

AMENDMENT THREATENS CO.

Gore Urges Republicans to Forget Rivalries of Primaries Nov. 1

BERRIEN MAY LOSE HALF OF LEGISLATORS

Now Here's the Proposition

A Year From Now... A year from now we'll all look back and wonder how things looked so black and what it was that got our goat.

MAKES PLEA FOR SUPPORT OF C. MILLER

Challenges Promise of Comstock to Reduce Taxes 50 Per Cent.

LANDSMAN IS CHAIRMAN Local Meeting Pronounced Largest G. O. P. Rally In County to Date.

Attorney Charles W. Gore of Benton Harbor spoke Tuesday evening before a meeting which filled the Legion hall nearly to capacity on the issues to be decided at the election of next Tuesday, making a special plea for unity in support of the candidates for governor and county sheriff.

Atty. Gore introduced the following candidates: George Sattler, drain commissioner; Jesse Boyle, state representative; Wilbur Cunningham, county prosecuting attorney; Ben Bittner, county clerk; Don Pears, register of deeds; Kitty Handy Fuller, treasurer; Chas. L. Miller, sheriff; T. J. Hammond, court commissioner.

Atty Phil Landsman of Buchanan presided very capably as local chairman, introducing the county chairman, Stanley Banyon and dismissing the meeting.

FIRE DAMAGES DEWEY AVENUE SCHOOL BLDG.

FLAMES START IN BASEMENT AND FOLLOW STAIRWAY INTO UPPER HALLS

The interior and halls of the Dewey Avenue school building were badly damaged by flames which started in the lower hall near the stairway shortly before seven o'clock last night and which followed up the stairway and burned through both upper and lower halls and in the two east rooms.

The greatest damage was done in the two rooms in the lean-to building, in which the second and third grades taught by Mrs. Wilcox and Mrs. Rischnar are held. The two upper rooms were also badly damaged by flames and heat, which blistered the walls and desks. The lower north room in the main structure in which the grade taught by Miss Vandenberg met suffered little damage. Board members stated this morning that the loss is fully covered by insurance. There was no known cause of the fire and at the present time the authorities have no theory as to its origin.

Rev. Staver Talks Before Monday Club

Rev. Staver gave an interesting talk before the Monday club at its session this week, taking as his theme the compilation of poems by Thomas Curtis Clark entitled "Poems of Justice" and covering the utterances of modern poets on social justice. The book is divided into four parts, "Panorama of the Poor," "March of Revolt," "Brethren All" and "Dreams and Goals."

Two vocal selections were sung and Mrs. Jennie Burbank read "Grandmother's Garden." The meeting was held at the home of Mrs. Stagnoson, Mrs. A. H. Berry assisting.

The senior League of the Methodist church gave a Halloween masquerade party on Wednesday evening at the church. The Junior League will give a similar party at the same place this evening.

GALIEN COMPLETING RECORD BEET HARVEST

SCHOOL FAIR DRAWS LARGE ATTENDANCE

Hon. John Ketcham and E. E. Gallup Give Eloquent Addresses at Banquet.

147 SEATED AT TABLES Instructor Knoblauch States Fair Will Be Held Two Days Next Year.

The first Berrien County Agricultural Fair to be held under the auspices of the Agricultural club of the Smith-Hughes Department of the local high school was completed with signal success in the gymnasium Friday, the doors being opened to the public at 10 a. m., and closing at the termination of the banquet in the evening.

At the evening banquet, 147 guests were seated at a delicious spread, the materials of which were donated by parents of students and prepared and served very capably by the students of the Home Economics department under the direction of Miss Tina Skeels.

Following the banquet a program was given of which the features were addresses by Congressman Ketcham and E. E. Gallup, state superintendent of vocational education.

Congressman Ketcham complimented the students highly on their achievements in staging the fair, stating the greatest value of education came not from the things learned as in the character acquired by carrying projects to a successful conclusion. He stated that they were fortunate in living in Berrien county, which is not excelled by any county in the United States in the quality and diversity of agricultural products.

Supt. Gallup spoke on the theme "Fifty Years of Agriculture," and commented on the superior efficiency of the present day farmer and his greater production capacity as compared with the pioneer farmer of America. This increased efficiency will reach a point in ten years where ten per cent of the population will feed the other nine tenths fifty years from now, Gallup stated.

The orchestra, directed by Ralph Robinson, rendered several selections, including the new high school march, which were well received. Arthur Knoblauch acted as the chairman of the meeting and presented the silver cups and other awards to the prize winners.

Awards were as follows: Corn: 1st and 3rd, Lyle Caldwell; Three Oaks; 2nd, Arthur Knoblauch; 4th, Richard Koenigschok.

Potatoes: 1st and 3rd, A. Marshall; Three Oaks; 2nd, Howard Currier, Buchanan; 4th, Frances Wright.

Apples: 1st, Joe Heim; 2nd, Clenn Sult; 3rd, V. Stover, Berrien Springs.

Smith-Hughes Project Work: Corn: 1st, Lewis, Three Oaks; 2nd, Edith, 4th, Jean Russell.

Maple Grove Willing Workers, south of Eau Claire, silver cup. Prizes, Sports, other Monstrosities: 1st, Lyle Buchanan, freak potato.

Vegetable Class: 2nd, Chandoos Jackson, head cabbage.

Rural School: 1st, Millburg, Ruth M. Lotka; 2nd, Grace M. Letcher, Miller District No. 2.

Grade School: 1st, Mrs. Mae Whitman, History exhibit; 2nd, Mrs. Leah Weaver, Arithmetic exhibit.

THOS. PAYNE PRODUCES 21 TONS PER A.

Receives \$157.50 Per Acre Returns; Leonard Babcock Second.

DUE TO CROP ROTATION

The Galien district is completing this week the harvest of the best crop on record here, with a crop average higher than ever before and with individual yields which establish a record here.

The best average in the district was that of Thomas Payne, who delivers at the Avery Dump east of Galien, with 21 tons per acre on a field of 7.7 acres. The second high yield was on the farm of Leonard Babcock of Galien, with an average of 20 tons on 5 acres.

At the price of \$7.50 per ton paid this year by the Holland-St. Louis Sugar Company, Thomas Payne was paid returns of \$157.50 per acre for his beet crop, with the added advantage of free seed.

Field Superintendent Warren Hagley stated that Payne's success was due to the fact that he raised a uniform average of beets yearly, usually from 7 to 10 acres, which he worked in with a well-planned rotation of crops, comprising small grains, alfalfa and beets. In following this plan he has been uniformly successful in securing satisfactory yields of beets each year.

The greater part of the beet crop to date is piled on the ground at the various dumps, in the neighborhood of 1,000 tons of beets being piled at the Galien dump and about 900 tons at the Glendora dump.

Dancing School Will Open Soon In Buchanan

The Mary Grace Mohn School of Dancing located in South Bend will open a studio of dancing in Buchanan in the near future.

Mary Grace Mohn, premier dancer and distinguished teacher of character dancing is well known to Buchanan audiences for she has graciously consented, on several occasions, to dance on benefit programs sponsored by the college club and the Parent-Teachers Association for scholarship funds.

The branch studio will be in charge of specially trained assistants, who under the direct supervision of Miss Mohn will teach ballet, toe, tap, acrobatic and ball room dancing as well as various forms of character work, thus making it possible for a greater number of children to take advantage of a splendid training in the oldest and finest of all arts. A local studio will not only eliminate the necessity of children going out of town for lessons but it will provide the same training for beginners at a lower rate per lesson.

Dancing has become an essential in child education. The modern parent realizes that it develops both mind and body and through the marvelous coordination results in health and grace so invaluable to young and old. It is a well known fact that the family physician often prescribes "dancing lessons" for the undeveloped child because the exercise excels all others as a body builder, and gives the same prescription to the child or adult who is over weight to turn excess fat into muscular strength that results in the slyph-like figure so necessary for adolescent and adult of today.

Dancing has become one of the most popular forms of entertainment on school and club programs. Ball room dancing for young people's parties is by far the most enjoyable and safe amusement under proper supervision.

Mr. and Mrs. Glenn Merrellfield attended the Elks dance at South Bend, Wednesday evening.

Dewey School Pupils Will Meet at H. S. Auditorium Mon.

All pupils who regularly attended the Dewey School will meet at the high school auditorium, Monday morning at 9 o'clock, according to instructions issued by Superintendent of Schools, H. A. Stark. Assignment of locations, where each room will continue its work until repairs have been completed on the Dewey School building, will be made at that time.

SPONSOR BALL FOR CHARITY SATURDAY EVE

House of David 5 to Provide Music at Clark Theater 9 p. m. to 12:30 a. m.

CARDS ALSO FEATURE

A charity dance will be given at the Clark theatre Saturday night, with the famous House of David five providing the music, according to Miss Doris Peck, who is in charge of the general arrangements.

Tickets are being sold by solicitors and by several business houses at \$1.50 each, the net proceeds of the dance going to the United Charities fund. Cards will also be played. The affair will begin at 9 p. m. and close at 12:30 a. m. The following committees were appointed by Miss Peck: ticket sale, Mary Karling, John Strayer; refreshments, Mrs. Lester Lyons, Mrs. Glenn Smith, entertainment, Philip Hanlin; finance, Charles Landis; card tables, Mrs. Jack Bishop, Mrs. Maude Peck.

The following special numbers have been arranged by Mrs. Kelly: Swan Dance, Peggy Merrellfield and Teresa White.

Chardas dance, Eleanor Miller, Cherry Heim, Una Kelly. Toe Dance, Teresa White.

Mrs. Gaylord Marsh Is Called by Death In Nova Scotia, Can.

Mrs. O. G. Marsh, formerly Doris Swem of Galien and a teacher in the Berrien county schools, passed away Thursday at Sydney, Nova Scotia, where her husband is U. S. consul, according to word received by Mrs. Hulda Marsh of Berrien Springs. The family had been living at Sydney for the past three years. Mr. and Mrs. Marsh had previously spent several years in government educational work in the Philippines.

Mahala Trimble Expired Saturday at Home of Son

Mrs. Mahala Trimble, 68, died in the home of her son, W. E. Trimble, 2 1/4 miles northwest of Buchanan, Friday afternoon at 1:30 o'clock, following a stroke of apoplexy.

She was born in Drake county, O., on Sept. 18, 1862, the daughter of Henry and Mary Stiles.

December 21, 1882, she was married to Rollin J. Trimble, who died Nov. 8, 1918. In addition to the son, she is survived by three and four sisters as follows: William Stiles, James Stiles, Mrs. Isaac Brown, and Mrs. Ella Moist, all of Greenville, O.; Mrs. Jesse Weaver and Andrew Stiles of Niles and Mrs. Isaac Weaver of Berrien Springs, also four grandchildren.

Funeral services were held in the former residence, Sunday afternoon at 2 o'clock. Burial was made in Silver Brook cemetery, Niles.

Mr. and Mrs. Harold Desenberg and Miss Johanna Desenberg of Detroit and Miss Bertha Desenberg of Ann Arbor, will spend this week end with their parents, Mr. and Mrs. Sig Desenberg.

