FIRST NATIONAL BANK GETS CHECK TO COVER BANDIT LOSS

Niles-Galien M-60 May Not Be Through But the Superintendent Is ONE DEPARTMENT

Now Here's the Proposition

HAY FEVER Bi Haws

'Tis the melancholy day When the fever of the hay Through the bailiwick holds sway Whack-ker-choo! Now the pollen in a cloud Settles down upon the crowd And you hear the victim's loud

Now the potent germs of sneeze Ride abroad upon the breeze— Pardon—just a minute, please— Waw-ker-whoop! There's a tickle in my nose And the oozly-goozlum flows Till I need a three-inch hose Alley oop!!!

Like an old hen with the roup From our beaks we swab the soup, Whack-ker-choo and Waw-kerwhoop !!!

Its a crime! Now the goin's getting tough, We've had summer long enough Now Jack Frost can do his stuff Any time!

sez, the less a man knows, the of termination were wholly unmore cocksure he is in his judgments on other folks.

All We Need is a Flagpole

The sitting marathon idea was revived recently with a difference -a University of Wisconsin coed broke the flagpole sitting record for her sex by remaining perched at the top of a 45 foot pole on the roof of a five story building for 121 consecutive hours Well, we've got some wonderful sitters in Buchanmake Shipwreck Kelley look like an amateur if force out the muck. The work we could just get them on a flag-

Case of Remarkable Memory Explained

There is said to be one Buchanan man whose memory is so impeachable that every time his wife asked him to bring home some groceries of a Wednesday afternoon he recollected that the stores are closed at that time. (N. B. He is a clerk in a grocery store).

RIVER ROAD TO BE COMPLETED IN THREE WEEKS

Charles Young farm. The Best stone road is now open to traffic, although the sink fill is not entirely done.

New M-60 Has Wreck Baptism

The first, but perhaps not the last, wreck on the new Niles-Galien unit of M-60 occurred late by McCracken headed diagonally Sunday evening when a car driven across the highway at him, strik- steam heating plant, and remodellatter was returning from Niles in over and came on into Buchanan company with Milford Schultz and under its own power. McCracken

C. J. CARROLL JOINS HOOVER IN MUM POLICY

State Engineers Finsh Jetty Work on Pike and Dayton Lake Flls.

C. J. Carroll, engineer in charge of construction of the Niles-Galien link of M-60, has joined President the Record this morning.

"I'm through-all through!" he declared, throwing both hands in the air as he was asked for the status of construction this morn-"After reading the stories in the _____ and the ____

(mentioning two daily papers of the district), I have decided that I will give no more information." "Were you ever misquoted in the Record?" he was asked.

"I don't know," he answered. "I haven't read your articles, but just the same nobody gets a chance to misquote me after this.' Carroll permitted the inference to be drawn that press stories cir-

founded. A party of engineers from the state highway department were ordered to cease jetty operations at the Dayton Lake fill Monday morning, after working a week at that place. During that time the fill had been settled about two feet by the water, which had been injected into the basis of the fill through pipes from 19 to 50 feet long, with a 500 gallon power

ly been satisfactorily settled several feet by jetty work. Dynamite work last year had failed to work would have been compara-

tively easy.

It is possible that jetty work may be done on a third fill to the west of the Dayton road crossing.

BUCHANAN SCOUTS OFF SUNDAY ON 2600 MILE TRIP

Eagle Tour of Appalachians and Return Washington, D. C., and Akron.

Three Buchanan boys will leave South Bend Sunday on the Appalachian tour by the Eagle Scouts of Eagle rank in the Berrien-Cass area, with a prospective itinerary of 2,600 miles, including stops at Akron to see the great Goodyear dirigible.

Those making the trip from Bu-chanan will be Robert Strayer, George Spatta and George Rem-ington. Ten other Eagle Scouts from the area will comprise the party with Oscar Noll, Berrien Cass executive, Frank Runyon, field executive, Chesteen Gebhart, Niles Scout executive and William Stephens as drivers of the four

The start will be made at 6:30 a. m. Eastern Standard Time from the Palace Theatre at South Bend. The expedition will go east by way of Pittsburgh, and thence to Washington, D. C., Newport News, Civil War battle fields, The Great Smoky Mountains, North Carolina, Mammoth Cave and return by Akron. They will visit on the return trip, at Line visit on the return trip at Lincoln's birthplace.

It is anticipated that the cost will be from \$30 to \$35 each.

