# GALIEN NEWS

## Celebrate 59th Wedding Anniv. at J Renbarger Home

It was 59 years ago, Dec. 24, that James Renbarger and Miss Minerva VanTilburg were united in marriage at the parsonage by the Rev. J. Bartmess of Buchanan. Saturday they celebrated their wedding anniversary by an informal reception held at their home from two to four o'clock. All but three months of their married life has been spent in our midst. They have one son, Ellis Renbarger of Three Oaks. Mr. Renbarger is 79 years old and Mrs. Renbarger is 81, and is in very poor health. Their active, good, upright citizenship has endeared them with a host of friends, old and young, who unite with the good in rejoicing with them over the eventful occasion and in extending to them our wishes for many happy returns.

## Galien Locals

## Prize Stock Brings Rich Award to Boys

Lorraine Marshall, a 13 year old boy from Concord, pocketed \$469.20 as the sale price of his prize champion steer shown in the Junior Livestock show at Detroit and Ralph Rawson, Cass City, obtained \$247.50 as the auction price for his grand champion Southdown.

The show brought entries from youngsters living in 13 Michigan counties who showed 53 steers and nearly 100 sheep. All the boys and girls are members of 4-H livestock clubs. The show is sponsored by the livestock commission firms in Detroit in cooperation with Michigan State college.

Winners of class prizes on steers were: Angus, Forsyth, McCrems, Milan, first; Rombye Hoyer, Cass City, second; and Russell Hill, Howell, third. On Short-horns, the winners were Robert Robertson, Yale; Raymond Kopinski, Emmett; and Clayton Moore, Cass City. The prizes on Herefords went to Lorraine Marshall, Concord; Richard McCarty, St. Clair; Harold Hosley, Howell.

The first three prizes in the individual sheep classes went to Clair O'Dell, Cass City; Ion Holdridge, Charlotte; Thomas Porter, Lapeer, on Shropshires; to Ralph Rawson, Cass City; and Gene Groenebeck, Hillsdale, on Southdowns; and to Eth Reagle, Marshall; Margaret Pratt, Homer; and Marie Rawson, on grade mutton sheep.

The Rawson family has won the championship on sheep the past two years as Delbert Rawson won last year. The winning sheep were out of ewes purchased by the brothers from Michigan State college in 1931.

with the Union forces on guard during the period of the reorganization of the south. During the winter of 1865 he was finally discharged after over four years of

## Game Dept. to Hold Conference States Sportsmen

If Michigan sportsmen express assent, the department of conservation will sponsor a meeting to be held at Lansing sometime this month when an opportunity will be given for a general discussion of conservation laws and recommendations for changes to the 1933 legislature.

Director George R. Hogarth has written invitations to a large number of sportsmen's organizations asking their reactions as to such a meeting.

"The department does not have a complete list of all hunting, fishing and other sportsmen's organizations in the state and as a result, a few might not have received the mailed invitations," Director Hogarth said. "These clubs are not being slighted and we wish to include them in the general invitation."

The letter from Director Hogarth says: "For a number of years past, it has been customary to hold a pre-legislative Sportsmen's Conservation conference to advise with the department as to a program for the coming years.

"Usually such meetings are held during the early part of December. We would like to have an expression of opinion from your club as to the desirability of another such conference. Please indicate, as soon as possible whether or not your organization approves, and if so, will you send delegates.

"If the majority of sportsmen's clubs wish a conference this year, the department will take care of the necessary arrangements in Lansing."

If such a conference is held this month, interested individuals not affiliated with any organization will be privileged to attend and to take part in the discussions, Director Hogarth said.

The last such conference was held in December 1930.

## Where Insect Fails

Usually wild animals accustomed to a certain range instinctively avoid weeds of a poisonous nature. Among the camels of Africa, however, it has been noted that where these animals are taken to strange areas they are frequently poisoned by eating weeds that the camels native to these areas will not touch.

"O! Two Evils"

The muck doctor in Mollere's farce, having cured a man's daughter supposed to be dumb, she exercises her tongue so fluently that her father offers him a second fee to take from her the power of speech again. "I cannot do that; but if you please I could undertake to make you deaf!"

## Glazing Chintz

The Textile World says that the glazed effect on chintz is produced in the finishing plant by passing the cloth through the ordinary friction-calendar after the fabric has been finished with a mixture of cornstarch and a softener. Karaffin or beeswax is often passed over the hot bowl of the calendar to aid in getting a high luster or glaze.

## Cumberland Gap

Daniel Boone discovered the Cumberland Gap passageway through the mountains in 1760 while on a hunting trip. Six years later, he and his companions blazed a trail through the gap, which was afterward known as the Wilderness road and played an important part in the Civil war.

NILES, DETROIT, FLINT, GRAND RAPIDS TO HAVE BREWERIES IF AND WHEN CONGRESS LEGALIZES BEER

Many Concerns are Organized in Anticipation of Early Federal Approval.

Plans have been completed for the construction of three breweries in Detroit and another in Flint, at an expenditure of \$1,500,000, as soon as beer is legalized by the congress of the United States.

The new plants will include the most modern methods known to the brewing industry, with the manufacturing beginning at the top and gradually moving down through lower floors as the various processes are completed.

Samuel Kline of the United Malt Products Company, with plants in Niles and Wyandotte, has announced that if beer is legalized his group will spend \$100,000 in additions to the plants of the Niles Malt Products Company and the Wyandotte Products Company.

In Grand Rapids a group of business men have taken an option on the warehouse building of the Grand Rapids Storage Corporation, and plan to remodel it at a cost of \$100,000 into a modern brewery.

This warehouse is the former home of the old Grand Rapids Brewing Company. Incorporation papers were also filed recently at Grand Rapids, both of which plan to make beer if the manufacture is legalized.

They are the Silver Foam Brewing Company and the Grand Rapids Brewing Company. In Detroit the Independent Brewing Company has been organized to purchase the plant of the Detroit Packing Company for 300,000 shares in the common stock of the brewery at a par value of \$1 and \$450,000 on condition that congress legalize the manufacture of beer within 18 months.

