## MOTHER'S ROSES

By Haws

Trivial though it seems to be,  
When I chance to think of Mother  
There's one picture I prefer,  
More to me than any other—

Working in her flowers and vines  
In a faded blue sunbonnet,  
To translate an urge divine,  
Though in pinks instead of sonnets;

Held a martyr day by day  
To a rigid path of duty,  
She would brighten up her way  
With a little touch of beauty.

As the noisy noonday strife  
In the soft blue evening closes,  
May the garden of her life  
Bloom at last with many roses.

PICKED ON RECORD  
FROM THE ENTRIES  
OF 13 SCHOOLSExcellent Record in 4 Years  
of High School is Basis  
of Selection.

John Strayer, athlete and honor  
student in the local high school  
and the son of Dr. and Mrs. J. C.  
Strayer, was selected on the basis  
of his record to function as Sir  
Junior Knight of the Blossoms in  
the festival parade Saturday at a  
meeting of a board of judges com-  
missioned to make the appoint-  
ment in Benton Harbor Saturday  
evening.

He completed with entries from  
eleven Berrien county high schools  
and from Dowagiac high school.  
The judges were obliged to base  
their selection entirely on the  
record of the entries, without  
knowing anything about the iden-  
tities of the boys. The records of  
the thirteen entries were placed in  
separate envelopes, listed by num-  
ber and unaccompanied by any  
clue to the names of the boys.  
Each judge read the records and  
cast his ballot. It is reported that  
Strayer led by a wide margin.

As the result of the selection, he  
will ride on a float in the Bloss-  
om parade, surrounded by the  
twelve seniors selected by the  
other high schools.

High points in his record are:  
class president three years, honor  
student four years, basketball cap-  
tain one year, team member three  
years, member of football team one  
year, member of school band, or-  
chestra, glee club, quartet, saxa-  
phone trio, minstrel show and en-  
semble, leading part in senior play  
cast, activity in student organiza-  
tions, membership in student coun-  
cil.

other schools were:

lien, Emmett Harroff; Jowagiac,

don Hosbain; New Buffalo, Ed-  
ward Creiger; St. Joseph, Nicho-  
las Zitta; Stevensville, Vernon R.

## MOTHER'S DAY PROGRAM

A special program for Mother's  
day will be given during the Ep-  
worth League hour at the Metho-  
dist church next Sunday evening.

## GOOD NEWS OF GOOD TIMES

The most heartening news heard in this community for  
some several moons is the notification carried in this issue  
of the early payment of a substantial dividend by the First  
National bank, the amount available having been materially  
increased through a loan from the Reconstruction Finance  
Corporation.

It is apparent from this announcement that the plans  
for the reorganization of the bank have been dismissed, and  
that consequently the community will best be served by the  
liquidation of the institution as rapidly as possible in the  
interest of the creditors. In view of present business condi-  
tions it is very possible that the creditors will fare better by  
rapid liquidation than by the reorganization which was ori-  
ginally hoped for.

## PROMOTING NEIGHBORLINESS

The disbanding of the Luncheon club for the summer  
is worthy of comment, in view of the much-argued record  
of that organization.

The Luncheon club had a successful winter in point of  
attendance at the weekly functions. In that respect it has  
surpassed the record of preceding organizations. It has,  
however, no very substantial record of achievement, or even  
of attempt.

But the fact that it has kept going through times such  
as prevail now is very likely due to the fact that it had not  
attempted an ambitious program. It has been the history of  
such organizations that more often than not they have been  
wrecked by ambition.

And it is a fair question whether the mere weekly as-  
sembly of business men to cement the bonds of community  
friendship is not after all the most worthy achievement it  
can attain.

## Blossom Knight

being the home of Sir Knight of  
the Blossoms, John Strayer, who  
was elected to that honor on the

high school.

FIRE PARTIALLY  
DESTROYS HOME  
OF CORA BROWNFlames Believed to have Orig-  
inated in Flue; Neighbors  
Save Furnishings.

The residence of Mrs. Cora  
Brown at 306 South Oak street  
was partially destroyed and part  
of the furnishings destroyed or  
damaged by a fire believed to  
have originated in a defective flue  
Sunday afternoon.

