Business Men Endorse Purchase of Chamberlain Hills by the City

Now Here's the Proposition

THE FAR-OFF GRAVES

In silent ministrations Our hearts outreach our hands To graves we must remember In far and distant lands,

Where tender grasses cover, In green memorial, Sister and friend and lover Beneath one quiet pall.

There tenderly above them The green winds of the spring Scatter beyond all number The flowers we may not bring.

And May's blue skies bend over Above them where they sleep And green ranks of the clover Cover them still and deep.

And guard them as our hearts would

Where on far distant hills They rest in dreamless quiet Yet loved, remembered still.

LET'S SEE—AIN'T THERE SOMETHING ELSE JOHN COULD SPRAIN?

John Portz, our genial restaurateur, is able to be about the streets on crutches this week, after a partial recovery from a sprained ankle and a sprained wrist. It is reported that Mr. Portz caught his toe in a doughnut which had accidentally fallen on the floor and then dislocated his wrist trying to explain to a skeptic that he was perfectly sober when he sprained his ankle.

This Will Knock Him Right Off His Perch

Meyer Greenwalt was arraigned before Squire Al W. Charles Tuesday to answer to a charge of selling "undressed perch." Having answered in the affirmative, he was fined \$25 plus costs of \$10.70.

Now Jump in the Lake

Last week we heard a number of those Florida hounds who congregate in Fred Meads's shop knocking the Buchanan weather, with C. H. (call-me-Pete) Fuller as master of ceremonies. "It's going to stay this cold all summer," said Mr. Fuller, "you just watch, boys, and see if I ain't right!" It strikes us that this hot spell is going to be bad for Pete and the other outworns.

This Ought to be a Warning

Our well-known purveyor of gentlemen's haberdashery, Lew Desenberg, is badly out of the ol' condish this morning with a lame back which he attributes to mowing the lawn. That decides it—the grass can grow for all of us.

Patronize Your Neighborhood Banker

We understand a warrant has been issued by a Buchanan man for the apprehension of a fly-by-night gentleman to whom he entrusted some bonds of quite considerable value for safe keeping. It is alleged that the said fly-by-night had advertised that he would keep watch and ward over papers and trinkets of value for such as wished to be relieved of the responsibility. He is, doubtless still watching them.

Oronoko Chapel to Hold Song Service

Church at Oronoko Chapel in the Mt. Tabor district will open at 8:45 a. m. next Sunday, according to the announcement of officers, to permit of a song service before the opening of the regular morning service. Services will be held at 9 a. m. by Rev. Thomas Rice of Buchanan.

When Mrs. Leila Elam of Humboldt, Tenn., told the judge that a prohibition agent had coaxed her to sell him liquor, the judge fined her one cent and scored the officer.

Charging that his wife said she "married him just for spite," W. F. Hughes of Memphis filed suit for divorce.

ESTABLISHMENT TOURIST CAMP IS PROPOSED

Committee Appointed to Meet With City Commission Monday Night.

Purchase by the city of the 20-acre tract known as the Chamberlain hills for the purpose of converting it into a municipal park or a tourist camp or both was endorsed by the Civic Luncheon Club at its Monday meeting.

Opinion of the members of the club present appeared to be unanimous for the purchase of the tract which was offered to the city recently by the sole surviving owner, Miss Eva Chamberlain, at a price of \$2,500, to be paid in five installments of \$500 per year, which payments will terminate at any time in case of the decease of the owner.

It was stated that the city might gain excellent publicity by installing a tourist camp on the brow of the hills and giving it suitable publicity along the route of M-60. The site commands one of the most beautiful outlooks in southwestern Michigan and is well located to satisfy the desires of tourists for a camp being off the main line of traffic and adjacent to a trading place with excellent ventilation during the heat of the summer.

Chairman Philip Landsman appointed the following committee to wait on the commission at its June meeting: H. B. Boyce, Glenn Smith, Herbert Roe, H. W. Riley, Dr. Paul Wallace, D. L. Boardman.

SENIOR EDITION OF MICROPHONE IN THIS ISSUE

Replaces Annual This Year to Cut Down Expense on Community.

