ROUND ABOUT BUCHANAN

ROUND ABOUT BUCHANAN

If by any chance you have gathered a notion that there is nothing doing in Buchanan this summer you should go around by the Civic Association headquarters in the Gross building some day and give a look at high-tension activity in the persons of the members of the Centennial Committee of that association and their numerous corps of instructors.

And if what you see gives any suspicion that the Centennial management are likely to be bankrupted by the cost of overhead, it will interest you to know that all the chic stenographers and all the earnest young men busy at sign painting and in deep discussion are all donating their time and talents without money and without cost in the interest of civic achievement.

Here are some of the things they have accomplished: Nearly two hundred road signs have been printed and posted from St. Joseph on the north to New Carlisle and as far east and north as Dowagiac.

Over 200 tire covers advertising the Centennial have been sold to local owners. Several large street signs have been painted and posted in prominent parts of the city.

Cash donations have been collected from a number of wholesale firms doing business in Buchanan to provide prizes and cover other expenses.

A contract has been made with a nationally known civic decorating firm to decorate Front street for the three days of the Centennial.

How to Benefit By Provisions of Home Loan Act

The Michigan home owner presents his case to an agency of the Home Owners' Loan Corporation. These agencies will be established at convenient points in Michigan. Their location can be learned from any postmaster or from the newspapers. Information will be furnished by these agencies upon application. None of these transactions are handled at Washington.

These agencies, acting for the Corporation, may exchange bonds of the Corporation for first mortgages on homes and pay in cash accrued taxes, assessments, necessary repairs and incidentals, provide the mortgagee with interest on his mortgage. These bonds bear 4 per cent interest, mature in not more than 18 years, and are tax exempt. The Federal Government guarantees the interest on the bonds but not the principal.

When the Corporation acquires the mortgage, the Corporation becomes the mortgagee. 15 years is given the home owner to pay the government. The rate of interest is 5 per cent. During the first 3 years no payment on the principal need be made. Extensions for the

may be made if the Corporation feels the circumstances justify.

The exchange of bonds for mortgages may not be made in an amount higher than 80 per cent of the property's value, or total more than \$14,000, whichever is the smaller. Homes must not be valued at more than \$20,000 and must not have been built for more than four families. Borrowers must be residing in their homes or only temporarily residing elsewhere.

The Corporation is authorized to make cash loans on property up to 50 per cent of its value for payment of taxes and assessments, and necessary maintenance and repairs.

If the mortgagee will not accept bonds for his mortgage, and this is entirely up to him, the Corporation may loan the home owner cash up to 40 per cent of the property's value so that the mortgage can be taken up in cash. The interest rate on these cash loans is 6 per cent. The amortization plan is otherwise the same as that used when bonds are accepted.

The Corporation is able, under conditions which will be explained by the agency, to provide exchanges of bonds and cash advances to persons who have lost their homes through foreclosure to enable such persons to retain the homes. The loans must be obtained within two years prior to such exchange or advance by the Corporation.

It should be remembered that

this relief is intended only for those who actually need it. The holder of the mortgage must be pressing for payment and threatening to foreclose and the applicant for a loan must be unable to raise the money elsewhere. The merits of each case will be individually considered and investigated as to these considerations by the agency to which application is made.

Law in Effect To Guard Identity of Illegitimate Birth

City Clerk Harry Post has received a copy of a statute passed by the recent session of the Michigan legislature to protect the identity of children of illegitimate birth by requiring that such births be filed with the state department of health rather than with the city officials. The state files will not be open to public inspection. This will make it possible to record the birth of a child in the name of the foster parents.

The law is as follows: This act is an amendment to Section 12 of Acts No. 343 of the Public Acts of 1925, and provides that illegitimate births shall be filed directly with the State Department of Health and not with the local registrar, and also provides for the registration of adoptions.

