## Board Cuts School Appropriations 12 1-2 % For Coming Year

### Now Here's the Proposition

**WORRIES**  
**BI Haws**  
 I used to worry in and out of season.  
 Over love affairs and finances and such  
 Till my worries almost unjoined  
 My reason  
 Though, as they did was put me  
 more in Dutch.  
 My worries wouldn't let me eat  
 my dinner;  
 My worries kept me tossing in my  
 sleep  
 Till my manly form kept growing  
 thinner, thinner,  
 As my troubles kept on piling yet  
 more deep.  
 Now I merely take my troubles  
 as I find them  
 And I've banished all perplexities  
 away  
 And though I've plenty, still I  
 hardly mind them  
 And I gain a lb or two most  
 every day.  
 I've quit this thing of living in a  
 flurry  
 I take the luck that comes and  
 let it be  
 For I've hunted up a guy that  
 likes to worry  
 And I let him do my worrying for  
 me.

### Mrs. Wilson Happy, Has Her Bottle Back

Mrs. Wilson—the Mrs. Wilson of the C. J. Wilson family—is happy again for she has her bottle back. Mrs. Wilson was very unhappy lately although most people did not know why but it was mainly because she had lost her bottle. This particular bottle, you know, had an attraction for her, not on account of its contents but on account of its long and romantic travels. This milk bottle, just in the ordinary routine of a milk bottle's existence, had travelled from Buenos Aires, S. America clear to here. On its side was blown the legend, "La Vascongada, Buenos Aires, Un Litro, Lave la Botella." The La Vascongada doubtless refers to the dairy or other institution that issued the bottle first and the "Un Litro" refers to the capacity, which is slightly larger than a quart. The "Lave la Botella" in English is "wash the bottle." After the bottle first came to the Wilson Dairy some time back it was seized on by Mrs. Wilson as a curio but shortly afterwards one of the boys carelessly returned it to a customer and it was darned careless, when you think of it, because it overruns a quart by a couple of gills and to keep circulating that bottle among the customers as a regulation quart would simply have done things to the profits of the dairy business, and so perhaps it was that when that bottle drifted back again to the dairy, Mrs. Wilson, parked it on her desk and filled it with nuts, just to keep other nuts from handing it out again—so to speak.

### Evan Junior Camp at Riverside Aug. 17 to Aug. 27

All boys and girls of 11 to 15 years of age, inclusive, are eligible to attend the Evangelical Boys' and Girls' camp at Riverside Park, Buchanan, August 17 to 27. Boys and girls, not members of the Evangelical church or Sunday School, are also invited to attend. The program includes swimming, ball games, Bible study, mission study, nature study, camp fires and music and numerous other sports; under competent Christian leadership, are being prepared. The cost for 10 days is very low. The Buchanan Evangelical quota is four boys and four girls, and if four girls attend the cost will be \$5 per person and if two boys attend, the cost for them is \$8 each. If the quota is full the cost will be only \$5 per person. This gives the same rate for boys and girls from other churches, but must make application through the Evangelical church at Buchanan. The enrollment cards can be secured of Rev. Boettcher. We urge boys and girls to enroll early. We request that Sunday School teachers of other churches to speak to the boys and girls about the camp. It will be a service well rendered. We know the parents and Sunday school teachers will be well pleased when the boys return from the camp. We believe every boy and girl needs this camp life and Christian training by competent Christian leadership. Shadowland Ballroom, St. Joe, Dancing Saturday and Sunday, 11c.

### REDUCTION IS SECURED THRU TEACHERS' CUT

Old Officers Board of Trustees are Re-Elected for Ensuing Year.

The school budget for Fractional District No. 1 of this city, was placed at \$45,500 for the school year of 1932-3 at the reorganization meeting of the Board of Trustees held Friday evening of last week, this figure representing a cut of approximately 12 per cent out of the budget of last year. The budget was itemized as follows: teachers, \$24,000; fuel, \$2,500; interest and bond retirement, \$14,500; salaries, \$225; incidentals, \$7275. The budget voted for last year was \$55,000. The bulk of the reduction was secured through a ten per cent reduction in the salaries of all teachers and the elimination of two teaching positions. R. R. Robinson will handle all music instruction in all twelve grades during the coming year, taking over the work formerly done by Miss Betty Crawford. Supt. Stark and Arthur Knoblauch will divide the work of the high school principalship, while the latter will assume the duties of Smith-Hughes instructor in agriculture. The board re-elected all old officers, as follows: president, M. L. Haines; secretary, Mrs. Ida Rice; treasurer, J. A. White.

### NATIVE OROKOKO TOWNSHIP DIES AT HOME HERE

Nettie McCracken, Mother of Mrs. H. M. Graham, and Gardiner McCracken, Passed Away Monday.

