the

NRA THEME SONG  
By Haws

Nira Prosperity  
Nira to thee  
Even though the credit goes  
To Franklin D.  
Still all my song shall be  
Nira prosperity  
Nira to normalcy  
For you and me!

I am for Roosevelt's way  
For Roosevelt's way  
What though the donkey bray  
The donkey bray!  
I am for Roosevelt's way  
Short hours and bigger pay  
Of the perfect day!  
Suits me okeh.

I'll do my part, dear heart,  
The day to save,  
What'er the rest may do,  
I will be brave  
Still though my whiskers grow  
Six foot or more below  
My knees, there will be  
No two-bit shaves.

Hey, wait a minute, hold the  
press, I changed my mind  
I want to leave that last verse out,  
here comes the Freddie Mead with a  
wild gleam in his eye and a razor  
in his hand. What, it's too late!  
Well, Mead, you speak to Mr.  
Mead. Tell him politely but firmly  
that it's press day and I just can't  
see him. What's that, you say  
he wants to shave me for nothing?

Nothing doing, no barber is going  
to get a crack at me till this  
blows over.

Well! Well! Well! And a Couple  
Tack! Tack!

What  
Whadda you think of a guy that  
has subscribed to 27 magazines by  
actual count during the past year,  
buying from every hotcha sales-  
lady that called on him without  
even taking the trouble to look at  
her wares, meaning her maga-  
zines, and then when mere male  
salesman comes in and tries a  
little heavy persuasion he calls on  
the police? As Kayo would say—  
"I'll be a sonuvagun!"

George Go's Fishing Again  
We are ready to NRA (do our  
part) just as long as that does not  
include acceptance of George Him-  
melberger's fish stories. This  
morning we find a note on a  
desk, something about Himmel-  
berger's fishing in McCoy's creek  
and a crane, and while we did not  
have time to check up on details,  
we suppose that it means that  
George caught a fish in McCoy's  
creek and had to get a crane to  
reel it out. Anyway see George  
about it.

Harve Must Be A Democrat  
Harve Bristol calls the office as  
we go to press to tell us that in  
anyone is puzzled over what  
NRA means, it stands for "no  
Republicans allowed."

Buchanan Food and Clothing  
Retailers Adopt Schedule  
Opening and Closing Hours

Agree On 63 Hours Weekly to  
Keep Stores Open; 48  
Hours Maximum  
Employment.

One hundred and seventy Ber-  
rien County food retailers, includ-  
ing a number of local merchants,  
met at the Y. M. C. A. in Benton  
Harbor Monday evening and  
adopted a county-wide code govern-  
ing hours of business and the  
working week for employees.

These regulations, effective on  
Tuesday, August 27, provided that  
all merchants retailing groceries  
or meats open at 8 a. m. each  
week day and close at 6 p. m. each  
day except Saturday, when they  
are required to close at 9 p. m.  
It was agreed that the practice of  
some stores in keeping open Sun-  
day should be abandoned.

No merchant may employ his  
clerk more than 10 hours any one  
day or more than 48 hours any  
one week. If a clerk works longer  
hours Saturday, arrangements  
must be made for a shorter time  
some other day.

Any merchant of the district  
who violates the code may be  
punished by having the NRA em-  
blem withdrawn from his window.  
Edward Hesse, a representative of  
the state association of food deal-  
ers, was present and explained the  
details of the application of the  
code to food stores.

Elaborate provisions against un-  
fair competition are made in the  
tentative code for retail estab-  
lishments, upon which hearings be-  
fore the national recovery adminis-  
tration are to begin Aug. 15.

These trade practice provisions  
were made public today by the ad-  
ministration but do not become  
effective until the code is approved.

Wage and hour stipulations for  
the retail dry goods department,  
which includes specialty shops, men's  
clothing, furnishings, furniture,  
hardware and shoe stores, are  
represented by the various national  
associations, have been approved  
temporarily by Hugh S. Johnson,  
recovery administrator.