On another page of this issue of the Record is published the Senior Edition of the Microphone, which takes the place of the school annual this year, and is also the last note of student journalism to be sounded in this paper for the present school year. The weekly efforts of the pupils will undoubtedly be missed this year. Some very excellent composition has marked the work of the budding journalists. School athletics have been handled by Maynard Post with a skill and style worthy of a more mature journalist. Other departments, notably "School Stunts," "The Inquiring Reporter" and "What the Well Dressed Student is Wearing" have been unusually clever.

The decision on the part of school and class officers to spare the local business men the expense of supporting an annual during the present year deserves public commendation. It is to be hoped that in future years the return of prosperity will justify the revival of the annual.

Chicago-Buchanan Society Picnic Dated June 27

June 27th has been set as the date for the annual Chicago-Buchanan Society picnic, according to a communication received from Claude O. Timmer. Roe this morning, at which time the members of Buchanan Foreign Legion from Chicago and other outside points will be welcome at a pot luck dinner at the high school building, followed by a session of reminiscing and singing of the ballads of Auld Lang Syne. Secretary Roe stated that notices will soon be sent out informing those interested of further details of the meeting. Plans are being made to secure a larger attendance this year. Mrs. Mae Whitman is in charge of local arrangements.

The plans were made public in talks by Miss Alice Rothenbach and Harold Bradford of the physical education staff and by Mrs. Reba Lamb, school nurse. The plans include the introduction of "corrective classes" for the purpose of remedial work in the correction of physical defects among the pupils. It is planned that more emphasis will be placed on this work that in the development of exceptional athletes, as in the past.

NILES-BUCHANAN HIGHWAY HEARING TO BE HELD SOON

Renbarger Announces Completion of Petition Among The Frontage Owners

Protest hearings preliminary to the construction of the Niles-Buchanan highway will be advertised in the next two weeks, according to Clarence Renbarger of Niles, under whose direction plans for the construction of the road have been pushed to completion.

Mr. Renbarger stated that eighty per cent of the frontage owners had signed the petition, which exceeds the legal requirement of seventy-five per cent, and a number of the remnant still holding out have signified their willingness to sign.

Tentative plans call for a twenty-foot concrete highway with an asphalt surface. The work may be done yet this fall, depending on the date of completion of the M-60 link from Niles to the Portage Prairie road, to permit of the use of that road as a detour.

Mr. Renbarger stated that the division of assessment burden between the various districts contributing to the expense had not been finally decided.

ORIOLES PULL GAME OUT OF FIRE IN 9TH

Small Crowd Sees First Class Ball Game Vs. Mishawaka Here Sunday.

The Buchanan Orioles won their second victory of the season in a thrilling last-minute come-back as was ever staged on a local diamond, when they edged out the Mishawaka Dodge team in the ninth with the score 1-0 against them and two down.

The contest was excellent baseball from the spectators' viewpoint, the two pitchers, Bob Morse of Buchanan and Opolt of Mishawaka pitching tight ball throughout the contest.

The Dodge nine scored a run in the fifth inning by taking advantage of two errors by Oriole players. From then on both sides were held scoreless until the ninth, when with two already retired, Chain reached first on an error by the visiting shortstop. Evans went to first on a walk, advancing Chain. Fred then hit into the hands of the shortstop, who made a wide throw to first, permitting Chain and Evans to cross the home plate.

Morse fanned 12 and allowed 3 hits. Opolt fanned 12 and allowed 2 hits.

Evans caught for Buchanan, while C. Rans was behind the plate for Mishawaka.

360 MUSICIANS PARTICIPATE IN BAND FESTIVAL

Head of Music Dept. at N. W. University Will Weild the Baton.

Records will be shattered and the welkin will resound and even a few walls may collapse in Buchanan next Friday afternoon when the greatest number of bandmen ever gathered on one platform in this municipality will strike up in unison under the skilled direction of G. C. Baimun head of the department of vocal and instrumental music at Northwestern University.

The occasion will be the second annual Berrien County band festival which is to be held this year in the grove north of the high school building on an improvised platform. Bands will attend and participate from Berrien Springs, New Buffalo, Three Oaks, Dowagiac, Benton Harbor, St. Joseph, Niles and Buchanan. Three hundred and sixty musicians will play in the eight organizations.