DISCONTINUED

Long Periods of Supervised Study are Main Departure of New Year.

Buchanan schools will open on Sept. 8 for the 1931-32 session, according to an announcement by Supt. Harold Stark this morning. with the new system of 55-minute periods of supervised study as the main feature of innovation.

The six-period system supplants the old system of eight periods of 45 minutes each, for the upper six grades comprising the junior and senior high school. group the sessions will open at 8 a. m. in the morning, with classes beginning at 8:10 instead of 8:15 a. m. The afternoon session will open at 1 p. m., with classes as-sembling at 1:15 p. m. and continuing until 3:35 p. m. There will be an additional period of 25 minutes for general activities.

One fourth grade class former-y taught by Miss Hollis Clayton at the high school building has been discontinued as an economy move. Mrs. Lura French, former instructor in the fourth grade at the Dewey Avenue school, has been appointed English instructor in the junior high school. Miss Hollis Clayton is now at her home at Leola, S. D., where she went to care for her invalid mother. Her mother died about two weeks ago. The plans of Miss Clayton have not been announced.

There will be a full complement of grades from the first to the 12th, kindergarten excepted, at the high school building, while two sessions of kindergarten, morning and afternoon, and the four first grades will be taught at the Dewey Avenue school.

Kindergarten pupils will be accepted who are not less than four years and six months of age at the date school opens.

Books for grade subjects will be purchased at the Binns Magnet

Valuable Advice

Don't sign your name to any paper unless you know absolutely what it is you are binding yourself

When anyone asks you to sign your name remember it is for the purpose of putting you in a position where you can be forced to do something which you might not do if you had thought it over.

Before signing any paper read it over thoroughly and know what it means.

If you are asked to sign an application for insurance remember this advice and read the insurance policy and application before you sign.

It may save you embarrassment, money and loss of time to make this an iron clad rule.

An old line stock company does not ask you to sign an application for automobile insurance.

Republic is an Old Line Stock Co.

ROUND ABOUT BUCHANAN

FEW THOUGHTS ON GARBAGE

Several citizens have in the course of the present sum-this week at the home of her sismer pointed out to us that in the matter of garbage disposal ter-in-law, Mrs. Hazel Hartline. the city of Buchanan is still somewhat less than a real city.

It is a common practice in other cities to grant the garbage-gathering consession to one person, who may be paid a reasonable compensation for the services of gathering the son of Niles, spent Friday evening refuse at sufficiently frequent intervals to prevent it from becoming a nuisance during hot weather. The rate of compression of Niles, spent Friday evening at the home of Willis Delibac.

Mrs. Ray True and Mrs. Ray True and son of Niles, spent Friday evening at the home of Willis Delibac.

Mrs. Venus Delibac is much improved after her long illness and is pensation usually takes into consideration the fact that the able to be about the house. garbage itself has some value for feeding hogs. The contractor is bound by his contract to a certain frequency of Sunday at the home of her sister, rounds. The resident is required to place the garbage so Mrs. Ray Warner of Dowagiac. that it is reasonably easy of access.

A monopoly of the concession gives it a value to the con- Oscar Morris. tractor. The city pays whatever compensation is required on the grounds that control of the situation is an essential this week at the home of Mrs. H. of public health.

Where garbage is not systematically taken care of it may easily become a menace to public health, as a little LaPorte, Ind., Saturday, prouding around the rearwards of residence lots will easily Mrs. Mae Hoban of Chicago is prowling around the rearwards of residence lots will easily convince.

TES, WE HAVE NO SUNBONNETS

How many years before the circling cycles of style bring home of Miss Marie Hess. us back to the sunbonnet?

Driving along the highways and byways of the country districts, one may occasionally observe a woman with a of Miss Ethel Bibley. sunbonnet. But the ladies' furnishings stores know noth- vacation from his duties at the ing of them nor have known anything for years, according to statements of the clerks. They, for as many as fifteen years, have been superseded by the wide-brimmed straw.

Vacation from his dut Buchanan State bank.

Friends of Mrs. Del will be very glad to she is greatly improve

The stray is doubtless more sensible and comfortable than the hot, close sunbonnet, which in a way connoted the over-reticent dress of Victorian days. However, the straw hat is in itself a revival of an earlier style. Didn't Maude Muller wear a hat in the hayfield, or are we rusty on our

We suppose the ladies who still wear sunbonnets buy their materials, an outer gingham and an inner stiff material, and make their own. Well, let 'em stay by their sunbonnets. The girls will catch up with them again, sooner or later.

