TO DETERMINE SKILL RATING OF RACQUETERS

5 Rounds Played First of Wk. Featured by Stellar Contest Between Hanlin and Bohl.

Tourney play began Monday at the tennis courts at the Athletic Park for an all-summer series which is to settle the rating in point of skill of the racquet wielders of the city.

The players drew numbers from one to twenty-six at the beginning of the play, after which each entrant was privileged to challenge any player within three numbers nearer the top than his own. Each player is required to play at least once per week or he automatically forfeits his place to a challenger. In this way the more skillful players will be gradually seeded to the top of the list.

Some trouble is being experienced at the outset from the fact that each player prefers to challenge a player further down the list. This may be met during the first staged by providing that alternate numbers may have the privilege of challenging one week and odd numbers the next.

The rating by drawing was: 1. Fred Smith, 2. Ronald Bolster, 3. Bill Eohl, 4. H. Hanlin, 5. Alfred Roe, 6. M. Smith, 7. Glenn Merfield, 8. Mike Boyce, 9. Joe Turner, 10. Harold Boyce, 11. G. C. Vandenberg, 12. Lee Roe, 13. L. F. Widmoyer, 14. Lee Lyon, 15. A. S. Webb, 16. D. Squier, 17. H. Knight, 18. Harold Moulds, 20. Harold Pierce, 20. Jim Eisenhart, 21. S. Marrs, 22. M. Post, 23. Don Hanlin, 24. R. S. Russell, 25. Don White, 26. Doc Bailey.

Several challenges had already been contested by last night, the hardest fought being one between Harold Hanlin and Bill Bohl, in which the deciding game of the third set remained at deuce for 43 minutes, Hanlin finally winning. In other contests Vandenberg defeated Lyon, Turner defeated Roe, Smith defeated Bolster and Boyce defeated Widmoyer.

Each week's play will be completed Tuesday evening and the list revised, the winners receiving higher rating in case they were lower in the numbering than their contestants. The final rating at the end of the season will be taken as the basis of play next year.

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "In only 25 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at any drugstore—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Teach 280,000 Pupils Conservation By Motion Films

More than a quarter million Michigan school children were taught conservation through motion pictures during the past year, the educational division of the department of conservation reported today.

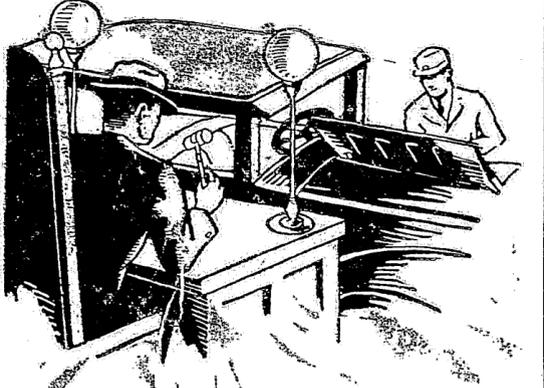

The division showed reports from 17 of the larger school systems of the state listing 280,000 pupils as having seen conservation pictures. During the 1931-32 school year the department loaned 15 reels of motion pictures to each of the larger school systems. These pictures included photographs of wild life, and visual instruction in fire prevention, game farm operations, mining activities, fish conservation and allied subjects. In many instances teachers reported the films were used in regular courses of study.

The attendance figures listed for the 17 larger school systems were in addition to the scores of smaller schools borrowing pictures through the educational division's regular film loan service.

Dayton Tigers Lose Hard Fought Game to Athletics

The Dayton Tigers, master of all teams, lost a hard fought game to Bob Reamer's Athletics Sunday to the tune of 4 to 3. Hopash pitched for the Athletics and pitched good ball. Sebasty of Dayton, was careful how he pitched to Ross. Twice he had nerve to pitch to Ross and each time he failed. Ross got two hits and two walks out of four times up. Dayton is going to practice and try the Athletics another whirl.

Come and see the Athletics and Grays of Buchanan battle it out next Sunday.

"What do you mean Maps get smaller?"

"People drive faster," explains E. V. Shireman, furniture salesman of 928 East Maple Road, Indianapolis. "I generally run my Packard 60 to 65 miles an hour—have to, to cover my territory." "But what about your car?" asks Bob Casey, famous Chicago News reporter.

