

Baby Election Ends Next Monday Night

It Won't Be Long Now--Nov. 6 Final Four Days Left Before Judges Make Final Vote Count and Award Prizes

Now Here's the Proposition

JOBS, JOBS, JOBS
It ain't the constitution, it ain't the basic law
It ain't the bankers or the Demon Rum
It ain't the greasy grafters always holding out their paw
That have put the blooming country on the bum.
But it's jobs, jobs, jobs, won't they never get enough of them?
It is serving pie to workers that deserve
It's the mobs, mobs, mobs and the everlasting bluff of them
Whose only claim to office is their nerve.
It is turning out Republicans to put the Democ in
And then switching round and turning Demos out.
It's the everlasting pie line from the center to the sky line
And this kiddish rule of turn and turn about.
It is undermining service, it is shattering morale
By this everlasting swapping places round
It's rewarding unlearned heelers takes the wind out of our sail
And runs the good old frigate on the ground.
It is jobs, jobs, jobs, don't we ever hear the end of them?
Till a fellow fairly stops and stands aghast.
It's jobs, jobs, jobs for the bosses or a friend of them,
Till we're scraping at the barrel end at last.

INVITES PUBLIC TO CIVIC MEET; DARE 'EM TO COME

"We cordially invite the citizens of Buchanan to come to the Civic Association next Monday evening and elect a new set of officers," stated a member of that organization yesterday. "What's more, we dare 'em to come."
"We've been trying to conduct an honest-to-God civic organization in Buchanan for the past year, providing an organization that can cope with problems as they come in an organized way and what have we had?"

"A handful making damn fools of themselves by working overtime for no pay in the public interest with a grand stand full of knockers. We admit we have made mistakes. We admit there's men in this town that could run a civic organization better than we have. And now we're giving them a chance to show their heads. Come out and get into the game."
"They can't truthfully say we have done nothing. We put on a Centennial celebration that drew the biggest crowd in the town's history; we brought 30,000 people into this town in that three days, we did everything but stake 'em their spending money. We spent \$1078 putting on the show, we took in \$1130.20. In other words, we handled it in a businesslike way and we more than broke even, and cleaned up a deficit on the Blossom parade float of last spring."

"We paved the way for the check-cashing service at the Farmers' Credit Union. We helped in getting right of way for M-174; we got the Bakertown cutoff to old M-60 graded and widened. We organized this town for the NRA. We brought outside speakers to inform the merchants about sales tax. We cooperated with the city commission in encouraging work projects for the unemployed. We did several other things. That's something."
"Now nobody is going to deny that we need a civic organization of some kind. That's what we are going to try to do next Monday evening—perpetuate this organization electing the best man in town for president and the officials to go with him. The old officials, Mr. Schram, and so forth did fine service, but they say that they have worked as long as they feel it to be good policy and now they're clearing the way for replacements. If you know any man or set of men that can run this association, get out and tell us about it. Don't talk on the street corners about it. Come on down and tell us our faces. We don't invite you—we dare you!"

Fall Festival At Schools Will Be Opened Today

The Fall Festival under the auspices of the Buchanan Parent-Teacher Association for the benefit of the milk fund will open at 3 p. m. today at the high school and Dewey avenue school buildings and will be continued tomorrow afternoon, concluding with a banquet and entertainment in the evening.
A few banquet tickets are still on sale at the Wisner Pharmacy for 35c but anyone who plans to attend must buy before Friday noon. The entertainment at the banquet will be furnished by the Civic Association and will include an exhibition by the South Bend magician, Foxwell.
The program will be as follows:
Thursday, Nov. 2
3 p. m. to 6 p. m. school exhibits in various rooms of the high school and Dewey avenue school.
Friday, Nov. 3
3 p. m. to 5:30 p. m. School exhibits at Dewey Avenue school.
3 p. m. to 6 p. m. School exhibits at high school.
6:15 p. m. Banquet in high school gym.
8:15 p. m. Plays in high school auditorium.

High Grade Oil Station Bandits Caught at St. Louis

Herman Reinke, 19-year-old attendant at the High Grade oil station, figured in press reports Tuesday when it became known that the two bandits which had held up the station on the evening of Oct. 20, had been captured at Maplewood, Mo., a suburb of St. Louis, and that one of them carried a bullet wound in the leg received when Reinke shot after them as they were running across the Michigan Central tracks after the robbery. The men gave the names of Edward Pastryk, 22, and Chester Bak, both of Brody, Mich., and confessed to four other hold-ups in this state. In Pastryk's pocket when captured was a newspaper clipping describing the Buchanan holdup. Reinke did not know at the time that any of the shots took effect. The bandits took \$97 from his money belt, and escaped around the end of a passenger train which was standing at the station.

Herman Reinke Is Injured in Auto Accident

Herman Reinke was hurt yesterday when he lost control of his car on M-60 near the Ballard farm leaving the pavement on the left and sideswiping a tree. Reinke was en route to Dowagiac on a business errand for the High Grade Oil Co., and had picked up Royce Rose and Harris Moore en route. The accident happened when he started around a load of corn fodder and was confronted by a car bearing down at a high rate of speed from the west. He threw on his brakes, losing control and leaving the pavement. The car climbed the bank opposite the Ballard home, the side striking a tree, which crashed in the wall and window. Reinke received cuts on his body and left arm, a bruised chest and a slight head concussion. His companions were not hurt.