All the selections of the program will be played in unison, the idea of individual comparison and competition having been entirely eliminated from the Berrien County festival. This county is a pioneer in this form of high school music festivals. Many other counties of the state participate annually in the Michigan contest. The Berrien County idea has attracted much attention, however, and may supplant the competitive idea.

The program will be as follows: March, Washington Post, by John Philip Sousa. Overture, Masterblitz. Reverie, Sabbath Chimes. March, Shoulder to Shoulder, John Klorh. Chanson Triste, Tschalkowskii.

Motoring Bill Cut by Reducing Highway Lengths

The economies that go with proper highway building are frequently so startling that they may be difficult to believe.
 For instance, Minnesota this year will reduce her trunk highway mileage by eleven miles thru relocation of right-of-way for concrete highways. Estimating that the original roads carried 1,000 cars daily, as do many miles of Minnesota trunk roads, the elimination of these eleven miles will save 11,000 miles of travel daily. In the course of a year more than 4,000,000 miles of travel will be saved.
 But reducing this saving to dollars, it becomes even more amazing. It costs about seven cents a mile to operate the average car. At that rate Minnesota motorists will be saved \$280,000 yearly by the 11-mile reduction.
 Minnesota recently approved a \$15,000,000 bond issue for road

improvement. This saving of \$280,000 mentioned above is nearly equal to half the interest on a bond issue of that size.
 But the 1931 road program in Minnesota carries still more benefits for the motorist. Fifty-two sharp turns and nine railroad grade crossings will be eliminated

in the selecting of new locations for the concrete highways. This constitutes a noteworthy reduction in the hazards responsible for so many accidents.
 The shortening of highways nearly always accompanies permanent paving programs, and strangely, this is one of the bene-

fits rarely considered by the taxpayer when he goes to the polls to vote on highway bond issues. The longest way home may be the sweetest, but not the cheapest.

Noise is now PASSE

in automatic refrigeration

The absolute silence of Electrolux has made noisy refrigerators as passe as horse cars.

Electrolux is silent through-out its life—it has no "works" to make noise—ever

WHO wants to ride in a horse car today? And who wants to buy a noisy automatic refrigerator, when for the same price you can get a modern Electrolux, entirely free from noise and moving parts?

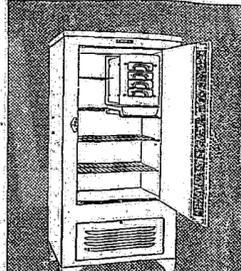

And this refrigerator costs less to use than any other kind—automatic or ice. 5 to 10 cents a day covers the entire operating cost.

A tiny gas flame and a small flow of water make Electrolux go. They act on a liquid refrigerant, which is hermetically sealed in rigid steel. This refrigerant is ordinary ammonia. The tiny gas flame is protected by an automatic shut-off.

The chilling action is continuous. Therefore, the cold in Electrolux is exceptionally constant and steady.

Men who know have put their O.K. on Electrolux. It has been installed in fine homes, big apartments, all over the country. More than 180,000 are now in use.

In fairness to yourself, you should see Electrolux at our display room before buying any automatic refrigerator. Made in 10 household models, ranging from 3 cu. ft. to 20 cu. ft. capacity. Despite the many advantages of Electrolux, its prices are no higher. For complete information by mail, telephone or write us.

GALIEN ROGERS FALL VICTIMS TO BLOOMER GIRLS

Feminine Athletes Nose Out Men Before Audience of 300 Spectators.

Nearly 300 witnessed the ball game Monday between the Detroit Colored Bloomer Girls and Galien Rogers. Although Galien fought hard to the last, they could not get the hit in the 9th inning with the bases loaded, that would have won the game. The final score was Detroit, 5; Galien, 6. The Galien pitcher walked the first two, then Elizabeth grounded to first, then a walk, a hit and one score came in in the first inning for Detroit. Six Galien men faced the big De-

troit pitcher in the first, but B. Unruh was the only one that succeeded in crossing the pan that evened the score. Each team was successful in scoring one run in the second and each received two in the third. The Detroit girls made their two in the fourth but Galien failed to keep the score even. The Galien team got 2 in the 7th and Detroit 1 in the 7th and one in the 8th. Galien used DeForest Hess on the mound in the last two innings as Kizer's arm was sore. Welch was the catcher. The girls are planning another game here sometime in September.