Mrs. Brown and her family had  
gone to the home of her mother,  
Mrs. R. S. Gaunt, at Glendora,  
and there was no one in the home  
when neighboring children saw  
smoke pouring from the chimney.  
An alarm was turned in and the  
department arrived in time to pre-  
vent complete destruction of the  
building. In the meantime the  
neighbors had rushed in and sav-  
ing most of the furnishings in the  
lower story. The fire damaged  
the upper story and roof and de-  
stroyed the furnishings of the  
second story. The lower story  
was damaged to some extent by  
flames and smoke and by the wa-  
ter which the fire department was  
obliged to use.

Mrs. Brown was notified by tel-  
ephone of the fire and arrived just  
as the firemen were stamping out  
the last vestige of flame. She  
states that she had not built a fire  
in the stove since 10 a. m., but  
believes that woodwork around the  
flue had caught, and was smould-  
ering when she left. The flames  
were discovered about 2:30 p. m.  
The loss was covered by insurance.

Mrs. Clarence Putman, 210 S.

shock when she was attacked and  
bitten by an enraged but non-  
poisonous milk snake while gath-  
ering mushrooms in woods immedi-

chard Saturday afternoon.

Mrs. Putman was accompanied  
by her husband and Mrs. Steve  
May. She was walking apart  
from the others when she felt  
something wrap about one ankle  
and a stinging sensation as though  
she might be entangled in a briar.  
Looking down, she saw a snake  
wrapped about her ankle. She  
had to kick several times to dis-  
engage the snake, when her  
screams brought her husband to  
her aid. He killed the snake  
which was in a fighting mood. Ex-  
amination of Mrs. Putman showed  
two small pricks where the  
snake's fangs had entered her leg  
about four inches above the ankle.  
She was wearing arctics at the  
time and the snake bit just above  
their tops. She was rushed to  
the office of a local physician, who  
opened and drew the blood from  
the area around the bite. She ex-  
perienced no ill effects apart from  
the shock and fright.

DEPOSITORS TO  
GET DIVIDEND  
DURING JUNEDividend Checks Now Being  
Mailed to Washington by  
the Receiver.

Supporting evidence of the truth  
of the statement made recently by  
Charles G. ("Hell n' Maria")  
Dawes, head of the Reconstruction  
Finance Corporation to the effect  
that of the 1520 banks aided by  
that corporation, 68 per cent are  
in towns of less than 100,000 popu-  
lation was received in Buchanan  
recently in the form of assurance  
of a substantial loan by that gov-  
ernment agency to the First Na-  
tional Bank of this city for the  
purpose of assisting in the pay-  
ment of a dividend to the deposi-  
tors, probably during June.

Payment of a dividend to deposi-  
tors is at least assured at an  
early date, according to H. R.  
Botkin, receiver, who is now pre-  
paring the checks, which must be  
sent to Washington, D. C., there  
to be audited and signed by the  
Comptroller of the Currency.

The repayment of the depositors  
of a substantial portion of their  
money, tied up since the suspen-  
sion of the bank last fall, comes  
very opportunely. Not only will  
it afford actual relief, but it should  
very materially strengthen the  
morale of the community, accord-  
ing, as it does, the first actual  
evidence felt here that the adminis-  
tration at Washington is on the  
job to relieve the present situation,  
and that the relief will reach Bu-  
chanan.

A "Bing Crosby" has been discovered in our fair school and it is none other than "Aeneas" DeNardo, whose mellow tenor voice is putting him in much demand now. Days.  
Social hour was a big success—the main reason being it was free.  
R. R. Robinson is getting all set to make a speech—somewhere. Anyhow he has had all the books in the library from encyclopedias to fairy stories getting references.  
Marie Foster's great strength was exhibited in gym class recently when she sat down on a chair and broke the leg.  
Spring fever caught Lauren Morse in its grasp and put him to sleep in Mr. Jewell's class. His snoring was so disturbing that he was awakened.  
A certain prom committee has been going all over the county attending dances free. They have yet to be bounded.  
Seems as though the "banga" style has disappeared—thank heavens!  
"Spot" Dempsey's patriotism caused him to stand up all second hour while on hall duty. It seems that the fifth grade was practicing "America" and "The Star Spangled Banner" that hour and "Spot" being a true American, did his duty.  
The fire gong broke up a hot and heavy debate Thursday in Mr. Knoblauch's speech class. The two teams had quite a session outside rather than in.

