 are most easily influenced by the promise of those tinsel things that cost so much. The promise of easy money, thrills and adventure is what must be combated by some means. If we refer back to the proverb

And You'll Jump Gut of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts; mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere move ment doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good old CARTER'SLITTLE LIVER PILLS to get these two pounds of bile

flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle regetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's
