## Galien to Form Soft Ball League For Summer Play

Last summer a group of our industrious men of Galien, seeing that our town lacked recreation, started a soft ball league made up of all the business men. Those on the north side of the track defended the north end of town while those on the south side defended the south end of town. The sides attracted a large audience. Men, young and old, took part in the games which made it a "big hit" with the town folks. Seeing the advantage in this kind of entertainment these men, headed by M. H. Nelson and J. W. Wolford, agreed to try and organize a group of teams, made up of all men that wanted to participate and in this way furnish recreation and entertainment for the people of Galien. These teams were organized, ten in all, and a rules committee appointed to draw up the rules of the game. Two games were played each week. At the end of the series of games the two teams heading the list were to play for the championship on Labor Day. An overflowing crowd assembled at all games. Again this year Mr. Nelson and Mr. Wolford are trying to get the teams organized. It will be run on almost the same plan.

## Romantic Figures of Gold Rush Days in "Silver Dollar"

Some of the most romantic characters in the history of the gold rush days of the early West, characters as dazzling as those of the most engaging fiction, are emblazoned in the First National picture, "Silver Dollar," which opens at the Princess theatre Sunday and Monday, May 21 and 22. The picture is based on the novel by David Karnes, which delves into the life stories of the pioneers and adventurers who swarmed the mining camps of Colorado during the richest silver strike in the history of the world. The central figure is that of Yates Martin who struggled through days of starvation as a prospector to rise to fame as the richest of the millionaires after he struck "pay dirt."

Edward G. Robinson plays the part of this Silver King who slapped a dry president on the back and asked him to have a drink, ruled a State Legislature in a bar room to the popping of champagne corks, embarrassed General Grant by making such a disturbance in his own opera house the prima donna quit in a huff and scandalized a nation with his divorce and remarriage.

Other picturesque personages include the horde of adventurers of the mining camps, the gambling tomms, dance halls, and political forums. Bebe Daniels has the leading feminine role opposite Robinson, that of the second wife of the Silver King, while Aline MacMahon plays the part of the first wife whom he deserted for the younger and more beautiful woman.

The supporting cast is exceptional, including such players as Jobyna Howland, as Poker Annie, DeWitt Jennings, Robert Warwick, Russell Simpson, Harry Holman and Charles Middleton. The story was adapted by Carl Erickson and Harvey Thew and directed by Alfred E. Green.

Mrs. Adam Lyddick had as her guests Sunday, her daughter, Mrs. Charles Randall and husband and two sons, Charles, Jr., and Donald, of Kalamazoo. Will Lyddick of Portage Prairie. The Misses Ellen Haist and Ruth Grive, teachers in Tonia schools and Miss Genevieve Gates, also of Tonia, were week-end guests at the home of Rev. and Mrs. W. J. Boettcher.

## Walking, Sunshine and Fresh Air

These are prescribed by physicians for tired and nervous patients, and it is the warm bath at the end that leaves us relaxed and refreshed.

Hot water, an endless supply, is necessary for cleanliness, health and comfort. All day—every day—we need hot water. From the early hours, beginning with the morning baths until late into the night, when the last tooth is brushed, we need hot water.

## AUTOMATIC HOT WATER SERVICE

adds to the delight of bathing; then why not add this comfort to the other comforts of your home?

We shall be glad to send a water heating expert to your home, who can furnish you with complete details as to size required, cost of installation, and cost of operation.

Henry Ford  
Dearborn, Mich.

May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

# Hi-Powr

## Economize With This New Gas

The economy of Hi-Powr is not in its price alone—it is in increased power and mileage [more miles to the gallon] and in the savings it makes in eliminating frequent carbon removal and valve grinding.

The whole upper portion of the engine cylinders is protected from abnormal wear by the lubricant which is a part of the gasoline as you buy it.

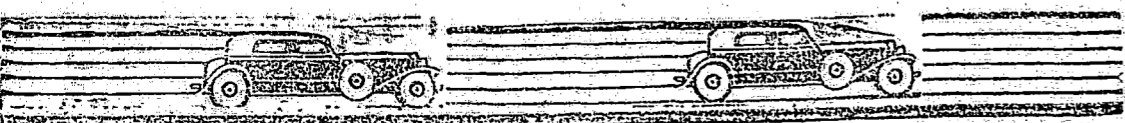

Every intake of gas carries this high temperature-resisting lubricant into the combustion chamber—thus furnishing lubrication to moving parts during the critical period between start of the motor and the time crankcase lubricant reaches the upper cylinder walls. Longer motor life, greater efficiency and lower operating and repair costs result.

Economize with Hi-Powr, the New Gas.

The "gadget" is a little machine that shows the difference between ordinary cord, used in other tires, and Super-rubber cord, used in Goodyears. That difference is in the stretch and come-back—you can see how Super-rubber cord stretches and comes back, how the cord in other tires loses its life and elasticity. It takes about 3 minutes to tell the story—but as this customer said—"If every car owner could see that demonstration, there wouldn't be anything used but Goodyear Tires."