Legion-High School Will Co-operate in Armistice Day Plans

Plans have been practically completed by the American Legion for an all-day observance of Armistice Day Saturday, Nov. 11. The high school will co-operate in the program. The exercises will open at 9:30 a. m., with a morning address by Rev. H. W. Staver from the porch of the Carl Hamilton home at Oak and Front. The high school band will play. There will be a supper at the Legion hall at 6 p. m. for members of the Auxiliary and all ex-service men, whether members of the Legion or not. H. M. McKinnon will be the toastmaster and Arthur Knoblauch will speak following the supper.

VOTE COUNT MONDAY NIGHT TO TELL STORY; RACE IN HIGH ON HOME STRETCH

No recent vote standings are available for publication this week. The Baby Election went into the Sealed Ballot Box one week ago, and since that time we have been just as much "in the dark" regarding the progress of the various candidates as everybody else.

Next week, however, it will be a different story. By that time the Election will be over, the prizes awarded, and you will be able to read the complete and final vote, and know just exactly how the race was decided.

Don't forget—the Election ENDS next Monday night, Nov. 6 at 9 o'clock. And don't neglect to vote for your favorite baby before that time.

To refresh your memory, we print below the list of candidates and their published votes, as they appeared in last week's issue. These votes are NOT up to date; no count has been, or could be made, after the Sealed Ballot Box became effective last week Thursday.

Shall Buchanan Borrow Money to Construct Sewers

Last week the voters of Owosso, Mich., gave a two-thirds majority to a proposal to issue bonds for the construction of a \$132,000 sewage disposal plant, the bonds to be turned over to the federal government as collateral for cash advance.

The city of Grandville, Mich., has applied for a loan of \$60,000 for the construction of a sewage disposal plant. The city of Lansing is awaiting approval on its application for \$271,000 for a street and sewer improvement program. The city of Jackson has filed an application for federal aid to finance the construction of a \$918,000 sewage disposal plant.

All of which leads up to the question of the day: What is Buchanan going to do about it?

In our daily private and public affairs we are confronted with apparent opportunities, choices, of whose merit we are not certain, but which we consider at least worth looking into. The opportunity for sewer construction in Buchanan under the terms of the Public Works Administration offer may or may not represent an opportunity which the city should take advantage of, but at least it seems worth looking into, for the following reasons:

1. The completion of the city sewer system comes under the heading of necessary construction, if for no other reason that it is required by the state sanitary law and the state is in a position to enforce it.
2. Granting that it must be done sometime, the present offer is doubtless the best we will ever have.
3. The fact that we have a ready-made bond market offered us in the form of the Public Works Administration loan plan would relieve us of the expense of marketing the bonds, which is usually a heavy charge in the ordinary process of municipal financing.
4. In any event, we are going to help pay for the construction of the sewer and sewage disposal plants in the cities of Lansing, Jackson, Owosso and in the hundreds of

Engagement of Janet Thompson Announced at Dinner

The home of Mr. and Mrs. H. B. Thompson, 305 W. Chicago Street, was the scene of a very delightful dinner party Thursday evening, on the occasion of the announcement of the engagement of their daughter, Miss Janet Thompson, to George H. Poulson, 1439 Sunny-side Ave., South Bend. The wedding will take place Christmas day. Miss Thompson is instructor in home economics at the local high school and prominent among the young people of the city. She represented Buchanan at the Court of Honor of the 1928 Blossom Queen. She was graduated from Buchanan high school that year and from Milwaukee-Downer College, Milwaukee, in 1931.

Mr. Poulson was reared in Buchanan, having made his home during his boyhood with Mr. and Mrs. F. C. Hathaway. He was graduated from the local high school and received a business education in the South Bend Business College and in the commercial department of the University of Michigan. He is engaged in the insurance business in South Bend.

The guests were served at two long tables beautifully arranged, one set with black glass and the other with green and both decorated with winter berries. A poem was handed about at the tables, each guest reading one line, until Miss Thompson read the last, which contained the announcement.

Guests were the following: Mrs. Ray D. Semans, South Bend; Miss Betty Eaglesfield, Miss Calista Kingston and Miss Katherine Biron, all of Niles; Miss Elsie Lempe, St. Joseph; Miss Margaret Whitman, Mrs. Arthur Knoblauch, Miss Ruth Shriver, Mrs. Harold Hanlin, Miss Helen Hanlin, Miss Johanna Desenberg, Miss Jeanne Roti, Miss Dorothy Portz all of Buchanan.

Missionary From India to Speak Here November 8

Miss Margaret Morgan of India, now at home on furlough, will speak in the Methodist church on Wednesday evening, Nov. 8, at 7:30 p. m. A cordial invitation is extended to all to come and hear her tell about her work in India.

BUCHANAN HAS BANNER SYSTEM HANDLING RELIEF

County Hands Bouquet to Local Officials Before Taking Over Administration of Welfare Work.

Buchanan is one of the banner towns of Michigan in its success in handling community relief, according to Mrs. Parsal, chairman of the Berrien County Emergency Relief Commission, who spoke before a meeting of local merchants Friday evening.

