LAST RITES FOR

Now Here's the Proposition

QUICK MONEY Bi Haw:.

He might have built a future that had verged on the sublime Had he laid foundations firmly, but he didn't have the time. He might have built defenses to withstand the shock of fate Had he builded them with patience

—but it seems he couldn't wait. He couldn't dream a morrow to a stately stature grown By the slow and patient process of a stone laid on a stone.

So he hustled and he worried and he lived but for the day, With his eye upon a future just a day or two away.
Unmindful of the grinding of the slow eternal mills

That have hollowed out the valley and have reared the solid hills.

a base not builded well And he cursed a recreant fortune when his flimsy bastions tell. He couldn't work with nature that makes oaks from acorns small; It had to be tomorrow so it never was at all.

Famous Last Words Good morning, sir. Could I in-terest you in a few shares of

H. R. AND HARRY

Well, it seemed just like times again last week to see H. H. Botkin and Harry Williams back at the First National ice box, the former as receiver again (and by the by, what a receptive way he really has). Not that it makes a lot of difference to a newspaper who is receiver, for all that any of the national bank receivers ever hand out in the publicity line isn't often anything to put a big headline over, but you know H. R. has such a nice way of saying there will be nothing this week that you go away feeling like you had a note book full.

We always wondered just what the status of Harry Williams was, but at last we found out. H. R. just keeps him around because he is so Scotch. H. R. is naturally too tender-hearted to be a bank receiver and when one of the note holders comes in with a hard lucstory, his first impulse is to reach for his handkerchief with one hand and sign a receipt in full with the other. On such occasions he just takes one look at Harry's Scotch mugg and then asks when they can make their next payment and how much.

SANTA CLAUS ENDS DOUBLE LIFE

Listen, did you by any chance know that Santa Claus was mard ''married'' an not only that but four kids. The old duffer, mebbe that's why he has been a little more of a squeeze on the donation for the past few years. Family responsibilities you know—old lady wants a new fur coat and a refrigerator. Well any way the Record is presenting you the exclusive announcement of the marriage of Santa Claus and the old boy and his family are going to be presented in public for the first time at the Buchanan Christmas tree, Mrs. Santa and all the little Clauses next Tuesday evening. Our sleuthing department got so hot on his trai. and things looked so compromis-ing that he was smoked out at last we told him it would be all right if he would appear in public and admit the truth, none of this double life stuff, next Tuesday evening.

· F Dist. Supt. Will Speak at Evan Church Friday Eve.

District Superintendent Rev. W. H. Watson, of Kalamazoo, will preach at the Evangelical church Friday p. m. at 7:30 o'clock, after which the third quarterly conference will be conducted.

CIVIC ASSOC. RAISES FUNDS FOR PROGRAM

Holiday Music and Gift Distribution to be Held Around Tree at Intersection of Main and Front Streets.

Christmas and its attendant St. Nicholas will stage an advance presentation in Buchanan next Tuesday evening, Dec. 19, when through the enterprise of the Civic Association the first community Christmas observance of many years will be held at the intersection of Main and Front streets.

Through special arrangement the Civic Association committee has had the good fortune to secure not only Santa Claus but his entire family, including the Missus and several small Santas, who He raised his visions skyward on will contribute to the gaiety of the occasion.

Gifts will be distributed and it is urged that every child in Buchanan up to and including the age of 12 be present and receive his or her gift. All the business houses will remain open that evening for the convenience of those attending. The traffic will be di-rected by Chief Edward Mitchell and special aides appointed by the city commission. There will be music by the high school band, directed by R. R. Robinson, and community singing.

The committee appointed by the Association has collected approximately \$200 for the purpose of buying holiday light fixtures which represent an investment which if properly cared for, may be used at future holiday celebra-

The tree will be stationed in the middle of Front street opposite the intersection of Main. It will be placed on the band stand, and will otal about 25 feet above the At the top will be a large street. star, and the tree will be strung with 100 lights. It is to remain in place there until Jan. 1, 1934.

But John, You Don't Know What Talent Ike Has

It is a bit amusing to read about buried in a lot which he owned in the Buchanan nimrods getting lost Oak Ridge, where a firing squad in the north woods or any other woods, when the direction is painted on the body of every tree in the woods in a fine green moss, which always says "north." No your shade trees about town. "north." Notice J. G. Holmes.

OLD PEARS MILL LAST OF MANY WATER POWER PLANTS BUILT IN EARLY TIMES ALONG MC COY'S CREEK

Buchanan Owes Its Location to Creek Which Furnished. Hears Veterans' Appeal Power for Its First Manufacturing Plants.

> It was down by the old mill stream, McCoy's creek, that the municipality first had its beginning, use of its water power being the cause of the location of the saw mill and grist mill around which settlement clustered in the

early days.

But of the dozen or more waterpower plants located at various places along the course of the stream in the past hundred years, and including saw mills, grist mills, furniture factories and a carding mill, there remains now only the one water power mechanism, that of the old Pears mill in the rear of the Adams and Lundgren implement store on Oak St.