### FLENAR, HANLIN IN DIST. SPEECH CONTEST FRIDAY

Winners of Sub-Dist. Oratory and Declamation Contest at Dowagiac.

Philip Hanlin and Otis Flenar, Buchanan high school students and winners of the sub-district oratorical contest, will go to East Paw high school auditorium at 7:34 (E. S. T.) Friday evening.

These two boys were selected to represent this school by means of elimination in a contest held some time ago. They were sent to the sub-district contest and each took first place in his respective field.  
If the boys are victorious at East Paw they will go to East Lansing to the state oratorical contest.  
Competition promises to be quite keen with Centerville, East Paw, Creston high school at Grand Rapids, Zeeland, Greenville and Buchanan entered in the declamations and East Paw, Union high school at Grand Rapids, Grand Haven, Ionia, Three Rivers and Buchanan entered in the orations. The judges for this contest are to be Prof. B. M. Raymond of Hope college, Prof. Hendrickson of Albion and Prof. N. J. Weiss, Albion.

### Reporting Inquirer

Don't you think the Failure List could be cut down if the students really tried?  
Anita Andrews: "The failure list could be cut down by studying a little harder, or perhaps a punishment should be given to those who are on every week. If they study on the lessons which are the hardest, they could probably keep off of it."  
Glenn Jesse: "The failures could be cut down if the students would apply themselves more. I don't think that punishment does any good. It does not get your lessons, and you have to get your lessons to keep off the failure list. At least that is the way I find it."  
Emily Wales: "I think that the failure list could be cut down to quite an extent if the students would really put themselves into the work and try. They would find that it is not such a task to keep their names off the failure list. I do not think that punishment should be applied, for if a person cannot understand a subject it is more difficult for him to get it. However, he can understand it enough to keep off the failure list, or it is just lack of effort on his own part."  
Jennie Smith: "I believe if the scholars really cared about their names being on the failure list, they would try to keep off. It could be cut down because there are some of them who do not care what they do. They don't realize the value they are missing. I do believe failures are sometimes due to absences. My own idea is that it could be cut down by a majority if they only tried and studied."

### PROGRESS OF CLASS ROOMS DURING WEEK

Dramatize Story Wm. Penn; Ag. Dept. Wants Your Extra Snakes, Turtles.  
Journalism  
Reports on dramas and photographs were given this week by the members of the journalism class. They made a special study of critical writing this week.  
English Department  
Prose fiction has been the main objective of procedure of the senior English class in the last week. The characteristics and types of the modern novel and growth of the novel through the ages will all come under this undertaking. Along with this they will use "The Tale of Two Cities," a novel by Dickens.

Members of the junior English classes are working on the modern novel and the sophomores are having Lincoln and his literary works. Members of the freshmen English classes have just completed Shakespeare's "Julius Caesar," and began the study of the paragraph. "The Ship Builders" by Longfellow was a class room work of the eighth grade English class, while the seventh grade completed the study of the King Arthur stories.

Don't you think of Latin classes as the study of the old Roman countries? Now Miss Shriver is having her ninth grade Latin class drawing birds. The translation work has been finished and the students will spend the rest of the year learning the grammar.  
Marvin Gross received another letter from France this last week. The seventh graders are taking over social duties. Two divisions are distinguished as division 1 and 2.

Friday morning, division 2 entertained Mrs. French and the remaining division with a dramatization of William Penn signing the peace treaty with the Indians. The character of Charles II was taken by Robert Stevens, Penn by Harold Hansen and Chief Black Hawk by Eugene Brown.  
Pages in a diary of a colonial boy or girl, covering a period of one week, were cleverly written, both as to spelling and ideas.  
Last week the eighth grade arithmetic classes were measuring the trees; this week the proportions between heights were studied out of doors using shadows of trees and telegraph poles.  
Mr. Jewell, teacher of the agricultural department, has made a request for snakes, turtles, lizards or any other of our great ancestors. He will put them in cages and use them for his own pleasure and experiment. It is rumored that Mr. Jewell will turn snake charmer, so stand by for future developments.

