

Missing Girl Restored To Home As Two Youths Vie To Shoulder Blame

Youths Will Be Brought to Book For Escapade at St. Joseph This Morning; Charges Abduction

Later, Anthony L. Gancer made a second statement at the office of the county sheriff yesterday afternoon, corroborating in all essential details the statement of Vincent DeNardo and admitting that the latter was the intended bridegroom rather than himself.

The Buchanan community, held in suspense for three days by the mysterious disappearance of Miss Ruth Strunk, popular member of the junior class of the Buchanan high school and daughter of Mr. and Mrs. Frank Strunk one of the most respected and best known families in the community, woke to a most welcome relief yesterday morning with the definite tidings that the girl was back at her home entirely safe and unharmed although nervous and badly shaken after her experience.

It is unfortunate that as the Record goes to press a more definite statement cannot be clearing up other angles of the case affecting the young men who are for the present at least, under legal restraint.

Since the first report of the unfortunate incident became public the situation has been one of those most unpleasant to the considerate newspaper where two main considerations, first the necessity of respecting the interests of the girl and of her family and second the clamor for information of those who are genuinely interested must be reconciled as far as possible.

The various reports issued from different sources up until the time of the girl's return and to some extent until the present have been contradictory.

At the time of going to press the following story is as nearly as the succeeding events can be reconstructed from reports that contradict in the most essential details.

Miss Strunk attended a small party of friends at the C. L. Wilcox home Saturday evening. She left about 10:30 p.m. in her own car taking Max Dreitzler to his home. She left him there and that was the last that was definitely known of her whereabouts until she was located at the Chicago Tribune tower Tuesday night.

On the alert for every possible clue, the authorities turned to Vincent DeNardo, son of Ralph DeNardo, who was known to have been a suitor of the girl and who was reported to have been angered in the past by the opposition of the family.

A graduate of the Buchanan high school with the class of 1932 and a freshman at the University of Notre Dame, young DeNardo was known as a youth of good associates and reputation but of a hasty and excitable disposition which lent color to the possibility that he might have committed himself unfortunately on impulse.

He was taken into custody and questioned on his return from South Bend Monday evening. He first divulged to relatives that he had a letter from Anthony L. Gancer, ex-soldier and resident of this place intermittently for several years, giving an address in Chicago where the girl could be found.

The fire department answered a call about 8 p.m. yesterday to extinguish flames in the office of the High Grade Oil company at the corner of Portage and Railroad streets, caused by the explosion of gasoline fumes.

On the return of the girl DeNardo was released under \$2,000 bond. August Roti, who had been held solely because the flight had been made in his car, was also released under \$2,000 bond.

DeNardo merely aided. Deputy Sheriff Johnson, in charge of the office at St. Joseph during the invalidity of Sheriff Miller, stated yesterday morning that he had received a statement from Miss Strunk to the effect that she had been forced to go to Chicago against her will.

two telegrams came from Gancer, both on Tuesday, one directed to Vincent DeNardo at Notre Dame and the other to Mrs. Myra Hess who had befriended Gancer as a homeless youth.

Both wires were turned over to authorities and the police moved to intercept him when he called for a reply. First Western Union offices in Chicago were asked to centralize calls at the main station on LaSalle street. There the Chicago police w.a.ed. with local authorities concealed nearby.

Gancer did not go until 9:30 p.m. His version of the movements of the girl meanwhile will be told later. He was arrested there by police while a Chicago Tribune reporter got in touch with Miss Strunk, took her in charge and communicated with the Strunk home, assuring her father that she would be held.

Strunk left immediately with Deputy Sheriff Raymond Granzow. They located the girl and returned early yesterday morning with her and Gancer. They drove up US-12 to St. Joseph where Gancer was left in the county jail and they drove on to Buchanan, returning Miss Strunk to her home. There she was placed in bed and orders were given that she should be disturbed by no one for two days.

Before the Chicago police turned Gancer over they secured a statement which contradicted much of DeNardo's previous statement. Gancer said as follows:

He met Miss Strunk in Buchanan Thursday evening and there she expressed dissatisfaction and a desire to go away. He stated that he asked whether she would be willing to go with him and she agreed. He said that he got the said DeNardo as a "pal", meeting him on the Wagon stone road two miles west of Buchanan.

His statement corroborated DeNardo's story as to the disposition of the Strunk car. Then he said DeNardo took them in the Roti car to 394 North Sheridan Drive, where he let them out and left for Buchanan.

