### Now Here's the Proposition

#### SHOCK-PROOF

First time I saw a woman smoke, a woman smoke, a woman smoke. First time I saw a woman smoke you hereby are advised, it horrified me through and through, I did not gain my natural hue, for anyway a week or two For I was so surprised.

When first I saw a one-piece suit I raised both hands and yelled, "don't shoot!"

When first I saw a one-piece suit it knocked me for a row. I wildly murmured, "Vas is Los?" and passed into a comatose or something that was very close to it horrified me so.

When first I heard a G. O. P., a G. O. P., a G. O. P., Admit he voted Democrat I fainted dead away. It was a shock to my physique, they had to work on me a week ere I could raise my head or speak No words my grief convey.

If I should see a purple cow, it scarcely could affect me now I'd never blink or anyhow not more than once or twice. So many quaint and curious things each newborn day before me brings I cannot think of anything that would me much surprise.

### Carl Hamilton is Named Head Tri- County Directors

The speaker of the evening was Lieut. Governor Stebbins, who presented the association with official information on the interpretation of the sales tax as applied to the business of the funeral director and also gave a general discussion on the proposed funeral service code of the NRA. The largest attendance of funeral directors and their wives in fifty years was reported at the meeting. The important current issues to be brought before the meeting, bringing many from the funeral associations. The Tri-County Association of Berrien, Cass and Van Buren counties was the first to be organized in Michigan.

When picked up, Mrs. Comer insisted that she had walked the entire distance of nearly sixty miles. Her family stated that she has been mentally deranged since receiving word of the arrest of a son for desertion from the U. S. army. She apparently had no destination in mind when she left.

### MORSE, MONTAGUE TO MIX IN WARM PITCHING DUEL

Both Teams Have Impressive  
Records, Winning Large  
Pct. of Games with  
Last Opponents.

Lovers of baseball as is baseball have in prospect during the next three weeks some excellent diamond sport without leaving their own community when the Portage Prairie Greyhounds and the Buchanan Merchants, two of the best teams developed in the Buchanan district in recent years, meet in a Little World Series of three games played alternately at the Athletic field in this city and the Letcher diamond on Portage Prairie.

The opening game, which will take place at the Athletic field diamond, here, starting at 2:30 p. m. last time, Sunday, is featured in advance dope as a pitching duel between two of the best that ever gave Buchanan as a home address, Dick Montague and Lefty Morse, for the Merchants. He was formerly an ace on the pitching staff of the University of Michigan, was for a time a reserve man for the Chicago Cubs and has since pitched with southern league teams and with the traveling team of the House of David.

Morse pitched for the Merchants earlier in the season, when he secured his connections for reasons announced, but it is rumored that he is out to stand his former team mates on their heads. Whether or not he will be able to stand off the challenge of Big Dick Montague remains to be seen but the fans may at least be assured of as good a baseball spectacle as they have witnessed locally in many years while the duel is in progress. Morse suffered from a slight injury to his neck in mid-season, but is reported to be in better form than ever, now, and if that be true he is one of the best pitchers that ever came out of Buchanan.

Levi Topash, Big Chief of the Potawatomies of this section, and renowned as an umpire of ability and impartiality, will be umpire-in-chief for the series, with Joe Hamilton on first base and Phay Grant on third.

Each team has an imposing record for the present season, in consideration of the fact that they have not hesitated to cross bats with the best in southwestern Michigan and northern Indiana. The Greyhounds have won 17 out of 22 games played a percentage of .800, and the Merchants have won 16 out of 20 played for a percentage of .773.

The line-up players will be as follows:

Greyhounds  
Catchers, Richter and Corcoran; pitchers, Sebasty and Bob Morse; infielders, Straub, Sellers, Foster, J. Letcher; outfielders, E. Bachman, Kell, Lisky R. Letcher, Shively, Newsom.

Merchants  
Catchers, Doc Bailey, J. Root; pitchers, Dick Montague, Paul Hamilton, Krone; infielders, Newman, Louis Morse, E. Miller, Wolford, Geary, Heckathorne; outfielders, Loren Morse, Heierman, Shively, Ringst.