If it weren't for this department, in our school, it would become very dead here indeed. Students make way for the big game hunters, such as Alan Stevenson, when he comes down the hall with a cat, or mouse by the tail, and others who bring into captivity all sorts of creatures. You can probably imagine the surprise of some student when he pokes around in a bunch of pine cones and out slides a nice little grass snake.  
The Ag class members finished up their projects.  
Biology students have finished the classification of plants and animals.  
Check stubs are being studied by the commercial law class.

### Editorial

As Other Schools See Us  
By Doris Campbell  
Have you ever thought of how our school might stand in the opinion of other schools? Let us see what impression we are giving.  
Take athletic for instance. Are we overdoing it in our school? Do other schools think of us purely as being a basketball team or perhaps a flashy track team? Or are we doing these things in proportionate moderation as compared to the things which should stand above athletics?  
Our scholastic achievements have not gained as much renown as our athletic conquests; but nevertheless, we have acquired more than one achievement in our literary department. And, yet, though it is just as hard work and just as difficult as any athletic affair—our school is far more noted for its athletic ability than for its scholastic prowess.  
Does not that show that perhaps athletics hold too prominent a place in our curriculum? We show much more enthusiasm in a track meet than we do in a debate. Or is it that we have been taught to regard athletics as being more worthy than the more educational things? Whatever it is, we have gained the idea of good sportsmanship and school spirit through athletics, but do we want our school entirely an athletic institution?

### Shorthand Club Holds Meeting

A Shorthand club meeting was held last Friday in the bookkeeping room. The program for the day was in charge of Frances Stephens, Martha Speckine, Marjorie Neiswender and Evelyn Doty.

### Girls' Track Meet Will Be Held May 18

The girls' track meet has been definitely set for May 18, when the four upper classes of the high school will participate.  
Besides track, the gym classes are working on tennis technicalities.

### Faculty Facts

Mr. Miller went to the track meet at Niles Saturday afternoon. Mrs. Whitman, being very ambitious, cleaned her house.  
Mr. Moore tried to cure his cold. Mr. Jewell said that he spent the week-end in the "usual way."  
The rest of the faculty members remained at home or would not reveal their plans.

### AROUND AND ABOUT

By His Majesty Bunker Bean  
Well! Again I take a borrowed pen in hand to write this idiotic column, although I do enjoy reading it to my grandfather.  
News this week is stupendous: "King" John Strayer went to Chicago Thursday to see "The Barretts of Wimpole Street." John was chosen by the student body to represent Buchanan at Benton Harbor in the near future.  
Seniors had quite a time deciding on class night—seems as tho they're not going to have it.  
Sophomores prove to be pretty good spellers—if you don't believe me, ask them!  
Found out some professions that the seniors are going to take up: Robert Montgomery, Interior decorating.  
Vincent DeNardo, Engineering.  
Dorothea Rothfuchs, Physical Ed. teacher.  
Zella Frank, Stenographer.  
There are lots more, but I have not time to mention all.  
Social hours have been revived, thanks to Mr. Robinson for furnishing the much needed music.  
I heard a girl say, "Doesn't Cy Bismund sing awfully?" She sighed six times and fell—exhausted.

Did you ever notice—  
Alan Stevenson and his mouse?  
"NeNe" DeNardo's red ties?  
Bob Strayer's turtle neck sweater?  
Ted Dwyer's heel plates?  
"Monty" Montgomery's crushed hat?  
Harold Pierce and Harold Knight in their varsity sweaters?  
Allene Riley in a DeMolay jacket?  
Pauline VanEvery in a red "chevie"?  
Well, that's all the dope I have. As Jimmy Eisenhower always says, "I'll be squeeze ya later!"  
Who! Here's a special! Miss Helen Hanlin and Miss Alice Rockenbach ran out of gas twice Wednesday night and spent the evening walking in search of some. Floating power lost the float.