He said that he and Miss Strunk walked over to Broadway, thence to 5730 on that street and engaged two separate rooms at a rooming house. He told Chief Mitchell that he had been entirely innocent in his conduct and that he had planned on marrying the girl.

He intimated that the alleged romance was entirely between Miss Strunk and himself and that DeNardo merely aided. Deputy Sheriff Johnson, in charge of the office at St. Joseph during the invalidity of Sheriff Miller, stated yesterday morning that he had received a statement from Miss Strunk to the effect that she had been forced to go to Chicago against her will.

MILK TESTING WILL BE AID IN COW REDUCTION

President Dean of South Berrien Assoc. Proclaims Advantages of Membership at Annual Meeting.

Douglas Dean Niles, re-elected president of the Southern Berrien Dairy Herd Improvement Association, stated as follows at the organization meeting held at the St. Joe Valley Shipping Association held Wednesday evening of last week:

"With the government's wheat allotment program already functioning and the corn and hog allotment going into effect the dairy farmers will be next in line for regulation of their surplus production. In view of the contemplated reduction in the number of cows, the members of this association are sitting pretty, as they will know just which cows they can most profitably sacrifice while in the untested herds some of the better producers may go on the block.

Anyway, in a time of low profit margins, only the best producers are paying a net over food costs. Testing proves absolutely which are the good cows."

A. C. Baltzer, head of the dairy extension department of Michigan State college, principal speaker at the annual meeting, admonished the South Berrien dairymen to grow more alfalfa, to seek greater consumer outlet and to kill off all poor-producing cows.

He declared that we should pattern after Denmark, which has taken a forefront position in the production of dairy commodities, leading the world in the production of cheese, and where 50% of its cattle association tested. Michigan, he said, has but 1.2 per cent of its cattle in testing associations.

There are 900,000 cattle in Michigan owned by 90,000 dairymen and from these cattle comes 28 per cent of the state's total farm income. Five major dairy products produce 26 per cent of the state's total farm income.

Harry J. Lurkins, Berrien county agricultural agent, who also spoke, warned dairy farmers that they were not making enough good alfalfa hay.

"There is no group of workers today in better shape than the dairy farmer, and no dairy farmer in the country is in better position for money-making possibilities than is the dairy farmer of Berrien county. We don't seem to appreciate that we are at the very doors of Chicago and have the world's best market at our very door.

"However, we have gotten ourselves into the present mess, and we are to blame. Unless you do things now yourselves, there may come a time when someone will tell you what to do and how to do it.

"It will be a Godsend when Berrien county moves to eliminate all non-producing and poor-producing cattle. But, there is one thing I am very glad for, and that is that Michigan is among top rank in states having tuberculosis-free cattle."

Eddie Omland, who is completing his first year as tester for the association, gave a glowing report of the year's activities. He declared that the membership was larger and herds were doing better than ever before.

Although feed costs are higher, he declared that records did not suffer and have come through all right. One herd in the association will make better than 500 pounds when the records are in at the close of the producing year on March 31.

Four herds will make better than 400 pounds average, and many herds will make between 300 and 400 pounds. The association's average cost for producing a pound of butterfat was 15c a pound.

Douglas Dean Niles, who presided at the annual meeting, is president of the association, and Adolph Knott of Niles, is secretary-treasurer. Three new directors were elected at Wednesday night's meeting. These were Khas. Smith of Galien, Harry Slight of Berrien Springs, and Amos Harroff of Buchanan, who succeeds Ralph Sebasty, Buchanan, Doan Straub, Galien, and Fred Franz, Niles, whose terms expire. The three newly elected directors will serve on the association board with President Dean and Secretary-Treasurer Knott.

At the next board meeting officers for the coming year will be elected. Refreshments were served following the meeting, and a program was presented which included vocal duets by the Misses Mary and Elizabeth DeBois of Galien, and the former furnishing the guitar accompaniment.

TWO AUDIENCES ATTEND THIRD ANNUAL GYM SHOW

Colorful Displays of Acrobatic and Terpsichorean Skill Establish Popularity of Annual Event.

The combined boys' and girls' departments of physical education of the Buchanan high school gave their third annual gymnasium show Tuesday evening and last night to successive audiences that filled the gym, establishing the fact that this event is now accepted as one of the most popular events of the school year.

The crowd was generous in its expressions of enthusiasm for the stirring and colorful exhibitions of dancing and gymnastic art. The show was prepared by the high school physical directors, Alice Rothenbach and Harold Bradford, to demonstrate the actual service performed for the entire student body. The cast of performers numbered 490.