Provision of Code  
The trade practice provisions of  
the code include:  
"Fair competition  
"On and after the effective date  
of this code  
"No individual or organiza-  
tion selling goods at retail shall  
sell any merchandise at less than  
the next invoice delivered cost or  
current market delivered cost,  
which ever is lower, plus ten per  
cent, to insure that labor costs  
shall be at least partially covered.

"Nothing in the foregoing  
paragraph, however, shall be in-  
terpreted to prevent bona fide  
seasonal clearances of merchan-  
dise so advertised or plainly mark-  
ed, or of highly perishable or  
damaged goods so advertised or  
plainly marked, nor shall any in-  
dividual or organization selling for  
the purpose of bona fide discon-  
tinuance of the handling of any  
line when so advertised or plainly  
marked be stopped from selling  
said merchandise at less than net  
invoice delivered cost plus ten per  
cent to insure that labor costs at  
least shall be partially covered.

"Advertising (written, print-  
ed, radio or display) which val-  
ues individual merchandise values  
policies or services; or selling  
methods which tend to mislead the  
consumer, shall not be made by  
any individual or organization sell-  
ing at retail.  
"Organizations or individu-  
als selling goods at retail shall be  
free to advertise truthfully their  
own goods, policies, services, and  
their own prices but reference to  
the goods, policies, services or  
prices of competing retailers shall  
not be made.

"No individual or organiza-  
tion selling goods at retail shall  
make use of, participate in the  
use of, publish or broadcast any  
statement which lays claim to a  
policy or continuing practice of  
generally underselling competitors.  
"No individual or organiza-  
tion selling goods at retail shall  
sell any goods at less than net  
invoice delivered cost plus ten per  
cent to insure that labor costs at  
least shall be partially covered.

Auto Industries Code  
The code provides for a maxi-  
mum work week of 35 hours and  
a minimum wage of 40c for cities  
of less than 250,000 population  
and 43c for cities of 250,000 or  
more. No child labor will be  
employed. Operations during re-  
cent months have been on a basis  
of 40 to 48 hours a week. This  
reduction in hours of work is ex-  
pected to create jobs for 50,000 to  
60,000 men in the motor industry.  
The bulk of workers in the indus-  
try are well above the wage mini-  
mum set, however. General John-  
son estimates that the shorter  
hours will result in absorption of  
all employment normally classed  
in the automobile industry and  
bring it back to the peak of 1929.

In 1929 the automobile factories  
employed 427,459 directly in its  
factories. In 1932 the average  
employment was around 230,000.  
Ten per cent or some 3,900,000 em-  
ployees of all the gainful workers  
in the nation are said to be direct-  
ly and indirectly dependent upon

DAYTON CHILD IS  
KILLED WHEN RUN  
DOWN BY TRUCK

Son of Mr. and Mrs. Thomas  
Norton is Killed Almost In-  
stantly; Coasts Into  
Path of Truck.

James Norton, 8, was killed al-  
most instantly about 1:40 p. m.  
Tuesday when he coasted out of  
the driveway of his home near  
Dayton on an old pair of buggy  
running gears directly in the path  
of a truck.

The truck, driven by Raymond  
Sanders of Hutchinson, ran over  
and crushed the boy's head. He  
lived about half an hour. He was  
the son of Mr. and Mrs. Thomas  
Norton, who recently moved to  
that section from Chicago.

The father is an employee of the Chi-  
cago and Eastern Illinois Railway,  
working out of Harvey, Ill.  
The boy was riding alone on the  
running gears at the time. He  
is survived by the parents; by 1  
twin brother, Thomas; his grand-  
parents, Mr. and Mrs. John Wal-  
ton. The family lived on the road  
east of Mt. Zion church.

He was born May 24, 1925, at  
Hammond, Ind. The funeral will  
be held at 3 p. m. today from the  
R. J. Kimmey Funeral Home, with  
burial in the Gallien cemetery. Rev.  
J. W. McKnight will be in charge.