According to the history of Berrien County compiled by Edward B. Cowles in 1871 there were two saw mills and a grist mill near the mouth of McCoy's creek as early as 1836. In 1870 it furnished power for a saw mill and a carding mill at Bakertown, where it had a fall of 10 feet. At Buchanan power had been developed by the construction of a mill race about 1860, which turned the stones for the large flour mill of Rough and Pears. There was a fall of sixteen feet where the race propelled a great wheel 14 feet in width. Be-Military Funeral Will Be Held Over Body of World War Veteran Which Arrives Today low, at a point about where the artificial mound and lawn are located south of the Dewey Avenue entrance of the Clark grounds, there was located another flouring mill, then operated by Blake m. today, having been shipped from Hanford, Calif., at 3:35 p.m. Black, located about where the Bainton mills stood later.

further down was a saw mill with The funeral will be held from a fall of sixteen feet, where one the Methodist church here at 2 p. side of the old dam may still be m. Saturday, with Rev. Thomas seen, a few rods above the mouth Rice in charge. Fac bearers will of the stream. all + rormer members of the First The sole remaining mill was esrench Mortar Battery, First ... vision, with which unit Taylor served through the world war. They will be as follows: Fred Schwartz, Buchanan; Charles I'etablished in 1861 by J. D. Ross and William Pears, the operating organization being known as the Rural Milling Co. The output of the mill then bore the brand of Vreese, Frank Flott, B. J. Roe, Louis A. Murphy, Tom Dadeski, all of South Bend. He will be

"Diadem Flour" and for a time the entire out put was shipped to England. Wheat was more of a staple buried in a lot which he owned in crop here in the early days and at one time the mill had an output of 100 barrels of 196 pounds each daily, requiring a daily intake of 500 bushels of wheat. Barrels for the product were made in the lo-cal cooper shops, operated by Joe Voorhees, Jay Glover, Nickolas

at Boston, and a sister, Mrs. Amelia McGee, have arrived here. Princess theatre has since been or said, would offer a program of built. A bridge was built across the race below the wheel and things which the farment in the same wheel and the same the race below the wheel and this alley was used for deliveries of grain to the mill.

The original mill stones installed at the erection of the mill, in the early sixties are still in use for grinding feed. These stones were scored regularly by the millers, by

Attend Graduation Exercises Scout Training School

Mr. and Mrs. Frank King, Mr. and Mrs. H. C. Stark and Leo Slate attended a banquet and the graduation exercises for the end of the Training school for Scout leadership, held last night at the Berrien Springs high school. Sixty leaders from the Berrien, Cass area received their diplomas. The speaker of the occasion was Arthur want and need. razee, a former superintendent of Dowagias schools and now sales manager for a furnace factory factory there.

Viking Grows Well In Michigan

EAST LANSING, Dec. 14 -Michigan State College promologists announced this week that the Viking red raspberry, a new varie-ty originated in Ontario, has been found adapted to Michigan conditions in tests at the state experiment station. The Viking is a cross between the Cuthbert and Marlboro. Tests showed the fruit to be a good shipper, as little or no mold developed in transit.

Fire department answered a call at 5:45 p. m. yesterday for a small blaze on the roof of the Fred Mead residence on Days avenue. damage was negligible.

H. P BOTKIN **REAPPOINTED 1ST** NAT. RECEIVER

Popular Bank Official Refurned Here After 11 Month's Absence; Also in Charge Niles City National.

The many friends of H. R. Botkin, former receiver of the First National Bank of this place, were pleased to see him in charge again after an absence of eleven months, as the result of a reappointment to this place by the Comptroller of the Currency.

Mr. Botkin resumed hie duties here last week. He left here on

Jan. 11, to accept an appointment as receiver of national banks at Marine City and Algonac. He remained there until Sept. 8, when he was appointed to the receivership of the City National Bank & Trust Company, and transferred back to Niles, accompanied as always by his first assistant, Harry Williams. He remains in charge there, with Fred Vanderberg, former emlpoyee of the First National Bank & Trust Company, representing him here.

The affairs of the First Nation al receivership will accordingly be maintained in the local office, with daily hours of 9 a. m. to 12, and 1 p. m. to 3 p. m.
Mr. Botkin requests that the

Record extend to the people of Buchanan his appreciation of the former courteous and helpful relations which he maintained with them during his former tenure of the position.

He and the assistant who represents him locally, Mr. Vanden-berg, wish to assure all those who business with the First National bank that they will be served with the utmost courtesy and with the best ability of those in

STATE FAIR WILL BE HELD IN 1934

Fund Being Built Up to Assure Farm Exhibits, Also Revive County Fairs

Grand Rapids, Dec. 14-In his address at the Michigan Farm show here Gov. Comstock prom. ised restoration next year of the state fairs at Detroit and Escanaba and revival of county fairs toward which a fund already is being built up, he said, from the Arney and others.

At that time there was an alley south from the intersection of lar session.

revenues of the race track law enacted by the legislature in regusery.

> "They should be operated for the farmers," he said. "The rev-enue is not to be spent for greater carnivals and bigger shows for increased premiums and better exhibits. Let's take these Buy County Flour fairs out of the racket class and make them something truly repre-sentative of the Michigan farm-n

class." The governor expressed pleasure at being present to greet the farmers and explained he left a bautiful fight at Lansing where the legislature was trying to de-termine whether "you will have liquor by the glass or no liquor at all." He left the scene of the battle, he said, because he preferred to and because he believed his presense at the farm gathering was more in his line of duty Whether Republican or Democrat he added, the governor of Michi gan always takes keen interest in the things the farmers like and

Musical Comedy "Chonita" in Auditorium Friday Eve

Presentation of Charming Play Based on Composition of Lizt Tomorrow Evening.

Students of the music department of the Buchanan high school are presenting a new departure in school entertainment in the form of a musical comedy, "Chonta," at the auditorium tomorrow

(Friday) evening.

This musical comedy is a production of the type of "The Student Prince" or "The Vagabond King," consisting of the dialogue of ordinary drama interspersed with vocal solo and chorus numbers and dances, and with a chorus background for reinforcement of the high lights of the contin-

"Chonita" is based on the charming and colorful composition by that name of Franz Lizt, adapted by the starr of the famous music publishing house of Lorenz. In addition to the cast of fourteen, there will be a chorus of 16 boys and 24 girls, and an ensemble of 16 musicians.