Mrs. Nettie E. McCracken, a native of Oronoko township and a member of one of the pioneer families of that district, died at her home on Moccasin avenue here about noon Monday, after an illness of four months. Mrs. McCracken had made her home here for the past nine years, coming here from St. Joseph after the death of her husband, the late W. W. McCracken, to be near her daughter, Mrs. H. M. Graham, and her son, Gardiner McCracken. Though living a very quiet and retired life, her social charm and unending kindness made her loved by many. She was born on the old Tabor farm a half mile from the Mt. Tabor Grange hall, Feb. 2, 1866, the daughter of William M. and Sarah M. Tabor. She was married to William McCracken on Sept. 17, 1891. They moved to St. Joseph 31 years ago, where her husband served as assistant city postmaster, as treasurer of Berrien county, as court officer during the administration of Sheriff George Bridgman. He was also the founder and owner until his death of the McCracken Taxi line in that city. For a time he engaged in paving contracting and installed the brick pavement on Front street. She is survived by four children: Mrs. E. F. Brumbaugh of Birmingham, Mich.; Mrs. H. M. Graham and W. G. McCracken of Buchanan; Kenneth McCracken of Pittsburgh; also by three grandchildren. Funeral services were held at 6:30 p. m. Wednesday from the Methodist church, Berrien Springs, and burial was made in Rose Hill cemetery at that place. Her daughter, Mrs. E. F. Brumbaugh of Birmingham, had been with Mrs. McCracken for six weeks preceding her death. Kenneth McCracken came from Pittsburgh three weeks ago.

### Buchanan Dance Artists Popular in the RKO Revue

The Buchanan people who attended the RKO Revue which showed at the Palace Theatre last week, were delighted with the reception accorded to the Misses Jean Boyd Russell and Teresa White, local dance artists, whose performances each afternoon and evening were favorites with the audiences. Miss Russell, a student at the Mollenhour School of Stage Dancing, appeared in choruses and in solo tap dances. Miss Teresa White, a student in the Mary Grace Mohn School of Dancing, appeared in a graceful Spanish number with shawl and castanets.

### Reamer Athletics Refute Charge of Semi-Professionalism

#### AMATEUR STATUS LOCAL ATHLETES IS ENDANGERED

Nappanee Officials Certify Game Sunday was Strictly Amateur.

Statements which appeared in daily papers during the past week to the effect that the Reamer Athletics of this city were an amateur outfit last year but this year had slid over in the semi-pro ranks are hotly denied by Manager Bob Reamer, who states that he has in his squad five leading high school athletes, whose amateur standing he has scrupulously guarded. Reamer states that he can get affidavits from the managers of every team he has played this year to the effect that every single game was in strict conformance to amateur rulings, in respect to paid admission and salaried players. It is known to the local followers of the team that no charge other than a collection of voluntary donations to cover incidental expenses has been made at any game. Below is reprinted the text of an affidavit as to the strictly amateur nature of Sunday's game, witnessed by three Nappanee men: Nappanee, Ind., July 25. To Whom It May Concern: This is to certify that the Buchanan baseball team which played here on the above date did not receive any monies or other pay for playing game. There were no salaries or wages on either team. Witnesses: Justice VanSickle, B. M. Widmoyer (manager of Nappanee Tigers); William C. Miller (Chief of Police of Nappanee). 12-Inning Game.

In the game between the Reamer Athletics and the Nappanee Tigers on the latter's diamond on Sunday afternoon, the Nappanee nine finally nosed out an 8-7 victory in a 12-inning contest. The Hoosier nine were out-hit by the locals but gathered in the winning run by dint of bunting what bingles they collected. Green and Ross starred with the stick for the Athletics, with three apiece. Wysong was leading cracksmen for the Tigers with three hits. The score card read:

### Political Parties, Like Women, Can Change Their Minds

The saying "Our Federal Union, It Must Be Preserved," was made in connection with the democratic war against Our Federal Union, I think, by Lincoln, and was repeated as one of the democratic tenets by Barkley, the "Keynote" in the late democratic national convention as purely democratic doctrine. Can you beat it? J. G. Holmes.

Taxpayers Program Sponsored by Chicago Tribune is Presented to Farm Audience.

At Namomi Grange Hall near Eau Claire Friday evening more than 300 farmers and their wives pushed their way into the grange room to listen to the speakers of the Michigan Farm Tax Association and the speaker of the National Organization for the Reduction of Public Expenditures, sponsored by Robert McCormick of the Chicago Tribune and other large interests who are interested in reduction of the great tax burden. In spite of the heat and the rather unsatisfactory conditions of the seating capacity of the hall, those in attendance lent an attentive ear. The speaker for the National Organization was Robert Gunn, and the speaker for the Michigan Organization was George Foulkes of Hartford, the president of the latter organization. The chairman of the meeting was John Tompkins, who introduced Mr. W. Bicknell, who in turn introduced the speakers of the evening, Leon Case of Watervliet, candidate for state senator, also gave a short talk along the lines of excessive expenditures. It was also noted that other candidates for office on both the major tickets were in attendance although they were not allowed to speak. ### OLDEST RESIDENT BUCHANAN DIST. DIED TUESDAY

Mrs. Selenda Davis Expired at Home Son, Ben Davis; Came to Niles 88 Years Ago.

The Buchanan district lost its oldest resident Tuesday, with the death of Mrs. Selenda Davis, 93, who passed away on that day at the home of her son, Benjamin D. Davis, two miles northeast of Buchanan in the Bend of the River section. Mrs. Davis was born Jan. 14, 1839, at Ellyria, O., the daughter of Mr. and Mrs. William Denley. She accompanied her parents at the age of five to Niles, making the trip by oxen and covered wagon. There the elder Denley built a log cabin, one of a few constituting the pioneer settlement of that date. There she grew to maturity, witnessing among other changes the coming of the first train to Niles with the extension of the Michigan Central to that point in 1848. She was wedded on Oct. 8, 1854, to Samuel H. Davis, the ceremony being performed in the Baptist parsonage by the Rev. Mr. Curtis. Her husband afterwards served through the Civil war as a member of Co. F, 42d Illinois volunteer infantry. He died in Buchanan in 1908. Mr. and Mrs. Davis made their home at Niles until 1857, when they moved to Buffalo, where they lived for twenty years. They then moved to Chippewa Falls, Wis., where they lived for eight years, then returning to this section and taking up their residence in Buchanan. Here the husband died twenty-six years ago and was buried in the Buchanan cemetery. Since that time Mrs. Davis has divided her time between her children at New Buffalo and Buchanan. She had made fourteen winter trips to Foley, Ala. Last October she was able to accompany a son by auto to Rock Island, Ill., to visit. In January she returned by car to Michigan City and visited with relatives there the remainder of the winter. In June she returned to the home of her son, Benjamin Davis, northeast of Buchanan, where she remained until her death. She retained her faculties to an unusual degree until about two years ago, when failing sight and hearing began to afflict her. Until that date she was able to read with artificial aid. She was able to be up and about, however, until about three weeks ago, when she was prostrated by a heart attack. Recovering from that complaint she succumbed to the encroachments of old age. She is survived by four children: Mrs. Lillian Slater of New Buffalo; Samuel Davis of Bloomer, Wis.; Robert Davis of Foley, Ala.; Benjamin D. Davis of the Bend of the River. These four are survivors of a family of 13 children, of whom eleven grew to maturity. The funeral will be held at 2:30 p. m. Friday from the Childs Undertaking parlor, with Rev. J. J. Terry preaching the funeral sermon. The pall bearers will consist of the following six grandsons: Treat Davis, Charles Davis, Leo Davis, Ralph Davis, Lyle Davis and Samuel Slater. Burial will be made in Oak Ridge cemetery.

### Rain Tuesday of Great Value To Late Crops

A two week's siege of sun which had already threatened late crop prospects in this district was lifted by rain which set in Tuesday morning and continued intermittently through the day. It is reported that the early potato crop now being harvested was diminished by dry weather, but the yield is average and the quality good. Corn had begun to roll badly and was firing at the bottoms, but the timely rains when the grain is in the silk should assure good production. The rains were also of immense value to the late potato crop. The temperature has been much cooler for the past week, although it rose to unofficial readings of 84 in the shade Tuesday afternoon.

### Frank Fabiano Can Answer But He'll Never Tell

The lost and found department of this journal of light and leading has been requested to look up the answer to the following problem: If two local dames insist that they can make swell ice cream, how much cream do their huddies have to buy to swell up to make a gallon. This was the dilemma which came near wrecking a social gathering at the home of Ed Pader Sunday afternoon, at which the George Nelson clan were the guests of honor. The prime intent of the assembly was the manufacture and consumption of ice cream. But the party was almost ruined by a shortage of ice cream which ensued when the ladies who are supposed to know what to do on such occasions misjudged the swelling power of cream. They empowered their husbands to get two quarts and one pint of cream to make a gallon. It didn't make enough and so we presume that the women did not get much ice cream. It's a cinch Ed and George got enough.

### RELIEF WORK DEPLETES STATE HIGHWAY FUNDS

Decrease State Income from Gas Taxes Another Reason for Delay, Says Dillman.

That the construction of the highway spur from Buchanan to M-60 may be deferred until next year is indicated by the following letter addressed to F. W. Howe by Grover C. Dillman, state highway commissioner. Dear Mr. Howe: I have your letter of July 11, 1932, concerning the Buchanan spur project. This work has not as yet been authorized by the road committee of the state administrative board and at this writing I cannot say whether or not we will be able to budget funds to do this work this year. The intensive work which we put on during the Winter and Spring months as an unemployment relief measure nearly depleted our construction funds and within the past week we have written off nearly a million dollars of anticipated weight and gas tax receipts for 1932 owing to decreased receipts. It is true that early in the season I planned to put on this work this year, but changes in conditions such as I have just mentioned forces us to put over a considerable number of projects until a later date. I do plan, however, to bring this project to the attention of the Road Committee of the State Administrative Board for consideration at an early date. Very truly yours, GROVER C. DILLMAN, State Highway Commissioner

### AM. LEGION LAYS PLANS FOR SPORT FESTIVAL

Baseball, Playground Ball, Tennis, Horseshoe Tournaments to Feature Event.

Definite plans are to be announced at an early date by the American Legion for a Buchanan Community Field day, to be staged at some date during the following month, in which the entire community will be invited to be the guests of the veterans and to join in a series of sports and field events, one purpose of which will be to decide the community championships in baseball, playground ball, horseshoes, tennis and perhaps in other lines of sport as well. It is the intention of the Legion to unite the entire city and farming district in the biggest community event that has been staged in this city for years. The Legion does this in the belief that the time is now ripe for a revival of interest in the local community interests, amusements and institutions.

More people are finding their amusement within the town limits than for many years, to the betterment of their finances and the promotion of good neighborliness. After a lapse of several years in which no tennis was played, three courts are now crowded nightly. Six playground ball teams are playing weekly in the community, although there has been no attempt to organize such interests. There are four excellent baseball teams in the city and surrounding community, all ripe for a title playoff. It is the intention of the legion to capitalize on this revival of local interests, by staging a community-wide sport festival in which business and all other interests will unite to promote the bonds of good feeling. In their undertaking they should have the hearty backing and co-operation of every business house and every private institution in the community. It is likely that this event will be run off during the latter part of the coming month.

### CYANIDE JUST WHIFF VIOLETS TO CRACKSMEN

When 2 Enterprising Burglars take to Burgling, Fumigation Doesn't Discourage Them.

Cyanide gas may be rough on rats but its just another whiff of eau d' cologne to the present-day burglar, according to the experience of the St. Joe Valley Shipping Association, which was visited early Monday morning by gentlemen of the cracksmen profession with designs on the safe. When the force departed from the building promptly (and how!) Saturday night they left a nice mess of cyanide gas fixed up for the rats and mice which had encroached even on as well-managed an institution as the Shipping Co. On the door they left a sign: "Beware! This Building is Under Fumigation!" But early Saturday morning two gentlemen whose names for the purpose of this article are Mr. Doe and Mr. Roe (since they have requested that their names be omitted from the paper) entered the building by the side door, gaining admittance by the little formality of smashing a glass from the door and pulling a hay hook out of the hasp. Mr. Roe sniffed the air and remarked to Mr. Doe: "I don't appreciate the line of fertilizer they carry in this dump." "Fertilizer me eye!" remarked Mr. Roe. "Don't you know the tankage when you smell it?" After which exchange of remarks they sought out the safe where Mary and Ted nightly tuck away the baled hay and other valuables. But the safe was too safe for them and after knocking off the combination, they sent for Carl Remington, who finished the job later in the morning. When the force came back on Monday morning they found all kinds of mice laying around but no burglars.

## Investigate Harm Done by Turtles to Fish Population

Studies to determine the extent to which turtles in Michigan are harmful to fish life, are now being carried on by the institute for fisheries research, acting in cooperation with the department of conservation.

Turtles, which are being captured by the hundreds every year at the fish hatcheries feeding stations and rearing ponds operated by the department, are being sent to the institute for studies of the stomach contents.

While there has always been some doubt as to the amount of damage done to fish by turtles, hatchery and feeding station overseers claim that they cause much damage to small fish and remove all turtles, water snakes and other creatures that prey on fish.

It is known, according to the fish division of the department of conservation that water snakes in the vicinity of feeding stations and rearing ponds exact a heavy toll but whether this condition prevails in natural waters is not definitely known.

"The black snapper is undoubtedly the most predacious turtle frequenting Michigan waters and is not nearly as common as the painted terrapin which is relatively harmless," the fish division believes.

Turtles are not protected by the state and thousands of them are killed every year for food, many considering them as a delicacy.

Michigan permits the taking of turtles at any time of the year and in any manner except the use of any device or trap that will interfere with or will take fish.

## Attorney Cady Comes Out For Judge of Probate

Attorney A. P. Cady announced today that he is a candidate for probate judge on the Republican primary ticket.

Mr. Cady's announcement comes on the heels of the retirement of Probate Judge Andrews, who yesterday stated that he would not seek a third term owing to the condition of his health. For many years the two were law partners.

City Attorney Eight Years. Prominent for thirty years in Benton Harbor affairs and in legal circles, Mr. Cady served the city eight years as city attorney. When commission government was first invoked for Benton Harbor in 1920, he was chosen for city attorney by the first city commission. His service of eight years in this capacity set a record for that office. During the time he served as city attorney, especially

immediately to Benton Harbor and began the practice of law. He built up a successful practice and finally he and Judge Andrews established the law firm of Cady & Andrews. This firm continued until Judge Andrews went into the probate court office.

One of the older members of the Berrien county bar from the point of continuous residence and experience, Mr. Cady is widely known in Berrien. With Judge Andrews out of the race his candidacy is expected to present formidable proportions, his long legal practice and experience easily qualify him to hold the place.

Attorney Cady said today that friends for some time had been urging him to be a candidate but that he had refused so long as Judge Andrews remained in the race. With Judge Andrews out, he felt that he had no restraining strings and so today jumped into the contest and made plans to make an aggressive campaign.

John P. Schilla Is Candidate for County Treasurer

John P. Schilla, 425 Cedar street, Benton Harbor, today announced his candidacy for county treasurer.

Schilla will seek the republican nomination at the September primary. Although he has never sought public office before, Schilla is well known in the county as a hard worker and as a football captain and star of the Benton Harbor high school from which he grad-

uated in 1926. Schilla worked his way through the University of Michigan, major-

ing in accounting and political science, preparing himself for public service. To pay his way, Schilla worked as a dish washer during the school term and as a fireman on the Michigan Central railroad in Niles when not attending the University.

This morning Schilla said, "I have no money to wage an expensive campaign, but I will do my utmost throughout the county by personal contacts. Also, I am confident that I am equipped to perform the duties of the office, and if elected I promise the people of Berrien county intelligent, efficient, honest and courteous service."

Arrangements have been completed to broadcast each week, over the Prairie Farmer Station, WLS, on Saturday at 1:30 p. m. where the local men and farmers will be invited to talk to their brother farmers and weekly reports will be given of the progress made in each locality.

The first broadcast was made last Saturday over WLS, Prairie Farmer station on a 30 minute time allotment, by Phil Hanna, the editor of the Chicago Journal of Commerce and George Foulkes of Hartford, who up to this time has been its sponsor. Robert Gunn of Benton Harbor, is the local representative of this National Organization in Berrien county and other counties will speedily be organized under capable and aggressive management.

Each Saturday at the same time some Michigan representative will be asked to speak over the station and preference will be given to local farmers who will report on the progress made. The objects of the association are to compel reduction in local government, both in personnel and expenditures, and only candidates selected by the organization will be endorsed for public office. This plan has met with much success in the states of Indiana, Dakota, Minnesota and Ohio and will be

followed in this state. A vigorous campaign will be waged to put in office only those who subscribe to the motto that "A Decent Use of The Taxpayer's Dollar is the Most Important Issue before Our People" and support will be given to those candidates only, who will receive this support regardless of their party affiliation. Full tickets are ready for filing in Van Buren, Berrien and other counties. There will be no third party movement, the right men will be endorsed on either of the major tickets.

tical meeting, although I am informed that there are several candidates present who are seeking office on both the major tickets. This is an organization meeting of business men and farmers and we are engaged in the serious business of trying to bring about a reduction of public expenditures and to extricate ourselves out of a trap into which we appear to have fallen and out of which, at first, there appears to be no avenue of escape.

"This great burden of taxation has destroyed our wealth by directly reducing the value of our property, by using the means of forcing others to sell and by removing the means for others to buy. It has diminished our credit by ruining our earning powers, thus creating unemployment and finally, and most vicious of all, by spreading fear among our people that all their property will be taken from them.

"Our ship of state is like an air-plane fallen into a tail spin. A good airship when controlled with a light and sympathetic hand flies safely and swiftly to the desired destination, but when swayed sharply by unskillful and insane hands it falls toward the earth in a dizzy spiral. The more the unskilled pilot jerks and jabs at the controls the wilder becomes the vortex and it finally crashes. If this same ship is allowed to take its own normal course, it will cease to spin, straighten out and proceed on its duly appointed course. The first and all important step must be to remove fear of the future from the hearts of our people. To do this we must drive out their enemies from Con-

gress and replace them with business men who will work for our country's welfare. Get rid of the professional politician from both the parties and replace them with men who have made a success of their own private business. To the three million parasites who have schemed and muscled their way into the public rolls, say to them, 'take heed! before it is too late. The end of the tax road has come. You, who have appropriated more than the public revenue, sometimes double the revenue, can now see that other people's money has ceased to flow.

"In the world of the tax-eater, citizens have given up business activity since they must bear all losses while job holders extort as much as 80 per cent of any gains. In consequence incomes have dried up by taxation and now produced only a third as much as when they were imposed. The oppression on the farm land owners has become unbearable, and there is an organized resistance all over the land. Each year finds more and more property owners refusing to pay taxes so unjustly levied, so great are these defaults that taxpayers can no longer be found who want the land for the price of the tax alone.

"We are now members of the National Organization to reduce public expenditures. We have become a part of a great body of determined men and women with unlimited capital and influence, who have dedicated their lives and their fortunes to maintain and protect the farm home. Resistance to unjust taxation has reached the proportions recorded in the 13 American colonies just before the Revolutionary war. This perhaps is not the proper way to pursue at this time, but I warn you that we will tolerate no more foolishness, no further taxing want and misery to maintain official splendor. Either this great burden is taken off us by a proper adjustment of of-

ficial salaries and reckless spending, or we will organize our people into a tax strike, the end of which may reach serious consequences."

He made a strong plea for organization among the farmers to protect themselves against exploitation. He said we have been betrayed by our representatives who idle away their time and influence in the interests of the special classes and who seem to forget our very existence, until such time as they require our votes to again put them in office. He said "Life is like an endless chain and no man can stop or speed its motion, then one day the chain snaps and shivers man's ideals to bits. It is at this junction that the common sense of the common man asserts itself and again takes up the chain of life and moulds it to his own pattern. This is your duty today, my friends. Let us not shirk our duty nor neglect our great opportunity. It is with us now."

Mrs. Richard Pears of Riverside, Ill., and Mrs. Walter R. Bullock and daughter, Marilyn, of Minneapolis, Minn., were guests over Sunday at the home of Mr. and Mrs. C. F. Pears.

Mr. and Mrs. Clarence Thursty of Elkhardt were week-end guests at the C. A. Andlauer home. Mr. Thursty remained over until Tuesday and then accompanied home Robert Thursty, her son, who had been visiting two weeks at the Andlauer home.

Mr. and Mrs. I. N. Barnhart arrived home the first of the week from a visit of three weeks at the home of the latter's sister, Mrs. John Nolan and family of Brookings, N. Dak., sixty miles north of Sioux Falls. They state that the crops are wonderful in that section, but that oats are selling at 9 cents per bushel and other farm products in proportion.

Mrs. Bertha Hoffman of St. Joseph, who has been visiting at the home of Mrs. Dell Bolster, returned with Mr. and Mrs. Ronald Bolster and mother, Mrs. Anna Bolster to St. Joe, Sunday, where they visited at the home of Mr. and Mrs. George Hoffman and daughters, Betty Mildred and Anna Jean and son, Robert. The entire party then went to Eagle Lake at Bloomingdale, where they were the guests of Mr. and Mrs. Dell Smith.

Mrs. Melinda Mills and Miss Mae Mills returned Monday from a visit at Jackson and other points in Michigan. They left a week ago Saturday, joining Miss Nellie Mills at Kalamazoo and all three going to Jackson, where they were the guests at the home of Mrs. Mills' sister, Mrs. H. A. Beach. Thursday morning they went to the vicinity of Midland, Hope and Edenville, where Mrs. Mills and Mrs. Beach had spent their girlhood, and where the former had taught school. Miss Nellie Mills remained at the home of her aunt for a visit of three weeks after which she expects to come to her home in Buchanan.

Mrs. J. E. Arney and grand-daughter, Barbara Jean Schram, returned home Friday after spending several days visiting at the W. E. Sargent home in Kalamazoo.

Walter Charles left for Minneapolis, Saturday after attending the funeral of his brother, Al W. Charles. He had been accompanied part way by his mother, Mrs. J. M. Charles of Minneapolis, who collapsed on the train and had to be taken home. Mr. Charles finished his trip here by airplane. Two sisters of Al Charles were too ill to attend the last rites.

Abramo DiGiacomo, a former merchant of Buchanan, arrived on Friday from his present home at Ossining, N. Y., accompanied by his wife and daughter, to visit at the home of his brother, D. DiGiacomo of this city. The two brothers conducted the Sanitary Sweet Shop for 10 years, where the Buchanan Candy Kitchen is now located, also operating stores at Three Oaks and Lakeside. Abramo DiGiacomo left here 12 years ago and is now conducting a realty business in Ossining.

Mrs. Henry Marble, a former resident of Buchanan, was found dead at her home at 219 East Ohio Street, South Bend, yesterday morning, her death having apparently occurred the previous evening. She had lived alone since the death of her husband five years ago. The iceman in making his morning rounds saw her sitting erect in her chair and spoke to her. Failing to get an answer, he found that she had been dead several hours. Her husband was formerly in partnership with Charles Treat in the hardware business here.

The Standard Oil Station on Days avenue was broken into on Monday morning by unknown burglars, who effected an entrance by the washroom window, and broke the combination from the safe without reaching the interior. It is believed that they were frightened away by John Morelock, the watchman for the Clark Equipment Co., who saw a man watching in front of the station and went across the street to speak to him. The man ran around in the rear of the station and apparently gave warning to an accomplice who was working inside.

## ROUND ABOUT BUCHANAN

## DEPRESSION REVIVES HOME GAMES HERE

It is probably true that more out-of-door games are being played on the home lawns and vacant lots of Buchanan this summer than in many years past, due to the effects of the depression, with its consequent effect on recreation budgets. Cramped finances have impelled many to give up the constant pleasure jaunts far and near over the stone highways, by which they formerly were wont to seek surcease from care in every idle hour, in favor of the less expensive amusements that may be found nearer home. Consequently the abandoned tennis courts have been shorn of their weeds and put back into a state of usefulness. The striped stakes and wire hoops that form the requisite equipment of the Victorian pastime of croquet once more deck the local lawns. Everywhere on the lawns and in the back lots may be heard the pleasant click of the balls. And that other ancient, rural, but nevertheless, first-class pastime, horseshoes, has been revived to an unusual degree.

A higher percentage of the population are engaged in baseball, either regulation or softball, than in a long time. There are two flourishing ball teams in town where in the late lamented boom it was hard to maintain interest in one. There are six playground ball teams in the city and nearby environs. This means that in the neighborhood of 100 are engaging in active baseball games of some form weekly.

In addition to the two tennis courts which were put in shape at the Athletic Park last spring, another court has recently been made on Liberty Heights by the Zachman brothers, where the young people of that section play nightly. A conservative estimate of those regularly playing tennis in this city is 125, compared with none for several years previous.

All of the above is no doubt a result of the depression, and to many it may seem that depressioners are not all liability.

## A WAY OUT?

Among many things on which sad memory casts a light in these recent days is the careful provision which has been made for keeping the banking stables locked, after the horse, in the form of the depositor's money, has been lost or strayed, not to say stolen.

Had the present provisions for safeguarding and assisting the banks been in force at the beginning of the depression, without doubt many of the financial institutions which now stand desolate and deserted on prominent corners, the object of rueful reminiscence by their erstwhile depositors, would yet be flourishing and serving the purposes for which they were originally intended.

But in a number of towns in Michigan, towns whose banks were closed before measures of relief were passed have yet found a way to take advantage of them to the extent of reopening their depository institutions.

For them the way out has been Bill No. 17, enacted at the special session of the 56th Legislature. This bill, now a law, provides that if any bank has been closed by action of the state banking commissioner or by the board of directors, the depositors thereof representing not less than 85 per cent of the deposit liability, with the approval and consent of the state banking commissioner, may join in a plan for the reopening of the said closed bank, or the establishment of a new bank, and may select a committee not to exceed twelve depositors to represent them for the purpose of carrying such plan into effect. On approval of the plan, the committee or the banking commissioner may petition the court in which the receivership is pending, setting forth the details of the plan which has been agreed on and requesting the court to set a day for a hearing thereon.

The court must then set a date for the hearing, and on the date set must receive testimony thereon and then, if it appears to be the best interest of the depositors, may issue an order terminating the receivership. If the plan presented includes an assessment on the stockholders not to exceed their liability to satisfy the debts of the institution, the court may include in its order provisions for such assessment, and the receiver will then be empowered to levy and collect that assessment in such manner as the court directs.

The act also provides that the depositors representing not less than 85 per cent of the deposits of a bank yet open may, with the approval of the state banking department, join in a plan restricting the withdrawal of deposits.

The Benton Harbor State Bank has already been opened under the provisions of this act. It appears that the sole qualification imposed by the law is that the depositors be willing to assume the liability of attempting to work out the plan they agree on and the court of jurisdiction pass on the merit of their plan and decide that its adoption would be in line with the general interest.

## 41,000 Ring Neck Eggs Produced at State Game Farm

More than 41,000 ring neck pheasant eggs, a record for recent years, were produced at the game farm at Mason during the spring and summer, the game division of the department of conservation reported today.

The game farm sent 30,780 "free eggs" to individuals and organizations for hatching and rearing. Of these, 28,700 were produced at the farm and 2,000 were supplied by the Isaac Walton

## Means Warm 3-Cornered Primary Race

Any possibility that the Republican primary race for sheriff in Berrien this year was to be a tame affair was shot to pieces Tuesday when George C. Bridgman, former sheriff, entered the contest by filing his petitions.

Bridgman's 11th hour entry into the primary develops a three-cornered race for sheriff on the Republican side of the fence.

GEORGE C. BRIDGMAN

The first out this year was C. L. Miller of St. Joseph, Republican nominee two years ago, who lost to the late Fred Cutler. Shortly afterward Fred Armstrong of Benton Harbor, at present deputy commissioner of the state police, entered the contest.

When he filed his petitions Bridgman made this statement:

"If I win the nomination and am elected in November there'll be new faces in the sheriff's office. But even more than that, I propose to put in an undersheriff and a chief deputy who will work instead of sitting in swivel chairs. I expect to work myself, exactly as I did when I was sheriff before. My idea of saving money in the sheriff's office is to let the chief officers do the work. I can save the salaries and expenses of three deputies by working myself and keeping my assistants going."

Bridgman says the sheriff's office can be easily run 25 per cent cheaper than what it is costing now.

farm was also high, being approximately 84 per cent.

Of the 1,500 eggs sent to the Wolf Lake branch rearing station, 998 birds were put in the rearing fields.

Reports received by the game division from individuals and organizations getting a smaller number of eggs seem to indicate that the fertility of game farm eggs was exceptionally high this year. Wild birds came through a mild winter in good condition and unusually large numbers of birds have been reported, indicating prospects for good pheasant hunting during the coming fall.

Owl Not Long Lived  
Carl W. Neumann, a German authority, says that the life expectancy of the owl is sixty-eight years, but this is not unusually long compared with that of other birds, such as the falcon, vulture, golden eagle, swan, goose, elder duck, raven and parrot.

## Southern Peninsula May Open Duck Season 15 Days Late

Different waterfowl hunting seasons opening 15 days later than in the upper peninsula were recommended by a majority of interested men who returned questionnaires sent by the game division of the department of conservation. The majority of those returning the questionnaires favored a duck hunting season to open October 1 in the upper peninsula and a season to open October 15 south of the Straits of Mackinac. Some preferred October 1 for the lower peninsula, particularly if the season should continue for 45 days. The upland game season opens October 1 above the Straits and October 15 in the lower peninsula, so all small game hunting seasons would open at the same time in each peninsula if those dates are established by the United States biological survey.

Most of those expressing opinions favored a 30 day continuous open duck hunting season. A large number advocated 45 days and a considerable number thought that a two months open duck hunting season would be justifiable in Michigan.

The results of the survey of opinions on the duck season were read before a joint meeting of Indiana, Ohio and Michigan representatives at Lansing and called by William B. Mershon Sr., a member of the advisory board which will make recommendations under the Migratory Bird Treaty. Ohio officials and sportsmen favored a duck hunting season lasting from September 16 to January 1 but favored only three days of hunting each week. Ohio laws forbid Sunday hunting.

## Real Hard Task

Combining business with pleasure is all very well, but a much harder thing to do is to combine business with profit.

## Quite Convenient, Though

Says a Kentucky paper: "It would be nice if a man could only date his checks as far ahead as the publishers do their magazines." Yeah, but it mightn't be so safe—Fort Wayne News-Sentinel.

## Almost the Same

When you have no ice and require a cold cloth for a compess, try wringing a cloth out of cold water and shaking it briskly through the air. The rapid evaporation will give almost the same results as if wrung out of ice water.

## The Only Difference

There isn't much difference between parties, except that they blame the inevitable on different things.—San Francisco Chronicle.

Mrs. S. S. Russell Died July 16 at Turon, Kas.

The Record is indebted to Mrs. Jennie Burbank for the following account, taken from a Turon, Kas. paper, of the death of Mrs. Squire Russell, a former resident of this city:

Lottie Lavina Dempsey, daughter of Abraham S. and Julia Dempsey, was born at Buchanan, Mich., March 29, 1862.

She, together with one younger sister, Lude, one younger brother, Leslie and an older half-brother, Orlando, were educated in Dayton, Greenville and Buchanan, Michigan, schools.

On March 26, 1881 she was united in marriage to Squire Smith Russell and that fall moved to New Buffalo, Mich., where her husband was employed in the mechanical department of the C. & W. M. railroad. The following year they moved to Lakota, territory, where they filed and proved a land claim and where they were blessed with the arrival of a son, Clayton Julius, in 1883. In the fall of 1884 they came to Rice county, Kansas, where they lived until 1888 when they returned to

the old home in Buchanan where the second and last son, Claude Ralph, was born that same year. They immediately moved to Grand Rapids, Mich., which was their home until 1903 when they went to Montana and the next year to Bucklin, Kansas, from which place they moved to Turon in July, 1909.

On May 24, 1913, her energetic nature prompted the launching of a variety store in Turon, which she successfully operated until April 8, 1919.

After her husband retired from railroad duty in 1927 their summers were spent in Michigan amid the old home surroundings and two of their winters in Corpus Christi, Texas.

She is survived by her husband, Squire S. Russell, her oldest son, Clayton Julius, a conductor on the Rock Island, now living in Dallas, Texas; her youngest son, Claude Ralph, manager of the International Harvester Company's branch at Grand Island, Nebr.; her sister, Mrs. L. C. Hawes of Ford, Kansas, and granddaughter, Cynthia Ruth, of Grand Island, Nebr., all of whom were with her at the time of her death.