ANNOUNCEMENT

Arthur E. Price of Danville, Ill., has acquired a substantial interest in the Record Printing Company, publishers of the Berrien County Record and in the near future will assume the management of the Record. The former owner, Harry L. Hayden, will retire from active participation in the business.

Mr. Price is advertising manager of the Danville Commercial-News, one of the leading daily newspapers of Illinois, a position he has held for the past eight years. He is well acquainted in Michigan, having been associated with newspapers and printing plants in Detroit, Grand Rapids, Alma, Greenville, Big Rapids and Hillsdale. Mr. Price has also had extensive experience in advertising and commercial printing, having been associated with large job plants in Minneapolis and Milwaukee. In his newspaper experience he has specialized on community merchandising and will be a valuable addition to the business life of Buchanan, in this respect.

Mr. Price's unusually versatile experience in all phases of the publishing business is a guarantee to the people of Buchanan that a publication representative of the best newspaper ethics will be printed here.

HARRY L. HAYDEN.

ACCESS TO REAR BUSINESS HOUSES CLOSED BY FENCE

PROPERTY OWNERS ASSERT FIRE PROTECTION IS OUT OFF BY CLOSING.

Access to the vacant space in the rear of the business houses on Main and Front Streets which has been reached by the alley between the Russell Chevrolet Sales and the Johnston Furniture Store was closed Monday by the construction of a fence by James McCaghie, who owned the ground at the alley approach, in connection with the lots which he purchased from the city for a laundry site two years ago.

Commercial-News Pays Tribute to Arthur E. Price

The following article appeared in a recent issue of the Commercial-News of Danville, Ill.:

Arthur E. Price, advertising manager of The Commercial-News is severing his connection with "The Paper That Does Things" to become publisher of the Record, a newspaper at Buchanan, Mich. Mr. Price is acquiring a substantial interest in the company and will become its general manager.

Mr. Price has been with The Commercial-News for more than eight years. He has been associated with newspaper work, printing and advertising for more than twenty-one years, spending a number of years in Michigan and has a wide acquaintance among newspaper and advertising men of that state.

By virtue of his previous broad experience in the cities of Detroit, Grand Rapids, Mich., Minneapolis, Minn., and Milwaukee, Wis., he brought to Danville business a highly specialized type of advertising service. He has received national publicity on a number of advertising campaigns created while on this newspaper. He was instrumental in forming an advertising club in Danville and served as its first president. He conducted an advertising class in the Y. M. C. A. schools and has contributed a number of articles on advertising to national magazines.

The newspaper which Mr. Price is purchasing is one of the oldest and best equipped newspaper and commercial printing plants in southern Michigan, being established in 1867.

Campbell Patents are Purchased by Studebaker Corp.

The patents and blue prints of the Campbell Transmission Company were sold by the directors of the stockholders' receivership to the Studebaker Corporation of South Bend, the transaction involving the foreign rights owned by Lyman Campbell.

Fifteen devices were listed among the patents sold, including an automatic transmission, a gearless transmission, an overrunning clutch, a shifting device.

To Make Tour With Minister's Quartet

Rev. Hayes will accompany the Kalamazoo District Minister's Quartet next week on a tour of the state in company with the speakers holding the Evangelical Prayer Conferences. Their schedule will be as follows: Tuesday, (St.) Joseph; Wednesday, Grand Rapids; Thursday, Kalamazoo; Friday, Jackson.

Reapportionment would Place Detroit in Practical Control of Assembly.

WOULD MEAN TAX SHIFT

City would Capture Taxmaking Bodies of State Government.

Berrien County, in common with all other counties of Michigan exclusive of the larger municipalities, stands to lose by the passage of the constitutional amendment providing for reapportionment of representatives and senators in the state assembly, according to Editor Stanley Banyon of "Benton Harbor," who addressed audiences in Galesburg and Buchanan Monday and Tuesday evenings in the course of a swing around the county with the Republican political candidates.

Passage of the amendment with its accompanying provision for one representative for each 45,000 inhabitants would in all probability deprive the county of one of its representatives, limiting it to one instead of the two returned now, the other seat passing to Wayne county.

If the amendment is passed, the representation of Wayne county which is practically identical with Detroit, will be increased from 11 to 39, representing approximately 40 per cent of the total membership of 100 which the amendment contemplates. With a delegation of 39 voting as a unit in all matters affecting the interests of Detroit it would be easy to acquire sufficient additional votes, so that the largest municipality of the state would become practically a dictating minority.

If Detroit attains that position, the next step will be a move to shoulder the burden of taxation as far as possible from city to rural sections, thus remedying the complaint of Detroit that at the present time the city pays 65 per cent of the state taxes.

Marvin Gross is Awarded 1st Prize In Nat. Contest

Word has just been received here by officers of the local Women's Christian Temperance Union to the effect that the first prize of \$15 offered for the best essay submitted in the national essay contest held in the past year under the auspices of the organization has been awarded to Marvin Gross of Buchanan for his essay on "How Total Abstinence from Alcohol and Tobacco Helps to Keep Physically Strong, Mentally Awake, and Morally Straight."

Arrested Here on Statutory Charge

Earl Allen of Big Rapids was placed under arrest by Chief Mitchell Tuesday on complaint from his home city that he is charged with rape committed there.

Auxiliary to Give Potluck on Armistice Night

The American Legion Auxiliary will entertain at a pot luck dinner at the Legion Hall on the evening of Nov. 11, beginning at 6:30 p. m. The Auxiliary will furnish the meat, potatoes, and coffee and the remainder will be furnished in potluck style. All veterans of the Civil, Spanish-American and World Wars and of the Auxiliary orders and their families are cordially invited to be present.

Plans Made for Charity Supper at Presbyterian Church.

All plans are completed for the supper to be given at the Presbyterian church, Nov. 4th. The entire proceeds from the supper will be given to the United Charities Association of Buchanan. Any one desiring to give donations of either canned peas, lettuce or chickens kindly phone Mrs. H. B. Brown, phone 421.

NAME P.T.A. COMMITTEES FOR THE YEAR

Mrs. L. G. Fitch and Rev. Rice Give Talks on Religious Themes.

Appointment of committees for the year's work was the chief business of the Parent-Teachers Association at the regular October meeting held in the high school Monday evening, the president, Mrs. C. D. Arnold, naming the following:

Program: Mrs. James Semple, Miss Lily Abell, Mrs. Velma Dunbar, Mrs. Riley Zerbe, Miss Shriver.

Membership: Mrs. M. H. McKinnon, Mrs. Laura French, Mrs. Lester Lyons, Mrs. M. Gross, Mrs. Ralph DeNardo.

Publicity: Mrs. Leah Weaver, Miss Helen Hanlin.

Finance: Mrs. E. C. Pascoe, Mrs. J. S. Strayer, Ray Miller, Mr. and Mrs. R. S. Russell.

Special Committee for Group Work: Mrs. E. C. Mogford, Mrs. Reba Lamb, Mrs. O. L. Donley, Supt. Stark.

Relief Fund committee: Mrs. Reba Lamb, Mrs. Carl Hamilton, Mrs. Paul Wynn, Miss Lily Abell.

The program consisted of two excellent talks by Mrs. L. G. Fitch on "A Young Mother Considers Religion" and by Rev. Rice on "Religious Motives." Mrs. Tom Burk and Mrs. Oscar Swartz formed the hospitality committee for the evening, and Mrs. James Semple was in charge of the program.

Orioles Play Scoreless Tie with Watervliet Sun.

The Buchanan Orioles and the Watervliet Independents played a scoreless tie at the Charity benefit game here Sunday, a fair crowd witnessing the contest, which was one of the best seen here this year.

The star for the visitors was Costello, who played on the University of Wisconsin B team last year. Stars for Buchanan were halfback, Fleming, and the two tackles, Gregory and Fitzsimmons. The contest was as even as the score indicated, neither team getting within 20 yards of its opponent's goal line.

I. O. O. F. to Hold Halloween Dance Friday Evening

The Odd Fellows will hold a Halloween masquerade ball at the hall Friday evening. Harris Simpson and Charles Ellis are the committee in charge.

# News From Galien and Vicinity

## WHITE TALKS AT GALIEN G. O. P. RALLY

Appeals to Republican Voters to Support Primaries and Ticket.

### SIXTY ATTEND MEETING

Tribute is Paid to Charles Clark, Veteran Galien Republican.

Atty. Stewart White of Niles was the principal speaker at a rally held Monday evening in the Town Hall at Galien, making a stirring appeal for party unity at the coming election and for the reconciliation of any disaffections within party ranks which were created by the intense rivalries of the primaries.

It is the intention of the state primary law that full liberty and opportunity thereby be provided for all who have aspirations for office. White stated, and both good politics and good taste require that when a ticket is so selected, all elements of party unite behind the majority choice.

The Niles attorney stated that in the primary he had supported the Niles candidate for sheriff and other offices as a matter of civic loyalty and to support the ticket selected.

"I am certain that in the event Charles Miller is elected, the speaker stated, "Berrien county will have the best law enforcement administration in its history. In the primary we were all designated as 'Hall men' or 'Bridgman men' or 'Overcash men', but now we should all be loyal 'Miller men'."

White concluded by introducing a number of the Republicans present and also paid a warm tribute to the local chairman, Charles Clark.

In the neighborhood of sixty attended the meeting.

### Galien Students

Vaccinated With Diphtheria Serum

Dr. Cory vaccinated most of the pupils in the Galien school on Monday and Tuesday with a serum treatment to guard against diphtheria. The pupils in the rural schools will also be given the treatment which is being sponsored by the Parent-Teacher Association.

### Spare Hungarian Pheasant, Pleads Game Department

With the open pheasant season which started Saturday, Oct. 25, and the fields of southern Michigan filled with thousands of hunters, the Conservation Department is making an appeal for the Hungarian partridge.

Although the "Hunkie" is now fairly common in Lenawee and occurs in Shiawassee and Monroe and a few other counties along the southern border of the state, no open season has been allowed for hunting this new game bird.

"Give the bird a chance," says the department. "He may become an important game bird in Michigan if unmolested now and given a chance to increase and become established in other areas."

"Of course there is not enough similarity between the pheasant and the Hungarian partridge to justify mistaking one bird for the other, but to some hunters the temptation to shoot at anything that stirs is sometimes difficult to resist."

The large numbers of Hungarian partridge in Lenawee county is the increase from birds which have drifted into Michigan from Ohio during the past 15 years and become established there. The Shiawassee county birds are from a private planting made two years ago and the 84 birds liberated last spring by the state in co-operation with the Shiawassee County Conservation association. In a few other parts of the state Hungarians are present as a result of

The "Hunkie" is usually found in open farm lands and is partial to corn fields and stubble fields. He is about half way in size between a Ruffed Grouse and a Bob-white. He has a stout grayish body and a short reddish tail. The male bird is quite easily identified by the large patch of dark brown feathers on its breast. His flight is swift and usually direct, the hurried wing-beats often followed by a gliding flight as he goes into a neighboring field. The call of the bird is a harsh, rasping note very unlike the soft call of our native quail.

Surveyor—James Hampton

Republicans,

The Hour Has Struck to Stand By!

Next Tuesday, Nov. 4, Berrien County voters will go to the polls for the bi-annual general election.

State, congressional, legislative and county tickets are up for election.

From top to bottom—from Governor to Coroner—this year's Republican ticket is exceptionally strong.