The newly-organized Tivoli Brewing Company of Detroit, which has been given over in recent years to the manufacture of soft drinks, has placed orders for equipment that will more than double the capacity of the plant.

The Mundus Brewing Company has been organized in Detroit to take over the West Side Brewery Company plant, remodel it and install modern equipment.

Specifically, the past six weeks have seen the filing of papers at Lansing by the following companies:

Mundus Brewing Company, Detroit, with an authorized capital stock of \$1,400,000, of which \$300,000 of \$1 par shares are to be presently outstanding. Offering of \$500,000 of this stock with purchase warrants was made recently by Fisher and Company, Detroit investment concern. This company will mean the return to the brewing industry of the well known Darmstatter family interests, and will occupy the West Side Brewery Company's plant. It is expected to have a capacity of 1,700,000 cases of beer annually.

The Independent Brewing Company, Detroit, with capital consisting of \$50,000 of preferred stock and 35,000 shares of no-par common stock. Organizers are Edward R. Weipert, George Schmitt and Fred Zwenzell.

Goodwin Incorporated Tivoli Brewing Company of Detroit, with authorized capitalization of 500,000 shares of \$1 par value. Offering was made recently of 175,000 shares of this stock as part of the 332,000 shares to be outstanding presently. This concern will occupy the old Tivoli plant and will make the "Altes Lager" beer.

Coebel Brewing Company of Detroit, with 50,000 shares of no-par value stock. Its incorporators are W. F. Haass, Harry Allen and C. Redman Moon, Detroit attorneys.

Koppitz-Melchers, Inc., Detroit, 1,000 shares, with B. A. Koppitz, Lucy E. Koppitz and L. W. Kuhn named as incorporators.

Voligt Incorporated company of Detroit, \$1,000,000 capital. Silver Foam Brewing Company, Grand Rapids, with \$50,000 capital. The Grand Rapids Brewing Company with 1,000 shares of no-par value.

Flint Brewing Company, Inc., Flint, with capitalization of 150,000 shares. State Attorney-General Paul W. Woodcock has announced that all these breweries were organizing for the purpose of manufacture of near beer, with the idea in mind that the articles can be amended when lager of higher alcoholic content is authorized. It is illegal at present for a company to incorporate to manufacture real beer, he ruled.

In granting permission for the issuance of securities, the State Securities Commission has held that the brewery companies must hold 70 per cent of the proceeds from the sale of stock in escrow until the manufacture of beer is legalized.

Brunswick-Balke-Collender Co., with a large plant at Muskegon, is anticipating a greatly increased business in the manufacture of bar fixtures and equipment, if beer is returned. Prior to the enactment of the 18th amendment, this concern was the largest manufacturer in the world of all kinds of bar fixtures. It employed from 1,000 to 2,000 skilled mechanics and laborers on this type of manufacture exclusively, paying out upwards of a million dollars annually in wages and spending several millions yearly for raw materials. It is understood that a number of sample bars modernized for the use of electric refrigeration have been developed in the

Muskegon plant.

In anticipation of the meeting of the state legislature in Lansing in January, a very exhaustive study of the economic benefits from the proposed return of the brewing industry has been made.

As near as can be determined from available data, approximately 30,000 men would get jobs in Michigan if the sale of beer is legalized. This estimate is made on a computation based on all available records of the various departments of the state government, census reports and population estimates, and statistics compiled on the brewing industry prior to 1918.

In view of the new mechanical devices which have grown up in the past 14 years, which call for the employment of manufacturing and selling operatives, the modern methods of packing, transporting, cooling and serving, there is opened up many new fields for possible employment in conjunction with the return of beer, all of which would indicate that the 30,000 figure is a very conservative one.

Over the protest of attorneys, Gov. Wilber M. Brucker signed the act which was passed by the state legislature in 1931. The act required that all aliens register with the state authorities and present proof of legal entry into the United States.

The act provides that persons or corporations who hired unregistered aliens were subject to penalties.

Last June three Federal judges, A. C. Denison, retired, of the Appellate Court, Simons and O'Brien, sitting en banc, held the law invalid.

Prison Board Resigns Resignation of five members of the Michigan State Prison Commission was announced Monday. The resignations will be sent to Gov. Brucker to become effective as soon as Governor-Elect Crock's appointees take office.

The resignations are Clark Wilbur of Grand Rapids, John W. Miner of Jackson, Coleman Vaughn of St. Johns, Walter F. Gries of Marquette and Charles R. VanDusen of Detroit. Mr. Miner is the only Democrat on the Commission.

Among the final actions of the board were the following: Withdrew request for \$10,000 with which to make over the Shelburn cement plant into a fertilizing manufacturing plant.

Recommended completion of cell block No. 10, the last unit of the Michigan state prison, at an estimated cost of \$90,000.

Ordered transfer of 63 mental cases from Jackson, Ionia and Marquette prisons to the new Ionia state hospital.

Ordered the transfer of 50 men from the Detroit House of Correction to the Jackson prison.

Recommended that the next prison commission appoint a superintendent of prison industries, to have jurisdiction over industries at Marquette, Ionia, and Jackson.

Adopted a resolution praising the present prison for the interest it has shown in prison affairs.

Strikers Appeal to State Strike-breaking street car operators who lost their jobs when the union men returned to work in Lansing took their grievances to the state department of Labor and industry this week.

A committee representing 66 non-union men retained Col. T. L. Boer, secretary of the department, that the car company had not paid them as specified in their agreement. The committee claimed that they agreed to accept 31c an hour, minus reductions containing on earnings of the lines.

They said that, although they had total no more than 80c a week, they had received only 15c an hour part of the time. Col. Boer asked for copies of the agreement and promised to report later.