She and her mother formerly lived here and their many friends will be glad to know that they visit here. Miss Roe plans to spend the summer in Buchanan, Milwaukee, and other points with relatives.

Michigan Farm Credit Commission Has Been Organized

The Michigan farm credit relief commission was organized this week under the provisions of Public Act No. 12, passed by the November extra session of the State Legislature.

The commission, like many others set up during the present administration, is made up of three state elective officers, the state treasurer, the auditor general and the secretary of state, who receive no extra compensation for their services.

At the first meeting of the commission another administration economy was consummated, that of combining offices by the appointment of an executive secretary, Charles C. Wells of Traverse City. The new secretary is already an employee of the state treasurer's department in charge of the public debt division.

The functions of the commission are best revealed in the provisions of the act which created it. They are as follows:

"Sec. 3. The duties of the commission shall be to render aid and assistance to any person, persons, firm or corporation, directly or indirectly coming under or interested in the relief provided for by the Congress of the United States under the provision of part three of the emergency farm mortgage act of nineteen hundred thirty-three and amendments thereto. The commission shall have the right to make such rules and regulations necessary to carry into effect the provisions of this act."

"Sec. 4. Any person, persons, firm or corporation desiring to take advantage of the emergency farm mortgage act of nineteen hundred thirty-three and the federal farm loan act and amendments thereto, may request such aid and assistance from the commission herein created, and if it appears to the commission that such applicant comes within the terms of said federal act, it shall be the duty of the commission to render and extend to said applicant such aid and assistance as may be necessary.

"Sec. 5. Upon the receipt of any application for such aid and assistance from any person, persons, firm or corporation and if in the judgment of the commission or the executive secretary of the emergency farm mortgage act of 1933 and the federal farm loan act and amendments thereto, can be consummated, it shall be the duty of the commission to present the case to the regional office of the farm credit administration, or any agency thereof."

Howard Barbour arrived home Thursday from Coronado Beach, Fla., where he had spent five weeks directing the rehearsals of the Whate family orchestra ensemble, and also in arranging and producing new numbers for their concert tours. REMAINS OF E. B. STEELE PAST COMMANDER LEGION, LAID AT REST WITH MILITARY HONORS

Blossom Queens Alumni Sorority to be Held April 7

There are women's clubs of every description throughout the land, and some of them are quite exclusive. But southwestern Michigan claims to have the most unique of them all—and its membership requirements are difficult to meet.

It is the Blossom Queens' Alumni Sorority. The only persons who can join it are girls who have worn the crown of Blossom Queen in the southwestern Michigan annual blossom festival in past years, and girls who have been members of the queens' courts.

The purpose of the organization is to promote interest in the blossom festival each year. Since it originated in 1931, three large chapters have been formed in southwestern Michigan cities, and more are being organized.

Its first major social endeavor was made in December, when a holiday ball was given at the Hotel Vincent, St. Joseph. It attracted guests from all parts of southern Michigan and was the biggest winter social event in the fruit belt.

A post-Easter ball will be given by the sorority at the Hotel Vincent, Benton Harbor, the night of Saturday, April 7. Like the holiday ball, it will be a cabaret dance interspersed with an entertaining floor show. Dancing to the music of Del Pino's orchestra of Benton Harbor, will begin at 10 p. m.

Following the processional played on the organ by Mrs. Thomas Rice, the hymn, "O Love that will not Let Me Go," was sung by Mrs. E. C. Pascoe. Rev. Rice gave a brief eulogy, dwelling on three attributes of Gene's character. First, his patriotism; his enlistment; his willingness to die, if need be, for his country, picturing him as he himself would remember him best, in his uniform on Memorial Day at the head of his company, a fine example of clean American manhood.

Secondly, in his home life, as a family-loving man and lastly, of his friendliness, closing with the words taken from a caption beneath Gene's picture in an Albion college publication, which epitomized not only the sentiment of the student body there, but also of those of us here who knew him best, "Everybody's Friend, that's Gene."

An escort of honor composed of members of the American Legion of which Gene was a Past Commander, followed on foot, the flag draped casket, the mile and a half to Oak Ridge cemetery.

At the grave the services conducted by the American Legion concluded with the reading of the poem by Robert Richardson, "Good Night."

Daubert Lundgren Died Tuesday at Roswell, N. Mex.