Admission will be 25 cents for men, women and children under 16 years old free.

### GOOD RESULTS NRA REPORTED IN LARGE CITIES

Check Up Reemployment Statistics Reveals Thousands  
Back on Jobs in  
Work Centers

Cross-section reports to NRA headquarters in Washington reveal the extent to which the Blue Eagle drive is actually putting men and women back to work. Incomplete reports from state and regional committees show that considerably more than 12,000,000 workers are now under NRA codes, apart from those of about 3,000,000 employees who are operating under the president's emergency re-employment agreement pending completion of codes from their respective industries.

One of the first complete reports was from Ashland, Ky., the home of Henry Clay, where 2,076 men and women were added to pay rolls. Typical results from widely scattered points showing the fidelity of employers to the recovery program, are as follows:

In Evansville, Ind., 123 firms added 1,472 employees, with 700 more due to be taken in before October 1. Galveston, Texas, increased its weekly pay roll \$13,500 by adding 630. Three thousand new jobs were created and filled immediately as a result of the drive in Fort Worth, Tex., and the city's weekly pay roll increased by \$2,900,000. A chain of grocery stores in Brooklyn increased their employees 13 per cent and their pay roll 10 per cent. Eight hundred and twenty-two persons were re-employed at Corpus Christi, Tex.

In Harrisburg, Pa., 1,446 workers were reemployed with pay roll increase of \$1,284. The NRA committee in Indianapolis reported their check-up revealed 21,000 persons re-employed of which 5,884 went back to work for eight large companies, with increase of \$113,391 to weekly pay rolls. A Bartlesville (Okla.) oil company added 3,000 men in their service stations in 30 states "with more to follow soon." Warren, O., added 1,331 employees, with pay roll increase of \$109,000. Fort Dodge, Ia., put on 456, with addition to pay rolls of \$398,000 per year. The pay roll of Butler, Pa., was increased \$259,000 per month. Minneapolis, Norwalk, Conn., and many cities and towns in scores of States made similar reports. Incomplete reports indicate that many thousands are being put back to work in Chicago, Cleveland, Los Angeles, Denver and other large centers.

Nearly 6,000,000 workers will be affected by the completion of the retailers' code and hundreds of thousands by the codes of the coal, construction, boot and shoe and other large industries, in addition to the codes of several hundred smaller industries still in process of formulation.

### Somebody's Sweetheart

Try looking at this little miss without feeling a tug at your heart strings. Can you do it? Well, neither can we.

No, she is not a resident of this territory, although she is a prize baby, and she does live "some-where in Michigan." The Record prints her picture merely to emphasize its belief that there are

many little men and women living in Buchanan and nearby towns and rural communities who are equally personable, and would look just as attractive in the columns of this publication. In this same space next week, providing the picture can be secured and the cut made in time, the Record will publish the picture of the first entrant in the Personality Babies Election announced today. This baby may be from Buchanan, Galien, Glendora, New

He stands about six feet in height weighs 200 pounds, age about 30. He has a reputation among linemen for gigantic strength, gained however, not from pugilistic or wrestling feats but from his ability in juggling heavy poles. Savoldi, it seems, was just another telegraph pole as far as Weir was concerned.

## Unique Voting Enterprise With \$525.00 In Prizes

### STATUS BOB WEIR AS WORLD CHAMP IS UNDER CLOUD

Word Anxiously Waited in  
Buchanan as to Stand of  
New York Boxing Commission on Inimput Match.

Robert Weir, hailed locally as the unofficial world's wrestling champion as the result of his impromptu bout with Jumpy Joe Savoldi here Saturday evening, did not know who his opponent was during the match "but it wouldn't have made any difference to me, anyway."

Stories and opinions of the affair current around the city differ radically in details. It seems that both the men went for the free air service hose at the Lauer filling station about the same time. Weir first is problematical, but it is his right to its first service.