Remember the date, Friday, Dec. 15, beginning at 8 p. m. in the high school auditorium. Tickets are now on sale at 25 cents and may be bought from any member of the glee club. Tickets may be reserved at DeNardo's at an additional cost of 10c. The cast of characters is as fol-

lows: Chonita _____Una Kelley Stefan _____Bob Willard Daya _____Cherry Heim Murdo _____George Spatta Baron Stanescu George Remington Baroness Stanescu (his wife) Joyce Bonner Jack Truman

Representatives of the twelve American Legion posts of Berrien American Legion posts of Betrief county met last night at the local Legion hall on a special call by the county commander, Dan Porter of Berrien Springs. An attendance of about 150 was anticipated.

As Supply Red Cross Expires

Flour supplies for relief will nereafter be bought at wholesale prices (about two-thirds retail cost) from Berrien county mills, according to an announcement made by Dr. Perrin, Watervliet, treasurer of the Berrien County Emergency Relief Commission, at a meeting held with supervisors from the southern part of the here Monday afternoon. The last Red Cross flour was distributed last week.

Mrs. Frank Chubb, local relief director, states that there is a considerable call by transients for old shoes and old coats for both men and boys. Anyone who has anything of that description which they do not need will be conferring a kindness on some one if they will bring them to Mrs

ALVIN ROKELY ROBBED IN REAR OF HOME FRIDAY

Two Assailants Take Him Into Alley As He Leaves Thaning Home, Take Money, Except \$20 Which He Dropped.

Two as yet unknown men who apparently had some knowledge of the affairs of Alvin Rokely held him up shortly after 7 p. m. Friday at the rear door of the Julie Thaning rooming house at Days Avenue and Central Court, securing the sum of \$10 in two five dol-

the side door on Central court and | tion of business men's service Here Last Night was met at the foot of the steps clubs in America. There are 2,-by a man who came out of the 700 Lions clubs, located in every shadow at the south side of the Fydell home. The man had a white Canada, Mexico and Cuba, and in handkerchief tied over the lower several other countries.

along. As they started, another man who apparently had been watching the front door came up behind and poked something presumably a gun, against his back. Together they marched him to the alley and thence south to the rear of garage of Mrs. John Morse, where they made him strip cost vest and trousers, while they searched the pockets. They then told him: "You will find your trousers about fifteen feet away." and left him.

Rokely got down on hands and mees and hunted in the darkness, finding his trousers with the legs tied in knots. He then went into the house and called Night Marshall Frank Kean. Kean came and helped him locate \$20 in bills which he had been able to get out of his pocket and drop in the darkness while his two captors were marching him into the alley.

Rokely has worked in the old presented by District Governor

axle department of the Clark Equipment company for the past 18 years. There had been a Clark payday that day.

On Co. Drain Work

Starting a week from Friday, Dec. 22, there will be eleven county drain projects under construction, under the Civil Works ad-ministration, in as many widely separated sections of Berrien county, and a force of 160 men, formerly recipients of public dole,

will be employed. Oscar Damon, county drain commissioner, believes he will be able to keep this force of men at work for several weeks and that he will be able to get a sufficient number of other drain projects approved to keep a crew of 50 men and prob-

While no additional drains are being put in at this time, there is

Aver Value of Mulch Paper is Uncertain

St. Paul, Dec. 14.—Use of mulch paper in vegetable growing is of lebatable value, according Minnesota bulletin 198, just published by the state agricultural experiment station at University

The bulletin reports the results of experiments conducted in 1929, 1930 and 1931 by A. E. Hutchins, regetable specialist of the division

horticulture.
"Though the paper appears to penefit the crops, the advantages in most cases do not pay for the additional cost involved," it is concluded. "The paper is most likely to be worthwhile with warm-season crops of high acre value and rields that are grown intensively The effect of paper varies not only Christmas Party
The Monday Literary club held its Christmas meeting this week at the home of Mrs. Cora Leiter.
After a short business session, particular crops and for his local fore, each grower must determine the value of the paper for his particular crops and for his local conditions.

"Mulch paper may have a special appeal to home garden enthusiasts who are not particularly in-terested in costs. Through the use of paper they may get slight increases in earliness and quality educe the labor of cultivation and keep weeds down while away on vacation or busy with other hings."

Persons interested in the details of the experiments and results may have free a copy of the bulle-tin by writing the Bulletin Office, University Farm, St. Paul.

Corn Crops Grown Indoors Corn crops can be grown indoors, by means of a method whereby the seed is sown in trays in a darkened room and treated with chemicals. In ten days the crop will be ten inches high and 40 per cent more nourishing than crops grown in the ordinary way.

Largest Man-Made Mound A few miles outside of East St. Louis. III., what is called the largest man-made earthen mound in the country is located in a public park. The mound is 1,000 feet long, 710 feet across and 98 feet high.

Movie Disks Give Long Wear Circular disks used instead of films in a motion picture projector for educational and advertising pur poses are claimed by their inventor to be substantial enough to be shown 10,000 times without damage

NILES DAIRYMEN ASK HIGHER PRICE FOR RAW MILK

Demand of Farmers Made at Meeting; Get \$1.35 a Hundred Pounds.

Demand that the farmer be paid a higher price for raw milk was reiterated by farmers in the vicinity of Niles at a meeting last Wednesday evening at the headquarters of the Niles Farmers Inc., on North Front street.

Farmers, now being paid approximately \$1.35 per hundred pounds for bottled milk, are ask-Under the present scale the farmer receives approxi-mately three cents per quart for milk which retails at a price be-tween eight and nine cents per

The milk not bottled by the dairies is called surplus and is sold by the farmer according to the butter fat content. Here again the farmer complains that the milk is tested for its butter fat contents by the dairy instead of by a dis-interested party. The farmers have agreed to ray the expense of having the milk tested by an in-spector under state supervision but clai mthe Niles dairies have refused to accept this proposition.

