

Now Here's the Proposition

3 Buns Back from a Fishing Trail
To 10 and a bottle of beer
Point Two
Oh, hand me an adjective or two
And use a turn of phrase
And of nouns a few of a flaming
hue
While I tell of Carl and Herb.
For Carl and Herb and me are
back.
They are back from the north-
bound trail,
And the north's benefit for there's
no fish left.
Or so runs their boastful tale.
There's no fish north of the
Manistee.
In the lake unit is labeled Bear;
and there is no fish in the lake
called Minn.
And there's no fish anywhere.
There is neither minnow or trout
or white.
That is left to help me Mike,
So I am told is the truthful tale
Of Carl and Herb and me.
The big fish rose in rows and rows
And they grabbed at the offered
bait.
They said, "They're here and our
late is near
And there ain't no use to wait."
Now, when there's fish in the
Northland lake,
Or whether they're gone to Fido
You can take their word for what
it's worth.
For you know them as well as I do.

Oh, Then Chicken Dinners, Oh!
The humble architect of these
lines passed another momentous
epoch in his life Saturday, in the
form of a chicken dinner at the
Mt. Tabor grange, and the event
was commemorated by a not-at-all
humble monument of chicken bones
comparable to that pyramid of hu-
man ossification which Tamur-
lane is reported to have left to
commemorate his deeds. Two other
guys that were also in the Tamur-
lane class in point of the pile of
bones they left behind to commemo-
rate their deeds were the Right
Reverend Dr. Rice and the Right
Honorable Clint Hathaway. We al-
ways thought we could eat chicken
until we saw those guys in action.
The occasion was the annual re-
union of the Helmick family. But
the fact that it was in the Mt. Ta-
bor hall and prepared and attended
by Mr. Tabor folks insured that
the dinner would be a monument
good old-fashioned American
cooking.
We once heard of a farm hand
who worked many years in the Mt.
Tabor section and then moved on
as the human habit is, in search
of greener pastures. Some time
later he returned.
"I just couldn't stay away," he
said, "There ain't no place in the
United States where they feed you
like they do at Mt. Tabor."
To which the Right Reverend
Rice and the Right Honorable
Hathaway and ourselves append a
sincere "AMEN!"

Marcus Treat Weds Marjorie Swartz of Galien

Marcus Treat of this city and
Miss Marjorie Swartz of Galien
were married at 2:30 p. m. Sat-
urday at St. Paul's Methodist Epis-
copal church at South Bend. Rev.
Robert Selle performing the cere-
mony. The marriage was witness-
ed by the bride's brother, Donald
E. Swartz of Galien and Miss
Margaret Ann Littleton of Santa
Monica, Calif.
The bride is the daughter of Mr.
and Mrs. Charles E. Swartz of Ga-
lien and the bridegroom is the son
of Mr. and Mrs. W. W. Treat of
Buchanan. He was born and reared
in this city and is associat-
ed with his father in the grocery
business here.
The happy couple are at home in
the bungalow which Mr. Treat had
made ready for his bride at 203 W.
Third street.

North Buchanan Farming District

Mrs. A. P. Kinney left Sunday for
a visit of a week with her daugh-
ter, Mrs. Jesse Gunn of Elkhardt.
Mr. and Mrs. Fred Wallace were
week-end visitors at the Century of
Progress.
Senator and Mrs. A. L. Helmick
of Thomas, West Virginia, were
guests Wednesday of last week at
the home of Mrs. Alice Clark. Mr.
Helmick, who is United States
senator from West Virginia, had
planned to attend the Helmick re-
union but his plans were changed
by his appointment to an impor-
tant NRA board which required his
services at Washington.

Mrs. Clara Elson of Michigan
City is a guest this week of Miss
Georgia Wilcox. She was a resi-
dent of Buchanan many years, her
husband, the late E. J. Elson, hav-
ing operated a photograph gallery
and millinery store here.
Dancing at Shadowland, St. Jo-
seph, every Wed. Sat. and Sun.
evening.

Buchanan Dist. is Sweltering in Sept. Heat Wave

Rising mercury readings which
had passed the middle eighties at
10 a. m. today foreboded a contin-
uation of the heat wave in which
this district has sweltered this
week. Unofficial readings in the
down town section yesterday indi-
cated that the mercury was hovering
around the 100 mark in the shade at
3 p. m. Readings of 96 in the
shade were reported Tuesday. The
Buchanan district is still in need
of rain, notwithstanding the show-
ers which visited the section Mon-
day night. Heavy downpours were
reported further south.

LYLE BURRUS AND WIFE HURT IN TRUCK CRASH

Vehicle Heads Into Steel Post
at R. R. Crossing at Rock-
ford, O., Sunday
Morning.

Mr. and Mrs. Lyle Burrus in-
curred painful injuries early Sunday
morning when the Chevrolet truck
in which they were en route to
visit friends at Rockford, Ohio,
rashed into an iron post at a rail-
way crossing a mile and a half
from their destination.
Mr. Burrus who was driving,
stated that there was a heavy
downpour of rain and hail at the
time, obscuring the road. Passing
a curve sign post before reaching
the highway, he mistook the rail
right of way for the continuation
of the highway, which made a
sharp S-turn in the opposite direc-
tion after leaving the crossing. Too
late he saw his mistake and "flew
on the brakes, the truck skidding
off the road and into a wheel catch-
ing a steel post, bringing the ve-
hicle to a sudden stop.
Mrs. Burrus was thrown from
the truck, incurring severe bruises
on the face and hands. Mr. Bur-
rus remained inside but was badly
cut and bruised in the face by fly-
ing glass. The two children, Don-
ald and Donna, were thrown
from the truck but escaped with-
out injury. They state that only
three years has passed since the
family was driving slowly saved them from worse in-
juries.
They were en route to visit Mr.
and Mrs. Mike Procie, formerly of
Buchanan.

PROSPECTS FOR BANNER INDEP. GRID 11 HERE

Clem Savoldi Elected Coach;
Thirty-one of Best of For-
mer H. S. Stars Re-
port for Team.

Prospects for one of the best in-
dependent grid teams in the his-
tory of Buchanan are reported by
Clem Savoldi, who has been select-
ed as mentor of the Oriole squad
this year and who held his pre-
liminary workout at the Athletic
field Sunday.
The still current depression is
keeping a number of former Buchan-
an high school stars out of the
colleges this season which makes
the picking much better for Coach
Savoldi. As a result the choice
of material is far the best ever.
The men who have signified their
intention of competing for position
to date are: halfbacks, F. Eaton,
D. Chubb, F. Wilcox, F. Bailey,
G. Wynn, Loren Morse, Louis
Morse; fullback, Conrad, Bellis;
quarterback, F. Chain, W. Pfingst,
Glenn Jesse, Bob Morse; ends, G.
Vanderslice, C. Dempsey, R. Burk;
E. Boyce, L. Letcher; T. Cook,
A. Gregory, L. Lister, L. Heckathorn,
P. Bromley, R. Montgomery, J.
Howard; guard, L. Perry, B. Bris-
tol, B. Grooms, D. Bachman, B.
Brenner; center, R. Dempsey, D.
Squires.

Marjorie Howe Weds Arlie Haffner at S. Bend Tues.

The marriage of Miss Marjorie
E. Howe, daughter of Mr. and Mrs.
C. F. Howe, and Arlie Haffner of
Hillsboro, O., took place Tuesday
afternoon at 3 o'clock in the St.
Paul's Methodist Episcopal Mem-
orial church at South Bend, Ind.
Rev. Robert M. Selle officiating.
The immediate family of the bride
attended the couple.
After the ceremony Arlie Haffner
and his bride left for Garrett
and Geneva, Ind., where they will
visit the relatives of Mr. Haffner.
The bride was born and reared
in this vicinity, graduating from
the Buchanan high school with
the class of 1930. She is also a
graduate of the South Bend Com-
mercial College and for the last
three years has held the position
of clerk in the Great American
store of this city.
The groom, formerly of this city
is the proprietor of the 5 and 10c
store, located at Hillsboro, Ohio.
Both are well known and the high-
ly esteemed young couple have
the best wishes of their host of
friends.
Mr. and Mrs. Haffner will be at
home in Hillsboro after the 8th of
September.