Merchants Lose  
When B. Morse's  
Fin Goes Haywire

Mister Reamer's Merchants, who  
have been selling a superior brand  
of baseball this summer to the  
best teams of southwestern Michi-  
gan and Northern Indiana, were  
given some of their own medicine  
Sunday when Bob Morse's arm  
gave out in the fifth and the Nap-  
penee Tigers got to him for six  
hits and as many runs, building up  
a lead which the Merchants were  
unable to overcome.

Morse has been having trouble  
with his arm for the past three  
weeks. He started the game in his  
usual style until the disas-  
trous fifth, when he was replaced  
by Paul Hamilton, former pitcher  
for the Dowgiac Indians, who  
completed the game in good style.

Morse was relayed to second base,  
Julius to third base and Hamilton  
to the pitcher's box.  
A feature of the game was a  
double play by Nappenee, Wysong  
to Pippen to L. McCuen in the  
second.

BUCHANAN SCOUTS  
WIN HIGH HONORS  
AT CAMP MADRON

Eagle Rank, Silver Palm, and  
Public Service Awards Ac-  
corded Local Boys at  
Last Court Honor.

Buchanan Scouts received high  
awards at the Court of Honor for  
the Berrien Cass area held at  
Camp Madron on Friday evening,  
August 4, the special awards of  
advance merit received by the lo-  
cal boys being as follows: Eagle  
rank, Clarence Rice; Silver Palm,  
Edwin Donley; Public Service  
Award, Clarence Rice, Edwin Don-  
ley, Howard McClellan, 50 hours  
each.

Don Shaffer demonstrated his  
competitive qualities by winning  
first in the treasure hunt and sec-  
ond in the pie eating contests held  
in the activity program of the last  
week.

Madron closed its sixth period  
Sunday noon, with the campers  
agreeing that this year has been  
the best in camp yet and they all  
regret that the camp is not open  
for the balance of the month. This  
is not possible, however, because  
several troops are preparing to go  
to the Century of Progress, and  
the Eagle trip, which is an annual  
event is scheduled for the last of  
the month also.

Mr. Noll and his staff have directed a camp  
which the Area can be justly  
proud. Camp Madron operated  
on an economy budget that has  
amazed all who have seen the  
wonderful results. Nearly a thou-  
sand awards have been made in  
Courts of Honor, Indian Lore has  
been taught, handicraft, athletics,  
swimming and life saving have  
all been capably handled, and the  
campers have been extremely well  
fed.

Twenty-three Eagle Scouts have  
been added to the ever growing  
list and the latest to be added to  
the list are Clarence Rice, Buch-  
anan; William Gebhard, Cassopolis;  
Edmund Dembenzinski, Benton  
Harbor; Bernard Schukle, of  
Niles; Bill Crow, St. Joseph; Dick  
Gardner, Benton Harbor; Fred  
Hunter, Niles. The Court of Hon-  
or was the most brilliant affair of  
the season. The Council ring  
was ablaze with many colored  
lights as the Indians put on the  
ceremonies. Mr. Cauffman was  
in charge of the Court and Louis  
C. Upson, president of the Council,  
presented the new Eagles with  
their certificates. He impressed  
upon them the responsibility of  
the Eagle rank. Mr. Noll pre-  
sented the 500 hour civic service  
award to Charles Finch of Niles.  
After the closing ceremony the  
building was opened to visitors  
who looked over the handicraft  
work done during the past week  
and a Mickey Mouse cartoon com-  
plete the program.

Bargain nights next Wednesday  
and Thursday brings the new Fox  
comedy hit, "It's Great to Be  
Alive," with Raul Roulien (said to  
be another Maurice Chevalier by  
those in the "in"), Gloria Stuart  
and the inimitable Edna May Oliver  
and Herbert Mundin. It's all  
about what happens to the last  
man on earth after a strange  
mole disease had, destroyed the  
lives of every man except this one.  
On the same program is a New-  
man World Adventures travelogue  
and cartoon.

Rumanian Tells  
of Conditions in  
Eastern Europe

Maurice Boyajian, a naturalized  
Rumanian, spoke at the Church of  
the Brethren Tuesday evening on  
his experiences in Rumania, Tur-  
key and Russia and also in becom-  
ing citizenized and learning the  
English language here. He es-  
pecially described social and econ-  
omic conditions in Russia, telling  
of the progress in state ownership  
there and of their apparent am-  
bitions for spreading their econo-  
mic gospel. He related a number  
of humorous confusions in learn-  
ing the different significance of  
double meaning words in English,  
such as "grip," "telescope," etc.

Dressler Estate  
Wins Fight With  
Insurance Company

All shadow of doubt as far  
as the courts are concerned was  
lifted Monday from the memory of  
a respected citizen of Bertrand  
township, the late George Dressler,  
when Judge Charles E. White of  
the Berrien County circuit court  
handed down a decision to the ef-  
fect that in the case of charges of  
incendiarism against the deceased  
in connection with the destruction  
of his home by fire immediately  
before his death, the evidence  
produced was insufficient and that  
as a result the policy of \$2,400 in  
the Farmers Mutual Fire Insur-  
ance company of Dowagiac must be  
paid.

The farm home of Dressler was  
burned May 21, 1932. State De-  
puty Fire Marshal Robert Allen in-  
vestigated the incident and threat-  
ened Dressler with arrest. Dressler  
denied the charges but was much  
concerned over the matter. The  
following evening he committed  
suicide by hanging in some woods  
on his own farm. The insurance  
company refused to pay the claim,  
asserting that Dressler had set  
the fire.

The suit against the insurance  
company was brought by Alonzo  
F. Howe as administrator for the  
estate of George Dressler, and C.  
Hanover of Bertrand township.  
The plaintiffs were represented by  
Attorneys Willard J. Banyon and  
Frank R. Sanders. Atty. Stuart  
B. White represented the insur-  
ance company.

He is supported by Bette Davis,  
Hardie Albright and Gordon West-  
cott, in a picture which provides  
him with the same type down-to-  
earth role as his well-remembered  
delightful Viophone Musical com-

with Paramount News.

Tomorrow (Friday) and Satur-  
day brings to Buchanan movie-  
goers the suave, debonair William  
Powell in his latest starring pic-  
ture, "Private Detective 62." It  
is a story that gives Powell his  
real chance to show himself. Back  
again in a role similar to those  
that made him famous as Philo  
Vance, he carries us swiftly thru  
a dozen interesting episodes as  
only William Powell can do it. He  
is supported by the new picture  
sensation, Margaret Lindsay. Fat-  
ty Arbuckle in "Buzzin' Around"  
and a Mickey Mouse cartoon com-  
plete the program.

Bargain nights next Wednesday  
and Thursday brings the new Fox  
comedy hit, "It's Great to Be  
Alive," with Raul Roulien (said to  
be another Maurice Chevalier by  
those in the "in"), Gloria Stuart  
and the inimitable Edna May Oliver  
and Herbert Mundin. It's all  
about what happens to the last  
man on earth after a strange  
mole disease had, destroyed the  
lives of every man except this one.  
On the same program is a New-  
man World Adventures travelogue  
and cartoon.

W. J. BARNARD,  
NOTED PAW PAW  
ATTORNEY, DEAD

Figured in Many Cases of Na-  
tion-Wide Interest; Story of  
Early Struggle as Told  
By Friend.

W. J. Barnard, son of John and  
Lucy Barnard, was born on a  
farm in Columbia township, Van  
Buren county, Michigan, and was  
one of ten children, all of whom  
have died with the exception of  
one half-sister, who now lives in  
California. His father and mother  
were early pioneers in their sec-  
tion and came over-land from New  
York state in a wagon drawn by  
oxen and settled in the timber  
lands of that district. At the  
early age of twelve years by reason  
of the death of his father, he was  
obliged to assume the family  
responsibilities and made contribu-  
tions to the family budget by  
seeking employment as a farm la-  
borer. At this time he gained con-  
siderable local notoriety by enter-  
ing into the debates of the locality  
and attracted some attention by  
reason of his knowledge of politi-  
cal issues unusual to a boy of that  
period. His schooling facilities  
were limited, and probably less  
than the average farm boy of  
that time, which was offset by  
the fact that he was an omniver-  
sus reader and a student of no  
mean caliber. His probity and  
integrity were recognized by the  
banker in an adjacent town, who  
permitted him to secure loans for  
family purposes despite the legal  
inability of the bank to collect  
from a minor. At the same time  
he commenced the study of music  
and gained a reputation as a musi-  
cian, whose services were in de-  
mand among the country people.  
At the early age of fourteen he  
went to Chicago and obtained a  
position hauling sand from exca-  
vations being made for building  
purposes and in the following year  
returned to the farm with his sav-  
ings to help the family exchequer.  
The following year he walked into  
the town of Paw Paw and, fired  
with the desire to become a law-  
yer, entered the office of A. Lin-  
coln Titus as a student and office  
boy, where he remained for one  
year with modest compensation  
for the work performed, at the  
end of which time he completed  
arrangements with the University  
of Michigan faculty to study law  
and paid his way through this  
course by performing arduous and  
menial labor of laundry work and  
waiting on the other students. At  
the end of one year and a half by  
constant study and close applica-  
tion he completed the term, took  
the state examination, and was ad-  
mitted to the bar with a record of  
high standing.

ing department of Canada. Sever-  
al years ago he was one of the  
head men in putting through the  
Canadian Pacific Railway in the  
northwestern part of Canada. He  
was also a soldier in the World  
War. He left Tuesday for Jack-  
son to visit his mother and his sis-  
ter, the latter lately returned from  
India. He expects to visit in De-  
troit, Traverse City, and other  
Michigan points in the course of

## IT WILL BE FLYING MACHINES VERSUS CHEVROLET AUTOMOBILES AT LETCHER BALL DIAMOND SUNDAY AFTERNOON

Harve Letcher Will Play Centerfield in Biplane and Opposition Will Field and Run Bases in Outstanding Car.

Well, folks, the Greyhounds went and dropped another ballgame and that blame-near-flawless record of theirs got another black mark when they went up against the Glendora fence busters' Sunday, even though they did have Harve Letcher back in the outer garden fielding them with a flying machine.

Harve has been out of the outfield for a while picking up some pointers on flying at the Niles Airways but after this he will be back at his old stand in center field, picking off the high ones in his biplane. This is reported to be the first case on record of an outfielder using a flying machine, and it is expected that the Chicago Cubs and the New York Yanks will have several scouts on the field next Sunday afternoon seeing how it works.

Well, the Greyhounds all the same as had it won Sunday, it was a half of the ninth, the Greyhound's half, just one run, to go to tie and two to win, and two men on base, and one man down when a Greyhound confuses up and cracks one away out in left field, a home run on anybody's diamond, only this left fielder, Samuelson of the Glendora gang—there's a ball player who just ain't got brains enough to know a home run when he sees one—and he goes after it, running under it until he was half way to Dayton and then picking it out of the air with one hand and burning it back to second in time for a double play and everybody out and the ball game over and—O pshaw, what's the use of talking about it any more?

Well, a ball game is only a ball game anyway and next Sunday will be another day—and what a day it will be, what a day! Chevrolet salesmen are going to be on deck at the Letcher diamond on that day, trying to sell the Greyhounds a little baseball, and the Greyhounds are going to be right there with their sales resistance all geared up.

Believe it or not but the Chevrolet are going to use 1934 models of the Outstanding Car of the Century in the outfield to run bases with, for everybody knows, anybody that's drove a Chevrolet car six weeks don't know how to walk, let alone run, and anyway, if all Chevrolet salesmen are as fat and short-winded as John Russell, how in heck could anybody expect them to run?

And what with all them sport model Chevrolets swarming around the bases and Harve Letcher picking them out of center field in his biplane—it will be a ball game, boy, a ball game.

The entire line-up of the opposition at the Letcher diamond next Sunday have got to be certified to be car salesmen, that is—they're going to have a notary public right beside the home plate in charge of the bats and before anybody gets a bat he has to swear a solemn oath that he is a car salesman, though what the solemn oath of a car salesman proves is something this scribe ain't never been able to figure.

