Lightning Destroys Farm Buildings in Tuesday Morning Storm

Now Here's the Proposition

Hooverizing
By Iwans

I remember some dozen years back when Herb was a good Democrat. We lived upon prunes and flapjacks. We couldn't have this or have that.

He told us just what and how much. And when, where and how we could eat. Till he drove us to licking the Dutch. By shutting off sugar and meat.

That was twelve years ago, well-adey! I'll swear it's just like it was then. He took all our sugar away—Now we're all out of sugar again.

The butcher he told me last night I had got my last beefsteak on tick. And once more I am ready to fight. But who does Herb want me to lick?

BLUES MEET ALL STARS HERE SUNDAY

Game Will Decide Standing of Locals in County Pennant Race.

AT THREE OAKS SEPT. 14

Locals Come Out of Slump to Defeat Indestructos 5-1 Sunday.

The Buchanan Blues, now back in mid-season form after a disastrous three-game slump, will play a two game series with the Southwestern Michigan All-Stars on the next two Sundays to determine what claim if any they have on the mythical Berrien County title, with the hard necessity imposed on them of winning both games to stay in the flag race.

The All-Stars took the measure of the Blues in their first encounter three weeks ago, with the aid of a Big League pitching prospect on the mound. The two teams will play at the local Athletic Park next Sunday afternoon and at Three Oaks diamond the following Sunday, Sept. 14. The winner of two of the three games will be in a position to meet the north county victors for the flag. The Blues are already one down to the All-Stars and are expected to fight hard to redeem themselves.

Meryle Rouse is Wedded Aug. 23 To Frank Anderson

Announcement is made this week of the marriage of Miss Meryle Rouse to Frank Anderson, which occurred at South Beloit, Ill., Aug. 23. DRY TIMBERS FLASH INTO SUDDEN BLAZE

Two Barns, Hay, Grain, Farm Equipment on Nora Miles Farm Destroyed.

SLATE ROOF SAVES HOME Fire Department Makes Run and Helps Protect the Residence.

Fire ignited by a bolt of lightning destroyed two barns, a corn crib, a tool house, 560 bushels of grain and 30 tons of hay at the farm on the South Bend road, 5 1/2 miles southeast of Buchanan owned by Mrs. Nora Miles and occupied by Ira Swartz early Tuesday morning.

The bolt which caused the fire struck the north barn about 2:15 a. m. Inmates of the house were alarmed a few minutes later by barking of the dog and by the glow of light in the house, rushing out to find the north structure nearly in flames. An alarm was sent to Buchanan and Chief Tenny Bunker made the run with a chemical truck arriving in time to render valuable services in saving the house.

Driven by a northerly wind the flames soon spread to the other barn, which was separate but only a few feet away, to the tool shed and granary and one of two nearby straw piles. The sparks were carried by the wind to the house, which was saved by the work of the chemical tank and by the fact that it had a slate roof.

As soon as the fire was discovered, Swartz ran to the barn which had not yet ignited and saved all of his harness. All of the stock had been turned out to pasture. Twenty-five chickens, which were in the corn crib represented the total live stock loss.

The buildings and the farm produce were partially covered by insurance.

The next reunion will be at the home of Frank Narregan of Baroda.

W. McLeod Spends Week at National Spiritualist Camp

Wilson McLeod and son, Donald, and sister, Mrs. Katherine Thompson, arrived home Sunday from an eastern trip of two weeks, a week of which was spent at the summer camp of the National Spiritualist Association at Lily Dale, N. Y. They were joined at Cleveland by his niece Miss Mary Welsh, who accompanied them east. At the Lily Dale camp they were present at the seances of world-noted mediums. An average attendance of 3,000 spiritualists were at the camp all summer. On their return they visited at Chautauque Lake, Niagara Falls and Buffalo.

BHS OPENS WITH RECORD ENROLLMENT

Upper Grades 409 First Day; 380 First Month of Last Year.

NEW SCIENCE MENTOR School Heads Ask for Gift of Old Text Books For Needy Pupils.

The largest initial high school enrollment in the history of Buchanan schools marked the opening of Buchanan's educational system, the registration for the six upper grades constituting the junior and senior high school aggregating 409 at the close of the first day as compared with a total enrollment of 380 at the end of the first month last year.

The total enrollment at the end of the first day was 952, as compared with a total of 957 at the end of September last year, indicating a marked increase in the high school and a possible slight decrease in the grades.

The registration by classes on Tuesday was as follows: kindergarten, 52; first grade, 99; second grade, 71; third grade, 79; fourth grade, 88; fifth grade, 72; sixth grade, 92; seventh grade, 70; eighth grade, 61; ninth grade, 55; tenth grade, 51; eleventh grade, 57; twelfth grade, 55.

For the first time all of the lower grades from the kindergarten to the fourth inclusive will be represented at the Dewey Avenue school in order to take care of young children from the Burkhardt addition whose parents have objected to the long walk to the high school. This action is taken as an answer to the protest made by Burkhardt parents who petitioned for transportation at the school meeting in July.

New Science Instructor Paul J. Moore of Montrose, Mich. has been elected to replace Eugene Hubbard as science instructor, the latter having resigned late in the summer. Moore is a graduate of Western State Teachers College and taught last year in Montrose high school. Hubbard is now at Gwin, Mich.

Appeal for Books. Mrs. Josephine Pennell, grade supervisor, has requested that anyone having textbooks at their home not in use of the editions now employed at school, donate them to the school if possible for children whose parents are not able to buy books. A number of calls have been made of that nature and those who are able to supply the need will render a very real service to the schools. All available books should be taken to the office of Supt. H. C. Stark.

COMMUNICATION AN APPEAL TO THE CITIZENS OF BUCHANAN AND SURROUNDING COUNTYSIDE TO SUPPORT BUCHANAN A BOY AT THE POLLS.

On the eve of the forthcoming primary election, Tuesday, Sept. 9th, the appeal is going forth to the voters of various communities in the county to give such an exhibit of civic pride as was never before demonstrated, by casting a record-breaking vote for the home-town candidate or candidates, regardless of political affiliations.

In our neighboring city of Niles, the Niles Voters' League, a non-partisan organization, has called upon the voters for "a blaze of patriotism and civic pride" on election day, and "for an army of 4,000 voters to march to the polls and demonstrate the city's full voting strength."

But Buchanan has for many years been famous for such outbursts of civic pride. Back about two decades ago, Buchanan had a home-coming celebration which brought to a focus and lent widespread publicity to the fact that civic pride and loyalty toward its own people and its own institutions richly abounds in this community. One of the outward evidences on that occasion was a parade of industrial, mercantile and "agricultural and horticultural" floats a mile and a half in length, which as one member of the Chicago-Bureau society wrote subsequently, would have done justice to State street in Chicago.

Buchanan has since become a city. Buchanan has a population of approximately 4,000, and has in her power to cast a heavy vote in favor of her only candidate for county office, Don R. Pears, Republican candidate for re-nomination for Register of Deeds. And such a vote as the home folks have it in their power to give this native son, augmented by the powerful vote of surrounding townships, would spell SUCCESS for our candidate.

Shortly after Don Pears was elected four years ago, and before he actually assumed the duties of the office, the fee system was abolished and the office placed on a salary basis—\$3,000 per year. This was a cut of from 50 to 70 per cent of what the fee system had yielded incumbents of the office in recent years, and put the salary on a par with what accountants and bookkeepers in the industrial world, as well as in mercantile circles are paid. And it would seem that, just as a capable and experienced employee of a private corporation becomes more and more valuable to his employers, so should the incumbent of the office of Register of Deeds, one county office which now brings to the county thousands of dollars in cash profits, becomes more valuable, from the standpoint of service rendered, to the people of Berrien County.

Don Pears supplemented his high school training with a course in accountancy, which equipped him for the line of work the office in question involves. And now that he has had four years in which to thoroughly familiarize himself with every detail, he is in a position to handle the affairs of the office with accuracy and speed.

Even under the former fee system, Berrien county men have held the office of Register of Deeds for more than two terms, and in some counties of the state competent Registers of Deeds are re-elected again and again, regardless of how many terms they have held. As a mere boy Don R. Pears marched with Uncle Sam's forces in the World War. And we believe our army of voters will have him in mind when the march to the polls is on next Tuesday.

FREE DENTAL CLINIC HELD AT H. SCHOOL

To Provide Free Examination of All; Dental Work for All Unable to Pay.