The dispute became heated. It is alleged that epithets were exchanged and Savoldi opined as to what he might do if Weir did not wear glasses. Weir removed that obstacle by doffing the glasses. Blows were exchanged. Weir hit first in a problematical, but it is his parent that desire of combat was mutual. After a few blows were swapped without either man being floored, Savoldi decided to resort to his own game and made a flying leap, grasping Weir about the waist with the evident intention of lifting him from his feet and throwing him to the ground.

However, Weir brought his knee to Savoldi's stomach as the latter charged in and they went down together with Weir on top. There Weir remained for the duration of the bout, using Savoldi as a sled as they slid about the gravel on the ground.

Then Clem Savoldi took a hand pulling Weir off and at the same time lifting his foot threateningly over his brother to discourage any disposition on his part to resume the match.

Opinions of the spectators differed as to whether Joe's shoulders were ever pinned to the ground and in the absence of a referee the actual result of the match remained in doubt.

After it was all over, Weir walked over to one of the station operators and inquired: "Say, who was that guy I was tussling with anyway?"

Weir is in charge of the line maintenance for the Postal Telegraph with headquarters in Michigan City. He is frequently in Buchanan and is well known here. He stands about six feet in height weighs 200 pounds, age about 30. He has a reputation among linemen for gigantic strength, gained however, not from pugilistic or wrestling feats but from his ability in juggling heavy poles. Savoldi, it seems, was just another telegraph pole as far as Weir was concerned.

Tots Not Over Five Years Old May be Entered; Pictures of  
Personable Babies to be Published in Columns of  
The Berrien County Record.

FIRST PRIZE \$100.00 IN CASH  
AND ENGRAVED LOVING CUP

Many Other Cash Awards, Too; Send in Nomination for  
Your Favorite Baby; Pictures to be Made Free if No  
Good Photograph is Available.

Are you one of those fortunate individuals whose home resounds to the prattle of childish laughter and the patter of dancing feet? Is there a chubby-faced, round-eyed youngster to brighten your fireside on a bleak winter's night—to enhance the sunshine of the good old summertime? If such there be—if you are the father, mother, grandfather or grandmother, sister, brother, uncle, aunt, or cousin—or if you are just a mere admirer—here is a most interesting piece of news for you.

For the little men and women of Buchanan and those of sections of Berrien and St. Joseph counties adjacent to it, at last are coming in to their own. Today, the Berrien County Record inaugurates one of the most unique and interesting projects ever undertaken by a newspaper. This enterprise is a Personality Baby Election—a contest to present valuable awards to and confer real distinction on the Buchanan area's most attractive babies.

The reading public of today is confronted on every hand with pictures of prominent politicians, athletes, flyers, actresses. The faces of those who have achieved fame or notoriety by some hook or crook peer out from every page. But the Berrien County Record wants to be different. It wants to give you something else to think about—something else to look at. It wants to show you the most interesting, appealing, fascinating pictures in all the world, the fresh young faces of your own community's attractive babies.

Of course, the metropolitan dailies have for some time been devoting space in their rotogravure sections to pictures of the attractive baby personalities in their territories. Now, the Record is not a metropolitan newspaper; nevertheless, we are convinced that, right here in Berrien and St. Joseph counties, you will find as fine a collection of attractive, vigorous, and healthy little children as exist anywhere in this or any other country. And before this election is over we are going to prove it to you; after you have watched the columns of this newspaper for the next few weeks and seen the baby faces looking out at you, we believe you will agree with us.

So, for the next few weeks, the babies are going to occupy the spot light. All over this entire territory, the babies will take precedence, and everything else will have to occupy the back seat. Pictures Will be Published The Berrien County Record expects to publish the pictures of a number of these little tots and hopes that their parents will cooperate with us in this feature of the enterprise by getting in touch with us as soon as possible, and learning all the details of the Personality Baby election. If you have a good, recent picture of your baby, bring it in and we will have it made up for you. If you have none, then we will have the official photographer of the Baby Election make one for you, entirely without cost to you.