Word was received here Tuesday evening that Daubert Lundgren, 38, former Buchanan man and the son of Mr. and Mrs. M. Lundgren, died at Roswell, N. Mex., at 5 p.m. Tuesday evening, the cause of death being tuberculosis contracted while he was serving in the army in France during the World War. He was born in Chicago, Feb. 5, 1896.

He had gone to Roswell for his health in 1925 and had lived there since. He is survived by his widow, the former Dora Smith of Coloma, a sister of Mrs. Charles and Mrs. Andrew Lyddick. He is also survived by his parents, who have been at Roswell since late in November, and one sister, Bernice Lundgren Wagner, the wife of Ira Wagner, Jr. The widow and the parents are en route east with the body. Local relatives had not received word last night whether the funeral and burial would be here or at Chicago, where he was born. He was educated in the local school and at Chicago Technical College. He was a former member of Ralph Rumbaugh Post of the American Legion.

City, Townships To Hold Annual Election Monday

The annual spring city and township elections will be held locally Monday, April 2. Polls will be held at 114 North Oak street for Precinct 1 and at 109 North Oak street for Precinct 2. World War Veteran Succumbs to Repeated Pneumonia Attacks Thursday; Member R. O. T. C.

Last rites were held Saturday afternoon for the remains of Eugene B. Steele, past commander of Ralph Rumbaugh Post of the American Legion, who was laid to rest in the Oak Ridge cemetery with military honors by his comrades.

Mr. Steele died early Thursday morning, after a week's illness with pneumonia. It was the fourth attack of the disease.

The following world war veterans took part in the burial ceremony: Color Guard, Dwight Markham, George Roe. Color Bearers, George Chubb, Herbert Huebner. Bugler, John Hess.

Pall bearers, Tom Burks, Arthur Mann, Chalmers Luke, Herbert Wallquist, Ray Babcock, Will Seyfried.

Firing squad, Henry Zupke, Bob Spaulding, Charles Evans, Charles Miller, Steve Rudoni, and Fred Schwartz.

M. H. McKinnon acted as the officier in charge. The following accounts of the funeral and the obituary were prepared for the Record:

In a church taxed, to its capacity, Buchanan paid its final tribute to one of her favorite sons, with simple but beautifully impressive services, Saturday afternoon.

Following the processional played on the organ by Mrs. Thomas Rice, the hymn, "O Love that will not Let Me Go," was sung by Mrs. E. C. Pascoe. Rev. And men were men, too, when Jo stirred the countryside with her all but daring refusal to marry Laurie, the rich boy next door, and her goings-on in the great city.

Into the clothes and character of the dashing Laurie comes Robert Montgomery. Paul Lukas is the lumbering, lovable Fritz Bhaer, the learned man of the city whose courtship ends in the old homestead of the Marchs. John Davis Lodge is Brooke, who married Meg.

Others in the cast that embraces more than twenty popular players are Edna May Oliver, Henry Stephenson, Spring Byington and Mydia Westman. Serpentine Mother of Asbestos When the earth's crust first hardened into rock, millions and millions of years ago, some of the veins in the rock were filled with a stuff called serpentine. It is this serpentine which is the mother of asbestos. Mined from rock in Georgia and Canada, serpentine is ground up into soft white pulp which is very light and quite tough. The pulp is then broken up, cleaned and carded like wool for weaving into cloth.

Work vs. Genius The earlier we learn that work is a more reliable tribute than genius, the sooner we lay a firm foundation for our own advancement.

Here's Change of Color The change in color from brown to white in the fall and back again in the spring, characteristic of the varying hare, is accomplished by moulting the old coat and growing a new one. Should a patch of hair be forcibly removed from one of these animals in the middle of a season, the new hairs grown to cover the spot thus made bare will be of the color of the coming season's coat.

## Business of Probate Court During Week

Judge Malcolm Hatfield entered the following orders in the Probate Court during the past week:

Petitions were filed asking for appointment of administrators in the estates of David G. Hartline, Mary Koch, Robert Tiefenbach, William H. Keefe, Jane Ryno, Celeste Parren and Fred McKee. ## New Ford V-8 Victoria Displayed Here

The newest and smartest of the Ford V-8 body types, the Victoria, with its smart lines reflecting the latest continental mode; (insert), a glimpse of the new divided front seat, which provides ample room for three persons.

THE Ford V-8 Victoria is on display in the showrooms of Ford dealers throughout the United States.