SHAMED OF HIS HOME TOWN

While residing in a state which has been described by an enthusiastic native song writer as a part of "the far and is a guest this week at the home mighty west," we chanced to know a man who was ashamed of her brother-in-law, Philip of his home town. This man had opened an office for the Frank. practice of law in a prairie village but whenever he went to the state capitol, on business or otherwise he signed himself on the hotel register as a resident of the largest city of Mrs. James Peacock. the state. It seemed that he was able to swagger through the lobbies with greater eclat if the clerks and fellow patrons thought he came from a big town.

As might be expected from a man with such a distorted sense of elementary values, this attorney soon committed apolis, Ind., was a guest during acts in practice which offended not only the sense of decency of his fellow townsmen but the laws of the state as well. The fellow townsmen met in private conference on his delinquencies. They were humane and decent men and were furthermore rather proud of the town that he had been er, Tom Burk, Main and Dewey. ashamed of. They took into consideration his innocent ready solved their text book probwife, and the fair name of the community. They finally lems. Are you wise? Do it now. decided that no charges would be perferred if the guilty man would agree to leave town and never return. He assented to the arrangement and slunk away, accompanied by his faithful wife, followed by the contempt of the village which he himself held in contempt.

After all no man is really bigger than the community in which he lives and there is no more honor living in Chicago than in Bakertown.

We often run into fellows with superior complexes of the same kind. They usually remind us of the Wyoming

A ND THE DEAF

WERE MADE TO HEAR

While the results of some inventions are such as to cause occasional regrets for the mechanical simplicity of the stone age, there appears now and then an undoubted benefit that persuades us that after all "the world do move."

A week ago Saturday we sat in the front row at the Tri-

County Farmers Picnic at Crystal Springs, listening to the addresses of the governor and other eminent men.

As we listened our eyes strayed to the other end of the front row and lo and behold! there was Burns Helmick with a look of attention and interest on his face, taking in every word. We had attended several meetings in the past at which Burns was present and had seen him sitting oblivious of the program, shut in by a wall of deafness. But because of the fine acoustic results of the public address system installed at the Crystal Springs auditorium, he was able to hear the first public speech he had heard in years. Every word of the speaker was carried with a penetrating distinctness throughout the auditorium, and deaf indeer

must have been the listener who could not tune in.

And that, as two eminent gentlemen of the radio world would say, "is som'p'n."

WHEAT IS GOOD FOR CHINA IT OUGHT TO BE GOOD FOR BUCHANAN

city commission materializes.

Buchanan may just possibly emulate the example of the federal government and Mr. James Legge by taking a flier in wheat, in case the plan of an enterprising member of the

According to his plan, the city would buy wheat and take it to the mills and exchange it for flour. There is a standing arrangement at a number of mills in this section

that 36 pounds of flour will be exchanged for 100 pounds of wheat. In that way the city would be taking care of its poor and doing its bit for the distressed farmer.

It is no matter for doubt on the part of anybody as to what will happen this coming winter. There will have to be as much relief work as there was last winter. Those who can will again be asked to go down into their pockets to help those not so fortunate which is no more than right.

It seems unfortunate, with this certainty of want staring the community in the face, to see hundreds of gallons of fruit wasting, and garden vegetables coming to a like end all around. Undoubtedly hundreds of bushels of second grade apples will rot in this vicinity. Peaches and pears will go the same way. Wheat that would normally go to human consumption will be fed tohogs and cattle.

And there is undoubtedly no practical way to effect a

workable contact between the waste and the need.

It has been suggested that the federal farm board turn over that 200,000,000 bushels of wheat it has on its hands to the starving of China. Why not to our own hungry?

Subscription Price Berrien and St. Joseph Counties

Otto Knudsen, an Eskimo of the Faroe Islands, went crazy upon seeing his first motion picture and had to be taken to a Copenhagen asylum for treatment. We can readily understand how a highly emotional person might be so af-fected by some of the movies we

have seen.

A hand operated spray gun has been developed for cleaning automobile windows and windshields with a special solution that is effective against grease.

Katherine Rawls, 14-year-old

junior high school pupil of Holly-wood, Fla., dethroned a long-reign-ing swim champion and set a new world record.

