Rev. Staver Addresses Gathering at Oak Ridge For Memorial Ceremony

Now Here's the Proposition

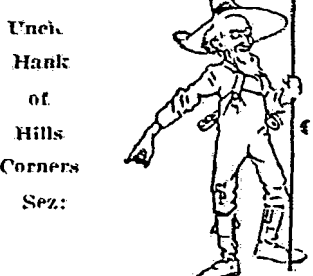

Well, friends and neighbors our ball team got took Sunday—look it hardly the word. Them Sawyer apple knockers simply bull-dozed, black-jacked, knocked down, walked on, and wooted them around scandalously. They said it was all baseball but at that it seemed hardly polite. Every time one of the Blues tossed a ball in their direction they insisted on taking a dirty paste at it and making our boys run all over southwest Buchanan huntin' it. In the first place it was hard on baseballs, just when everybody is tryin' to keep down expenses.

And then they refused to take into consideration the fact that our boys had their new suits on and was tryin' to keep them clean. They say that some of the fielders' pants was so tight that they could not run and was afraid to bend over.

But in all fairness we think the fans ought to remember that this was only one ball game and we're ready to lay a bet right now that the boys won't get took that way again this summer. By next Sunday they will have their new pants worked in so they can move around in them more handy.

And other than askin' Bob Reamer where he ever saw a ball game we don't think the fans ought to rub it in too hard. After all Bob has been an angel and fairy God-mother all in one for the past three or four years to baseball in this town, and last year he worked the diamond into shape himself and fixed up the park. Every year until this he has dug down in his pants for a good part of the expenses, and now this year when the fans puts up some dough why this has to happen. When he was strugglin' along mostly on his own he put out some good ball teams, and we still believe that he will have another before the season is old. Them Sawyer Aces is bad actors on a ball diamond anyway when and if they're hot, and the boys simply picked the wrong time to be off form. If we gotta be licked that way we can't think of any other team we would rather be licked by the Sawyer Aces.

So we're in favor of washin' the slate and keepin' right on rootin' just like last Sunday, never happened. It's a poor team and a poorer bunch of fans that can't take a lickin' and keep good natured. And if anybody thinks they're puttin' up as much dough by a big margin as Bob is, just let him follow him around a couple weeks.

I got a lot more respect for the sinners that stays away from the church cuz he'd rather go to a dog fight than I got for the saint who won't go cuz he don't like the preacher.

Famous Last Words
Well, Bob, I Sawyer old ball game.

Chicago Doctor
to Open Office
in Cathcart Bldg.

Alterations are in progress in the Cathcart building on Main street preparatory to its use as an office by Dr. H. C. Frederickson who comes here from Chicago to begin the practice of medicine on June 1. He has practiced medicine in Chicago twenty years. He has leased an apartment in the residence of Ruta Roe, 309 W. Front street where he and his wife will live.

Mr. and Mrs. J. I. Rough had as their guests Sunday their daughter and husband, Mr. and Mrs. Burton Chase of Galesburg, Mich. TALKS ON ORIGIN SIGNIFICANCE OF THE ANNUAL EVENT

Rev. W. H. Boettcher Delivers
Sermon at Union Memorial
Service on Sunday
Evening.

Rev. H. W. Staver delivered the Memorial Day address at the 67th observance of the custom at the soldiers lot in Oak Ridge cemetery, his theme being "The Origin and Significance of Memorial Day".

Rev. Staver gave an interesting account of the origin of the observance, his remarks in part being as follows:

Great days, like many great men and events often have their sources in humble beginnings. It is thus with our Memorial Day. Three women of Columbus, Miss., at the close of the Civil war, went to their local cemetery to remove the weeds and grasses that overgrew the graves of their soldier dead, and to lay flowers on their last resting places. The custom thus inaugurated was soon emulated by others, the first Memorial Day, as a public observance being held on April 23, 1866, by the women of the Columbus, Miss., community.

From that lowly origin, the significance of the day has grown until now it includes the honoring of all the soldier dead. And even beyond that, it has come to be a day of loving tribute to the shrines of departed loved ones, both soldiers and citizens.

Memorial Day is yet more. It is for the living as well as the dead. For it we are reminded of that idealism lacking which a people can but perish; of those perpetual principles, ignoring which a people can but pass away; of that sacrificial living, losing the spirit of which, a people can only say: "We are no longer worth the blood we cost."

To the dead we pay our tribute. On the living we lay a challenge. There is still slavery not yet done. There are wrongs that remain to be righted. There is wretchedness to battle against, poverty and pain to subdue, a new world to build. Only high convictions and holy consecration can match the desperate needs of our time and win the victory.

BRADFIELD, ATHLETIC MENTOR AT BUCHANAN HIGH SCHOOL FOR PAST EIGHT YEARS, EMPLOYED BY NILES

Harold (Curly) Bradfield, director of physical education for boys and coach at the Buchanan high school for the past eight years, has signed a contract as football coach at Niles high school, according to announcement made last week.

Bradfield asked for a 12-month contract with Buchanan covering summer employment as director of recreation activities, at a proportionate advance in salary, and failing to get it, he availed himself of a better offer from Niles. He has been successful in all branches of sport and a very capable physical director as well. He evinced marked capabilities as a leader of youth of an unusual type.