A committee appointed at a previous meeting reported that Niles dairymen had refused to meet the demands of the farmers. The committee was instructed to continue negotiations until the next meeting which will be held soon. The committee is composed of Claude Haslett, chairman. Harry Young, Harry Ballard, Fred Knott and Fred Franz. A talk on "The Dairy Farmer,"

was given by M. L. Noon, of Jackson, president of the state favor bureau and vice president of the Michigan Milk Producers' association. Mr. Noon was introduced by Harry Young, president of the Niles Dairy Farmers' association.

BURFAU SUMMARIZ APPLE SITUATION

Report Issued by Bureau of Agricultureal Economics Describes Production Trends

WASHINGTON, D. C., Dec. 14 The following report, giving a survey of conditions in the apple industry and forecasting trends held for the discussion of probduring the next few years, was issued recently by the Bureau of crating with the local co-operative heider the state college as Agriculture Economics:

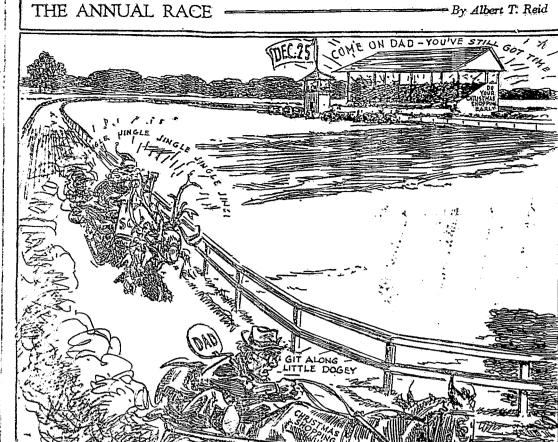

factors have been forcing an ad-justment of the apple industry until at the beginning of the present business depression (1929) the industry was generally better equip-ped for the efficient production of apples than at any time in recent years. On the whole it had a relatively large proportion of the bet- ed. all meetings being held during ter varieties, production was almost as heavy as 20 years earlier when tree numbers were twice as great, and there were indications that with reasonable care of orchards and moderate tree replacements the orchards would continue to produce for many years an abundance of apples for domestic consumption and a surplus for ex-

port.
"The depression has tended to speed up some of the adjustments that were already under way at the beginning of the depression. Tree plantings continued to decrease and those of the last two or three years have been exceptionally light; many trees of odd varieties have been removed; replace ments have been mode with trees of the more popular varieties; and there has been a continuation of the shift from farm to commercial orchards with better locations. In addition, accumulated fiancial burdens and low prices of fruit have caused many orchards to be neglected.- These adjustments in the physical make-up of orchards. and the curtailment of production expenditures, have reduced the bearing capacity of the apple industry temporarily at least. Although there is no way of measuring the extent of this reduction, it is generally believed that with in-creased business activity and with increased purchasing power of or-chardists, most of the commercial orchards can be brought back to normal bearing capacity. However, during recent years the cod-ling moth—the most serious insect of apples—has become increasingly difficult to control in practically all important producing centers. Present indications

moth control. "Another factor in the apple outlook is the general fruit situation. According to available data the production of oranges, grape-5fruit, peaches, pears, and grapes, together with the imports of bananas, increased 50 per cent from 1919 to 1932 and amounted to 7,423,000 tons in 1932. The Hawaiian pineapole pack nearly doubled from 1924 to 1931, and for the latter year amounted to about 12,700,000 cases. The 1933 pack is estimated at 8,000,000 cases, compared with about 5,064,000 cases in 1932. Generally speaking, large supplies of fruits that compete with apples may be expected to continue in our markets. This,

are that apple growers will have to increase their efforts in codling

with efforts of European countries to modernize their fruit industries and to erect trade barriers, indicates a continuation of difficulties in marketing large apple crops.

WILL HOLD FOUR FARM MEETINGS

UNCLE SAM HXS

Home Grown Fruit Is Good Enough For Army

LOUISVILLE, Ky., Dec. 14—It became known this week that bananas are on the prohibited list of food supplies of the U. S. Army including the C.C.C. camps. The reason for this action is that bananas are not grown or produced

n this country.
Under army regulations there has always been prohibit ion of permissable purchases, other than American grown products, with the exception of coffee and such articles as can not be had otherwise. However, the rules have always been lenient as regards bananas.

The new regulations are said to be a part of the Federal co-opera-tion with the NRA.

Atta boy, Uncle Sam! Bananas are grown in tropical countries under labor conditions which practically amount to slavery. Big corporations and steamship com-panies make millions on this exploitation and bring huge quanti-ties of bananas into this country free from tarif restrictions. Peon grown bananas are sold in this country in competition with fruits grown by American growers who are struggling hard to keep their heads above water. A good stiff tariff on bananas is needed far more than a tarif on pig iron.

Busy Old Monasteries

The monasteries of the Middle compared with the period 1923-25. Ages were great agricultural centers, as well as centers of trade. They established markets, coined money and developed a system of credit.

The Rowan Tree The rowan is properly classified as Pyrus aucuparia since it belongs to the same family of trees as the near and apple: its fruits are not strictly berries but poma

Charles (Chuck) Klein, National League's greatest batsman, will be swinging his great war club for the Chicago Cubs next Spring, and says he welcomes a change of scene from Philadelphia National's park.