IT IS the observation of E. V. Shireman of Indianapolis that the maps are getting smaller every day—people drive faster. "I drive between 60 and 65 miles an hour and there's where the oil gets to be an important factor. After experimenting with other oils, I settled on Iso-Vis. Speed doesn't burn it up and city driving doesn't dilute it." Mr. Shireman is a furniture salesman whose territory embraces all of Indiana, Cincinnati and Louisville. He drives a Packard Custom 8 and covers between 800 and a thousand miles a week the year 'round. The total mileage on his present car is 71,000 miles. free miles prove again what Iso-Vis has demonstrated in laboratory tests and in A.A.A. tests on the Indianapolis Speedway—Positive Lubrication Protection. NOW IS TIME TO BUY PROPERTY, SAYS REAL ESTATE MAN

IF NOT AT BOTTOM IT IS NOT VERY FAR FROM IT NOW

Many Bargains Available in Buchanan Real Estate for the Buyer Who is Looking for a Home.

"If there will ever be a better time in this generation to buy than right now, the man isn't born that knows it," said E. C. Swenderich, local real estate man. "Simply isn't" in the books that any man can tell the exact time when this depression will hit bottom, any more than any one could tell when the boom hit top, other than on a guess basis. My contention is that when prices are high enough to assure a good profit on the same line of reasoning, when prices are low enough that you may be sure of a bargain, there is no particular sense in waiting longer in the belief that you will be able to buy cheaper yet later.

"In the past few weeks I have been getting good results from my advertising, proving that people are watching the papers looking for value for their money. I advertised in the Record and in a Chicago paper. I got more results from the advertisement in the Record last week than from the Chicago paper.

"I bet one advertisement two weeks ago brought me fifteen telephone calls regarding one piece of property.

"I'm always an optimist, even in times of depression, but it's my firm belief now that there is business for the man that goes after it—providing of course that he has something to sell that the people want. I made several sales last week, most of them right out of a clear sky. I had been working along without much promise or results on several sales, and all of a sudden the sales materialized. It was the result of plugging along in spite of a rather unfavorable outlook, for if I had quit working at any time on the deals they would not have gone through.

A University Man Looks at the Wickersham Commission

By H. N. Sturwood, Professor of History, University of Louisville.

There were 11 members of the Wickersham Commission. Nine believed that federal prohibition has contributed to the general welfare of the nation and that its contribution must be preserved. These nine members declared that it would be a colossal mistake to repeal the eighteenth amendment without putting a constructive substitute in its place.

Four other recommendations also worthy of careful consideration: 1. The saloon must never come back. 2. The federal government must not give up control of the liquor traffic. 3. The government must not go into the liquor business. 4. Wines and beer must not be exempted from the amendment.

The commission found objective and reasonably trustworthy proof of the industrial benefits of prohibition. Quoting from this report: "Increased efficiency of labor; elimination of blue Mondays and decrease in industrial accidents; increase in savings, and decrease in demands upon charities and social agencies." In addition to these economic gains, the commission also asserted that "there is general agreement among social workers that there has been distinct improvement in standards of living among those with whom such workers come in contact, which must be attributed to prohibition."

I am in agreement with the nine members of the Wickersham Commission. Until there is submitted a substitute for the eighteenth amendment which shall conserve the gains of federal prohibition and at the same time improve the present system of liquor control, it is good citizenship to make no change in our Constitution.

Eliminate Fear

The wets seem to be focusing all their powers on one objective at the moment—viz., to break down

ROUND ABOUT BUCHANAN

FOR THE POLITICAL STRATEGISTS

It is undeniably true that the selection of county officials should be based on ability and fitness for the office rather than accidents of geographical location. There is no particular reason why candidates from the southern part of the county should be entitled, ipso facto, to any special consideration. The point is, however, that they should not be automatically barred from office on that account.

It might be well for the political strategists of both parties to work toward better balanced tickets this year. It is disclosing no secret to say that the average voter will be more independent this year than ever, and will step back and forth across party lines pretty much as he chooses in marking ballots in November.

The ticket which is most representative of all sections of the county is going to have a special appeal to the voter this fall, regardless of party lines.

If anyone thinks that geographical lines are not more important than party lines, let him draw a line dividing the county in equal parts north and south and check how many of the county seat officials have their home addresses south of that line.