Mrs. Parsal stated that the system which had been instituted by William Richards during his service as poor commissioner here and carried on efficiently by H. G. Squier, present poor commissioner, had won wide commendation by the commission. Similar reports have been received from the state authorities, according to Mayor Merson.

The meeting which was presided over by Mrs. Parsal at the city hall was called for the purpose of securing agreement by Buchanan merchants on a uniform price for relief supplies, and was preliminary to the action of the county relief commission in taking direct charge of local relief Nov. 1.

The following committee was selected from among the merchants present to act as a price fixing agency: W. W. Treat, Dan Merson, Robert Reamer, M. L. Sands, Lyle Burrus. This committee met Monday evening and agreed on price recommendations which were sent to the county relief commission for approval.

According to the system which is being installed by the county, each "client" as the recipient of relief is to be called is given a purchase order on which is printed a list of merchandise from which he may select. On the order is also indicated the amount which he may spend in a certain period.

This order is left with the merchant and the client buys what he wants or until his allowance is exhausted. At the end of each two weeks the merchants turn the order into the county relief commission and gets his money. Merchants expressed themselves at the meeting as being satisfied with the arrangement, stating that this would be better than waiting five months as they were obliged to do last spring.

The following list of merchandise from which the clients of the relief list may buy is indicated on the order:

Cereals, Oatmeal, corn meal, hominy, rice, barley, macaroni, spaghetti, wheat grits, flour.

Bread, White, rye, whole wheat. Sugar, Granulated, brown, molasses.

Milk, Fresh, evaporated. Fresh fruit, Apples.

Dried Fruits, Prunes, apricots, raisins.

Vegetables, Peas, spinach, corn, green string beans, beets, tomatoes, beans.

Meats, Pork (except loin or ham), stewing or plate beef, chuck beef, chunk bacon, beef or pork liver, lamb stew, soup meat, soup bone, beef kidney, beef hearts.

Household supplies, Toilet soap, laundry soap, blueing, starch, toilet paper, cleaning powder, lamp chimneys, matches, kerosene, stove wicks, broom, scrub brush.

Salt Fish. Wet, smoked or dried mackerel.

Miscellaneous, Peanut butter, cocoa, tea, coffee, salt, pepper, garlic, yeast, baking powder, baking soda, spices, flavoring, vinegar, dry mustard.

Fats, Butter, margarine, lard, cooking oil.

TITLE OF "PERSONALITY BABY," \$100 CHECK AWAITS WINNING CANDIDATE

Closeness of Race Right up to Final Bell Makes Outcome Uncertain; Votes Piled up During Last Four Days Likely to be Deciding Factor.

Sponsors of tots entered in the Personality Babies Election today are lining up for the final dash. Just four thrilling days remain before the curtain goes down on this interesting contest. Nine o'clock Monday night, Nov. 6th, is the END. And sponsors are calling on all the reserved pep and power they possess in order to make a winning finish for their favorites.

Who will win the coveted title of the Buchanan community's "Most Attractive Baby," and the \$100 cash award? Who will win the remaining cash prizes? Will these winners be some of the several candidates who, to date, have shown the greatest voting strength? Or will some entirely new champion arise to challenge and pass the members of the so-called "first division?"

These are some of the questions on the lips of hundreds of people as the Election draws to a close and the final decision looms. And the answer lies in the Sealed Ballot Box, not to be given up until the committee of judges break it open and canvass its contents next Monday night.

Certain it is, however, that the race is too close at present to make any prediction safe. Not only are nearly a

dozen of the little candidates so closely bunched that a mere superscription or two might easily prove the deciding factor—but there is another equally large number of tots just a little further down the ladder, one of whom might easily be boosted past the entire field into the winning position.

Regardless of who wins next Monday night—don't be surprised. Don't be surprised if the baby farthest down in the voting last week is highest in the list when the ballots are counted next Monday. It may happen—It easily could happen—the Election probably will be decided by the effort put forth in behalf of the various babies since the Sealed Ballot Box went into effect, and particularly by the effort made during these next four days.

Last Minute Suggestions
The Baby Election will close promptly at nine o'clock next Monday night. Don't be late.

Don't wait until the last minute to prepare your deposits for the ballot box. Bring all these preparations up to date on Monday morning; this will leave you the entire last day free to go out and do additional work, and with only that day's stubs to prepare for the box when you have completed your canvassing.

Be sure to write the word "extension" on the bottom of all stubs where the subscription is an extension. This responsibility is yours; if not so marked all subscriptions will be treated as straight t subscriptions by the judges.

Watch your clubs. During this last period, 10 one-year subscriptions or equivalent are required to make up a club. The bonus on each club of 10 subscription years is 45,000 votes entirely additional, of course, to the regular votes.

Thus, counting both regular and bonus votes, a club of 10 one-year subscriptions would mean 95,000 votes for the candidate. Don't be satisfied with only one of these clubs, get several.

Remember, too, that in committing these clubs, a two-year subscription counts the same as two one-year subscriptions, etc. Thus, a six-year subscription and a four-year subscription would make up a club, because the total of the two would come to 10 years. Such a club would count a total of 150,000 votes. Just a few of these would work wonders for any baby.

Do not put personal checks in the ballot box. They will not be accepted. Accompany your subscription stubs with cash, certified checks, or money orders. Be sure to write your baby's name on the outside of each envelope.