Galien Rogers Defeat Dayton Sunday 9 to 5

There will be a double-header baseball game played on the Galien diamond Sunday, May 31. Buchanan's second team will play

at 1:30 (fast time), and Hudson Lake's first team at 3 o'clock fast time. Admission 35c for both games or 25c if you get there in time for the last game only. The game last Sunday was a red hot game. Galien defeated Dayton, the score being 9 to 5. The game was played at Dayton.

REV. SLEE TO BE MEMORIAL DAY SPEAKER

Galien to Honor Dead at Program at Cemetery Saturday Morn.

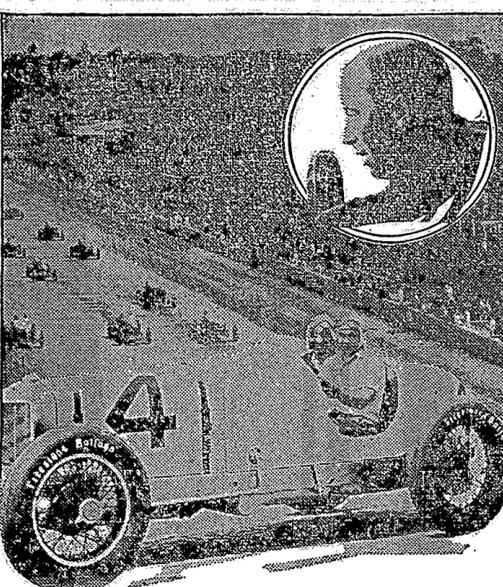

The following is an outline of the Memorial Day program which will be carried out in Galien. The parade will leave the Odd Fellow Hall at 10 a. m., fast time, headed by the Buchanan high school band, followed by the G. A. R., American Legion, Auxiliary, Boy Scouts, Odd Fellows, Rebekahs and school children. Taps will be given by Warren Nelson, "Gettysburg Address" by Robert White. The graves will be decorated with flowers and flags. Rev. W. W. Slee of Niles, will give the address. Col. Seymour will be officer of the day.

Memorial Day is sacred. Every one should go to the cemetery instead of to the races and ball games because of the debt of gratitude we owe to those who have gone before and sacrificed their lives that we might have our country as it is today. Is it enough to place the little flag over their graves? Is it enough to have the guns crash in their honor? No, tribute must be paid to the spirit that actuated these men, the spirit that has made America the nation that it is today. The proof that from the melting pot of the world, a new nation has arisen, new ideals, new aspirations and ancient hopes. Memorial Day—to the dead, rest; to the living, hope.

Lansing Minister Gives Address at Galien Graduation

Commencement exercises were held Thursday evening in the M. E. church. The church was beautifully decorated in flags and flowers. The high school Glee Club sang several selections. Rev. Glenn Frye, of Lansing, gave a splendid address on "The Legacy of a Home." Dick Norris, president of the class, gave a farewell address to the class and the teachers.

McNamee To Report Auto Classic

Indianapolis Speedway—McNamee at the "mike." Billy Arnold and mechanic.

GRAHAM McNAMEE, radio's ace reporter of sporting events, has again been chosen as the nation's eye-witness for the 500-mile auto race classic at Indianapolis on May 30. The Firestone Tire and Rubber Company will sponsor the last and most exciting hour of the race. Perched high in the glass-enclosed pergola near the finish line, McNamee will describe the shouting thousands in the stands, the milling hordes afoot inside the track, and the grueling tussle of 40 of the world's most famous racers in their grim race with death. McNamee says the Indianapolis races surpass all sporting events for excitement. He will take the air at 2:15 p. m. Central Standard time and will tell his story over a network of 55 stations in the United States and Canada, including WEAF and the NBC red chain. Four former winners are entered. A win is worth about \$50,000. It is said that all former records will be broken. (Broadcasting Time: 3:15 Eastern, 2:15 Central, 1:15 Mountain, 12:15 Coast. Daylight Saving one hour earlier.)