Since Bradfield began coaching at Buchanan in 1926 his teams have defeated Niles five games out of a total of eight as follows:

Year	Won	Lost	Tied	Pct.
1926	6	2	1	.750
1927	6	3	0	.666
1928	5	1	2	.333
1929	6	1	1	.357
1930	3	5	1	.375
1931	4	3	1	.571
1932	6	1	1	.500
1933	4	2	7	.600

B. H. S. Basketball Record Under Bradfield

Benediction and Response.

Office of High Grade Oil Company Damaged by Fire

The office of the High Grade Oil company at Portage and Railroad streets was again damaged by fire Saturday when fumes rising from a storage tank under the floor penetrated the room and were ignited by an oil stove. The room happened to be empty at the time and no one was hurt. Keith Bunker was at the depot with his mail truck and quickly extinguished the flames with the extinguishers from the office and from the depot. The damage was small.

SECRETARY OF SUGAR ASSOC. TO SPEAK HERE

Dr. J. Arthur Brock, Nationally Known Economist, to Speak Before Civic Assoc. June 4.

Dr. J. Arthur Brock, leader in the Michigan sugar beet industry, will speak before the Civic Association Monday evening, June 4, beginning at 8 p. m., his theme being "Sugar."

Dr. Brock is Educational Secretary of the Farmers and Manufacturers Beet Sugar Association, which represents every sugar beet grower and beet sugar company in Michigan, Ohio and Indiana.

Dr. Brock is internationally known as an author, scientist and economist and is recognized as being the foremost authority in the United States on sugar beet culture and the beet sugar industry. For many years he was agricultural editor of Facts About Sugar, the international sugar trade journal and during the World War he served as sugar beet expert for the United States Food Administrator.

Cauffman Family Holds Reunion at Walnut Grove, Ind.

Mr. and Mrs. Carson Cauffman of near Walnut Grove, Ind., entertained forty members of the Cauffman families at the annual reunion at their home Saturday and a wonderful day it was. A picnic dinner was served at noon. A short program of music and readings was given by the children and officers were elected for the coming year. A cordial invitation was extended to meet at the home of Mr. and Mrs. Ralph Ulery of Portage Prairie, the last Saturday in May, 1935. Mr. and Mrs. Guy Burks will assist in entertaining.

There were three marriages during the year: Roy Hamilton, Jr., South Bend, Albert Cauffman, Jr., Michigan City and Robert J. Clemens, Buchanan; two births were also recorded.

Members of the family were present from Michigan City, South Bend, Portage Prairie, and Mrs. Shelton, Decatur, Ill., guest of Mr. and Mrs. L. F. Cauffman.

The relatives extended their sympathy to Mr. and Mrs. John Henry Best, who are ill and Mr. and Mrs. Frank Dodge, who are caring for Auntie Dodge, who is ill and Mr. and Mrs. H. I. Cauffman, who were unable to attend, hoping that they may all be able to attend next year.

Siraganian Goes Into Rug Business

M. M. Siraganian, who left here a few weeks ago to enter a rug house in Chicago, announces that he has entered into business himself in that city, having a sales room in connection with the firm of Pusckin, leading rug dealers of Chicago. Mr. Siraganian has a large clientele which he established when he was selling rugs in Chicago a number of years ago, and he will also be glad to meet his Buchanan patrons there. While a resident of Buchanan he sold 27 genuine antique Orientals to homeowners of this city.

CITY HOST TO 500 WOMEN ON ACHIEVEMENT DAY

Home Economic Clubs of Berrien County Display Fine Handiwork in Household Furnishings.

Over five hundred farm women from all parts of Berrien county assembled at the high school on Friday for the annual Achievement Day program by the members of 26 Home Economic clubs.

The morning was spent in viewing exhibits of the work of the women in Home Furnishings during the past year and comprised a fine demonstration of the resourcefulness of farm women in furnishing their homes, with a little trained aid.

At 10:40 the women assembled in the auditorium and were greeted with an address of welcome by Supt. H. C. Stark. A business session was then held. At 11:15 the leader Miss Gertrude Reis of the extension department of the Michigan State college, addressed the women who had completed the work assigned for the year. Members of Bertrand Group No. 1 then presented a short playlet.

After dinner the women reassembled at the auditorium and the following program was held:

1:30 Community singing
1:40 Ballet dance, Miss Loraine Weinie and Miss Eleanor Weinie of Berrien Springs.
1:50 Music, Happy Home group, Berrien Springs.
2:00 Athletic Dance, Gwendolyn Thrie, Buchanan.
2:10 Ragoutin' Bee, play, Linger Longer Group, Eau Claire.
2:30 p. m. Address by Dr. Bratt of the Department of Zoology of Michigan State College who spoke on "My Summer in British Columbia." His talk was accompanied by a number of interesting slides illustrative of the animal and bird life of that country.

At the conclusion of his address County Agent H. J. Lurkins presented diplomas to 429 women who had completed the year's course in "Home Furnishings."

The following officers for the coming year were elected at the morning session:

Chairman, Mrs. Burch Love, of Three Oaks; secretary, Mrs. Alice Reynolds, Gallien; chairman of recreation, Mrs. Kelsey Bainton, Buchanan; publicity, Mrs. J. A. Richards, Eau Claire.