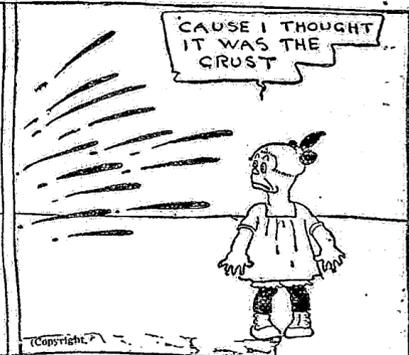

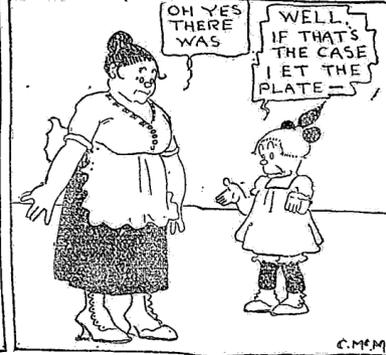

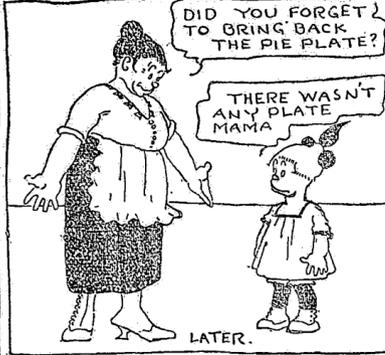

Meanwhile the City Council transportation committee has dropped plans to install other transit systems.

Kind Depression Refuge on Isle Royale The popular Isle Royale for the winter is the largest number ever left on the isolated island at the close of lake navigation to remain there four or five months wholly out of touch with the world. Lack of employment in cities is the cause of the increase.

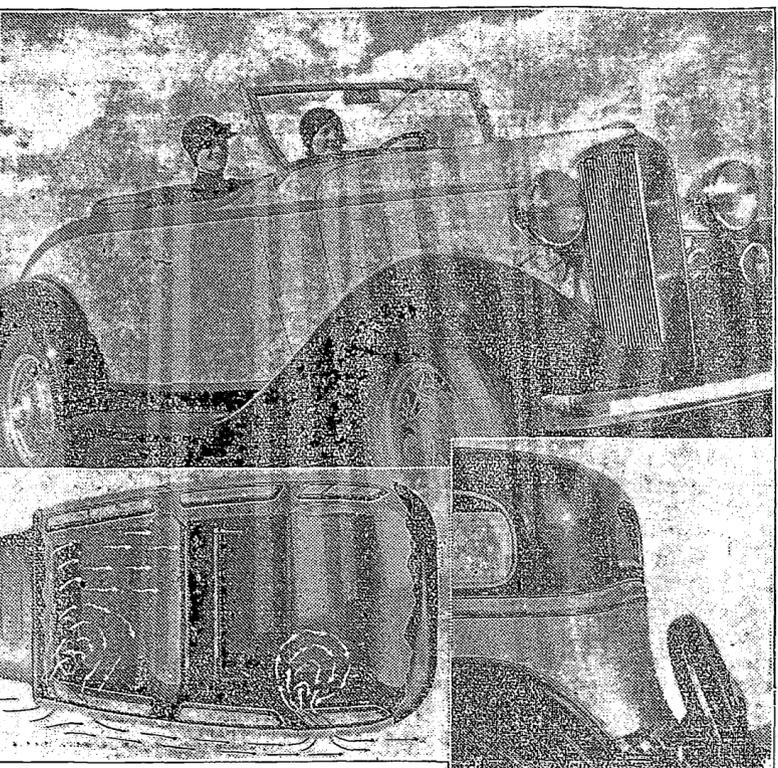

The men on the island spend the winter months in trapping, and only wild life unprotected by law. Practically no fishing is done in these months. In past winters a half dozen fishermen usually passed the winter on the island. This year the state of Michigan will maintain its first school there, with six pupils from two families.

To Keep Cider Sweet The old saw that the schools usually lag a decade or so behind

DOROTHY DARNIT!

New Chevrolets Add Over 85,000 People to Payrolls of Nation

TOP: New 1933 Chevrolet roadster climbing hill at General Motors Proving Ground. LEFT: New Fisher "No-Draft" Ventilation system illustrating how each passenger may have individually-controlled ventilation instead of being subjected to a sweep of air through the car, with resultant discomfort and danger to health. RIGHT: New rear-end of all closed models screening all unshiny underparts of the car.

Chevrolet's public showing of its new 1933 line means a material spur to national employment and materials consumption, since this company is the largest manufacturer in the largest industry in the world. More than \$5,000 people are back at work, 30,000 in the company's twenty domestic factories, 21,000 more in Fisher body plants working exclusively on Chevrolet-Fisher bodies, and more than 36,000 in dealerships throughout the nation. As many more are indirectly benefited by the announcement, through making their livelihood by building parts for the car which Chevrolet buys from independent suppliers.

Other features included in the new line are more power and speed in the engine, which is newly cushion-mounted; improved free wheeling, Silent Second gear; a new "Starter" that greatly simplifies starting; such safety elements as shatter-proof glass in the windshield; larger and lower bodies by Fisher, in the new "Aer-Stream" mode; three Chevrolet's 1933 volume totals feature in some of those retained; an Octane Selector that insures the highest possible operating efficiency from all grades of gasoline, besides a uniform gasoline cost per mile; dash instruments of airplane type, for instant, easy reading; positive brakes; and still easier steering.

With all these, and many more, the price range continues to be mindful of the buyer's pocketbook. It has been found possible to equip the new Chevrolets with many fittings that used to be confined to cars selling at several times Chevrolet's base price.

Since October first, trained former employees have been going back to work in Chevrolet's widely distributed manufacturing and assembly plants, with welcome additions to the general purchasing power, made possible by more wage money in circulation. Throughout November, the increase in employment continued to a seasonal peak to the middle of December, when concentrated operations incident to prompt dealer stocking were in full swing. More than twenty million dollars worth of the new cars were in dealers' hands when the national introduction was made.

and respect I have for those in the inside. It is more a question of who gets caught in the act. If many thousands who are still outside were on the inside it would be a distinct advantage.

Dates are Chosen for Farmers' Week Dates for the annual gathering of the agricultural clans of Michigan have been set for Jan. 30 to Feb. 3, when farmer's organizations from all parts of the state will meet at Farmers Week at Michigan State college.