George W. Smith, well known Buchanan photographer, whose studio is located at 105 Charles Court, has been engaged to take care of this important detail. Mr. Smith is a specialist in baby child photography, and has more than a local reputation for the excellence of his work along these lines. The Record considers it a fortunate circumstance that it was able to obtain his services, and you may be sure of a picture that will do full justice to your baby's personality. As previously stated, the Record pays ALL expense in connection with taking these pictures. Your baby's photograph will cost you nothing; we take care of all charges. Neither is there any red tape or delay about getting it done. Simply come to the Record office and say you would like an order for a photograph, and then telephone or call on Mr. Smith and request an appointment for a sitting. Remember, you

should do this without undue delay, for although Mr. Smith has promised the quickest possible service, it necessarily will take some time to develop and print the picture, and then the engravers require time to produce a newspaper cut from the finished photograph. To Run Several Weeks The Baby Election may be considered formally open with the publication of this announcement. It will continue for approximately eight weeks, ending on Nov. 7th, thus giving ample opportunity to publish pictures of the nominees. All babies five years of age or under, and living in Buchanan or those sections of St. Joseph and Berrien counties adjacent to it, are eligible. There are two important coupons appearing on page 4 of this issue. One is a nomination coupon entitling the baby to 5000 votes as a starter; only one of these can be credited to any baby. The other is a free 100-vote coupon; as many of these coupons may be voted for any baby as its boosters are able to turn in. Simple Voting Enterprise This is to be a voting enterprise pure and simple; there is no entry fee, no cost anywhere at any time. The beautiful engraved loving cup and the valuable cash awards, carrying with them both distinctive honors and monetary value, will be presented to the babies who have the most votes when the final day arrives. In this election, both the lovely and the lofty have equal opportunity. Each has an equal chance to win. No member of a Record employee's family may enter, although of course this restriction does not include our mail correspondents through the country. No papers will be sold from the Record office in bulk. Votes cast for one baby may not under any circumstances be transferred to another. Further Details Next Week. Space is not available to give complete details of the Personality Baby Election this week. Be sure, however, to get a copy of next week's paper containing further information.

This is going to be an exceptionally interesting feature, and we of the Record staff feel sure that those of you who have little ones will want to have a part in it. So, the first thing for you to do is to send in a nomination blank filled out for your baby, and at the same time turn in a photograph or arrange to have one taken within a very few days. Then get in touch with your friends and neighbors and ask them to give those 100-vote coupons appearing in each issue of The Record. When you do this you should also mention incidentally that you would appreciate having them save for you the votes that will be given them when they pay their subscriptions.

Then, get in touch with the Baby Election department and have all the details explained to you. Better still, come right down to the Record office; or, if you prefer, a representative will drive out to see you. The entire Baby Election will be carried on by a separate department of the Record newly organized for that purpose. It will be directed by an expert in such projects, stranger to all who have no interest in any particular baby in the community. The final count will be made and prizes awarded (Continued on page 2)

### State Sales Tax May Reach Total of \$35,000,000

July collections of the state's three per cent retail sales tax amounted to approximately \$2,600,000, it was announced recently by James P. Morgan, managing director of the State Board of Tax Administration. At the same time he indicated that the Board's field representatives were now checking violations and omissions for the first time. The July collections came voluntarily from 63,031 retailers throughout the state. Morgan predicted that collections will reach \$3,000,000 monthly later in the year, and that the number of retailers filing returns will amount to about 75,000.

The much-mooted question as to whether Michigan manufacturers and farmers are to be exempt from the retail sales tax on articles purchased for use in their manufacturing and agricultural operations, which apparently had been settled last week by an affirmative vote of the Board of Tax Administration, may yet be upset. It was disclosed recently by Attorney-General Patrick H. O'Brien, as a precautionary measure. O'Brien voluntarily gave the board members his opinion that they had "exceeded their authority when they held these specific articles as exempt from the sales tax."

The Attorney-General holds that the resolution passed by the Legislature exempting processing materials from the tax is inconsistent with the law. He maintains that any article or material which does not actually become a physical or chemical part of the article to be resold is not exempt from the tax.