Prof. H. A. Laycock presented the diplomas. The class motto was, "Labor Overcomes All Things." Ruth Shafenberg was salutatorian and Thelma Lintner was valedictorian.

increased greatly in the past few years when economics in production costs have been necessary to obtain any profit from farm crops, but many years will be needed to correct the acidity of soils in Michigan. At the present rate of applying the different forms of lime, it will take 60 years to make the necessary first applications. Records obtained by the soils department at Michigan State College show that the use of commercial fertilizers increased by 43,000 tons in Michigan last year, and the farmers of the state are now using better grade fertilizers which contain a larger amount of plant food and smaller amount of filler per ton. Lack of organic matter in some Michigan soils has become a limiting factor in crop production. The college soils specialists recommend the use of shorter crop rotations to enable the farmer to plow down legume sods often. Sods which are to be plowed down should be permitted to develop a heavy growth.

Poor Pastures Make the Farmer Hunt a Remedy

Low priced grains are remedies suggested for use by Michigan farmers who have been compelled by short pastures to ask the dairy department at Michigan State college to suggest ways of maintaining the normal milk flow of their herds this summer.

Wheat and oats are good grains for use in summer feeding because they furnish large amounts of digestible nutrients and keep the animals in good condition. One pound of grain mixture for every six pounds of milk produced is the recommended rate of feeding.

A mixture of 500 pounds of oats and 300 pounds of wheat contains 9.3 per cent of digestible crude protein. The amount of protein in the grain ration can be raised to 11 per cent by adding 50 pounds of cottonseed meal to the wheat and oats mixture. The higher rate of protein is needed by cows running on poor pastures.

The grain mixture gives an immediate return in an increased milk flow and it helps to keep the flow at a profitable level. The grainfed cow also is kept in better bodily condition and will enter the fall and winter seasons in shape to produce milk efficiently.

Canada's Beginning Canada was founded originally by fur traders and at one time supplied virtually the entire civilized world with furs.

Soil Will be Examined on Michigan Farms

A traveling soils laboratory carrying specialists in soils improvement will be in 25 Michigan counties this summer to make recommendations to farmers about methods of building up soils of which samples will be tested on the truck. Interest in soil improvement has

Mr. and Mrs. Wisner will be ready to greet their many friends and customers with their house in order by Thursday. No great amount of damage was done.

The Treat family enjoyed a very pleasant evening at the home of Mr. and Mrs. W. B. Rynearson last evening, the occasion being a surprise in honor of Mrs. Rynearson's birthday. OUTSTANDING STUDENT

Roger Thompson, picture above, was named the outstanding student of the class of 1931 on the basis of his record throughout four years, the selection being made by the faculty.

Class History

The ringing of a school bell, on a rainy day in September, 1919, was the beginning of the career of the class of 1931. Our "Little Red Schoolhouse" was the white brick building on Dewey and Moccasin Avenues.

We were very deeply interested in the quest of knowledge during our second year. However, we were better acquainted the next year, and feuds and quarrels predominated.

The excitement of our fourth year at school will we ever forget the enjoyment of the new building, of getting lost in its mammoth halls?

We passed peacefully past the fifth grade, and into the sixth, where, due to Miss Hazel Easton's untiring perseverance, we won the Buchanan school banner for that well-remembered Music Memory Contest.

September, 1925, saw us entering the Junior High. We strolled down the halls, imitating the older scholars, dashing into the nearest room the minute a bell rang.

Teachers, and disappearing entirely when Mr. Orniston came in view. One year was soon over and as eighth graders, we became more prominent.

Many of our boys were on the junior basketball and track teams. Dick Chubb was awarded the citizenship medal for the junior high.

September, 1928, saw us entering the Senior High. We strolled down the halls, imitating the older scholars, dashing into the nearest room the minute a bell rang.

Teachers, and disappearing entirely when Mr. Orniston came in view. One year was soon over and as eighth graders, we became more prominent.

SENIORS PLAY MUMMY BRIDE TO CROWDED HOUSE

Audience is Entertained by Sparkling Rendition of Comedy.

The class of 1931 presented their commencement dramatic offering, "The Mummy Bride," before an audience that packed the high school auditorium to capacity on Friday evening.

The production was of the high grade which has characterized the school productions under recent direction, and provided an evening of high class amusement.

Heavy speaking parts were carried by Roger Thompson as Carlton Willard, "Harvard '28" and by Richard Brodick as Aloysius Plopp, the illustrious archeologist.