"MINUTES OF GALIEN TOWNSHIP ANNUAL SCHOOL MEETING The annual school meeting of the qualified electors of Galien "Township school district met at the town hall at 10 a. m., Monday, ...July 13, 1931, for the purpose of electing one school trustee for the

term of three years, and for such other business that might be brought The election board was organized at 10 a.m. consisting of the "following, O. W. Grooms, Morton Hampton, Carl Renbarger, Ernest

James and Clark Glover. moved by Grooms and seconded by Renbarger that they be approved

Holmes Tells of Wild Pigeons of Galien Woods

Cedar Rapids, Ia. with their eyelids stitched together

Editor Record, The recent murder in Washtenaw county is a vivid reminder of bed of ground with wheat and the unfortunate fact that Michigan when ever a flock came in sight has no capital punishment law, he threw his stools out onto the and needs one. Such fellows as bed and the flock would alight, did that murder are not fit to live, and when he got as many as his even in Marquette prison.

Dr. Roe and I have been invited his trap and a net was thrown to tell just why that great tract over the lot, and he had only to of heavy timber lying west from pinch their heads and set the trap Buchanan was called "Galien for another lot. I met that chap Woods" and I have been waiting one evening on his way back to to hear the doctor tell us about it. town and he told me his catch The first thought is, because they for the day was 163 dozen. Is it were in Galien township, but that a wonder they are extinct? I am is not fully correct for that tract unable to find any connection of covering all of the west part of all this with the name "Galien." Buchanan and Bertrand, all of Must be very distant relationship. Galien, Three Oaks, Weesaw, Lake and New Buffalo, running north for Fisherman Kean. About a as far as the "Big Meadow" and half mile south of the state line south into Indiana was included in directly south of Bakertown is a that title. I see the guess of small lake called "Deer", in which Mr. Fox but am a lot skeptical there used to be great numbers about that. The Michigan pheas- of bull frogs that grew to from a ant (grouse) when he wants to foot to twenty inches in length, call his wife, simply jumps onto a As a lad I took walks along the dry log and pounds it with his south shore of the lake and every wings, and his call, as near as I few feet along the way one of can express it with my Underwood those fellows would let out a yelp would be (short u) tu___tu__tu and jump into the water, skipping tu__tu__tu__tu__tu__t the French along the surface a rod or more name for grouse is "coq de bruy- and dive. They may be as with ere." For pheasant is "faison."

The messenger pigeon, mentioned by Mrs. Winch had a call that somewhat resembled the last syll- hook, to be dangled in a few lable in the call of a benton in the call.

able in the cackle of a bantam inches in front of Mr. Frog's hen; the first after she gets thru nose while he is sitting on the saying "cut cut." He can be bank. It might be worth trying heard forty or more rods. Those out. This afternoon I was called to the door to meet a man and found birds were there by the millions, but are said to be entirely extinct. Some fellow from Buchanan came it to be none other than "Barney" out to the William Burrus farm Rynearson, who was here with his and trapped them. He had a bed of daughter, her husband and two of dirt thrown up as with a plow, his grandsons, driving through over a space of about 15x40 feet. from Chicago to Des Moines. The Out to one end, perhaps thirty feet only thing wrong with his stop her had a cover for himself to here was it was a week too short.

camp at Sister Lakes. The East family reunion was neld at Birch Lake near Vandalia, Saturday. About 150 were pres-

GALIEN 10 YEARS AGO
The Lavina Aid Society of the
Olive Branch church held their regular business meeting last Thursday afternoon at the home of

Mrs. Richard Olmstead. Quite a number from this vicinty attended the Sheeley reunion at Hudson Lake last Sunday, which

was a very enjoyable affair. There was a bumper crowd at the Galien band concert last Thursday evening, the town was surely "chuck full" of folks and everybody enjoyed the music to

the limit. Dick Dalrymple had his tonsils removed last week. Dr. Babcock performed the operation. J. H. Renbarger of Kalama-

zoo spent Wednesday night with his son, Carl and family. Mrs. Minerva Davidson of Detroit is a guest of Mr. and Mrs. James Renbarger this week.

Mr. and Mrs. A. S. Roundy, Mrs. William Slocum and daughter, Hazel, and Miss White were in Niles Monday.
Mr. and Mrs. Fred Moyer from

Buchanan were among the 49 that registered at the Slocum hotel or chicken dinner Sunday. Sibley Allen from Washington, D. C., arrived Monday to enjoy a three week's vacation with his parents, Mr. and Mrs. Dave Al-

Miss Lida Slocum who has enjoyed the past two months at the returned to her home in Chicago, ast Sunday.