A formal statement has been issued by Morgan cautioning all persons against presumption of exemption until notified specifically as to what exemptions are to be allowed. He wishes that no misinterpretation be placed upon the Board's recent action which calls for exemptions retroactive as of August 1. Morgan declares that returns for the month of August due September 15, must include the full tax at least until further notice. The action of the Board, he points out, is not binding yet and will not be until he has had time to review all petitions for exemptions now on file.

### Michigan Has Fourth Nation's Frozen Deposits

Frozen bank deposits provide the greatest obstacle to the success of the National Recovery Administration.

This was the consensus at the session of the American Bankers Association in Chicago last week when high officials of the United States Treasury Department urged the loosening of these deposits toward the end that the free flow of credit might be resumed.

But the figures compiled by the Committee of the Nation and also testimony in Judge Harry B. Keidan's Grand Jury investigation disclose that these frozen deposits still represent approximately \$2,100,000,000 in the United States. Of this sum \$700,000,000 or one-third, represents frozen deposits in banks of the Seventh Federal Reserve District, in which Detroit is located.

This is a large district, but estimates from reliable sources place the frozen deposits of Michigan alone at about \$500,000,000.

Thus one state holds fast almost one-fourth of all the frozen deposits of the United States.

### Detroit Total High

Detroit National banks alone held deposits of approximately \$535,000,000 when they were closed last February. But 40 per cent of that sum, or slightly in excess of \$200,000,000, when offsets are considered, has been released to depositors.

The policy of the Federal Government in regard to Detroit differs from the policy adopted in other large cities. This remains true despite the fact that up to the time the First National Bank and the Guardian National Bank of Commerce were closed, not one dime had been advanced to these banks by the Federal Government, although the Reconstruction Finance Corp., was organized for just that purpose.

This policy of the R. F. C. was unique in the nation, and bankers of Chicago and other large cities of this Federal Reserve District fail to this day to account for the attitude of the R. F. C.

Despite all that has been said by various interested groups and individuals, the impression obtained at the Chicago gathering last week was that Detroit's problems were more political than financial at the beginning of the bank holiday.

A poll recently taken of 5,000 leading industrial and mercantile

establishments of the country disclosed that these frozen bank deposits constituted the greatest menace to the recovery of the country.

# "Proud and glad to do our part"

WITH President Roosevelt's acceptance of the NRA Automobile Code, Chevrolet, the world's largest builder of motor cars, officially begins operations in accordance with the administration's recovery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years ago!

At that time, we put into operation a "share-the-work" plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 per cent of this average. We are justly proud of that record. We are also proud to say that Chevrolet workmen did not, at any time during the depression, become a burden on public welfare departments.

### What's Meant by the Term PERSONALITY BABIES?

Webster's dictionary says that Personality is the "distinction of person; distinctive personal character; individuality." We all know that each man and woman has a personality all his own; we often hear the remark, "She has an agreeable personality," or "he has a pleasing personality," or sometimes, a less flattering reference.

Well, babies have distinct personalities, just like adults, but more likely to be pleasing because they are as yet removed from the hardening elements of life. The way they smile; the postures they assume; the expressions in their eyes—these and a hundred other characteristics go to make up the distinct personality each baby possesses.

So by "Personality Babies" we mean the babies with the most attractive, outstanding personalities. There are lots of them in and near Buchanan—and during the next few weeks we hope to see the pictures of many of them looking out from the columns of the Berrien County Record.

Supervisors File Preferred Claims for Bank Deposits

The Berrien county board of supervisors have authorized the filing of preferred county claims against the Farmers & Merchants National Bank & Trust Co., Benton Harbor, amounting to approximately \$30,000.

The board also, without a dissenting vote, passed resolutions waiving 50 per cent of the deposits in the county treasurer's account there, in accordance with similar action taken two months ago. "The total amount in the treasurer's account is \$334,977.34. The largest item in the preferred claim list is a \$19,000 deposit representing the county's legacy for a sanatorium received from the Henrietta Avery estate.