LITTLE THEATRE GROUP COMPLETES INITIAL SEASON

Playbox Postpones Presentations of "Mysterious Mrs. Updike" Until Next Fall.

Tuesday night, May 29, 1934, completed the first season for Buchanan's Little Theatre, The Playbox. Due to the warm weather and lateness of the season the play, "The Mysterious Mrs. Updike" was postponed and will be the first offering of next season.

The Playbox was organized last December and presented four plays, a full evening production, "Attorney for the Defense" and then a group of one-act plays, "The Passing of Mr. Peal," "Be a Little Cuckoo" and "An Evening in Coconut Grove."

The future of the organization is unlimited and big things are being planned for next year. The officers for the past season were: president, Robert Geyer; vice president, Marjorie Campbell; secretary, Teresa White; treasurer, Mrs. George Karling.

Local Young Folks Get in Path Tear Gas at Toledo, O.

Miss Jeanne Roti and Vincent DeNardo are in a position to tell their friends all about tear gas as a result of a first-hand experience in Toledo, O., Sunday. They had gone to Toledo Saturday with Mr. and Mrs. August Roti and Sunday morning the two young people decided to drive through the strike area. They skirted the edge of a crowd of milling strikers and police just as the latter threw several bombs and the fumes drifted across their path. And did they cry!

STORY OF EARLY MEMORIAL DAY OBSERVANCES AT OAK RIDGE, ALSO AT THE OLD BURYING GROUND

G. A. R., Odd Fellows, Sunday Schools, in Procession; Marched to Cemeteries and Back to G. A. R. Hall.

From the issue of the Record of June 2, 1870, is taken the following account of one of the first "Decoration Day" programs held in Buchanan, at a time when there were only a few graves of the soldiers in the newly established Oak Ridge cemetery, and those consisting of the soldiers who died in the wars.

Monday, the 30th ult., the day set for the decoration of the graves of those who yielded up their lives that this country might live, the day dawned bright and beautiful. The numerous bouquets and the wreaths and the large assemblage of people verified the fact that they had entered upon the work with heart and hand.

At precisely 2 p. m. the procession formed in line in the following order and marched to Oak Ridge cemetery:

Buchanan Cornet band
Members of Grand Army of the Republic carrying innumerable wreaths
Buchanan Lodge No. 75, I. O. O. F.

200 Sunday School girls dressed in white.
The sidewalks on each side were crowded with pedestrians and the road behind was thronged with vehicles for a long distance.

At the cemetery gate there had been erected a beautiful arch, decorated with evergreens and flowers, on which was inscribed, "Our Fallen Comrades." After a picture having just emerged, passing the gate and reaching the

degrees of A. B., M. A., B. S. and the like, but of late years people had to be satisfied with achieving the CWA or the CCC. The youth who are entering college today are taking the future seriously than the youth of old years, according to Dr. Robert Phillips of Purdue university, who spoke on "The Mystery of It." Students enrolling in Purdue discuss very carefully with their professors and deans the place of studies and courses as arising on their careers and quite in vary their courses as they study their own possibilities during their college residence he said.

Dr. Phillips stated that the most serious thing in the world is life itself, and that the love of life comes before all other considerations. He urged the graduates to consider the value of their lives only to themselves but to society, and to strive to make generous contributions to their communities.

In a brief introduction to the speaker, Supt. Stark said that he had dubbed the 1934 class "depression" since its term in school had been practically identical with the period of the

most of the depression. The members of the class had worked under greater handicaps and suffered more hardship than those of previous years he stated, and undoubtedly appreciated their advantages the more on that account.

FORMER NEW TROY RESIDENT PASSES

AWAY AT OAK PARK
Edith Addison Smith, 51, died May 27, at Oak Park, Ill., and the funeral was held Tuesday afternoon from the New Troy M. E. church. She was born at New Troy and lived there most of her life, leaving there for Oak Park about 15 years ago. She is survived by her mother, Mrs. Flora Addison of New Troy, her husband, James Smith and two children, Lee Smith and Sheila, all of Oak Park.

Hollywood Team Takes Measure City Service in 6 Reels

Back of superb pitching of Bud Proud, who allowed but three scattered hits, the Hollywood theatre team, formerly the Oriole club, local softball champions in 1933, made its first gesture this year as defending champion to break a tie score deadlock in the sixth inning with a cluster of four hits for as many runs and defeat the City Service Oils, 6 to 2, last Friday night in the fourth game in local softball league play.

Joe Howard, Hollywood's big first baseman, was the hero in the attack of his team, driving a home run to deep right in the sixth to score Harkrider and Savoldi ahead of him. Conrad had previously scored that inning on Savoldi's single after he had got on base through Nelson's error.

Trailing by a 2 to 1 score to enter the sixth, the oil team tied the score in its half of that inning when Nelson hit safely and scored from third on Fuller's sacrifice fly.

Until the Hollywood batters went on their batting orgy in the last of the sixth, P. Sinner, Cities Service pitcher, had the situation well in hand, pitching flawless baseball for the first five innings, allowing but six scattered hits and striking out four Hollywood batters. But the parade of four Hollywood players across the plate in the sixth was more than the oil team could overcome and Hess, Gest and C. Skinner of the Cities Service cast was retired in order in the seventh.