The amended section reads as follows: Sec. 12. The birth of each child born in this state shall be registered within five days after the date thereof. A certificate of such birth shall be filed with the registrar of the district in which it occurred. Provided, However, that an illegitimate birth shall be filed with the state department of health and not with the registrar of the district in which it occurred. Such illegitimate birth record shall be kept in a separate file and not be subject to public inspection nor copies thereof issued, except upon order of a court of competent jurisdiction. It is hereby made the duty of the physician, midwife or person acting as a wife in attendance at a birth, to file the certificate. If no physician, midwife or person acting as a wife is in attendance, it shall be the duty of the father or mother of the child, the householder or owner of the premises or the manager or superintendent of the public or private institution where the birth occurred, in the order named, to report such birth to the local registrar within five days thereafter. Provided, However, that an illegitimate birth shall be filed with the state department of health and not with the registrar of the district in which it occurred. If the person required to file such certificate is unable to obtain any

item of information required to be furnished, the registrar shall secure the same if possible from any person having such knowledge and complete the certificate of birth. Any person interrogated by the registrar shall answer to the best of his knowledge, all material questions asked him by the registrar relative to any information needed to complete the birth record. The informant shall sign any statement made in accordance therewith upon the request of the registrar. Whenever a decree of adoption is entered in any court of competent jurisdiction in the State of Michigan, a record of the adoption shall be filed with the state department of health on a form prescribed by the state commis-

ioner of health. This record shall bear the new name of the child, the name of the foster parents, and the date and place of birth as nearly as may be known, but it shall make no reference to the natural parents. This record of adoption shall be filed with the birth records of the state and certified copies shall be issued upon request. Such certified copies shall be accepted in all courts and places as prima facie evidence of the date and place of birth of said child.

This act is ordered to take immediate effect.

Henry Ford Dearborn, Mich.

June 19, 1933 A COMPANY THIRTY YEARS OLD Last Friday the Ford Motor Company completed 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

MR. and MRS. H. J. WESTFALL—Berrien County Home

Conducting an institution of the size and importance of the Berrien County Home requires an order of ability not possessed by the average man and woman. Mr. and Mrs. H. J. Westfall are Superintendent and Matron, respectively, of the institution and they are filling these offices with unusual success. It is particularly pleasing to see a man and his wife working together so ideally, in perfect co-operation, co-ordinating their efforts in a manner that makes the administrative machinery run so smoothly. Figures show that their management is not only efficient but also economic, saving the taxpayers large sums of money that would be otherwise expended under a less able management. Besides the inmates are kept happy and contented and they are treated in a manner that permits them to preserve their own self respect and identity. Cleanliness throughout is something else again to merit commendation. In fact, in a word, the various departments which come under the two offices of Superintendent and Matron, are in every way conducted so perfectly that nothing but favorable comments are ever heard and Mr. and Mrs. Westfall therefore well deserve these few words of praise in this special feature column.

RAY L. KNIGHT—County Surveyor

To attempt to catalogue the various important projects of a municipal nature, calling into service the technical skill of an expert surveyor, would require columns. Suffice it to say that no man ever acquitted himself of the arduous duties connected with the office of Berrien County Surveyor, in a more admirable manner than may truthfully be said of Mr. Ray L. Knight of St. Joseph. There is a man with a veritable wealth of experience and practical training, plus an academic background that took years of studious effort to acquire. He has been an indefatigable worker and never calls the day ended until the problems at hand have been finished or else put into tangible shape for the next day's work. He was a brilliant scholar at college and since receiving his degree, has held various important posts but none that ever gave him more scope for the exercise of his natural abilities than since he has acted as Berrien County Surveyor, where his wren words contribute to his genius and ability. He is conscientious to the last degree, Mr. Knight has won the plaudits of all concerned and his excellent work has not gone unnoticed by the powers that be and the men higher up. It is such men as Mr. Knight who well merit recognition and we prophesy a steady continuance of his success.

RAYMOND GRANZOW—Under Sheriff

Mr. Raymond Granzow, who holds the office of Under Sheriff in Berrien County and who is one of the leading men of the community, owes his advancement into the list of notables, to the fact that the pendulum of praise always swings toward the men who are backed by rugged honesty of purpose. It is such men who win the confidence of the citizenry. Mr. Granzow's climb to prominence, however has not been without its trials. But that is true of every public official, for there are always those who would have a man use his office for ulterior purpose, giving out "plums," as it were and other unwarranted favors. Thus when a man takes his office seriously and keeps in mind the interest of the taxpayers rather than a few favored ones, there is a natural inclination to criticize. But Mr. Granzow's record of untiring and alertness, and his open and straight forward manner of doing things has been recognized and has pleased the masses. After all that is a finer tribute than the so-called "clever politician" who sometimes forgets the citizenry. Mr. Granzow is not only one of the ablest men who ever held public office, but he is a citizen who well merits that appellation. Such men are indeed well worth while.