Both young men gave spirited and competent renditions of their parts, their successful clowning being a main factor in the success of the production.

Lazell Weaver was a comic hit in the part of the English clergyman, done in the traditional stage manner very competently.

Mary Jane Harkrider, Wilhelmnia Parr, a young lady from Boston, Finn feminine parts were taken by Cleo Cook as Madeline Heloise and Clarice Banke as Miss Muggs.

Richard Chubb as the U. S. Consul at Cairo, Wilfred Ellis as governor of Egypt and Carl Linsenmier as Col. Bizet, rounded out the cast with good performances.

The selection was by the ballot of the entire student body.

Carl Linsenmier's original jokes to Jim Eisenhart. "Ann" Rothfuch's mile to Crick-et "Booster" Marrs.

Jim Postelwaite's married life to "Oozy" Letcher and Thessel Mitchell.

Lenna Thompson's way with men to Letha Platz. Jeanette Upham's complexion to Nellie Hayes.

Helen Schmalzried's needed assistance to... (No one else is capable) Florence Shipperly's reducing ambitions to Dorothy Holmes.

Dorothy Swartz' shadow to Marie Hess. Ernest Beadie's ability to pole vault to Lowell Batchelor.

Leo Boyce's "angelic qualities" to Marie Post. Harold Boyce's "pull" to Joe Heim.

Robert Kell's manly shoulders to John Nelson. Genevieve Metzger's beauty to Marie Post (not that Posty needs it, tho).

Margaret Kuntz' daily ride with Marion Mitchell to Florence Franklin. Paul Letcher's whiskers to Mr. Robinson (in hopes he can grow a goatee).

Bernice Lomlaugh's "sex appeal" to Dorothea Rothfuchs. Enid Reams' ambition to be an old maid and serve pink tea and cups to Vivian Wissler.

The Shultz twins leave their basketball abilities to Lyle Bachman and Jesse Leggett. Ruby Robe's innocence to Kate Portz.

We also leave all our much loved and well kept history books accompanied with our Civil government notes to the Senior Class of '31.

Signed by the Senior Class of '31 Witnessed by: The Honorable Boyce Cousins: Baby Leo George Elliot (Buchanan's most noted prevaricator.)

Velmarian Lit The Velmarian Lit under the leadership of Mrs. Dunbar has had a very active year.

The club is composed of the students taking Senior English. Meetings are held on the last Friday of each month, programs being prepared and put on by the students.

Our club started the ball rolling this year by taking first place in club floats for "Booster Day" when to show that our hearts were in the right place, we put on an All High School party, which was a huge success.

This being probably the biggest body in a general assembly program. We have written poetry, short stories, and plays, so our club has been a very educational and beneficial one as well as an interesting one.

One of the main objectives of the club is to learn parliamentary law, for this reason we have elected officers three times during the year. At present our officers are: Richard Brodick, president; Ralph Zerby, vice president; Helen Schmalzried, secretary; Roger Thompson, literary critic.

Memoiselle Alene Huff has a dancing school in Chicago. She says she got all her necessary training getting her class mates ready for the "junior-senior" hop back in '31.

As I saw Maurice Frank I hardly recognized him, for he had long flowing hair of a musician and wore a big red bow tie, playing softly on his violin, accompanied by Paderewski.

Next was a great banquet scene. Notre Dame was celebrating their most successful year since the late Knute Rockne's death. Of course the banquet was in honor of Ralph Zerby, their new coach.

Then I found out that after Clara Boyce's death a few years ago, Doris Whitaker's brilliant flight had been brought her much fame. She is now considered the "it" girl of all film land.

Lazell Weaver appeared, our surprise was almost a shock, for we found that through all these years this handsome, sentimental gentleman has remained an old bachelor.

I caught sight of Dorothy Swartz just in time to see a large, quietly slipping away to Europe to elope with Louie, one of her French friends, and I smiled as I thought of how that charming romance first started in our French class of '31.

Virginia McCormick is carrying on the great work of Amy Semple McCherson and now, through her channel, has the power to heal anything from a cancer to the seven-year itch.

Milford Schultz is making use of his great ability to talk, by selling snake oil in a medicine show. Contrary to our beliefs that she would be the first woman president of the United States, Jeanette Upham has revealed her late marriage to the owner of a diamond mine from South Africa.

