LINES WRITTEN FOR GOOD CHILDREN

Bi Haws Ah children dear, let us all see How pure and noble we can be. The while committees rush about Intent on finding something out, And right and left, on every side They point with scorn and not

with pride.
Let you and I so nobly live
From day to day we will not give
A durn about what things they

state. Or how they quarrel and berate. Let's pay our debts and go to church And never care how much they

search And thumb our smelling apparatus At people who investigate us.

How To Pass The Time During The Depression Make use of the extra spare time to improve your minds. Learn to do something new. Educate yourself. Take surgery, for instance, as a spare time hobby and operate on your friends.

Learn public speaking. Go out in the back pasture lot and climb on a stump and qualify as a national keynote orator and then after you've learned how, stay right out in the back pasture and talk your head off

Write letters to the newspapers telling how to solve the depression. After all, there's no one better fit-ted to solve the ills of industry than one of the unemployed. It gives you that detached point of

view, so to speak.
Organize a beer parade. And after that a bier parade.

The tune to which the defeat was played was 20 to 9 in favor of Liberty Heights, Errors were main features of the game and had both teams been a little more in fielding form, the outcome might have been different. The name of Lyddick's team will be "The Country Tigers" and with a return game in view for next Sunday maybe there will be a little more pressure all the way round. The Tigers have had this team every year for the last few years and the Liberty Heights team is a new creation of this year. Below is a line-up of both teams:

I. & M. TROPHY FOR SAFETY IS ON DISPLAY HERE

Outstripped All Subsidiaries of Am. Gas & Electric with Only 15 Mishaps Last Year.

The handsome silver trophy wor by the Indiana & Michigan Elec-tric company for the best safety record made by any of the subsidiaries of the American Gas iaries of the American Gas & Electric company during 1931 is on display at the local offices this week, in the course of its rounds of the districts which contributed to the record.

In winning the trophy the Indiana & Michigan Electric Company achieved a record of only 15 lost time accidents from all causes among its personnel of 800 em-ployees for the entire year of 1931 as compared with a total of 69 lost time accidents in 1928, the first year that records were kept. The extent to which the safety drive staged by the company during the past five years has been successful is evidenced by the following record for the duration of the drive 1928, 69 (lost-time accidents); 1929, 44; 1930, 27; 1931, 15. A lost-time accident is one

which prevents the injured man from reporting for work the next day and may consist of nothing worse than a mashed finger or a cut that will keep him off duty

a few hours.

That the record will be still better for the coming year is indicated by the fact that during the first quarter of the present year there was only one lost-time accident, which entailed a loss of three days time.