Another item is \$3,496.30 on a county Covert road coupon account, and one for \$436.75 county road coupon account.

The balance is made up of several small accounts which the financial committee contends should be preferred claims.

The board gave Chairman John Warman of the finance committee, Chairman Michael Hennes of the judiciary commission and Theodore Katzbach, chairman of the board, the authority to start suit, if necessary, to establish the preferred claims.

With the exception of the total amount agreed to as general deposits in the bank, the resolutions passed by the board agreeing to

15 Stars Cast in Lead Roles of Feature at the Hollywood

The greatest number of stars ever cast together in a single picture play in "If I Had a Million," drama centering around an eccentric millionaire who distributes his fortune among nine persons whose names he picks at random from a city directory. The picture comes to the Hollywood theatre Sunday, Monday and Tuesday.

The eccentric millionaire, played by Richard Bennett, decides to give away his money before he dies. He writes out checks for a million each and gives these to a group of people, none of whom has ever risen far above the stages of poverty. A down-trodden clerk in a china shop, a woman of the streets, a forger, a tough marine, a murderer, an ex-vaudeville performer and an inmate of an old lady's home are among the recipients of his gifts, and the manner in which each disposes of his new wealth provides the action of the story.

In the cast are Gary Cooper, George Raft, Wynne Gibson, Chas. Laughton, Jack Oakie, Frances Dee, Charlie Ruggles, Allison Skipworth, W. C. Fields, Mary Boland, May Robson, Gene Raymond, Lucien Littlefield and Richard Bennett. On the same program, the Hollywood presents Snail's Paradise Band in "Smash Your Baggage," John Hix's famous "Strange As It Seems," and current news events.

Friday and Saturday of this week the feature billing at the Hollywood is "King of the Jungle," with Buster Crabbe, who was chosen by Paramount from a nationwide contest in selection of the most perfect specimen. Supported by Chabbe is a pretty little Northwestern University coed, Frances Dee, who has already provided herself a niche in Hollywood filmdom. The picture centers around the Lion Man, a youth raised in the jungle among lions, and ultimately captured and brought to the United States to use his understanding of leonine temperament as headliner in a circus.

His romance with Miss Dee, a school teacher, who understands and sympathizes with him, runs throughout the picture. It is top-notch juvenile entertainment and provides a thrill of emotional suspense for every adult mind. A Fatty Arbuckle comedy and Betty Boop cartoon completes the program, with another free ice cream dome matinee for the kiddies at 3 p.m. Saturday.

Edmund Lowe and Nancy Carroll in "I Love That Man," drama of a woman's devotion to a man she knows is a good deal less than trustworthy, is the bargain night's feature attraction next Wednesday and Thursday. Lowe and Miss Carroll are a strange pair, bound together by a curious emotional tie. Lowe is a confidence man who finds no greater pleasure in life than the spending of other people's money. Miss Carroll is a girl of good background who knows, the moment she meets Lowe, that he is the one and only man in the world she can love. The picture reaches a breathless climax in the events that follow.

Improvements in the state parks of Michigan that had not been anticipated as possible for many years are now being accomplished through the Emergency Conservation Work program, according to P. J. Hoffmaster, superintendent of the Parks Division of the Department of Conservation.

Three C. C. Camps, each with a full quota of 200 men are engaged exclusively in work in three state parks and 18 other parks are receiving attention from crews assigned from various forestry camps.

A crew of 200 men are at work in the Mackinac Island State Park building roads and trails, clearing out underbrush and other fire hazards and making accessible and attractive the numerous natural features of the island.

General park improvement work is being carried on at the Walter J. Hayes State Park near Omsted. Numerous roads and trails are being constructed. Foot bridges are being built over the channel connecting Round and Wampler's Lakes. New structures include a group camp building, general service building and a pavilion.

For some time it has been planned to make a section of the park an outdoor laboratory for the study of Michigan trees and plants. Through labor furnished through the C. C. C. trees and shrubs will be planted with the intent of placing in the park as many varieties as possible of all trees growing in Southern Michigan.