Home Loan Bank For This District Open at Hartford

Congressman George Foulke,
announces that the Home Loan
Bank for this district is now oper-
ating at Hartford, and is ready to
receive and consider applications
for relief from those whose homes
are mortgaged. It is important
that applications be made early.
Foulke states, as the principal of
"first come, first served," will be
followed in part at least. About
30 applications per day are now
arriving. The institution is open
for service from 9 a. m. until 4 p.
m.

Now If It Were a Beer Bottle That Would be Something

Much comment has been occa-
sioned this week by the Schaeffer
fountain pen exhibit in the
window of the Wisner Pharmacy.
Chief in the display is the ink
bottle which pours a constant
stream without ever emptying.
A remarkable display of pen strokes
is also made by an imitation hand
holding a Schaeffer pen.

Frank Case Dies in South Bend

Frank Case, 76, a lifelong resi-
dent of Berrien county, died at
home of his daughter, Mrs. Frank
A. Steiner, Roselawn, South Bend
at 5 p. m. yesterday. The de-
ceased is well known in Buchanan.
The funeral will be held at the
home of the daughter at Roselawn
at 2:30 p. m. Friday and burial will
be made in Berrien Springs.
Messrs. Herb Beck, Carl Rem-
ington and Ike Kolhoff returned
the first of the week from a fish-
ing trip to Bear Lake north of
Manistee. They report very good
fishing.
Bernard Brown of the Studebaker
sales promotion department, is
spending two weeks at Toronto,
Can., for the duration of the Ca-
nadian National exposition, where
he is lecturing in conjunction with
the display of one of the Studebaker
semi-stock race cars.

Commission Sets Deadline Water Payments Sept. 25

Persons of old-fashioned taste,
who are still more or less attached
to the use of water had best
look to their water bills by Sept. 25
or at least think up something
nice to say to Harry Post, city
clerk, or there will be a large man
with a mean look in one eye and
a pipe wrench in the other—we
mean a mean look in one hand—
oh well, you know what we mean.
The water will be turned, in a
manner of speaking, off.
This is the outcome of a resolu-
tion passed at the meeting of city
commission Tuesday evening, as a
consequence of a report by the
chairman of the waterworks to the
effect that water users are delin-
quent to the extent of \$2583. The
commission instructed the city
clerk to notify all delinquent water
users of a deadline of Sept. 25, by
which time the arrearage in tax
must be paid or arrangements for
payment made.

1ST VISITATION CHINCH BUGS IN S. W. MICHIGAN

Pests Invade Cornfields West
of Buchanan; Too Late
for Extensive Crop
Injury.

The first visitation of chinch
bugs in the history of settled farm-
ing in southwestern Michigan is
reported in progress on farms east
of Buchanan and in the Galien and
Three Oaks sections. The chinch
bugs have been creating consider-
able damage in Illinois and Indiana
earlier in the season, but did not
reach this section in numbers un-
til late in August. No damage
was done to small grain crops, but
corn left standing for grain is suf-
fering in some sections. Ralph
Seabury reports that the pests have
infested one side of his cornfield
in huge numbers. The presence
of the pests was reported from
the Fedore farm in the Miller dis-
trict Sunday.
The remedy is as follows: a heavy
blank or log is drawn through the
field parallel with the van of the
insect host which moves by crawl-
ing along the ground. On the space
thus smoothed a strip of tar is laid
the length of the field. At inter-
vals of thirty feet a hole is dug
with a few inches of a lime prepa-
ration in the bottom. The chinch
bugs cannot cross the tar stripe
and move along it until they fall
into the hole where the lime kills
them.

S. F. Knight Here on Eve Departure for South Africa

Mr. and Mrs. S. F. Knight, Chi-
cago, spent the Labor Day holiday
with the former's mother, Mrs.
Emma S. Knight. Mr. Knight,
who is sales engineer for Mead
Morrison Mfg. Co., contracting en-
gineers of Chicago, sailed from
New York Sept. 6 on a six month
trip to South Africa. Mrs. Knight
will not accompany her husband
he will spend several weeks in
England and Continental Europe
both en route to South Africa and
return to promote sales of equip-
ment manufactured by his com-
pany. While in Africa Mr. Knight
will inspect and approve the in-
stallation of a large ore handling
bridge which he sold to the South
Africa Iron and Steel Industry
Corp., Pretoria Transvaal, while
in England last year.
The trip consumes seventeen
days by boat from England to
Cape Town.

Bees Get Credit for Apple Crop on Log Cabin Farm

The honeybee is your true hor-
ticulturist as far as insuring ap-
ple production, according to Chas.
Voorhees of the Log Cabin Fruit
farm on the river road, who cred-
its a bumper crop of apples this
season to the 25 stands of bees in
his orchard.
The fact that the weather was
rainy through nearly all of the
apple season hindered the bees
greatly in their necessary task of
pollination, according to Voo-
rhees. Where there were insuffi-
cient bees which was the case in
the great majority of orchards in
this section the bees did not make
the complete rounds, resulting in
a reduced crop of apples. Orchard-
ists in this section are reported to
have paid as high as \$1.25 per
stand in rental for bees during the
apple blossom season.

How to Secure An NRA Emblem

Buchanan residents who do not
yet have the NRA window em-
blems and wish to secure the same
should call A. L. Knoblauch at

AUXILIARY TO CAN FOR NEEDY SEPT. 13 AND 14

Organization Wants Dona-
tions of Vegetables and
Needs Money for
Supplies.

The Legion Auxiliary has agreed
to sponsor the canning for the
needy, and plan to put up a con-
siderable quantity of tomato and
vegetable soups. The work will
be undertaken Wednesday and
Thursday, Sept. 13-14 at the Pears
building adjoining the city hall.
Donations of onions, carrots, to-
matos and other vegetables will be
appreciated. The organization
also needs money for the purchase
of jar tops, sugar, salt and other
necessary supplies.
The committee in charge of en-
taining for the occasion, which com-
prised Esther Koch and Nancy Ly-
on. Bingo was played, prizes being
won by Mrs. Laura Pears, Julie
Thanning, Mrs. Arthur Voorhees,
and Bettie Smith. The next meet-
ing will be held on the evening of
Sept. 18.

Truck Crashes Automobile on Range Line Road

Two people were painfully hurt
and worse results were averted
only by a near-miss when a
sedan driven by W. C. Martin of
Berrien Springs and occupied by
six people was struck in the rear
by a gravel truck at the intersec-
tion of a dirt road with the Range
Line road near the Mead school
on the afternoon of Labor Day.
The truck, which was in the em-
ploy of an Indianapolis firm en-
gaged in hauling gravel from the
Norgie farm in the Bend of the
River to the new construction on
US-31, was eastward bound on the
dirt road and did not stop for the
passing sedan. The Range Line
road. The trucks struck his sedan
on a rear fender, turning it
over in the ditch. Mrs. Martin suf-
fered a broken wrist and their
guest, Mrs. Mary Olson of North
Dakota, suffered a severe scalp
laceration.

Dr. Wallace to Be Back Sept. 20

Dr. Paul Wallace writes that he
plans to be back in Buchanan by
Sept. 20. He has been spending
the hay fever season in Estes
Park, a beautiful national park
on the snowy range northwest of
Denver, Colo.

Lee Donley Gets Normal Scholarship

Lee Donley, graduate of the Bu-
chanan high school last year and
captain of the grid eleven, has
been granted a scholarship cover-
ing tuition and fees at Western
State Teachers' College, Kalama-
zoo.

And Have You Seen Brodrick's Fine New Front?