Farmers Week had its origin in the years when farmer's institutes were held in most of the counties of the state. Several speakers on agricultural subjects were sent from the college to meet groups of farmers who lived near enough to the meeting place so they could steer a horse and cutter through the snow drifts and still have time enough at the meeting to thaw out before it was chore time.

The institutes became so popular and the demand for speakers so numerous that often it was impossible to send a member of the college staff who had technical training in the line of farm work of most interest to the audience. Crops men talked in fruit growing sections, livestock specialists discussed better pigs before groups of dairymen, and dairy husbandry professors told how to produce milk when the audience wanted to know the correct sprays for potatoes.

Insufficient funds at the college made it impossible to get enough speakers for the numerous meetings so Farmers Week was created to meet the demands for information in all types of farm activities. Thirty organized groups now have special programs at the college during the week. General meetings provide entertainment, shows bring in the best products of the farms, and contests permit visitors to put their abilities against each other.

Hunters Kill 70 Black Bears in Upper Peninsula

Seventy black bears, killed in the upper peninsula during the 1932 November season were carried south across the Straits of Mackinac, according to the Department of Conservation records. It is estimated that the kill in the state during the first 15 days of November was about 200.

Five of the bears brought south from the upper peninsula were taken by one party of five men hunting near Rexford in Chippewa county. The bears were taken by W. T. Hill, Charles Fenton and E. Louks of Whitmore and James McKay and H. E. Eymor of Prescott. Three of the bears were cubs and two were adults weighing 280 and 260 pounds.

Large Gold Nugget The National museum has a record showing that the largest gold nugget found in California was found in the Monumental mine, in Sierra county, and weighed 1,596 troy ounces.

Famous Bust a Forgery The famous British museum bust of Julius Caesar, the likeness of the Roman conqueror that has been reproduced in thousands of history books throughout the world, has been recognized as a forgery.

DECISION DETROIT JUDGE PAVES WAY FOR REOPENING HEARING ON PHONE RATES BY PUBLIC UTILITIES BODY

Requires Full Information of Costs as Basis for Future Rate Fixing.

The way was opened for a re-hearing of the telephone rate hearing before the State Public Utilities Commission with a view to rate reduction by the verdict handed down by Federal Judge Arthur J. Tuttle of Detroit upholding the right of the state commission to demand full information as to the cost of the service in the contract between the Michigan Bell Telephone company and the parent company, the American Telephone & Telegraph company, as a rate-fixing basis.

Unless appeals are taken to the United States Court of Appeals, Judge Tuttle's decision ends the fight of the phone company against existing rates fixed by the State Commission in an order Jan. 6, 1926, and the threat also, of increases sought by the utility.

The city of Detroit was petitioned in the hearing which led to the State's rate reducing order, which affected all of Michigan and averaged about 10 per cent. The State found itself balked, throughout this hearing, in efforts to ascertain the actual cost of service rendered by the parent company, or details of relationships with the Western Electric Co., a related concern, for supplies. The parent company's contract gave it the right to 4 1/2 per cent of the gross revenue. During the years of litigation, however, this rate has been reduced to 1 1/2 per cent.

United States Supreme Court opinions and decisions of the Michigan Supreme Court both were cited to support the contention that the State had no right to go behind the contract and study the fairness of the charges.

Suit Started in 1926 The Federal Court proceeding was started by the Michigan Bell Co., March 1, 1926, under the Fourteenth Amendment to the Federal Constitution to restrain the State body from enforcing what the plaintiff insisted were confiscatory rates. Endless hearings have been held, the State having been represented by Harold Goodman, special attorney, at a cost of \$50 a day, and having employed also Manford K. Teppen, as appraiser at \$100 a day, both relationships having provoked a great deal of public discussion.

The new order, on motion of Goodman, follows closely the recommendation last May of William S. Sayres, Special Master in Chancery, as based on United States Supreme Court findings in the case of the Western Distribution Co., of Kansas, Feb. 29, 1932, and also the Michigan Bell Telephone Co. suit of December, 1930, in both of which the high tribunal upheld the principle of a thorough study of all cost elements as a rate-fixing basis. Objections entered by the plaintiff's counsel that the suit, having been started prior to modifications of court decisions, was not affected thereby, were overruled.

Although the Federal suit may be reopened at some future time, Judge Tuttle has set as a basic requirement of such reopening, a "showing satisfactory to the court, that the plaintiff has complied with all orders of the defendant Michigan Public Utilities Commission requiring the production before of such proofs, including evidence as to the telephone cost of the said American Telephone & Telegraph Co., and to the said Western Electric Co., as are reasonably necessary to enable it to investigate and determine the fairness, as against the public, of the prices charged to the plaintiff for the aforesaid services, material and supplies, and that the plaintiff has otherwise exhausted its remedies before such Commission, in conformity with all present and future applicable legal requirements."

Before the modifying Supreme Court decisions were handed down, the plaintiff company had made considerable progress in thwarting the State Utilities Body's ruling, and in securing increases which would have added \$6,000,000 to its yearly revenue. Mr. Sayres had reported two years ago that the rate established was too low, causing an annual deficit of \$3,070,430 under the 7 per cent annual return he held was justifiable.

Editor Emeritus of Record Falls from Cherry Tree

Editor Record, The Frank Brewer, who died recently in Galien township, was one of the pupils in the Dayton school in days of yore. His father, Wm. Brewer, bought the Fellows farm now part of the Koeninghof place, the second place on the east side of the Dayton-Buchanan road, north from where that road branches north from the M. C. right of way.

Mr. Brewer was known in our neighborhood as the owner of Black Shepherd, the prettiest stallion in all the country around, famous as a trotter. Also there was a large Brewer family of whom Frank was the youngest.

The Fellows family was that of Orrin Fellows, the children as I remember them were Hubert, Nettie, now Mrs. Hank Cauffman, Frank and Jay. Hubert and Mike Brown were out cutting oats when a storm came up and they started home with Hubert carrying the cradle over his shoulder when a stroke of lightning hit the blade of the cradle and killed him. When I was engaged in the erection of the gas plant in Boone, Ia., I had Jay Fellows as carpenter on the job.