For the most part, the ticket this year is made up of candidates who have already held office. They have been tried and tested. They have already demonstrated their fitness for office.

Republicans, next Tuesday's election is vitally important to the major interests of Republicanism in Berrien county, in Michigan and elsewhere in other states.

Victory on Nov. 4th carries with it the prestige that victory always carries. In this case Republican victory next Tuesday will have its effect on the Presidential election two years hence. It is vitally important therefore, that Republicans stand by their ticket next Tuesday and VOTE IT STRAIGHT!

This is an Hour for Republicans to Stand By!

The political opposition has for weeks turned its guns on the President of the United States—a Republican.

This opposition hopes, here and there, to elect a governor, a senator, a congressman or perhaps even some county candidate of their own.

It's the old story of political sniping-picking off an office here and there in the forlorn hope that in the aggregate the showing will be sufficiently impressive to lend political prestige for the Presidential campaign two years hence.

Republicans, this plan will only work if the opposition's appeal for split ballots prevails!

Will Republicans be a party to this sniping? Will Republicans, proud of Herbert Hoover, proud of his herculean efforts to keep the American ship of state on an even keel when the whole world is in the economic doldrums, be a party to this scheme to rebuke and embarrass the President of the United States and his administration?

Republicans, let's stand by! Let's vote it straight next Tuesday! Let's rebuke, not the President of the United States, not our fine and splendid state congressional and county tickets, but the opposition that has dared to advance an old and thread-bare political trick to detour Republican votes away from their own deserving ticket! Republicans, split ballots never made for Republican success.

Remember that next Tuesday!

BERRIEN COUNTY REPUBLICAN COMMITTEE.

Bristol visited Sunday with Mr. and Mrs. Homer Hummiston of Volinia, Cass county. Sample coats worth \$29.50 to \$35.00 for only \$22.45 at Livingston's, Niles. 431c. Mrs. J. A. Wise and Mrs. Condray of Valparaiso, Ind., were the Sunday guests of Mr. and Mrs. Crest Winters.

Michigan Harvests Fine Quality of Alfalfa Seed A record crop of certified Hardigan and Gamm alfalfa seed in Michigan this year promises to place this state among the first four states in the production of this important crop and the fine quality of the seed will add to Michigan's reputation as a source of dependable seeds, according to the farm crops department of Michigan State College. The estimate of the farm crops men places the production of certified alfalfa seed at 250,000 bushels in Michigan. This year's alfalfa yields from the certified seed will make the total harvest 750,000 bushels. The quality of the seed is said to be exceptionally good. Certified seed is that which is grown from seed of known variety and which meets certain requirements of quality and freedom from mixture with other varieties of alfalfa or of other species. This certification is made by the Michigan Crops Improvement Association, an organization of farmers who have been actively interested in maintaining Michigan's high position as a seed producing state. Huron, Tuscola, Saginaw, Cheboygan, Presque Isle, Alpena, Alcona, Montmorency and Midland counties have led in growing this crop in 1930. Several high yields of one ten and one-half bushels per acre, have been recorded.

Prof. Experiments On Intoxicating Quality of Beer These facts could probably be discovered by any layman at any speakeasy, but from two Northwestern University professors, motivated only by scientific curiosity.

### Borah Weakens

No recent criticism of the Volstead law and its operation has been more powerful than the declaration of U. S. Senator William E. Borah that he is willing to support any measure that will be more effective, a statement that appears in the current issue of The Christian Herald. It amounts to an admission that the results of the Volstead act have not been satisfactory. It is, in fact, a condemnation of the conditions that have resulted. Coming from a prohibition apostle like Borah, it is very nearly an admission that Volsteadism has failed.

One may like it or not, but there is a dramatic change of thought taking place among the American people on the subject of prohibition and the administration of dry laws. Conditions are unsatisfactory to some, appalling to others.

It is a great about-face movement. For years dry leaders have boldly and scornfully declared there would be no changes made in the dry laws. During the last year that unwillingness to consider a change has been giving way.

The influence of Borah in social and reform legislation in and out of the Senate is great. When he ceases to worship the Volstead law it will influence others to consider present day conditions with a view to improvement. One hears frequently the claim that the Volstead law has been tried and found wanting. All about there is evidence to support that claim. The statement of Senator Borah will lead others to reach that conclusion. What this country needs is less attempt at dogged fanatical domination and more of open minded study of measures a majority of the people will respect.

### A Census Controversy

On the basis of this year's census the states in the South and Middle West, will lose 50 members in the reapportionment of the House of Representatives while the industrial East and Pacific coast states will gain an equal number. Stated in another way the agricultural sections of the nation will lose what the cities will gain in representation.

In Capper's Magazine there is an article saying there may be a permanent coalition of the Middle West and South to maintain a better political balance. It is intimated these two sections may question the correctness of the census reports on the ground that aliens were included, when they should not have been counted for congressional apportionment. The suggestion is that the point may reach the courts for decision.

The director of the census must file his report with Congress within a week after the session is opened. If state legislatures fail to rearrange congressional districts before the election in 1932 states may be compelled to select their new congressmen at large. There is no way of compelling the House of Representatives to pass the reapportionment bill, but it would become automatically effective by election of members at large under the provisions of the census act. Even that plan might be upset if the courts hold aliens should not have been included in the reapportionment figures. That would cut down the size of delegations from the cities.

It is merely another instance of rural versus urban feelings. These differences are deepseated. They have always existed and apparently, always will.

### A Surprising Discovery

Congressman Fish, who has been investigating the dangers of communism in the United States, has made the surprising discovery that there is no immediate menace to the established government from that source. Of course there isn't. So long as the government understands its responsibilities, there never will be a menace. It is only under tyranny that men are pressed sufficiently hard to try the overthrow of a government. A satisfactory government need never fear the activities of the red fringe.

### A Debt to the Doctors

The courageous devotion of the medical fraternity to the highest ideals of public progress has become traditional. The list of names of physicians who have given their lives, both figuratively and literally, so that the science of life-saving may be advanced, is long. The news that Dr. Christian Deetjen must now lose his arm because of his experiments with the X-ray emphasizes again that the advance of civilization is costly to the individual. No better practical application of the Christian ideals of self-sacrifice for the betterment of mankind exists than that made by the physician. The world is indebted to the Deetjens, so deeply that it never can repay them.

### The Well Dressed Man.

With the coming of fall there appears even in the male of the species a desire to perk a little, where clothing is concerned, and from Fifth Ave., New York, style center of the United States, the dictum has come for this year's colors and cuts and combinations in men's clothing. It has not been so many years ago since man, in this part of the country at least, boasted as one of his evidences of independence that he was illly dressed and that his table manners were bad. No fancy stuff for him. No sir! He was democratic and one mark of democracy was the absence of fastidious airs. But times have

changed. The newspapers believe the subject is of sufficient interest to print style articles for men. And the style makers cater to man's vanity by telling him he is better dressed now than he ever was and if he will listen to them he will be even better dressed. The well dressed man has become a common sight even in the province and no more is he dubbed a flop if he sees fit to deck himself out in the latest fashions.

### Gold and Oil

Gold still has its lure for men, but its status in the past two or three centuries has changed. Other commodities have risen during that time until they are almost on a par with gold. In the days when America was young and Europe's fortune hunters came to these shores, they hunted only for gold. Many an expedition went home disappointed because it failed to find gold in the many rich lands along the Atlantic coast; others went home enriched because they found the precious stuff in the lands to the south, notably Mexico.

There was a peculiar twist in a recent news story that emphasizes the difference between that time and this. The item concerned the discovery of one of those mysterious lost cities that was rich in gold. A band of modern fortune hunters ferreted it out from the overgrowth of jungle and found it just as its last inhabitants had left it. They found its gold, too, but in the news item there occurred a sentence to this effect: Not only does the city retain its gold but there are evidences also of the existence of platinum and oil.

The adventurers of another day had not noticed the oil, but oil in this age exerts a more potent influence upon the destiny of nations than raw gold. The discovery of this ancient city noted for its yellow metal may be important more because it contains oil than gold.

### October.

October is a month of high color in garden, field and woods, the time when nature spreads her display on a 10-league canvas with never failing stroke and no mistake in shades. The chill winds bring the strong color note of autumn in the garden, the first touch of frost brings to the woods those wonderful and varied hues that mark the riot display in a state where bush and tree growth has such endless variety as in Ohio.

One may look forward to October each year with large expectations. That faithful old month never disappoints. Already the maples show signs of the coming changes. It is not long until the grim months of winter will rob the leaves of their beauty and strip the trees stark and bare. But just now, one may revel in the richness the approaching weeks will bring.

Colors of the spring contain the promise of growth, development and production. October colors have a ripeness about them that suggests completed effort and gratifying production.

One rejoices in association with the colors of early spring. Surrounded with fall shades one naturally grows contemplative. The end of the season of growth and production is near. We turn away from the food and habits of the summer months, we select something more substantial, more in keeping with the ripened completeness of nature all about us.

We love October for what it brings and what it means. We need its tonic beauty to prepare us for the stern tests winter will bring.

Whenever some cow town in the southwest wants to break into print and doesn't care to go to the trouble and expense of holding a lynching, it just figures out a bigger and more unbelievable horned toad lie.

That Columbia University professor who made the startling announcement some months ago that the feminine knee revealed character has been strangely silent since then, and we just wonder if he is going further with his research.

Another indication of the great wave of unrest that is sweeping this troubled old world from stem to stern is when the police have to be called out to restore order at a W. C. T. U. meeting.

A modern version of driving a camel thru the eye of a needle would be loading Paul Whiteman into a midget car.

We hope that before Queen Helen packs up and leaves Rumania for good that she goes out into the royal kitchen, selects a well seasoned 18-inch hickory rolling pin and attends to Carrol's coronation.

One of the crying present day needs is an automobile which drops a bouquet and a card of condolence after striking a pedestrian.

An optimist is a man who goes to an Earl Carroll show expecting to hear a joke he can repeat at a church banquet.

Women may object to the permanent degeneration play because it will prevent them from renewing their youth.

Since woman has invaded the political field, politics has made stranger bedfellows than ever, even.

The irreducible minimum is a high school junior's mustache.

The cool fall weather is a boon to the handkerchief industry.

As open to suspicion as a junk collector's scales.

# The Old Timer's Corner

## Holmes Distinguishes Between New and Old Drunken Drivers

Cedar Rapids, Ia.

Editor Record, "Here is a Proposition". We can hardly pick up a paper that we do not find an account of some one being arrested for driving an automobile while drunk. If he does not kill some one it is not his fault; he does his best.

We used to have a neighbor who came regularly to town on Saturdays, parked his team in the mill yard, did his trading, and such business as he had that needed attention, and then retired to Frank Molsberry's saloon and got into a silent state of drunkenness, and when he became thoroughly comatose, some friend would bring his team around, load him into the back of the wagon and start the team towards home. No driver, all in good shape and no harm done. His family would care for the team and remains.

Our Uncle Henry has not yet so perfected his "Hives" that it will handle its owner with such care, and that makes it necessary for means of safety, and I am wondering if a good healthy dose of "cat-o-nine-tails" would not be an appropriate remedy for the drunk taste, applied to every person caught trying to drive when drunk and double the dose every time it is repeated.