Newspaper advertising is of course the backbone of the campaign. Nearly sixteen hundred newspapers in 1,365 cities and towns are carrying the schedule. If the public is not made aware this summer that there are plenty of users of Standard motor oils ready to sing their praises it will not be for lack of effective advertising.

### Grade News

First Grade  
Marie Arrick has moved to the country.  
We are very thankful to Mrs. S. E. Smith for the portable victrola which she gave us.  
George Hemphill is having his tonsils removed at Ann Arbor.  
We have learned the names and description of several birds, also their habits.  
Third Grade  
The boys and girls of Dewey Avenue school had a very happy surprise this week. Mrs. S. E. Smith gave the school a portable victrola and a number of records. We wish to thank Mrs. Smith for her kind remembrance and assure her that her gift will be the source of great delight to all of our girls and boys.

Contest prizes were awarded on Wednesday night at the Evangelical church. We are very proud of our winners. Bonnie June Chain won the first prize for the third grade; Jack Ednie received second prize and Suzanne McKinnon, honorable mention.  
Robert Williams moved to Galesburg this month. On the same day, Beverly Robinson entered our room. Her former home was in Audubon, New Jersey.  
All of our girls and boys have earned both the silver and gold buttons in Palmer.

### PUBLIC PROVIDES MATTER FOR NEW TYPE ADVERTISING

Interviews Written by Experienced Reporters Featured in Standard Oil 1932 Campaign

As an answer to the problem of building business in spite of adverse conditions in 1932, Standard Oil is now putting on an extensive and unique campaign of advertising its motor oil.

The campaign is attracting much attention because of its novelty in using the newspaper interview as the means of carrying a message to the public.

This year's advertising story regarding the motor oils completes a three-year program. In 1930 the company's production of a new kind of oil was featured with stress on the laboratory proof of its qualities. In 1931 the advertising reported proof of the quality of the oil by practical engineering tests made on the Indianapolis speedway and in zero cold rooms, under the eagle eye of the contest board of the American Automobile Association, and by a road test that lasted for several months.

For this year's proof the company decided to turn to the acid test of public opinion. To make this test a novel plan was adopted. Robert J. Casey, veteran Chicago reporter, and Miss Margaret Lane, daughter of the editor of the Northlife newspapers in England and herself a newspaper writer of note, were enlisted to go out and ask long time users what they thought of Standard Oil. A photographer went along to take snapshots of the actual interviews and cars involved. And now from week to week the company's ads are presenting the stories these reporters brought back of what Mr. and Mrs. Public had to say about their experience with the oils. No money was paid in any instance to the persons interviewed.

A similar series of interviews was obtained from farmers by Professor J. Brownlee Davidson, eminent authority on agricultural engineering, with emphasis particularly on experience in use of Polaris oil in tractors. These interviews are being featured in ads in farm publications.  
The campaign has several unusual angles besides its adaptation of the newspaper interview to advertising, one being that the ads tell of use of oil in different types of cars, so that in the end comments will have been presented from users of all the principal makes.

Newspaper advertising is of course the backbone of the campaign. Nearly sixteen hundred newspapers in 1,365 cities and towns are carrying the schedule. If the public is not made aware this summer that there are plenty of users of Standard motor oils ready to sing their praises it will not be for lack of effective advertising.

**Murder Suspects**  
Mr. and Mrs. Roy Reese of So-dus have been re-arrested on suspicion connecting them with the death of Peter Barnett, whose body was found in the St. Joseph river March 1. It is alleged that Reese and Barnett fought about Christmas time over attentions paid by Barnett to Mrs. Reese. Shortly after that date Barnett disappeared and was not seen again until his body was discovered near the Napier bridge by two men fishing there. Reese and his wife were first arrested and then released. Recently additional clues were discovered, on the strength of which they were again placed in custody.

prayer service. Bible study in Acts the 7th chap. Choir rehearsal following.

Note change in time of mid-week services.