BIRDS RAVAGE CHERRIES

Life is pretty much of a bowl of cherries for the birds of this region, according to local fruit growers, who complain of unusual inroads in the cherry crop by the feathered population of the community. One resident within the corporate limits who has a small cherry orchard which ordinarily yields him some income, had a good crop prospect ruined by hordes of blackbirds, which swooped down and cleaned up the crop. Unusual ravages by birds have been reported in the local gardens, small plots of garden peas being riddled.

FISHERMAN BUILD TRAVELLING COTTAGE

If news remains news until it is printed, it is permissible to chronicle the launching of the good ship "Roam," which occurred recently at Pike lake.

To be exact, "Roam" is not a ship but a house on wheels, built cooperatively by four local fishermen and titled from the first letter in their Christian names.

The house belongs to Robert "Pat" Clemmens, but Messrs. Oscar Ream, Alvin Skinner and Marlin Keam aided in the construction, thus week-end residence privileges.

The house was "warmed" on the evening of July 4 by a fish supper at Pike lake, which was attended by 13 guests and 54 fish. Thirteen were able to eat at one time in the house.

After much consideration the four builders finally hit on the combination name, which hit off very aptly the use to which the house is to be put. The four fishing enthusiasts plan to week-end at various lakes, hauling the house from one lake to another as their fancy dictates. The interior includes bunking and dining accommodations for four.

COMMUNITY FLOUR BARREL

Whatever the coming winter may bring forth in the way of prosperity, the flour requirements of the needy will be taken care of through consignments of Farm Board milled wheat being distributed through the county by the agency of the Red Cross.

Twelve hundred 25 lb. sacks have been ordered for fall delivery by W. T. Richards, in addition to 200 which have been ordered for immediate delivery. The sacks are being distributed from the office of the poor commissioner at the rate of five daily.

STRAW HAT BOXES

To such as supposed that Buchanan had arrived at city status, it was rather discouraging to note that the balloting methods of the old-fashioned country literary society still prevail at the annual school meeting.

On the right side of the auditorium, Charley Landis' straw hat was commanded by Bill Miller as a ballot box and was passed from hand to hand down the rows of voters, with every opportunity for anyone capable of a little slight of hand to stuff it even fuller than when it reposes on the head of the owner.

After the yellow paper slips had been passed from hand to hand and again collected via the straw hat, they were taken to a desk at the front of the room and counted without a check by judges.

It was very likely highly pleasing to the economy party to note the civil saving on ballot boxes, regardless of the wear and tear on the head gear of the community. After all, what is that to the taxpayers.

The morale of the dry forces. You know a discouraged person is just like a spent bullet. So beware of the discouraging false propaganda of the wets. If you are beginning to fear, get your Bible and Concordance and look up all the "Fear not's," and pile them up before God, and stand on them and defy all that the emissaries of Satan can do. —Exchange.

"Reform," an evil institution and you simply increase its capacity to do wrong.

"We're beaten back in many a fray Yet newer strength we borrow; And where our vanguard rests today Our rear shall camp tomorrow."

"All my life I have lived in the presence of fine and beautiful men going to their death because of alcohol. I call it the greatest trap that life has set for the feet of genius, and I record my opinion that the prohibition amendment is the greatest step in progress taken by America since the freeing of the slaves." —Upton Sinclair.

And That's That

"What total abstainer ever amounted to anything?" asks the sneering wet.

Oh, just Abraham Lincoln, Thomas Edison, Admiral Perry, John D. Rockefeller, Robert E. Lee, Stonewall Jackson, Henry Ford, Whittier, Bryant, Barnardo, South, Nazon, Bernard Shaw, John Granfel, Gandhi, Lindbergh. Of course this isn't the entire list, but then this is a small paper.

Young People—Flasks

I venture that I have seen in one beer garden, in one night, before Prohibition, more drinking by the young people than any man has seen from flasks since the 18th amendment was written into the Constitution. —Dan Poling

Local Aviation Enthusiast Sees Airplane Crash

Among those who witnessed the crack-up which caused the death of John P. Nelson, stockroom manager of the Heath Aircraft Corporation of Niles Tuesday was Dick Schram, whose enthusiasm for aviation makes him a frequent visitor at the Niles Airways. Schram stated that Nelson had been instructed not to stunt until he had reached considerable height, but started at the comparatively low altitude of 800 feet. It is believed that this fact rather than any defect of the ship was responsible for the accident. Nelson died at 11 p. m. last night.