Another feature of current interest: When a man is in the army and gives aid to the enemy of the country he is called a traitor and the penalty is the firing squad. Some of our eminent men are telling us that we are at war with crime, and is the man who pretends to serve on our police or judiciary and takes share of the plunder of thieves whom he is supposed to punish, any less a traitor, and entitled to less severe punishment?

J. G. HOLMES.

### BUCHANAN 10 YEARS AGO

From Record of Oct. 29, 1920  
G. S. Easton, Editor  
Edgar Macey and Miss Frances Carlisle of Chicago spent the week end with Mr. and Mrs. Ashley Carlisle, Main Street.

Earl Waterman returned Wednesday evening after a two day stay in Chicago.

Clyde Treat and Virgil Schwartz left for California Thursday morning to be gone for an indefinite time.

A painter has been at work this week putting the finishing touches on the up town Western Union office in the shape of the customary window decorations.

Phil Landsman is still at the Clark hospital following his opera-

tion and will not be out and around for a week or ten days.

Edward Banke is confined to his home by illness.

A number of guests made up a jolly house party at the home of Mr. and Mrs. Charles Pears over the week end, staying over after the Legion dance. Among the number were, Mrs. Fannie Seven of South Bend; Mrs. Etta Hovey of Marietta, O.; Miss Helen Anderson of Chicago; Miss Lura Pears of Niles and Sidney Pearson of Evanston, Ill.

Clarence Coleman had the misfortune to shoot through his left hand Saturday noon while carrying his rifle. Dr. Bailey was called at once and the wound dressed.

Mrs. Charles Babcock has returned from Blaney, where she has been visiting several weeks.

Mrs. C. D. Arnold entertained the Clark Bridge Club Thursday afternoon in her home. Mrs. R. N. Snowden won the prize.

### BUCHANAN 40 YEARS AGO

From Issue Record, Oct. 30, 1890  
John G. Holmes, Editor  
Dr. Roe is in favor of a tariff for protection only, regardless of the revenue.

People who want cider bad enough to pay \$4 per barrel can have it in limited quantities this year.

Jacob and Evan Hartline dug 105 bushels of potatoes, picked them up and put them in a pit on John Babcock's place in nine hours and they think it was a good day's work.

Be sure the name of George W. Rough is on your ticket as candidate for representative to the legislature when you vote next Tuesday.

The new booths for the election arrived last Thursday. They will be placed in the Imhoff building for the election.

I. N. Batchelor lost \$90 out of the watch pocket of his pants on Tuesday. S. A. Wood and J. E. Barnes happened to be walking behind him and picked up the money from the sidewalk. After letting him worry a while, they gave it to him.

Some citizens of this place have been imagining they could see a large electric light that has been elevated above Chicago. Perhaps they can. Some people can look at the stars and imagine innumerable things.

Rough Bros. are building a large dry kiln of brick on the lot next north of the wagon works for the use of the wagon works and Kom-

pass, Stone & Stoll. It is to be heated by the Hyatt & Smith system of hot air blast, heated by blowing the air over a nest of coils of pipe, kept hot by the exhaust from the engine.

# MOVIES

READY THEATER  
Niles, Michigan

Those who say that there is nothing new in talking pictures should attend the Ready next Sunday and Monday, for King Vidor, the director of "The Big Parade" has made another big picture with an all star cast that includes John Mack Brown, Wallace Beery, Karl Dane and Kay Johnson. The title is "Billy, the Kid" and the production is based on the true story of the old lawless west's famous good bad man. It's a great Western epic. Also on Monday night those attending the nine o'clock show will see free Bebe Daniels, Wheeler and Woolsey in "Rio Rita." Tuesday and Wednesday brings the favorite of many, Al Jolson, in his latest picture, "Big Boy", a comedy drama of the race track filled with laughs, songs and thrills. On Thursday only, is an added attraction bill with two selected features. If you have never attended one of these do it for you sure will get your money's worth. The features are Jack Mulhall in "In the Next Room" and Lewis Stone in "Strictly Unconventional." Be sure that you keep your eye on the Ready for the greatest month

of consistently good pictures that any theater in this section has ever presented.

## Dairy Cows Provide Good Nearby Market

A market which at the present time will pay Michigan farmers \$25 a ton for legume hay, \$6 a ton for silage, and \$50 a ton for grain is provided by every dairy cow which is able to produce 350 lbs of butterfat per year, according to dairy specialists at Michigan State college.

The same cow will pay 70 cents an hour, in addition, for the time her owner spends in feeding and other care. The college dairymen estimate that it requires 170 hours of labor to care for the 350 pound cow during the year.

Good rations properly balanced will be required to permit the cow to pay such good prices for grain and labor. The college dairy specialists state that it is false economy to shorten or to fail to balance the good cow's ration. The normal requirements for such a cow will be one and one-half

## Sleep on Right Side, Best for Your Heart

If you toss in bed all night and can't sleep on right side, try simple glycerin, saline, etc. (Adlerika). Just ONE dose relieves stomach GAS pressing on heart so you sleep sound all night. Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisons you never knew were there. Relieves constipation in 2 hours! Let Adlerika cleanse your stomach and bowels and see how good you feel! W. N. Brod-rick, druggist.

News of Buchanan Schools

News of Student Life Gathered and Written by Upper Classmen of Buchanan High School

Buchanan Gridmen Lose to Niles 13-0 Saturday

CONTEST IS FOUGHT ON EVEN TERMS

A scrappy Buchanan football team went down to defeat at the hands of their old rivals, Niles, in their annual game at Flynn Park...

The fighting bucks were scored upon in the first quarter when Niles worked the ball down to the five yard mark on an exchange of punts...

DeWitt's blocked punt gave the locals a break when they recovered it on the Niles 27 yd. line. The enemy forwards held however, and the Bucks were unable to cross the last line...

Buchanan started passing in the third period, and had the home town boys guessing but could not make their downs. But they got another break when Finley tried to run back one of Lauren Morse's boots...

Every Buchanan player put up a good scrappy battle, and Niles has anything but the walk-away from that expected. Captain Dempsey played a whale of a game on the line, but had the help of seven other fighting Bucks...

The Bucks meet Otsego here on Saturday in their next-to-last home game. Otsego was beaten, 26 to 0, by Paw Paw, last Saturday, but should prove a good match for the Bucks.

Summary table listing players and their positions: Buchanan Niles, J. Letcher R. E. Prekert, P. Letcher R. T. Bachman, Hamilton R. G. Nough, Dempsey C. Lynd, Thompson L. G. Frucci, DeWitt L. T. Brucker, Drietzler L. E. Kiehn, Lou. Morse L. E. Finley, Lou. Morse R. H. Hansen, Imhoff L. H. Webber, Chubb F. B. Mattix

Velmarian Lit.

In Monthly Meet

The Velmarian Literary Society held their monthly meeting Friday, October 24. Roger Thompson was the acting chairman of the entertainment committee.

In addition to the above, each person upon answering to the roll called told his or her favorite Halloween joke.

SIDELINE ECHOES

Let's give 'em a big hand, folks. Buchanan had a real fighting ball team Saturday and they deserve plenty of credit for the game they played. And don't forget that Niles was supposed to beat them by about twenty-five points.

The Niles quarterback, known to his followers as "Slip" Finley, didn't get quite as wild as he was supposed to, although he did look pretty good when running back punts. After Thompson nailed him while the Niles boy was returning one of Morse's kicks, he dropped quite a few punts, but from the sideline it looked as though he was hit pretty hard. Or as Knute Rockne says, "Not rough, but very firm."

Dale Fox, Buchanan's speedy little halfback, nearly got away for a touchdown in the second quarter. One of Finley's passes sailed over in his direction and he managed to cut in front of the intended receiver, just before the ball reached its proposed destination. He was coming too fast, however, and the pass being low saved the Redbirds from being scored upon.

Coach Bradford's memory failed him for a minute when he attempted to send "Rip-em Up" Shultz into the game when he had started the second half. We understand that "Rip-em Up" solemnly vowed that he had not been in before; in fact he asserted that

Grade News

Kindergarten, Miss Ebbert Wednesday we had a new Halloween picture in our room and we wrote a story about it. This is our story:

Getting Ready for Halloween Jack and Betty are cutting out pumpkins. Her jack-o'-lantern is cut out. There are six pumpkins, two for each one.

Jack's uncle lives on a farm. He gave us the pumpkin. Jack asked Betty and Jill to come over.

They are going to have a Halloween party. We have so many boys and girls out because of sickness. It makes us all try harder to keep well and healthy. We now know four health rules, "Eat vegetables every day," "Sleep with your windows open," "Eat fruit every day," "Drink milk but no tea or coffee."

We are learning to count more and more. Almost half of us can count to thirty-one. Everyone can count at least to five.

Lyman Lolmaugh brought a jack-o'-lantern to school Monday. We lit it and enjoyed watching his funny face smile at us.

We are learning to read the words "go" and "stop" and we have two signs which have "go" and "stop" printed on them. Every one has had a chance to learn these words and we are all looking for similar words on our way to and from school. We also have a red and green signal light which helps us know when it is safe to cross the streets. We learned a little verse about crossing streets this week.

First Grade, Miss Carnagan The following people were neither absent nor tardy for the month of October: Duane Arend, Junior Arick, Lola Mae Dalenberg, June Dekker, Doris Hollenbaugh, Eleanor Ingelright, Anneline Lakin, Doris Lamb, Kenneth McGowan, Betty Jane Metzger, Craig Robinson, Julia Rouse, Robert Six, Betty Jean Squire, Richard Troutfetter, Martin Walters, Nellie West.

Wednesday afternoon we had a Halloween party.

First Grade, Miss Myers Bonnie Jean Matthews, Maxine Matthews and Bobby Swain entered the first grade this week. Our enrollment now numbers 36. We are glad to have Tommy Huff back in school again.

Robert Rumsey made a jack-o'-lantern for us.

We are busy working on our Indian village.

First Grade, Miss Vandenberg Our Indian activity was begun early in the year and we find it rich enough in correlative values to cover more of our time.

We have collected Indian story books, Indian pictures and a small tape from last year's sand table. We have decided to look in papers and magazines at home for pictures and any reading material about Indians.

Free-hand drawings have been made of Indian homes, cradles, bows, blankets, costumes and canoes. Many good original stories have been drawn in picture writing.

We also have learned something about Indian foods. In studying

fact in very plain words.

Paul DeWitt seems to have a hobby for blocking punts. He has not missed one in any game this season. His stop of a Niles punt gave the Bucks a good chance to score, putting the ball on the Niles 27 yard marker, but they couldn't quite make it.

Dick Chubb played a whale of a game backing up the line, and backing up the line is no tea party, especially when most of the opposing backs and interferers weigh as much as thirty pounds more than the defensive player. The other members of the backfield showed plenty of scrap too, everyone seeming to realize that they were out to show Niles that they were not going to have any walk-away.

Buchanan's line was doing a bit of hard work, and gave the high-touted Niles line some real arguments. Every Buck lineman is giving all he had, and under the leadership of "Spot" Dempsey, gave the Niles ball-toters something to think about.