Farm Burros Show Heels to Curley's Clowns

Amassing sixteen hits, including three home runs, a triple and a double, off the combined pitching of Hanlin and Stevens, Koenigshof's Farm Bureau Cowboys turned a ball game into a farce by lambasting Curley's Clowns, 17 to 2, in the third scheduled game last Thursday night of the Buchanan Softball league.

The Clowns, Coach Bradfield's entry in the softball loop, did not believe their name in the least, and after the regulation seven innings play was completed they were a tired, bedraggled group, and were foot-sore from chasing the ball to the outer reaches of the greensward and retrieving it to the pitcher for further acts of mayhem by the hard-hitting Cowboys. The Clowns made eight errors during the game.

The heavy artillerymen of the Cowboy cast were Harvey Letcher and Tucker, who each got three singles out of five times at bat, and Morgan, who collected a triple and a double in his official appearances. F. Leiter, Babcock and Barbour hit home runs.

After Hanlin was driven from the mound in the fourth with a barrage of five hits for as many runs, Stevens took up the pitching duties for the Clowns, but his first inning of mound duty, the fifth, was not auspicious to say the least, for in that inning 14 men batted for a total of seven hits and nine runs. It was in that inning that the Cowboys got two of their three home runs and a triple. However, after the disastrous fifth, Stevens settled down and pitched good baseball the sixth and seventh innings, holding the foe scoreless and allowing but one hit during these two frames.

The score by innings:

Cowboys 210 050 0-17 16 3

Clowns 010 100 0-2 8 8

Batteries: J. Ellis and Koenigshof; Hanlin, Stevens and Dreitzler. Umpires Hawks and Dokey.

Dokey and Baker, Time 1:20.

al fielding featured the contest and after Bob Ellis scored the tying run for the Clarks in the sixth the score remained at 5-5 throughout the remaining four innings and was exceedingly airtight.

The result might have been different had not Bill Schultz, Bradley pitcher, gone wild after having pitched a good specimen of baseball. In the sixth he walked three consecutive batters, Imhoff, Liska and P. Rotzien, to force in Ellis, who had previously singled, with the tying marker.

Freeling, who started on the mound for Clarks, had to be relieved of his pitching duties in the seventh. But both relief pitchers, Brewer for the Bradley team and Jesse for the Clark entry, were in fine fettle and pitched masterful ball in the waning innings.

Byrd Ship to Exhibit at Fair

THE "City of New York", grizzled craft which carried Admiral Richard E. Byrd safely to the South Polar regions on his first expedition, now floats lazily in the north lagoon at the World's Fair grounds, Chicago. It will be on exhibition during the Fair, which opens Saturday, May 26. On that night, the American portion of the weekly broadcasts from the present Byrd expedition, at Little America, will originate aboard the historic ship. When the expedition comes on the air, a message from Admiral Byrd in his isolated hut more than 10,000 miles away, will officially open the Fair's inaugural ceremonies. Following this spectacular broadcast, it has been announced that this weekly radio contact with the explorers will be heard every Wednesday night at 8 o'clock, central standard time, over the Columbia network.

1934 GRADUATES MORE FORTUNATE SAYS HANLIN

Students Going Into World This Year Have More Chances Than Those of Past Four Years.

The members of the "depression class" of the Buchanan high school are at least better off in the way of opportunity for jobs than the graduates of the four preceding years, according to M. L. Hanlin, president of the board.

In his brief address prefatory to handing out sheepskins to the fifty graduates, Hanlin stated that at former commencements the graduates had been metaphorically placed in a boat and shoved off without either oar to row with or rudder to guide. The 1934 graduates at least had one oar, he stated. In better times Hanlin stated, it was customary to grant let-

ter degrees of A. B., M. A., B. S. and the like, but of late years people had to be satisfied with achieving the CWA or the CCC.

The youth who are entering college today are taking the future more seriously than the youth of past years, according to Dr. Robert Phillips of Purdue university, who spoke on "The Mystery of Life." Students enrolling in Purdue discuss very carefully with their professors and deans the choice of studies and courses as bearing on their careers and quite often vary their courses as they study their own possibilities during their college residence he said.

Dr. Phillips stated that one most precious thing in the world is life itself, and that the love of life comes before all other consideration. He urged the graduates to consider the value of their lives not only to themselves but to society, and to strive to make genuine contributions to their communities.

In a brief introduction to the main speaker, Supt. Stark said that he had dubbed the 1934 class his "depression" since its term in high school had been practically identical with the period of the

worst of the depression. The members of the class had worked under greater handicaps and suffered more hardship than those of previous years he stated, and undoubtedly appreciated their advantages the more on that account.

Our sympathy this week is extended to Mrs. Walter Morley and her mother, Mrs. Flora Addison, who received word of the death of her sister, Mrs. Edith Smith, Oak Park, Ill., who passed away at her home from pneumonia. Funeral services were held Tuesday afternoon at New Troy, conducted by the Rev. Victor Niles. Burial in the New Troy cemetery.

Wagner News

Mrs. Clayton Strauss, who has spent the past three months at the Orville Hampton home at Three Oaks, has returned to her home.

Mrs. Julia Shetterly, who has been visiting at the home of her sister-in-law, Mrs. Lovege Harroff is now at the home of her brother, Mr. Conant, in New Troy.