LEACHMAN IN CHARGE

Service Entirely Supported by Private Endowment; No Public Tax.

A free dental clinic was established Friday in the office of Reba Lamb, school nurse, by Dr. B. E. Leachman of Benton Harbor, a member of the staff of the Dental Division, Children's Fund of Michigan for the purpose of providing a free examination of the teeth of all pupils of the Buchanan grades and for free dental work in the case of any student whose parents will certify that they are not able to pay for such service.

The work is entirely supported by private endowment, public taxation entering in no way into its maintenance. Dr. Leachman will begin the examination of all pupils next Monday and will devote a part of each week to the work until it is completed. Each pupil whose teeth are found in perfect condition will receive a button which he may wear as a badge of honor, while in the case of pupils having defective teeth, notice of such defects will be mailed to the parent, accompanied by an application card for free dental work in case they are unable to pay the service.

Dr. Leachman has a portable dental set, the only set in Berrien County owned by the Children's Fund.

FETTE NAMED SUCCESSOR TO HARRY H. BECK

Commission Elects Leading Demo of Precinct Two, to Supervisorship.

TO REPAIR WATERWORKS Kelling Recommends Enrollment of City in State League Municipalities

William Fette, contractor and builder and a Democrat voter of Precinct Two, was elected Tuesday evening by the city commission to the supervisorship representing north Buchanan which was made vacant by the death of Harry H. Beck.

Fette was elected from a field of four, other nominees being Theron D. Childs, Frank Rinker and Jay Glover. Two ballots were required to secure the necessary majority of three ballots.

The commission instructed the waterworks committee to make the necessary arrangements for repair and painting of the waterworks building on Oak Street before winter, referring the committee to bids for the painting job made several weeks ago by Clarence Haas and Roy Euland, both of which approximated \$175 for painting the exterior of the structure and the interior of the pump room. The repairs of the building which were specified by the commission include the replacement of all broken brick, the repair and capping of the chimney and the replacement of the rotted wood of the window sills.

An invitation to enter the state Municipal League was presented to the commission by Mayor Kelling.

5,000 Attend Dayton Picnic On Labor Day

The Odd Fellow picnic held at Dayton Labor Day maintained its reputation of being the best outdoor entertainment event of the summer season, one of the largest turnouts in the history of the affair taking advantage of the ideal weather which favored the day.

Continuous entertainment by several troops of actors was on tap from one until six p. m. The baby show resulted in awards to the infants entered by the following mothers: 1st, Mrs. Roy Clark; second, Mrs. Charles Nelson; third, Mrs. Emma Burger; fourth, Mrs. Morley Meyers. The attendance was estimated at in excess of 5,000 by Jerome Seabast, chairman of the program committee.

Presbyterians Fete Teachers on Friday Evening

Following a custom which has become an annual affair, the Home Service Department of the Presbyterian church will tender a reception to all teachers of the Buchanan schools and all students of the city leaving for college this fall. The members of the congregation are expected to be present and extend greetings to these teachers and students. The reception will be held in the church parlors on Friday evening of this week, at 7:45. An interesting and novel program is being arranged in which a dramatic sketch called "School Days in 1990" will be presented by a capable cast and music rendered by "The Seen-Funny Orchestra." The committee in charge of the reception comprises Mrs. Nita Muir, chairman; Mrs. Leland Fitch, Mrs. Clarice Donley, Mrs. Glenn Sanford, Mrs. H. B. Thompson and Mrs. George Deming, Jr.

MOVIES

Fine Attractions
At the Ready
Theatre in Niles

This paper will for the balance of the season carry, a complete program of the above theatre, and we suggest to our readers that this program be watched every week. The Ready has secured for this season the finest attractions procurable and in not glancing at their program weekly there is bound to be some that you will miss.

Saturday only brings Charles (Buddy) Rogers in one of his finest, a delightful story of the air that has with "Wings" in popularity. In "Young Eagles" Buddy indeed rises to new heights of stardom. Sunday and Monday brings Sue Carol in her first starring picture for Warner Bros., and naturally they have given to her a wonderful vehicle which she handles to perfection. On Monday in addition to the regular show you can also see Zane Grey's Lone Star Ranger with George O'Brien.

Tuesday and Wednesday is the ladies favorite, John Barrymore, in "The Man from Blankley's." Thursday is indeed a real treat, a big double feature bill, Gary Cooper in "Only the Brave" and Dorothy McKail in "Flirting Widows."

Friday brings another double feature bill, William Powell in "For the Defense" and Billie Dove in "The Other Tomorrow."

DON PEARS ONLY BUCHANAN MAN CO. COURT HOUSE

The Record of this issue carries an advertisement by Don Pears, candidate for re-election to the office of register of deeds. It might be well for Buchanan people to remember that Pears is the sole representative of this district in the Berrien County court house, and that he is also the only candidate from this district seeking nomination for a court house post. Perhaps the heaviest obstacle Pears will have to hurdle in this election is the unwritten law usually adhered to in Berrien County politics to the effect that no man may hold the same office more than two successive terms. However, there seems to be a disposition this year to regard some of the unwritten laws as of about as much weight as the written laws, and others are being transgressed, notably the rule that the state senatorship shall be alternated between Berrien and Cass Counties. It seems more than likely that a Berrien County man will step in and capture the senatorship this year.

The rule that no office holder shall be allowed more than two terms is merely a rather peculiar gentleman's agreement between politicians in Berrien County, and is not generally observed nor is it especially conducive to good country officeholders who have demonstrated their fitness are returned for several successive terms, on the theory that added experience will add to their competency. That is true in the world of affairs in general and there is no reason why it should be equally applicable to political affairs. If a man is at all fitted for the office of register of deeds, he should be

more competent in his third term than in his first. And it is a fair question whether considerations of efficiency in office should not override the gentlemen's agreements of the politician.

Governor Appeals To Radio Stations For Fire Warnings

With the forest fire damage this season already in excess of that for the entire 1929 period and with dry weather rapidly accumulating more hazards, Governor Fred W. Green made a personal appeal to all Michigan radio stations for assistance in broadcasting warnings to tourists and residents.

"Untold thousands of dollars in property and scenic values in Michigan are threatened by the present, extreme forest fire hazard period," Governor Green's appeal said. "Dry fields, woods, and forests are ready to burst into flame. Every resident and visitor has a responsibility to use the greatest possible caution in preventing the spread of fire. Every camp fire, every match, every piece of tobacco, are possible destroyers. You cannot be too careful. A fire once started can not be reported too soon. Call central, she knows." Further pleas to Michigan newspapers and to the four tourist and resort bureaus of the state for help in bringing the appeal for caution in the forest fire zones to everyone, were made by Director George P. Hogarth of the Department of Conservation.

"The entire organized forest fire fighting force of the state is at work day and night, fighting fires and watching for possible new ones," Director Hogarth said. "But the interest and active co-operation of the public is absolutely necessary if we are going to resist an appalling loss." Counterfeit \$1,000 bank notes are said to be in circulation. We have escaped being stung so far.

Before you write a check, do you use the record of your balance and your past expenditures, as shown on your stubs, for a "check" against drawing funds needlessly—a double check" so to speak?

If so, you're doubtless keeping outgo less than income and building a sizable reserve balance in your account. If not, wouldn't it be a good idea to start "double-checking" now?

PICKLE RECIPTS AT GLENDORA ARE OVER LAST YEAR

FARMERS REPORT 50 PCT. CROP ACCOUNT DROUGHT; ACREAGE LARGER.

The Glendora receiving station for cucumbers for the Standard Brand, Incorporated, Widlar products, manufacturers of pickles had received more cucumbers the first of last week than were received all last year, according to officials at the plant.

Although growth has reduced the yield of the fields nearly half, the acreage this year is more than double that of last year, which accounts for the increase in the crop.

At the Buchanan receiving station on South Oak, Gerold Phillips, superintendent, stated that the cucumbers received thus far have been of better than average quality. The station here opened July 21 and will probably operate several weeks longer unless drought should intervene. A number of Evelyn Shmley of Galien, Mrs.

the fields are just coming into bearing and with timely rains and a postponement of frost should yield well through the present month.

Several farmers who have given their crops extra care report returns in excess of better than \$100 an acre.

The price is the same as that of last year and runs as follows: vat runs (not to exceed four inches) \$3; large, \$1; nubs, \$30.