Otsego journeys to Buchanan Saturday to take on the Bucks, and will be in for a tough time if Buchanan plays like they did against Niles. It was all Niles' could do to beat them. Otsego should be defeated. But if they're another slump, Otsego will go home with the long end of the score.

the different kinds of fruit and vegetables as Indian foods, the boys and girls made them in clay. As we develop our work, we file it in a large book called "Our Indian Notebook."

Second Grade, Mrs. Wilcox The following children remain on the Spelling Honor Roll in Mrs. Wilcox's second grade: Harvey Hinman, Jack Ednie, Billy Donley, Dorothy Sherwood, Ivan Keller, Genevieve Norman, Betty Lucif, Melvin, Donald Wheat, Arlis Fair, Genevieve, Russel, Walter, Bonnie, June Chain, Lorraine Morley, Madonna Heubner, Lillian Hartline, Suzanne McKinnon, Vera Green, Clifford Bauch, Emma Fuller, Jane Harris and Evelyn Bannak.

Monday Weaver has the measles. Mildred Gooch has the whooping cough.

Second Grade, Mrs. Heim Bonnie Jean Mitchell, Marjorie Bowman, Louise Fuller, John Montgomery and John Chappel sang a milkweed song for the first grade Friday afternoon.

Third Grade, Mrs. Fisehar The following pupils spelled every word we've had so far this year correctly: Ruth Ramsey, Leona Campbell, Evelyn Daggett, Mildred Ashby, Robert Fairman, Harold Hittler, Ruth Campbell, Philip Strang, James Heermann, Alice Melie, Ruth Goehring and Billy Gregoryk.

We've enjoyed making hallowe'en things this week.

Grade Four, Mrs. Fuller We have some lovely Lake Michigan sand for our sand table. Ruth Haslett, Wanda Wieman, Geneva Babcock and Monabelle Drietzler are making a Halloween scene in it for us.

Bobby Habicht was absent from school Monday.

We made an interesting cut out border of owls last week. They are made of black paper and mounted on orange paper.

We are making a very interesting health book using colored magazine pictures to illustrate our various health rules.

Grade Six, Robert Stevens and Robert Irvin names have been added to our Dental Honor Roll.

Last Friday twenty boys and girls received one hundred per cent in spelling.

Fourth Grade, Mrs. French Mrs. Carl Ferris visited our room this week. We are always glad to have the parents visit us.

We enjoyed making our vegetable parade. The animals, clovers and people were all made of vegetables. We made vegetable stands instead of ice cream and lemonade stands. Marie Rudoni, Alice Leazenby and Mildred Ferris were the committee that arranged the parade. After it was completed we invited all the other grades in our building to see it.

We have been studying transportation in Geography. Miss Hopkins' fifth grade had pictured the different kinds of transportation and mounted the objects on clay tablets. Charles Harris and Billy Snyder visited Miss Hopkins' room and gave us an interesting report about it.

In correlation with our Geography, History and Health talks we visited some of the places of interest in our town. We saw one of the polling places, the City

Water Works and one of our churches. Mr. Clark explained and answered questions about our water system and fire department.

We had talked about the cathedrals in France with their beautiful stained glass windows so we saw the stained glass windows in the Methodist church. We also saw the pipe organ. We decided that there were many beautiful and interesting things in our city and we want to see them and appreciate them.

We are very grateful to Carl Ferris for a new sand box. We are going to use it for geography projects. Bill Borders painted it and Pauline Decker is going to stencil designs on it.

Kenneth Phisicator, Alice Leazenby and Mildred Ferris learned all of Helen Hunt Jackson's October poem.

STUDENTS PLACED IN CHARGE ORDER IN HALLS OF H. S.

HALL MONITOR SYSTEM IS PLACED IN EFFECT AFTER TRYOUT LAST YEAR.

In case some of you parents come up to visit school don't be alarmed if you see your daughter or son sitting out in the hall. They are not being punished for anything; they're only hall monitors.

This system went into effect last Friday morning, and is one of the responsibilities taken over by the student council. At all times of the day there is one person in both the upper and lower halls to see that no disorder takes place, that no one skips school early and the like. Last year this system was very effective; therefore it was proposed to give it a tryout this year. Sheldon Ryan is captain of the monitors and he has the supervision over the sixteen students who are acting as monitors.

Commere. Class Organizes Into Shorthand Club

The shorthand class met Monday after school to organize a shorthand club which would create more interest in the work for the students. Miss Chandler told about the club and had the students vote for officers. Marguerite Kuntz was elected president and Alene Fuler secretary-treasurer. The club is to use a magazine called "The Writer," which offers a bronze medal to the class which has ten perfectly written papers and has an honor roll of students.

History Class Uses Handwork to Illustrate Past

Mrs. Whitman's tenth grade history students made projects which concerned their study of ancient history. Some of the projects were entered at the fair, held in the Buchanan high school, Oct. 24. The projects that were entered consisted of a map of Italy made by Vivian Wissler and Rosemary Thompson, a sphinx carved of soap made by Marjorie Campbell, and a pyramid made by Anita Andrews.

SCHOOL SLANTS

Quite a few of the high school crowd attended the big pep meeting at Niles last Thursday night. We regret to say that more noise could have been made by the Buchananians.

All those who attended the Niles-Buchanan game got their "pitchers took." The pictures, shown at Tuesday, were quite clear and showed everyone quite to perfection. Naturally it follows that they were very attractive.

The English 10 classes are trying their luck at short stories this week.

English 11 and 12 are writing orations and reports have it that there are quite a few Patrick Henrys among us.

It is rumored that Harold Bradford was host at a chop suey banquet given in South Bend. Along with it comes the report that Miss Hamlin and Miss Roebenbach enjoyed a chop suey dinner—hmm! We wonder! Now, do you suppose?

History Class Exhibits George Washington Books

Mrs. Whitman's eighth grade students made notebooks not long ago to illustrate the life of George Washington. Some of the note books that were well done were entered at the Fair, held in the Buchanan High School October 24.

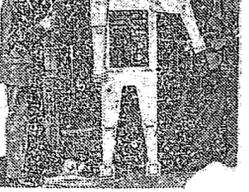

TELEVOX TO BE SHOWN AT H. S. NOV. 7

Inventor to Exhibit Mechanical Man; Open to Public and Students.

ADMISSION 10, 25 CENTS

At 2:30 o'clock Friday, November 7, "Televox," will be demonstrated in the high school auditorium. The admission will be 25c for the townspeople and 10c for students.

"Televox" to be demonstrated by one of its inventors, F. A. Wheeler will show its uncanny ability to perform many of the

Televox—the Mechanical Man

tasks which are now accomplished only by man. The scientist who will conduct the demonstration will give an address on the value of scientific study and explain many of the things the modern scientist is doing to re-make the material world.

It is not so far-fetched, as one will understand after seeing "Televox" perform, to imagine the following scene taking place within the not too distant future:

"At the office a person picks up the telephone and calls the house number. The telephone is so arranged at home that when the bell rings "Televox" lifts the receiver and a buzzing sound signifies that the correct number is on the wire. A signal is given from the office which means to "Televox," "Are you there?" A buzzing set. Another signal is given to reply is given which means, "All 'Televox,'" "Put me in connection with the percolator." In a moment the buzz is received which means "All set"—the switch is on and the coffee is percolating. Finally the signal "Goodbye" is given and "Televox" hangs up.

B. H. S. Students Score Prizes at Agricultural Fair

Well, it's over! That is to say that the agricultural classes have almost reached the high school of all remembrances of the gala fair that was held last Friday. Friday night, after the speeches were over, Arthur Knoblauch awarded the prizes. Several of the local students won prizes. Joe Feim was the only Buchanan student to win a silver cup. This cup was offered for the best apples.

Howard Currier, by virtue of his ten ear samples of corn, will have his name on the school cup. Other prizes were: Carson Donley, 1st prize, manual arts; Robert Koenigsfot, 1st prize, barley; Chandos Jackson, 1st prize, vegetables.

Arthur Knoblauch won second prize in the growers class of corn.

Dramatic and Musical Program Friday Morning

Another of Mrs. Dunbar's extremely interesting assembly programs was given Friday morning. John Giver gave two vocal numbers, "Rosette" and "Moonlight on the Colorado." The May-or or the Manticure, a one act play by George Ade, was presented under the direction of Mrs. Dunbar. The cast was as follows: The Honorable Otis Milford, Mayor of Springfield, Sheldon Ryan; Wallie Milford, his son, Lazel Weaver; Genevieve LeClair, a manicure, Virginia Lister; Ruth Foster, engaged to Wallie, Geneva Metzger.

A short pep meeting was held and the band played three numbers as additional entertainment for the program.

School news continued on Page 7.

Facts About Our Football Fellows

A glimpse into the private life of the B. H. S. football heroes. Quite a few of the local football stars journeyed to the neighboring village of Niles to review their initial screen tests, which were taken during the football game on Saturday. All of the home town screen critics seemed satisfied, but remarked that the players ran too fast in the pictures. Nevertheless, each member was secretly pleased when his beaming countenance was flashed upon the screen.

There is much concern being shown over the progress of Curly's Ark. There still remains a few planks to be laid for the floor besides the interior decorating. We heard that the Ark will contain a fireplace, electric lights and running water; but the only thing that they are sure of is running water. It is also rumored that the task of christening the ship has been definitely assigned to Mr. Robinson.

Paul Letcher, the huge Buchanan tackle, nearly missed a night of practice due to some intensive kidding by his team mates. Letch was almost ready to don his suit when he was told (quite convincingly) that the linemen were not to report that night. Paul then began to put his street clothes on again when Coach Bradford happened by and spoiled a good joke.

Buchanan's dashing halfback, Claude Imhoff, is going to walk whenever he has places to go, instead of driving his big Ford. Someway he managed to connect, or be connected with, some other big automobile, and damaged the Ford to some extent. Of course, we all know that it wasn't Claude's fault, but then that's what they all say.

Carmen Postlewaite, otherwise known as Jim, has been chosen treasurer of the Buchanan high school Thrift Club. Jim had been one of the Bucks' toughest and best linemen, until he suffered

B. H. S. Sixth in Mat. Improvement Tests of Last Year

Buchanan High School took sixth place in the national contest for improvement shown in the Alpha, Beta, Gamma tests last year instead of seventh place as was erroneously printed last week.

The Alpha test was given last week. The senior class had the highest average with the junior class a close second.

Student Council Sitting as Jury On Law-Breakers

Student Council members have been busy the past week pronouncing sentence for law-breakers. Six members of the student body committed a first class offense by shooting and throwing paper wads at their favorite enemies in the study hall. Unfortunately, for them they were arrested by officers of the school.

Last week they were taken before the Student Council who heard their case. Each of the victims must report to ninth hour for one week. During this time they are to plan some project that has been assigned to them. The principal ones are book reports and themes. At the end of two weeks a project report will be made and, if favorable, given an O. K. If not, another report will have to be made.

B. H. S. Debaters at Watervliet in No Decision Tilt

Buchanan's debating team came back from Watervliet Monday evening. The debate was extremely interesting and the debaters may assure you it was extremely exciting. The Watervliet team was comprised of three boys. Buchanan's team remained the same with Phil Hamlin, Marvin Gross and Pauline VanEvelyn.