Aside from its attractive streamline contours, the new Victoria has two unique features. One is a divided three-passenger front seat and the other a large luggage compartment at the rear of the car. The new-body type has no lux appointments throughout. The interior is unusually spacious.

The new front seat is especially comfortable, and has the most desired features both of the full width front seat of the Fordor sedan and the individual front seats of the Tudor model. The front passenger seat may be tipped forward to provide access to the rear.

Baggage or other articles may be carried in the luggage compartment, with the compartment door closed, or, when occasion requires, the compartment may be left open to provide added space, and be protected with a canvas cover which is provided.

Collected and Edited By Members of the Student Body

## "Pines" Will Be Completed Week After Vacation

The Buchanan high school annual, published by the seniors through the Pines staff, under the direction of Mrs. Velma Dunbar, is to be completed the week after spring vacation. At the present time the annual is at the printers. To those planning to buy a copy of the Pines, the fact that there will be more for your money is very important. On a whole, this issue of the senior year book will be the greatest value presented to the student body for several years. The Pines will contain eight more pages than the issue of last year. Nine more pictures, pictures which add greatly to the value of the annual, are also present. Another added feature, made possible through the staff and Mrs. Dunbar, divisional pages, which are colored commercial art, are also present. Only a few copies remain to be sold and may be reserved for a down payment of 25c. The price of the annual is the same as formerly, 50c.

## STUDENTS LEARN ART MAKING SOAP

"Mant, smells just like a 'Keweenaw'."  
"Yeah, but it doesn't look like it. Cuck! Take that flame away, it's spattering all over me!"  
Such were the comments made during the chemistry students' laboratory hour this week when they learned the fundamentals of soap-making.  
Beef fat and a 33% solution of sodium hydroxide were the only ingredients needed unless a perfumed soap was wanted. Of course "sweet smelling" soaps need perfume.  
The fat was melted, causing the tempting odor of Hamburg, and after being cooled the sodium hydroxide was added. Then the mixture was heated again, soap being the out come.

## Good Deed Well Done

Audrey McClen, well-known singer, put forth a mighty effort in French class Tuesday when she translated her article in the French newspaper.  
Audrey seemed to be having a difficult time giving an account of the life and work of Couperin, a French musician.  
The article ended with "Couperin died in 1733." Everyone agreed that Audrey, nerves on edge by this time, was glad to get rid of him.

Afterward Audrey calmly stated "It would have been better for me if he had died several years before."  
But, kind reader, don't condemn Audrey too much. She really has a kind heart, and she is especially devoted to her several cats.

## Library

The student librarians this week have been getting a work-out because the library was recently painted by the CWA workers. The books all had to be taken off the shelves. The shelves were then taken out into the senior high study hall after which the books were put back on the shelves. The same procedure was followed when the shelves were moved back in.  
The librarians have been working their regular periods at this work. The tables have also been rearranged so that student requiring reference books will have more room to work.  
Many new books have been added this semester. The latest addition is the new set of World Book Encyclopedias. The old set of encyclopedias were taken out and put in one of the grade rooms.

## Brainy Senior is Caught Indulging in High Brow Reading

"Pss! look at Ethel. That must be an interesting book she is reading."  
"Yeah, she can always find the good books, but some of 'em are too intellectual for me if you know what I mean. I like romance."  
"Me too."  
Two solemn faced sophomores sat watching the upper-classman with wondering eyes as she literally devoured the small orange book during the sixth hour Tuesday.  
"I'd like to know the name of it. Just look at her eyes."  
"You're tellin' me? Look how quickly she turned that page!"  
As the curious sophomores started to resume their work, Ethel slowly moved the book over to give her more room for her elbow.  
"Lo! and behold! the sedate senior was reading 'Skippy'."  
Two pair of astonished eyes looked at each other, then roared greedily and a knowing look over-spreading the features of the once-curious soph.

## History 10

The life and career of Napoleon Bonaparte in France has been taken up by the tenth grade history class. They have also begun the study of the departments of government.

## Editorial

There must come a time for the end of everything. Consequently, the members of the faculty deemed it necessary to put an end to the destruction of school property. The recent painting of the school building justified the first decision of the interior of the building as it is. At present we have one of the finest buildings in this portion of the state: let's all co-operate and keep it as it is.

Many students, in their great rush to get home from school, cut across the lawn which the various members of the agriculture classes and squads of grade children try to beautify. The result is obvious; hedges trampled down, the grass destroyed, and the lawn ruined. As a campaign against this destruction of school property, the members decided to prohibit such proceedings and provide adequate punishment for any one who persists in doing such.

