Y-FIFTH YEAR

Now Here's the Proposition

IN RESUME

Bi Haws

That day ahead when I am dead and vanished from the sun I will not worry much over sins that I have done.

For ghost unlaid and debt unpaid I will not bother much, If there be space in that dim place for pentinence and such. The thing that I will most regret for seasons left to aft will be that I have sighed at times I might as well have laughed.

For Further Details Ask

Mort Snyder
We understand that the very latest thing in the social line is the fish dinner. If you are at all abreast of the times you are giving fish dinners. The way you go about it is like this: you in-vite your friends and instruct them to bring their own cars fishing tackle and bait. When they arrive you tell them where to go fishing. Then you sit down and wait results. If they return with any fish you have a fish dinner. If not, a pleasant social evening is enjoyed by all.

Hysterical Account of the Beginnings of Buchanan Inasmuch as all of the other Inasmuch as all of the other papers of this section, from the Bakertown Ballyhoo to the Gleveland Pain Dealer have been getting out special hysterical editions on the Buchanan Centennial, coupled with some highly imaginative accounts of how when though tive accounts of how, when though not why, Buchanar was started, it seems a good thing for a guy like myself with a real hysterical head should correct some of the misap-prehensions that are being spread

around. Buchanan was founded in 1833. We get this date by taking the date of the Buchanan Centennial, 1933, subtracting 100 years from it, and there you are! There is some debate as to whether it was like McCoy or Riss McCoy who is to blame for stirting the town, since the descendants of each bave been passing the buck and throw-ing the blame up to the other fac-tion for the last hundred years, and it is high time that somebody

and it is high sime that somebody dug up the reil McCoy on this matter. Anyvay, we are sure of one thing and that is Buchanan was settled minly by people who were dissatisfied with Niles and so came on west. So that was the way it was that one line July morning, July 27, I think it was. Russ (or was it Ike?) McCoy was standing on the corner at Grant and St. Joe avenue, Niles, trying for a hitch, but having no luck decided to hike it. So he walked west along the bank of the St. Joe river unfil he came to the mouth of a line sparkling stream which emptied into the St. Joe river which emptied which emptied into the St. Joe river which which emptied into the St. Joe river and it being a hot day, he flops down and takes a swallow, and decides, why since there is a sewer

system in already, this would be a good place to start a town.

And so that is the way lke (or was it Russ) cCoy came to start. Buchanan hy only some say it was Charles Cowles; and others was Charles Cowles and others hat it was Leonard Madron. They first owner Lionard Madron was the land Buchals of a good part of the he traded for an is built on which potatoes and the \$50 and a load of that if any of the grains a rumor out show up around the Madron boys they are going to get the enterphial

ROBERT STRAYER Three-Day Program Sports HIGHEST VOTE IN A. & P. CONTEST

Winner in District Including Benton Harbor, St. Joseph, Niles, Berrien Springs and Buchanan.

Robert Strayer, son of Dr. and Mrs. J. C. Strayer of Buchanan was the top man in the voting in the A. & P. stores contest for this district, according to word received here, by acting managery. ceived here by acting manager Lyle Mitchell Monday, and as a result is one of 150 boys from the state now in attendance at the Century of Progress Exposition, the guest of the Atlantic & Pa-

cific Stores.
Young Strayer received the highest vote among scores of candidates in the district, which comprises Benton Harbor, St. Jo-seph, Berrien Springs, Niles and Buchanan. He is very popular among young people of the city and his many triends rallied to his support and voted consistently. He was 15 years old last January and will be a junior in high school this coming year. He was a member of the football squad dur-

ing the past year.

The notice received here contained no information as to the standing of others in the contest. Strayer left yesterday morning for Chicago, a special train carrying the 150 boys selected in Michi ing the 150 boys selected in Michi-gan, making a special stop here for him at 7 a.m. He will attend the Exposition for a week under the spensorship and at the ex-pense of the Atlantic & Pacific Stores. Strayer was the 150th boy to be picked up by the spe-cial which made its last stop here. He will be the first boy to be let off when the special makes its

return trip next Wednesday night. Buchanan Centennial July 27-29

LOCALS TAKE LAPORTE PUSH

To Play LaPorte Polish Roman Catholic Union Nine at LaPorte Next Sunday.

The Merchants won a neck and neck hoss race from the LaPorte Push Market nine at the local dia-mond Sunday, the invaders failing by one run in a last inning rush to overcome the local's lead, and the game ended 9-8 to the satisfaction of the home town fans.

Dan Topash and Seals alternated on the mound for the locais, the latter taking the post at the first of the fourth. Burgan pitched a good game for the LaPorte team striking out ten men. Bob Morse, local pitching artist, was given a rest at first base, but did yoeman service at bat, with three hits in three times up, and two trips across the home plate. Wolford also starred at bat with three hits in five times up, two of the doubles for the only long hits of the game. One double play was Wolford to Louis Morse to

The locals will journey to La-Porte next Sunday and play the Guenivere G. Swinehart, daughter Polish Roman Catholic Union of Mr. and Mrs. Leo A. Raab, 805 team, which they defeated 3-2 in a game earlier in the season.

If you aren't drinking iced coffee these days, you're missing one of summer's greatest treats. Perhaps you've never tried it. Or perhaps you've had it—and it wasn't as good as you expected. Just try some today-made according to the recipe below. You'll find it a hot weather drink that beats everything else-far and away.

HOW TO MAKE GOOD ICED COFFEE

Make coffee as usual but use twice the amount of coffee for each cup of reater. Fill glasses about % full of cracked ice and pour coffee into glasses while hot. Add cream and sugar to taste. . Be sure to make coffee double strength. Never use left over coffee. Other delicious iced coffee recipes are given in the booklet "Summerime is Coffee Time" at your A&P Store.

THE MASTERPIECE

OF TIRE CONSTRUCTION

Patented Construction

Features Give You Greater STRENGTH and SAFETY

There is a reason why Firestone Tires have won the 500-mile

There is a reason why Firestone Tires have won the boo-mile Indianapolis race for 14 consecutive years, the most gruelling tire test. The reason is the Firestone patented extra process of Cum-Dipping which saturates every fiber and insulates every cord with pure rubber—which gives strength to the cords and prevents friction and heat in the fibers. This year 42 drivers in this race equipped their ears with Firestone Cum-Diversed Times and not a single driver had ony tire trouble.

Race drivers know why Firestone Gum-Dipped Tires are safer and not subject to blowout and will not risk their lives on ordinary tires. Your life and the lives of your family are often in danger at the high road speeds of today and you should not take greater risks than the

race drivers who make sure that they have the best and safest tires they can buy—Firestone. Come in today. We will give you a liberal trade-in allowance for your old tires on new Firestone High Speed Tires—the safest tires in the world

Why is it that every 12cylinder and 16-cylin-

der car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: STEEL ALONE IS NOT ENOUGH!

The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rumble and rattle. BUT-when you put the two together-a heavy, staunch steel body over tough, solid hardwood -then the hardwood reinforces the steel-and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. CHEVROLET MOTOR CO., DETROIT, MICH.