GUY TYLER—County Clerk

One of the most remarkable and successful public officials in this community is Mr. Guy Tyler, who is so creditably filling the office of County Clerk. There is an office that was never by the wildest imagination considered a sinecure. That is because the work of this office is too strenuous and the responsibilities too arduous. Not every man of those masses to be placed in exactly the same position as Mr. Tyler. It did not take him long to make necessary changes in that department and bring the finest kind of order out of what might be called chaos in some respects. New systems were devised, new methods were instituted, all making for the greatest efficiency ever known in this department. And he never used any so-called efficiency expert methods either for to him all the office needed was plenty of elbow grease, gray matter and horse sense, and he achieved it. Thus he has shown the greatest progress and success, tinged with an honesty of purpose of which there can be no doubt. No wonder Mr. Tyler is such a popular official and no wonder so many have suggested the idea that when the time is propitious, Mr. Tyler should be sent to higher office.

CLARENCE BUTLER—Benton Harbor Justice of Peace

Being on the outside and talking about the man on the inside in a cynical vein, is the privilege of any one of the masses. But when any of those masses to be placed in exactly the same position as the man who holds a public office, he might find himself sorely pressed for ability to know how to meet the thousand and one problems that are placed at his desk. That is the inverse humor of life. But it is not humorous for the man who sits behind the mahogany of the office of Justice of Peace, or any other public official's desk. We now refer to the problems and not the cynical comments, for Mr. Clarence Butler who holds the office of Justice of Peace of Benton Harbor, is one of those men who has not only a noble world, who has acquitted himself of his duties that he has never heard an adverse comment. That is, of course, a great compliment to Mr. Butler, but at the same time, it is only the result of a regular citizen of regular habits who has the inherent honesty of purpose to carry on efficiently. Mr. Butler would not know how to do otherwise. That's why Mr. Butler is not only making his office an outstanding example of success but he is also why he is being spoken of everywhere as good material for higher office and we hope he will go forward to that higher office he so well deserves.

ERWIN KUBATH—Chief Deputy Sheriff

Mr. Erwin Kubath holds the office of Chief Deputy Sheriff of Berrien county. That office has long existed and many varied have been the men who have filled it; but never in its history has there been a more distinguished public servant acquitting himself of his duties than Mr. Kubath. There is a man who from the very inception of his career, made up his mind that life was a serious proposition and that to succeed he must be well prepared for the problems that would eventually be set before him. Thus it was that Mr. Kubath prepared himself academically as well as psychologically. In other words he studied life, the needs of his fellow men and then set about to find the best way to serve those fellowmen in the right way. It has been this fair and square method of running his office that has always brought him the plaudits of the people, and it is this esteem that has brought him just recognition. Such men as Mr. Kubath are the type of men who push forward because the citizenry knows full well they are always dependable to serve the community in a constructive manner.

AN ODE TO A PROBATE JUDGE

A Probate Judge who outlives you May break your will and tax it too. Concerning various other things His power outrivals that of kings: If he decides a man insane, He'll take the man to a lunatic asylum. A spendthrift—he can cut you short. Your wife asks separate support And finds the Judge her nearest friend. You drink—and the Berrien jail is the end. Your children, when you prove unfit, Are whisked away by the Judge's writ. If your alimony he is account of everywhere as good material for higher office and we hope he will go forward to that higher office he so well deserves.

Patient he presides, while year by year Thousands of stories are whispered in his ear; All sorts of skeletons he knows, Sad secrets of love told beneath the rose. Not even to his wife does he lay his bosom bare; He turns the key and keeps other's secrets there. Where are there fiercer battles fought Than those peculiar to the Probate Court? When rival kinsmen children claim: When relatives hold trustees to blame; When cousinly greed, backed up by skill Conspires to break a rich man's will, And when the lawyers overcharge for compromise, He adjusts their fees and gently signs.

If you desire to change your name The Probate Judge permits the same; And ere the very youthful wed His nod must bless the nuptial bed. He construes the obscure devise And shows where the difference lies. In times of stress his powers prevail; He sends the motes of men to public jail, And by injunction's awful might Protects the weak and guards the right. Thus equity corrects the flaw Which justice finds in common law.

And yet, as Judges go, has not Erwin Kubath a happy lot? He always sleeps in his own bed And eats his three homecooked meals instead Of tempting a dyspeptic fate. By monthly circuits through the State As other courts are forced to do, He lives at home and knows who's who. —Read before the Massachusetts Bar Association.

