office of Sheriff, he earnestly solicits your vote.

BRIDGMAN-FOR-SHERIFF CLUB.

Olive Branch

Mrs. Vina Swank and Walt Smith were Sunday visitors in the Joe Fulton home. Mrs. Harry Williams came home from Niles for the week. They have the best of wishes of their many friends.

Glenn Whitaker spent Saturday night and Sunday at his home here. Fred Chapin has purchased a new tractor and gang plow.

THE BEST FAIR IN INDIANA

The time will soon be here when the greatest fair held in Indiana will again hold the attention of all of us. The great LaPorte County Fair will hold its seventy-eighth consecutive annual exhibition on August 26 to 29. This fair has built up a reputation of being a real honest-to-goodness fair, one where every patron will get very much more than his money's worth in entertainment and pleasure. At this fair will be seen the finest live stock in the country, the best races, the most gorgeous midway, the greatest array of free acts and the most beautiful Art Hall in the world. Don't forget the dates, as you surely will be disappointed if you do not attend.

Drought Causes Acute Pollution of State Streams

Low water-levels in streams and lakes caused by the long siege of dry weather has caused acute pollution problems for which there is

no natural temporary relief but rain, according to Homer S. Murphy, head of the Pollution Control Division of the Department of Conservation. The situation is the most severe in more than a decade, Mr. Murphy said. In many instances water in rivers is from a quarter to half of its normal volume while the pollution poured in remains the same.

The Old Timer's Corner

Old Timer Recalls Schoolmates Of 90's When He Finds Picture

I have been looking over an old picture taken of the 8th grade on the steps of the old H. S. building with Miss Florence Bartels as our teacher. It sure brings back old times to look it over carefully. At that time the old school ground looked much different from what it does today. The old double drive way up to the front steps from the corner of Detroit and Chicago in the form of a horse shoe. The old pine trees grew very low to the ground and almost entirely hid the two play grounds laid out on the east and west sides of the school building. Many good times we had playing ball and "pump-pump-needle-away" and "tag" and other things.

There was a happy mixture of town and country folk represented in the school at that time. I lived on a farm and so was classed as a farmer but I also lived so close to town that I held forth among those from town, so I knew them all, you might say, and while I often studied with my friends on the farms and spent many happy evenings with them, I also went to the parties, etc., of the "town crowd."

Taking this picture, I will briefly mention the members of the old 8th grade in the year 1890, and mention what has become of them, if I know. Many of them have passed out of my knowledge and some of course have gone to the Great Beyond.

Starting with the back row we have:

Walter Mutchler, now a minister, I understand, Harry Parrott in real estate business in California; J. M. Platts, teaching school in California; Ivoo Hoag, the last I heard of him he was on a farm near Niles; Roscoe Harner, lived down northwest of town and have never seen him since; Gene Boyle, also on a farm northwest of town and I haven't seen or heard of him for many years; Frank Redden, Bakersfield, and it seems to me that some one told me he was dead. Next in the picture is "Old Timer," telling the story today. Standing by me was my pal of those days, Bob Franklin. He married Martha Curran and they have a lot of boys and girls, as you all know, living out south of town. Then comes Lottie Rundell of whom I have lost all trace. Cora Dumbolton married and lives in Indiana some place. Dot Barnes is living in Benton Harbor. I understand. Then comes Hattie Sweeney of whom I have also lost all trace. Ed Frye, who afterward finished the high school course with us and is a minister in Clevel-

and, O. Bert Bailey, who died in Buchanan, and I believe was an M. D. Next is Earl Light, now in the Elkhart schools. He also finished high school with us. Guy Williams is next and he also has passed out of my knowledge. Then comes Lloyd Dumbolton who graduated with us from high school and died shortly afterward. Then comes Charles Boyle, now happily married and living on Front Street in Buchanan. Then comes Adah Spence of whom I know nothing at all. Then comes Cora Wilbur who lived out west on Front Street, but I never knew what became of the family. Then we come to "Billie" Blodgett, a little fellow, but a good kid and every one liked him. I understand he is in California. Then next stands a little fellow, seems to me he was a German, and his first name was Willie but I can't remember his last name. Then comes Lilly Pears who lived east of town. I don't know what became of her either. Then stands a girl that I know very well, but my memory will not recall her name. She was a country girl and a mighty nice girl, but to save my neck, I cannot speak her name. Seems to me she had something the matter with one of her eyes or something. Next stands Emma Eisele from northwest of town, and I don't know where she is now either. Then we come to another girl whose name has slipped my memory. She used to live at Dr. Berricks, and was tall and dark and always full of fun and good natured. Next is Mary Koons, now living in South Bend and have seen her several times at the annual picnics. She looks just as good as ever but is grayer. Next to her is Ada Rouga, living in Buchanan, then Eliza Arney, whose whereabouts I know nothing of, also the next girl, Lilly Mutchler. I haven't heard of her for a long time.