Miller District

Anyone having Miller District tems call 7125F3 Mr. and Mrs. Emit Green of Chicago were visitors of Mr. and Mrs. H. H. Hansen last week. The Harry Banke family were Sunday evening callers at the E. O. Sult home.

Jene, Renota and Emily Ditgen of Chicago were visitors at the E. O. Sult home a few days last

Marret Green of Chicago returned home with his parents after a six weeks stay at the H. H. Hansen home. William Dewalt spent a few

days at the Ira Neiswender home Mr. and Mrs. Nicolai and grand-

children, Ruby and Jimmie Scott of Indianapolis, spent last week with Mr. and Mrs. F. E. Hall. Mr. and Mrs. Elza Wolkens and daughter, Miss Leona and Mr. and

Mrs. George Barmore were accompanied on a picnic dinner Sun-day by Mr. and Mrs. Arden Wolkens of Galien. Mr. and Mrs. Floyd Fedore attended the picnic held at St. Jo-

seph by the members of the orchestra of Portage Prairie church. Mrs. Bell Boaders spent a few days last week as the guest of Mrs. E. O. Sult.

Marcelle Sult is spending her vacation in Chicago as the guest of Renota Ditgen. Mrs. F. E. Hall and Mrs. San-

ford Carpenter were in Benton Harbor Monday. Ira Neiswender and daughter

attended the Daggy reunion Sun-day held at Park Plymouth, at Plymouth, Ind. Miss Helen Tagert, Miss Viola Jewell and Kenneth Lichtenburg-

er returned to Decatur, Ill., after spending their vacation at the W. W. Jewell home near Moccasin

Marcelle Sult has written to the home folks telling of many places of interest they have visited.

Wagner News

Miss Josephine Johnson returned Wednesday evening of last week from a motor trip through the trip by the Misses Mason of Niles. They visited many places of interest, including Washington, D. C., New York City and made a trip up the Budson river as far as trip up the Hudson river as far as Miss Margaret Dickow of Chicago is spending the week with

her sister, Mrs. Ann Quirk. Mrs. Marcia Bishop and sons. Rex and Raymond, of near Eau

Hess home.
Miss Muriel Wolkins returned ing. It is requested that all members make a special effort to at-

Saturday from a four week's tour tend. through Alaska and Canada. She was accompanied home from Chicago by Drs. Becavar and Brad-1 phis, made a perfect score in a ment,

Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine-and the whole car remains steady. Open the throttle-the power flows evenly. Accelerate-throttle down-go fifteen or fiftyand this smoothness stays with you whatever you do. It's actually built into the motor-and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the powerimpulses of a six overlap. And a six is much easier

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do-that no other car is so economical to operate as the Chevrolet Six.

Twenty beautiful models, at prices ranging from \$475 to \$675

All prices f. o. b. Flint, Mich., special equipment extra. Low delivered prices and easy G. M. A. C. terms.

Radio Telephone Speeds Alaskan Salmon Industry

Salmon don't just grow in cans. Above is shown one of the early steps in transforming the silvery horde to a table delicacy for whose enjoyment a can opener is the only implement required. When the salmon canning industry of Alaska wanted a modern and reliable means of communication between plants, and also between plants and vessels of the fishing fleet, the Western Electric Company was invited to show what the radio telephone would do. A type of radio telephone installation developed by Bell Telephone Laboratories for communication between airplanes and ground stations was adapted to the industry's needs, and demonstrated its practicability during seven weeks of test and up to 130 miles between ship and shore.

MAN RESIDED HERE 20,000 YEARS AGO

Life in North America Is . Traced to Ice Age.

Pasadena, Calif.—The time man lived in America was pushed back to attleast 20,000 years ago by reports ito the American Association for other Advancement of Science here recently.

Archeologists and geologists told how they have read the record written in earth deposits that give strong evidence that highly develoned man hunted strange redhaired and large-clawed ground sloths, primitive horses, buffalos unlike those known to early white men or Indians, and other strange beasts. Man was contemporaneous with these creatures when the last great ice sheet of the glacial age still covered northern United States. That man existed at a time more remote than generally credited is the conclusion of leading authorities, including Dr. H. M. Harrington of the Southwest museum, Dr. Bar num Brown of the American Museum of Natural History, and Dr. Chester Stock of the California Institute of Technology. Scattered Over America.