Details of the Final Count
The judges will take possession of the Ballot Box as soon as possible after 9 p. m. Monday, Nov. 6, and will transport it to the Buchanan State Bank building, where they will proceed to make the final count.

No spectators will be allowed in the judges' chamber and no telephone calls will be answered while the count is in progress.

While the count necessarily will require some time, it is estimated that the results will be available at least Monday night, and at the earliest possible moment a bulletin giving the final standings will be

posted on the door of the bank. The final and complete results of the count also will be published in the next issue of the Record.

Owing to the lateness of the hour and numerous details to be taken care of after the actual vote totals have been announced, no attempt will be made to award the prizes Monday night.

ALL PRIZE CHECKS COVERING CASH AWARDS WILL BE MAILED OUT TUESDAY MORNING. The silver loving cup will be turned over to the engravers for the engraving of the winning baby's name, and inscription, at the same time, and will be delivered as soon as the engraving is completed.

Any further information relative to the Sealed Ballot Box, the final count, and awarding of the prizes may be obtained at the Record office. And Now—
Good luck to all, and may the best campaigner win!

Mrs. Ingleright, Former Berrien Co. Resident, Dies

Sophia Sidells was born in Pennsylvania, July 9, 1848, and departed from this life at her home near Bendon, October 16, 1933, at the age of 85 years, 3 months and seven days.

She was united in marriage to Henry Ingleright in Berrien County, where they made their home until moving to Grand Traverse county, 31 years ago. Mr. Ingleright preceded her in death five years ago.

To this union were born two daughters, Elsie, who has preceded her in death and Myra, with whom she made her home.

She leaves to mourn, one daughter, Mrs. Myra Marsh and four grandchildren, Harold, Robert, Fred and Dorothy Marsh; four great grandchildren and a host of friends.

Funeral services were held at the home Thursday afternoon, Oct. 19 at 2:30, conducted by Elder Alvin Ellis of South Boardman, pastor of the L. D. S. church.

Revival Meet to Open Sun. at Portage Prairie Evan Church

"Old time conviction for sin, heartfelt conversion and purity of heart and life" will be stressed at the revival meetings to open Sunday, Nov. 5 at the local Evangelical church by Rev. H. A. Frye pastor of the church.

The services will open Sunday at 10 a. m. and will continue for at least three weeks with services every evening at 7:30 except Saturday.

Miss Louise Lear, the girl evangelist of Robinson, Pa., is expected to be present the first two weeks of service.
Preparatory prayer meetings are being held at the church this week starting at 7:30 p. m. on Tuesday, Wednesday, Thursday and Friday.

WHO WILL WEAR THE CROWN?

It won't be long now! In just four days, the Personality Babies Election will end, and some attractive little tot will be chosen as this community's "Personality Baby." With this distinctive honor will go a beautiful engraved silver loving cup and \$100.00 in cash.

WHO WILL BE THE WINNER? What baby will accumulate the largest total of votes and thus become the champion in this interesting Election? Time alone will tell—and with the race so close, effort put forth during the next four days undoubtedly will be the deciding factor.

45,000 EXTRA VOTES

DETAILS OF THE FINAL COUNT

The Baby Election will END at 9 p. m. Monday, Nov. 6. There will be NO extension of time. BE SURE to have ALL your subscriptions, as well as your certified statement of previous votes, in the ballot box by that hour.

BE SURE that your baby's name is written plainly on each envelope you have put in the box. BE SURE that you have written the word "extension" on all extension subscription stubs you have deposited in the ballot box.

Immediately after the closing hour, the committee of judges will take charge of the ballot box for the purpose of making the final count.

The final count will be made in the director's room of the Buchanan State Bank, a central location well equipped with computation equipment.

No spectators will be allowed in the judges chamber and no telephone calls will be answered while the count is in progress.

However, as soon as the information is available, a bulletin will be posted on the door of the bank building, so that those interested need not wait a minute longer than absolutely necessary to learn final results.

Owing to lateness of the hour, no attempt will be made to deliver prizes to winners Monday night. Instead, checks will be MAILED out Tuesday forenoon covering all cash prizes and commissions, and the silver loving cup will be turned over to the engravers, for engraving of a suitable inscription and subsequent delivery later in the week.

will be given on every "club" of 10 one-year subscriptions or equivalent, in the ballot box. In computing this bonus, a two-year subscription counts as two one-year subscriptions, a three-year subscription counts as three one-year subscriptions, etc.

This extra 45,000 bonus is ENTIRELY ADDITIONAL to the regular votes, as shown by the following schedules:

1 Year	5,000 Votes
2 Years	12,000 Votes
3 Years	22,000 Votes
4 Years	35,000 Votes
5 Years	50,000 Votes
6 Years	70,000 Votes

NOTE: Every "club" of 10 one-year subscriptions in the ballot box, figuring both bonus and regular votes, will count a total of

95,000 Votes

9:00 P.M. Monday, Nov. 6, is the End!

She started from Winnipeg in a Northwestern Airways plane piloted by her son. They started in a snow storm which increased in severity as they reached North Dakota, so that Mrs. Pears left the plane at Fargo, N. D., and went to Minneapolis by bus. There she took another Northwestern Airways plane, a Ford tri-motored ship, for the remainder of the trip to Chicago. The weather was cloudy and the ship rode above the clouds at an altitude of 4,500 feet. The earth was out of sight the entire distance, and the clouds below had the appearance of an ocean. Mrs. Pears stated that she enjoyed the flight throughout.