W. N. Brodrick is installing his
stock of drugs this week in the
fine quarters in his altered room
at 122 E. Front street. The beau-
tiful front of polished aluminum
metal, with the neon lighting dis-
play has attracted much interest
and wide comment. The floor
has been lowered to the street lev-
el and a fine tile fountain installed.

Schools Open With Larger Total Attendance, Less Teachers; Crowded Classes

RICHARD TORMEY HERE SEPT. 12 TO ADVISE SALES TAX

Former Niles and Berrien
Springs Publisher now Field
Representative for State
Tax Commission.

Richard Tormey, field repre-
sentative of the state tax commis-
sion for Berrien County, will be at
the city commission chamber in the
rear of the library Tuesday after-
noon, Sept. 12, from 2 to 5 p. m.
for the purpose of aiding local mer-
chants or any others who wish to
secure advice on sales tax prob-
lems.
There are about six hundred re-
tail dealers in Berrien county who
are required to make sales tax re-
turns including not only the mer-
chants of the towns, but anyone
who is in a retail business. This
classification includes operators of
outside stands selling fruit or
lunches, and also firms whose main
business is wholesaling but who do
some retailing. All must pay the
\$1 license fee and make out the
monthly returns.
The state will "crack down" on
retailers of any description who
have not secured their license and
made the required returns by Sept.
15, according to Tormey.
Tormey stated that the state is
well satisfied with the returns from
the sales tax \$2,000,000 having been
returned from that source during
the first month of operation.
The new field representative is
well known in all parts of Berrien
county, having formerly published
papers at Niles and Berrien
Springs. He is the son of the late
Thomas Tormey, former Buchanan
publisher.

Mrs. Georgia Webb Dies as Result of Fractured Hip

Mrs. Georgia A. Webb, 81, died
at 4:30 p. m. Sunday, after a long
invalidity resulting from a hip frac-
ture which she suffered Decoration
day.
Mrs. Webb was born in Bangor,
Me., Oct. 14, 1851, the daughter of
Samuel and Hannah Wing Brown.
Her husband, Albert Webb, died
nearly fifty years ago. She came
to Buchanan 18 years ago to make
her home with her son, Arnold S.
Webb. She is survived by the son
mentioned above and by another
son, William Webb, of New York
City; also by three grandchildren
William Webb, Jr., of New York
City and Albert and Caroline Webb
of Buchanan.
The funeral was held from the
Child's Funeral Home at 2:30 p. m.
Tuesday. Rev. H. W. Staver, of-
ficiating and interment was made
in Oak Ridge.

Larson Increases Production at Plating Plant

The D. S. Larson Manufacturing
Co., is speeding up production in
its plant with an order from the
National Standard Co., of Niles,
for chromium plating on metal
floor lamps. Mr. Larson has spent
considerable time equipping his
plant for this business and is now
in position to handle the large vol-
ume of work expected from the
Niles concern.

Herbert Briney Died Monday In Bend of River

Herbert Henry Briney, 48, died
Monday, September 4, at his home
in the Bend of the River, after an
illness of several months.
He was born at Royalton, Mich.,
July 14, 1885, the son of Henry
and Hattie Weed Briney. He mar-
ried Gertrude Sittler on October 1,
1921, at South Bend, Ind. He is
survived by one son, Bert Briney
of South Bend, one daughter, Dor-
lene Briney of Buchanan, two step-
children, Harold Sittler of Niles
and Elizabeth Markham of Bu-
chanan.
He was a member of the An-
cient order of Gleaners. The fune-
ral was held at 2:30 p. m. Wed-
nesday from the home a mile and
a half north, Rev. O'Shea officiat-
ing and burial was made in the
Oak Ridge cemetery. Pallbearers
were: John Diment, Clyde Penwell,
Andrew Huss, Clarence Huss, Wil-
liam Koch, Ernest Lunker.

GREYHOUNDS AND TIGERS TUSSLE OVER HAM BONE

Big Battle for Groceries to
Take Place at Dayton Dia-
mond Sunday; Tigers De-
feated Summerville 1-0.

Well now, let's see,—where do
we start?
Baseball is so hot out around
Portage Prairie these days that we
hardly know where to begin telling
about it. Anyway Joe Letcher
got the dog meat offered by Sands
Bros. of the People's Market for
the most hits in the game with
Summerville, and he hit it here added,
the only hits that the Greyhound
got. Bradley, the haircut king,
had offered a free haircut to the
Greyhound making the second lar-
gest number of hits, but there was
no second. Anyway the whole
team got a close shave, the one
Summerville gave them.
It's a pretty pass when a pitcher
has to win his own game which is
what Seabury did. He got away
from the plate on a fielder's choice,
stole second and third, and came
sliding home when a ball passed
the pitcher.
Both pitchers played a wonderful
game as the total of 7 hits for both
teams indicates. Seabury struck
out seven and Schram of Summerville
struck out eight.
Next Sunday the Greyhounds
and the Tigers will fight it out at
the Dayton ball grounds, with
some big individual prizes up.
Bradley still has that unclaimed
haircut in stock and he is going to
deliver it, with a shave to boot, to
the player on either team who
steals the most bases. W. H. Jones
of Dayton will present a dollar in
trade to the player on either team
who makes the most hits, and Eick
Smith of Buchanan will present a
tiger ham to the Greyhound or
Tiger making the most runs.

Sept. 10 Limit For Payment City Tax Less Penalty

The limit for the payment of
the city or summer tax for the
current year without penalty was
extended until Sept. 10 by resolu-
tion of the city commission at the
September meeting Tuesday night.
This is the definite time limit
without further extension.

Fire Department Runs to Grass Fire

The city fire department made a
run Thursday to the corner of
Elizabeth and Victory street, call-
ed by a grass fire which threaten-
ed the home of Mrs. Frank Mag-
ner there.

Faculty Cut to 29 Full-Time Teachers; Classes Crowd- ed; Home Room Plan Is Eliminated

The Buchanan schools opened
Tuesday morning with an initial
enrollment slightly larger than
that of last year, notwithstanding
a drop of ten students in the high
school.
The enrollment at the end of the
second day was 971, as compared
with a total of 972 at the end of
the first month last year. The
faculty consists of 29 full-time
teachers and one part-time teach-
er, as compared with a total staff
of 34 teachers two years ago. This
reduction has resulted in an over-
crowding of some classes this year,
especially in the senior high school.
An enrollment of 62 was reported
in a ninth grade English class and
an enrollment of 90 in two science

Executive Office Example Ignored By Commissions

ACCURATE COMPARISONS DIFFICULT WITHOUT UNLIMITED TIME FOR SCRUTINY OF EXPENDITURES.

Beer Commission Sets New Pace in Extravagance, Keeper of Vault Keys Draws \$2000, Commissioners \$20 a Day.

By V. J. Brown

The opening paragraphs of this article will be devoted to consideration of a topic already discussed in these columns. This writer desires to be fair. References previously made to the payroll of the executive office at Lansing were to the effect that the payroll for the past half of the month of July showed an increase over a similar period of 1932. This statement was correct but further investigation shows that employees working of the staff of the governor in 1932 were carried on pay rolls other than the regular payroll of the executive office and that when all are accounted for the total amount of checks drawn for this office in 1933 is slightly less than in 1932.

Gov. Bruecker had a secretary in Detroit whose pay check was drawn in rotation against several department budgets, none on the executive payroll. R. Wayne Newton devoted most of his time to assisting the governor in various ways, making the executive office his headquarters, but he enjoyed a generous salary at the hands of various commissions and boards having appropriations. None of these are now employed around the office of Governor W. A. C. Comstock, according to O. K. Fjeldland, executive secretary and business manager for the governor.