Another of the school pupils in Dayton was Orlando Deardoff Hall now mayor of Brooklyn, Ia., an office he has held, not far from 25 years. His people lived on the W 1/2 SW 31 Buchanan township. They sold in 1864 and moved to Dayton, onto the old Deardoff farm directly north of town, and in 1865 moved to Poweshiek county, Ia. During that winter O. D.

was in the school. "Lando" was born April 4, 1852, and I Oct. 4, 1852. One other feature of Dayton I failed to mention was its reputation as a resort both winter and summer, for pickering, there was probably none equal to it. The moss in the shallow waters around the margin forming the best of homes for the sports.

On Nov. 6, last, I had an experience all my own. I climbed a cherry tree to get the chickens out and in coming down took backward dive about eight feet to the ground, and, like Bill Jones in "Hoosier School Master," after his meeting with Bud Means, have felt "tolably shucked up like."

J. G. HOLMES.

### White Winter will be Hard on Ground Birds

It looks like a hard winter for pheasants, quail and other ground feeding birds. The past two winters have been mild. Little snow has permitted the birds to find more food than usual. As a result the winter death rate from starvation has been low with a resulting increase of birds and excellent hunting, according to the department of conservation.

Heavy snowfall and sleet storms frequently mean hunger for a large number of ground feeding birds. By establishing winter feeding stations where needed, sportsmen and others interested in birds can do much this winter to help insure a good crop of birds for next year, the department advises.

Feeding stations need be neither expensive nor troublesome, the department said, in making suggestions to those living in areas where ground feeders such as pheasants and quail are known to frequent. Feeding birds during the winter is largely a matter of keeping suitable food above the level of the snow or ice.

Corn, wheat or other grains may be used for feeding. Bats of corn may be spiked to a limb or board placed just above the snow line. Shelters are effective and may be built by leaning a few branches against a tree or fence and covering with burlap, evergreens or corn stalks. Some use feed hoppers or boxes placed where they may be reached by the birds.

Feeding stations are most effective when placed at the edge of a swamp or in brush along fences. The most effective feeding station is the least artificial, it is suggested. Farmers who leave shocks of corn in the field and keep the snow from piling too high around them are doing much to insure the birds obtaining plenty of food during the winter.

### CHURCH ANNOUNCEMENTS

Church of Christ  
Communion at 10 a. m.  
Bible school hour at 10:15 a. m.  
Mrs. Nellie Boone is superintendent and Miss Catherine Cook is primary superintendent.

St. Anthony's Roman Catholic Church  
Pastor, Rev. Father John Ralph  
Masses at 8 a. m. on each first, third and fifth Sunday of the month and at 10 a. m. on each second and fourth Sunday, and at 7 a. m. on the first Friday of each month.

L. D. S. Church  
10 a. m. Sunday School.  
11 a. m. Morning Service.  
7:30 p. m. Evening Service.  
The Young People's early morning prayer meeting is held at 8:30 a. m. every second Sunday in the month.

Sunshine Temple  
Sunday services:  
9:45 a. m. Sunday School.  
10 a. m. P. m. Preaching services.  
6:30 p. m. Young People's meeting.  
7:30 p. m. Preaching service by Rev. Lee Cole and Rev. Ira O'Shea on "The Gift of the Holy Ghost."

Christian Science Churches  
"God" is the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, Jan. 1.

Among the Bible citations in this passage (Rev. 19:1) "And I heard as it were the voice of a great multitude, and as the voice of mighty thunders, saying, Alleluia: for the Lord God omnipotent reigneth."  
Correlative passages read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following: p. 116: "Science so reverses the evidence before the corporeal human senses, as to make this Scriptural testimony true in our hearts. The last shall be first, and the first last, so that God and His idea may be to us what divinity really is and must of necessity be,—all inclusive."

Christian Science Church  
Sunday School at 9:45 a. m.  
Sunday service at 11 a. m. Subject, "God."  
Wednesday evening meeting at 7:45.

Reading room located in the church at Dewey avenue and Oak street, is open each Wednesday afternoon from 2 till 4 o'clock.

Methodist Episcopal Church  
Thomas Rice, Minister  
Sunday School and morning worship will be combined and will begin at 10 o'clock and will close not later than 11:30. Start the new year right by attending some church or Sunday School. The pastor will give a brief address on "The New View for the New Year."

Junior League and New Year party beginning at 5 o'clock. Senior League at 6.  
Evening service at 7. We were glad to see such a large crowd at the Christmas pageant last Sunday night. The church desires to thank John Eibers, Arthur Mann and all who helped make the pageant so worthwhile.

Choir practice Thursday beginning at 7 o'clock under the leadership of A. B. McClure.  
Teacher training class Wednesday at 7 o'clock. Sunday School teachers and any who are interested are cordially invited to this class. It is just one hour study.

We take chapter 5 for this Wednesday. Service at Oronoko at 9 a. m.

First Presbyterian Church  
Harry W. Staver, Minister  
Church school at 10 a. m. We suggest that a good way to begin the New Year is to give greater attention to your religious life. Attending the Church School and the Morning Worship Service is a practical way to do it.

Morning worship at 11 a. m. New Year's Day. The sermon will be in keeping with the occasion. The robed chorus of young people will present an attractive anthem. The pastor urges a good attendance at this opening service of a new year.  
Tuesday, Jan. 3. Meeting of the Jeannette Stevenson Guild. Hostesses, Mrs. VanDeusen, Devotional, Mrs. French; study book, Mrs. Shreve; entertainment, Mrs. Mary Bainton.

Evangelical Church  
W. F. Boettcher, Minister  
11 a. m. Morning worship. Subject, "A New Beginning."  
6 p. m. League service. Topic, "Facing Life Gaily."  
7 p. m. Preaching service. Topic, "Seeking the Saviour."  
Prayer service Thursday evening at 7:30 o'clock and official board meeting. All members of the board are urged to be present. Present all your reports for the year. A welcome to all our services.

Seventh Day Adventists  
Sabbath School at 10 a. m.  
Lesson study, "Constraints to Prayer."

Introductory thought: "The idea that prayer is not essential is one of the most successful devices to ruin souls. Prayer is communion with God, the fountain of wisdom, the source of strength, and peace and happiness. Jesus prayed to the Father with strong crying and tears. Paul exhorts believers to 'pray without ceasing' in everything, by prayer and supplication with thanksgiving, making known their requests to God. 'Pray one for another' James says. The effectual fervent prayer of a righteous man availeth much."  
Prayer service at 11:15.  
Prayer meeting Wednesday evening at 7:30.

### Average Michigan Hunter Saw 25 Deer During 1932 Season

The average Michigan deer hunter saw 25 deer during the open hunting season, it is indicated from 100 deer tally cards selected at random from among the thousands received by the department of conservation.  
The 100 hunters, 64 of whom hunted in the upper peninsula and 36 in the lower peninsula, saw a total of 2,595 deer.  
The 64 upper peninsula hunters saw 208 bucks. They reported seeing 600 does and 404 fawns or unidentified deer.  
Ninety of the 100 hunters reported their observations of deer conditions. Forty six said they believed the number of deer to be increasing; 19 believed the deer herd decreasing and 25 said they saw no change in deer conditions.  
Practically all of the hunters expressed opinions on their tally cards of their reactions to present deer laws, of deer law enforcement or made suggestions relative to some particular angle of the situation in which they were interested. Opinion was divided as to the continued efficacy of the one buck law, hunters in the same camp differing both as to the success of the law and whether deer are increasing or decreasing in the vicinity.  
One hunter said there were more deer in the locality he hunted than there were 20 years ago. Another said, "There are 50 deer now to one 20 years ago."  
"Too much country for the amount of deer in it," a Presque Isle county hunter reported. "Have game warden visit deer camp and give a card saying, 'a will be back; it will save does,' a hunter suggested.  
A compilation of all information given on all cards received is now being made by the game division.

Pretty Name for Coral  
The word coral is derived from Greek words, which mean "daughters of the sea." The little creatures that form coral were called zoophytes, or animal plants, by the old naturalists, for then the boundary line that divides the animal kingdom from the plants was not clearly defined. But "daughters of the sea" is a suitable term.

Ice, Stairways  
The Inca Indians had steps or stairs to many of their buildings. The greater part of their dwelling houses were constructed with only one story, with steps leading to the roof. They also had steps leading to the tops of towers.

"Stomachs" and "Gizzards"  
The biological survey says birds that feed on fish have stomachs, but birds that feed on seeds and grain have gizzards.

### Berrien Cows Test Highest in S. W. Michigan

One hundred herds tested in Allegan, Berrien, Cass, Kalamazoo, St. Joseph and Van Buren counties through herd improvement associations reveal that the best association average butterfat production occurred in the Berrien-South organization, Edis Omland, tester. The Berrien cows averaged 26.6 pounds fat for the month while the second place went to St. Joseph county cows averaging 25.13 pounds. Following closely were the North Berrien and Allegan county cows.

The herd of Don Morse of Cass county made a butterfat average which crowned the leading butterfat producing herd owned by Doan Straub of Berrien county. The Morse herd averaged 45.53 pounds fat while the Straub herd averaged 48.75 pounds fat. Other high producing herds in this area are owned by Trio Omland, St. Joseph county and Mason Parmelee of Allegan county.

C. W. Randol of Kalamazoo county, George Mitchell, tester, owns the leading cow under three years of age in the area while John Clark of Berrien county and Harry Gleason of St. Joseph county own second and third place cows respectively.  
In the under four year old class, Doan Straub has the high producer followed closely by Don Morse of Cass county and M. Wilmot of Allegan county and John Fenwick of St. Joseph county.

Howard Bucknell of St. Joseph county owns the highest producing cow under five years which placed second high for the state for the month. Other leading cows in this age group are owned by C. L. Wigginton of Van Buren county and Rollo Mosher of Allegan county. Rollo Mosher also has the leading mature cow for the area. The highest cow in the St. Joseph county association followed by Kalamazoo county herds and Berrien and Allegan county herds.

Four proved sires are wanted by dairymen in the St. Joe county herd improvement association according to the tester, L. C. Beal.  
Association average 23.28 lbs. fat. Cows culled—  
Tester—Paul Cheney.  
High herd in butterfat production, Mason Parmelee, PEB, 1030 lbs. milk and 38.90 lbs. fat.  
High cows in age classes—Under 3, Mason Parmelee, PEB, 1292 lbs. milk and 46.3 lbs. fat. Under 4, M. Wilmot, PEB, 927 lbs. milk and 54.4 lbs. fat. Under 5, Rollo Mosher, PEB, 1209 lbs. milk and 69.0 lbs. fat. Mature, Rollo Mosher, PEB, 1885 lbs. milk and 86.7 lbs. fat.

Berrien-North Association  
Association average, 24.87 lbs. fat. Cows culled—  
Tester—Donald Shepard.  
High herd in butterfat production, W. A. Anderson, G. C., 624 lbs. milk, 35.7 lbs. fat.  
High cows in age classes—Under 3, Emmanuel Missionary College, GRH, 889 lbs. milk, 44.5 lbs. fat. Under 4—House of David, GRH, 1237 lbs. milk, 49.5 lbs. fat. Under 5, C. W. Randol, GRH, 1017 lbs. milk, 58.0 lbs. fat. Mature—Berrien County Infirmary, GRH, 1215 lbs. milk, 46.2 lbs. fat.

Berrien-South Association  
Association average 26.6 lbs. fat. Cows culled—  
Tester—Eddie Omland.  
High herd in butterfat production, Leon Straub, 12 PEB, 1345 lbs. milk, 48.7 lbs. fat.  
High cows in age classes—Under 3—John Clarke, GRH, 1023 lbs. milk, 51.4 lbs. fat. Under 4—Doan Straub, PEB, 1680 lbs. milk, 65.1 lbs. fat. Under 5—Doan Straub, PEB, 1913 lbs. milk, 68.1 lbs. fat. Mature—Doan Straub, PEB, 2734 lbs. milk, 89.0 lbs. fat.