THE JOB WENT TO SOMEONE WHO HAD A TELEPHONE.

THIS young lady visited the employment office, day after weary day, in vain.

Eventually a job opened. It had to be filled immediately, but she wasn't there then. So the employment manager picked from his list of applicants one who had a telephone, and could be summoned instantly.

Other things being equal, the person who has a telephone and can be reached quickly and easily, is quite likely to be the first called back to work.

Order telephone service today from the telephone business office. Installation will be made promptly.

BUCHANAN FACES WORTHY FOE IN STOVE CITY 11

Comparative Scores Indicate Win by Class B Leaders, Who Have Lost No Games This Season.

Faced with one of the toughest games on the schedule this Saturday at Dowagiac, the Buchanan Bucks are drilling hard to eliminate the faults and weaknesses shown in the St. Hedwige upset of 20 to 6.

Last Saturday's game at South Bend proved one thing at least: that a Buchanan team can really be game even when hopelessly beaten.

The Maroon and White gridlers didn't stop fighting until the 12th man on the St. Hedwige team, the referee, blew the final whistle.

A factor not to be overlooked in Saturday's encounter was the method of play practiced by the St. Hedwige Lions. They had a man in motion in the backfield before the play started. This method of offensive play is decidedly illegal and why it was permitted is not clear. Also the South Bend eleven employed a nine man line on the offense, the wings being closer to the line of scrimmage than is allowed.

As a result, the Buchanan gridlers were trounced 20 to 6, even though the Maroon clad eleven played a cleaner, snappier brand of football than did St. Hedwige. Buchanan scored the first touchdown, but the superior weight of the Lions proved too much, coupled with the facts already mentioned and St. Hedwige scored in each remaining period.

This Saturday's game at Dowagiac will be the headliner in southwestern Michigan football as both teams are leaders in their classes and both are evenly matched.

Having defeated Niles 20 to 0, the Dowagiac eleven will prove somewhat tougher than the Niles Cardinals, who lost to Buchanan, 13 to 3. The Dowagiac team averages about the same as Niles in weight, being in the neighborhood of 150 to 160 pounds to the man, as compared with 145 for the Bucks. This factor, usually considered important, did not seem to add Niles in combating the fury of the Maroon attack.

If Buchanan wins this game with Dowagiac, the locals will be the leading contenders for the Class C football championship of lower Michigan.

Captain "Curly" Bradfield stated that this encounter would be the closest and hardest fought game played this year.

Given proper support, this team, representing Buchanan and Buchanan high school will win this Class C title. The team will be fighting their hardest, and the proper cheering and support will make the battle a lot easier for the Maroon and White gridlers. It is up to the citizens of Buchanan and the students of Buchanan high school to see that this team gets their whole-hearted support, and the team will do the rest.

Saturday's game starts at 2 p. m. and will be played on the Dowagiac high school field, located on M-40, just inside the city limits.

Who's Who

Thelma Heckathorn was born in Dayton, Nov. 4, 1918, and has always resided in that community. Until this year she has always attended the Dayton school, but this fall she entered Buchanan high school.

Algebra is Thelma's favorite subject. She is also interested in sports and plays soccer on the freshman team. She hopes to become a future member of the G. A. A.

Thelma has blond hair and blue eyes. She is well liked by all who know her.

Herschel Gross will be fourteen the ninth of April. He has always lived in the city of Buchanan and attended the public schools. This fall he enrolled as a freshman in high school.

Although Herschel is a very studious person in all his subjects, he particularly likes Latin. He has gone out for debating this year and probably will, in the future, make an excellent debater.

School Slants

Have you noticed? Miss Thompson's new ring? George Spatta in his blue work shirt? The striped sweaters around the school?

The alumni at social hour? Vivian Mogford's hair cut? Benny Franklin's growing mustache?

Any new romance? That Bob Upham has trained his hair to stay down? Out "back on Day's Ave.?" Tom Quirk's fluent vocabulary? The girls all wearing new jackets?

Ole Man Winter Has G. A. A. Soccer Squad on Defensive

"B-r-r, I'm nearly frozen!" That was the exclamation of the chilled and goose pimpled girls who attempted to laugh at old man winter as they played soccer.

But old man winter laughed last for the players donned hats, coats, gloves and, in fact, every "what not" they could find to shut out the wily wind.

Buchanan's junior girls started out with the thought, "Who's afraid of the big bad seniors?" but lost all hopes at the fourth quarter, for the score remained 1-0 in the seniors' favor.

Derricks Needed For Victims of Stunts

Wanted—elevators for the transportation of suffering lasses who are limping and wailing from stiffness acquired in gym classes Tuesday. After turning some claim they will never be the same.

With weak knees and stiff legs they condemned stunts forever (the rest of the week, anyway.) So if you happen upon one of these fair damsels in distress, such as falling flat, or unable to budge another step, you'll know she's a victim of stunts.

Stationary Ghosts

Ghosts reigned in the realm of Liberty Heights last week. White objects belled and vanished, and the dry leaves crackled when the whistling wind whisked them.