Gets Stiff Jolt For Starting Fire in North Woods

The attempt to stamp out incendiarism in northern Michigan's woods has resulted in the conviction of George Yeager, 44, Schoolcraft county, sentenced to serve from three to ten years in the Marquette branch prison.

Yeager pleaded guilty to maliciously setting several forest fires in the vicinity of Marquette, admitting that he started them to get a job putting them out. Judge Herbert W. Rinnels of the Schoolcraft county circuit court recommended that Yeager serve the minimum three years sentence.

Simultaneously with Yeager's conviction came a report from Chippewa county of the outbreak of five incendiary fires in the vicinity of Defter, ten miles southwest of Sault Ste. Marie.

All fire wardens have been instructed by the division of field administration of the conservation department to attempt to trace down the source of every incendiary fire. The number of such fires has grown enormously within the past two years, according to the department, and has resulted in the loss of thousands of acres of timber land and a huge expense to the state in fire suppression.

Perch Limit is 50 on 10 Lakes

Fifty perch a day may be taken from ten of Michigan's larger inland lakes, according to the department of conservation. The ten lakes in which the daily perch limit is 50, are Lake Charlevoix, Charlevoix county; Arcadia, Manistee, and Portage lake, Manistee county; Pere Marquette lake, Mason county; Muskegon and White lakes, Muskegon county; Pentwater and Stoney lakes, Oceana county; and Black lake, Oxtawa county.

Care of Goldfish

Suit May Delay Construction of Niles Buchanan Highway

Reports from the county seat yesterday state that the suit instituted by Attorneys H. S. Gray and Robt. Bart representing Geo. Black of Buchanan and H. J. Swonger of Detroit will probably be delayed, as the result of a stipulation for a writ of certiorari filed by the firm of Burns & Hadsell, counsel for the county road board, in order that the date of hearing may be changed from today until the same next week, giving the defense sufficient time to prepare

all records.

H. J. Swonger, erroneously reported to be from Buchanan, was the low bidder for asphalt construction, and is a resident of Detroit. He is joint plaintiff with George Black, who leases his premises on North Portage street as storage quarters for the Lang Construction company.

It is rumored that the legal proceedings requisite to validating the change of materials may delay the construction of the road until next year.

Complete Highway to Hartwick Park

Completion of five miles of highway M 93 extending from highway U. S. 27 east to the Hartwick pines state park has been announced by the state highway department.

The new road leaves U. S. 27 three miles north of Grayling and terminates at the park. It replaces temporary M 93 which led directly from Grayling northeast to the park.

The new road is expected to result in increased popularity for the park which includes one of the few remaining stands of virgin white pine in Michigan, and which includes the recently completed Memorial building, considered one of the finest and largest log structures in the middle west.

Results Justify State Expense in Fire Prevention

"Michigan spent twice as much money as Wisconsin in 1931 in preventing and suppressing its forest fires, and burned over approximately one third as many acres," a comparative report issued by the federal government indicates. The report compares forest fire figures for Michigan, Wisconsin and Minnesota.

The fact that the area burned over by fires and the damage done has a direct bearing on the amount of money spent in forest fire prevention and suppression is indicated in the comparative figures for the three states. Michigan, spending \$748,517 in 1931 had a fire loss of 282,911 acres in 4,133 fires. Wisconsin spent \$384,260 and burned over 649,885 acres in 2,356 fires. Minnesota spent \$635,711 and burned over 992,931 acres in 2,778 fires. The damage done by fires in the three states is estimated at Michigan \$74,500; Wisconsin \$725,715; and Minnesota \$3,696,351.

Michigan's 1931 fire organization costs were divided: \$478,207 for prevention and \$270,310 for suppression. Michigan spent 0.4 cents per acre in the fire zone to prevent and fight forest fires last year. Wisconsin spent .29 and Minnesota .026.