Then we come to the front row and start in with Mabel Redden, now married and living in Bakersfield. Viola Conrad married La Rue Abel and has since died. Mabel Hoag, lived in Niles the last I heard of her. Carrie Hamilton is married and lives in Buchanan. Jennie Beistle is married and lives in Grand Rapids. She was secretary of our graduating class and still holds that office. I can't name the next girl, but knew her very well. Next is Jennie Bailey, whose whereabouts I do not know. Next is Daisy Richards, who died several years ago in Peoria, Ill., I believe. Anna Weaver is next and she is posed like an actress, which she always claimed she in-

ended to be, but she met Frank English and married him and never accomplished her dream of being an actress. Next is Mayde Welch and two or three years ago I heard of her in Bloomington, Ill., married, of course. Then next to her stands Ada (Puss) Kingery, who married a Weaver and now is a widow and lives in Niles. Then we come to Susie Butler (Mrs. Dr. Curtis) and last in the line is Ada Slodum, now Mrs. Dr. Montague in New York.

And this ends the review of the old class picture and if any of you have one of those old pictures and will take the trouble to hunt it up and look thru it and tell me the names of some of those I cannot remember, I will appreciate it. The name of the girl I "missed" first has just come to me. It is Edith Spennett. She stands next to Lilly Pears and just before Emma Eisele. So that leaves one boy, standing next to Lilly Pears, and his name is Billie Stausler. It just came to me. That leaves one girl in the second row, standing next to Mary Koons at her left and a girl in the front row who stands at the left of Jennie Bailey, that I cannot name.

I understand that Miss Hartzel married some one down in Billie Corners and has been dead for many years. She was our teacher for several years. Every grade, as we advanced, she would be advanced also, and we got so used to her and she to us, that it was like losing one of the family when we went into high school and left her in the 8th grade. She was very decided in what was what, and never had any "favorites" so we all got along all right as long as we did what she said.

Hoping that some of you reading this letter will be reminded of some of those old pupils and the times we had, and very ready to welcome any news of them, that you may know about, I am

OLD TIMER.

BUCHANAN 10 YEARS AGO

From Record, Issue Aug. 20, 1920
Glenn S. Eastor, Editor

Mr. and Mrs. D. L. Boardman have motored to Winona Lake where they will visit until the last of the week.

Miss Nellie Cathcart is missed from the Record office this week while visiting at Greenville.

Rev. Walter Fowler and family are here as the guests of Mr. and Mrs. D. D. Pangborn while attending the sessions of the camp meeting.

The volume of business in the office of the Zinc Collar Pad Co. has increased to such an extent that it has been necessary to secure expert office help. Miss Daisy Richards is now serving in that capacity.

Mr. and Mrs. Lester Lyons spent

Wednesday in St. Joseph.

Mr. and Mrs. A. S. Bonner are entertaining Mr. Bonner's parents from Chicago, over the week end.

Mrs. Sig Deschberry entertained the 500 club Wednesday afternoon in honor of Mrs. Mae Roe.

The ladies of the 1930 Club will hold their second annual market day sale on Dr. Trawin's lot adjoining the music store some time in September. Last year the ladies cleared better than \$500 as the result of their one-day sale. Baked goods, fancy work, green vegetables, garden truck, of all kinds, chickens, eggs, butter, home art of all kinds, everything which the home can supply, of the ladies can be on sale.

The work at the playground is swinging along in good shape, under the competent supervision of Kit Kingery and her excellent committee. Public spirited citizens have responded liberally to the call for help, but not enough money has come in to meet expenses. Miss Kingery will be glad to receive your contributions any time, or you may leave it at Broadrick.

John E. Ham of New York is here for his annual visit.

Dr. Lyle Kingery has just returned from a fishing trip to the northern part of the state.

Quite a number from Buchanan motored to Hudson lake Wednesday evening after the band concert.

Mrs. Alfred Richards entertained a number of friends yesterday afternoon honoring Mrs. Mae Roe, who is visiting here.