Wednesday, there will be a practice debate with Dowagiac in the high school auditorium. The team will go to Berrien Springs Friday evening for their fourth practice debate.

Girl Athletes Hold Interclass Soccer Series

The G. A. A. hike which was planned for this week has been postponed until the beginning of next week.

The freshmen and juniors played a very interesting game of soccer last Wednesday night with a score of 2-1. The seniors played the sophomores with the seniors winning 4-2.

The first game of the second series began Monday with the juniors defeating the freshmen 4-0. After the soccer tournament has been played the girls will devote their gym periods to speed ball and basket ball.

Advertisement for South Bend Watch Co. Retail Store. Features a large illustration of silverware and text: '68 PIECES \$11.79', '79c DOWN 50c A WEEK', 'Think of it! A beautiful, 26-piece set of silverware and a 42-piece set of dainty China Dinnerware—all for only \$11.79. That is the big special value we offer for this week. Come early and share in this wonderful bargain opportunity made possible by a special purchase. Silverware is the new style, Highland pattern, plated with pure silver over nickel-silver base. Wonderful wearing qualities and finish. Dinnerware is from one of America's foremost potteries. Absolutely first quality chinaware with exceptionally pleasing finish and floral decoration. Remember you get both sets—68 pieces in all—for only \$11.79. On easy terms of 79 cents down and 50 cents a week.'

### Berrien Springs D. A. R. Marks Grave Revolutionary Vet

The grave of Levi Brown, Berrien Springs pioneer and soldier of the Revolutionary war, was marked with fitting ceremonies last week by the Algonquin chapter of the D. A. R.

He was a brother of Pitt Brown, who ran the ferry over the St. Joseph river at Berrien Springs and was the grandfather of Warren Brown, now a resident of Berrien Springs. A number of the members of the St. Joseph and Benton Harbor chapters of the D. A. R. were present.

### U. of M. Plans Safety Course

A course in safety engineering and accident prevention, offered by the extension division of the University of Michigan, was outlined to the Lansing Safety Club recently by G. L. Jensen of the mechanical engineering staff of the university. He will be in charge of the course and a number of speakers will be brought to the

city to make up specialized subjects. The safety club includes representatives of all the principal industries of the city.

### Fall Sales Will Average 10 Pct. Under 1929 Total

Under the influence of reduced incomes in both industrial and agricultural districts, consumer purchasing power is curtailed in comparison with a year ago. Conditions vary throughout the country but in general, fall sales approximately 10 per cent under the results for the like 1929 period, may be estimated, says Standard Statistics in a current survey, which follows in part:

"Except for moderate gains in retail and wholesale distribution, the seasonal upturn in business activity which is ordinarily witnessed at this time of the year, is and will be of only nominal proportions. Output of steel mills has expanded slightly during the past month and will likely show further small gains, but current production of 58 per cent of capacity is sharply under that of a year ago. Automobile output is maintained about on a par with

this low level of August, but some temporary improvement may be expected during the next month.

"Building activities are currently about 13 per cent below this time last year and little, if any, gain may be expected in this field before 1931. In other lines, operating schedules generally compare unsatisfactorily with 12 months earlier. Moderate expansion is expected as orders are placed for immediate and 1931 requirements, but it is not believed that activities will attain the level of a year earlier during this fall. Consequently, employment and payrolls will undoubtedly continue to be materially smaller than during the fall of 1929.

"Harvests of small grains are larger than had been expected and are in excess of 1929 receipts. Late crops, however, suffered from drought during the summer and indicated yields are short compared with last year's results. Current farm prices are the lowest received in the past fifteen years, and incomes from miscellaneous crops and livestock register declines, indicating that aggregate 1930 cash receipts are unlikely to come within 8 per cent of equalling the final 1929 returns."

**Good Detecting**  
How sweet the little one is. Do you think so?  
And how clever! He's been playing on the grass with his hoop hasn't he?  
Yes!  
Then you'll have to pay \$5 fine I'm the park keeper.

**Blessed Bees**  
How are you getting on keeping bees?  
Very well. We haven't had much honey but the bees have stung my mother-in-law several times.

**How do you find the horsepower of a car?**  
Just lift up the hood and count the plugs.

famous the world over

**Pinaud's Shampoo**

Leaves your hair lustrous, healthy, and not too dry!

Any retailer's—or send 5c for full-size bottle to Pinaud, Dept. M, 220 E. 21 St., New York. [We will send sample bottle free]

### FINANCE HEAD SAY INSTALLMENT BUYING IS HELP

SYSTEM AIDS BUSINESS BY PUTTING MORE MONEY INTO CIRCULATION.

How finance companies put dollars in circulation, instead of holding down purchasing power by keeping installment payments hanging over the heads of the buying public, was outlined by C. C. Hanch, general manager of the National Association of Finance Companies in a recent report. The annual volume of business done by 139 finance companies last year, amounting to \$2,880,994,322, was practically nine times their capital, Mr. Hanch said.

"This does not mean that finance companies are profiteering off of the public," said Mr. Hanch. The possibility of the volume of business being much larger than the capital resulted in part from the circumstance that much of the money used was borrowed from banks, and in part from the fact that every dollar available was used more than twice. On 12 months' installment paper, payments come in at a rate which allows each dollar to be used twice in a year, while the turnover is much more rapid on shorter time paper.

"The average net profit of the 139 finance companies last year was 1.23 per cent of the volume of business done, which certainly does not justify their classification as profiteering concerns.

"This continual turnover of finance company dollars also refutes the arguments that an enormous hangover of last year's installment buying is holding down the purchasing power of the public at this time. Sixty per cent of the retail automobile paper handled by these finance companies last year had been liquidated at the end of December. The outstanding installment obligations are considerably less now than they were 12 months ago, so that organizations which facilitate installment buying cannot justly be blamed for the present slow purchasing inclinations of the people. We estimate that only about 11 per cent of the 1929 installment debt on automobiles is outstanding today, while the new debt contracted this year is from 15 to 20 per cent smaller than last year's obligation.

"The slow-to-buy public is burdened with less installment debt now than it has had for years. The theorists must find some other reason than installment buying to explain the public attitude of closed pocketbooks, if they read rightly the statistics of those organizations which have most to do with time sales."

### Air Mail Service Has 94 Per Cent Efficiency Record

As a medium for the transmission of mail, the air mail service has attained approximate efficiency with the record of the rail carriers, says the American Air Transport Association which has released figures showing that during the last year planes carrying air mail flew 14,939,469 of the 16,228,453 miles on which they were scheduled by the post office department.

The performance of the mail planes is based on the number of miles scheduled and on such a basis an average of 94 per cent was maintained during the previous year.

"The present record is the highest attained since the start of the air mail service in 1918," the association states. "The post office department at that time operated its own planes, craft obtained from the war department which the latter deemed obsolete for military use.

"The carrying of mails was turned over to private operators in 1926, the complete transfer being accomplished about a year later. Including the years of government operation, air mail planes have flown more than 100,000,000 miles with a steady increase in efficiency. The employment of only the most experienced pilots and rigid systems of inspection for planes, motors and personnel are responsible for the present efficiency record which far eclipses that of any other country."

### No. Mich. Farms Decrease 11 Pct. During Five Yrs.

Publication of the 1930 farm census returns shows that Michigan on April 1, 1930, had a total of 169,915 farms as compared with 192,327 on January 1, 1925, a decrease in five years of 22,412 or 11.7 per cent. There were only five counties in the state which did not have fewer farms in 1930 than in 1925. These counties are: St. Joseph, Iron, Kalamazoo, Oscoda and Dickinson.

**Must Have Both**  
I have faith in this watch, said the bishop, although he had just missed a train on account of its inaccuracy.

Yes, answered his fellow clergyman but what is faith without good works.

**Mrs. Lonebody:** My husband is away a good deal and I want a parrot for company. Does this one use rough language?

**Bird Seller:** Lady, with that bird in the house you'll never miss your husband.

### Olive Branch

Mr. and Mrs. Charles Smith were in Buchanan Monday.

Mr. and Mrs. Ira Lee and son, Phillip, were callers in the Foster Bowker home Sunday afternoon in Gales.

Mr. and Mrs. Joe Fulton were visitors in the Ora Briney home in Buchanan Sunday.

Harry Williams takes his daughter to Niles every other day for treatments.

Lyle Nye and wife were callers in the Al Rickerman home Sunday afternoon.

Mrs. Grace Kuhl and daughter, Ruth were callers in the Henry Ingles home Monday.

Mr. and Mrs. Frank DeHaven of Benton Harbor spent Saturday with the former's sister, Mrs. Gene Sprague and family.

Mr. and Mrs. Kenneth Bowker and family of South Bend, spent Sunday evening in the Millie Bowker home. Their son, Dean, stayed this week at grandma's.

Mr. and Mrs. Gene Sprague and daughter, Marjorie, and Olga Huntsley spent Sunday in the Frank Sprague home near Dowagiac.

The U. S. Ladies Aid, who gave the chicken supper at their hall Saturday evening was splendid. Over \$24 was cleared.

Mrs. Herbert Raas called at the Millie Bowker house for her sister, Olga Huntsley.

Mrs. Ruth Hampton spent Monday afternoon in the Geraldine Goodenough home.

Wm. Roundys attended the funeral of the late John Watkins of South Bend Saturday at that city.

Mr. and Mrs. Henry Goodenough were in Buchanan Monday.

Mr. and Mrs. Kenneth Smith of Palestine, Tex., will leave for their home this week, after visiting relatives here for some time.

Little Reva Goodenough is sick and will be taken to LaPorte this week to Dr. Howell for examination.

Chicken pox is in the vicinity of Beaver Dam.

Thomas Williams of New Jersey, will arrive this week with his bride to visit his parents, Mr. and Mrs. Harry Williams.

Mrs. John Welch and child of Beaver Dam, spent Friday with her daughter, Mrs. Paul Ender, of Gales.

Mrs. Dell Smith spent several days in South Bend with her daughters and attended a Halloween party and had a big time.

Mr. and Mrs. Roy Kiefer of South Bend, spent Sunday in the Wess Monsey home and Sunday evening in the Schuyler Williams home.

Mr. Arthur Powell of Benton Harbor, Mr. and Mrs. Arthur Walters and family of Buchanan, and Mr. and Mrs. Tim Powell spent Sunday in the Ed Phillips home.

Mr. and Mrs. Chas. Diedrich spent Sunday afternoon in the Harry Kuhl home.

Mr. and Mrs. John Dickey and grandson, Russell, were in South Bend Friday.

Mrs. Celia Wade and son of Dowagiac spent Saturday in the Pimmon Nye home.

Mrs. Herbert Raas and son, Sheldon, went to St. Joseph Saturday to see her husband at the Yoeman sanitarium and stayed until Sunday. He is some better.

Floyd and Orville Williams and their families from Niles, spent Sunday in the Harry Williams home.

Mr. and Mrs. Frank McLaren of South Bend and Mr. and Mrs. Russell McLaren and daughter spent Sunday in the home of Mr. and Mrs. Earl Ingles.

Mr. and Mrs. Chas. Johnson and Mr. and Mrs. Harry Harris of Mishawaka, spent Sunday afternoon in the Harry Kuhl home.