Mrs. Anna Enders Died Wednesday at Her Home in Galien

Mrs. Anna Enders, 65, wife of Lewis Enders, died early yesterday morning at her home in Galien after an illness of six years of which the last four weeks were spent in bed.

Mrs. Enders was born at Avery's Corners, three miles from Three Oaks, Nov. 12, 1864 and spent nearly all of her life in the Galien vicinity. She was a graduate of the Galien high school. She is survived by her husband, by one son, Lester Enders, of Three Oaks; by three daughters, Mrs. should intervene. A number of Evelyn Shmley of Galien, Mrs.

Alta McIntyre of Michigan City, and Mrs. Inez Foster of Kalamazoo.

Past Noble Grand Odd Fellow Dies at I. O. O. F. Home

A. J. Andres, 80, Past Noble Grand of the local I. O. O. F. lodge, died Saturday night at the state Odd Fellow home at Jackson after a long illness.

Andres left Buchanan to enter the state home eight years ago, after a residence here for 25 years, during which he was engaged in

carpenter work. He had no known relatives.

Rev. and Mrs. Raymond Morgan are scheduled to arrive today from Norway, Me., for a visit of a few weeks among their former parishioners of the Hills Corners Christian Church.

Future is Brighter For Poultry Grower

Outlook reports issued by the United States Department of Agriculture state that the future of poultry industry is more promising than the market declines and the reports of increased hatching

of chicks indicated last spring, but little improvement in present prices are expected during the remainder of this year.

Receipts of dressed poultry in terminal markets are reported to be heavy. This is accepted by the department of Agriculture as an indication of a reduction in the number of poultry in the flocks owned by people who use poultry as a minor source of income.

Mr. and Mrs. Clyde Wolken and family of Jackson, are visiting this week at the homes of the former's brother, Elza Wolken, and of his two sisters, Mrs. Fedore and Mrs. Fred Wallace.

John C. Ketcham

Congressman John C. Ketcham is a Republican candidate for re-election at the primary, Tuesday, Sept. 9.

The Berrien-For-Ketcham Club believes that Mr. Ketcham should be returned to Congress from this district because:

(1) He has faithfully and efficiently served his district for the past ten years.

(2) He stands high in the estimation of Republican administration circles at Washington.

(3) No vote he has registered in the House at Washington indicates that Mr. Ketcham is out of touch with his district or not in accord with the Republican platform or the White House administration.

(4) It is a recognized fact that the longer a Congressman serves his district at Washington, the more influence he can exert in national affairs, because length of service is one of the cardinal virtues of congressional service and a Congressman's standing is recognized and enhanced by the number of terms he is sent back to Washington.

(5) No Michigan Congressman at Washington enjoys greater respect than Mr. Ketcham, none has handled the routine duties of his office with greater fidelity; in character, associations, private and public life and in looking after the manifold interests of his district Mr. Ketcham has made a record at Washington which the Fourth Congressional district may well feel proud of.

His re-election means continued able representation of this district in the halls of Congress.

Republicans, Ketcham's name on the ballot will increase November chances of success.

A PLATFORM OF FACTS

(Sponsored by the Buchanan Woman's Christian Temperance Union.)

Mr. and Mrs. Taxpayer:

You have no doubt noted the increasing vindictiveness of our opponents—the Wets, and the downright falsehoods accompanying their attack. Magazines and papers are filled with their misrepresentations.

Now, let us bring to your attention a few facts, as to why such a great man as Henry Ford believes in Prohibition. He says: "I believe in Prohibition because I believe in the new industrial order that America is creating. Booze is as much out of place in this new order as a horse and buggy in down town Detroit—and a lot more dangerous. Yes, there are still some drunks, there are also, still some horses and buggies."

"The Wets tell us we can eliminate the few remaining drinkers we have by increasing the accessibility of the thing they drink. The liquor business never did have any sense." None of the wet press clamor impresses me. I know where it comes from. That part of "High Society" that buys bootleg liquor is just a part of the underworld. Real high quality society long ago decided that its drawing rooms were not to become successors to the abolished saloon. Don't let the bubble upset you. Listen to the silence of the American homes. The rank and file of the American women—wives, mothers, sisters—know what they want. Hardly a woman in America that does not intuitively know that liquor is her enemy. They started this work of Prohibition. They will see it thru."

"The Ford Motor Company went dry long before the nation. That was the only basis upon which we could operate safely and efficiently. The man who makes an auto must be as sober as the man who drives one. We cannot use drinking men anywhere. As fast as European countries begin to get big industries and automobiles the ban against liquor goes on. Liquor is banned from our plants outside the United States as definitely as it is here. If I knew one good thing to say of liquor I would say it—but a lifetime of observation of its destruction amongst friends and acquaintances and workmen leaves me not a single word to say in its behalf."

After a careful study of the candidates in the coming Primary Election, we hereby submit to you those whom we consider to be the best, regardless of politics:

UNITED STATES SENATOR, Chase S. Osborn.
GOVERNOR, Wilbur M. Bruckner.
LIEUTENANT GOVERNOR, Lauren D. Dickinson.

BUCHANAN 40 YEARS AGO
From Record of Sept. 4, 1890.
John G. Holmes, Editor.

Miss Adah Kingery spent a few days last week visiting friends in Dowagiac.

Miss Ida Best will teach the fall term in the Howe school two miles south of town.

The Peoria Electric Light Man who was to attend the meeting of the Common Council Friday failed to put in an appearance.

Director Rogers has completed the school census and finds the district to contain 550 children of school age. There were 215 last year.

George G. Rogers started on the road for the Miles Medicine Company of Elkhart, after a visit at home for the past month.

Jacob Imhoff and Charles Hoffman returned Monday from Missouri, where they have been prospecting in the timber business. They think they have discovered a bonanza.

John Baker is turning out some of the finest harness work ever made in Buchanan. He has just made a set for A. J. Carothers and another for George Black which are daisies.

Niles is figuring on electric street cars, says the Detroit News. They will perhaps get it about the same time Buchanan gets electric lights or perhaps later.

The school board held its first meeting last evening and organized by the election of G. W. Noble, moderator; Robert H. Rogers, director; John E. Barnes, assessor.

The bulk of the new wheat crop in this vicinity will be put in the ground this week. The ground is in most excellent condition and with a warm fall there will be a heavy growth.

Mrs. Emma and Manda Cox returned to their home in Salem, O., Thursday, after spending a very enjoyable three weeks at the home of their aunt, Mrs. J. W. Nutt of Buchanan township.

The water has been drawn from the millrace this week and some boys are at work cleaning the rubbish out of the race beds with rakes. A few days work with a team and scraper might make a showing. Meanwhile, the people can hold their noses and take quinine as a gular diet.

Kompass, Stone & Stall had their first shipment of tables ready to go Monday. They have a full line of stands and tables and have orders for all they can do. Fifteen men find employment all ready and others have been sent for to do bench work for them.

Miss Gardner was quite seriously hurt in the wagon factory Monday evening. She had been going to the factory evenings to help her father, who is night watch, clean up, and this time she arrived before the machinery stopped and was playing about the planer, when she was caught between the end of a board that was passing through the planer and the wall, squeezing her into a space of about four inches. She has not been able to move from her bed since the accident and the symptoms are such as to lead to the belief that her spine is seriously injured.

Last Wednesday a large charge of buckshot came into the Record composing room through an open window, struck the ceiling and fell into the type case in front of one of the compositors. It most likely took its start from a sling shot off south of the millyard. A few years since the publishers of the Record caused the arrest of three boys for the reckless use of these nuisances and they were let off with a lecture by Justice Dick. The rest of the lot are not coming out of the fracas that way.

OVERWORKED NERVES

UP TO your ears in work—every nerve on high tension. No wonder you snap at the wife and bark at the children.

Watch out! Overworked nerves may lead to Sleeplessness, Nervous Headache, Nervous Indigestion and a host of other unpleasant disturbances. Why don't you try Dr. Miles' Effervescent Nerve Tablets?

Just one in a half glass of water makes a pleasant, sparkling, drink, delightfully soothing to over-taxed nerves.

Dr. Miles' Nerve is now made in two forms—Liquid and Effervescent Tablet. Both are the same therapeutically.

Effervescent NERVE

A number of Buchanan people are taking advantage of the daily training bouts of Dempsey and Miske, claiming that they get the full benefit of a good boxing match and at a very small fraction of the cost of admission to be charged at the main go on Labor Day.