In fact, when one attempts to make accurate comparisons between the actual expense of the executive office, under the two regimes, the task soon becomes extremely difficult. For instance, there are no expense vouchers to be found covering traveling expenses of the governor or members of his staff back in 1932. It is known that a member of the state police organization is assigned to the job of acting as chauffeur for the governor. That is being done under the present regime, but the expense of upkeep of the motor car assigned to the governor for his official and personal use is now charged directly against the budget of the governor. In previous years it must have been charged against overhead at the state garage and the state police garage. Likewise there is no record of the amount of gasoline formerly consumed in the operation of the governor's car—and there must have been a lot of it. Now a careful account is being kept. Mr. Fjeldland insists, and all expense charged against the account of the governor and his staff.

Sets Economy Pace
There are other ways in which the new regime in the front office is setting the pace for economy. In marked contrast to some of the fat salaries paid elsewhere Mr. Fjeldland shows his current payroll carries skilled and experienced stenographers at \$1040 per annum. A stenographer good enough to handle executive correspondence ought to be good enough for other departments but a glance through other payrolls, especially on the newer commissions, will indicate salaries twice that sum. In fact, the legislature itself refused to reduce the salaries of ordinary stenographers and committee clerks below a daily wage which amounts to more than \$2.00 annually.

The commission of inquiry into state governmental costs in its report last year took cognizance of the waste of expensive stationery. It recommended first class bond paper for executives only, cheaper grades with printed instead of engraved heads being recommended for all except the elective heads and members of supreme court. Mr. Fjeldland has put these recommendations into effect. Only the letters dictated by the governor and those of utmost importance are written on the expensive Crane all-linen bond heretofore used extensively in the office of the governor. Samples of second sheets used for letter copies under former administrations are found to be of more expensive grade than the paper now being used in the ordinary correspondence of the executive office, office file copies now being carboned on cheap manilla paper used by commercial concerns everywhere. It's a little matter but sensibly carried out in every division of state government would amount literally to many thousands of dollars.

Another Complaint
Another state official complains that all was not told in regard to his salary. A previous article dealt with the return of pre-depression levels by state officials in the matter of salaries. Among others cited was the newly elected commissioner of highways. Mr. Van Wagener complained that my article of August 3 did not mention the fact that he had returned 10 per cent of his \$7500 statutory salary. The fact was not known when the article was written and sent out and was not available until after such mailing. The records will show that such check was not noted on the books of the auditor general until after public attention had been called to the salary tiling. The records in the office of the auditor general do show now that promptly following receipt of his check drawn and received on August 1, Mr. Van Wagener returned 10 per cent to the general fund. No order had been filed with the auditor general, according to the disbursement clerk whose duty it is to draw bi-monthly pay checks, directing that official to make 10 per cent or other deductions from the pay of the highway commissioner. In the absence of such order, it was stated, the regular pay checks would amount to the \$6750 net. The deduction may or may not be depended upon in the future.

High Ideas
The files of the auditor general disclose a copy of a resolution early in the history of the commission setting the per diem compensation of the commissioners at \$20 per day with seven dollars a day to be allowed for hotel expenses and 10c per mile for use of motor cars while traveling. John K. Stack, J., auditor general, demurred at these charges but concluded he could legally object only to the hotel and motor car charges. The commissioners still draw their \$20 per day but put in bills for hotel and motor car charges under limits set by the state administrative board and receive 5c instead of 10c per mile for the use of their automobiles. When the budget was being prepared the liquor control commission wanted a salary of \$12,000 a year fixed for the managing director. The ways and means committee compromised at \$4,000. In addition, the payroll now shows a secretary at \$4,000, an assistant to the managing director at \$3600, an auditor at \$4,000 and numerous other high priced individuals. The vaults of the commission must contain some precious stuff for Gus Janberg draws \$2,000 annually as its custodian.

The office payroll and salaries of inspectors for the last half of July total \$12,935.03. At this rate it will cost \$311,440 a year to run this outfit, requiring a lot of tax on a lot of 3.2 cents to leave anything over for the general fund. In fact, this sum will probably not suffice for each time a payroll is made out it requires more money.

Airplane Rides
Expense vouchers for employees of the liquor commission are also of considerable interest. There are vouchers for airplane rides, bills for members of the state police at Detroit hotels and other interesting items. One in particular attracted attention. An employee of the commission made an extended trip. No matter whether he stopped at Newberry, St. Ignace, Lansing or Piquette, his appetite showed great regularity. Every day there is a 75c breakfast, \$1.00 luncheon and a \$1.25 dinner. It is hoped that when the commission has its organization better in hand some of these abuses will be cured.

Another interesting discovery, at least to members of the legislature, will be to learn that right when the legislative stenographers were drawing down \$6 per day, Sundays included, they still had time to do some transcribing for the liquor control commission. They got their extra pay, too.

To what extent some of these commissions carry on with their new found money would be amusing if the need for revenue was not so great. While schools are closed for want of funds and while the teachers in others are carrying on with little or no pay for the sake of the children, beer tax money is wasted like no need existed. For instance, the beer commission pays its auditor \$4000 while the chief accountant for all state funds including that collected from the beer tax, receives only \$3600. The principal clerk in the beer division gets \$2100 while the chief clerk for the larger staff of the administrative board receives only \$1830. Alongside these is found the cashier in the office of the state treasurer, who is held accountable for all moneys from all sources who gets by with a meager \$2340 per annum.

As the new deal unfolds and other new commissions come into full swing there will be some more interesting disclosures. The emergency welfare commission which is charged with the distribution of \$12,000,000 tax money to relieve the destitute and unemployed is unhampered in its use of the funds for its own expenses. How much will be left for food and shelter of the poor is the query. Then, too, there is the sales tax commission and the public trust commission and the old age pension administration and a lot of others.

Foot-lit Lighting
Referring again to schools it is noted that a great cry is going up to return the legislature in special session to appropriate money for state aid for schools. That will be fine if someone will be good enough to point out some available source of money not already appropriated. Until that is done the special session would be as futile in that respect as was the regular session.