Jack Frost, frightened to death, painted every thing whiter than usual, when he came to do his duty and beheld the weird movements of those ghostly things.

Passers-by glanced behind themselves often for fear they might see the forms running after them, but they took a deep sigh when they saw they were stationary.

The dawn revealed that the flower lovers to protect their late blossoms from the frost had placed white sheets over them.

Ghosts will probably reign every night, so think twice before you run.

On Friday a little old man in a derby hat and with a red nose stamped into the class rooms in the company of a bearded man, and asked if there was anybody present who would care to buy a ticket to the Halloween party given at the schoolhouse Saturday night. Urging again and again that the students shouldn't crowd him, he stated the price of the tickets, 10c. Upon receiving no demands he stormed noisily out, headed for another room.

Did you know that Everett Deeds lost his shoes and could not find them for a month?

A fatal "E" was nearly administered Friday when Miss Hanlin discovered newspapers peeking from waste baskets and dropped against seats, well in view of the far sighted students writing their weekly news essays.

Class Activities

First Grade
The students of the first grade are working on farm projects. These are made from paper cut-outs, and they will be correlated with art in free hand work and drawing. Having made a story from language, the children will use it in their reading. The pupils will also learn the names of the different farm animals and learn to recognize the words.

The pupils of the grades, both at Central and Dewey Avenue buildings, as part of their good citizenship work, are keeping the paper picked up on the school grounds. Their games are played at the rear of the buildings so that the front yards may remain in good condition. This adds much to the appearance of the grounds and helps to give the pupils pride regarding the appearance of their school grounds, which every pupil should have. This is just one part of the good citizenship work carried on in the grades.

Fifth Grade
We studied the Black-Eyed Susan and hedge ball for this week's nature study lesson.

We have completed the large free hand map of South America, several children taking part in the drawing and coloring.

English 9 and 10
Mastery tests over punctuation and recognition of subjects of sentences have been disturbing the freshmen lately. Joyce Bonner, Marie Montgomery, Robert Neal, Eugene Kelly and Robert Squier scored 100 on these.

Themes based on Saturday Evening Post covers were part of the freshmen English work. The 10th grade English classes have been finding out about narration in their "Composition and Rhetoric" books. Adverbial and adjective phrases and clauses are what they have been working on in their exercise books.

Journalism
The students of the journalism

class have been observing human interest stories, paying special attention to the different kinds of beginnings used. They have had a style over certain sections of the text sheet in their book.

Basketball
About sixty-five students reported for junior high basketball. Some of the freshmen are still out for football and will not report until the season is over. The squad is practicing Mondays and Wednesdays after school. Coach Miller is drilling them on fundamentals such as passing, pivoting and shooting baskets.

Coach Miller believes he will have a good team this year, as students in all three grades show promise of becoming fast players. Many of the eighth grade students and freshmen will make good material, while a few seventh graders probably will make the first team. Boys who play in the games scheduled are required to be passing in all subjects.

Music Dept.
The past week has seen the band and orchestra period devoted entirely to a dance orchestra, which is practicing for the high school masquerade party Saturday night. The orchestra is composed of a piano, a drum, two violins, two saxophones, a banjo, trumpet and a vocalist. The orchestra, under the direction of Mr. Robinson, has been making excellent progress towards furnishing danceable music for social affairs at the school.

The glee clubs have been practicing many classical numbers and are doing good work in leading music by sight. Although the glee clubs are well into the season's work, a short time each day is devoted to the development of the vocal cords and in this way each person develops a better quality of tone.

Science
The physics group is working on simple machines and the laws governing these. Some of these machines are as follows: the lever, pulley, screw and others.

In the chemistry class and laboratory work pertaining to acids is being taken up. In the laboratory the work is all on the properties of hydrochloric acid, while in the class the properties of all acids are being studied.

Tests by the biology division are being carried out to see how temperature, light, moisture, and fertilizer affect plant growth. Mary Jane Heiermann brought in two half-grown rabbits for experiments. These experiments consist of how different foods affect the rabbits' growth. They are being carried out by Aldis Banke.

Paul brought an exceptional exhibit of corn smut to the laboratory.

Commercial Classes
Working sheets, balance sheets, and profit and loss statements are the studies of the bookkeeping class. They are also learning how to close a ledger. Francis Hamilton, Marjorie Hamilton and Raymond Marsh received high marks in the test given last week.

Short-hand students are learning the reversing principle of the rules for expressing the letter r. Also, they are learning frequent prefixes and suffixes, and more rules for phrasing. George Zachman, William Zachman, Jean Russell, Maxine Myers, Raymond Marsh, Lucille Lightfoot, Mary Donley, Martha Dellinger and Mary Louise Beardsley received high marks in the test given last week.

Beginning typing classes are having "warming up" drills at the beginning of the class hour and then going on with the class work, which for this week consists of special characters on the keyboard. They are reviewing the figures.

Work in the project textbook, which is composed of advanced typing, will be started by the second year typing class next week. They are completing the work on ledger and business papers this week.

Shop
The seventh and eighth grade manual training classes have turned out projects for the exhibit. Completed and incomplete projects were on display.

The uses of simple or compound machines will be the work of Mr. Miller's general science class.

Arithmetic
The seventh grade arithmetic class has been working on the changing of per cents to fractional forms. They also have been using cancellation and the work of graphs.