Twenty-seven men and women helped in the clean-up of the park last evening. Remember, the fund for equipment is still open.

Mrs. Nell Fuller called on Mrs. N. Canfield Wednesday.

Mrs. H. F. Kingery was a visitor in St. Joseph yesterday.

C. D. Kent is spending today at his farm helping thresh.

And, lo, and behold, the dog trough is blossoming into sight. Mrs. Wm. Waterman and son, Earl, are visiting friends in Canada.

Mr. and Mrs. Chas. Babcock were visitors at Paw Paw Lake Sunday.

Mr. and Mrs. Geo. B. Richards left Wednesday on a motor trip to Rock Island.

Mrs. Chas. Bishop will entertain this evening in honor of Mrs. Ed Weaver.

A. L. Hamblin, wife, mother and grandmother visited in LaPorte on Thursday.

Mrs. Charles Miller is back at her post in the Boardman store, after a short vacation.

Mrs. Rumbaugh is preparing to build on the lot adjoining the C. F. Pears property.

Mr. and Mrs. Clyde Blake and little daughter left Thursday evening for a visit in Richmond, Va.

Bethany Sunday School class will enjoy their annual corn roast at the Paden home this evening. The members are requested to meet at the church at 6:30 fast time where conveyances will be provided. Be sure you bring wieners to roast with the corn.

Dr. Curtis motored to Allegan to the sanatorium yesterday, taking Mrs. Roanthe, where she expects to spend a couple of weeks prior to entering the Eastern Star home. He was accompanied by Mrs. Curtis, Mrs. Jack Bishop and Mrs. Hattie Blake.

The Birthday Club sprang a surprise on Mrs. Chas. Treat Friday afternoon. Mrs. Treat's birthday anniversary came earlier in August, but because of festivities which the family had planned in her honor the club postponed their party. She was presented with a beautiful cameo pin.

Miss Alice Whyson of Pleasant Lake, Ind., Mrs. C. N. Humphrey and Miss Elvora Robertson of Lansing and Miss Gladys McNamara of Chicago, are guests of the Hillers this week.

"HE ALWAYS GETS HIS MAN"

To the Voters of Berrien County:
On Sept. 9, next, the voters of Berrien County are to select the Republican candidate for Sheriff, and we would certainly be most ungrateful if we did not tell you of our experience.

The average voter is very prone to think that he is not really personally concerned in whom the sheriff is. Little did we dream that the time would come when we would be most vitally interested in the Sheriff and Deputy Sheriffs of this county, but that time did come and then we learned just what it means to need the services of a real Sheriff!

On the 30th day of August, 1929, our 15 year old daughter was kidnapped by the "Gates Gang" so-called. This "gang" consisted of William Gates and his two sons who were driving about the country in a high-powered Packard automobile; they took our daughter with them and drove all over the United States, into Minnesota, Kentucky, California, Virginia, Indiana, Missouri and Ohio, never remaining in one place longer than one night. They did not permit our daughter to communicate with us in any way. The letters she wrote and the telegrams they pretended to send were never sent and for 10 long weeks, without one word from our daughter, we suffered the tortures of the damned! We did not know where she was; whether she was dead or alive; all we knew was that the "Gates Gang" had taken her! We appealed to the officers of Berrien county to locate our baby girl; it was all in vain and as a last resort we appealed to our personal friend, George C. Bridgman, who was then a private citizen, but we knew that once he got on the case he would never let up until our daughter was restored to us, and our appeal was not in vain! For six solid weeks Bridgman drove night and day in his automobile all thru Illinois, Indiana, Kentucky, Wisconsin and Missouri, following every clue he could get. Several times he was but an hour behind them, but nothing daunted Bridgman. Hot on the trail, he never let up until the "Gates Gang" was landed behind the prison bars!

During this hunt, Bridgman located eleven (11) wives the "Gates Gang" had married, only to abandon them.

The "Gates Gang" were returned to Michigan and indicted in the Federal Court at Grand Rapids, Mich., and are now serving their sentence in the Federal States prison.

Only you mothers and fathers can appreciate the suffering and agony we endured during the six weeks Bridgman was hunting for our baby girl and we knew nothing of her whereabouts or her condition until she was once again safely home with us, and but for our friend, Bridgman, we feel quite certain we would still be bemoaning our little girl. This, or some other circumstance, may personally affect you, you can never tell, and if it does you will want an officer of the calibre and courage of George Bridgman to protect you! This is the kind of protection he gives.

Fish Tags Prove That Rainbow Trout Cross Lake Mich.

Within seven days a 14-inch rainbow trout was caught twice, once at Port Washington, Wis., and the second time near Grand Haven, Mich.

If the fish traveled a straight course across Lake Michigan, he would have gone 87 miles during the week or an average of 12 miles a day. If he chose to follow the shore line, he would have gone a minimum of 200 miles or 37 miles a day.

July 14, Smith Brothers, Port Washington Commercial fishermen, tagged a 14 inch rainbow trout (they are called steelheads trout on the Great Lakes). The same fish was caught by Swartz and Jobin in a pound net five miles north of Grand Haven Harbor July 21.

At least three of the rainbow trout handled and tagged during Michigan's spawn taking activities in the Manistee river have been captured in Wisconsin nets.

"A REPUBLICAN for the UNITED STATES SENATE"

If you feel that Michigan should be represented in the United States Senate by a REAL REPUBLICAN — by a man of proved ability — by a man of years of experience in public service and with a proved record of accomplishment for his state — then you will vote for Former Governor Chase S. Osborn.

CHASE OSBORN

CHASE S. OSBORN has a long record of public service behind him. He served Michigan as Governor in 1911 and 1912, and refused to be a candidate for a second term. As Governor, Chase Osborn gave Michigan:

The first Industrial Accident Board and the workmen's compensation and employers' liability law, which has served as a model for other states. More than \$50,000,000.00 have been paid employees under this act.

The opportunity to adopt a constitutional amendment granting the right of suffrage to women.

The presidential preference primary.

The first forward step toward prohibition, in a law which prohibited the ownership of saloons by breweries or anyone interested in the wholesale liquor traffic.

One of the first regulatory laws covering charges by railroads and express companies.

Its first forward step toward tax revision.

A reorganized Michigan national guard and took it out of politics.

Abolished scores of useless state offices; put more property on the tax rolls than any governor, before or since.

Legislation that exempted war veterans from taxation.

As Senator he will make an equally outstanding record

PRIMARY ELECTION SEPTEMBER 9, 1930

"A REPUBLICAN for the UNITED STATES SENATE"

**A PERSONAL WORD FROM
CONGRESSMAN JOHN C.
KETCHAM TO THE VOTERS OF
BUCHANAN**

During my public career I have responded to the limit of my time, strength and ability to every call for service from Buchanan. Through public addresses, by prompt attention to correspondence, by punctual and energetic handling of departmental matters referred to me and thru wide acquaintance and intimate knowledge of conditions in the county, I have earnestly sought to merit the confidence and esteem of Buchanan voters.

In Congress I rank fourth on the committee on agriculture numbering twenty-one members. This committee deals with the problems of agriculture which is by

far the most important interest of this district. I have introduced and passed four important bills affecting agriculture and have taken an active part both in committee and on the House floor in enacting the program of farm legislation of the last ten years. Every other legislative interest of the District has been given painstaking care and attention.

I have a 100 per cent record in support of law enforcement legislation and will continue it. Summarizing the reasons for my return to Congress the "Three Rivers Commercial" says editorially:

"Representation in Congress is of extreme importance to the people. Given a man of average ability, his return to Congress is desirable because of steadily increasing ability to serve thru experience.

Given a man such as John C. Ketcham, who is far above the ordinary in ability to sense conditions, who visits his people and learns their problems at first hand, who is keen in analysis of problems, fine in character, inherently and thoroughly honest, straightforward, and there can be no one thing done of greater value to the district he represents than for the people to realize on his experience and retain the services of such a faithful and valuable public servant."

"Training and experience count even more in Congress than elsewhere. Believing that I am just now in position to render Buchanan, the District, the State and the Nation the most effective service of my career, I ask your support on Primary Day, Sept. 9.

Yours sincerely,
JOHN C. KETCHAM
Member of Congress,
Fourth Congressional Dist.