Mother's day will be observed at both Bible school and morning preaching services. At Bible school everyone who possibly can is urged to have their mother present with them. A count is to be taken of the mothers present. Recognition is to be made of the mothers who remain or who come for the church services and a floral tribute is to be presented to the oldest mother at that service.

Bring your mother for both services and enjoy the wonderful experience of worshipping with her. May 15th is the Day of Pentecost. Plan to come and bring someone, if at all possible as we want our attendance record to be as large or larger than on Easter Sunday.

The questions for Bible school for May 8th are: What deception did Isaac practice with regard to Jacob? Where was the tabernacle first reared in the land of Canaan? What great loss did Jacob sustain when near Bethlehem? Who united together to bury Isaac?

The Women's Missionary society will meet Friday with Mrs. Grace L. Worth, secretary, at the South Bend road. Lesson study is to be the work of our missionaries in Japan.

The Loyal Workers will meet next Tuesday for an evening party. If all goes well, they will meet at the home of Mr. and Mrs. Arthur Froese, 308 Portage St., but should circumstances prevent they will meet in the church basement. Watch for the notice as given in church Sunday mornings.

Seventh Day Adventist Sabbath school (Saturday) at 10 a. m. Lesson subject, "Imparted Righteousness." The keynote, "When we submit ourselves to Christ, the heart is united with His will, our mind becomes one with His mind, the thoughts are brought into captivity to Him, we live His life. This is what it means to be clothed with the garment of His righteousness. Then as the Lord looks upon us, He sees not the fig leaf garment, not the nakedness and deformity of sin, but His own robe of righteousness, which is perfect obedience to the law of Jehovah."

Sunday at 7:30 p. m. Subject, "The Truth at Any Price—Does It Matter What We Believe?" Stanley W. Hyde.

**Out For Sheriff**

Charles L. Miller Tosses Hat in the Ring for Sheriff

Another hat was shed into Berrien county's political ring today. It was that of Charles L. Miller, St. Joseph garage man and big game hunter.

Mr. Miller will seek the republican sheriff nomination, he announced, in next September's primaries.

He is the first republican to formally announce his candidacy for the office now held by Sheriff Jane Cutler, who, according to reliable political gossip, will not be a candidate to succeed herself.

She is now completing the unexpired term of her late husband, Fred Cutler.

Mr. Miller is no stranger in Berrien county political circles. Two years ago he received the republican nomination in a colorful primary scrap with four other candidates, only to be nosed out in the general election by the late Mr. Cutler.

Defeat at the hands of Mr. Cutler, however, is considered no blemish or reflection on Mr. Miller's record. A more popular or widely known man than the late sheriff never lived in Berrien county.

Charlie, as Mr. Miller is known to a legion of friends in all parts of the county, stated today that he would soon open headquarters in his Main street garage offices in St. Joseph, from where he will personally direct and handle his campaign.

The St. Joseph man's decision to make the race again this year, he said, follows a thorough survey of the political situation in the county, and voluntary offers of support from hundreds of persons in all sections of Berrien, who believe Mr. Miller's qualifications and capabilities stamp him as the most logical candidate for this important office.

It is a known fact that when it became necessary to name a successor to the late Mr. Cutler, that the appointing board was bombarded with pleas in Mr. Miller's behalf.

Mr. Miller is a life-long resident of Berrien county, having been

## Geo. Selfridge in Race to Secure Treasurer Job

George Selfridge, Benton Harbor banker and third ward supervisor, has tossed his hat into the political ring with a formal announcement that he would be a candidate for the Republican nomination for county treasurer at the primary next fall.

Selfridge, well and popularly known, has been a tentative candidate for some time, friends urging him to get into the race. But not until today did he decide to make the formal gesture of announcing his candidacy.

Long in Banking Circles Mr. Selfridge has been active and prominent in Benton Harbor banking circles for a considerable period. He has been connected with the Farmers & Merchants bank for the past 10 years and at the present time is holding down the post of assistant cashier of that institution.

Before going to the F. & M., Mr. Selfridge was employed at the American National bank.

Active in Politics For some time Mr. Selfridge has been active in politics, particularly among the younger circles of the Republicans. He was one of the organizers and officers of the Young Men's Republican club of Berrien county.