H. J. LURKINS—County Agricultural Agent

One of the names looming large in public life in St. Joseph is that of Mr. H. J. Lurkins, who holds the office of Berrien County Agricultural Agent. He has a notable record as a public official, is well known to the rural leaders and the rank and file of this community, where his activities keep him ever before the public and is one of the best liked men holding office. He is a friend of the people, regardless of partisanship, won by a distinguished advocacy of their rights, in his every action. In the office of County Agricultural Agent he has made his mark, and out of his vast and intimate knowledge of local affairs, he has fashioned a platform that has been uniformly constructive and successful, winning the plaudits of all concerned and every side. A canvas of this community would show that many of the rural leaders as well as the people in general would stand behind Mr. Lurkins in any fight that he might ever care to wage; for they have all been watching him in his present office and they know full well that he studies public questions carefully and closely and that his mind is keyed to the responsibility he owes the people who have placed him where he is. Nothing indicates so clearly a man's character than the warm support of his neighbors and townspeople. Mr. Lurkins is surely good timber upon which to bank as a successful man for higher office, and such he surely deserves.

FREMONT EVANS—St. Joe City Attorney

City Attorney Fremont Evans, is one of our most representative, civic-spirited citizens. Having served for ten years at the head of the Board of Education and is at the present time Chairman of Legislation of the Michigan Municipal League, and also is the First Vice President of the League. He has seen fit to engage himself in that branch of law which deals with the public at large and he is prominent in the city administration of St. Joseph as an expert in connection with this branch of public service. This interest which is even deeper than the ordinary kind in civic affairs, is made even more remarkable by the fact that he can find time to give the city the benefit of his deep knowledge in aiding its municipal government as City Attorney. He is serving in that office in a manner that is eliciting the praise of all concerned. It is such citizens that are properly referred to as "bulwarks of the community." Mr. Evans is one of those efficient barristers, who aside from having thoroughly mastered their Blackstone, possesses a forceful personality that has been a contributing factor in bringing him to his present enviable position. Quiet and unassuming, unostentatious in his method of achieving, accurate in his interpretations of the laws and well grounded on established precedents. Mr. Evans has indeed a thorough and comprehensive back ground upon which to build a career.

CHARLES L. MILLER—County Sheriff

The duties of a sheriff of a county of the size of Berrien are by no means a sinecure. It requires a man of many years' experience in varied work as well as fairness of mind, bravery of spirit and a willingness to meet any exigency as it comes. The sheriff who attends strictly to his duties may be called out any hour of the night, and may run atoul of the most desperate bandits. Thus being a sheriff is not the easiest or most pleasant occupation. Yet the public seldom appreciates the large part the sheriff plays in safe-guarding its interests in so many diverse ways. Oft times one finds it impossible to collect a just debt and it is instituted, and when recognized by the courts, judgment is entered. It is then up to the sheriff to see that this judgment is satisfied. Sheriff Charles L. Miller has for years been one of the most dependable and esteemed men in St. Joseph and Berrien County, he has a host of friends, because of his fair spirit toward his fellowmen. Since the advent of his administration of the office he has proved to be one of the ablest officials this county has ever known.

A. J. HASTINGS—Register of Deeds

A citizen passing the court house remarked, "I wonder what all of those fellows do up there in the court house? Looks to me like they have it pretty easy." And just how many citizens have that curious idea? Probably a great many and therefore a series of articles like this will be good for what ails them. Take for example the Register of Deeds of Berrien County. The man who holds this office is one of the hardest working men to be found. But let us recite a few of his duties and responsibilities and then, perhaps the reader will get a better idea of what we mean. The Register of Deeds, copies and keeps a record of all real estate transactions, such as mortgages, conveyances, etc. Can you imagine what a Herculean task that is in a County the size of Berrien? But beside he searches for titles and more than this he is responsible for any mistakes or loss suffered through erroneous searches. That means indefatigable toil and constant vigil in the interests of all concerned so that no mistakes are ever made. With Mr. A. J. Hastings, who is Berrien County Register of Deeds, mistakes are not in his vocabulary. He is indeed one of the ablest men to ever hold office.