**Sumnerville Loses
Game in 9th Inning**

The Sumnerville baseball team met its fourth defeat of the season Sunday at the hands of a strong team drawn from the Michigan Central team of Dowagiac and the Forest Beach team by a margin of one run, the score standing 4-3. Sumnerville apparently had the game on ice, the score being 3-1 in their favor at the start of the ninth inning, when second baseman Billerton made two errors that netted their opponents three runs. The Sumnerville team will begin a three-game series next week with the Barren Lake team, a strong aggregation which includes five Michigan Central players.

**Mrs. A. H. Kiehn
Hostess to Nat.
Club Eng. Women**

Mrs. A. H. Kiehn was hostess to the St. Joseph chapter of the Daughters of the British Empire at a one o'clock luncheon held at the Country Club Friday. A short program followed the luncheon after which bridge was played. Among the guests were Mrs. James Ballentine of Chicago and

Mrs. George Cooke-Adams of St. Joseph. The latter is the national president of the organization and made a talk on the purpose of the organization, stating that its object is social and intellectual intercourse, the promotion of good fellowship, and philanthropy among women of British nativity or descent, and the provision of a home for aged British men and women in the various geographic divisions of the United States.

**35 Bird Men are
Entered in Air
Reliability Tour**

The itinerary of the sixth National Air Tour, the premier reliability event of the aviation industry, was to be finally decided this week by Capt. Ray Collins, director of aeronautics for the State of Michigan and tour manager, who returned to Detroit recently from a 5,200-mile flight over the proposed air route. More than 35 flying craft are expected to compete in the event which occupies 16 days, Sept. 11 to 27, and covers a distance of 4,500 miles, embracing 32 cities in 18 states and three Canadian provinces.

The Edsel B. Ford trophy, coveted by all airplane builders, is the first prize at stake in the tour. Another major attraction this year is the Light Plane trophy posted by the Great Lakes Aircraft Corporation, Cleveland.

Each trophy becomes the permanent possession of the airplane company to which it is awarded. The Vaco Aircraft Company, of Troy, O., has won the Ford trophy twice in succession but, due to a change in the scoring proposed this year, greater competition is looked for.

Under the new scoring regulations, the actual speed of the contesting plane on each leg of the tour is considered. The rules favor the amphibian and passenger plane, completely equipped, and numerous entries of this character are expected.

The route of the pathfinding

plane was as follows: Detroit, Kansas City, Chicago, Dayton, Madison, Wausau, Eau Claire, Wis.; St. Paul, Grand Forks, N. D.; Winnipeg, Brandon, Regina, Moose Jaw, Saskatoon, Edmonton, Calgary, Havre, Mont.; Great Falls, Mont.; Miles City, Mont.; Sheridan, Wyo.; Rapid City, N. D.; Cheyenne, Denver, Colorado Springs, Garden City, Kan.; Wichita, Emp., Kansas City, Kan.; Springfield, Ill.; St. Louis, Terre Haute, Cincinnati, Columbus, Fort Wayne and Detroit.

**DROUTH CAUSES
FISH DISEASE IN
LAKES OF STATE**

Warning of water and lowering of lake levels have encouraged the development of fish parasites, disease bacteria and vegetable growth in the water to a degree dangerous to fish life according to Wendell Krull, specialist in diseases of fishes in the University of Michigan.

Weeds and scum-like vegetable growths of all kinds have increased tremendously in the lake waters during the protracted period of hot weather, says Mr. Krull. As a result there is in some lakes a correspondingly large amount of decay, which is in fact a chemical process which uses up much of the oxygen in the water needed by the fishes. This is the first handicap and has caused special loss in some few small lakes.

Although unfavorable to fish life, these conditions encourage the growth of disease producing bacteria which attack the fish directly, resulting in a high rate of mortality by reason of the large number of bacteria and the lowered resistance of the fish. A feature of University of Michigan work on fishes, carried on by the Museum of Zoology, is the discovery that most of the fish deaths from diseases are not from the worm-like parasites frequently found, but are caused by germs or bacterial caused diseases similar to those in humans. This has been especially true in halibut and breeding pools.

Worm parasites apparently play a minor part in fish death rates, contrary to the popular idea that they are often fatal. Specimens of fish have been received at the Museum which are literally peppered with parasites but which were evidently active and in good health. Death from the worm parasites does occur, however.

**State Planning to
Restore Old Fort
Michilmackinac**

A stockade following as closely as possible the original boundaries of old Fort Michilmackinac is being planned for the Mackinaw City State Park.

The stockade would be in conformity with a policy of Frank Kenyon, superintendent, to preserve all the old landmarks and relics at the park.

When the state acquired the park, by gift from the federal government in 1885, there were no visible evidence of any buildings, blockhouses or other structures on the grounds. "Relic hunt"

had been excavating deep holes all over the original fort site, forming unsightly and unsafe places.

The Mackinac Island State Park Commission, controlling the Mackinaw City Park, forbade any more digging and the rule has been observed since that time. The old fort site has been graded, seeded and planted with elm trees.

**U. of M. to Hold
Internat. Symposium
on Modern Physics**

As in previous years the Physics Department of the University of Michigan, of which Prof. H. M. international symposium on mod-

ern physics will be held at the University of Michigan, Holland, Professor E. Fermi from the University of Rome, Italy, and Dr. P. Morse from the University of Princeton. The theoretical physicists of the department also contributed special courses during the Symposium.

The lectures and especially the discussions of these Physics Symposia at the University of Michigan are considered very important by theoretical physicists throughout the world. They attract a large number of American specialists as well as European physicists who are in this country during the summer.

WILBER M.
BRUCKER

- saved \$3,600,000 for the people in the Bell Telephone case.
- cut the cost of W. L. Ford Avenue widening by \$1,500,000.
- collected \$3,600,000 worth of "bad debts" for the state.
- curbed the "loan shark" business.
- prosecuted the House of David case.
- won the lake level case, that will eventually make Michigan ports ocean ports.

He has devoted his life
to service for Michigan

The record of Wilber M. Brucker has been a record of true public service—of full-time, whole-hearted service to the people of Michigan.

Consistently—since he has held office for the State—all his effort and talent and time have been devoted to the State—to Michigan interests, Michigan welfare, Michigan advancement. Private practice and personal business have found no place in his long and distinguished public career.

A University of Michigan graduate—and member of a Michigan division during the World War—Mr. Brucker first served the people in the role of assistant prosecutor and later, prosecutor of Saginaw County. In this capacity, he soon became known as one of the outstanding prosecutors in Michigan.

As assistant Attorney General, he attracted widespread praise because of his effective work in the notorious House of David case.

And later, as Attorney General, he realized the full scope of his abilities with a series of unusual legal and administrative achievements—thwarting the famous "Chicago water steal"—sustaining the negligent homicide act—winning the State's radio case—and making the Telephone company submit to state legislation.

Obviously—your vote for Wilber M. Brucker will be a vote for Michigan, because Wilber M. Brucker has devoted his life to serving the people of Michigan. He is, above all, the people's candidate—your candidate for governor.

Barnard for Congress

PROBABLY no candidate for public office has ever made more careful preparation and has been more consistent in confining his activities to the one branch of government service than STATE SENATOR GEORGE S. BARNARD, now candidate for CONGRESS from this district.

Step by step Sen. BARNARD has been promoted from CITY COUNCILMAN to Berrien County SUPERVISOR to Berrien County REPRESENTATIVE in the STATE LEGISLATURE (6 years) then to the STATE SENATE from Berrien and Cass Counties, the office he now holds. Over SEVENTEEN YEARS in all and all LEGISLATIVE WORK.

Senator Barnard has made careful preparation.

He has always been a successful business man and knows business problems.

He was born and raised on a farm in Berrien County and still owns the old homestead. He is familiar with farming problems from practical experience.

IT IS JUST A GOOD BUSINESS PROPOSITION TO ADVANCE HIM to the office of CONGRESSMAN at the primaries September 9th.

Harvey Sherwood Relates Vivid Account of Cuban Life and Manners

What is now called the Bowery of Havana, near the docks, is near where Havana was founded in 1519 and LaForce castle still stands (which was built to protect the city against pirates) as does the Temple, when the first Cuban mass was celebrated in 1519.

Cuba is 752 miles long and 150 miles wide or 135 at its narrowest point. The city is 15 per cent colored and contains 45,000 Chinese (only 200 Chinese women because their religion forbids.) Havana's hot spell is just beginning and will continue till the September storms lower the temperature 1.0 per cent.

Cabildo Cathedral, known as the Columbus Cathedral, we visited also. It was reconstructed in 1704 of coral rock, having been originally of wood in 1615. From 1815 to 1898 the remains of Columbus were here; at the latter date they were removed to Spain. He was supposed to have landed originally at Santo Domingo, then Cuba.

Covens of 22 karat gold set with precious gems were shown us by an attendant and were among many other things: a \$150,000 miniature copy in solid gold and solid silver of the cathedral of Seville, Spain, being a gorgeous thing 120 years old and made by hand. Huge trays of silver, candelabras, lace curtains and of maltese work, chests of drawers of solid mahogany and room length in size, stained glass windows and gigantic doors, also arrest the tourist's attention.

In 1761 ten thousand slaves were used to construct the \$14,000,000 Cabano Fortress, which is especially remembered for its great length. The president's \$3,000,000 palace, built in 1920, we did not enter.

Perhaps the most noted cigar factory in the world, the Corona, was a most interesting visit, where all workers at desks wear hats, and because of the excessive monotony of their work, are furnished radio music constantly. Five and six dollars a day is the average wage except the sorter who draws \$10 for upon his choice of color and taste depends the sale. The special made section we also saw, and the expert who makes the images of Roosevelt, Moro Castle, etc., on tobacco leaves. They tried to use machinery for making "gears" but the whole force went on a strike and so no machinery is used.

The Malecon Drive along the Gulf of Mexico is striking for its wealthy private clubs. One wonders where all this wealth comes from which enables a man like Mendoza to have a \$1,000,000 mother-of-pearl floor in his mansion, but when he realizes that during the World War sugar brought 37c and only cost 2 1/2 cents to produce he can understand why there are so many millionaires there. The huge cemetery established in 1863, which, next to Genoa's in Italy, is the wealthiest in the world, is another amazing sight in Cuba. Twenty-five thousand dollar imported Italian marble monuments are common in this cemetery and there are others of almost unestimable cost, which leads one to believe the stories of Spanish wealth in ancient cities. Some of the snapshots among the twenty rolls I have taken will tell the story of the profusion of wealth better than this letter. There are actually bushels and bushels of fresh flowers piled high on individual monuments, as tho their homes were not sufficient evidence of their wealth. In contrast to this in another part of this same huge cemetery are actual boneyards where the bones of the poor are open to public gaze because they have no sufficient money to pay their monthly cemetery rental. Not in this beggar section but in the beautiful part is a pathetic bit of sculpture. It is the Student's Memorial marking the tomb of eight Havana University students, who in 1871 dared to protest the slighting remarks against Cuban women made by a Spanish officer. In the duel the Spaniard was killed and altho the Cuban was acquitted by a Spanish judge, the Spanish insisted upon satisfaction, so in spite of the Cuban father's offer to pay his son's weight in gold, he was compelled to witness his son's execution along with seven other Cuban students said to be guilty. Cuba also had her revolutionary patriots, not as widely known as ours, but comparable in fortitude.

Before leaving on this trip I read a large volume on the history of the Cuban Republic, which was

an account of political graft from beginning to end, but I could write a considerable chapter myself on what I learned in Havana about Cuban politics or a synonym—graft. This book said nothing about the present president and I had thought perhaps Cuba was improving but since the national lottery prizes were being sold and awarded. While I was there I questioned a hill I learned that this lottery is sanctioned by the government inasmuch as the result of the nation-wide sale of these tickets results in an annual profit to the president of \$30,000,000; to each senator of \$30,000; to each representative, \$6,000; to charity, 10 per cent and \$500,000 is given in prizes. One morning I ascertained the cause of the crowds to be the announcement of the first prize winner, the \$100,000 and I forgot to mention what other smaller denominations. Our guide told us that a taxi driver won it and died from the shock. How they hate President Machado, even his brother despises him. Machado exiles his political opponents. Altho I read a few months ago in the news that he intended to make the president's term two very years, here I found that he held no election but set himself up a practical dictator for six more years. And this is called a Republic. talSwontyjj-jietatoh: shrdiu

I was informed by two Cubans that Machado wrecked the printing establishment of a publisher who dared criticize him and the publisher, being exiled, sought out President Hoover, who sent the publisher something which caused President Machado to completely repair the damage done. Never had I been able to understand the lack of Cuban gratitude to U. S., especially on the part of the press which contained some bitter headlines and editorials on U. S. policy, until a Cuban explained that Havana is 80 per cent Spanish and they cannot forget the 98 years. They influence the Cubans especially since most of the merchants are Spanish.

There are many minor examples of graft tolerated but it is said that Machado is the first president who made Cuba safe for Cubans and the foreign tourist and even tho he may be something of a benevolent tyrant, there is a working men's club which I dare say no country in the world can match. Here is a \$4,000,000 marble building, the exact beauty and practicability of which is impossible to describe except by pictures. Its magnificent library, restaurant, ball room, card room, staircases—47 or a grand scale, may be used like a home by any working man for \$2 a month and that also provides free his dental and medical services.

Some Americans would never believe that at the beautiful tropical bay is handed over the counter without charge and one may have all he can drink absolutely free.

That beats any American advertising I've ever seen.

The Cuban cop is armed with a heavily vested .38 special Spanish pistol and the soldiers with the 45 Colt 1917 and 1908 Springfield. It is said that the American drinks the beer while the Cuban drinks coffee and rum. I saw only one drunken person in Cuba, yet everyone drinks. Drunkenness is not tolerated as it is in U. S. The characteristic soup seems to be that from the heads and legs of chickens.

One evening we saw the following: Mr. Ward's estate (the baker), Jimmy Walker's estate, the Havana Yacht Club, Marionelle Bathing Beach, a different landscape gardening in every block, the Roman Gardens, 4 President Menocal's Mansion, the old Spanish Fort and there's a story in each.

Another evening we went thru their Chinatown (30,000 population) and afterward saw played the famous games of Jai Alai. It is the Spanish national game and yet the Spanish that evening won against the Cubans by only one point with their best team.

The game is said to be the most strenuous there is, the player being forced to retire at the age of 25 and his life is shortened considerably. The ball is heavy and hard and about the size of a baseball. It is caught in a narrow basket laced to the right arm and is thrown every time with all the player's might at a cement wall and on the rebound is returned to the opponents. It resembles volley

ball but is so dangerous that the player, if struck, is pretty apt to be killed.

At the University of Havana, attended by 4,000 students, there are 25 classic buildings of Greek design and unsurpassed for unified architecture in U. S. The view of the city from these heights by moonlight will be truly unforgettable. In the architectural building President Hoover met with the Pan American Congress. Calvin Coolidge said truthfully, it seems to me that Havana is the equal of any American University. Only the wealthy attend as the tuition is very high.

The Vedado, Havana's most exclusive residential section, under the Cuban moon excels any description I've read except Gertrude Atherton's "The Immortal Marriage" in which she describes the Athens of Pericles as Pericles and Aspasia saw it. Our drive that evening continued down Miramar Parkway and the Prado to the Gran Casino de la Plaza, "the Monte Carlo of the western hemisphere." Our guide took us into the Casino and explained the different gambling devices and methods used, thence to the cabaret where real Cuban dancing followed "refreshments."

The Havana market suffers by comparison with the Mexican and there is not the inclination to buy. One of the three most memorable trips was our tour of the provinces. Following a road not ordinarily taken by tourists we saw many small towns and schools. We passed the Machado Technical Schools, huge agricultural schools and Machado's own farms.

On the trip thru the interior I took some snapshots of oxen, a to the play and one man to prod while one plows heavy furrows thru deep red soil. The natives were so eager to get the snapshots that they volunteered to walk a long distance to town if I'd leave them there, so I took their addresses to mail them. Here are some of the pictures one could have taken: huge laurel trees, palm groves, courteous soldiers, full-busted, dark-eyed, flirtatious "adios" maidens, native thatched huts, ox-carts and beasts all covered with red soil, naked children, sugar cane, huge sugar mills, stone fences, rocks sliced to permit the road to pass thru, and all amid the mountains which resembled huge sugar loaves.

Matanzas-on-the-sea from the height in the mountains appears like a beautiful Italian town nestling at the purple water's edge in the westerling sunshine far below.

All the men here went on a strike so the women run the street cars. We visited the famous Bellamar Caves which are said to be prettier tho not so large as Mammoth Cave.