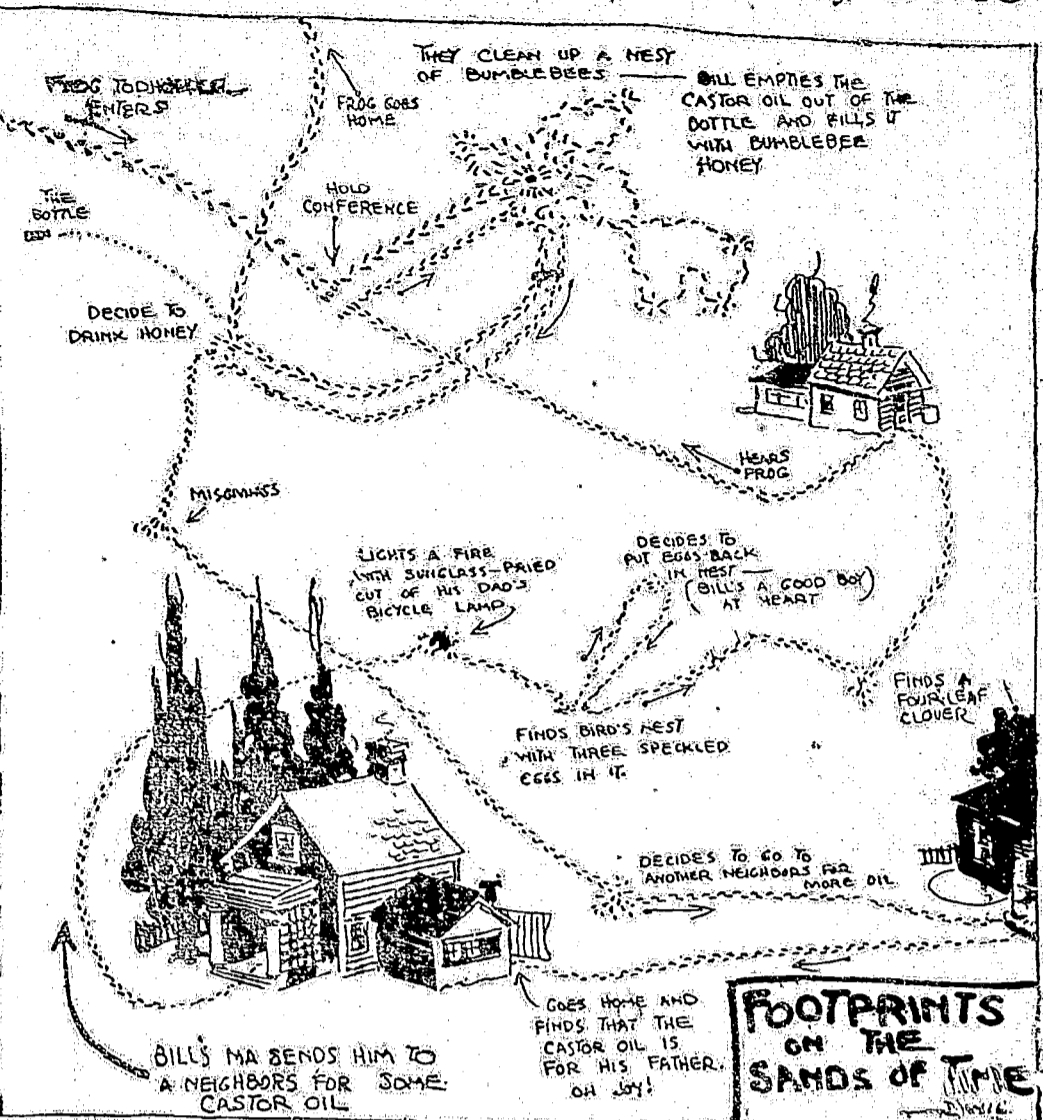

One eminent educator was quoted in a recent paper as demanding highway revenues for school aid. His claim is reported as being that \$120,000,000 had been spent during the past two years in highway building. If the professor is no more accurate in his estimate of the needs of the schools than in the statement attributed to him, the state had best wait awhile before the extra session is called.

The last available report of the state highway commissioner shows that exactly \$25,096.28 was spent on all types of new highway construction during the fiscal year ending June 30, 1932. During the following fiscal year just closed, for which detailed reports are not yet available, all revenues from the weight tax were returned to the counties for the employment of persons who otherwise would have been forced to live off the dole. Deducting federal funds received by the highway department and certainly not available for school aid, it is found that less than \$5,000,000 was available for new work after reducing maintenance costs to the minimum. How the learned professor obtains a total of \$120,000,000 from these figures is conjectural.

Music as Emotional Outlet
In the critical years of adolescence, when the emotional nature of the young person is in evidence, music is the most valuable outlet for the surging of emotion—a safety valve, in fact; not alone the mere passive hearing of music, but more than this, the serious study of music in its executive sense, will do more to hold to the track a youngster struggling with the big-league pigsticker of emotion of that period than anything else.

Local Insurance Broker Explains New Motor Statute

The Michigan Automobile Owners' and Operators' Financial Responsibility Law which was enacted at the last session of the State Legislature and becomes effective Oct. 16 will doubtless prove doubly beneficial according to E. N. Schram of the Schram Insurance Agency in a recent interview. He briefly outlined the principal provisions of the law and explained how it will be a factor for justice and safety.

The Act provides that any motorist who fails to satisfy within 30 days, any final judgment which is the outcome of an automobile accident causing the injury of any person or property damage in excess of \$800 will forfeit his right to drive or register any motor vehicle.

For the purposes of this law, a judgment shall be considered satisfied if \$5000 is paid in the case of one person injured, \$10,000 in the case of more than one (subject to the limit of \$5,000 per person) or \$1,000 in the case of material damage to the property of others when over a judgment shall be in excess of these respective amounts. This does not lessen in any way, however, the plaintiff's right of civil action to recover the total amount decreed.

In addition to paying the judgment the defendant motorist must also furnish satisfactory evidence of his financial ability to respond in damages for any future accident for which he may be held legally accountable. Similarly any motorist whose driving license or registration certificate has been suspended because of a violation of the traffic laws must prove his financial responsibility before he is again permitted to operate or register any motor vehicle.

This important new law applies not only to Michigan residents but to non-residents as well. Furthermore this law is effective as regards Michigan motorists wherever the accident occurs or resultant suit is brought. Immediately upon receipt of any such final judgment rendered by any court of competent jurisdiction anywhere in the United States or Canada the Secretary of the State of Michigan shall immediately suspend the defendant's Michigan driving license and registration certificate. Satisfactory proof of financial responsibility for future accidents may be furnished in either of three ways: (1) by depositing with the state treasurer cash or acceptable collateral to the amount of \$11,000; (2) by filing an acceptable surety bond to like amount or (3) by carrying \$5,000-\$10,000 automobile liability insurance and \$1,000 automobile property damage insurance covering all motor vehicles owned by the assured, such insurance to be issued by a company authorized to do business in Michigan or in the state in which the building of submerged log and brush devices that will tend to increase the production and yield of fish; the building of trails around dangerous holes and the removal of drift jams, snags or rocks which obstruct traffic or interfere with fishing in or along the margin of the waters.

Conservation Corps to Promote Stream, Lake Improvement

The most extensive lake and stream improvement program, probably ever carried on in the U. S. has been made possible through a system evolved by the Department of Conservation with the approval of the Federal Government and which involves the President's Emergency Conservation Work Program.

Under the system, property owners on lakes and streams open to the public for fishing may petition for improvement work to be carried on by M. E. C. W. workers. Petition forms have been prepared and are now being distributed to interested individuals and organizations.

When all of the riparian owners along a considerable frontage of a lake or stream petition for improvement work and agree to certain conditions, the application will be considered and as the workers are available the improvement work would begin in large volume before the spring of 1934.

All of the lake and stream improvement work to be carried on must be of "public benefit." It is probable that the department will set a definite minimum limit as to the area to be improved in particular projects, probably a mile of frontage.

In their petition, the property owners must agree to free passage across their lands by M. E. C. W. workers and must agree to free use of locally available materials needed in the construction, maintenance and repair of such improvements, such as stones, gravel, clay, stumps, dead timber and brush.

No green timber will be cut or unsightly changes made without the consent of the owner of the property.

The stream improvement work to be carried on will include the erosion, the building of current deflectors such as wing dams, and anchored floats; the development of adequate spawning beds; the development of feeder streams and bays so that they become increasingly effective as natural nurseries for young fish and for the production and increase of natural fish foods such as plankton, insects and minnows; the building

of submerged log and brush devices that will tend to increase the production and yield of fish; the building of trails around dangerous holes and the removal of drift jams, snags or rocks which obstruct traffic or interfere with fishing in or along the margin of the waters.

The petitions of property owners must be accompanied by signed agreements by each individual property owner. Many sportsmen's organizations are now considering taking an active part in inducing property owners along waters in their vicinity to petition the department for lake and stream improvement work.

The petitions will be considered in the order in which they are received and the relative importance of the particular water for fishing.

It was 2 Ancient Mariners, Who Rowed on the Watery Main

John Godfrey and Albert Webb arrived back here Saturday after a four-day canoeing trip during which they penetrated the wilds of Cass county as far as the power dam on Dowagiac Creek at the Plym farm. The young men report that they had to push their canoe from the mouth of Dowagiac Creek nearly eight miles up the rapids, portaging around the Niles city power municipal power dam. They camped one night at the mouth of Dowagiac Creek, one on Dowagiac Creek and again on the river below the creek mouth.

Amateur Gold Panning

The geological survey says that there is little opportunity at present for an inexperienced person to make a living by panning gold.

Placer operations are now conducted on a larger scale and require a considerable amount of capital. Although it might be possible for an experienced prospector to discover paying placer ground, provided he has ample capital to sustain him for considerable time, it is extremely unlikely that anyone without experience could hope for success.