Those who attended Achievement Day for the County Home Economics club at Buchanan Friday were Mrs. Eda Hess, Mrs. Lillian Hess, Mrs. Ada Hartline and daughter, Mrs. Blanche Weaver, Mrs. Grace Chapin and Mrs. Cora Hess.

Mrs. Etta Nelson is expecting the arrival of her daughter and husband, Mr. and Mrs. Jay Rhoades from California this week. They will visit here several weeks, after which Mrs. Nelson will accompany them back to California.

Miss Bernice Stanford, Mrs. E. Henter and Miss Margaret Dickow of Chicago motored to Buchanan Thursday to attend the graduation exercises at which Thomas Quirk, a nephew of the latter two, was a member. The ladies returned to Chicago that same evening.

Glendora

A number of friends and neighbors of Mrs. Freda Snyder gave a surprise party on her at her home Saturday night. Bridge was played after which lunch was served.

The first ball game of the season was played on the Glendora diamond Sunday afternoon. About 500 witnessed the game which was played between New Buffalo and Glendora. Glendora took the lead in the fourth inning and held it for the remainder of the game, which resulted in a score of 6 to 9 in favor of Glendora. The new grandstand seats and the wire netting which has been erected at the diamond makes it more comfortable for the fans.

Mr. Maude Johnson of St. Joseph spent last week at the Charles Orris home.

Mrs. Snyder is on the sick list. The German Lutherans are remodeling the parsonage.

Mrs. Helen Scheele of Chicago is visiting at the McClellan home. Sam Woollet is improving his house with a coat of paint.

Stewart Searls and family of Bridgman spent Sunday at the McClellan home.

duced Mr. N. H. Johnson who presented a short address. Though very brief it was appropriate and caused the tears to come to many eyes.

His remarks were followed by the strewing of the graves with flowers by the members of the G. A. R., the Odd Fellows, the Sunday School girls and the citizens. The graves decorated were as follows:

William Parrott; quartermaster of 12th Michigan Infantry; Tanner, soldier in the Mexican war; Cooper, soldier in the Mexican war; Reed, 12th Michigan Infantry; William Brown

How One Woman Lost 20 Lbs. of Fat

Lost Her Prominent Hips -
Double Chin - Sluggishness

Gained Physical Vigor -
A Shapely Figure.

If you're fat—first remove the cause! Take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning—in 3 weeks get on the scales and note how many pounds of fat have vanished. Notice also that you have gained in energy—your skin is clearer—you are younger in body—Kruschen will give any fat person a joyous surprise. Get a bottle of Kruschen Salts from any leading druggist anywhere in America (lasts 4 weeks) and the cost is but little. If this first bottle doesn't convince you this is the easiest, SAFEST and surest way to lose fat—your money gladly returned.

AT THE THEATRE

"20th Century" Red Hot from Studios at Hollywood 3 Days

John Barrymore, distinguished member of Broadway's Royal family, reveals a rare genius as a comedian in the role of the temperamental producer, Oscar Jaffe, in Columbia's "20th Century," which opens Sunday for three days at the Hollywood.

In a comedy as fast as its title, Barrymore proves a deft farceur, the like of which has seldom been equalled on stage or screen. Armed by the brilliant dialogue and uproarious situations concocted by Charles MacArthur and Ben Hecht, Barrymore rises to sublime heights as a comic artist in his understanding characterization of the egocentric, eccentric impresario.

The comedy in the picture lies not only in farcical and hilarious situations but in the consummate acting of Barrymore and his supporting cast. Chief among these is Carole Lombard in the character of the actress, Lily Garland, and running her a close second is Roscoe Karns as O'Malley, Jaffe's drunken press agent. Walter Connolly ranks with him as Webb, Jaffe's conscientious and long suffering business manager.

"20th Century" is brand new, its first release being May 11th at the Radio City Musical Hall in New York. The Hollywood is playing this picture ahead of mid-west key cities and far ahead of smaller key centers. "20th Century" is an excellent picture, excellently done. Don't miss it!

Those robust, romantic rough-necks, Edmund Lowe and Victor McLaglin, who made "Sex You!" and "Sex Me!" as famous as "Come up and see me sometime!" will be seen in their newest fight-

12th Michigan Infantry: Henry Rinker, 12th Michigan Light Artillery; John L. Lemon, 1st Michigan Light Artillery; Harrison, Revolutionary soldier.

The procession then formed and marched back to the G. A. R. hall, where they were dismissed.

Chicago's 1934 World's Fair will be the most complete of all world expositions.