More news from the tropics has reached us, that of Lenna Thompson having made several thousand dollars teaching the cannibals to play "Tom Thumb" golf. She has now returned to her chateau in southern France.

Clell Sult has married the fat lady of Ringling Brothers circus. Paul Letcher is an English professor in the University of Mississippi.

Another great honor for our class is that Irene Denno is the first woman mayor of Chicago-a special Republican who is putting an end to the crime wave in that city.

Helen Schmalzried is busying herself at housekeeping, while she is still trying to decide whether to be a dress designer or a home economics teacher.

William Schultz has become nationally famous by the jokes he cracks for a minstrel show over WBBM every Wednesday night. We saw Mike Boyce as Buchanan's funeral director. He said he took up the work thinking that Richard Brodick was going to be a doctor, but since Richard gave up this idea, business has not been as good as he had hoped.

As we noticed Basil LeCave he seemed quite excited. He has succeeded in becoming a justice of the peace and was just performing his first marriage ceremony.

Next, we saw Harold Boyce, now society editor for the New York Times, busy taking news from all the good looking society women.

Florence Hansen, the well known sportsman back in 1931, has just recently returned from a hunting expedition in Africa to give a lecture at the Princess theatre on "Why the Wild Life Appeals to Me."

Wilfred Ellis has become very successful in the Ward Mailbox company with Cleo Cook as his bookkeeper.

Mildred Brewer seems to be occupying her time quite nicely. She is clerking in one of the downtown department stores and has taken up modeling as a sideline. We might also say, she hasn't lost any of her bravery living in New York City.

Ernest Beadie is "going" from house to house tuning pianos and offering to do a good job cheap. After all of Carl Linsenmier's time devoted to the senior play back in 1931, he has turned out to be a famous actor. He is now living in the big city of Niles.

Arnold Rothfuchs with his roaming disposition has finally decided to settle down and be an old bachelor patching shoes.

Bernice Lomlaugh, whom we had all pictured as a famous teacher, has turned out to be a nursemaid and is now teaching little children to count their fingers.

We saw some of the party drive up to a filling station and to our great surprise there was Claude Imhoff, the attendant.

Mickey Kuntz has become famous the world over for her diligence in swimming the English Channel. Her record is in the Guinness records by a difference of five hours.

After I had asked Amereaces about all the members of the class I bade him farewell, and he quietly walked off into the water with a faint splash.

Junior-Senior Reception With the seniors of '31 playing their final game with the juniors of '31, the gymnasium was converted to a golf course where the greatest social event of the year, the Junior-Senior reception, took place.

At six-thirty the groups slowly entered the halls where the room as well as the table carried out the golf scene.

The boys were presented with golf pencils while the girls received candy corsages.

After a very delicious chicken dinner, prepared by the Presbyterian auxiliary, the speakers of the evening were introduced by the toastmaster, Eugene E. Hubbard. The theme of the golf course was carried out in the speeches given by the following:

Introduction toastmaster, Lazell Weaver. Toastmaster-Mr. Hubbard. Welcome-Léo Boyce. Response-Harold Knight. "Equipment"-Ray Barbour. "Being Off"-Mr. Knoblach. "Best Way to Get Out of a Sand Trap"-Richard Zerby. "The Lost Ball"-Sheldon Ryan. "Coming Out of a Hazard Into the Fairway"-Roger Thompson. "Putting"-Robert Dempsey. "Counting"-Maynard Post.

The music of the evening was furnished by Carl Keitzer's orchestra of Beethoven Harbor.

SENIORS PLAY MUMMY BRIDE TO CROWDED HOUSE

Audience is Entertained by Sparkling Rendition of Comedy.

The class of 1931 presented their commencement dramatic offering, "The Mummy Bride," before an audience that packed the high school auditorium to capacity on Friday evening.

The production was of the high grade which has characterized the school productions under recent direction, and provided an evening of high class amusement.

Heavy speaking parts were carried by Roger Thompson as Carlton Willard, "Harvard '28" and by Richard Brodick as Aloysius Plopp, the illustrious archeologist.

Both young men gave spirited and competent renditions of their parts, their successful clowning being a main factor in the success of the production.

Lazell Weaver was a comic hit in the part of the English clergyman, done in the traditional stage manner very competently.