Selling on a commission and overhead expenses comprised the work of the eighth graders.

The commercial arithmetic class is finding the greatest common divisor by inspection. They are also striving to find the least common multiple.

History and Citizenship
The citizenship class has been studying the effect that beauty has on one's life. The pupils have been working on posters illustrating security and health, or the lack of it.

The history 12 classes have begun the study of slavery. The first measure relating to it is the Missouri Compromise. The development and study of the Roman Empire has been taking the time of the tenth grade. This class has also been studying Christianity.

History 7
The seventh grade history and geography students have all contributed something towards the making of one large note book. This note book covers the work

done this year by these classes and will be entered in the school exhibit.

Joe Rosetto received the highest score in an examination covering the subject, "Discovery of America by Columbus."

History 8
The eighth grade history students have been very active in bringing in current events. They have kept the bulletin board well filled with prominent persons or persons having to do with politics.

They are also studying Washington's administration, which they are linking and comparing with that of today.

English 8
Iris Dalrymple and Ellen Newson were the only ones in eighth grade section two, to receive two A's on report cards for the last six weeks. As a result they will have the honor of being president and vice president of the eighth grade English Club. These girls are to be the critics for noticing errors made in grammar during recitation periods. The students noticed making errors in grammar will receive some sort of penalty having to do with English.

Languages
Latin 9 students have as their project for the exhibit, vocabulary note books. These each have twenty six pages. The students have taken one Latin word for each letter of the alphabet and have placed a picture on the page to illustrate the word, and below, the picture the English derivative from the Latin word.

Members of the Latin 10 class are exhibiting individual projects. Some very good projects are being displayed. Most of them show that much time has been spent in preparing them.

French
Members of the French 11 class have started conversational work in class. The persons in the first home class are able to count to a thousand in French. They have examples of their daily work on exhibit.

French 12 students have been studying the first issue of the Petit Journal and have been doing conversational work.

Chester Wessendorf has been spending much of his time working on a large map for the French department. Miss Shriver has always wanted a map of this kind and she is very glad to have it prepared for the French department. The map includes mountain ranges, rivers, and cities. The 89 sections of the country are called departments, which correspond to our states.

Home Economics
Miss Janet Thompson's home economics classes are in rapid preparation for the school exhibit, in which they are entering displays.

The following types of posters are being worked out: seventh grade, breakfast posters; eighth grade, salad and luncheon posters; and the ninth grade, dinner posters.

A very interesting competitive scheme is being done by the seventh grade girls, who are preparing muffins made of their own recipes to be displayed at the exhibit. Woolen samplers will be entered by the sophomores.

The sophomores are also painting different types of complexions and are studying the colors which look best on each type. The freshmen are baking cakes this week.

Physical Education
In Miss Alice Rockenbach's gym

classes of this week, the girls have had stunts to accomplish for good marks. Five stunts were given at the beginning of the hour, and then about twenty minutes to practice them before grades were taken.

Inter-class soccer team captains have been chosen to take charge of their individual teams. The freshman captain is Margaret Huse, sophomore, Estella Smith; junior, Lillias Peacock, and senior, Mary Donley.

There have been two games played off. One was the junior-senior game in which the juniors met with defeat when the score stood 1-0 in favor of the seniors at the end of the game. The freshmen-junior game was played with the juniors winning by a score of 2-0.

Editorial

Throughout the past several years our country has been wallowing through a period of financial strife. Many drastic measures have been proposed to lessen the burden of the taxpayer, and a great many of these bills have advocated the reduction of the school budget.

Since many of these measures have been adopted and because of the failure or inability of many taxpayers to pay, the schools have been forced to try to get along on a greatly reduced budget. Many schools were actually in debt when the present term started.

Things must change. People must be made to realize that in the school the people of tomorrow are developed. Everyone should co-operate to try to keep the schools going. Perhaps it is necessary to sacrifice to do this, but you will be repaid, since it is through this institution that "order and a hope may again be brought back to the people."

The Parent-Teachers Association has organized an all school exhibit to be held today and tomorrow. It is being held in co-operation with the National Board of Education, this being National Education week.

Everyone is urged to attend. The exhibits are free. Come and see for yourself the progress and advancement of school systems of

And then after it settles, you still don't know what to say. Or if you do know, you decide not to say it. Al just left town, that's all. He went to LaGrange, Ind., where he says he will stay for quite some spell. If Al comes back this way we sure hope he'll drop around. And pay us that five.

Weekly Parade

You know what makes Tenny Bunker go around with his head cocked on one side like he's listening? He's listening for the fire siren. This is the beginning of the annual fire season when, according to the law of averages, there's bound to be a fire somewhere. And an old fire horse like Tenny just simply begins to prance around and sniff the air this time of year. Well he's soon going to get action. Somebody is going to be careless about their stoves or their furnaces or their chimneys. Somebody always does.

One of these days, or nights, you're going to hear the ooh-wah-ooh of that old siren and then we are all going to find out first whether it's our house and if it ain't, Oh boy, we'll have a grand and glorious time.