Due to the very unsightliness of the crowds of pupils who group outside the school doors as early as 12:45, the faculty decided upon the attitude of the members of the student body. If the students insist upon arriving early, the time from one to 1:10 will be utilized as a study period.  
The co-operation of the entire student body is needed to carry out these plans. If anyone is seen destroying property, marking on the walls, cutting across lots, or in any way damaging school property, it is the duty of every member of the student body to take efforts to prohibit such destruction. Only in this way will the plan succeed and the school grounds be kept in first class condition.

## History 8

The age of big business and corporation is being studied this week. The later problems resulting from this age and problems of immigration are also being gone over. Virginia Loinaugh, of the first section, made a perfect score on the industrial era test. Others receiving good marks are Burrell Weaver, Marthe Reed, and Charles Bainton in the second section.

## Carson Donley Gets Foreign Stations on Home-Brewed Radio

It takes no one hundred and fifty dollar radio to receive signals consistently from foreign short wave stations, as is evidenced by the fact that Carson Donley, local short wave radio enthusiast, reports reception from stations in Madrid, Spain; Bazanquilla, Colombia; Bogota, Buenos Aires, Argentina; and other foreign places.

This reception has all been with remarkable clarity according to those who have been present. All these stations have been received on loud speaker of a four-tube radio, built and designed by Mr. Donley.

Donley has been designing and building successful short wave radios for three or four years. At present he is working on a short wave transmitter and expects to have a station operating by the end of summer. A senior in Buchanan high school, Carson Donley is 17 years of age.

## Ouch!

"What happened?" said one.  
"Don't tell me that nurple ar now the fat!" exclaimed another, until Elouise Cquires, whose jaw was badly swollen and who was disgusted by the annoying questions, despairingly related to another curious one.  
"Well, I had a date yesterday."  
"And he treated you like that?" gasped the other.  
"Yes, he was terribly mean," sighed poor Elouise in mock dismay.  
"The brute! Who was he?"  
"The dentist!" giggled Elouise, as her friend uttered a groan of surprise.

## Aero Engineer Talks to General Science Classes

Richard Schram, engineer and technical advisor at the Niles Municipal Airport, spoke to the general science classes at the high school last week on the subject of "Aeronautics."

The theory of airplane flight explained by the principle of the kite was fully outlined by Mr. Schram, by the use of blackboard sketches, at the opening of his talk. Explaining the construction and the operations of the various types of planes, Schram displayed pictures of each and told of their design and performance.

"Contrary to popular belief, the seaplane is actually several miles per hour slower than the land plane, although the world's speed record, at 460 m. p. h., is held by an Italian seaplane, the Machi," stated Schram.

"This is due to the fact that the high landing speed, around a 150 m. p. h., necessitates a long smooth stretch for landing purposes."

"As there is no available landing space or the necessary smoothness at any airport, it is impossible to use a land plane with this high speed. As a result seaplanes are used and then only under favorable conditions, when the water is perfectly smooth, it takes a space of three to five miles to land a racing plane of this type safely."  
Mr. Schram also gave information on the construction and flight of the lighter-than-air craft, describing the various types, dirigible, blimp and free balloon.

## Gym

Providing that the new athletic field is in suitable condition, the annual inter-class track meet will be held the week after spring vacation. Because of wet weather and lack of facilities, this was not held last year.  
All gym classes, including the seventh grade, will meet at the new field during their regular class period after spring vacation. The first aid classes have been finding out how to care for burns and scalds.

## Typing

The eleventh grade typing classes are continuing their work on manuscripts and arranging title page.

## Citizenship 9

The making of the Constitution has been the subject of the ninth grade citizenship class.

## American Government 12

The topic of American Government has been discussed by the 12th grade history class.

## Class Activities

### Mathematics

The algebra nine classes are working on simultaneous linear equations. These equations help solve problems containing two unknowns.

The geometry students have been introduced this week to the subject of similarity.

The students of the trigonometry class have been studying the law of sines which shows that any two sides of a triangle are proportional to the sines of the two opposite angles.

The arithmetic seven classes are studying the areas of triangles and trapezoids.

The arithmetic students of the eighth grade are solving equations using more than one principle and by using an unknown.

### Geography 7

The seventh grade geography classes are studying Belgium, Netherlands, Holland, Norway and Sweden this week. Different persons in the class gave oral reports on Holland. Arlo Maxson brought in several books on the world war, in connection with the study of Belgium.

### Languages 9-12

During the past week and also this week, the freshman Latin students have been reviewing 25 forms each morning in a verb context. On a large chart, the class keeps score of each pupil's errors in their class work, they are studying infinitives.

The Latin 10 group has been learning parts from a Latin play, and has chosen from four casts the best characters, which consist of: Cherry Heim, Janet Kelley, Bill Habicht, Rosmarie Schlee, Ted Lyon and George Semple. These students will present the play for the Latin Club at its regular meeting.

For every day's work, one irregular verb must be learned by each French 11 pupil. The class is also working on relative pronouns.

The reading of French sports and games has been taken up by the senior French class.

## A BUILDER AND TONIC

Mrs. H. F. Kimmel of 212 So. Robinson St., Milwaukee, Wis., says: "I have found Dr. Pierce's Golden Medical Discovery to be very fine as a tonic, to build up one's system. It has proved good to drive away coughs and colds also. I have given it to the children for this purpose."  
Write Dr. Pierce's Clinic, Buffalo, N. Y. New size, tablets 50 cts., liquid \$1.00. Large size, tabs. or liquid, \$1.35. "We Do Our Part."

## Social Studies

Work in social studies the past week has consisted of studies of Germany and Switzerland. There was also a spell-down consisting of words found in the geography. When the time allotted for the spell-down was up, Ruth Jean Haslett and Martha Sands were still standing. The two sides of the spell-down were the Travel clubs.

Tuesday the new officers of the class were elected. They are: leader, Richard Watson, Councilmen, Ann Mogford, Martha Sands, Herbert Russell and Ed Miller.  
The class has been held in the cooking laboratory because the CWA workers have been painting the junior high study hall where the class ordinarily is held.

Bookkeeping  
The finishing of recording of the transactions for December in the practice sets is the interesting work of the bookkeeping class.

## FOOD FILE

a great convenience feature of the 20th ANNIVERSARY KELVINATOR

A PLACE FOR Everything

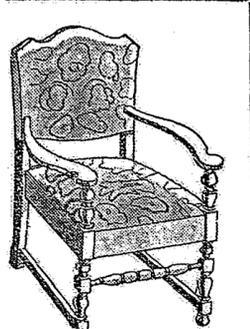

WHEN Kelvinator designed the new Food File, a tremendous forward step was taken in electric refrigeration. Now you file your foods—dairy products, fresh vegetables, left-overs, each in its separate and properly refrigerated trays. Nor is that all of Kelvinator efficiency. You get, in addition, the World's Fastest Freezing, a below-freezing compartment, fast freezing trays, and ample shelf space—all parts of Kelvinator's famous "4 refrigerators in 1." See the new Kelvinator before you buy.

4 Refrigerators in 1!  
Ask to see Kelvinator's "4 refrigerators in 1"—four distinct refrigeration services in the one refrigerator—and all fully automatic. No dials to set, nothing to forget.

**Christian Science Churches**  
"Reality" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world Sunday, April 1.

Among the Bible citations is this passage (Isaiah 64:4): "For since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen, O God, beside thee, what he hath prepared for him that waiteth for him."

Correlative passages to be read from the Christian Science text-book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 275): "To grasp the reality and order of being in its Science, you

must begin by reckoning God as the divine Principle of all that really is. All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God."

Lesson study: "The Holy Spirit and the kingdom of God." A spiritual Contest for the Supremacy of the World.  
Memory verse, "Seek ye, first the kingdom of God, and His righteousness; and all these things shall be added unto you." Matt. 6: 33.

Introduction: When Adam was created he was endowed with life which might have been as measureless as the unending years of eternity. Gen. 2:7. He was entrusted with the family name of God. Luke 3:38. He was given the dominion and rulership of this earth. Gen. 1:16. In other words he was given a kingship. Through disobedience Adam lost: a. the life that had been given to him; b. the family name; c. his kingship over the family inheritance. Jesus Christ came to this world to seek and to save that which was lost. This mission involved a spiritual warfare between Christ and Satan for the supremacy of the world. When Jesus went back to heaven, He sent the Holy Spirit, "the representative of the captain of the Lord's host to direct the battle."  
Preaching service at 11:15.

**First Presbyterian Church**

Speak out in acts; the time for words has passed, and deeds alone suffice.

That Box of Chocolates. Did kind Uncle John bring it to your ten-year-old Peggy, and your eight-year-old Bob? Just at first were they a little puzzled at the strange new flavor, and wish Uncle John had brought the usual kind? And then did they want some more, and yet some more, till no other kind would do? The following facts will make you understand WHY.

Since repeal freed the traffic in liquor there has been considerable disappointment because sales have not been as fast as expected. So some clever person has devised a way to create thirst in 30 million future citizens by offering the most popular confection of the day, chocolate creams—but not just the same kind the children usually buy at recess. These luscious chocolates are filled with alcohol, and the boys and girls find a wide variety ready to sample. They contain wine, rum, bourbon and cognac, or from seven to twenty-eight per cent pure alcohol, as chemical analysis has shown.

Philadelphia first disclosed this pernicious business being carried on in the City of Brotherly Love, and the Bureau of Foods and Chemistry of Pennsylvania started investigation. Dr. J. E. Harrison, consulting chemist for the Bureau declared: "There is 20.5 per cent of alcohol in the liquor contained in the chocolate covered shell of the rum, and 23.8 in the cognac."

"If you were to eat one-half dozen of either you would have taken into your system about as much alcohol as is contained in a good, stiff cocktail," Dr. Harrison said. Another statement from reputable physicians is that six pieces would induce a visible state of intoxication upon a child. Already there

was said to be a tremendous demand for the candies, especially by children from eight to fourteen years of age.  
The liquor candy has appeared in many states and advertisements to attract agents have been published in the press, of which this one is typical:  
"Salesmen, Distributors—Liquor-filled candy with real bourbon, brandy, etc., good profits; fast repeats; each piece a real mouthful!"

This shocking traffic is against the Federal law and the pure food laws of many states. But certain representatives of it declare their belief that all obstacles will soon be removed. Meantime they are pushing it by every means known to a trade well practiced in illegal methods. Only an aroused public opinion making itself vocal thru the country-wide press, can save the children from this dastardly attempt to create in them a strong appetite for beverage alcohol.

**U. S. Took Over Salt Springs**  
About the middle of last century several salt springs in Ohio, centering in Morgan, Athens and Meigs counties, were of such great value that they were reserved by the national government to prevent a monopoly in this necessity.

**Meaning of Escrow**  
The word has the same derivation as "scroll" and refers to a deed, bond or other written engagement delivered to a third person to be delivered by him to the grantee only upon the performance or fulfillment of some condition. "A deed deposited in escrow does not pass title until the condition prescribed has been fulfilled and the conveyance has been delivered to the grantee, in accordance with the terms of the escrow."

**Ancient Jewish Custom**  
Breaking a wine glass at a Jewish wedding is a symbol of the destruction of the temple in Jerusalem by the Romans in A. D. 70. The Jews throughout the ages have been enjoined never to forget this great tragedy of their national experience, and even in their moments of greatest joy they are to hear it in mind.

## Portage Prairie

A number of people from here attended the play Sunday evening at the Evangelical church in Buchanan given by a Sunday school class of the Evangelical church of Benton Harbor.  
Mr. and Mrs. Albert Rhoades had as their guests Sunday, Mrs. Ida Lybrook of Berrien Springs and Mrs. Emory Rough.  
John Gilson has moved from the

Carlin store on the South Bend road to the home of Mrs. Allie May-Rough.  
Miss Beatrice Brunk has returned to her home in Niles after spending the week-end with Mrs. Carol Houswerth.  
Mr. and Mrs. L. E. Rough entertained a number of relatives at dinner Sunday.  
While Mr. and Mrs. Ed Smith of Brick Road were in South Bend Saturday night they had some very unwelcome visitors, who ransacked their home from cellar to Garret emptying dresser drawers, tearing up beds and taking many of Mrs. Smith dresses and other wearing apparel, some money and a quantity of silverware which was highly prized on account of it being gifts from long ago. We surely hope the intruders may be apprehended.  
Mrs. W. H. Long entertained about 35 relatives and friends at dinner Sunday, honoring the 65th birthday anniversary of her husband. We all wish Billy many more happy birthdays.  
Mrs. W. F. Eisele returned home from Chicago recently where she was called by the death of her uncle, J. C. McLean. Mrs. McLean will be remembered here as Miss Addie Kramer.  
Mr. and Mrs. W. F. Eisele and Mr. and Mrs. W. E. Baker spent last Wednesday in Goshen at the parental home of Mr. Baker. The occasion being the 60th birthday of Mr. Baker's mother.