A year ago, at the death of Roy Clark, Mr. Selfridge was elected by the city commission to fill Mr. Clark's position as third ward supervisor. He was nominated for this post again this spring and at the election in April was about a two to one winner.

As a member of the board of supervisors Mr. Selfridge has taken a keen interest in county affairs. As a result of his supervisor service he has made many friends in and out of courthouse circles.

Once in Post Office Mr. Selfridge has been a life-long resident of Benton Harbor and is the son of one of the best known employes that ever worked at the Benton Harbor post office. His father was the late John Selfridge. The elder Selfridge was connected with the local office for 24 years. He was one of the first two mail carriers put into service when the delivery was inaugurated at Benton Harbor. For years he was in the money order division and then later, just prior to his death, he was serving as assistant postmaster.

He was the son of a local post office, the one that was in the post office there, leaving that employment to start his banking career.

## GEORGE SELFRIDGE

Popular Benton Harbor Banker and Supervisor, in Race for County Treasurer.

John Wesley Swartz was born in Snyder county, Pa., Sept. 10, 1889. From the age of 14 years he made his way through life, and when 19 years of age, he came to Michigan, making his home part of the time with his grandparents.

He was converted when a young man and became a member of the Portage Prairie Evangelical church.

He was united in marriage Feb. 24, 1886 to Maggie Housworth at the old home at Portage Prairie. One son and one daughter were born to this union, both of whom survive.

He came from Portage Prairie about eleven years ago to live in Buchanan, and united with the local Evangelical church on Sept. 26, 1920, under the pastorate of Rev. E. D. Riebel.

Brother Swartz was a devout and faithful member of his church and quite recently inquired of his pastor about the church, expressing a desire that he might again attend the church services.

In the passing of Brother Swartz the church and community has sustained a great loss. May God send some one to take his place in the ranks of our church.

About four months ago he was seized by a stroke from which he had partially recovered, so as to be about the home which he loved so much. Recently another stroke followed which proved fatal. On Tuesday evening April 26, at about 6 o'clock, the spirit of our departed brother took its flight to the realm of eternal day. His suffering is over, his work is finished and our loss is his gain.

He leaves to mourn his bereaved wife, one son, Oscar, of Buchanan, and one daughter, Mrs. Edith Beisele, of Portage Prairie, one granddaughter, one sister and three brothers.

The funeral service was conducted by W. F. Boettcher on Friday afternoon at 3 o'clock at the church. Interment was made in the Portage Prairie cemetery.

## New Buffalo Officers Charged With R. R. Racket

County Attorney Wilbur M. Cunningham is investigating charges brought against Justice of the Peace George Rose and Deputy Sheriff George Rice of New Buffalo to the effect that they have been guilty of collusion in operation of a "shake-down racket," by which men stealing rides on trains were taken into

custody and fined or given jail terms. It is charged that Rice, who is also a detective for the Pere Marquette, told Leland J. Regan of Baldwin, Michigan, that he could get on a freight at Hammond, Ind., even selecting the car for him to ride, and then later arrested him at New Buffalo and brought him before Justice Rose. He had no money and was sentenced to ten days in the county jail. In October, 1931, charges were brought before the county board of supervisors that Rice and Rose were maintaining a train riding "racket," when it was shown that practically all the arrests made for train riding in the county were made in New Buffalo and that the county had been at the expense of about \$600 in jail care for men given short terms on that charge.

**CUT PRICE MEANS BETTER FURNITURE FOR LESS MONEY**

Now a  
**4 YEAR SERVICE PLAN**  
and New Lower Prices  
Now after 20 years of research, including over four years experience with more than a million and a quarter users, General Electric again steps ahead of the refrigerator industry with a service contract protecting each new buyer against all service and repair charges on the Monitor Top mechanism for three additional years beyond the standard one year warranty. In case of trouble or failure General Electric does not patch the mechanism. A factory unit is installed immediately, without charge if failure occurs within the contract service period.  
The General Electric Monitor Top mechanism is entirely different from the hundred conventional type machines in appearance—in basic design—in operating principle—and in performance!