Doctor Harrington and Doctor Stock told of explorations of a gyp sum cave near the site of Boulder dam in Nevada, where the camp fires, weapons, and torches of early man were found imbedded. They concluded that this early gypsum cave man, still known only from his tools, since none of his bones have been found after two years of excavations, greatly strengthens scientific suspicion that man was widely scattered over America in the last stages of the Ice age. This is a greater age for man in America than most scientists have considered possible heretofore.

At Folsom, N. M., Dr. Barnum Brown found a kill of extinct buffa lo made by men using stone weapons that are different from and superior to any hitherto discovered in America. He dated the deposit in which the bones were found as 20,000 years old.

Heat in the Stratosphere. There is a possibility that instead of man being as ancient as these

new discoveries indicate, the extinct animals associated with them existed until more recent times than scientists have proposed. This view was expressed by D. A. S. Bomer of the University of Chicago. A report from Dr. Philip S. Smith of the United States geological survey shows that Alaska in the Ice age was a pleasant place to be, and offered a good reason for primitive man to migrate across the narrow

Bering strait from Asia to America. Just a mere 50 miles above our heads the temperature is between 1,000 and 2,000 degrees Fahrenheit, according to a new theory of the earth's atmosphere presented by Prof. B. Guthenberg of the California Institute of Technology. This the atmosphere is practically the same in composition throughout and not exclusively of helium in some high layers, as other physicists have concluded. Although the temperatures are high in the heights of the stratosphere, the air is very diffuse and thin. Only a rocket could actually penetrate the atmospheric heights to bring back evidence of what actually exists there. Professor Guthenberg said. The shells of a long range gun used by the Germans in bombarding Paris probably traveled in a highly heated region of thin atmosphere, but since they exploded it is no known how they were affected by the heat that they encountered.

the Boardman River and the west states.

OVER HALF OF ALL TELEPHONES ARE IN THE U.S.

This Country Also Leads with 16 Telephones to Each 100 of Population

The World's Telephones North America 21,695,376 Asia 1.201.008 South America 587,121 Africa236,108

Out of a total of 34,526,629 telephones in the world, about 63 per cent are located in North America. Of these, 58 per cent are to be found in the United States, 4 per cent in Canada, and .2 per cent in Mexico. These figures are as of January 1, 1930, the last date for which comparable figures are available because of the time required to obtain correct data from foreign countries.

Germany Leads In Europe

Europe has 29 per cent of the world's telephones. Germany leads with 9 per cent, followed by Great Britain and Northern Ireland, France, Sweden, and Italy respectively. In total number of tele phones, these countries also occupy the same relative position. From the viewpoint of telephones per capita, Denmark makes the best showing in Europe; followed by Sweden, Norway and Switzerland.

Telephones on Other Continents

In Asia, Japan has the greatest; number of telephones, with a total of \$65,516, and in Africa-the Union of South Africa leads with 108,937. In South America the Argentine Republic is the best developed from a telephone standpoint. In Oceania, Australia of course has a commanding lead with 505,554 telephones, and New Zealand is in second place with 161,041.

World-Wide Growth in Telephones For the last year for which comparative figures are available. every country in the world showed a telephone gain, with the exception of Peru, Ecuador, and Bolivia in South America, and Porto Rico in the West Indies. The greatest gain was shown by the United States. Next came Germany, and then Great Britain and Northern extremely hot weather a few miles | Ireland. The only countries which up comes as the result of Professor Guthenberg's novel theory that of ten telephones or more to each 100 of population are the United States, with a ratio of 16, Canada with 14, and New Zealand with 10 telephones to each 100 people.

> A striking example of child-like faith was shown by a 10-year-old Detroit girl, who wrote a letter saying: "Please send me \$20. I saying: "Please send me \$20. I need it," addressed it to "God, City of Detroit." Her request was not granted, probably because the postal authorities made the mistake of delivering the letter to the nayor.

Unemployment among printers that they encountered.

Harry G. Daw Chicago Merchant is Buried Here

The remains of Harry Daw, 83, a veteran Chicago hardware merchant, were laid at rest in Oak Ridge cemetery Tuesday after-noon. Mr. Daw had been a frequent visitor in Buchanan, his wife, who is still living, having been the daughter of Mr. and Mrs. John Graham, old time residents of this city. They lived in the brick residence at the corner of Front and Detroit which is still mown as the Graham house. Their son, Burton Daw, of St. Louis, married Dorothy Currier, daughter of Mr. and Mrs. J. B. Currier. The deceased started a hardware store at the corner of Webster and Clark Streets on the Chicago north side and remained in business there 48 years.