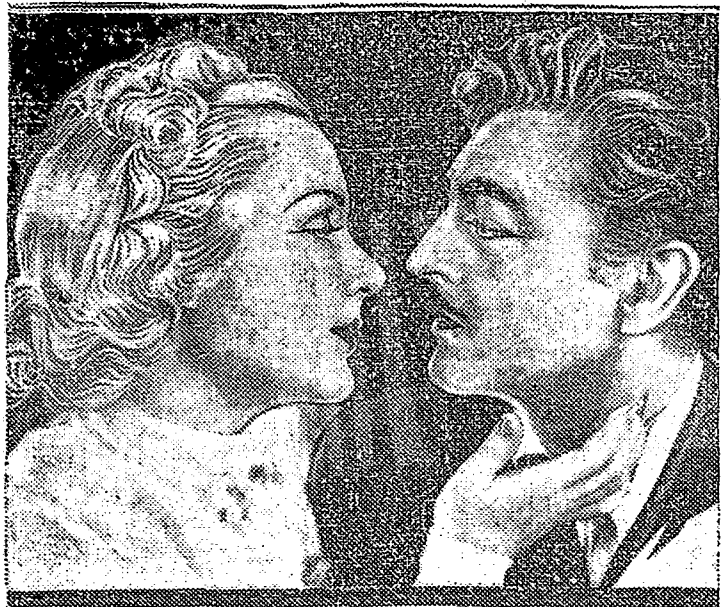

This was the prediction today with less than two weeks before the opening at 9 a. m. on May 26. The prophecy was made by Major Lenox R. Lohr, general manager of a Century of Progress and his opinion was also voiced by a group of exhibitors, among them many from foreign lands.

These foreign exhibitors have kept pace with their fellow American exhibitors in the speed with which they have completed their task, and today everything is in near readiness for the 1934 edition of a Century of Progress.

TELLS HOW SHE TOOK 4 INCHES OFF HIPS

7 INCHES OFF WAIST
In 40 days by taking Kruschen Salts, Mrs. Helen Stuegh of New York City reduced 24 1/2 lbs.—took 4 inches off hips, 3 inches off bust and 7 1/2 inches off waist. She writes: "I haven't gone hungry a moment—I feel fine and look 10 years younger."

To get rid of double chin, bulging hips, ugly rolls of fat on waist and upper thighs—take Kruschen Salts in a glass of hot water every morning before breakfast. One jar lasts 4 weeks and costs but a trifle at any druggist the world over. Make sure you get Kruschen because it's SAFE. Money back if not satisfied.

Tim McCoy battles storm, flood, politics and a ban of desperate crooks in one of the most exciting and thrill-packed pictures of his career in "Voice in the Night," the second feature on Friday-Saturday's bill. In "Voice in the Night" Tim is a maintenance engineer, in the employ of a telephone company. Rival financiers are after the franchise of the company he is working for, and thereafter Tim and his husky lineman do every sort of thing to hamper the work of the rivals in tearing down lines, discontinuing service, etc.

"Love Birds," one of the most laughable of the Summerville

All construction work was completed almost a week ago. Hundreds of workmen are now busy tidying up the grounds. Visitors on opening day will see as complete an exposition as at any time during the long summer and early fall months.

This gigantic task has been completed because of the hearty co-operation between exhibitors and officials of the Fair. They have worked in closest harmony since late winter and the many new structures have seemed to spring up overnight.

About 87 per cent of the structures of last year gave the exposition authorities a flying start. Contractors were better prepared to combat weather conditions and as a result there was much more speed than last year.

Consequently all construction work was completed ten days before the opening day and most of the concessionaires have their booths completely equipped for opening day.

All buildings of the 1933 exposition underwent some improvements. The new structures harmonize with the architecture that was the mode during 1933. Color schemes on some of the buildings were changed to conform to late suggestions of the late Joseph Urban, which could not be carried out last year.

NOTICE:

The following changes in charges and rates for certain types of telephone equipment and service become effective on the date of the first bill to each subscriber on or after June 1, 1934:

1—The charge of 25 cents per month for hand telephone sets will be discontinued after it has been billed for a period of 18 consecutive months. On hand telephone sets now in service for which the charge has been billed 18 months or more, the 25-cent charge will be discontinued with the June, 1934, bill for service. On all other hand telephone sets, now in service or installed hereafter, the 25-cent charge will be discontinued after it has been billed 18 consecutive months.

2—Rates for all classes of rural line service will be reduced by 25 cents per month, except that no rural line rate shall be reduced to less than \$1.50 per month.