INCENDIARY PLOT FOILED
It has always been our policy to soft pedal the less reputable news of the community, on the theory that a newspaper is not necessarily a garbage can, even if a portion of the community has cultivated a taste for garbage. But occasionally we run across something so raw that we feel it our duty to throw the spot light of pitiless publicity on it. For instance there was the deliberate attempt of Harry Post to burn up his car and collect insurance. Mr. Post came down to his office, parked his car over a large pile of leaves, climbed out and looked stealthily around and then, thinking he was unobserved, he deliberately set fire to the leaves and scurried into the City Hall.

But he was not unobserved. In fact nothing goes unobserved around this "ballkick." The eagle eye of the "Record" demon news sleuth spied him. With our usual disregard for life, limb and our clothes, we rushed out and put out the fire. Then we told Harry, and was he mad!

GALLEN NEWS

GALLEN STAGES HALLOWEEN FROLIC TUESDAY NIGHT

Record Attendance Spooks, Hobgoblins Throng Streets for Costume Parade; Mask Ball Afterward.

A Comparatively Unimportant Item

The sophisticated and the supercilious, if such there be among the readers of this paper, are invited to pass over this little screed and turn to another portion of the paper that may possibly enlist their interest, such as the time when the trains leave town.

For this is one of those bubolic items over which the high-brows and the smooty-minded are wont to make merry—the death of a horse.

Old Jack, the faithful servant of Joe Schwartz of Bakertown, for twenty-four years, died in his stall Saturday, the coming quickly and apparently with little pain. Jack had been ailing for the past few years, chiefly because of his inability to chew his hay since the loss of his teeth.

(If you are still reading this and have no more sense than to want to laugh, our invitation to go elsewhere is still good.)

Now Joe never asked us to print this, he merely told us about it in a friendly and neighborly way while we were administering a few pats to Jim, the harness mate of Jack, who is now without a companion. If Joe had had any idea we were going to print this, that suspicious look which he has always been inclined to view would have come into his eyes and he would have shut up like a clam. But never mind, don't tell him and it will be all right.

It seems he picked Jack up somewhere around Chicago a quarter of a century ago and drove him around the lake, a raw, green-shouldered colt with little idea of the etiquette proper to a horse. After he was broken, Jack proved a sterling work horse, his only fault being that he was too nervous and headstrong, so that it was hard to keep him from wearing himself out on the job.

A family buggy horse for the frequent trips to Buchanan he proved rather fractious and unreliable, and the thoroughbred village streets would excite him so that he would lose his head. So that let eventually fell to his stable mate, Jim.

About eighteen years ago Joe started the vegetable route which he still maintains in Buchanan. Jack was tried first but he again proved unreliable, as he would not stand and wait while Joe was making his trips into the houses of his clients. So Jim had that.

Jim is the opposite of Jack, steady, nervous, unexcitable. Jim has maintained the route for eighteen years, starting yearly in early summer and continuing until fall, averaging nearly twenty miles a day in the round trip to and from town and on the route. He is still a familiar figure on the streets, a dusty-black old horse, with a mild and friendly mein.

SHALL BUCHANAN BUILD SEWERS?

(Continued from page 1)

other American cities which will avail themselves of the offer, since the thirty per cent for which the Public Works Administration forgives payment is in fact collected from us and from every town in the United States in the form of a nation-wide tax.

5. If we undertake such construction, we will in great part wipe out the immediate dole charges, which are a heavy current expense, which we in no wise escape because they are temporarily financed by the R. F. C.

6. By undertaking such work we are extending to the many worthy men of Buchanan forced on public aid by stress of times that opportunity to make their own living which is essential to their happiness and self-respect.

If the information supplied by the two gentlemen who spoke at the Legion hall a week ago Monday night is correct, the Public Works administration sets an arbitrary wage to be paid to labor employed under government financed projects, 50¢ an hour for unskilled and \$1.25 an hour for skilled labor. Possibly many local people may object that costs are being increased by wages which are above the labor market. That is true, but the following consideration should also be borne in mind:

1. In the event that we pay 50¢ an hour for unskilled labor, the community is nevertheless paying only 35¢ an hour and the government is bearing the additional 15¢ an hour, as the result of its proposed donation of 30 per cent of labor and materials.

2. Since the labor is selected first from those on the dole, the actual cost of the labor to the community is lessened by the amount we would have to pay these men and their dependents in expense of public relief, which brings the labor cost of the community down to a very nominal figure.

3. Whatever the wages may be, they will be spent to a considerable extent here in the community and will contribute to the general prosperity.

For example, we will suppose that Buchanan borrowed \$100,000 from the Public Works administration to finance sewer construction. Then if the general average applied here, 56 per cent of that amount or \$56,000, would be paid in wages to labor at work here. But the government itself will stand the 30 per cent of the cost of the labor, or \$16,800. So the community would be taxed directly to pay only \$39,200 for labor. Then we will estimate the cost of relief which the individuals would receive if we undertook no welfare project at \$7,000 and deduct that, we will have \$32,200, the net labor cost to the community, or at the rate of 28 1/2¢ an hour actual direct cost.

ANNUAL COST OF SEWER CONSTRUCTION

The charges on the community for the construction of a sewer through a loan of \$100,000 by the government through the issuance of self-liquidating bonds, 30-year term, 4 per cent interest, would run as per the table below, through the thirty-year period, according to the plan announced by the Public Works Administration. This plan is the one adopted most generally by municipalities:
