

Now Here's the Proposition

IN EXPLANATION

It isn't my age that makes me rage
When the wintry tempests blow;
But the size of the hole in my pile of coal
When the mercury slides down low.

I could get a thrill from the winter still,
But it hangs a pall o'er the day
When the beech and the oak go up in smoke
And the coal just scuttles away.

Just a Little Street
Where Old Friends Meet
A friend of ours was telling us
He knew of a street in town only
Two blocks long which has four
Dumps (if you get what we mean)
on it. Which goes to prove the
contention of another Front street
merchant who claims that business
is still in the dumps.

The Judge on Legal Liquor
Judge Mathie was saying the
other day that to date he has not
had a case of drunk, plain or
fancy, which he could ascribe to
legal liquor. But then that was
after a friend had brought the
judge a present of a quart package
of Ridgway whiskey and the judge
swooped down on it with joy only
to find that the package was empty.

Knoblauch Talks On Co-Operation Monday Evening

Arthur Knoblauch will speak on
Co-operation at the Ladies' Night
meeting of the Civic Association
at the Legion hall next Monday
evening.

Mr. Knoblauch has delivered
this talk before civic bodies in
neighboring towns where it was
very well received. He is a speaker
of ability and experience and
brings a very timely message. All
members are urged to be present
with their ladies. Refreshments
will be served and a social time
enjoyed after the talk.

The high school orchestra, di-
rected by R. R. Robinson, will be
present to play for dancing.

Local Marksmen Fitting up Indoor Shooting Gallery

A few local sportsmen, includ-
ing Herman Hess, Vine Cook, Jack
Boone and A. S. Webb, have been
fitting up a shooting gallery over
the W. W. Trea. grocery during
the past week with the idea of
affording themselves some indoor
sport during the winter season.
The large unfinished room over
the grocery was leased as it is
long enough to permit target
practice at the official distance of
50 feet. A meeting was held last
night to organize and quite a num-
ber of marksmen and near marksmen
are reported to be interested.

Begin Pouring Concrete for 440 Cinder Track Curb

A total of 177 men were em-
ployed on local CWA projects the
first of the week, in the neigh-
borhood of 140 being employed on
the Moccasin Bluff project and
the remainder on the work at the
Athletic park. Pouring of con-
crete for the curbing for the quar-
ter mile cinder track around the
new gridiron was begun Tuesday.

Fire Department Makes Two Runs To Small Fires

The local hook and ladder com-
pany had a busy time this week,
answering two calls, one Tuesday
night and another yesterday morn-
ing. Tuesday night there was a
chimney fire at the home of Allen
Pierce, Liberty Heights. Wednes-
day morning the roof on the Leon-
ard Daggett home caught fire. The
damage in both cases was neg-
ligible.

Play Box Plans Presentation of 3 One-Act Plays

Rehearsals will be started in the
coming week for the cast of three
one-act plays which are to be pre-
sented by the Play Box at their
second production. Final touches
are being given to the presentation
of the play "Attorney for the De-
fense" at the Hollywood theatre,
Jan. 30. Mrs. Behl Batchelor
Karling is director and Miss Mar-
jory Campbell assistant director.

Southern Michigan Baking Company to Hold Grand Opening

The Southern Michigan Baking
Company will hold its Grand Open-
ing at its plant at Days Avenue
Saturday, at which time carnations
will be given to all customers as
a favor. A number of sales will
be offered as per an advertise-
ment carried by the company in
another column of this issue.

The company went into full pro-
duction this week and are starting
wholesale routes to nearby points.

CWA WORKERS FIND TOOTH OF PREHISTORIC AGE

Immense Tricuspid of Saurian Monster Found in Gravel Excavation on Moccasin Hill Highway Project.

The CWA work on the Moccasin
Hill highway project have been
bringing to light a number of in-
teresting reminders of the past of
this region, among them being an
immense tooth found by John Se-
bastian and John Murphy a few rods
south of the Paul Wynn residence
Monday.

This tooth weighs 1 1/2 pounds
and is nearly square, of tricuspid
type, 5 1/2 by 3 1/2 inches in dimen-
sion. It doubtless belonged to a
monster of the prehistoric age.
While perfect and complete in
form, it is doubtless not the origi-
nal tooth but the calcareous
matter deposited in the original
mould of the tooth which is known
as petrification. It was found in
loose gravel about five feet under
the surface and in the immediate
vicinity of five Indian graves ex-
humed the previous week.

Workers further north on the
project uncovered a stone hatchet
and deer horns.

Co. Farm Bureau Opposes Federal Control of Liquor

The Berrien County Farm Bu-
reau, at the annual meeting at
Berrien Springs, Saturday went on
record in resolutions as opposed to
federal control of liquor and re-
duction of auto weight and license
fees until Berrien county's high-
way indebtedness has been paid
off.

The same resolutions endorsed
the cold storage plant proposed for
the twin city fruit market and the
ratification of the St. Lawrence
waterway treaty.

Fruit prospects for 1934 were
judged good.

Nearly 200 persons attended the
meeting, which among other things
elected the directors for the com-
ing year. The present directors
were re-elected. Those chosen were
Jesse G. Boyle, Buchanan; James
Richards, Eau Claire; R. H. Sher-
wood, Watervliet.

The morning session was opened
by the reading of the treasurer's
report, and a short talk by R. Gib-
bons of Kalamazoo, who spoke on
the work of the organization and
the benefits of Farm Bureau in-
surance.

A. M. Edmunds, district mem-
bership representative of the Farm
Bureau, of Battle Creek, gave a
short talk on the advantages of be-
longing to the bureau. He stated
that the time had come when
farmers should band together as
other branches of industry had
done.

R. VanVelzor of Lansing, an oil
specialist for the Farm Bureau
Services, spoke next. He stated
that on Feb. 1, a Farm Bureau
bulk oil station would be opened at
Eau Claire, and urged members to
patronize the organization's sta-
tion for their petroleum products.
He pointed out that 70 similar
plants are in operation in Indiana.

The afternoon was started by
County Agent Harry J. Lurkins,
who brought a message of opti-
mism to members.

"We hear a lot about agricultur-
al conditions in the country, and
the more we hear the more we
must realize that we of southwest-
ern Michigan are in pretty good
shape after all."

The resolutions adopted were:
"Be it resolved that we favor
the construction of the proposed
cold storage plant in conjunction
with the Benton Harbor market
as a medium for regulating prices
not only for this section but all
western Michigan, thus benefiting
growers and business men alike
through greater returns to pro-
ducers of fruit crops.

"Whereas auto weight tax and
license tax money is now being used
to pay off county road bonds,
and any reduction in weight and
license taxes will greatly increase
farmers' property tax; therefore
be it resolved that we commend
the county board of supervisors
for their stand in opposing reduc-
tion in weight and license tax be-
cause until such time as the
county's highway indebtedness is
paid off.

"Be it resolved that we favor

CWA WORKERS REOPEN DRAIN INTO PIKE LAKE

Waters of McCoy's Creek are
Higher as Process of Lowering
Lake Level 3 Ft. Begins Saturday Night.

Waters of McCoy's Creek were
noticeably higher over the week-
end, the reason being that the
force of CWA workers engaged in
opening the old drain ditch exca-
vated in 1895 completed the open-
ing from the creek to the lake and
started the lowering of the waters
Saturday evening.

The drain was opened sufficient-
ly to lower the waters of the lake
two feet, after which the drain will
be deepened sufficiently to lower
the level another foot. The natural
size of the lake will not be dimi-
nished noticeably, since the level
has been above the natural water-
table for some time, creating new
marshes in the surrounding terri-
tory. The drain is about 100 rods
in length, from 3 1/2 to 5 1/2 feet
deep and from 12 to 16 feet in
width.

This is the first of a series of
drains that will lower three lakes
in a string, including Pike lake,
Sebastia lake and a small lake near
the Michigan Central railway. The
force of 37 workers engaged were
recruited from Bertrand, Niles,
Wessaw, Galien and Three Oaks
townships, and are under the di-
rection of Salisbury. This is the
sixth drain which they have com-
pleted this winter. Another gang
has been at work on a drain west
of Galien, and in the early winter
the re-opening of the Sterns drain
at the head of Hickory Creek in
Oronoko township was completed.

The workers have thrown out
many kinds of fish during the open-
ing of the drains, including
numerous trout in the Sterns drain
and a rare species which none of
the men had ever seen in the Pike
lake drain. In the latter drain a
number of large snapping turtles
were captured in the places where
they were hibernating. These
turtles excavate small niches under
the overhanging banks on the
inside curve of streams, just above
the water's level.

MICHIGAN BOARD FORMS EMERGENCY SCHOOL AID PLAN

\$1,200,000 Appropriated to Keep Open Harrassed Schools Until March 1st.

At a meeting of the Emergency
State Administrative Board held
Thursday, Jan. 4, a definite policy
for the distribution of emergency
school aid, authorized by the pro-
visions of Act 16, first extra ses-
sion 1933, was formulated. Funds
totaling \$1,200,000 were voted to
meet January emergencies.

The following recommendations
were approved:

To a school that is closed or
will close prior to March 1, ad-
vance money, upon approval of the
Emergency Administrative Board,
in an amount sufficient to oper-
ate the schools until March, pro-
vided such amount does not exceed
one-half of the school's share of
an allocation of \$15,000,000 under
Act 236.

Recommendations to the Board
should be made by a sub-commit-
tee appointed for the purpose, up-
on the examination described in
the next point.

Examining, by careful question-
naire analysis, each district that
applies for special aid, to show
actual needs, reveal the educa-
tional and financial policies, and
efforts made to exhaust the dis-
trict's own resources.

Make a general distribution on
March 1, of all available moneys,
in accordance with Act 236.

Between March 1, and May 15,
advance money to a school dis-
trict, upon approval of the Em-
ergency Administrative Board, in an
amount sufficient to operate the
school until May 15, provided such
amount advanced under this Act
(Public Act No. 16) does not ex-
ceed two-thirds of the district's
share of an allocation of \$15,000,
000 under Act 236.

Make a general distribution, on
May 15, of all available moneys,
in accordance with Act 236.

Make a final distribution, at a
time to be agreed upon later, of
all moneys due under Act (Public
Act No. 16).

Frank Habicht To Talk at Scout Area Meet Feb. 5

Frank Habicht, member of the
Berrien Scout Council, will be one
of the speakers at the annual
meeting of the council in Sonner
Hall of the Congregational church
at Benton Harbor, Feb. 5.

Other speakers will be George
Hors of St. Joseph, Carl Horn of
Dowagiac, Fred Eaglesfield, Niles,
S. W. Elmer, Benton Harbor, and
Fred Edinger, Three Oaks, Louis
C. Upton, president of the council,
will preside. Oscar Noll, Scout
Executive, will present a resume
of 1933 happenings and William
Carver, St. Joseph, will present the
financial report.

Because of the change in the
fiscal year, the annual meetings
will be held at this time of the
year from now on instead of in
June. The organization's year
will follow the calendar year.

Invitations will be sent to the
families of all registered Scouters
—men serving the organization in
any capacity, and an invitation
will be extended to the public to
be there. It is hoped that every
one interested in Scouting will
plan to attend. A most unique
program will be presented. At
the stage at the beginning of the
program which will depict scout-
ing in this Area. This will be fol-
lowed by the dramatization of the
Scout Manual—a most effective
play presented by Troop No. 41 of
Buchanan, the troop being in
charge of Scoutmaster Leo Slate.
Business will be cut to a minimum
and in its place will be put a pro-
gram far surpassing anything ever
put on by the Council. The bene-
fits of Scouting will be portrayed
in a most entertaining manner.

W. C. T. U. Holds Reception for Local Teachers

The Buchanan W. C. T. U. held
a reception for the teachers of the
local schools at the Presbyterian
church parlors Monday evening at
7:30 p. m. with between 25 and 30
teachers present. A program was
held with Miss Mae Mills in
charge, opening from the 33rd
chapter of the "Education" explain-
ing the educational work which the
W. C. T. U. has been promot-
ing in the schools. Miss Janet
Kelley then played two violin solos
accompanied by Mrs. Con Kelley
on the piano. Mrs. Clarence Gus-
tine of Benton Harbor, county di-
rector of children's work, then
spoke on "The Challenge to
Youth." She explained the cam-
paign conducted by the W. C. T. U.
to explain the effects of alcohol
to the children. Following the
program a social hour was enjoyed
and light refreshments were serv-
ed.

Mother of Former Resident Dies

While Mrs. Thomas McCormick
was in Chicago caring for her
father during his last illness, she
received word from Mrs. Howard
Bradley of Portsmouth, Ohio, that
her mother, Mrs. Margaret Step-
hens, had died the last of October
of self-administered poison. Mr.
and Mrs. Bradley left Buchanan
last fall after having lived here
for several years. Mrs. Stephens
had been with them the last year
in their home on Arctic street.

The ratification of the treaty be-
tween the United States and Can-
ada relative to the construction of
the Great Lakes-St. Lawrence
waterway.

"Be it resolved that we com-
mend and endorse the movement
on the part of the farmers of Ber-
rien county to own and control
their fruit and produce market."

The committee on resolutions
comprised Herbert Nafziger, Merle
Stemm and Dean Clark.

Correction

In the story on the business of
the local post office in 1933, in the
Record of last week, an error was
made in the figures on money or-
der totals. A total of 20,588 or-
ders were issued, aggregating
\$378,078.68, a total of 5,500 were
paid, aggregating \$58,800.83.

Dick Schram Works Up a Reputation As Aviation Expert

Richard Schram, none other than
our Dick, has apparently gone and
got himself a reputation as an
aviation authority, his articles on
matters pertaining to that subject
appearing regularly in the Sunday
editions of the South Bend News-
Times. Young Schram is a gradu-
ate of the ground school at the

FARM CREDIT UNION DECLARES 5 PCT. DIVIDEND

Treasurer Reports Satisfac-
tory Growth in 16 Months;
Several Other Unions Pro-
posed, Including County
Teachers Union.

The Buchanan Farm Credit
Union, pioneer agricultural credit
union of the Lower Peninsula,
held its annual reorganization
meeting at the St. Joseph Valley
Shipping Association headquarters
and a very satisfactory year being
reported by the treasurer, A. J.
George.

A principal business of the meet-
ing was the election of three
three-year members of the board
of directors, the stockholders
choosing A. G. Haslett, Fred Koo-
chingshot, A. J. George. These three,
with the holdovers, Dean Clark
and J. G. Boyle, comprise the
board.

A supervisory committee was
so elected, comprising A. G. Has-
lett, A. J. George and Dean Clark,
the latter being a holdover. The
following loan committee was
elected: Albert Houswerth, Charles
Tichenor, Jim Reed (holdover).

After setting up the reserves re-
quired by the state and also a
surplus of equal amount, the
stockholders were able to declare
a dividend of 5%.

Treasurer A. J. George reported
assets of \$5,500 in cash and
loans to members. The union has
\$1,200 in stock owned by 62 mem-
bers. In the 16 months of its
existence the union has made 25
loans of which 15 have been paid
up. Loans are made only to mem-
bers for "provident purposes" ap-
proved as such by the loan com-
mittee. Among the purposes for
which loans have been made are:
repayment of 3-per-cent-per-month
loan shark obligations; keeping up
life insurance; purchase of live
stock; purchase farm equipment.

The union was organized Aug.
12, 1932, with nine members and
stock subscription of \$45. The
main original purpose was to af-
ford farmers relief from the high
interest payments of loan compan-
ies. The interest rate charged by
the union is one per cent per
month.

As a result of the success of the
pioneer union, the organization of
several more county units are con-
templated. A. J. George, treasur-
er and organizer of the Buchan-
an unit, has been requested to
meet with a committee of the Ber-
rien County Teachers Association
at Berrien Springs this week to
advise on the organization of a
credit union among the members
of that body. The Detroit Teach-
ers Credit Union is one of the
largest and most successful in the
county.

Rev. H. W. Staver Writes Article For "Expositor"

An article entitled, "The Mag-
dalene-Mother of Notre Dame,"
written by the Rev. Harry W.
Staver, pastor of the First Pres-
byterian church, has just been ac-
cepted for publication by the F.
M. Barton Co., of Cleveland, O.
The article will appear in the May
issue of the magazine, "The Ex-
positor."

The story is a dramatic portra-
y of motherhood, based on the
material of Victor Hugo's novel,
"Notre Dame." It ranges through
joy and hope and dreams in one
instance and through sorrows, suffer-
ings and shadows in another
instance. There are bright mo-
ments and bleeding hours; moods
of great ecstasy and overwhelm-
ing anguish; times of terrific pas-
sion and times of tempest-tossed
prayer. In it all and through it
all, undimmed and undiminished,
shines the redemptive love of the
mother-heart for its own.

The Rev. Mr. Staver is writing
an article each week for "The Re-
cord" in the column, "Scripts for the
Journey."

Esther Vandebark Has Close Escape In Auto Accident

Miss Esther Vandebark, former
Buchanan teacher is reported to
be fully recovered from slight
injuries which she incurred in an
automobile mishap at her home at
Martinsville, Ind., two weeks ago.
Miss Vandebark was driving
down hill during a rain storm
when her car skidded on the pave-
ment, turning over several times
and alighting on its wheels, when
it skidded still further and took a
few more rolls, shearing off seven
mail boxes as it went and finally
bringing up in a badly damaged
condition. Miss Vandebark es-
caped miraculously with only
slight injuries.

Scout Troop 41 Goes in Reverse In Tuesday Meet

Boy Scout Troop 41 held a
"backward" service Tuesday eve-
ning, starting the program with
dismissal service. Games played
were "Steal the Bacon" and
"Poisoned, Poisoned Chair" and
"Murder." All the games were
played in reverse, the losers being
declared winners. The social hour
was then followed by the business
and patrol meetings and the ses-
sion ended with roll call. A num-
ber of the Scouts will go on a
test hike, Saturday, in charge of
Leo Slate and Albert Webb.

SUPT. STARK PROMOTES NIGHT SCHOOL CLASSES

All Interested in Organization
of Classes Under Emergency
Educational Program are
Asked to Register.

Elsewhere in this issue is a notice
inserted by Superintendent H.
C. Stark requesting all local resi-
dents 16 years of age or older,
who would be interested in the or-
ganization of night school classes
in Buchanan to register their
names and their study preferences
on blanks which will furnish at
his office today or tomorrow,
(Thursday or Friday).

The organization of such classes
would depend on the registration
of at least ten people for any one
subject, and the possibility of hir-
ing, some unemployed teacher, who
would be qualified to teach the
subject. The work is being fi-
nanced by the Emergency Educa-
tional program, which will pay the
salaries of the teachers from fed-
eral funds. Local schools are asked
to provide a place for the
classes and the students would be
obliged to buy their own books
and materials.

The work is already under way
in many communities, popular sub-
jects being the various commercial
studies, domestic science, manual
training, art work, music, physical
education and others.

Forum Club HEARS TALK ON MONEY PROBLEM

J. H. Ward Discusses Origin
and History of Gold Stand-
ard; History of Roth-
child Family.

Monetary problems were again
the subject of discussion at the
meeting of the Forum club held
Friday evening at the home of Rev.
Thomas Rice, with James H. Ward
Sr., again leading the talk.

Mr. Ward on request reviewed
his interesting discussion of the
previous meeting of the history of
gold as a monetary standard, and
the rise of the Rothchild family as
world controllers of the metal. He
discussed the relationship between
the gold standard and the finan-
cial panic of the past century, and
the cause of the present monetary
inadequacy. Most of the meet-
ing was devoted to a round table
discussion participated in by all
of the members.

The next meeting will be held
Friday evening, Jan. 26, beginning
at 7 p. m. at the Methodist church
basement, the topic being, "A Bal-
ance Between Industry and Agri-
culture."

tion was entered in the Otto P.
Grewe estate and waivers of notice
and consent were filed in the
estates of Mary Asmus, L. C.
Page and George Foster, deceased.

The wills of Myrtle E. Hill, Al-
bert Kaschke, Amelia Matrav,
Joseph Ewert, and August Busse
were filed and petitions asking
that they be admitted to probate.
Orders for publication were enter-
ed on the same.

Bonds were filed and letters of
administration were entered in the
following estates: Annie Wedel,
Ira R. Stemm, and Frank Smrz,
deceased.

Inventories were filed for Wil-
liam W. Hocker, Henry Pletcher,
and Elliott Barnes, deceased.

Orders allowing claims and pay-
ment of debts were entered in the
estate of John F. Klute and George Cone,
deceased estates.

A petition was filed asking for
authority to sell the real estate in
the estate of Louise Zwergel, de-
ceased. An order for publication
was entered on the same.

Annual accounts were filed in
the following estates: Cyrus B.
Groat, Emily Elgas, and Herman
Zielke, deceased, and Elbert N.
Howard, minor.

Final accounts were filed in the
following estates: Elizabeth P.
Wells, Lydia A. Kryder, George
H. Cone and Christina Ward, de-
ceased.

Judge Malcolm Hatfield closed
the following estates: Albert H.

Report Auditor Shows Reduction State Expenses

Drastic reductions in the number
of state governmental employees,
the expense of running state gov-
ernment institutions, and the trav-
eling expenses of these employees
are shown in an official report of
Auditor General, John K. Stack.

The state employed 2,562 fewer
persons in October 1933 than it did
in October, 1931, under Gov. W. N.
Brucker, a reduction of 20 per-
cent.

Gov. Comstock's administration
employed 5,499 persons for the
governmental departments and 5,
462 in the state institutions, a
total of 10,961. His number in-
cludes 583 extra employees for the
new estate commissions created in
1933 to take care of new emergen-
cy functions.

Gov. Brucker's administration
employed 7,787 in the state de-
partments and 5,736 in the institu-
tions, a total of 13,523.

In the state departments Gov.
Comstock's administration employ-
ed 2,288 less persons than did Gov.
Brucker.

The cost of monthly running ex-
penses for both governmental de-
partments and institutions is be-
low the levels of 1926, in spite of
the new governmental functions
added since that time.

In cost of administration of
Gov. Comstock, for both depart-
ments and institutions is \$1,212,
602.01 for October, 1933. The
cost under Gov. Brucker in Octo-
ber, 1931, was \$1,543,130.77. The
expense under Gov. Fred W. Green
for October, 1929, was \$1,594,135-
.51, and it cost Gov. Alex J. Groes-
beck seven years before \$1,276,-
914.53. Gov. Comstock's adminis-
tration has an advantage of 22
percent under that of Gov. Brucker
for this item during these com-
parative months.

Separating the institutional ex-
pense, the decrease is 30 per cent
under the previous administration.
The figures are: Gov. Comstock,
\$450,944; Gov. Brucker, \$642,489.

Traveling expenses for state em-
ployees cost the state 32 per cent
less in October, 1933, than it did in
Oct. 1931.

Traveling expenses for Gov.
Comstock's administration employ-
ees were \$72,396.99. Those for
Gov. Brucker in this comparative
month were \$103,632.00.

Father of Mrs. Thos. McCormick, Dies

Mrs. Samuel McCormick's father,
Samuel Burnham, died in his
home at 7011 Parnell Ave., Chi-
cago, on Jan. 4. He had a number
of friends in Buchanan and vicin-
ity, having visited his daughter
and family many times. He leaves
his wife, one son, Charles P. Burn-
ham of 7011 Parnell Ave., Chicago,
the daughter, three grandchildren
and one great granddaughter, who
is Dollie Mae Seabast, daughter of
Mr. and Mrs. Harold Seabast of

Can't Take Process Tax from Farmer, Says Sam Metzgar

The Hon. Samuel T. Metzgar,

attention to the fact that while
the farmer, in some instances, as,
for example, where he butchers

NOTICE TO ALL INTERESTED IN NIGHT SCHOOL

All residents of Buchanan six-
teen years of age or older, not at
present attending public schools,
and who would be interested in the
organization of night school
classes, are requested to register
at my office Thursday or Friday,
Jan. 18-19, stating their prefer-
ences. Organization of classes will
depend on the extent of the re-
sponse.

Co. Road Commission Take Over Project as Road 707C, From City Limits to Paul Wynn Farm.

Lovers of scenic beauty in this
section will have available by the
early summer Berrien County
Highway 707C, better known as
the Moccasin Bluff road, now un-
der construction by CWA work-
ers and to be passed through to
competition with a 30-foot gravel
surface that will suffice until fi-
nancial arrangements can be made
to complete it at some future
date.

The stretch of road from the
north end of Portage street at the
city limits to the junction of the
old narrow-gauge grade with the
River Road at Paul Wynn's was
formally taken over by the county
at the January session of the
board last week, and if the CWA
does not complete the graveling
the county will. A force of 140
CWA workers were employed there
last week. A large force are
engaged in trucking dirt from the
flat south of Paul Wynn's
home to fill in around steel cul-
verts in the bluffs for the grade,
according to Superintendent H. P.
Calvin of Niles, who is in charge
of construction under chief Moccasin
engineer John Bateman. Excavation
in the bluff would render the road
liable to the slides which imperil-
ed traffic on the old narrow gauge
railroad whose route it follows. All
grading will be built out from the
side of the hill with dirt either
trucked from the flat or pulled
out of the draws along the way.
Installation of a culvert on the
draw where the railway wreck of
1918 occurred was completed last
week.

The entire project now under
construction comprises 23,200 ft.
or about 4 1/2 miles of roadway,
from the city limits of Buchanan
to the Oronoko township line. Of

NEW TROY

A real step toward finer Christian Fellowship has been taken in this village by the Methodist Sunday School which through its representatives at a joint meeting last week decided to join the Brethren Sunday School.

For many years the Brethren Sunday School has enjoyed a splendid enrollment and most of the children excepting those whose parents attended the Methodist church have preferred the school. Since the death of Rev. John English two years ago this enrollment has been maintained an increase although members have been financially unable to hire a minister and hold church services since that time.

At the Methodist Sunday School enrollment has not been so large but a splendid church organization which is capably supported by a large group of members has been maintained. The Rev. Victor Niles is the popular and well appreciated pastor of this group. Now the members of the Sunday School have decided to join the Brethren Sunday School and join the young people of the Brethren School are planning to join the M. E. church choir and orchestra directed so excellently by Mrs. Merritt Harper and the activities of the Brethren church will enjoy the church services at the Methodist church. The plan will be unobtrusive of mutual benefit to both organizations. Sunday School will start at 9:30 hereafter.

Last Wednesday afternoon the Citizens Telephone Co. held its annual meeting at English's hall, when all the officers including John Bruner, Earl Barnes and Mary Bruner and Arthur English were re-elected with the lone exception of Bert Keith, who was elected to take the office of his brother, E. H. Keith. Annual reports were read but no new business of importance was brought up.

Supt. Merritt Harper announced this basketball schedule for the remainder of the season on Monday:

Jan. 17, Alumni, here.

Jan. 26, Bridgman, here.

Feb. 2, Eau Claire, here.

Feb. 6, St. Johns, here.

Feb. 13, Stevensville, there.

Feb. 18, St. Johns, there.

Feb. 20, St. Edwards, there.

Feb. 23, New Buffalo, there.

Feb. 27, Bridgman, there.

A return game with Three Oaks will be played here but has not definitely been dated yet.

Real incentive to a successful poultry show has been given by a number of merchants who have donated prizes for this event to be held at the New Troy school this week-end on Friday and Saturday evening. The judge of the Standard class and Eantems will be Albert Fleckinger of LaPorte, Ind. A program has been arranged for both evenings and the one on Friday evening will be in conjunction with the annual Poultry Show banquet to be held at 6:30 Friday evening. The need for a county poultry organization has been felt for some time and this group plans to discuss such an organization at this time. The Future Farmers class wishes to express its thanks to everyone who contributed prizes to make this show a real success.

The Country Women's club met with Mrs. Fred Hendley Thursday and elected officers for the coming year. Mrs. Henry Miller will be president, Mrs. Otis Wirth, vice president; Mrs. Virgil Reese, secretary; Mrs. Marion Clapp, treasurer. The members were entertained by Mrs. Earl Roberts who tested them on a number of contests in which Mrs. Marian Clapp won a prize.

The Trojan Women's Study club met with Mrs. Kenneth Bihlmire Friday, when members answered to roll call with humorous experiences of teachers. Mrs. Irene Bihlmire gave a short talk about Louis Bromfield and referred to his book, "The Farm" after which Miss Daisy Moore read the despatches of his grandmother's Christmas dinner from the book.

Mrs. R. J. Wood read a short sketch about "Bryant's Other Daughter, Mrs. Hargreaves." The program was concluded with an old-fashioned spell down which refreshments were served by Mrs. L. A. Boyd assisted by Mrs. R. J. Wood. The next meeting of the club will be Guest Day for the Three Oaks Women's club on Jan. 26, at the Charles Osborne home when that club will put in the program.

The Parent-Teachers' Association enjoyed a fine talk from Mrs. E. M. Totzke, of St. Joseph last Thursday evening, when she spoke of the aims of the county, state and national P. T. A. Congress. Two songs by the girls' club furnished delightful music for the program.

Mrs. I. B. Enevold, who plans to leave the community soon, turned over the presidency to Mrs. Chas. Osborne, vice president. Supt. Merritt Harper told how the school cafeteria would be opened this week and that about 35 students were planning to have their meals on this non-profit plan. He also gave a short talk on leisure time and the need of preparing students for its proper use after they leave school. Mrs. Paul Brodbeck was given \$25 to buy books for the library. Mrs. Robert Liskey and Mrs. C. Hobart were appointed to make a survey and see whether there are twenty five mal-nourish-

"Duck Soup" At Ready Theatre Sun. Mon. Tues.

They're back again. Those funny Four Mad Marx Brothers—Groucho, Chico, Harpo and Zeppo—appear once again in their brand new Paramount laugh epic, "Duck Soup." It comes to the Ready theatre, Niles, Sunday, Monday, and Tuesday.

Raquel Torres, vivacious little Mexican star, last seen with Wheeler and Woolsey in "So This is Africa", has the ingenue lead, with Louis Calhern doing some "heavy" emoting. Margaret Dumont, the stately actress who has appeared with the brothers in two other films, again is doing her bit to play straight for them.

Leo McCarey, who directed Eddie Cantor in "The Kid from Spain" wielded the megaphone for "Duck Soup."

For the first time in the history of the Marx Brothers and their screen career, one of their films has a very definite story. Here before, they have just romped and clowning in front of the camera with gag after gag, but in "Duck Soup," they have a real plot.

Briefly, it concerns Frederick, a land of happiness and peace which is in the throes of a revolution. Despite the high taxes, the country's treasury is depleted. Fred wants to borrow money from Mrs. Dumont, wealthy citizen. But she refuses to lend them any unless the fearless, progressive fighter, Rufus T. Firefly, played by Groucho, is appointed dictator.

Thirteen Million Trout Eggs are in State Hatcheries

Lansing, Jan. 15—Thirteen million trout eggs are now in the trays of nine of the state's fish hatcheries, the foundation for the fingerlings that will be planted in Michigan's streams next fall.

The Fish Division of the Conservation Department reported today that it now had hatching 7,800,000 brook trout eggs and about 1,500,000 eggs of early spawning rainbow trout.

To this list will be added about 1,700,000 eggs of native Michigan rainbow trout next spring, making a total of about 15,000,000 eggs for the year's trout propagation activities.

With the exception of about 1,000,000 brook trout eggs obtained from brood stock at the Harrietta Hatchery, all eggs of this species were imported from other states, obtained through exchange for eggs of other species of fish and by purchase.

All of the brook trout eggs are from native fish and were obtained at the Paris Hatchery from constantly in the numerous ponds adjoining this station.

The eggs of early spawning rainbows were obtained from Minnesota and Missouri. The practice of using eggs from early spawning rainbows began two years ago. It is possible by using these eggs to obtain a hatch in the spring, simultaneously with that of brook and brown trout.

These fish can be reared during the summer and planted as fingerlings in the fall.

Native Michigan rainbows do not spawn until spring with a result that the fry are in an im-

mature stage at the time of the annual fall plantings.

The various hatcheries now engaged in propagating the 1934 supply of trout, together with the allotment of eggs of each species are as follows:

Grayling: 1,000,000 brook trout; 500,000 brown; 250,000 western rainbows; 500,000 Michigan rainbows.

Harrietta: 1,500,000 brook; 500,000 brown; 250,000 western rainbows; 500,000 Michigan rainbows.

Did You Know

By Dick Schram

Echoes from the Three Oaks-Buck tilt... did the Bucks show championship style? We'll let you decide. Wonder if the Buchanan rooters don't feel just a little ashamed of the poor cheering they put forth last Friday? They should, letting a handful of enthusiastic Three Oaks rooters completely out-yell and out-enthusiast them, even though the Oakers were at the short end of the score during the whole game. What's happened to the old B. H. S. pep and enthusiasm that used to typify the Maroon and White school spirit? Let's make up for past showings at the coming Nike game. How about it, six true and faithful readers?

With the completion of the first semester's work, everyone again enjoys the same opportunity to show the "stuff" he or she is made of. Although off with an equal start, before the finish line has been reached the gap between the studious pupils and the "loafers" shall have widened.

Those who really put forth the effort this coming semester shall succeed. Those who don't, shall fail. Are you going to be one of those who sit back and say, "I'll let the other fellow do it," or will you strive to make good yourself? Although unknown to many, the foundation of your entire life is built during your school years. The effort you do or do not put forth shall make or break you when you are forced to shift for yourself.

Success will not be laid in your hands. You must strive and actually try to win. If you don't succeed at first, remedy your mistakes and come back and really win. And above all, remember you can reap only what you sow.

The former football captain has a desire for silver bracelets. That John Hattenbach is generous with 5 pound boxes of candy?

That "Tucky" Brewer has been seen frequently on the Niles hill?

That "Chandy" Jackson, can't decide on Buchanan, Niles or St. Joe? What a man.

The senior class voted on the statistics for the annuals and the biggest pest is ----? We'll give you two guesses.

"Peanuts" Frame has a new pair of blue "cords"?

Class rings seem to go from one hand to another. We wonder why, Carson?

Stevie just can't find his Scout pin? Now "Postie."

"Benny" Franklin had to discard his pipe? Donna, how could you? "Spatty" has a pipe?

"Remy" has become a dancing instructor?

"Cub" Lyon and George Semple are rivals?

"Deeds" is acquainted with a telephone operator?

That Max Dietzler knew how to drive a "Chevy"?

Success will not be laid in your hands. You must strive and actually try to win. If you don't succeed at first, remedy your mistakes and come back and really win. And above all, remember you can reap only what you sow.

Class Activities

Speaking of attractions, the Nike game will provide the greatest variety of entertainment that ever appeared on the program. The feature between the periods in the game will be something very unusual, and much different than any before. If you, my six (or is it five now?) readers, don't enjoy it, there's something radically wrong with your sense of humor. The group of entertainers that will appear at the local gym will make all forget Gen. Johnson and the NRA, your overdue income tax and is good for fallen aches, baldness, heartburn, dyspepsia, (spelled right?) and all other ailments due to bacteriological irregularities. By the way, what do those two last words mean? I can't even pronounce them, let alone spell them again.

My six readers came to me after the game and asked why Marv Mangold didn't "see action" for the first time in a "Buck uniform" last Friday. Well dear six readers, Marv just didn't have the heart, he broke down completely in the locker room just before the game, so he couldn't play. At different periods in the game, he ducked shyly behind Stretch to weep copious tears in Stretch's back pocket until the handkerchief in the pocket floated out. The cruel and callous Stretch noticed it as it passed the timers' table and made Marv use his Princess Pat to repair the ravages done to his face by the tears as they, of course, coursed down his cheeks. My, wasn't that a sad affair.

However, Marv will play this week, I am told. I was told before, but it didn't do any good.

And now, an announcement of great importance. I will, without obligation on your part, reveal the names and addresses of my six faithful readers, tried and true. This information may be obtained by writing me, enclosing \$4.87 soap (preferably the soft variety), wrappers and 2,833 cigar bands. I'll be seeing you, my faithful six (honest, I'll bring your checks this time.)

Algebra students studied solutions of quadratic equations by the factoring method.

Geometry

To introduce the second semester, Mr. Hyink gave the geometry class the angle measurements in circles.

Trigonometry

Trigonometry is a half-credit subject just beginning. The class has gone over the introduction this week. The introduction includes the functions of acute angles.

History 10

The tenth grade history classes have been working on the Renaissance.

History 12

"The Era of Theodore Roosevelt" is being studied by the senior classes. They will soon start their work in American Government.

Home Economics

The home economics class of the 7th grade have begun the study of clothing. They will start making bandages and aprons for their work in the cooking class.

The eighth grade will go on with the study of textiles and they will begin work on their garments.

The ninth grade will review the study of textiles and work on cotton and linen projects.

The work of the tenth grade will be the continuation of the work of art in "Home and Clothing."

Shop

The eighth grade shop class has started elementary cabinet making.

The ninth grade shop division is working on advanced cabinet making and advanced wood turning.

The eleventh grade drawing group is working on sketching and machine shop drawing. As the students finish geometrical construction, they take up the other work.

The advanced class in drawing is working on a camshaft, crankshaft, and connecting rod obtained from an old airplane engine. Carson Donley is working on a three-wheeled automobile chassis.

Science

The science classes are working on magnetism and electricity. This will comprise most of the work for this semester.

This week the eighth grade history classes have been finding out about slavery as an introduction to the Civil War.

Declension of pronouns and correct usage of pronouns have been interesting work for the eighth grade English classes.

A new line of work has been taken up by the eighth grade Civics workers. They are watching and reporting on different things that happen in Congress.

The seventh grade history classes have been learning about the French and Indian War this week.

Commercial Classes

The studying of business forms and vouchers including invoices, receipts, bills, checks, deposit tickets, and how to check a bank statement with check stub balances is the work of the book-keeping class.

The blended characters nt, nd, md, bt, jent, pent, def, dev, tive, and shorthand outlines for the days and months, is the study topic of the shorthand class.

Letter writing, parts of a letter, folding, addressing envelopes, etc., is the work of the junior typing classes this week. They are also copying short letters to study the different forms.

The senior typing class is working on reports, manuscripts and other literary matter for this week's work.

Mathematics

To continue with the second semester the 7th grade classes are having story problems involving the time taken while traveling.

In the 8th grade solids, measuring capacity of bins, volumes of the school room, and measuring liquids started the second semester work.

Journalism

"Pyramid News Stories" is the title of the chapter being studied in the Journalism class. This Friday, instead of the customary essay on news of the week, the journalism class will begin the study of the news sections of Scholastic, in preparation for the Scholastic news examination.

Gym

The boys' gym classes have been putting their entire time on exercises in preparation for the gym show.

Tumbling, marching drills, parallel bars, the buck, the horse, and many individual stunts will be among the events of the gym show.

Languages

The French 11 students have begun the imperfect tense, which will hold their interest for some time.

During the past week the pupils of the French 12 class have finished reading the Jan. 1 and Jan. 15 issues of their newspaper.

Infinitives have been the interesting subject of the Latin 9 pupils.

Music

Don't forget the big orchestra festival to be held in Niles, Feb. 7. All schools in the county will participate in the affair, and as far as it is known at the present time, admission will be free.

Mr. Robinson's first hour band class is getting along in very fine style at present.

English 7-11-12

The seniors are spending a few days on their one-act plays which they are to stage. They are also taking up library investigation, encyclopedias, and Reader's Guide work in their exercise books.

After having drilled mostly on grammar and punctuation work in the past week, the juniors are plunging into a new study unit of literature, "The Age of Dryden and Pope."

The study of case is being covered by the 7th grade.

Who's Who

A cute and vivacious brunette is Lillias Peacock, one of the prominent members of the junior class.

Lillias moved here at the age of five from Bicknell, Ind., where she was born in 1917.

The entire school career of Lillias has been spent in the Buchanan public schools.

As Lillias is exceptionally good in athletics, she has been able to become an active member of the G. A. A. She is also a member and secretary of the Usher Club, and was a member of the Latin Club when a freshman.

Aviation is a very interesting subject to Lillias.

Wilson Crittenden, one of the well known members of the junior class, was born at Members, New Mexico, Feb. 6, 1915.

While living in New Mexico, he went to the St. Mary's Academy for four years. In 1928 he moved with his parents to Coloma, Mich. After completing his work in the grades at a country school outside of Coloma, he entered Watervliet high school. The fall of his freshman year, Wilson made the second team in football.

His parents came to Buchanan in 1932 to take charge of the Rex Hotel, and Wilson entered the Buchanan high school. This fall he went out for football and played on the reserve squad.

SCHOOL DAYS

ROUND ABOUT BUCHANAN

THAT \$2 HEAD TAX

Twenty Buchanan people had paid the \$2 head tax by Monday, according to City Treasurer Ada Dacy-Sanders, none of those paying making any objection either to the impost or its purpose.

There has been, in fact, much chafing about the tax, doubtless by those who have not paid. This opposition is doubtless due in part to the unfortunate publicity given to the compulsory features of the law, which stipulates that non-payment involves liability to a fine of not more than \$100 or to a jail sentence of not more than 90 days or both. Further opposition rose from the widespread distaste for any form of new taxation at the present time. So pronounced has been the feeling, from whatever source it rises, that many have declared their determination to refrain from paying and "see what happens."

It seems probable that a better understanding of the purpose of the tax and the reasons for its imposition would quiet much of the opposition.

The fight for an old age pension in Michigan has extended over a period of several years. Its staunch advocates were the Michigan Federation of Labor and the Fraternal Order of Eagles, while law-makers and politicians have used it as a political football, with little consideration for the humanitarian side of the plan.

When it came up for consideration at the last session of the Legislature, a tax on property was out of the question, due to the fact that the people of the State had adopted a constitutional amendment providing for a 15-mill tax limitation on real estate. The English 10 classes are beginning "Literature and Life, Book Three," one of the textbooks used in this course. They are taking the introductory work on Colonial America.

"Pyramid News Stories" is the title of the chapter being studied in the Journalism class. This Friday, instead of the customary essay on news of the week, the journalism class will begin the study of the news sections of Scholastic, in preparation for the Scholastic news examination.

English 7-11-12

The seniors are spending a few days on their one-act plays which they are to stage. They are also taking up library investigation, encyclopedias, and Reader's Guide work in their exercise books.

After having drilled mostly on grammar and punctuation work in the past week, the juniors are plunging into a new study unit of literature, "The Age of Dryden and Pope."

The study of case is being covered by the 7th grade.

Under the provisions of every person more than 21 years of age, except occupants of State or municipal institutions, must pay the State \$2 a year, the money to be used for the payment of pensions to indigent persons at least 70 years old. A limit of \$30 a month is embodied in the law. The penalty prescribed for non-payment of the tax is a fine of not more than \$100 or a jail sentence of not more than 90 days, or both. Even if every one should pay this head tax, including the 14 per cent of the State's population on welfare lists, the receipts for the year would not exceed \$5,600,000. State officials believe that pension payments will total three or four times that amount.

Registration Order Started It The first public outcry against the tax occurred when the registration of persons over 21 years of age was begun. Miss Emily Mershon, State Welfare Director, apparently decided that while a registration of this sort was to be made, it might be advantageous at the same time to obtain additional information so as to secure a more complete picture of the employment and welfare situation in the State.

The registration cards bore questions concerning information not specified in the law. Frank R. Warner, Sault Ste. Marie attorney, invited a test case when he refused to give information other than his name and that he was over 21. He contended that was all that was asked in the act and charged the other detailed data sought were superfluous and "possibly for political reasons." While preparations were being made to obtain a warrant for his arrest, however, orders came from Miss Mershon's office advising enumerators not to be insistent upon obtaining answers to the extra-legal questions.

The State Legislature appropriated \$25,000 for the cost of the State-wide registration. The work is being conducted by the county clerks of the counties, who engage the enumerators and pay them from 2 to 4 cents for each name, depending upon the nature of the community. The counties are paying the enumerators, upon the promise of reimbursement by the State.

Mr. Warner also succeeded in getting the Circuit Court to grant an injunction restraining the Chippewa County Board of Supervisors from appropriating the sum of \$1,200 to carry on the census work. In Kent county similar action was taken.

Frank D. Fitzgerald, Secretary of State, who recently announced his candidacy for the Republican nomination for Governor, grabbed a chance to capitalize on the controversial issue. While declaring he favored the principle of old age pensions, Fitzgerald attacked the practice of asking needless questions, and he contended there was no need to have an "army of enumerators" employed, when the law provides penalties for failure to register. He claimed that instead of costing \$25,000, the registration will come up to at least \$120,000.

Demands for repeal or revision of the Old Age Pension Law come from various quarters. At its recent convention the Michigan Grange adopted a resolution in opposition to it. The claim that the old age pension will eliminate the porchouse has been criticized by the Upper Peninsula Association of Superintendents of Poor, who conducted a survey of twelve infirmaries in the northern part of the State and found that 49 per cent of the inmates were less than 70 years of age and therefore not eligible for pension.

Advocates of the plan, such as State Senator W. F. Doyle, Me-nominee, insist that the law is a start in the right direction, and argue that such defects as the tax provisions and the minimum age limit can be remedied later.

Revision of the Old Age Pension Law will be sought at the next session of the Legislature. The Legislative Council, a bi-partisan body of legislators, who draft legislation for presentation to the Legislature between sessions, has one of its sub-committees giving study to means of drafting a more workable law. The administration has indicated that it has little hope that the necessary funds can be collected with the head tax, and is reported to be considering a plan for tapping the revenues from liquor taxes.

Clara Bow Back Again in "Hoopla" At Hollywood!

Clara Bow comes to the Hollywood Theatre Sunday in her second starring picture in two years, "Hoopla." This production, scheduled for a three day run, is the screen adaptation of John Kenyon Nicholson's stage success, "The Barker." Frank Lloyd, widely heralded as the maker of "Cavalcade" is the director of this new Clara Bow film.

The background of the story is a country carnival and it presents Miss Bow with a new type of environment. Against its ever-changing nature, she offers what has been heralded as her most important role. She plays the part of a carnival dancer who sets out to win the love of a young man worlds removed from carnival life. She starts on her venture as the result of a wager, but finds herself enmeshed in a romance that is entirely strange to her. It has a wholesomeness and a sincerity with which she is wholly unfamiliar. It is the method in which this experienced woman works out her life to encompass a simple love that provides Clara Bow with what is reported as the perfect vehicle.

The supporting cast of "Hoopla" includes Richard Cromwell, Preston Foster and that inimitable little English comic, Herbert Mundin. "Hoopla" is an enjoyable picture by reason of its light-humor and the brilliant playing of the fiery and tempestuous Clara Bow.

El Brendel comes to the Hollywood in "Olson's Big Moment," feature number one of another double feature bill tomorrow (Friday) and Saturday of this week. Walter Catlett has the leading supporting role with the Scandinavian comedian. The film pictures two serious individuals, playing their roles in dead earnest. But the situation in which their mistakes place them are as hilarious as you have ever witnessed.

Sharing the above program as feature number two is the story of what happens when the son of a police officer falls in love with the sister of a racketeer, the theme of the new Columbia production, "Shadows of Sing Sing." Bruce Cabot is the boy and Mary Brian is the girl. Chapter number 9 of "Gordon of Ghost City" is the added feature to this deluxe screen program.

Paramount's picture of the San Diego waterfront, "Hell and High Water," written by Max Miller, who authored "I Cover the Waterfront," plays at the Hollywood on Bargain Nights next week Wednesday and Thursday. The film features Richard Arlen, Judith Allen and Charley Grapewin, and is in a few words, a brand new treatment of what happens when a man who thinks women are poison and a girl who hates men, fall in love.

The "Pop" Concert

A "pop" concert is simply an abbreviated identification for a popular concert. The term originated in London in connection with a series of concerts started at the historic St. James' hall by Sir Julius Benedict in 1868, under the patronage of Chappell and Company.

Palisade Glacier

Palisade Glacier is in Inyo county, California, near the crest of the Sierra Nevada mountains, on the northeast flank of Mount Winchell, at the head of Big Pine creek. This glacier is 12,200 to 13,500 feet above sea level and is the largest of the small glaciers in the Sierras, measuring about three-eighths by seven-eighths of a mile.

A Great Wilderness

Between the borders of Minnesota and Ontario, near Rainey Lake east to Lake Superior, lies a great wilderness area as large as Massachusetts, Connecticut and Rhode Island. There are more than 3,000 lakes, pure and undefiled—the glory of the region.

Deposit Insurance Brings Money Back To Michigan Banks

A flood of hoarded cash, heretofore held in safety deposit boxes and various other hiding places outside of banks, has started to flow into savings accounts of the banks, since the insurance of deposits up to \$2500 became effective Tuesday, bankers in all parts of the state report. While they cannot estimate how much of this extraordinary flow of funds into the banks can be attributed to the renewal of confidence inspired by the insurance, feature the bankers state that a very large portion of it can be said to be money coming out of hiding places. All banks are experiencing heavy withdrawals from safety deposit boxes where idle funds draw on interest. Money is also coming out of postal savings accounts into the banks, it is said.

All but six of Michigan's 239 state banks have placed themselves under the provisions of the Federal deposit insurance, Gov. W. A. Comstock stated recently. He also announced that R. E. Reichert, Michigan banking commissioner, is conferring with Federal officials in an effort to obtain approval for the remaining six banks. All national banks in Michigan have automatically become members of the insurance corporation.

All May Qualify

"Special circumstances have delayed action in the case of the six banks," the Governor said. "They have a total of about \$15,000,000 in deposits. We are trying our best to get them under the F. D. I. C."

Banks participating in the Federal Deposit Insurance fund will not be listed publicly by the corporation, it was announced in Washington by Walter J. Cummings chairman, but banks which are members of the fund may advertise this fact.

The temporary insurance, effective until July 1, 1934, insures in full all deposits of \$2,500 or less in member banks, both commercial and savings. After that date the Government will place in effect its permanent insurance on deposits, with deposits up to \$10,000 insured 100 per cent; deposits up to \$40,000 insured up to 75 per cent; and deposits in excess of \$40,000 up to 50 per cent. Since most deposit accounts fall below \$10,000, the inauguration in July of the permanent insurance plan will mean 100 per cent guarantees for the general run of accounts.

Banking Commissioner Reichert in reviewing the hectic banking year just ended in Michigan, makes the statement that not to exceed 10 per cent of the original deposits in state banks of Michigan will be lost as a result of the crisis of the past year. He prophesied that by April 1 approximately 97 per cent of deposits in state institutions either will be made available 100 per cent or will be adjusted under reorganization plans.

Of 422 state banks affected by the February holiday proclamation approximately 55 remain in a "doubtful condition" and probably will be closed permanently, Reichert said. They were described as small institutions, with aggregate deposits of about \$10,000,000. They are in the hands of conservators and depositors will have some recovery.

At the expiration of the national and state banking moratorium 195 of the 422 state institutions were able to open on a 100 per cent basis. Another 89 since have completed reorganizations, making 284 which have resumed regular banking operations. The deposits in these banks amount to \$322,135,000, of which \$291,932,000 has been made available to depositors.

Eighty-three additional banks are in the process of reorganization, of which ten have been assured of licenses to reopen.

Banks Get R. F. C. Loans

Twenty state banks have had R. F. C. loans to aid in reopening, and applications for loans for 32 more are pending. In the case of most of the banks now working toward reorganization it is expected at least 50 per cent of the deposits will be released as soon as plans are approved. Within the next few months it is estimated depositors will have had available \$315,252,000 of the \$418,100,000 on deposit in state banks when the holiday was declared.

Fourteen trust companies were operating when the moratorium was ordered. Nine were reopened on a 100 per cent basis and two have since been reorganized.

Representative Clarence J. McLeod, of Detroit, has made public a plan for reopening all closed national banks by means of R. F. C. loans of the full book value of their assets, coupled with restrictions against large withdrawals of deposits. The plan, which McLeod said he would embody in a bill to be submitted to the January session of Congress, would provide for liquidation of bank assets by the R. F. C. over a period of 10 years. Debtors of the banks would pay the R. F. C. in "easy installments" with interest at not more than 4 per cent.

Paw Paw Bank Closes

While the First National Bank of Paw Paw closed its doors last week word was received that the R. F. C. has granted a loan to permit the reopening of the Paw Paw State Savings Bank. The loan is for \$58,500. The national bank has been operating under a conservatorship and plans for its reopening were denied and a receiver appointed with Cecil A. Runyan in charge. PIONEER TEACHER TO OBSERVE 91ST BIRTHDAY FRIDAY

Taught School in Buchanan District Before Civil War For \$2 Week and Boarded Around.

Mrs. Flavilla Quint Spaulding, pioneer teacher and long-time resident of Buchanan, will observe her 91st birthday tomorrow, Jan. 19, at the home of her daughter, Mrs. Dell Kempton.

Mrs. Spaulding is in the enjoyment of good health and faculties with the single exception of her eye sight, which has failed in the past few years. She is still possessed of excellent hearing, a keen mind and a memory that makes her a most interesting conversationalist on old-time topics. She was born in Somerset county, Maine, Jan. 19, 1843, the daughter of J. C. Quint, and came to this district with her parents in 1854. They lived in several places in the forest near Buchanan and finally settled on the farm which her father developed, a half mile north of Buchanan.

She began teaching at the age of fifteen years at the Hill school northeast of Glendora, receiving the munificent wage of \$2 per week plus free board which she received by moving from time to time around with the patrons. From 1859 to 1861 she taught in the primary department of the St. Joseph schools, where she had 75 pupils and received \$3 per week, out of which she paid \$1.50 per week board.