Not So Many Peach Trees In U. S. Now

WASSHINGTON, D. C., Dec. 14 —The Bureau of Agricultureal Economics recently issued the following report, giving the peach

"The trend of peach production is downward in the south, in Caliant producing areas. In Colorado number of trees in most states In the south the number is much less than at any time in the last decade. There are enough trees in practically all areas, however, to produce large crops under favorable growing conditions. The acreage of clingstone varieties in Cali-fornia is still in excess of the needs of the canning industry under present demand conditions. For the country as a whole, low returns to growers in 1931 and 1932 caused serious neglace of many orchards, but higher returns in 1933 than in either of the two previous years may result in better care of orchards and some increase in tree plantings. Peach tree planting has peen at a low rate since 1930, and reports indicate that the quantity of nursery stock available for planting during the next year is somewhat limited.

"Some adjustments are taking place in the industry. Marketing by motor truck and at road stands and competition among commercial districts are ca using shifts in production in some areas, and changes in varieties planted.

"Exclusive of California, where most of the crop is used for canning and drying, peach prices to growers in the last three seasons have averaged about 37 per cent less than in the preceding three seasons and about 48 per cent less than in the period 1923-25. This compares with a drop of about 50 per cent in the price of all groups of farm products for the last three years as compared with the previous three, and about 53 per cent

"The south is the most importbeen very light since 1930. Low of bearing trees in southern or-returns have discouraged many chards is sharply downward.

AGENT EXPLAINS CORN-HOG PROJECT

Agricultural Adjustment Plan | is Fully Outlined by Cass Co. Agent.

BY GEORGE S. McINTYRE Cass Co. Agricultural Agent

The Corn-Hog Program of the Agricultural Adjustment administration which will go into effect in the next few weeks, embodies a reduction of 25 per cent in the number of litters farrowed and pigs marketed and a 20 percent or more reduction in corn acreage. The past two years is used as the base period to determine the

average number of pigs and acres of corn per farm.
On all hogs which are being pro

essed at the present time, a processing tax of \$1.00 per hundred pounds live weight is collected by the Agricultural Adjustment administration from the processor. Omland, Berrien county; George This tax will be increased to \$1.50 Mitchell, Kalamazoo county; L. C. Two dollars per hundred live weight is calculated as the differ! ence between the market price of hogs and the price which will permit a dollar's worth of pork to buy a dollar's worth of other

goods.

The money will be distributed in form of benefit payments to the corn and hog growers who sign contracts to co-operate in reducfornia and in a few other importing hog numbers and corn acres, Payments are made at the rate and Michigan the trend is upward, of 55 per head for hogs on 75 per while in other important peach cent of the two year average and Recovery of Western Grape cide and at the same time may states not much change in aver-age production is indicated. The yield which could be produced on the acres taken out of corn. Benthat produce fresh peaches for efit payments will be made direct market does not seem excessive. to the co-operating hog producer in the following installments: \$2 as soon as contracts are accepted in Washington (about February 1) \$1 September 1, 1934, and \$2 February 1, 1935. Two-thirds the payment on corn will be made when the contracts are accepted

> August 1, 1934. Corn and hog producers will be given an opportunity to sign contracts about January 1, contracts to be for a period of one year.

in Washington and the balance

Stone Fruits Insect

Insect pests of stone fruits in Michigan are discussed in a new bulletin published by the Michigan State college press. The new work is now available at the offices of County Agent Harry J. urkins in the courthouse.

The life history and control of the cherry slug, cherry leaf beetle, cherry case borer, leaf rollers, plum curculio, green fruit worm, thrips, fruit flies, peach moth and others is dealt with in the bulle-

A special chapter is devoted to the discussion of insects attacking trunks, limbs, roots and bark. The new work will be of interest o southwestern Michigan orchard-

Copies may be obtained by writing the bulletin division of the college at East Lansing, asking for Specail Bulletin 244.

ant region producing fresh peach-es for market. From 1930-32 the average production in seven south-a nd spray material. Many orern states (North Carolina, South chards have suffered from neglect Carolina, Georgia, Alabama, Tennessee, Arkansas and Texas) However, better returns in 1933 However, better returns in 1933 amounted to about 44 per cent of than in the two previous years the total United States production somewhat encouraged growers and exclusive of California. Tree plant-many orchards are being given ing in the south, as a whole has better care. The trend is number

STRAUB'S CATTLE **AGAIN WIN HIGH** HONORS IN STATE

For Sixth Time in Seven Years Galien Herd Surpasses in B. F. Production.

For the sixth time in the last seven years, the pure-bred Hol-stein-Friesian herd of Doan Straub, prominent Galien dairy-man, won the championship for high butterfat production in all classes in the state, according to announcement just made by official testers at Michigan State Col-

lege.
In scoring high honors for 1933, the Straub herd averaged 46.09 pounds of butterfat. The Straub herd won the national championship for butterfat production in all classes in 1930.

Other Berrien herds also scored high in the 1933 ratings.

The reports are compiled from

statements sent in by milk testers working throughout the state. A mature cow in the Straub herd produced 94.6 pounds fat and was the leading cow in the district and second high for the state for

Fred Crosley, also of Berrien year old cow which made 90.9 pounds fat. Ralph Sebasty of the same association had the leading

under four year old cow which made 60.7 pounds of fat. A cow owned by A. L. Jones of St. Joseph county had the high honors in the under three year age class, producing 70.6 pounds ing. This was the leading cow in this age group for the state fat under three times a day milkage group for the state under the conditions, while a cow owned by Rollo Moshier of Allegan county in the same class under twice a day milking produced 57.8 pounds fat and led in this group.

The reports show a food cost and separator saving amounting to 3736.76 during the month. feed cost savings effected on 77 herds were sufficient to more than repay the cost of testing which imounts to about one percent per cow per year according to A. C. Baltzer, dairy department, Michi-

gan State college. The reports also reveal another increase in numbers of herds under test in the state with 850 herds testing during the month.

While savings were effected, the reports also show a slight increase in the feed cost to produce 100 pounds of milk. Generally the ations used show alfalfa hav fed iberally to cows and a grain ration fed according to the pounds of milk and test of milk produced

The testers in southwestern Michigan sending reports to the dairy department were Svend Jorgensen, Allegan county; Eddie January 1 and to \$2 February 1, Beal, St. Joseph county; and Two dollars per hundred live Maurice Bailey, Van Buren coun-

CALIFORNIA GRAPE MEN

Industry Depends On Re stricted Production.

The wine grape industry of Cal-ifornia "after rising to the heights of prosperity and dropping to the depths of despair during the past 15 years," is on the road to recovry, but acreage must be restricted, according to reports made pub-lic by the State Department of

Agriculture.
The farm value of California grapes in 1920 was estimated at 83,130,000, and in 1932 only \$20,-116,000, it was reported. Prices to growers went as high as \$15 to \$100 a ton in the early prohibition years, and this caused a wild scramble to cover the State with vineyards, one report said in suggesting restriction of acreage Bulletin Available for the growing of grapes.

Game Warden Jobs Are Sought by 740

Civil service examinations for conservation officer have been taken by 740 men, reported George R. Hogarth, Director of Conservation. Out of these 740 men, eight regularly assigned officers and six free lance men will e appointed. In Jackson, 300 men took the

examination, in Roscommon 260, in Marquette 100, Houghton 40, and Ironwood 40. Appointment of additional conservation officers is a part of the new law enforcement campaign which is being carried on by the Department of Conservation.

There will be a total of 10 free lance officers who will be shifted from one part of the State to another, to act as adjuncts to the regular local officers, as occasions and conditions demand. The 'department is also seeking greater o-operation from county justices of the peace in making penalties for the violation of fish and game laws more severe.

Oldest English Library The Bodleian library at Oxford is the oldest English library in the

Bulletin on Feeders Is Now Available

St. Paul, Minn., Dec. 14.— For cattle feeders, for whom there is prospect for a margin in selling price over cost price this winter, the Minnesota agricultural experiment station, St. Paul, has issued a bulletin of special value, in the eyes of the animal husbandry di-

vision at University farm.
The title of this bulletin is "Selection and Purchase of Feeders, and Rations for Fattening Beef Cattle," and it was prepared by W. H. Peters, chief of the division of animal husbandry. It is based upon feeding trials carried on at University Farm through the last 12 years.

GOVERNMENT MAN FINDS NEW SPRAY DOPE

May Solve Spray Residue Problem For State's Fruit Growers

Dr. Henry G. Knight
SAGINAW, Dec. 14—The answer to the fruit and truck srop
grower's prayer—an insecticide harmless to men—is believed to county, had the leading under five have been answered. Such a chemical has been found.

SSpeaking here at the recent meeting of the American Chemical society, Dr. Henry C. Knight, chief of the United States bureau of chemistry and soils, announced a chemical compound known as rotenone, manufactured from a weed called the devil's shoe-string, deadly poison to insects but non-poisonous to humans. That's the kind of insecticide fruit and vegetable growers have been prayng for ever since the federal government began enforcement of he spray residue tolerance on Rotenone Solves Problem.

"The greatest promise for insecticides that will be harmless to man appears to be in the two fields of natural plant constituents and synthetic organic insecticides. In this class rotenone is one of the most remarkable. This white crystalline material, insoluble in water, is found in derris, a woody vine cultivated in Malaya, and in cube, South American shrub. "Rotenone is 15 times as toxic

as nicotine as a contact poison to bean aphids, 39 times as toxic as lead arsenate as a stomach poison to the silkworm, 25 times as poisonous as potassium cyanide to goldfish, and yet is harmless to man and domestic animals eating it. Rotenone is being used in place

of and also in a mixture with pyethum flowers for the preparation of household insecticides and promises to replace arsenicals, in part at least, against agricultural pests.
Thrives On Poor Soils

"On account of the rapidly increasing demand for rotenone there is much interest by insecticide manufacturers in the only American plant known to contain this compound. This plant is called the levil's shoe-string and is known botanically as Cracca virginiana. It thrives on infertile sandy soil and tests to determine the best means of cultivating it on a large scale are being conducted.

OPTIMISTIC "The discovery of rotenone in this weed may make the United States independent of foreign provide an important crop which will increase agricultural diversification and can be grown on sub marginal land unsuited for growing other crops."

Champion of Steers Brings \$1.30 a Pound

Chicago, Dec. 14.— The grand champion of North America steers, Briarcliff Model, was sold at the thud of the auctioneer's hammer in the heart of Chicago's union stock yards at \$1.30 pound as the scene of the 34th inernational livestock exposition shifted from arena to the auction

The buyer was Harold Cudney, Chicago packer, representing the Palmer House in Chicago. Steaks from the huge steer will be sold to Chicagoans for Christmas holiday dinners at fancy prices. Spirited bidding marked the

sale. The price paid was the highest since 1930 when \$2.50 a pound was paid. Last year's champion was sold for \$1.25. "Briarcliff Model," a 1,217-

pounder, brought approximately 1.582.10 to his owner. Oakleigh Thorne, whose Briarcliff Farms, Inc., at Pine Plains, N. Y., raised the champion. Mr. Thorne also showed the 1931 grand champion.

Watervliet, Coloma Have Relief Program

Mrs. Esther Rollyson, in charge f welfare work at Watervliet and coloma, announces that people getting regular emergency relief must get their orders on the following days: Hagar township on Tuesday morning at the town hall; Coloma township, Wednesday morning at the office of Chester Hoocker, Coloma; Watervliet city, Watervliet township and Bain-bridge township, all day Friday at the Watervliet city hall.

Busy Day for Submarine On one day, in September, 1914, one German submarine sank three British cruisers.

Who's Who

Bill Frame was born on a farm southwest of Buchanan, November 10, 1914. He commenced his school career and the Currier District School, but

spent the winter months of the first five years in schools at in the fall of 1930, Bill started to Buchanan high school. Since

that time he has become popular among his fellow classmen. He has been on the first team in football for the last three years. This fall he was captain of the team. Bill has been out for track two years and basketball four years. This year he is playing on the first team. Last year he was president of the junior class.

Margaret Richter was sixteen years old Nov. S. She was born in Dayton and has always lived in that community.
At the age of five, Margaret started to the Dayton school and

confinued attending that school until she entered Buchanan High school as a freshman in 1931.

Since that time Margaret has become very popular among the other students and was this year elected secretary of the junior She was also chosen as a member of the Usher Club. This is quite an honor, as only a selected few are admitted.

Snoopy Snaps

an eavesdropper, lean a little eloser, and then see if you can clear up the mystery. It's absolutely impossible to get in touch with Helen Spatta over the telephone between 6:30 and 7 o'clock. I wonder if ?

SWEATERS ORDERED

Foot ball sweaters were ordered this week by members of the foot hall squad. The great problem was what size to order. The most popular size was forty, which was chosen by over half the fellows. After giving the orders came the financial part. After each fellow counted out \$8.80, Mr. Eradfield "Gosh! I didn't know there was so much money in this town!"

GENERAL ASSEMBLY

A short pep meeting for the basket ball game with Berrien Springs was held Tuesday morning, Dec. 5, in the auditorium. Mr. Bradfield gave a talk on the changes in the basketball rules for the 1933-34 season. He was assisted by Bill Frame and

Jean Russell assisted by five year's cheer leader, led the stud-ents in some yells.

August Topash.

DEPRESSION ENDED

Old man depression has been beaten! . That clawing hand will cease to snatch things from us, and once more peace and contentment, will prevail over the cloudy

No longer will that popular sentence, "Prosperity is just around the corner," be repeated by the hopeful, because prosperity has turned that corner.

The locker rooms have been supplied with paper towels and soap once more, Rejoice with the

You Guess

Here you are folks, a brand new column. Full of good jokes (some are bad but just skip those). And all the latest gossip! Now if you have any questions I shall be de-lighted to answer them. Just hand themsto Miss Hanlin and tell her

Things happening. They can to, the way little groups of two or three wander off one is acquainted. How millions happens more frequently on Monday and Friday. You see Monday is just after the week-end and Fri day just before. These week-ends take lots of attention. They do get us down, but how we like

Now this is a note for cheer leaders only. How about a little more pep in there. You know one peppy person can inspire a mob. Of course, Jean can't do it all. Don't tell me you have stage fright. For after all, we are human beings and also classmates Now we're all for you, so let's go,

cheer leaders! How these band and orchestra members cling to each other. The first violin player, Mr. B., seems to looking after the cello player, Miss H. K. . The other first vio-lin player, Miss J. K., has been seen lately with one of the second

Special

The annual basket ball ticket sale at the high school has come off very successfully.

The students that are winning free tickets and the amount they sold are: Lorren Jewell, \$18; Louis Pascoe, \$12.50; Ethel Sibley, \$11.50; Louis Leiter, \$11.50; William Frame, \$10.50.

Several other students came un to \$7, but this does not entitle hem to free tickets.

Miss Thompson's sixth hour class was the class selling the most tickets, amounting to \$36.50. Buchanan has sold more tickets han ony other school in the counv. Other schools have asked how t is done and perhaps they will opy the method. - - 0 ---

Romeo and Juliet

Found - A scenes that surpasses Romeo's great balcony scene.

Wednesday afternoon the climax of the great contest came. The side selling the most season tickets had the privilege of administering black eyes from blackened cork to the losers. Not satisfied with the ones given Wilson Crittenden, the winners blackened his entire face.

Upon entering the study hall sixth hour he caused a violent uproar. When Jean Russell gave "Crit" the horse laugh, he decided to do some cheek rubbing.

Grabbing her by the neck he pulled her on his desk. She twisted and squirmed out, made a fifty ed when trying to obtain the yard dash for her desk, but was slightest sip of "aqua" from the over taken two feet from it. Romeo rushed forward. Our fair damsel in distress jumped, but she was The fairer sex of Buchanan high too late. He seized her, and in strolled a teacher.

Reluctantly Romeo scrambled

DRUMS

During the annual music festival that is held every year at different Berrien county schools, and which was held this year at St. Joe; many amusing incidents hap-pened. While the whole crowd, led by the guest director from the Western State College, Mr. Harper C. Maybee, were singing "Jingle Bells," the boys up on the stage were accompanying themselves by stomping on the floor to the beat of the music. Mr. Maybee turn-ed around and faced them after

and said, "The drums are a little too loud, don't you think?"

More than sixty years ago the Worry will prevent happiness prohibition party was organized and after all happiness is life. If and in 1872 held its first national convention. The rapid liquor development with the very lost multiplication of saloons was some what the cause for the strong counter-movement which developed around 1875.

With the organization of the state, county, township, and city. This movement quickly sprend due much to the effort of noted social reformers. By 1919, 31 states had state-wide prohibition.

The world war did much to help in the prohibition cause. Not as many believe, to keep the soldiers from voting, but the war furnished a market for the grains used in

brewing and distilling. Finally in the fall of 1917 the prohibition amendment was prothem to Miss Hamm and the posed by Congress.

What they're for. Step right up, posed by Congress.

Sary thirty-six states ratified the amendment by Jan. 16, 1919, and amendment by Jan. 16, 1919, and Interesting things! one year from that date prohibi-ppening. They cer- tion went into effect.

tion went into effect.
With the era following, everyin a corner by themselves. This were spent in the just cause. How hundreds of lives were lost. How

country prospered for a time. And lastly the concluding days of this "noble experiment" and the return

of alcoholic beverages.

Five years ago if some one had remarked that five years hence prohibition would be no more you would have laughed at him and said it was impossible. Today if some one told you that in a few years the saloon would be back Today if you would laugh at him again The impossible happened once, will it happen again? Will the saloon follow in the wake of re-peal? No-providing you have self

Now, Georgie! Did you know that Eddie Spasek believes 5 equals 9, and Lavern Myers can find the perpendicular isector of an angle?

Do you know which junior boy portrays Al Jolson to perfection? That the senior "Clark Gable" objected to a "black eye?" Which junior girl is an essayist on

MUSIC FESTIVAL

The annual Berrien County Glee Club festival, presenting a vocal group of 650 voices at the St. Joseph high school Wednesday night attracted a capacity crowd.

After two and a half hours of mass practicing, the group presented the concert under the directorship of Harper M. Maybee, guest director from Western State Ceachers' college, Kalamazoo.

Showing that each director had faithfully worked out the music instructions, critics said that the voices blended harmoniously. Of the thirteen schools represented, Berrien Springs alone pro-duced a male quartette, which

sang several fine spirituals. Special mention should be given the clever accompanist, Miss Kathryn Nichols, who played with a talent that delighted the participants and audience.

Ewo Tickets to St. Joe!

A pair of twinkling grey eyes, neatly waved hair, silk dress and new shoes anxiously awaited the approach of an exciting afternoon Wednesday, for Joyce Kohlman was to journey to St. Joe with the

But this bubbling forth of excitement wasn't produced by any great anxiety to exercise her vocal chords! Perhans there was another motive-something in the line of boy friends?

the first verse had been finished and said, "The drums are a little the Past

Physics An interesting discussion on the

types of friction and how they may be overcome was the topic of the physics class this week. Friction may be overcome

putting oil between the two curfaces or putting anti-friction met-als such as babbett or bronze on the touching surfaces.

It can be overcome in machines by putting on ball bearings or roll-er bearings.

If it were not for the liberal application of remedies of an au-tomobile, the engine would not be able to furnish enough power to propel the car.

This is also important on rail-roads. Many trains are coming out with roller-bearings instead of the old style "journal." This causes easier starting and makes

the cars easier to pull. Friction in fluid is also a thing of importance. This is noticed in the case of steamships where

higher speeds are desireable.
To get higher speeds in boats as is being done today, it is necessary to put gigantic power plants in the boats. An example of this is seen in the 600,800 horse power plant in the speed boat, Miss America X and the 160.000 horse Miss power plant in the new French liner, Normandic.

Friction between airplanes and the air must also be considered. This is shown by the fact that airplane factories, automobile factories and railroad companies are stream lining their produce to overcome air resistance.

OPPORTUNITY ROOM We are making Christmas decoations for our room and learning Christmas carols,

Crosby Heads

All-Star Cast

Bing Crosby, Jack Oakie, Skeets Gallagher, Judith Allen, Harry Green, Lilyan Tashman, and Ned Sparks head the star-packed cast of Paramount's sensational musi cal comedy smash, "Too Much Harmony" which opens Sunday for a three day run at the Holly

wood theatre. The film centers around the onand off stage activities of a group of show people. Interspersed in the action as the novel plot unravels are eight brand new hit tunes, and several lavish produc-tion numbers, staged by the famous dance director, LeRoy Prinz with a huge chorus of Hollywood

Crosby, last seen in "College Humor," has the stellar role of Eddie Bronson, musical comedy star who falls in love with Judith Allen when he discovers her doing a small time vaudeville act in the west. He brings her to Broadway for a big role in his new show and then the fun begins. For along with her comes her fiancee, Jack Oakie, and Skeets Gallagher. Events both hilarious and dramatic occur with lightning-like rapidity, as Oakie and Crosby and Miss Allen attempt to solve the unfortunate triangle. Among the new numbers Crosby sings are 'Thanks," "Buckin' the Wind." and "The Day You Came Along."
"Too Much Harmony" is truly one of the best of the new cycle of musicals released this season.

The prize ring and a wandering, homeless, nameless tramp life form the background for Douglas Fairbanks, Jr.'s latest picture, "The Life of Jimmy Dolan," which comes tomorrow (Friday) and Saturday of this week as a feature number of another Hollywood double-feature program. Loretta Young, Lyle Talbot, Aline Mac-Mahon and Guy Kibbee are in sup-port of Fairbanks. "Walls of Gold" he new Fox photoplay based on the novel of the same name by Kathleen Norris, is the second feature, and has as its leading players the popular team of "State Fair," Sally Eilers and Norman Foster, and Ralph Morgan. fourth whirlwind chapter of Buck Jones in "Gordon of Ghost City" d feature gram. Kiddies Saturday party on Saturday afternoon begins now at

Those two lovable scene thieves W. C. Fields and Alison Skipworth with that cute baby trick. Baby LeRoy, win the laurel for the splendid performances they give in Paramount's riotous comedy, "Tillie and Gus," which plays at the Hollywood on Bargain Nights next Wednesday and Thursday. Here's an evening of entertainment and laughter you can't afford to miss, as these two brilliant comedy players go through one hi-larious sequence arrer another.