Mrs. Chas. Smith, Nellie Smith and Dorothy Clark and daughter, Laura Mae, were in Niles Friday.

Mr. and Mrs. Albert Dickey and baby of South Bend, came Friday and stayed until Sunday in the John Dickey home.

Mrs. John Seymour came home from Chicago Monday afternoon after spending a week there with friends. One place they gave a reception for her and she saw many which otherwise she would not have seen.

Mr. and Mrs. Chas. Diedrich entertained Sunday Mr. and Mrs. Chester Riffle of Detroit, Mrs. Ida Riffle, Mr. and Mrs. E. C. Kaiser, and Mr. and Mrs. Everet Hardman and daughters of South Bend and Leo Kent of Niles.

Mr. and Mrs. Paul Pence and Leslie Smith of South Bend and Mrs. Della Swank and Mr. and Mrs. Ralph Goodenough and daughter Reva, spent Sunday in the Dell Smith home.

Last week Tuesday, Irma, the youngest daughter of Mrs. Ida Bennett was taken to the Holy Family hospital. She had stepped in a hole a few days before and she got so sick they took her to the hospital where they found it to be a bad case of blood poisoning. She was very sick but at the present time is much better.

## Tested and Approved!

Never before in the political history of Berrien county has a candidate for public office been subjected to an acid test as was CHARLES L. MILLER in the recent primary election.

A candidate for the sheriff nomination in a hotly contested campaign, Mr. Miller's character, qualifications and platform were placed fairly and squarely before the public and closely analyzed for flaws; scrutinized at length for misstatements; torn to pieces in a futile effort to find a "joker."

What was the result of that acid test? Mr. Miller was APPROVED and nominated in a most convincing manner. Now he's up for election next Tuesday. Why?

Investigation PROVED his character highly commendable.

Examination PROVED him a man of ability to serve the public.

Search into his past record PROVED him loyal and devoted to duty.

His unchallenged reputation for integrity was PROOF that he would keep his promise of a clean, efficient and economical administration.

Rigid scrutiny PROVED he meant what he said when he pledged a fair and impartial enforcement of all laws.

Further investigation PROVED he had no political debts to pay.

Careful check PROVED he had made no appointment promises.

*These qualifications which were tested and approved last September hold good today.*

Elect CHARLES L. MILLER Sheriff of Berrien County next Tuesday and you'll have no regrets after January 1.

## Your EYES and Our SERVICE

By Blackmond's  
Jewelry and Optical Store

Experience  
With Eye Strain

Will prove these facts—that there is no permanent benefit from resting the eyes. That the strain produces headaches and other ills. That you cannot concentrate on your work as you should. That you become nervous, restless, ill tempered. Here is one more fact—the only way to overcome these conditions is to be accurately equipped with glasses. That's our duty.

## BLACKMOND'S

Jewelry and Optical Store  
Niles, Michigan.

## LIGHT

where your  
children  
need it

**SERIOUS** damage to sensitive young eyes and defective eyesight in later years can be prevented if children live and study under good lighting conditions. Eye strain, nervousness, premature need for glasses are largely the result of inadequate, incorrect lighting. Proper illumination should be furnished each member of the family by a portable floor or table lamp for his own use.

**Kellogg Company Adopts Five Day Weekly Schedule**

The Kellogg company at Battle Creek, food manufacturers, announce plans for the stabilization of employment in that city. Effective Oct. 6, employees began working on a five-day week, by means of which the company is enabled to employ approximately 300 persons who would not be needed when operations were on a six day basis. The change was made as the company's owner to city officials' pleas for co-operation in maintaining employment throughout the winter months.

**Herd Owners Select Better Dairy Sires**

Sales of purebred sires to dairymen from the special train running from Beulah to Howell on the Ann Arbor railroad have the interest of herd owners in that section in increasing the profits of their business, according to members of the dairy department, Michigan State college, who are with the train.

Dairymen have a chance to choose a bull from one of four breeds that are being carried on the train. Each of the bulls was especially selected for the train and each animal was chosen because of good production records held by its dam. No sires from dams with records of less than 400 pounds of butterfat per year were picked for the trip.

Is she doing well with her calves? No she seems to be a poor loser.

**R. ROBINSON TO STAGE ORIGINAL MUSICAL COMEDY**

CAST OF 71 TO STAGE LARGEST MUSICAL AFFAIR IN H. S. HISTORY NOV. 26

Ralph Robinson, local high school director, will stage a musical comedy at the high school, on Nov. 26.

Mr. Robinson has written all the parts to this comedy and it is to be the largest musical program ever given in the high school. He announced that he has worked very diligently since the middle of the summer to prepare for the event.

He has chosen seventy-one people to take part in this big event, an orchestra of forty-five, and a cast of twenty-six.

He is assisted by Mrs. Dunbar, who will instruct in dramatics, Miss Alice Rothenbach, who will direct chorus, Miss Thina Skeels, who will be in charge of costumes, Harold Boyce, property manager, Elliot Boyce and Carmen Postelwaite, stage managers.

**Hills Corners**

The Ladies Aid Society met on Wednesday at the church annex and made plans for the supper to be given at the Harvest Home Festival.

The Hills Corners Home Economics Club will meet Wednesday afternoon, Nov. 5th at 1 o'clock at the home of Mrs. Charles Hess in the Wagner district. The subject of the lesson, "Courtesy at the table, setting of the table, and table service," will be discussed. Mrs. Donald Rhoades and Mrs. Thomas Quirk will assist the hostesses.

The candy box social at the Convent school netted \$15. The most popular couple was Agnes Spaulding and Douglas Bennett.

Wm. Feather, wife and son of Baroda, Mr. and Mrs. Andrew Feather and daughter were Sunday dinner guests at the Henry Hess home.

Mrs. Del Blackmun entertained her two sons and their families at dinner Sunday in honor of Mr. Blackmun's birthday.

The United States exported 427,000 gallons of soft drinks last year.

**Dayton News**

Mr. and Mrs. Joe Hackathorn spent Sunday evening with Mr. and Mrs. Charles Crooker at Niles.

Fred Wooley of St. Joseph was a week end guest of Mr. and Mrs. Fred Salisbury.

Mr. and Mrs. Joe Forgue and children and Miss Gertrude Gowland of Buchanan, spent Sunday evening with Claude and Blanche Sheldon.

Claude and Blanche Sheldon and Gertrude Gowland attended the Odd Fellow meeting at Berrien Springs Saturday evening.

Mrs. Fred Salisbury, Mrs. Laura

**Preliminaries For Oratorical Contests Nov. 10**

Excitement prevails as the first in the extemporaneous speaking, orations, declamations and debating contest draw near. The date has been set for November 3 or 10 and the contest is to be held in Buchanan auditorium.

Mrs. Dunbar, English instructor of the Buchanan schools, is in charge of the extemporaneous speaking, orations and declamations. Mr. Knobel, head of agriculture and debating, will have charge of the debating.

The juniors are writing their orations and the seniors are working on declamations. The preliminaries are to decide who will enter the state oratorical contest. This preliminary contest will be for juniors and seniors taking English in Buchanan high school.

**INQUIRING REPORTER**

Do you think that our hall monitors are doing any good in the school? If so, what?

There is only one argument why this system should be abolished. That is, the honor students are being missed in the assembly halls where they are needed. Otherwise, I think it is a fine thing.

Marie Post.

**Chichesters Pills**

THE DIAMOND BRAND. Special Preparation for Obstructions, Catarrhs, Hemorrhoids, Stricture, Gleet, Gonorrhea, etc. Sold by Druggists Everywhere.

**County Releases Communist Bond of Trial of 1923**

Echoes of the days when Berrien county was on the front pages of the world as the scene of the famous "red" trials of 1923 were recalled Friday when the \$7,500 bond which was posted by C. E. Ruthenberg, Communist leader, arrested at the meeting, was released by order of Circuit Judge Charles E. White.

Twenty Communists were arrested by Sheriff George Bridgman as they held a convention in the dunes near Bridgman. Two leaders, William S. Foster and C. E. Ruthenberg, were brought to trial. Ruthenberg was sentenced to serve 5 to 10 years in Jackson State prison and to pay a fine of \$5,000 by the circuit court and the sentence was upheld by the state supreme court. Ruthenberg had obtained an appeal to the United States courts, when he suddenly died in Chicago in 1927. His body was taken to New York City for cremation and his ashes now repose in the Kremlin at Moscow. The fine of \$5,000 was never paid and he served only a few days of his sentence at Jackson.

The bond of \$7,500 was released on petition in behalf of his widow, Mrs. Rose Ruthenberg and his son, Daniel Ruthenberg.

**Traverse City Suit Will Test Pollution Law**

A test suit against Traverse City to discover the authority of the state stream control commission has been started in the Grand Traverse county circuit court by the attorney general's department. The state would restrain the city from polluting the waters of the Boardman river and Grand Traverse bay by constructing a sewage disposal plant. The city had been ordered to make a start on a disposal system by Sept. 1, but no action was taken.

**Sore Throat? Don't Gargle**

Famous Prescription Gives Almost Instant Relief.

Night coughs or coughs caused by a cold or by an irritated throat are usually due to conditions which ordinary medicines do not reach. But the very first swallow of Thoxine, a doctor's prescription, is guaranteed to give almost instant relief. Thoxine works on a different principle, it goes direct to the internal cause.

Thoxine is pleasant tasting and safe for the whole family. It will give you better and quicker relief for coughs or sore throat than anything you have ever tried or your money will be refunded. Put up ready for use in 35c, 60c and \$1.00 bottles. Sold by Wisner Pharmacy and all other good drug stores.

**A Private Checking Account!**

Puts your personal transactions on a business basis. By a checking account you can keep a record of all bills paid, and your canceled check is your receipt.

**THE BUCHANAN STATE BANK**

Buchanan, Michigan

**Anti-Third-Term Candidate**

1862 - 68 YEARS - 1930

Not in the last 68 years, until now, have the voters of Berrien county been asked to vote for a Register of Deeds for a THIRD term.

During the 68 years in question every Register of Deeds has retired after serving TWO Terms.

Why change this accepted and successful policy now?

VINCENT E. O'NEILL is the Democratic nominee for Register of Deeds. He is a candidate for first term, and will not seek a third term. He is trained, qualified and courteous. He is an ex-service man and a member of the American Legion, married with family residing in St. Joseph. He will appreciate your vote TUESDAY, NOV. 4.

Subject Everlasting Punishment.  
Wednesday evening meeting at 7:45.  
Reading room, located in the church at Dewey avenue and Oak Street, is open each Wednesday afternoon from 2 till 4 o'clock.

**Christian Science Churches**  
"Probation after Death" was the subject of the Lesson-Sermon in all Christian Science churches Sunday, Oct. 26.

Among the citations which comprised the lesson-sermon, was the following taken from the Bible: "In a moment, in the twinkling of an eye, at the last trump, for the trumpet shall sound, and the dead shall be raised incorruptible, and we shall be changed." (I. Cor. 15: 52).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The sin and error which possess us at the instant of death do not cease at that moment, but endure until the death of these errors. To be wholly spiritual, man must be sinless, and he becomes thus only when he reaches perfection." (p. 290.)

**First Presbyterian Church**  
Harry W. Staver, Minister  
Church school 10 a. m. Mrs. G. E. Smith, Supt.

Morning Worship at 11 a. m.  
Evening service at 7 p. m.