Gold placers of greater or less extent have been developed in nearly all regions in which veins carrying free gold have been mined.

Jewelry in History

Jewelry has been worn for at least 100,000 years, according to discoveries of the archeologists.

The paleolithic man, although he knew nothing of metals, or even of tilling the soil, actually mined decorative stones and presented them to the female of the species. The jewelry of a more 74,000 years ago included fourteen varieties of semi-precious and decorative stones, some of which have persisted in the fashions to our own day.

Ancient Crematory Found

Archaeologists have located at Parkburn, Scotland, a circular excavation in which bodies had been cremated in the paleolithic period. There were distinct traces of charcoal and calcined bones in the soil. Only half of the excavation remained in good condition.

"Big Broadcast" at Hollywood has Host of Radio Stars

Sunday, Monday and Tuesday the Hollywood presents Paramount radio and musical hit, "The Big Broadcast," which boasts a cast from stage and screen that is in itself an eye-fest, in addition to the human and appealing story that has been built around this radio production. Included in the cast are Stuart Irwin, Leila Hyams, Kate Smith, Mills Brothers, Boswell Sisters, Cab Calloway and his low-down music, Vincent Lopez and his orchestra, Arthur Tracy, the Street Singer and Sharon Lynn. The scenes laid in the production are taken from the largest radio studio in America, and picture many interesting incidents inside the big broadcasting station that, all in all, make up a thoroughly enjoyable hour and a half of musical and comedy entertainment.

All the breathlessness, excitement and thrills that Zane Grey can pack into a story are crammed into "Sunset Pass," latest of his stories to reach the screen, which plays Friday and Saturday at the Hollywood. A large cast, headed by Randolph Scott, Tom Keene, Kathleen Burke, Noah Beery, Harry Carey and Kent Taylor, is featured in the film. "Sunset Pass" is the 25th of the stories by the famous Western novelist which have appeared in movie form.

A raging prairie fire, the mad stampede of a tremendous herd of cattle, plenty of hard riding, lots of bitter gunplay, these contribute to the picture's thrills. Interesting short subjects round out the program, including Bing Crosby in "Blue of the Night," a Scrappy cartoon, and there's a matinee for kiddies at 2 p. m. on Saturday, with a free ice cream cone for every kiddie under 13.

The really different picture of the week comes on bargain nights, Wednesday and Thursday, when Edward G. Robinson in "The Little Giant" flashes across the Hollywood screen. It's Edward G. Robinson's first big comedy role, and you'll roar with laughter when you see what happens when a blue-blood of the under-world buys his way into society's Blue Book!

Robinson, in the role of "Little

Caesar" furnishes strictly comedy entertainment when he attempts to crash the upperworld from his gunnery haunts, and in so doing puts society's "400," financiers and wall street uppercrusts definitely "on the spot." News reel of Hollywood stars and a cartoon complete the program.

Excused Juror at Least Gave Vent to Feelings

Jury duty, ordinarily an onerous obligation, has been welcomed this year by many Merriam county citizens who were glad to get a chance to earn their daily \$3 and expenses by sitting on a panel of 12 good men and true.

At the beginning of a recent trial in Superior court, a jury was finally drawn, but, at the last minute, counsel decided to challenge one panel member who it was thought had personal reason for prejudice in the case at hand.

After a conference between the trial lawyers and the clerk of the court, the juror in question was told that he must be excused.

Deprived of his seemingly sure opportunity of collecting several days' pay, the disappointed and disgruntled juror glared irately at the trio of attorneys.

One of the latter was short in stature, a youthful member of the New Hampshire bar trying his first case.

Another was better than six feet tall, lean of figure and bespectacled, a noted raconteur and humorist.

The third was a middle-aged, tight-lipped gentleman of Scotch descent, dour visage and eagle eyes.

The unwanted jurorman paused before stepping from the box.

"Judas Priest," growled he, audibly, "I'm doggone glad to get off this case. With those three lawyers, it would be more of a side-show than it would a regular court trial."—Concord Monitor.

STOP! LOOK! LISTEN!

Where? Evangelical church. When? Sunday evening at 7:30. Why? Hear the Woodland echoes and sounds from Riverside Park.

Who? The young people and the boys and girls from the camps.

What? Echoes, unique little orchestra, choruses for all, special music.

Will Hold Second Annual Window Show At S. Bend Sept. 19

Spurred on by the remembrance that the first event attracted the largest crowds seen in South Bend since the Armistice members of the Associated South Bend Merchants are making elaborate plans for the second annual Window Show to be held in South Bend September 19 to 21 inclusive.

Modern styles, historical styles, old-fashioned costumes and manufacturers' exhibits will feature the displays. Interesting, even elaborate effects in many instances are contemplated which include the use of models and mechanical devices and the staging of tableaux, and dramatic sketches.

In the search for material that will be different and attractive in the windows, South Bend attics are being ransacked, the Northern Indiana Historical Museum carefully scanned and manufacturers besieged throughout the length and breadth of the land. It is planned to offer a loving cup to the store having the most interesting window display as well as a suitable prize to the window decorator who conceives and executes the best idea.

As was the case last year, the windows will be veiled on the afternoon of the opening day and the unveiling will take place at a given signal at which time the window and street lights will also be turned on. In addition to the mechanical and historical showings, a number of merchants will also feature humorous windows. Last year a furniture store won wide comment with a window showing a bed room suite made from old boxes and bearing the placard "Quality Counts. You Get Just What You Pay For."

Committees are already at work making plans for the event and it is believed the interest in this year's program will set new crowd records.

Special Protection for Flock of Rare Geese

Only one known flock of greater snow geese is still left in this country and these birds are being given the most careful protection both by officials of the United States and Canada through the action of the migratory bird treaty. This lone flock spends its winters in North Carolina and Virginia, where local game wardens give it protection.

With the coming of spring weather in April the birds feel the urge to go north and usually fly directly northward until they reach the St. Lawrence river. Here they turn northeast and follow the river to a group of small islands, where every year they stop off for a few days of rest and feed. While taking their "breather" they are under the care of the Quebec mounted police, who send a patrol to the islands.

Hunters in the past have taken an unfair advantage of the birds through resort to camouflage. The stream at this season is usually full of floating ice and the hunters, dressed in white and riding in white motorboats, approach close to the flocks before the birds realize that an enemy is at hand. Because of the rarity of the greater snow geese, particular pains are being taken to perpetuate the flock and perhaps bring about an increase which will later permit hunting of the birds.

Other birds found on the islands with the greater snow geese are the Canada goose, brant, black duck, pintails, mallards and teal.

NRA Creates 188 Jobs in Niles

The NRA campaign is given credit for creating 188 new jobs, 162 of which are full time, in the city of Niles since the start of the movement.

Twenty-six part time jobs have also been given to hitherto unemployed workers. It is estimated that 600 more men and women, now out of work can be re-employed if the blue eagle drive is a national success.

To date 301 employers in this city have signed the NRA pledge and received blue eagles, indicating their co-operation to end unemployment in this country. The total of consumer pledges is now 1,968 with only 87 housewives being missed in the house to house canvass to regiment consumer interest in the NRA.

Retail merchants of Paw Paw originated the idea of a Grape Harvest last year and attracted great throngs of people to the community from all parts of the state. The effort was so singularly successful that it is now being expanded into a gigantic fete worthy of the thousands of vineyards it pictorially represents. Booster buttons are being sold locally to finance a portion of the committee work expense.

STATE Rules Fruit Packages Not Exempt from Sales Tax

The state board of tax administration exceeded its authority in exempting from the sales tax the proceeds from the disposal of cartons and other processing equipment in manufacturing also fruit packages and farm machinery, according to the ruling of State Attorney General Patrick O'Brien, who ruled against their decision Friday.

Only such elements as become a physical or chemical part of the finished product are exempt. He declared that attempts to exempt other purchases would be in conflict with the sales tax law.

Under his ruling such sales as feed, seed, fertilizer, and so forth, which become a part of food products raised by farmers, would be exempt, but machinery, equipment, cartons and so on, used either in industry or agriculture, are taxable.

At the office of James E. Mogan, sales tax director, it was said that the "old" rules under which the sales tax has been administered are still in effect and will continue until specific exemptions are made. They allowed no exemptions. It is expected the board will be asked by Mogan to review O'Brien's opinion and possibly modify its stand.

O'Brien issued his opinion of his own volition, stating he wished to make the position of the state's legal department clear.

Not all of these lovers got very far with her, for her code in "Baby Face" is to take all men. But all are at her feet.

Barbara Stanwyck is now the champion sweetheart of the screen. At least in the number of men she dangles around her. In "Baby Face," her latest starring vehicle for Warner Bros., which comes to the Ready theatre, Niles, on Sunday, Sept. 10th, she has an even dozen screen lovers.

For Barbara as the baby faced siren is as fickle as the famed Helen of Troy. She vamps her way through a great metropolitan bank snagging the hearts of its male employees from the humble doorman up to the pompous president.

She is given her start on her gold digging career by her own father who used her beauty as a lure to attract patrons to his beer flat. But she quickly absorbs the philosophy of Nietzsche through a studious cobbler who also likes his beer and sets out to use men to her own advantage. How well she succeeds is evidenced by the string of broken hearts and broken men she leaves in her wake.

Georges Brent, who plays the leading role opposite Miss Stanwyck, is the lover-in-chief and the only one for whom she has any real affection. The others are used only as stepping stones in her determination to acquire wealth and luxury. Even he was at first merely another man to be "worked upon." The other sweethearts she takes on and discards in rapid succession for men of more importance include Donald Cook, John Wayne, Henry Kolker, James Murray, Douglas Dumbrille, Nat Pendleton, Arthur Hohl, Harry Gribbon, Arthur DeKuth and Alphonse Ethier.

Sunday Dinner Suggestions

Lettuce and tomato salad is a
favorite of which we do not easily
tire, but for variation, fruit or
combination fruit and vegetable
salads are much appreciated. That
old favorite, Waldorf salad, com-
bining apples, celery and walnuts
with salad dressing, can be pleas-
antly varied at this season when
nuts are scarce by substituting
sliced plain or stuffed olives for the
nuts. The salad should always be
marinated in French dressing or
slightly sweetened lemon juice.
A popular fall vegetable in the
markets is cauliflower and it is
very welcome as the weather
grows cooler.

400,000 Roses to Ounce of Oil
Attar of roses, one of the costly
perfumes, owes its high price to the
fact that 400,000 roses are required
to produce an ounce of the oil. So
difficult is it to obtain it is often
adulterated with sandalwood, but
the pure oil, of course, is most de-
sired. It is produced principally in
India, Persia and other eastern
countries. The attar is obtained
from rose water, made from the
crushed leaves.

NOTICE OF FORECLOSURE
AND MORTGAGE SALE
Whereas, default has been made
in the payment of the money se-
cured by a mortgage, dated the
25th day of May 1926, executed by
Guy Eisenhart and Mac Eisenhart,
husband and wife, to the Indus-
trial Building and Loan Associa-
tion, a Michigan Corporation,
which said mortgage was recorded
in the office of the Register of
Deeds of Berrien County, Michi-
gan, on the 21st day of January
1929, in Liber 165 of Mortgages,
on page 72.

And Whereas, the amount claim-
ed to be due on said mortgage at
the date of this notice is the sum
of three hundred and ninety and
no/100ths (\$390.00) dollars, prin-
cipal and interest, and the further
sum of thirty-five (\$35.00) dol-
lars as an attorney fee provided for
in said mortgage, and no suit or pro-
ceedings at law or in equity hav-
ing been instituted to recover the
said debt secured by said mortgage or
any part thereof.

Now therefore, NOTICE IS
HEREBY GIVEN, that by virtue
of the power of sale contained in
said mortgage and the Statute in
such case made and provided, the
said mortgage will be foreclosed
by a sale of the premises describ-
ed therein, or so much thereof, as
may be necessary to pay the
amount so as aforesaid due on
said mortgage, with six (6) per
cent interest from the date of this
notice, and all other legal costs,
together with said attorney's fees,

Otis Flenar
Wedded Aug. 18
Announcement is made this week of the marriage of Otis Flenar of this city and Miss Myrtle Johnson of Geneva, Ill.

The young couple first met when the parents of the bride, Mr. and Mrs. Edward Johnson of Geneva, Ill., came to Buchanan to visit at the Flenar summer home on Bachelor's Island. Mrs. Johnson is a cousin of Al Flenar. The acquaintance which then started between the daughter, Miss Johnson, and young Flenar, developed into romance, culminating in marriage. Young Flenar came to Buchanan three and a half years ago from Wakarusa, Ind., to make his home with his uncle, Al Flenar. He completed his high school course here and was prominent in public speaking, dramatics and athletics. The young couple are now making their home in Battle Creek, where Mr. Flenar has a position with his brother, who has a filling station there. He plans to continue his education in Battle Creek night schools while there.

Oil Discoveries Increase Output of Michigan

With oil prices constantly rising the bringing in of new large producers almost weekly in the Midland Field and the discovery of new wells in Ogemaw and Oceana county, Michigan's oil industry is reaching new heights, the Geological Survey Division of the Conservation Department is reporting.

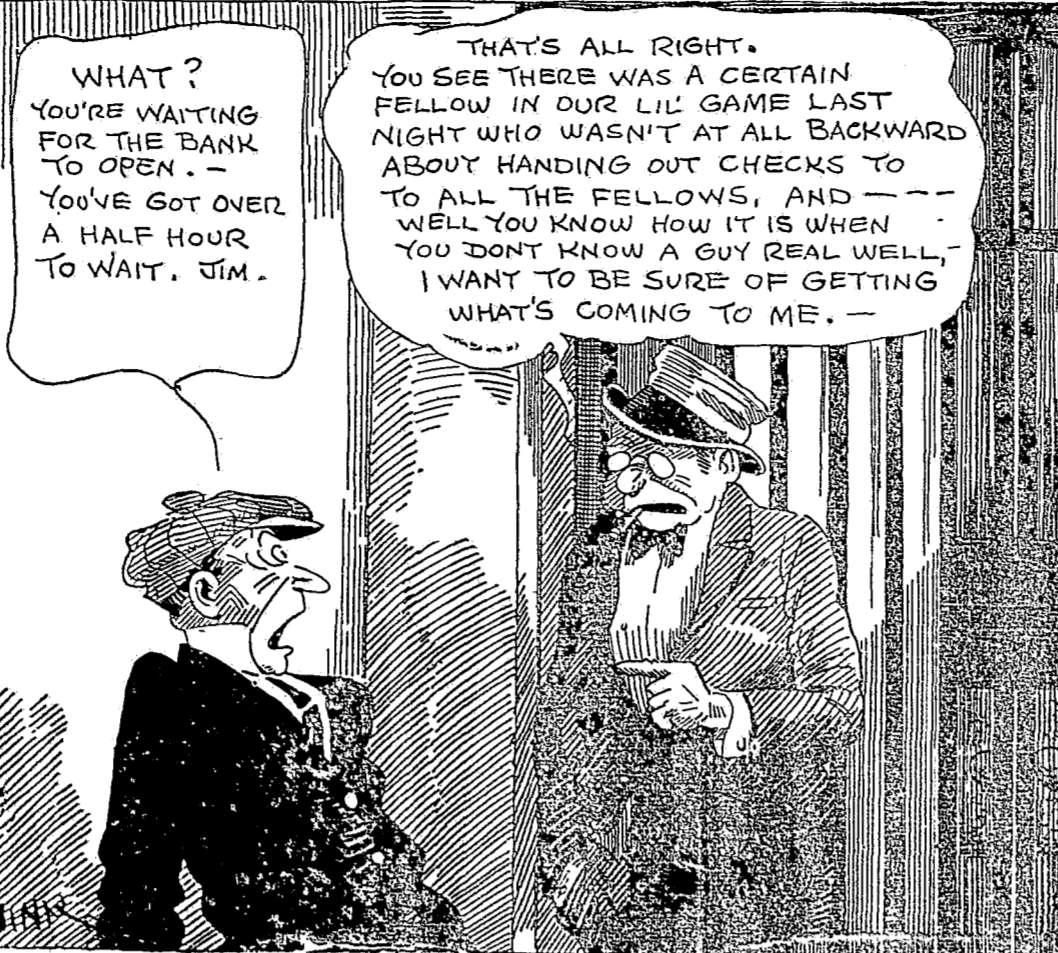

Oil was discovered in Ogemaw county in the Alvin Weber well, two miles east of West Branch. This well had an initial production of about 10 barrels a day. Oil was found at approximately 1,700 feet but drilling did not go deep enough into the formation, according to the Geological Survey Division. Other wells are now being drilled in the vicinity.

Early in the year a well in the southeast corner of Mills township in Ogemaw county brought in over 200,000 cubic feet of gas a day from the Berseba formation but the Traverse and Dundee formations proved to be dry and the well was plugged.

After a third acid treatment, the Flanigan-Voorhees-Mitchell No. 1, five miles southeast of Hart in Oceana county developed more than 700 barrels of oil a day. Oil was found in the Traverse formation at about 1,900 feet. It was the second producing well in the Hart Field, being a mile west of the original producer. Several permits for drilling additional wells in Oceana county have been issued by the Conservation Department.

Drilling operations in Porter township, Midland county, the largest field in Michigan, have had

"He careth for you"

IT IS related of "Christian," in "The Pilgrim's Progress," that he began his journey to the Celestial City bearing on his back a great burden, but that it rolled away from him when he had gone far enough to behold the saving love of Christ. As we journey through this earthly experience, it seems sometimes as if we, too, were weighed with a heavy burden which we feel it is our duty to carry, although it greatly impedes our progress. What a relief it would be to get rid of this incubus, to learn that we may pursue our way unencumbered, and find all our needs abundantly supplied so long as we do not wander from the right path!

"Cast thy burden upon the Lord, and he shall sustain thee," said the Psalmist. Many instances of this sustaining love, experienced in ancient times, are recorded in the Bible, and many more might be recorded in our own day; for those who obey the Scriptural command, "Humble yourselves therefore under the mighty hand of God, casting all your care upon him; for he careth for you," are learning that God does care for his creation.

Christian Science is teaching many a one to undo the heavy burdens of care and anxiety by gaining a clear understanding of what God really is. On page 455 of "Science and Health with Key to the Scriptures" Mary Baker Eddy writes, "God is incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love." As we become conscious of the all-embracing, all-sustaining divine Mind, which is always present everywhere, the nature of which is wholly loving, just, and true, we lose the fear of being crushed by oncoming evils. So we become braver, for on every side we see evidences of the presence of good. Perhaps we had long ago been taught that God is Love, and now we can prove it. Even human parents would not willingly burden their children. Can the human be more loving than the divine? Is not God the source of all real love? Man cannot be more just, more loving, than his Maker. Cast your burden, all your care, upon Him, divine Love, "for he careth for you."

What is our special burden? Is it one of anxiety for our business, fear for its future and for that of our staff, our employees? Let us cast all our care upon divine Mind, for divine intelligence supplies us from day to day with the justice, honesty, resourcefulness, wisdom, courage, and opportunity which

consistent success, with large producers being reported to the department almost every week. An increase in the price paid for Michigan oil from 75c to 90c a barrel has increased activity in all of the state's oil fields.

PRIMARY FUND IS NO RELIEF, SAYS VOELKER

State School Head Makes a Statement on Financial Conditions in Educational Plant of Michigan.

Because erroneous impressions have been given to the public in the last few days to the effect that the primary interest fund money will adequately relieve the financial distress facing the public schools, Dr. Paul F. Voelker, state superintendent of public instruction, has issued the following statement:

Primary Money Goes to Teachers' Salaries Only
"While we are grateful that cash from the primary interest fund to be distributed in September exceeds earlier expectations, it must be remembered that this money can be used only for teachers' salaries for the ensuing year; it cannot be used generally for the payment of tuition, nor for the payment of unpaid salary or other accounts of last year. Nor can it be used for current operating expenses. It is quite useless to have teachers in the rooms if the plant cannot operate."

Present Primary Money \$3,000,000 Less
"It must be remembered further that the primary interest fund money estimate is \$3,000,000 less than the sum received last year, and that it will supply, especially in the cities, only a part of the salary budget. Because districts have not paid last year's high school tuition and have no credit for the coming year, thousands of boys and girls are facing the possibility of being deprived of the right to secondary education which

is provided by law."

Sales Tax Aid
Referring to the statements that the sales tax will supply money for the schools and that the Governor has indicated \$8,000,000 may be designated from the general fund, Dr. Voelker says:
"These assertions brighten the picture to be sure, but schools can not operate upon the probability of receiving these aids. Specific provision must be made at once if the immediate situation is alleviated. School budgets must be constructed at the beginning of the school year. Should the governor be able to release the \$8,000,000 for school aid at once, it is possible that a special session of the legislature to guarantee the sales tax money might reasonably be deferred until January."

Examinations in Rural Schools
Plans are being made for revising the procedure in giving seventh and eighth grade state examinations to conform with the resolution adopted by the state legislature. Paul F. Thompson, Assistant Superintendent in charge of rural and elementary education, states that there is a strong inclination to eliminate seventh grade examinations entirely and place the conducting of the eighth grade examinations in the hands of the teachers in the respective schools.

County Board the Final Judges
Mr. Thompson further states that the County Board of Examiners will still be the body to determine finally the question of granting the 8th grade diploma in each particular case. The diploma will not be granted on the examination alone, but on the results of other examinations, tests and other evidence that shall measure the child's ability.

Few Schools to Operate 10 Mo.
Results of a survey of Michigan village and city school districts now carried on by the Department of Public Instruction reveal that out of the 141 thus far reporting, only seven expect to operate the entire 10 weeks.

Number of Teachers Reduced
There is a decrease of 350 teachers from the number employed last year in the 141 districts. These figures applied to the state as a whole indicate an approximate reduction of 1000 teachers from the number employed in 1932-33, making a total reduction of 3,000 from the number employed in 1930-31.

Salary Reduction for This Year
of approximately 50 per cent of the amounts paid in 1930-31 is indicated by the survey. The average salary will be \$3084 for the year. Rural districts of the state are consistently reporting salaries ranging from \$25 to \$50 a month.

Sums in Closed Banks
In the 141 districts reporting, the sum of \$3,146,706 is in closed banks. This sum is generally due to teachers for salaries in 1932-33 and for unpaid operating costs and debt service.

Mary E. Viele
Expired Sunday in Seattle, Wash.

Mrs. Mary E. Viele, 88, mother of Jesse F. Viele of Buchanan died Sunday at the home of her daughter, Mrs. Bessie Ridley, in Seattle, Wash. Mrs. Viele had made her home in Buchanan for the past 9 years. She was born and grew to womanhood in Monroe county, Michigan, and was the daughter of Ziva Harrington. She made her home for many years in South Bend, where her husband, the late William A. Viele, who died ten

years ago, was in charge of the pattern making and millwright department of the Studebaker company. She is survived by two sons, Jesse C. Viele of Buchanan, and Charles C. Viele of Seattle, and by one daughter, Mrs. Bessie Ridley, of Seattle.

Funeral services were held on Tuesday afternoon and burial was made in the Viele crypt of the Seattle Memorial Mausoleum beside the body of her husband.

Buchanan Encampment 169 invites the members to a watermelon feast Friday night.