SAVE—by getting More LIVE POWER per gallon

in STANDARD
RED CROWN SUPERFUEL

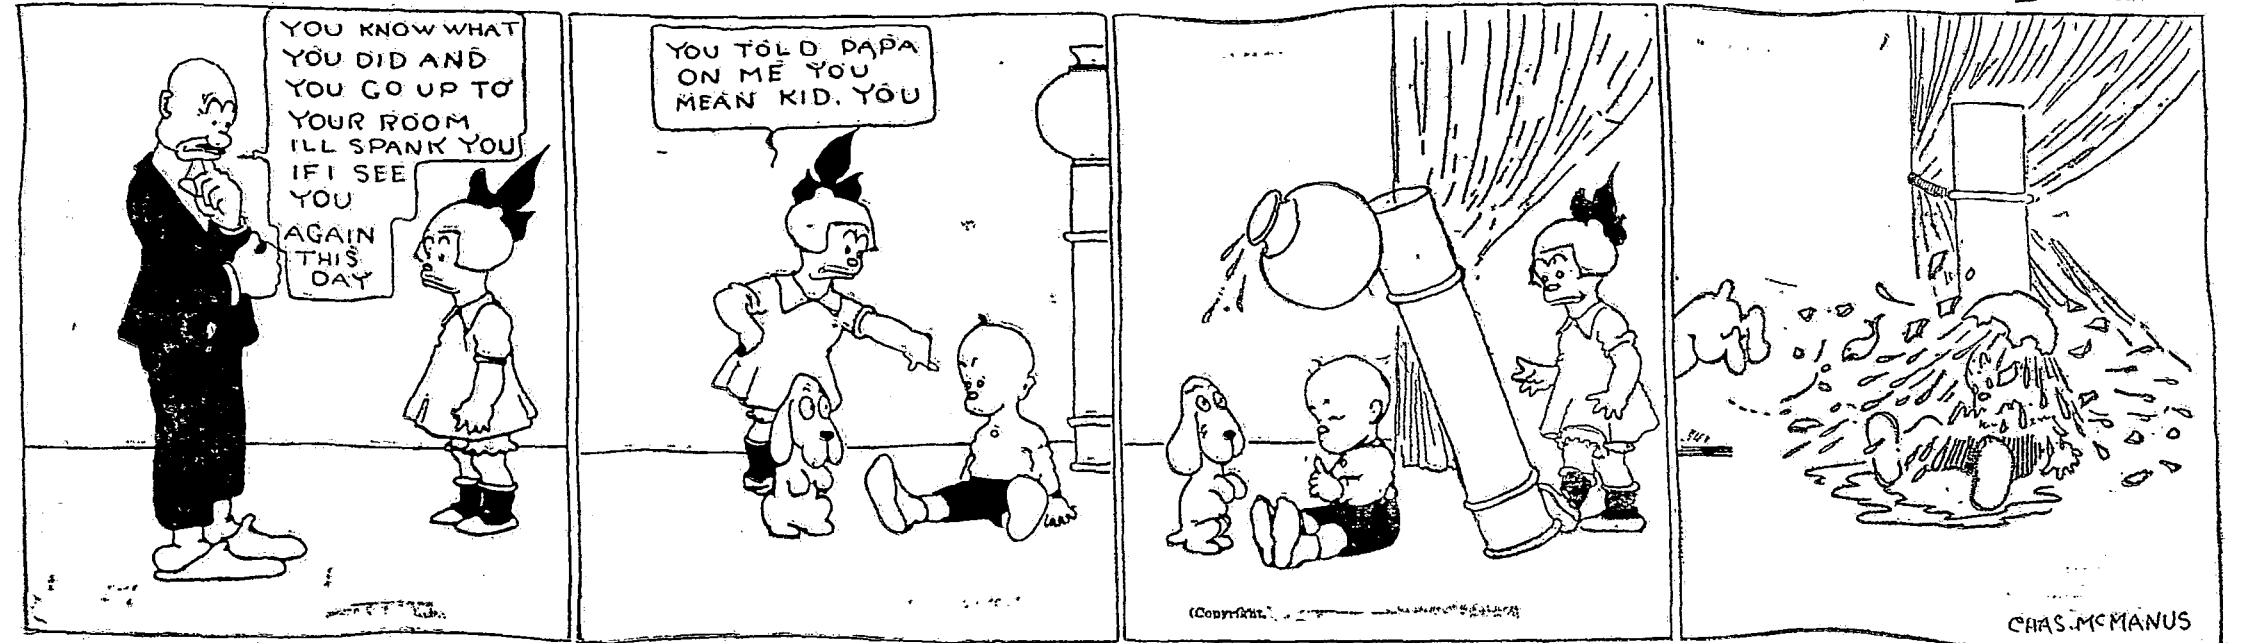

• "More Live Power per dollar" describes this important advance by Standard's refining engineers just as accurately as "more Live Power per gallon." The amount of keen, responsive propelling power delivered by gasoline is the only true measure of its dollar-and-cents value. On that count, Standard Red Crown Superfuel gives you a full money's worth, plus. We know that. It has been established by tests of many gasolines.

A new car with a high compression engine requires Superfuel's responsiveness to perform at its best. And, if you have an older model which has begun to slow up, Standard Red Crown Superfuel is prescribed. Chances are there is still plenty of vigor in the motor. The extra Live Power in Superfuel will bring it out.

May we suggest that you get a tankful? Make Superfuel prove, in your engine, what has been said here about its economy and performance. Judge it critically—fairly.

State Landscapes 3 1/2 Miles on US-12 Near New Buffalo

Roadside landscaping, designed to give tourists a pleasing impression of Michigan, is being completed by the State Highway Department along a three and a half mile stretch of U. S. 12, in the southwestern corner of the state in Berrien County.

The plantings, which begin at the Indiana state line and continue to New Buffalo, are all native to this state, or naturalized. They are intended to present to visitors a typical Michigan landscape rather than an ornate parkway.

"We can not expect the plantings to attain their full growth this summer," said Commissioner Murray D. VanWagoner, "but they will make a great improvement in the appearance of the country. Natural beauty has largely been despoiled in this particular area."

Among the native trees being planted are hemlock, white birch, flowering dogwood and hawthorne and several varieties of pine. The plantings also include shrubs, vines and native roses. In all there are more than 20 different varieties of trees, shrubs and plants being set out. There will be plants or shrubs in bloom from early spring throughout the summer and early autumn.

Frequent breaks occur in the planting on the west side of the highway to permit sweeping views of Lake Michigan and the sand dunes, which are unusually picturesque at this point.

The Michigan Central railroad parallels this section of the highway, so train passengers as well as motorists can see the landscaping.