Thursday, this week. The first Family Night will be held at the church at 6:30 p. m. Circle No. 1 is in charge. Mrs. Berry chairman. The committee is furnishing meat, potatoes, rolls and coffee. Table service is also provided. Those attending are asked to bring one dish of food to pass, not including any items furnished by the committee. A program has been arranged for the occasion. The pastor will give a discussion of "The Situation in Russia Today." All persons connected with the congregation are urged to attend.

**Evangelical Church**  
S. D. Hayes, Pastor

Sunday School at 10.  
Sermon, 11, "The Christian Home."  
The four Leagues meet at 6.  
A missionary address at 7.  
Prayer meeting Thursday evening at 7.

The prayer conference at St. Joseph will be held on Nov. 4, beginning at 11. Take something for the pot luck dinner and supper and stay all day if you can.

The Adult League will hold its monthly meeting at the pastor's home on West Third Street Monday evening, Nov. 3.

Next Sunday is Foreign Missions day, and a missionary program will be given in the evening and a missionary offering will be taken. We expect to begin our evangelistic meetings Nov. 9. We will make a more definite announcement soon.

Our Father and Son banquet will be held in the church parlors Saturday evening, Nov. 3, at 8:30. Committees have been appointed and they are at work on arrangements.

Have you been in our church since it has been redecorated? We would be glad to have you drop in at any time.

You are cordially invited to our services.

**Church of Christ**  
J. L. Griffith, Pastor

Bible Study and worship service at 10 a. m. Bible lesson, Simon Peter, A character study. Sermon, Echoes from the World Convention.

**Christian Endeavor Societies** meet at 8 p. m.

Richard Ellis will lead the juniors and the topic will be Stewardship. Why support the Eighteenth Amendment and How? is the subject that will be discussed by the seniors. Dorothy Millnes is the senior president.

Sunday evening preaching service at 7 o'clock. Sermon, Is the Church a Fair Game? If you think so come and sit with us while we reason together. If you think not, the more reason why you should be present.

The regular monthly business meeting of the church will be held Monday, Nov. 3, at 7:30 p. m.

**Methodist Episcopal Church**  
Thomas Rice, Pastor

Sunday School at 10 o'clock. The new Junior choir will make its first appearance this Sunday. The adult department of the school is under the leadership of E. H. Ormiston and the junior department leader is Mrs. L. French.

Morning worship at 11 o'clock. Sermon subject, "Minding the Mind." This is a most helpful worship service. It will do you good. Special music, an anthem by chorus choir.

Junior League and Senior King's Herald meeting at 5 o'clock under

the leadership of Mrs. Rosalie M. Rice.

Senior Epworth League at 6 o'clock. Both League meetings are very popular with our young people. Good crowds and good times seem the usual thing. All young people not attending other meetings are most welcome.

Evening service at 7 o'clock. Subject of address: "The Movies and Religion." There will be special music and the congregational singing will be led by Arthur Johnston.

Services at Oronoko at 9 a. m. This church seeks to help and bless all who can come to its services. Try it.

Thursday: Bible study hour in the parsonage at 7:30. Junior League party in the church parlors at 6. This is a masquerade party, bring sandwiches, rest of supper provided.

### Social, Organization Activities

**F. D. I. Club at Home of Mrs. L. Proud**

The F. D. I. Club were entertained Thursday evening at the home of Mrs. Lewis Proud, 24 members attending the meeting. Prizes at bunco were won by Mrs. Mae Best Mrs. Cora Brown, Mrs. May Gawthrop, Mrs. Nella Slater, Mrs. Bertha Sauter, Mrs. Edith Willard, Mrs. D. DiGiacomo, Mrs. Steve Rudoni.

**B. & P. W. Sponser Charity Card Party**

The Business and Professional Women's Club are sponsoring a card party to be held in the Community House on Fifth Street at Niles on Nov. 3, at eight o'clock, the proceeds of which are to be used for charitable work in Niles, Buchanan, Dowagiac and Cassopolis. The division of the money between these cities is to be made in accordance with the number of members from each city, which will give Buchanan about one fifth of the total.

Mrs. D. P. Rouse of Buchanan is the chairman of the Finance Committee, which is in charge of the affair and a large number of people from this city are planning to attend.

**Loyal Independent Club Meets Monday**

The Loyal Independent Club will meet at the home of Mrs. George Treat on Moccasin Avenue next Monday afternoon.

**Buchanan W. B. A. Are Guests of Niles Chapter**

Five members of the Buchanan W. B. A. were guests of the Niles chapter of that organization last Thursday evening, those making the trip being Mrs. Emma Knight, Miss Hattie Smith, Mrs. Bettie Smith, Mrs. M. Gross, Mrs. Arvada Markham. Bunco was the enter-

tainment of the evening, Mrs. Bettie Smith winning the prize for the Buchanan members.

**B. & P. W. Hold Guest Night Monday**  
A return to serious matters was made last Monday night by the Business and Professional Women's club in their first meeting at the Four Flags Hotel in Niles, after having met at the various lakes all summer.

This meeting was Guest Night and each member who could, took a prospective member with her. There were eight members and six guests attended from Buchanan. The members were, Mrs. D. J. Rouse, Miss Hazel Miles, Mrs. O. F. Hall, Miss Ethel Beistle, Miss Myra Andlauer, Miss Grace Enk and Mrs. J. G. Boone. The guests were, Mrs. Rex Lamb, Miss Dorothy Chandler, Miss Lena Eckstrom, Mrs. Mae Whitman, Mrs. Leah Weaver and Miss Nellie Cathcart.

After the dinner two vocal selections were given by Miss Leah Henderson, followed by a short talk by Miss Anita Walker of Dowagiac on "Why I am a Member." A short business meeting was held, after which cards were played.

The dining room of the hotel was beautifully decorated for Halloween with fall leaves and berries. Miss Hannah Ackerman, school nurse of Niles, was chairman in charge of the meeting.

**Laborers Lead In Bankruptcy During Past Year**

Merchants or manufacturers were involved in less than 25 per cent of the 80,543 bankruptcy cases concluded in the year ended June 30, 1930, according to preliminary statistics of the Department of Justice. Bankrupt merchants numbered 13,530; manufacturers, 11,386; farmers, 4,472; professional men, 1,378; unclassified, 10,665; and wage earners, 29,067, or almost half of the total number.

Liabilities involved in these cases totaled \$948,257,731, as compared with \$888,605,665 during the preceding year. A total of \$118,572,409 was realized from the cases concluded in the fiscal year 1930.

**Of Course, No Harm**

A gentleman of color was detected taking a bath in the water tank on a Mississippi river boat. Seeing him the captain shouted: "Get out of there! Do you want to give us scarlet fever or some other disease?"

"If am aw'right, boss! Don't git 'xcited!" replied the negro. "Dey hain't no danger, 'cause Ah ain't usin' no soap."

**Majestic Refrigerator Appears in two Sizes**

The formal entry of the Grigsby-Grunow interests into the electrical refrigeration field becomes a fact with the announcement from Majestic Household Utilities Corporation in Chicago that its factories are now in production at the rate of 1000 daily, with a rapid set-up to 4000 machines daily assured. The prices, which have long been a matter of widespread conjecture, are \$195 for Model 150, having a normal capacity of five cubic feet of food storage space, and \$215.00 for Model 170 with a seven cubic foot capacity. These prices are f. o. b.

Outstanding among the features immediately apparent is the fact that, while the mechanism is above the food storage compartment, it is concealed beneath a flat top. The cabinet is unusual in that there has plainly been an attempt to build furniture beauty into the design. The vertical edges are beveled and the top has received the same treatment. The satin chromium latch and hinges show the influence of Art Moderne and there is a temperature regulator escutcheon plate in harmony with them.

Asked for interesting facts on the history and development of his latest product, W. C. Grunow, president of the corporation, outlined the high-lights as follows: "The refrigerating unit is the result of the mature experience of one man's, C. E. Lipman's, lifetime, supplemented by a corps of experts gathered together under H. E. Kranz, vice president in charge of engineering, for one purpose, namely, the construction of a commercially perfect refrigerating mechanism.

"The Majestic Refrigerator is the result of a careful study of all existing refrigerator designs, coupled with exhaustive research. It is constructed with an accuracy of workmanship unusual in any industry. It is, first of all, a quality product, in fact it may more

properly be described as a super-quality product, since in no case has any desirable feature been sacrificed to reduce cost of manufacture. We believe that we have, by taking advantage of the latest engineering developments and the most advanced manufacturing technique, produced a domestic refrigerator that represents the last word in present day accomplishment."

Examination of either model shows that the cabinet is made

entirely of steel, finished in white enamel, the food compartment being also of steel, coated with vitreous enamel. No hooks are used to support the shelves, these having been supplanted by rounded knobs that make for ease in cleaning. Insulation is ample to the point of extravagance, being a full three inches in thickness. A combination of fibreglass and "dry zero" has been developed to give the temperatures in the food compartment excellent protection from

temperatures outside. On this point Majestic engineers point out that excess insulation secures economy of operation, just as it costs less to wear a heavy overcoat in very cold weather rather than to use a light one and then try to eat enough "heating foods" to keep up one's temperature. Their theory is that where one is spending money to secure cold, one spends less on current if the outside heat can be effectively shut out.

Noise has been all but eliminated. The cold unit or heat absorption coils, enclose two freezing compartments of the same size. The upper one holds two trays each with a capacity of twenty one ice cubes. With separators in place, the tray in the lower compartment provides forty-two more cubes or, with separators removed, it gives generous space for frozen desserts or the new packages of sharp frozen chops now being marketed and which may here be kept indefinitely!

# REFRIGERATOR

"Mighty Monarch of the Arctic"

### CONSTANTLY COLD

This invitation to inspect the Majestic Mighty Monarch of the Arctic follows more than a year of exhaustive research by our engineers in the field of electrical refrigeration. While it is a tremendous task to build the most perfect electric refrigerator in a field already filled with good ones, and sell it for less, that's exactly what Majestic has done. The new refrigerator is difficult to describe, because there has never been anything like it before, that's why we urge you to inspect it at one of your dealers.

The new Majestic refrigerators, of course, possess more electric refrigeration than you have been used to buying for twice their price. Model 150, with a capacity of 5 cubic feet of food storage space, sells at \$195. Model 170, with 7 cubic feet capacity, sells for \$215. These prices are F. O. B. factory.

## WHAT IT MEANS TO ELECT FRED CUTLER SHERIFF

1. It means law enforcement with fairness to all, regardless of party or creed.
2. It means that your Sheriff will not be dictated to by any political boss or manager, and that he will be free to choose for officers only men of good reputation and ability.
3. It means putting into this important office a successful man of business ability, who is an untiring worker and not seeking publicity.
4. It means a man in your Sheriff's office who will give the farming communities better service and protect them from this petty thieving.
5. It means that you will be made welcome and free to bring your problems to your Sheriff's office where you will receive courteous treatment at all times.
6. It means the election of a fair, honest man of proven ability, and a saving to the taxpayers, and better service.
7. It means making Berrien County a better community in which to live.
8. Electing Fred Cutler Sheriff means playing safe.