The majority of fires in Michigan were class "B" fires of from one fourth to ten acres in size. In Wisconsin and Minnesota the majority of fires were class "C" fires of more than 10 acres. The relatively low damage done by fires in Michigan is attributed to the fact that sufficient funds permitted the development of a highly organized and equipped fire fighting service that was able to keep down the acres burned over in each fire. In Michigan last year the average fire burned over but 68.5 acres. In Wisconsin the average acreage burned over per fire was 275.8 and in Minnesota 637.4.

Juveniles Get Free Use Camp Buildings in 9 State Parks

Free use of camp buildings for boys and girls provided in nine of Michigan's state parks is proving more popular than ever this year, according to the parks division of the department of conservation, citing the large numbers of applications for use of the facilities now being received.

The camp buildings, equipped with stoves, tables, seats and other facilities, are offered to properly supervised groups, free of charge, for two weeks period on a single permit. Last year more than 16,000 people occupied the buildings.

The nine group camp buildings are located as follows: Bay City state park, six miles from Bay City; Walter J. Hayes state park, seven miles from Brookline; Dodge Bros. state park No. 9, a half mile from Rockwood; Dodge Bros. state park No. 10, a mile from Highland; Interlochen state park, a mile from Interlochen; Marquette state park, three miles from Marquette; Orchard Beach state park 1 and a half miles from Manistee; Van Buren state park, six miles from South Haven and J. W. Wells state park near Menominee.

The camps are available to persons over eight and under 18 years of age and each group of fifteen or less must have an adult in charge.

While the camps have proved most popular with Boy Scouts, Girl Scouts and Y. M. C. A. and Y. W. C. A. groups, they are also available to any other organization or assembly of youths. Camp buildings may be reserved by writing to the superintendent of the park in which the desired camp is located.

Nona Vanderslice Expired Monday at Home of Brother. Miss Nona Vanderslice died on Monday at the home of her brother, D. L. Vanderslice, a mile and a half east of Buchanan, after an illness of six months.

Miss Vanderslice was well known here, having been formerly much interested in local Presbyterian church work although she had been away from here a number of years preceding her death. She was born near Dixon, Ill., July 11, 1871, the daughter of Mr. and Mrs. Henry Vanderslice. She came to Buchanan in 1898 and entered the home of her brother and cared for his three children after the death of his wife. After successfully rearing his family, she went south, remaining away about eleven years, until she returned here last fall.

Her deep interest in mission work was doubtless deepened by the fact that one sister, Mrs. Dwight Edwards is now a missionary in Peking, China, and a niece, Mrs. R. H. Johnston, is also a missionary in the Chinese field, with headquarters at Chanteh, Hunan province, China. The funeral was held at 3:30 p. m., Tuesday from the child's chapel, with Rev. Staver in charge. Burial was made in Oak Ridge cemetery.

CAMP WATERS DROWNED OUT; CONSTRUCTS ARK

Scouts Plot Nature Trail; County Decides to Leave River St. Bridge Open Until Sept. 1.

The construction of an ark is the main order of the day at Camp Waters, summer headquarters for the Chicago Heights and Harvey Boy Scouts, since a part of the camp was nearly drowned during the heavy rains of last week.

The ark is being constructed under the direction of the handicraft department by the six-week campers. It will be technically known as a sloop, with a main jib sail and one triangle sail. It will be capable of carrying four or five boys.

Another interesting activity was the plotting of the "Nature Trail" through the woods on the north end of the island. The trail is marked by signs and arrows thru-out its extent, and along its routes are these not much wind on the river at Camp Waters, the builders plan to tow the boat to Lake Chapin near Berrien Springs to sail it.

The first period is now in its second week, and there will be about 100 new Scouts on the Island next week.

The work of creation was a manifestation of His love; but the gift of God to save the guilty and ruined race, alone reveals the infinite depths of divine tenderness and compassion. God so loved the world, that He gave His only begotten son. All the paternal love which has come down from generation to generation through the channel of human hearts, all the springs of tenderness which have opened in the souls of men, are but as a tiny rift to the boundless ocean, when

compared with the infinite, exhaustless love of God." Preaching service at 11 a. m. Prayer meeting on Wednesday evening at 7:30.

Among the Bible citations in this passage (Prov. 4:10): "Hear, O my son, and receive my sayings and the years of thy life shall be many." Correlative passages read from the Christian Science textbook.

"Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 410): "The Scriptures say, 'Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God,' showing that Truth is the actual life of man; but mankind objects to making this teaching practical."