In the same room with Mrs. Spaulding while she was being interviewed were four generations, consisting of herself, her daughter, Mrs. Dell Kempton; her granddaughter, Mrs. Floyd Smith and her great granddaughter, Carolyn Smith, age 6 months.

CWA Workers Open 8th Pottawatomie Grave Yesterday

CWA workers exhumed the 8th Indian grave since piling stumps on Moccasin bluff yesterday. The bones of the last found were the best preserved of any discovered. They were entangled in the roots of a large stump of a tree which had evidently grown up after the burial. Juggling from the size of the stump it was evident that the body had been buried nearly 200 years ago.

Louis Olson, Owner Old Stryker Place On River St., Dies

Louis Olson, 56, owner of the beautiful summer home known as the Stryker place near the River Street bridge, died Friday at his home at 19th street and South Kaddie avenue, Chicago, as the result of a heart attack. He purchased the summer home about two years ago and had improved it and largely restored the former beauty of the place. He had been superintendent of the Oak Hill cemetery, Chicago, for 22 years. He is survived by his widow, Helen; by a son, Louis, Jr.; by two brothers and five sisters.

A Profitable Investment

EVENTS of the last few years have caused many people to ponder the insecurity and uncertainty of the average types of financial investments. This may lead to more spiritual concepts of substance, because a careful consideration discloses the fact that materiality in any form is unsubstantial, insecure, and uncertain; whereas the things of God are substantial, secure, and permanent. While legitimate investments, helpful to humanity, are quite proper when correctly and wisely made, nevertheless financial interests should at all times be secondary in consideration, and spiritual understanding of the deep things of God, primary.

To invest means, among other things, to confer, to endow, to invest (in). One of the definitions of "vest" is, "To put in possession so as to give an immediate fixed right of present or future enjoyment." How descriptive is this definition of the result which one obtains who turns to God, Spirit, for guidance, protection, supply, and peace! Reliance upon God indeed vests the reliant one with "an immediate fixed right" to enjoy the blessings from God's power. This reliance is not too transcendental in its adaptation or realization at this present and in all time. Centuries ago Christ Jesus used a parable to illustrate the value of the kingdom of heaven. He told of a man who found a "pearl of great price." Note that while it was a pearl of great value, the man who found it was required to purchase it. So highly did the man value this pearl, and so much did he desire to possess it, that he "sold all that he had, and bought it." At another time Jesus said, "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." Surely there could be no more profitable investment than the kingdom of God and His righteousness, and no greater profit could be obtained from an investment, for the promise is that not part of, but "all these things shall be added unto you."

By his words and works Christ Jesus, the Way-shower for mankind, revealed that it is always practical to seek first and always to do the will of the Father. His life demonstrated that such simple trust in God is the only really profitable investment and is entirely practical in human experience. No one, before or after Jesus' time, has ever shown forth, as did he, the wealth and profit which such an investment produces. His spirituality derived from God, Spirit, was sufficient to meet all human needs, even to raising the dead, stilling the tempest, walking on the water; and we may conclude that his own human need was provided for as well, without lack or limitation. His was the seamless garment of high price in those days. He had sufficient money to meet the financial needs, such as paying taxes and contributing to the poor; and he was not at a loss to know what to do "with the multitudes in the desert places. So practical was his faith and trust in God that he was able to feed all and leave a surplus.

Nor was the proof of God's ample reward confined to Christ Jesus or his time. Notable among those whose faith and trust in God was abundantly rewarded is Mary Baker Eddy, the Discoverer and Founder of Christian Science. Like the great Master, she not only was endowed with pure spiritual understanding, but was able to demonstrate in practical manner that her faith in God was well rewarded in freedom from lack and limitation. She proved that pure spirituality cannot be denied expression. And in Christian Science, Mrs. Eddy has given the rules which enable others to invest their all with God and receive abundantly and the good which He has prepared for all His children.

As the understanding of God, good, unfolds in human consciousness through the study of Chris-

tian Science, the student finds that this correct knowledge of God brings healing from disease, deformity, discomfort, and fear. It comforts the sorrowing, binds up the broken-hearted, and encourages the weary ones. Like the man who found the "pearl of great price" and sold all that he had in order to obtain it, the student of Christian Science finds it advisable and necessary to dispose of false material concepts as soon as possible and strive to gain the pearl of spirituality, the consciousness of God's presence, power, and Science. "Seeking is not sufficient whereby to arrive at the results of Science; you must strive; and the glory of the strife comes of honesty and humility," writes Mrs. Eddy (Miscellaneous Writings, p. 341). In the transitional state of unconsciousness these words on the same page are encouraging: "Do human hopes deceive? Is joy a trembler? Then, weary pilgrim, unloose the latchet of thy sandals; for the piece whereon thou standest is sacred. By that you may know you are parting with a material sense of life and happiness to win the spiritual sense of good. O learn to lose with God; and you find life eternal; you gain all!" —The Christian Science Monitor.

Ohio Motor Bureau Ruling in Favor of Mich. Car Factories

Lansing, Mich., Jan. 15—Every automobile factory in Michigan is favorably affected by the recent ruling of the Bureau of Motor Vehicles of Ohio.

Several months ago, Ohio ruled that starting in 1934 it would not permit driveaways to pass through the state unless each vehicle bore plates issued to a bona fide Ohio dealer. This would have prevented Michigan's principal product to have been transported through that state.

But as a result of a reciprocity agreement worked out between the two states, Michigan will recognize Ohio driveaways and that state will allow Michigan cars to be driven through Ohio when equipped with two plates. In the past it has been the usage to use but one plate on a car being driven from factory to dealer, but Ohio now announces that each vehicle must be equipped with two plates.

Note: "The Holy Spirit was the highest of all gifts that He could solicit from His Father for the exaltation of His people. The spirit was to be given as a regenerating agent, and without this the sacrifice of Christ would have been of no avail. The power of evil had been strengthening for centuries and the submission of men to this Satanic captivity was amazing. Sin could be overcome only through the mighty agency of the Third Person of the Godhead, who would come with no modified energy, but in the fullness of divine power. It is the Spirit that makes effectual what has been wrought out by the world's Redeemer, Wonders of redeeming love and grace!

"Life" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, Jan. 21.

Among the Bible citations is this passage (Proverbs 4:23): "Keep thy heart with all diligence; for out of it are the issues of life."

Correlative passages to be read from the Christian Science text-book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 167): "We apprehend Life in divine Science only as we live above corporeal sense and correct it. Our proportionate admission of the claims of good or of evil determines the harmony of our existence, our health, our longevity, and our Christianity."

HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all.

Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No alcohol (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today, 25¢ at drug stores.

Refuse "something just as good" for it may strip your bowels or even melt a rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. ©1933, C.L. Co.

Scrip for the Journey

Possibilities "A great artist can paint a great picture on a small canvas"—C. D. Warner.

Most of us occupy rather insignificant places in life, as the world estimates significance. We are not robed in the purple of kings. The plaudits that princes hear are not for our ears. We walk down the street and nobody turns around for a second look.

We are not burdened either with prestige nor power nor possession. Life may lack all these externals and yet not be futile. In fact life may lack them all and still be fine and full and free.

The sublime is not dependent on space. Values are not in volume. Magnificence is not measured by massiveness. Lovely things need not be large. Beautiful things need not be big. A rude manner cradled the loftiest life ever released into the stream of time.

Bethlehem, a little town of narrow streets and narrow people, was the scene of what Dr. Harry Emerson Fosdick calls "the most place on this planet. Palestine, limited in extent and circumscribed in area, was big enough for the noblest truth ever uttered by man and the fullest human life ever lived on the earth.

Within a little space life can be great—great in its sympathies, great in its devotions, great in its kindnesses, great in its unselfish ministries. Greatness of that sort is a possibility for any man or woman who will pay the price.