Association average 21.26 lbs. fat. Cows culled—  
Tester—Donald Shepard.  
High herd in butterfat production, Don Morse, 9 H, 1378 lbs. milk, 45.3 lbs. fat.  
High cows in age classes—Under 3—Doan Straub, 1339 lbs. milk, 45.5 lbs. fat. Under 4—Doan Straub, GRH, 1469 lbs. milk, 64.7 lbs. fat. Under 5—Murray & Everett, PEB, 530 lbs. milk, 28.1 lbs. fat. Mature—Doan Straub, PEB, 1068 lbs. milk, 58.4 lbs. fat.

Kalamazoo No. 3 Association  
Association average 22.3 lbs. fat. Cows culled—  
Tester—George Mitchell.  
High herd in butterfat production, Clear Stream Farm, 27 PEB, 616 lbs. milk, 32.1 lbs. fat.  
High cows in age classes—Under 3—C. W. Randol, GRH, 1271 lbs. milk, 52.1 lbs. fat. Under 4—Mary Louise Farm, GRG, 1054 lbs. milk, 51.8 lbs. fat. Under 5—P. W. Sullivan, PEB, 975 lbs. milk, 58.5 lbs. fat. Mature—Clear Stream Farm, PEB, 1277 lbs. milk, 66.4 lbs. fat.

St. Joseph Association  
Association average 25.13 lbs. fat. Cows culled—  
Tester—L. C. Beal.  
High herd in butterfat production, Trio Farm, 5 PEB, 691 lbs. milk, 39.7 lbs. fat.  
High cows in age classes—Under 3—Harry Gleason, PEB, 1086 lbs. milk, 51.0 lbs. fat. Under 4—John Fenwick, PEB, 1042 lbs. milk, 54.2 lbs. fat. Under 5—Howard Bucknell, PEB, 1572 lbs. milk, 80.2 lbs. fat. Mature—L. L. Jones, PEB, 2266 lbs. milk, 84.8 lbs. fat.

Van Buren Association  
Association average 21.6 lbs. fat. Cows culled—  
Tester—Maurice Bailey.  
High herd in butterfat production, C. E. Wigginton, 13 PEB, 521 lbs. milk, 29.3 lbs. fat.  
High cows in age classes—Under 3—Root Bros., GRG, 995 lbs. milk, 42.2 lbs. fat. Under 4—Gold Medal Dairy, GRG, 967 lbs. milk, 50.3 lbs. fat. Under 5—C. E. Wigginton, GRG, 1178 lbs. milk, 74.1 lbs. fat. Mature—Gold Medal Dairy Farm, GRG, 846 lbs. milk, 48.2 lbs. fat.

### 4,000,000 Visit Chevrolet Dealer's Display New Models

Upwards of 4,000,000 visited Chevrolet dealer showrooms during the first day of display of new 1933 models, and many retail orders were added during the day to the thousands on hand prior to the showing, H. J. Klingler, vice president and general sales manager, stated. He said it was the most successful announcement, both in attendance and orders taken, that his company had experienced since 1929.

Hundreds of telegrams from dealers reporting attendance and sales were on Mr. Klingler's desk the morning after the showing. Attendance reports ranged from several score at small associate dealer points to more than 12,000 in the retail store, in the General Motors building, Detroit, where the largest individual showroom crowd was counted. Mr. Klingler said his estimate of 4,000,000 represented an average of 400 per dealer, which he considered a minimum. This exceeds any previous estimate of first-day crowds at Chevrolet dealerships, and many reported more public interest, larger crowds and more present retail orders on hand than at any time in their years in business. Mr. Klingler said the outlook is for a 25 per cent increase in his company's sales next year over 1932, when Chevrolet is again leading the industry, with prospects for the full year of about 350,000 new car registrations.

The high first day attendance was achieved despite generally adverse weather conditions throughout most of the day, ranging from extreme cold and blizzards in Eastern and Central Western sections to unseasonable sleet and snow in the central South. Utica, N. Y. reported five degrees below zero, yet more than 4,000 showroom visitors and twenty orders taken.

A New York City dealer reported fourteen first-day orders, doubling last year's first day. Block two (2) Gowanus Branch, in the Township of Chickaming, described as commencing one hundred fifty three (153) feet North 58 degrees five minutes East of the Southwest corner of said lot twenty seven; thence North 58 degrees five minutes East along Northernly line of Lake Avenue fifty (50) feet; thence North 32 degrees 25 minutes West one hundred (100) feet; thence South 58 degrees five minutes West fifty (50) feet; thence South 32 degrees 25 minutes East one hundred (100) feet to the place of beginning.  
Dated November 15th, 1932.

Homemaker's Corner  
It is not necessary to sew strips of old materials together when hooking a rug. When you come through to the end of the rug and cut it off the same depth as the loops. The new strip is then started on the surface and the end is also cut to make it the same in depth as the loops.  
Ordinary varnish may be given the new dull satin finish by being rubbed down after each coat with a piece of felt dampened and dipped into the powdered pumice and then rubbed lightly over the surface will give a dull finish to any glossy varnish and take away the roughness of brush strokes and dust particles that have settled on the wet varnish.  
Fish build and repair muscles. Salt water is rich in iodine and should be served at least once a week. Salmon and sardines are usually inexpensive foods. The cheaper grades of salmon have as high nutritive value as the more expensive varieties.

Notice of Foreclosure and Sale of Mortgage Premises  
MORTGAGE SALE  
Whereas, default has been made in the conditions of a certain mortgage, dated the 3rd day of November 1925, executed by Israel E. Ury and Bessie Ury, his wife, to A. R. Brummitt Sr., and E. J. Sandmier, which said mortgage was recorded in the office of the Register of Deeds of Berrien County, Michigan, on the 27th day of November 1925, in Liber 154 of Mortgages, on page 439, and which said interest of A. R. Brummitt Sr., in said mortgage was duly assigned by him to E. J. Sandmier by Assignment of Mortgage, bearing date the 21st day of September 1932, at ten (10) o'clock in the forenoon of that day, in Liber 174 of Mortgages, on page 118, and  
Whereas, the amount claimed to be due on said mortgage at the date of this notice is the sum of three hundred thirty-five and seventy six one hundredth (\$335.76) dollars, and an attorney fee of twenty five (\$25.00) dollars, as provided by law, and no suit or proceedings at law having been instituted to recover the money secured by said mortgage or any part thereof, and  
Whereas, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative.  
NOW THEREFORE, Notice is hereby given that said mortgage

Holiday Dinner for 16 Guests. Mr. and Mrs. E. N. Schram entertained at Christmas dinner for sixteen, Sunday, guests from out of the city being the Misses Erma and Fern Rollings of Kalamazoo.