There will be at least twenty new cars on the grounds at the Letcher diamond, and whenever a car salesman hits a home run, he will take in a carload of the spectators and give them demonstrations around the bases.

Anyway Ike Wells was in the Record office Monday morning and told it all to us just like this and if you want to take Ike Wells' word for it why come out to the Letcher diamond next Sunday afternoon at three in the afternoon and see for yourself. Maybe you know Ike better than we do.

It's our private opinion, however, that the Chevrolet salesmen come out playing baseball, if they try to talk Ike Wells out of anything they're due to get skinned at their own game.

A baseball score sheet don't mean a lot unless you see the game and we never could get much sex appeal or heart interest out of a resume of innings but here it is for last Sunday if you like to read it:

## No Shortening of Store Hours Warns Johnson

Citing that the intent of the Recovery Act was to increase employment, Administrator Hugh S. Johnson was quoted in daily papers in a statement that no retailer could stagger employ hours, enforce rest periods or shorten hours of store operation without defeating the purpose of the codes. His emphatic assertion immediately took place among the most significant yet to come from the NRA in view of constant reports as to recourses for getting around the codes and yet displaying the Blue Eagles.

Inquiries on this point have increased of late, while the officials have plucked ahead at other aspects of making the law effective. Johnson insisted that while the agreements signed by retail stores and groceries provided that no store, open less than 32 hours a week before July 1, could reduce the store hours at all, the intent was that hours of operation should not be curtailed in any way. In other words, while 52 is a set minimum, it was explained that if the store had been operating 60 or more hours, it should not curtail its time of being open but rather should employ more people to do the work.

## "College Humor," Life as it Ought to be; Fast Melodic Comedy

"College Humor," Paramount's hoisterous words-and-music version of college life as it ought to be showing at the Ready theatre, Niles, starting Sunday. "College Humor" boasts of an all-star cast, a fast-moving story, a topnotch chorus, and music that already has proved successful on the radio and dance program. In its cast are Bing Crosby, Richard Arlen, Mary Carlisle, Jack Oakie, George Burns and Gracie Allen, Lona Andre and Mary Kornman. The Ox-Road Co-

eds, a chorus of stunning youngsters, provide the dancing. Its music—"Learn to Croon," "Moonstruck," and "The Old Ox Road," its hit tunes, was written by Sam Coslow and Arthur Johnston. "College Humor" is the story of a campus at which reputations made on the gridiron are lost in the boudoir, where co-eds learn the facts of life more readily than mathematics or science.

Bing Crosby is cast as a young instructor. Arlen and Oakie are football heroes, each in his own fashion. George Burns and Gracie Allen are college-widow and college-widower, in their own particular styles. Mary Carlisle, Lona Andre and Mary Kornman are among the co-eds who make life difficult for the boys. Music and comedy are distributed lavishly throughout the story, and the Ox-Road Co-eds dance in and out of the action. Every resource of the Paramount studio—musical and writing and acting and directing talent; money and effort—went into the picture to make it the outstanding musical comedy success of the season.

White Collar Jobs  
The National Recovery Act administration has ruled that the following come within the category of "white collar" workers for whom a maximum 40-hour week and a minimum wage of \$12 to \$15 are prescribed: Barbers, beauty operators, dish washers, drivers, delivery men, elevator operators, janitors, watchmen, porters, restaurant workers and filling station operators.

Other rulings on the blanket employment agreement include: overtime work in excess of the maximum on emergency repair work shall be paid at the rate of time and one-third. The minimum wage for part time "white collar" workers shall be at the same proportionate rate as for a maximum week of 40 hours. That is, in a city where the minimum is \$14 for a full week, the rate for part time work would be \$56 an hour. For labor, the minimum for part time shall be 40c an hour, the same as for a full week.

UNTIL WE LEARNED BETTER

Until we learned better, we used to mix wood and steel in our car bodies and wheels.

It was the best way to make bodies—then. But the state of the art has advanced.