Mr. and Mrs. H. R. Adams and daughter returned last night from a two week's motor trip to Iowa. They were accompanied from Joliet by Mrs. Winke and Mrs. Burgie.

Arthur Allen left Wednesday morning for a week's visit with friends in Valparaiso.

Mr. and Mrs. Herbert Roe and Mr. and Mrs. George E. Richards were in South Bend Tuesday, the Richards going on to Indiana points for a week's outing.

The Indiana & Michigan Electric Company have installed two new generators at their plant the past week. The new machinery is to take the place of some old fashioned equipment and is expected to render better service. The generators combined weight was better than 17 tons and had to be taken apart and hauled across the river bridge in pieces in order to avoid accident.

Mrs. J. A. White is visiting this week in Chicago.

Mr. and Mrs. R. J. Burrows have returned from their trip to Yellowstone Park and other western points.

BUCHANAN 40 YEARS AGO

Issue of Record, Aug. 21, 1890
John G. Holmes, Editor.

The Rough Bros., who are running a threshing machine on Porlage Prairie, threshed 1245 bushels of wheat last Friday and 1238 on Saturday and are anxious to hear of two better jobs.

Mrs. W. W. Cassell and daughter

of St. Louis are visiting at the home of George Hanley and family of this place.

Mrs. Annie Glover left Monday for a visit of a few weeks in Cleveland, O.

The men who has apples to sell this year is in luck. It is not often that Red Astrachans sell for a dollar a bushel in this market but that is the price this year.

Rusco & Swift's Uncle Tom's Cabin Company were in Benton Harbor Monday evening. The worst swindle that ever presented itself in the opera house in this place was Rusco & Swift's Uncle Tom's Cabin.

Buchanan people who went to St. Joseph with the South Benders yesterday had the exquisite pleasure of riding in freight cars, that is all, but William Glover, he didn't ride that way. He will explain particulars if you ask him.

St. Joseph river below Berrien Springs is becoming quite a health and pleasure resort for Chicago people. Quite a number have regularly spent their summers at the Shaker farm and at other places in the neighborhood. A large hotel is to be erected at Twin Springs for the accommodation of this trade.

A number of former residents of Pennsylvania, now residing here, attended the Snyder County Picnic at Elkhart last Saturday and report having an excellent time. They estimate the attendance at 10,000 people. The Beistle brothers of this place sang for them.

There was a threshing machine fire at Frank Jern's farm southeast of Galien Saturday. Charles Moore had his machine on the ground and had threshed the bulk of one rick when fire caught in the rick on the opposite side of the machine and burned it and the butt of the one they were working on.

Well, Practice Makes Perfect. The man was complaining to his landlord "Those people in the flat above me won't give me a minute's peace. This morning at two o'clock they were jumping up and down and banging on the floor as hard as they could. I simply can't stand it." "They woke you up, I presume?" "Yes, I was practicing on my saxophone."

No, I hadn't gone to bed. Working late. Yes, I was practicing on my saxophone.

2,000,000 Chevrolet Sixes now on the road!

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

- the smoothness, silence and flexibility of a modern six-cylinder valve-in-head engine—the greater comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil

SIX-CYLINDER SMOOTHNESS AT LOW COST

MICHIGAN STATE POLICE RADIO TO SOON BE IN USE

WILL HOOK UP ALL POLICE OF STATE; SPEED CAPTURE OF CRIMINALS.

The Michigan State Police radio station has begun to take definite form during the past month. State builders are making splendid progress on the new radio building which adjoins the state headquarters barracks at East Lansing. Engineers of the Consumers Power company are installing gratis the towers on which the station's antenna system will be. Both towers are up and are now being painted.

Edward N. Fridgen, who is to be operator of the police station, has arrived at East Lansing. He will direct the installation of the equipment, which is ready for shipment by the DeForest Radio corporation when the building, which is to house it, is completed.

It is difficult to set a definite date when station WRDS will start its tests. Its license from the Federal radio commission requires the station to be in operation Sept. 1. Commissioner Oscar Olander is planning now to inaugurate the tests early in August.

Many counties meanwhile, are lining up to receive the broadcasts of the state police station. Under the provisions of the legislature creating the station in 1929, the counties are to be provided with receiving sets and be made part of the system.

Cities also are seeking to share in the benefits which are expected to come in the war against crime through the police radio. Jackson has announced that it plans to "tune in" and is making plans to equip its city police department with the proper receiver. Police Chief C. E. Phelps recently ordered one of the sets from Commissioner Olander.

Chief Phelps was highly enthusiastic over the forward step taken by the state police in their battle against crime. He said that in his opinion nothing of greater importance had taken place in Michigan governmental progress in years.

"By means of the new radio net-work," chief Phelps said, "all police bodies included in the state hook-up will be simultaneously notified of a crime and all will become instantly alert to apprehend the criminals."

Information on the state police work has now been incorporated in the work of the police training schools being conducted by Capt. William Cross of the Michigan State Police in various parts of the state.

pect to duplicate the very successful showing of last year, in which 75 of the leading breeders of Guernseys in Southwestern Michigan were in attendance.

A feature of the show will be the auction of 12 young bulls ranging up to fifteen months of age, these animals having been donated to defray the expense of the exhibition. Oscar Burch will act as auctioneer. Prizes aggregating \$250 will be hung up for the best animals shown in the various classes in the exhibit.

Sportsmen Advised To Snag Streams to Increase Stock Fish

Snagging of small streams, a simple and inexpensive operation is one of the most practical ways that private individuals can assist and co-operate in the re-stocking of Michigan's waters with game fish, the fish division of the department of conservation believes, citing results of experiments carried on by the late Dr. Jan Metzelaar, ichthyologist.

A natural habitat together with a good source of food will naturally attract fish. A well snagged stream to a more or less extent, provides both of these requisites.

Far sighted people interested in sport fishing have for some time realized that one of the basic problems in the supplying of the ever-increasing numbers of outdoor sportsmen is the natural food supply for the fish.

Lakes and streams can support many more fish than now if the food is sufficient. This was the principal idea back of the so-called re-snagging experiments carried on by Dr. Metzelaar. His experiments proved that logs, brush, rocks, and obstructions generally slowed or changed the current, made holes and more food lodged against or became attached to obstructions. These snags also furnished shade and loafing places for the fish.

Dr. Metzelaar's experiments were made on the Pere Marquette River System in places which were once naturally snagged but were later cleaned out to permit passage of log drives.

Fishermen using the streams where re-snagging had been done are generally in favor of this work. Owners of river and stream frontage, with very little effort and expense can re-snap considerable areas and the department of conservation is encouraging this work.

Care is Required To Preserve Food

To properly preserve foods in cans, the canning process must render the enzymes present in the foods inactive and must make conditions within the can or container

unfavorable for the growth of bacteria, according to members of the bacteriology department at Michigan State College.

Canning temperatures inactivate the enzymes so no other precautions are needed to destroy these factors which are responsible for the spoilage of such food products as meats. Meat can be preserved by drying because the moisture which must be present for them to work is removed in the drying process.

Bacteria are responsible for most of the deterioration in food products. Sterilization of the food is necessary to prevent them from destroying it. The bacteria present in the food must be killed and the food then must be placed in air tight containers to prevent the entrance of bacteria after the food has been processed.

If the cans are not sealed tightly, air will be drawn thru any minute openings as the material in the can becomes cool. The air which enters carries with it bacteria which will perhaps spoil the canned product.

The spores of certain strains of bacteria are highly resistant to heat and tests made show that some of the spores were alive after heated to a temperature of 212 degrees Fahrenheit for five and one-half hours.

June Clover is Helped By Applying Potash

Success or failure in obtaining a crop of June clover depended upon the amount of available potash in the soil in the field trials conducted by the soils department at Michigan State College during the past few years.

Tests were made on farms in Jackson counties on a sandy loam soil. The clover was grown as a part of the four-year rotation of corn, oats, wheat and clover. Fertilizer applications were made with corn and wheat. Several analyses of fertilizer were tried.

On the Jackson county farm no field which did not receive potash as one of the ingredients of commercial fertilizer or as contained in barnyard manure produced over 564 pounds of June clover per acre

in 1929, and no clover was harvested in 1929 from fields getting no potash.

Yields of June clover from fields fertilized with potash ranged from 3696 pounds to 4664 pounds per acre in 1928 and from 1145 pounds to 2208 pounds per acre in 1930.

The soil on the Branch county farm was in better condition than that of the Jackson county farm and the differences in yields of clover on the fields receiving potash were not as pronounced in 1929 but there was a marked difference in favor of potash in 1930.

Duck Supply May Be Increased By Supply of Feed

Although rice beds are few and far between in most of the Saginaw Bay marshes, wild ducks should find plenty to eat at Wildfowl Bay this fall, according to the game division of the department of conservation, after a recent check-up as of duck food conditions at this famous hunting ground.

In the spring and fall of 1929, the Game Division made plantings of wild rice at various parts of Wildfowl Bay, to see if this much advertised duck food might be

more widely established, but so far no extensive beds have resulted. The few plants which grow on hard bottom were short and sickly, and were apparently not getting enough nourishment from the hard, silty sand. But on soft, mucky bottom, similar to places where rice was already growing, good stands were obtained from the same lots of seed.

From these test plantings, the Game Division is convinced that plantings of wild rice will not be successful in many additional places along the shores of Saginaw Bay, for there are relatively few large areas which have the soft bottom suitable for growing good rice.

Fortunately, however, there are various other plants, which are also valuable as duck foods, and which can grow on relatively hard bottom. At the present time there are many beds of wild celery, sago, and other pond weeds in the shallows of Saginaw Bay and especially on the silt deposits in drainage-cuts made from boat channels. These plants contribute foliage, seeds, and tubers or buds which are eaten readily not only by the mallards but by redheads, canvasbacks and bluebills. In addition to the plant foods the ducks often find and use large numbers

of shells, water "bugs" etc. The food supply, as the game division points out, is but one of the many factors responsible for the scarcity or abundance of the various ducks or the success of the hunters in any particular area.

Some lakes and marshes are evidently located more directly on the lines of flight than are others, and some lakes are hunted too frequently or too hard. After a few days of open season the black mallards, for example, may learn to visit specially good feeding grounds after dark and may spend the daytime out in open water or in some secluded woodland or swamp lake. With such complications to be learned of and matched together, the intensive manage-

ment of waterfowl will not be easy to accomplish; but with co-operation and consideration on the part of the hunters, together with experiments to determine the value of refuges, early closing hours etc., a more dependable and more evenly distributed supply of waterfowl should presently prove possible.

Ted Abrams, Lansing aerial photographer, has perfected a device for use of fliers in fog. He

calls it the artificial horizon. It consists of a glass globe, in which a miniature metal airplane is mounted. The globe is filled with mercury to a level just below the wings of the plane. The device is placed in front of the pilot near his instrument board.

As the plane tilts to one side, the mercury remains on the same level as the horizon, making the miniature plane tilt in the liquid, taking the same position as the larger plane.

Winter's Coming Fast!

Fine days are here now but winter is just around the corner and you'll want a warm, comfortable home—and that means a cellar full of good coal.

Now's the time to buy it. Our prices are low—we can make immediate deliveries. Don't wait until the last minute and be penalized by high prices and delays. Buy now—avoid discomfort and save money!

PONTIAC MAN ENTHUSIASTIC ABOUT KONJOLA

"I LOST 60 POUNDS; WAS IN A PITIFUL CONDITION BEFORE TAKING NEW MEDICINE" HE SAYS.

MR. PUGH C. SMITH "My height is six feet two inches and I should weigh approximately 200 pounds," said Mr. Pugh C. Smith, 388 North Saginaw Street, Pontiac. "In the latter part of 1928 due to long working hours in the shop, improper food and lack of sleep, I gradually lost more than sixty pounds. I was in a pitiful condition and such food as I ate did not digest properly. This was due, no doubt, to my run down condition. At the time, Konjola was recommended I was in a state of mind bordering on melancholy. "After taking this miracle medicine for about six months my friends did not recognize me. I had gained back all my lost weight. I am now a picture of health. When I started taking Konjola I weighed 140 pounds; I now weigh 204. I have not taken Konjola for eight months and I still feel great. Every word of this statement is true and I can support the facts by many witnesses who have known me for years. "What could be added to such a sincere statement? Is it not logical to believe that Konjola can do as much for you? Try everyone? Konjola is sold in Buchanan, Michigan at W. N. Brodrick's drug store, and by all the best druggists in all towns throughout this entire section.

The AMAZING ACCEPTANCE of NEW RED CROWN ETHYL GASOLINE

52.2% — Plus — 80.9%
Sales increase 1929 over 1928 Sales increase 1930 over 1929

WHY?

- It's faster
- It's smoother
- It's more powerful
- It starts on the instant winter or summer
- It "knocks out that knock"
- It's superior to any automobile motor fuel ever offered for sale

Especially made for high compression motors and it recreates the veterans of the road. Every day more people are demanding New Red Crown Ethyl Gasoline. Better try it today. Its performance in your car will support all we say. Fill up wherever you see the Red Crown Sign.