Chinese Women. Native women in China usually are supreme in the home and in the domestic affairs of the family. Some of the finest, wisest, and strongest characters in the world are said to be found among old-fashioned Chinese women of every class. It is upon women that the brunt of life falls in China and hers is often the best and most practical head of the family.

Rat's Food Preferences. Foods that are particularly attractive to rats and mice are said to be Hamburg steak, sausage, fish, fish oil, crab meat, fresh liver, broken fresh eggs, bacon, thin slices of cantaloupe, apple, tomato or cucumber; green corn, cut from cob; mashed banana, hulled carrot, or baked sweet potato, toasted bread, cheese, rolled oats, cereals, peanut butter.

Wordy Chinese Politeness. In China when a subscriber rings up the telephone exchange the operator asks: "What number does the honorable son of the moon and stars desire?" After a short silence the exchange resumes, "Will the honorable person graciously forgive the inadequacy of the insignificant service and permit this humble slave of the wire to inform him that the never-to-be-sufficiently censured line is engaged?"

Mich. Hatcheries Hatch Millions of Whitefish, Trout

Ninety million whitefish eggs and 34,000,000 lake trout eggs are now in hatching jars in state and federal hatcheries in Michigan, a report issued by the department of conservation shows.

All of the eggs were taken during the past two months by commercial fishermen operating in Michigan waters of the Great Lakes.

The number of whitefish eggs is slightly less than the number taken a year ago and represents a drop from 360,000,000 the number taken during the fall of 1931.

The 34,000,000 lake trout eggs are compared with 44,000,000 taken in 1931 and 72,000,000 taken in 1930.

Severe fall storms and low prices of fish have been the largest causes for the low number of eggs taken, the fish division said. Eggs are stripped from fish taken by commercial fishermen and with conditions as they were in November, during the spawning season, fishermen would not risk their nets, boats and equipment.

The Thompson hatchery near Manistique is hatching 2,500,000 lake trout eggs and 20,000,000 whitefish eggs. The Bay City hatchery has 13,000,000 whitefish eggs in its jars.

Eggs allotted to the three U. S. Bureau of Fisheries stations are: Charlevoix, 16,000,000 lake trout, 43,000,000 whitefish. Alpena, 4,500,000 lake trout and 14,000,000 whitefish. Duluth, 11,000,000 lake trout.

White fish will hatch about March and will be planted immediately. Lake trout will follow about a month later.

Fike-perch spawn taking will begin about the time the lake trout are planted and will hatch about three weeks later.

Too Much at That. A psychiatrist says that the average person retains only one-fifth of what he hears, and yet we had no idea the average person was so fortunate.—Dayton Daily News.

Bread May Be Claimed Oldest of Human Foods

In the ages since history was first written we have heard about bread from every country in the world. Egyptian statues made 6,500 years ago show slaves up to their elbows in dough, or dancing upon it barefooted. Persian housewives plastered their dough on the outside of a clay (now a sheet iron) oven surrounding a charcoal burner, and baked it pancake fashion. In parts of Brazil the natives still pound out their grain with clubs that look for all the world like policeman's clubs.

For centuries only dark bread—much of it very heavy and coarse like the hefty four-pound loaves from the Black forest of Germany—was known by the people. Then one day a capricious English earl planned a banquet with a white color scheme and ordered his cook to give him white bread. How the cook managed to sift out all the chaff and save his head is a mystery, but he did, and the innovation was a huge success.

For a long time white bread apparently was confined to the use of the church, where it was made in the convents and monasteries and offered in the service. Their gradually the unblessed bread was sold to the nobility, and as wealth developed, baking was removed from the convents and taken up by the lords.

"Slow but Sure" Joins Other Discarded Myths

One continually hears of the slow but sure, and yet the laboratory results of the last eight or ten years show the slow but sure man is almost a myth.

The group who finish a test with laboratory apparatus in less than a minute make fewer mistakes than those who take more than this time. The group who take under a minute and a half make, in turn, fewer mistakes than those who take longer.

One can, of course, find exceptions, men who rush through and make mistakes, and others who go slowly, carefully and correctly; but even including the exceptions, the fast group is accurate, the slow group inaccurate. On combining the time and the errors, the best man proves twenty to thirty times better than the poorest.—Johnson O'Connor in the Atlantic Monthly.

READY THEATER, NILES, PRESENTS NEW YEAR'S EVE WHOOPEE PARTY

A gala New Year's Eve midnight whoopee party will be presented at the popular Ready theater Saturday night, Dec. 31, to celebrate the start of the new year of 1933. This has been the custom for a number of years and the special stage and screen entertainments at this time is looked in special for this occasion.

The show this year will start promptly at 11:30 p. m. with all seats reserved and at popular prices as heretofore.

A unique stage presentation of singing, dancing and musical novelties will be given in addition to the screen show. The stage portion of the program will be in charge of Violet Joy and her Joy Boys who will furnish the music for the entertainers. Miss Joy's Band is well known in this vicinity having played at a number of social and other functions here for the past three years. Vaudeville acts of a high class nature will be presented, these acts coming from Chicago and South Bend.

The screen feature will be the "Age of Consent" with an all-star cast of screen artists in the principal roles. Other short subjects will complete the screen program.

It is understood that a number of parties from here are now being formed to go to Niles to join in this New Year's Midnight Whoopee party. Patrons are advised to make their reservations as early as possible to insure getting desirable seats. Phone orders will be held for out of town patrons.

China Far in Lead. China had her chair legs carved into the cabriole form way back as far as the Wei dynasty, 220-264 A. D. This makes Chippendale's not even a second.