Michigan Motorists Discover there IS a difference! STANDARD RED CROWN is UP in Anti-Knock

TRY IT!  
5 GALLONS 65c  
TAX PAID

It was announced only recently—Standard Red Crown's higher anti-knock quality. Already thousands of motorists have approved it—enthusiastically! They've found there is a difference in the way their cars behave. They're coming back for more—and more—of this smoother, livelier motor fuel.

TRY IT—Try 5 gallons in your own car!  
Find out for yourself! Drive in where you see the familiar Red Crown globe. Get 5 gallons or more. Then put it to the test. Try it for quick pick-up in traffic. Try it for climbing power in the hills. Try it for long-run economy on the open road. You'll like the difference!

B. H. S. Track Team Defeats Benton Harbor Class A

WIN FIRST IN EIGHT OUT OF TWELVE EVENTS

Bucaneers to Journey to Kalamazoo Saturday to Compete in Qualifying Trials For Lansing Meet.

A week ago today the local high school track team engaged Benton Harbor in a bitter track meet.

The day was cold and the conditions were adverse for any sort of a satisfactory track meet.

Ellis of Buchanan won first in the high jump and pole vault, but was ragged in the hurdles, an event which he has been winning previously.

Below is a record of events: 120 high hurdles, Mullins, BH, 1st; Rolen, BH, 2nd; Hendrix, BH, 3rd.

Senior Skip Day

Amid shouts of "Ah, I wanted to sit in the front seat," and "Hey, where's Eddie?" which died off into a weak "Ooh" when the person in question discovered behind one, the senior class left the Rex hotel at 9:10 Wednesday morning.

The first stop was Notre Dame. Here the gallant senior lads came to the front by hitting a coupe out of the way of a model A Ford in which were six senior girls.

After leaving the church, the seniors followed a winding path around the east end of the lake to the outdoor shrine. The first chapel to be used at Notre Dame was next inspected. This chapel is made of large logs and furnished like the first missions established in the U. S.

and "Oh, my feet" that the students hurried to their cars and headed for South Bend. But alas, "Pody" and Eddie were missing.

It seems they wished to look the stadium over more thoroughly than the rest of the crowd and had become so engrossed (we suppose) in the vastness of the place they quite forgot the time.

Who's Who

Elouise Squier is a brown eyed, dark complexioned, young lady of the sophomore class. She is just sixteen years old and measures 5 feet and four inches in height.

Her favorite activity is sports of all kinds and indoor ball in particular. She took part in the gym exhibition and has made several teams during her high school career.

Elouise likes to eat chile con carne and ice cream. Strange as it may seem, her favorite subject is Latin.

Wanda Flenar demands that if her name is in the school paper it must be as "Pat" Flenar, so to please this very unusual young lady we will henceforth speak of her as "Pat."

"Pat" will be 18 years old on the 15th day of next August. She has a general dislike for school and all that goes with it. Her pet peeve seems to be getting written excuses from home as she thinks they are quite a bother.

Now believe or not, but her favorite subject is American government and her hobby is reading poetry (or so we've been told).

"Pat" is a member of the senior class and it is guessed that after graduation she will spend at least part of her time preparing her favorite food which is spaghetti. She would probably disagree to this but we will have to wait and see.

Honor Convocation Program By Bob Gladwish

On Wednesday, May 24, a new innovation in assembly programs will be introduced here. These honor convocation programs are used extensively in colleges and high schools but as yet Buchanan has not seen fit to use them very often.

During the home room period several persons who have been outstanding in scholastic, forensic and athletic work will be duly recognized.

The following are to be on the platform: the ten honor students; those receiving O. G. A. awards; those receiving debating awards; the person receiving the history award (given by the D. A. R.); the individual receiving honorable mention in the "Scholastic Magazine" creative writing contest; one act play division; the person receiving a prize in the "Scholastic Magazine" news contest; those receiving G. A. A. awards; those receiving major basketball monographs and those outstanding in oratory and debating work.

One of the best speakers in Berrien county will be here to deliver an address on this date, and the parents and public are urged to attend the program. (1.15 to 1.40 p. m.)

First Platinum Medal The first platinum medal struck by the United States government was presented to Herbert Hoover, then President of the United States and chairman of the United States Commission. On the obverse is a head of George Washington and on the reverse a symbolic figure of Liberty and the inscription, "Proclaim Liberty Throughout the Land."

## Can your range do this

# COOK AN ENTIRE MEAL WITHOUT SOILING THE BOTTOM OF THE PAN

An Electric Range cooks with a clean, flameless heat which never soot-blackens the bottom of pots and pans. After cooking innumerable meals, you can wipe the bottom of the pan with a freshly laundered towel without the least danger of soiling it. This same cleanliness protects your walls, the woodwork, and the curtains, not only in the kitchen but throughout the house.

It is the wasted heat from the flaming fuel stoves that makes the kitchen stuffy during the hot summer days. Free yourself from this