White-suited natives ride old heavily-laden hacks four in a row

along the splendid highway where goats run the streets. Goat herding is extensively carried on and one may see pig's faces protruding from sacks on the backs of laps of horsemen.

The exterior of the dwellings in town gave no clue to the neatness of the interior. Here in doors sometimes divided into halves and quarters, sat colorfully dressed señoritas, behind bars or again a piece of linen draped across the doorway at almost every house would reveal a family group so unlike our evenings and custom that it makes one long for a return of American fireside groups.

By means of this interior trip and the Cuban ball in the evening, I feel that I learned more of real Cuban life than from anything else.

When Americans discover the beauty of this country at their south door they will certainly span the gap with a bridge and I am one who hopes they do not destroy the character of the place. Lovingly, Harvey.

Food Costs Drop 13 Pct. Within Year

During the year ending July 15, food prices in Detroit decreased 13 per cent, according to computations made and announced this week by the bureau of labor statistics. This was a greater percentage of reduction than shown for any of the other 50 cities throughout the country from which these statistics are collected. During the month, June 1 to July 15, the average cost of food decreased 3 per cent, a figure exceeded in several other cities, notably Kansas City, where the reduction was 7 per cent.

A comparison with food costs in 1913 shows that the average in Detroit on July 15 was but 47 per cent greater than during the year before the World War started. For the country at large, the reduction during the last year has been slightly more than 9 per cent, of which 2 1-2 per cent occurred between June 15 and July 15. Average food costs in the 51 cities, compared with 1913, gave an index figure showing a 44 per cent increase.

Banish That Troublemaker The Wasteful Furnace Coil

Six-thirty in the morning—below zero outside—nearly freezing in the house—furnace fire out—the furnace coil is leaking. Then the trouble, the expense, the discomfort, and the actual danger to health while the coil is replaced and the fire rekindled. Or in the spring, summer or fall—little or no furnace fire—lukewarm or cold water. And all year—that annoying hammering in the pipes.

You can banish this troublemaker—the furnace coil; install a Special Heater and enjoy a continuous supply of piping hot water—and at low cost. It's "Built Like a Thermos Bottle." It's something entirely new, burns a minimum of gas.

"NO MAN IS A PROPHET IN HIS OWN COUNTRY"

This is a maxim and a truth which has withstood the test of 20 centuries. But, notwithstanding this glaring truth, Deputy Sheriff C. S. Overcash is respected and esteemed by representatives of all classes in his home town of Niles.

This is evidenced by a signed endorsement of the candidacy of Deputy Sheriff Overcash for the Republican nomination for Sheriff at the September 9th Primary Election by a committee of 100 representative Niles citizens.

An analysis of this expression of "Confidence in the Integrity, Honesty and Ability of C. S. Overcash," indicates that it is of a non-partisan nature.

The list of names includes those of city officials, heads and members of the Board of Public Safety, Board of Public Works, Supervisors, Board of Education, Republican City Committee, Building and Loan Association, officials of the Michigan Central Railroad Company, and members of various Brotherhoods and Manufacturers, Bankers, Merchants, Professional Men, Newspaper Publishers, and citizens in nearly every walk of life, all of whom contribute in General Civic Endeavor to the Upbuilding of the Community.

The recently organized Niles Voters' League also highly endorses C. S. Overcash.

All voters solicitous for the welfare and good government of our fast-growing county are respectfully requested to consider the splendid tribute C. S. Overcash has earned, and which comes to him from his fellow citizens at this time in recognition of his good work during the years he has served as a member of the Niles Police Department and more recently as Deputy Sheriff, prior to the September 9th election.

J. Ogden Wells Home in St. Joe Is Burglarized

The home of Mrs. J. Ogden Wells, widow of the late Twin City financier, 613 Lake Boulevard, St. Joseph, was entered some time last week during the absence of its mistress and ransacked from cellar to garret by burglars, who took many valuables, the value of which is as yet unknown. Most of the furnishings had been shipped east to Mrs. Wells' new home the first of last week. Evidence of the burglary was discovered Friday afternoon, when a gardener found a basement window broken. The furnishings left in the home were found scattered thru the rooms and burned matches were strewn over the floors. A number of valuable guns, fishing tackle, linens, silver and china were not taken.

DROUTH SINCE JULY 15 CUTS MICHIGAN CROPS

SUGAR BEETS SUFFER LEAST OF LATE CROPS; POTATO CROP SHORT.

A period of heat and drouth, the severest since July, 1916, began to seriously affect crop prospects shortly after July 15 although there had been a considerable shortage of moisture since early summer over much of the lower peninsula. There were nine days during the month with temperatures of 90 degrees or above, all but one of which occurred during the last half. The high temperatures were accompanied by more than the usual amount of wind which increased the burning effect upon growing crops, pastures, and new seedlings. Within that two weeks, the corn crop was shortened by more than 5,500,000 bushels, the bean crop by more than 1,600,000 bushels, the potato crop by more than 3,000,000 bushels, and other growing crops by lesser amounts.

Wheat and rye are returning better yields than anticipated, that of wheat being exceeded only by the record yield of 24 bushels made in 1924. The yield of rye is the best since that of 1914. The quality of these grains is excellent except that some fields of wheat contain an unusually large amount of smut. The nation's crop of winter wheat is 20 million bushels larger than last year's and the spring wheat production promises to be about one million less. The rye crop of the entire country is estimated at approximately six million bushels more than the 1929 crop.

Oats and barley are yielding up to earlier estimates and somewhat above, the ten-year average. Threshing is in progress and a considerable portion of these crops have had no rain upon them since harvesting. As a result, the quality is excellent in color and will show a rather high average test weight. For the country as a whole, the estimated production of oats exceeds that of last year by 83 million bushels and of barley by approximately three millions.

The state's bean crop suffered severely from extreme heat accompanied by a lack of moisture. The early plantings began to bloom about the time the hot weather set in and continued throughout most of the hot period. As a result, the bloom mostly blasted and only a light scattering set of poorly filled pods was obtained.

"Christ Jesus" was the subject of the Lesson-Sermon in all Christian Science Churches Sunday, Aug. 31.

Among the citations which comprised the lesson-sermon, was the following from the Bible: "Then said Jesus unto them again, Verily, verily, I say unto you, I am the door of the sheep." (John 10:7).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine Principle, which would cast out error and heal both the sick and the sinning." (p. 136).

NO MEDICINE IN THE WORLD LIKE KONJOLA

SAYS STEAMBOAT CAPTAIN, SS, WHO FINDS HEALTH IN MODERN COMPOUND.

CAPT. A. P. GALLINO
"To me there is no medicine in the world like Konjola," said Captain A. P. Gallino, 1147 Wisconsin Street, Detroit. "I harbored various ills in my system for years before I found the right medicine. My digestion was poor and I gained little strength from what I ate. Bloating pains and severe headaches were the penalty I invariably paid for eating. I am 53 years of age and I felt my health failing rapidly.
"I had little hope that Konjola would help but this medicine gave me the surprise of my life. While on the second bottle my digestion began to improve and headaches disappeared. After that, improvement came rapidly until today, after taking six bottles, it seems difficult to believe that I was ever ill. Thanks to Konjola, I am still on the active list as the captain of a Great Lakes Steamboat."
There is nothing exceptional in the case of Captain Gallino. Konjola often appears at its best in ailments of the aged. It is all pure medicine and every drop works.
Konjola is sold in Buchanan Michigan, at W. M. Brodick's drug store, and by all the best druggists in all towns throughout this entire section.

Sunday School at 10:00.
Sermon, "Let Us Build," 11:00.
The four Leagues meet at 7:00.
Prayer meeting Thursday, 8:00.
The Sunday evening service will be of unusual character. We are to have some camp meeting schisms. There were so many good things there that will be of interest to those who did not have the privilege of attending that we thought it might be well to pass some of them on to them.

People are now home from their vacation and they will want to get back into the church services. If you are a stranger in town we want to meet you, and you will want a place to worship. We are always pleased to welcome newcomers and we hope you will feel at home among us.

We hope that all good people will make an effort to go to the polls Monday morning. Those who will not vote should be satisfied with those who are elected to office. Church people have a responsibility to meet along this line. We are glad to report that some of our sick are on the road to recovery, and we hope they will soon be among us again. You are cordially invited to our church services.