The Ludington State Park to which a road has just been completed from the city of Ludington is being rapidly developed through the C. C. C. camp assigned to that area. Trails through the 800 acres of heavily wooded area are opening up some of the scenery. The park has about 300 acres of virgin oaks, maples, oaks and white oaks and red pines. Roads and trails are also being built through the entire 3,000 acre area of park engaged in the control of blister rust. A new concrete highway from Ludington to the Big Sable River in the park was formally opened Sept. 3. The U. S. Bureau of Roads has now authorized the construction of a bridge across the river at that point and continuance of the concrete for a half mile further into the park itself.

waive 50 per cent of its deposits and receive the other 50 per cent upon the opening of the new bank, had no essential changes from the original resolution passed at a special of the board last July.

STATE CONTROL BODY TO MOVE FOR CHEAP BEER

Consumption Increases During Summer; Yields \$729,000 in Tax Receipts to State.

Taxes on beer consumption in Michigan yielded the sum of \$729,000 during the summer of 1933, according to a report of the state liquor commission released Monday.

With figures showing a steady increase in the consumption of beer throughout the summer, the commission launched a study of manufacturing costs with a view toward reducing the price of the beverage to the consumer. The executive committee of the commission Friday directed William J. Nagel, managing director, to investigate costs and report to the commission by Sept. 22.

"Beer is too expensive in Michigan," Frank A. Picard, chairman of the commission said, in suggesting the study. "Breweries are making too much profit. The commission may have to regulate the manufacturing price."

The revenue figures show that stamp tax sales all of which revenue goes to the state, have increased from \$150,000 in May to \$200,000 in August. For the first seven days in September the revenue was \$45,000 from this source.

In June, the revenue amounted to \$160,000 and in July \$174,000.

Total revenue from beer is now \$1,778,000, including \$1,049,000 from licenses. License sales have declined from \$681,700 in May to \$58,000 in August.

The bulk of the license revenue will be returned to local political units where licenses are located. The executive committee last week started returning the revenue for the first time, approving a number of vouchers for municipalities.

The committee adopted a new regulation prohibiting warehousemen from stamping beer outside their own congressional districts. Reports claimed that some of them were making big profits on stamping beer containers far removed from their place of business.

No Credit Due to Burkett and Boyle, Says Congressman

Holland Almost an Island Two-thirds of the total area of Holland is surrounded by the sea.

In a statement made to the Record relative to the current argument in county newspapers as to whom belongs the credit for including small farms in the list of those eligible to federal loans, Congressman George Foulkes of Harford, not only denies the claims of M. L. Burkett, federal conciliator, and Jesse G. Boyle, secretary of the local district, who made a trip to Washington and St. Paul recently, but says he knew small farms were included six weeks prior to the time these "junks" were made.

As a result of the trips made by Mr. Burkett and Mr. Boyle, wide publicity has been given their reported successes in getting governmental agencies to bring farms of 40 acres under the beneficial provisions of the U. S. government Farm Credit Agency.

Mr. Foulkes states emphatically that this is not true; that Mr. Burkett is a conciliator and has nothing whatever to do with federal farm loans; that Mr. Boyle is secretary of a local organization only and has no connection with the Farm Credit Agency.

The journeys of Burkett and Boyle were financed by an appropriation made by the county board.

PROPOSE RFC FINANCE FOR STATE SCHOOLS

State Supt. Paul Voelker Proposes that R.F.C. Loan \$12,000,000 to Welfare, Release Funds for Schools.

A new proposal for bringing financial relief to Michigan schools is under consideration by the legislative council following a meeting of Dr. Paul F. Voelker with a subcommittee of the legislature.

Following Dr. Voelker's statement that unless financial assistance is provided soon many schools will be unable to operate on a normal schedule, it was suggested that if the Reconstruction Finance Corporation would finance the state's welfare needs, \$12,000,000 appropriated for that purpose from the sales tax revenue could be advanced to schools.

This plan is now referred to the legislative council appointed at the last session of the legislature to consider governmental problems and to make recommendations for future legislation.

Another proposal suggested by the sub-committee would make an immediate appropriation for schools by the State Administrative Board from sales tax proceeds. Dr. Voelker states that definite assurance of the appropriation of the \$15,000,000 would enable the schools to operate for an approximately normal school year.

Since the sum of \$31,700,000 of the sales tax revenues has been appropriated for other purposes, sharp cuts would have to be made in governmental budgets to provide sums sufficient for the schools even though the sales tax yield will probably exceed the \$31,000,000.

New Executive Appointed

Lindley H. Dennis has been appointed Assistant Superintendent of Public Instruction in charge of secondary schools and assistant to the director of vocational education, it was recently announced by Paul F. Voelker, state superintendent of public instruction. He took over his duties, Sept. 1.

Mr. Dennis, a nationally known vocational educator, comes to Michigan from Pennsylvania with the approval of the Federal Board of Vocational Education. He has served for eight years as deputy superintendent of public instruction and director of vocational education in that state and has been a member of the department of public instruction for 21 years. He has a long record, as well, as a successful teacher and administrator in the public schools. He is a past president of the National Association of State Directors of Vocational Education, a past president of the Department of Vocational Education and Practical Arts of the National Education Association, and he has been a member of the Pennsylvania Rural Education Commission. He recently served on the committee on elementary education of the National Near East Relief, the Advisory Committee of the American Year Book Corporation representing the American Vocational Association, the Board of Directors of the Pennsylvania Council of Agricultural Associations, and the State Unemployment Committee.

His duties in the department will be divided between the supervision of secondary schools and the direction of vocational education. The appointment of Mr. Dennis completes the personnel of the department. The three administrative divisions are headed by assistant superintendents. The other two are Paul Thompson, in charge of elementary education, and D. D. Henry in charge of personnel, public relations and higher education.

The 14" RULE —a measure of safety for your CHILD'S EYES

IMPROPER lighting frequently causes the child to bring her book much closer to her eyes than the normal reading distance—which is 14 inches.

If this is allowed to continue it may lead to defective vision, and so we suggest that you observe the kind of light your child is reading under. Only the very best is good enough because, remember, about 3/4 of all the knowledge she will acquire through life will come through her eyes.

You can help your child make progress in her studies and reduce the possibility of future eye trouble by paying attention to proper home lighting NOW. We will be only too glad to consult with you.

**Attend Funeral of Murdered Cousin at Hudson, Mich.**

Miss Ruth Shriver left yesterday for her home at Hudson, Mich., to attend the funeral of her cousin, J. L. Parker, young Hudson business man, who was murdered by a bandit on a golf course at Toledo, O., Tuesday.

Miss Shriver was accompanied by Mrs. A. B. Muir, who is visiting at the home of her parents, Mr. and Mrs. G. S. Russell of Adrian.

The story of the murder of Parker is described in press reports as follows:

The bullet that killed Parker entered his left eye and pierced the top of his head. He died an hour later in Mercy hospital.

The shot was fired after Parker had engaged the bandit in a scuffle and had caused him to lose his pistol. The youth succeeded in scrambling loose from Parker's grip and recovered the weapon just as Parker crouched to spring on him again. He fired at a distance of less than five feet.

The fifteenth green is farthest from the club house and view of it is almost blocked by the woods.

Parker and other members of a sixsome were grouped around the tee when they heard the command "Hands up."

All put their hands above their heads and lined up before the masked man with the gun. The second man, who wore no mask, remained back and showed no weapon.

While the gunmen had his hand in Parker's pocket, the victim dropped his hands and knocked him down with a right to the jaw. Before the bandit had time to fire or get up, Parker jumped on him and attempted to hold him to the ground.

The other five stood with their hands in the air during the few seconds that the fight lasted.

In the course of the first scuffle on the ground, the bandit dropped the gun but Parker's efforts to reach him farther out of reach of it failed.

After the fatal shot had been fired and the gunman had left the field, the others recovered themselves and ran into the woods after the number of the car. Two shots kept them back, however, until the car was out of sight.