Of course, it is more expensive to make an all-steel body than to make a wooden frame and nail steel panels on to it. The better way involves an initial expenditure of several millions of dollars for new dies, which renders a change very costly. Cars, especially large expensive cars which are produced in small volume, cannot afford this, because the dies cost as much for one car as for a million. That alone explains why all-steel bodies are not used in all cars.

But our basic policy from the beginning is to make a good car better, regardless of cost.

For example, when we discarded wood-steel body construction, it was not because we lacked wood. We still have some thousands of acres of the best hard wood in America. Economy would urge us to use up the wood first, and then adopt the better all-steel body. But we decided that quality was more important than expense.

We weighed the reasons, for and against, before we made the change.

We could see only one reason for retaining a mixed wood-and-steel body—nailing the metal on, instead of welding an all-steel body into a strong one-piece whole. That reason was, it would be cheaper—for us.

Our reasons for adopting an all-steel body were these: A wood-steel body is not much stronger structurally than its wooden frame. In all American climates, wood construction weakens with age. Every used car lot gives evidence of this. Rain seeps in between joints and the wood decays. A car may have a metal surface, and yet not be of steel construction. Under extreme shock or stress the steel body remains intact—dented perhaps, but not crushed.

Steel does not need wood for strength or protection. Wood is fine for furniture, but not for the high speed vehicles of 1933.

In the Ford body there are no joints to squeak, no seams to crack or leak.

The all-steel body is more expensive—to us, but not to you.

By all odds, then, steel bodies seem preferable.

Wheels also have become all-steel. No one argues that an electrically welded one-piece steel wheel, such as the Ford wheel, needs to be "strengthened" by adding wood to it.

The one-piece all-steel body is the strongest, safest, quietest, most durable body made. That is our only reason for making them.

## Our Patriotic and Economic Duty

TO PRESIDENT ROOSEVELT'S PLAN

## As We See It

THE food and grocery distributors, because of the many conditions within the trade, one of which is the handling of large quantities of perishable farm products, were given a Code by the Administrator containing 48 hours as maximum working hours of employment.

The purpose of the National Industrial Recovery Act is to employ people at a living wage which automatically brings about greater purchasing power so that producers, mills, factories and commercial organizations will have more business as a result of this added employment and increased purchasing power.

Grocery store hours during normal times have averaged 72 hours weekly, and to reduce these hours to any great extent and bring them closer to maximum labor hours would defeat plans and aims the N.R.A. wishes to accomplish. It, therefore, becomes the economic and patriotic duty of grocery stores to remain open reasonable hours per week so that added employment becomes necessary.

Our own thought on grocery store hours is as follows: MONDAY to FRIDAY 8:00 A. M. to 6:00 P. M., and SATURDAY 8:00 A. M. to 9:00 P. M., which is a total of 63 hours per week, which is most reasonable and practical in grocery stores and which will aid in the accomplishments desired in the N. R. A. American Stores offers these practical thoughts to offer some misunderstandings which seem to exist on grocery store hours. Those who advocate the adoption of grocery store hours totaling not less than 63 hours per week will perform a patriotic duty to the President as well as their economic duty, as distributors, to the consuming public.

Christian Science Churches "Soul" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, Aug. 13.

Among the Bible citations is this passage (Lev. 26:11, 12): "And I will set my tabernacle among you; and my soul shall not abhor you. And I will walk among you, and will be your God, and ye shall be my people."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 310): "The sun is not affected by the revolution of the earth. So Science reveals Soul as God, untouched by sin and death, as the central life and intelligence around which circle harmoniously all things in the systems of Mind."

Lighting is only a small part

... he runs the whole house!

MANY PEOPLE think of Electricity as a lighting service only... It is easy to forget that it is a home-maker's first aid in many, many tasks and that ELEC at the helm drives household drudgery away. Electricity makes our toast in the morning. It sweeps the rugs. It washes the clothes. Then it irons them... Entertains us with the radio...

If we itemized your Electric bill, you would then see that lighting is only a small part. Considering the time and labor it saves you, what money you spend brings greater return in comfort and convenience?