First Presbyterian Church
Harry W. Stayer, Minister
Church School, 10 a. m. Mrs. Glenn Smith, Supt.

Morning worship, 11 a. m. The pastor, who has returned from vacation, will preach. The subject of the sermon is: "Christ's Word About Human Values."

Evening service at 7:30 p. m. Subject, "Jacob's Dream."

Monday, Sept. 8. The fall meeting of Kalamazoo Presbytery will be held, commencing at 7:30 p. m. This service is a popular meeting to which members of the church and people of the community are welcome. The business sessions will be conducted on Tuesday.

Friday, Sept. 5th. Reception to teachers and students who will

leave for college. The hour is 7:45 p. m. All members of the church are urged to be present also.

SPIRITUALIST SOCIETY

The recently organized Buchanan Spiritualist society will hold its first public meeting next Tuesday evening when a message circle will be held in the home of Wilson S. McLeod, 209 Main Street at the corner of Third.

The meeting will open promptly at 7:30 and a good medium will be present to give everyone present a message.

The fence at the time completed encircled the burial lot, but has disappeared with the exception of a seven foot section, of which three and a half feet are imbedded in the tree. Information about the tree was sent to Ripley by Lee Babcock of Niles.

Arco Electrical

Corp. Moves From Chicago to Niles

The Arco Electrical Corporation started this week to transfer its factory equipment from Chicago to Niles, where it has purchased the old Towar Cotton Mills building, and will begin manufacturing there as soon as machinery can be installed. It is estimated that three weeks will be required to get established in the new location and that the factory will then begin with 50 men and 60 women employed. A fleet of fifteen trucks carried the plant equipment from Chicago Sunday. The Arco company is to receive title to its building after a period of years if its payroll has reached \$300,000. meantime paying all taxes, insurance assessments and upkeep. The Chamber of Commerce purchased the property for \$5,000 cash down

and \$52,000 in payments. The Corporation retains its general executive officers at Fort Wayne.

Five Murders! Eight Suicides!

Thirteen deaths from natural causes, without any doctors attending before death, and

Seventeen accidental deaths, in the south half of Berrien County in the past eighteen months.

Only thirteen of these forty-three cases received any attention from either of our present coroners.

This office has not been held in the south end of the county in the past ten years.

There are two coroners in Berrien Co. Vote for one north end man and vote for RUTHERFORD, the only REPUBLICAN candidate from the south end.

Endorsed by all the leading doctors and funeral directors of Berrien Co.

"HE ALWAYS GETS HIS MAN"

What the People Thought About Bridgman When He Was Sheriff!

GEORGE C. BRIDGMAN

The News-Palladium of July 28, 1923, in an editorial, says:

"WHEN THE MOB GATHERS"

"Sheriff George C. Bridgman has earned the congratulations of Berrien County's law-abiding citizenship for the service he rendered Thursday evening when he thwarted a mob, which, had the sheriff been a weaker man, would, in all probability, have stormed the jail and obtained the prisoners sought. Had the sheriff weakened in an hour when moral strength and courage were most needed, Berrien's good name might have been stained by a lynching."

"The sheriff did his duty. For that Berrien is thankful. The fair name of the south is discolored because sheriffs have weakened when mobs clamored for their prey. Mr. Bridgman, in this instance, did no more than what a good sheriff would do, but he did it so well and so effectively, and withal so simply—and without the shedding of any blood—that he is entitled to the thanks of the county. In this particular episode, Berrien's sheriff has rendered splendid service in behalf of law enforcement. It has demonstrated to the baser elements of the community that the law is not to be challenged; that those who would flaunt legal authority and the courts will feel the strong right arm of the state, and that, if necessary, force will be met with force." "Thanks to the courage of the sheriff Berrien county was not eternally disgraced by a brutal lynching."

"But let it be understood—without any doubt or skepticism—that whoever attempts to raid the county jail does so at the peril of his life." "There is no compromise with this sort of thing—there can be none. It must be met sternly. Whenever and wherever anarchy in any of its hideous forms raises its snake-like head, it must be crushed or it in turn will crucify those for whose blood it thirsts. No matter what the cost, let there be but one answer for those who flaunt the law and who defy the orderly processes of the courts. Anything less, even the smallest bit of temporizing, will cost dearly. So, Mr. Sheriff, more power to you. Berrien's better citizens stand by you—will be by your side, if necessary, in any crisis where the issue is Mob Rule vs. Law and Order."

The Detroit Sunday Times of October 14, 1923, says:

"George Bridgman is a real sheriff!" "That's what the folks of Berrien County are saying and they point to his latest exploit—the solution of the Gerling murder—as proof to the outside world of something they have known all along." "I am going to clean up the Gerling case one of these days," Bridgman remarked on several occasions to this reporter, who was in Berrien County during the House of David investigation. But he never revealed the reason for his confidence save that it was the only murder ever committed since he took office that remained unsolved, and he wanted to clean the slate."

"For more than two years the sheriff had a deputy attend every auction sale of farm tools in the county and buy up all sledge hammers." "Just the other day the deputy brought the hammer his chief had been waiting for. It perfectly matched and fitted the plaster cast. The stepson of the farmer to whom the implement had belonged was arrested. He confessed, implicating his three confederates."

"That is the sort of detective work one reads about in Conan Doyle and Poe, but seldom encounters in life."

"With the shrewdness of the born detective, Sheriff Bridgman combines a degree of personal courage that stamps him, his fellow citizens of Berrien point out, as an ideal officer of the law."

"THWARTS MOB"

"It was only a few weeks ago that an enraged mob of 1,000 men clamored at the doors of the county jail here for two negroes, who had attacked a white woman. Bridgman and one deputy were alone at the time. The sheriff went out on the front steps and faced the mob. 'We want those prisoners, George,' announced the leader. 'Better give us the keys. We don't want to hurt you.' 'Don't mind me, boys,' the sheriff answered. 'I won't get hurt but the first one of you that makes a move toward this door is going to get hurt pretty damned bad.'"

"Bridgman grinned, but there was a business-like look about the way his hand rested on his pistol holster. There was some more argument, but the mob dispersed. There was no lynching in Berrien county."

"Then there was the case of Tom Badger. Badger killed a potato dealer for the sake of a few dollars. He fled to Indiana, where, after many months Bridgman found him and brought him back. After he was tried and convicted, he was held here in jail for a while in hope that he might disclose who had been with him." "One night Bridgman had Badger brought into a room on the top floor of the jail to question him about this. They were alone. The sheriff's back was to Badger for a moment. A hatchet lay on the table in the room. Bridgman turned around just in time to grab Badger's arm as it was descending with the hatchet aimed at the sheriff's head." "Nearly got me that time, didn't you, Tom?" The sheriff grinned. If he ever felt any personal grudge he succeeded, in concealing it. This lack of personal animus against the enemies of society with whom he has to cope is one of Bridgman's most striking characteristics."

"St. Joseph and Benton Harbor, especially in summer, are infested with criminals from nearby Chicago, and Berrien's sheriff has been responsible for jailing many of them."

The Port Huron Times Herald of Saturday, July 28, 1923, in an editorial, says:

"Our hat is off to Sheriff Bridgman of St. Joseph, Michigan."

"They have the proper conception of their plain duty as public officials something which seems to be so sadly lacking in so many instances."

"A white girl was attacked Sunday night and two negroes were placed under arrest and confined to the jail."

"Thursday night a mob of several hundred surrounded that structure obviously bent on a lynching party."

"What do you want?" asked the sheriff of the crowd.

"We want the niggers," was the reply.

"Boys," replied the sheriff, "if you try to get these prisoners somebody is going to get hurt."

"One man, bolder than the rest, crossed the 'deadline' marked out by the sheriff and was promptly put in a cell."

"He appeared yesterday with a badly swollen jaw."

"But the point of all this is that here is a public official who puts the law above everything."

"St. Joe has been saved from disgrace and shame, saved from the small minority who would have taken the law into their own hands."

"But the law is the law, for white or black alike."

"Let reverence for the law," said Abraham Lincoln, "become the political religion for the nation."

"Thank God for public officials who hold to this faith."

"Sheriff Bridgman deserves the thanks of the people of this entire state, as well as his home county."

Will the voters of Berrien County be unappreciative of such signal service when they cast their ballot next Tuesday, Sept. 9th?

By his deeds shall ye judge him!

On your honest judgment of his qualifications to fill the office of Sheriff, he earnestly solicits your vote.