HARRY W. HOLBROOK—Prosecuting Attorney

Mr. Harry W. Holbrook who so ably holds the office of Prosecuting Attorney of Berrien County, must cope with all the best legal ability and sometimes he is pitted against a battery of these legal lights. There are some Prosecuting Attorneys who adopt the policy of conceding in all cases, regardless of extenuating circumstances, their desire for personal aggrandizement and political ambitions being too great to temper their views with the demands of real justice. Mr. Holbrook has the view point that his office is a public trust and not a machine to lift him to dizzy heights in the political arena, using unfortunate souls who have erred against society, as mere puppets to serve as stepping stones for his personal advance. Not Mr. Holbrook, if the crime is the first offense or committed under circumstances that seem to condone it, due consideration is given by Prosecutor Holbrook. It is such fairness and humaneness that makes him so beloved and feared at the same time; for the hardened offender suffers from his unmitigated prosecution, which is both thorough and effective. After all, such men deserve political preferment all the more, though they do not ask it. Mr. Holbrook is a man who indeed well merits a place higher up in the realm of public service.

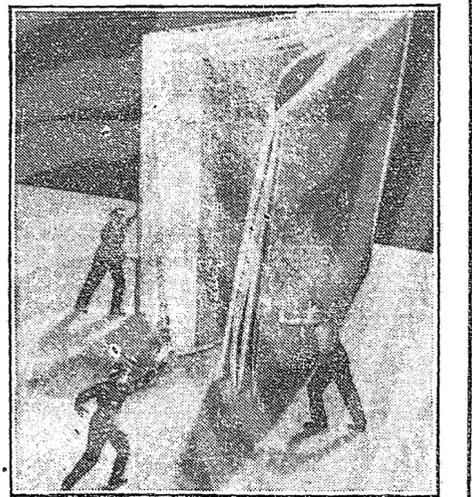

OSCAR DAMON—Drain Commissioner

The idea that the goal of public office is personal gain and aggrandizement is one that has long since been exploded. Most of the men holding important public office today are doing so by virtue of the fact that they have been public spirited citizens and have proved their success in their personal ventures, then, desiring, unselfishly to aid their community, they have entered public life. In most cases they have been almost forced to take their offices by common desire of their fellow citizens. For example Mr. Oscar Damon, who is so ably acquitting himself of the arduous duties of Drain Commissioner. He might be using his talents to much better personal advantage, were he to gauge the matter in personal gain; but he is of that type who performs yeoman service to the community, rather than personal advantage or gain. It is this spirit that is making St. Joseph what it is today and it is this spirit that is making Mr. Damon a man who is beloved and respected by one and all alike. They know him for what he is and they love him for his uniform method in aiding the community. Such men well deserve praise in the public print.

ALBERT D. WING—Circuit Court Commissioner

What the country needs today more than the piling up of vast wealth, is more men in public office who place service to their fellowmen upon him as a token of the sincere regard in which he is held. Mr. Wing is indeed a striking example of the "good and faithful public servant." During his service as Circuit Court Commissioner, he has become known to thousands, winning the regards of the great body of people comprising his constituents as well as of members of both political parties. His conduct of the trust imposed in him has inspired an unusual degree of public confidence in him which we predict will eventually carry him to much higher office.

17 County Service Men Eligible for Reforestation Army

Seventeen Berrien County ex-service men will be eligible to enrollment in the federal reforestation army if they can provide their own transportation to Detroit and can pass the examinations after they get there, according to word received by Harley Squier, local welfare officer. And in the event they can't pass the test, then they can get home anyway they are able to also.

Michigan has been allotted a quota of 3,000 ex-service men in the reforestation corps, the re-enlistments being an honorable discharge, physical fitness and lack of present employment.

The last registration day will be June 22, and any veteran interested should communicate at once with Commander Arthur Johnson of the local American Legion.

To Resume Tax Publication in 1933

One of the closing acts of the legislature was the restoration of publication in delinquent tax descriptions. Under the new bill, publication of descriptions of property to be sold for delinquent taxes will be resumed in 1933. Newspapers are to be paid under a graduated scale which will make no change in the rate previously paid to the majority of weekly publications.

"Pay As You Drive" Bill Up to Governor

The complicated Raymond bill which would permit automobile owners to "pay as you drive," is now before the governor for his approval or veto. The bill contains provisions for paying the full weight tax or for paying portions of the tax according to whether an automobile is placed in use in January, March, June or September. The measure might result in decreasing the gasoline tax receipts.

Old Age Pensions

Old age pensions to be financed by a \$2 head tax on all Michigan citizens will become effective in Michigan, if the measure adopted by the legislature is approved by the governor. Under certain restrictions the bill provides for allowances of \$30 per month for aged persons who have no other means of support.