Mary Jane Harkrider, Wilhelmnia Parr, a young lady from Boston, Finn feminine parts were taken by Cleo Cook as Madeline Heloise and Clarice Banke as Miss Muggs.

Richard Chubb as the U. S. Consul at Cairo, Wilfred Ellis as governor of Egypt and Carl Linsenmier as Col. Bizet, rounded out the cast with good performances.

ATHLETICS

Carmen Postlewaite Harold Boyce Fifty-two wins and twenty-one losses in basketball, twenty-two wins and four ties in football is the record of B. H. S. for the four years in which the members of the class of '31 have been eligible for competition.

In this time B. H. S. has entered 134 contests, winning 87 of them, an average win of 64 per cent.

Two members of this class have been elected captains of the teams on which they played. "Spot" Dempsey was captain of the 1930 football team and Milford Schultz was captain of the 1930-31 basketball team and the 1931 track team.

Inter class athletics have been popular in high school for many years and have developed some of the best athletes in the area. The senior class of '31 won both the inter-class basketball and track championships this year.

Football With only eight letter men back and a small amount of reserve experience "Curly" faced a large handicap for the 1930 season. Although B. H. S. won only three games of a nine game schedule, the 1930 edition of the "fightin' outfit" was, by no means, as keen to be ashamed of. They played a hard fought game and were never beaten until the final whistle had sounded.

Basketball Basketball for this year was nothing more nor less than a "fair season." They lost most of their games in the first part of the season but began to "click" toward the last. They won ten games of an eighteen game schedule. They won the district tournament at Hillsdale, the Spring Regional at Spring and Cassopolis. At

reason for we find that Nina Huff did the same thing. Perhaps they were afraid of the "try-outs." We are glad to find some were not afraid to "try-out" anyway, and we find Doris Whittaker, Mary Howe, and Geneva Metzger, who were all three in the club their last two years.

'31 Pioneers in New Type Commencement

The class of '31 will be remembered for one thing if nothing else. We are the first class graduating from Buchanan high school to try out the new type of commencement program. This program has been tried out in other schools and has been found to work very successfully.

Orchestra

The life of the orchestra has been ten years longer than that of the band. The first real orchestra leader to be hired by the school was Miss Easton. Under her guidance, and that of the following instructors, the orchestra has steadily grown and improved.

Girls' Glee Club

"Music is the staff of life," so the old adage goes. If that holds true, it seems that several seniors have staffs as far as the girls are concerned. Let us see who are those who have taken part in the Girls' Glee Club? Oh yes! There's Lucille Andrews. She has spent four years in that organization, and after interviewing Lucille, we find that she is very satisfied, and has had fun at the several concerts attended.

College Show Draws Record Chick Entry

The distinction of planning and managing the greatest chick show ever held goes to the Michigan Poultry Improvement Association and Michigan State College where 10,000 baby chicks belonging to 7 exhibitors located in 11 different states competed for an array of silver trophies and other awards.

Word Long in Use

The word "electricity" was first used by W. Gilbert in his treatise "De Magnete," 1600. The adjective "electric" in this sense was used as early as 1703 by Coleridge in his "Songs of the Pious," in which he says, "The electric flash that from the molting eye darts the fond question or the soft reply."

Noted American Statue

"The Christ of the Andes" was cast from an old Argentine canon by a young Argentine sculptor, Matea Alonzo. It was dedicated March 13, 1904, and bears the inscription: "Sooner shall these mountains crumble into dust than Argentines and Chileans break the peace to which they have pledged themselves at the feet of Christ, the Redeemer." The statue stands on the boundary line between Argentina and Chile.

Bankers Seek Methods to Assist Farmers

A concerted effort on the part of the bankers of Michigan to aid in bringing the business of farming to a better economic state, is to be planned at a meeting which will be attended by bankers, farmers, county agricultural agents, and members of the staff of Michigan State College at that institution May 27.

Halos Around the Moon
Sun dogs are technically known as parhelia and appear when sunlight shines through a thin cloud composed of ice crystals floating in the atmosphere. Like numerous other halos, they are the result of the refraction of the sun's rays by these crystals. Rings or halos around the moon are caused by the action of ice particles or of cloud or mist on the moon's rays.