The work, which is costing nearly \$18,000 is being financed from the \$12,736,000 Public Works grant for highway construction. The Federal Bureau of Public Roads all set to work with a right good will to prepare food for the sufferers. Teams were dispatched in every direction throughout the country, meeting everywhere a hearty response to the call for help.

The room formerly occupied by Messrs. Smith and Sons was designated as the place of deposit for the provisions, where the committee packed them for shipment.

To Start Payment Old Age Pension in Five Counties

Arrangements are being made by the old age pension bureau of the State Welfare Department to start paying pensions in five Michigan counties where collection of the old age pension law head tax has been large. The bureau has a fund of \$325,000 to start with.

The counties which will receive the first aid to the aged are Genesee, Kalamazoo, Oakland, Kent, and Saginaw.

The bureau has made a rule that all monies collected from the head tax, all of which has so far been voluntarily paid, is to be returned to the counties that paid it. Relief under the law will follow in proportion to the rapidity of collections.

Under the present set-up, the head tax feature of the law is not being arbitrarily enforced and all collections received have been paid in without protest.

One feature of the collection

which is little understood, says Ed L. Williams, the bureau head, is that every cent turned in is applied to paying pensions. None of the money is used for administration cost.

Buchanan Aided Victims Chicago Fire, Oct. 1871

The news of the Chicago stockyard fire of week before last recalled the discredited story of the transporting of the old Buchanan hand pump engine to the great fire October, 1871. Old files of the Record reveal, however, that Buchanan played quite a part in relief of the suffering after the fire. The story of the local movement to aid was related as follows:

On Tuesday evening a meeting of our citizens was held at Collins & Weavers hall to devise means to assist the suffering of Chicago. Hon. L. P. Alexander was chosen chairman and William Osborn secretary.

At the commencement of the meeting, Dr. Peck, who had just returned from a trip to Chicago, was called on for a speech. In a few brief remarks he stated the necessities and the appearance of what was once the city of Chicago but is now a mass of ruins.

A committee of twenty was selected to canvass the country and village Wednesday to solicit provisions to be forwarded to Chicago by the afternoon train. An executive committee of three consisting of George H. Richards, T. M. Fulton and William Pears was appointed to take charge of affairs.

William Pears generously contributed his fattest steer for beef and others contributed flour and other provisions. Immediate steps were taken to put the bakery of Cox at work to produce all the bread possible for the occasion.

Every family in the village was notified Wednesday morning and all set to work with a right good will to prepare food for the sufferers. Teams were dispatched in every direction throughout the country, meeting everywhere a hearty response to the call for help.

The room formerly occupied by Messrs. Smith and Sons was designated as the place of deposit for the provisions, where the committee packed them for shipment.

From Record, Oct. 19, 1871. At a meeting of citizens held at Baptist hall Oct. 13, 1871, E. M. Plimpton was elected chairman and D. A. Wagner secretary of the Buchanan Aid & Relief Society.

The chairman stated that the object of the meeting was the consideration of further steps to relieve the suffering caused by the Chicago fire. George H. Richards, appointed chairman of the Executive Relief Committee organized at a former meeting, made the following report: A total of \$148 in cash had been collected, of which \$100 had been given by John Reynolds. The call for provisions had been liberally answered and the provisions forwarded to Chicago Wednesday evening, Oct. 11, with Rev. Russell and Rev. Budge in charge.

The executive committee having furnished Messrs. Russell and Budge \$20 for expenses to and from Chicago and while there in the discharge of their duties, both men refused to use the money for that purpose and were instructed to use it to buy food for any cases

of need they might know. On motion the society proceeded to elect officers as follows: president, E. M. Plimpton; secretary, D. A. Wagner; treasurer, T. M. Fulton. The following executive committee was appointed: George H. Richards, T. M. Fulton, William Pears.

The chairman appointed the following committee of five gentlemen and five ladies to solicit: Dr. J. M. Roe, Mrs. S. L. Beardsley, Rev. Budge, Rev. E. P. Russell, Rev. William Coplin, Mrs. H. J. Howe, Mrs. D. Carlisle, Mrs. J. M. Matthews, Mrs. John Howard, Mrs. C. S. Black.

At a meeting held Sunday in Collins & Weaver's hall Sunday evening the sum of \$212 was raised by subscription.

St. Joseph Man

To Make Bid for

Co. Treasurership

Charles C. Russell of St. Joseph has announced his candidacy for county treasurer on the Republican ticket.

The first Republican to formally enter next September's primaries, Mr. Russell's announcement was, in a way, the opening gun in the coming campaign in Berrien County.

The St. Joseph man is a former U. S. deputy collector of internal revenue, and is prominently known in St. Joseph, where he has resided all of his life and throughout the county at large.

In the event of his nomination and election, Mr. Russell will enter the treasurer's office with a wealth of wide experience in tax matters. In addition to having been with the U. S. government nine years on income tax audits he has also served as city treasurer of St. Joseph for two years.

Before becoming city treasurer of St. Joseph, and later entering the employ of the federal government, Mr. Russell was employed as a machinist for 26 years in the St. Joe Iron Works, Engberg's and Truscott Boat company plants. With James Mullen and Charles Miller, he formed the Benton Harbor Engineering Works more than ten years ago, selling his interest in that plant when he entered the federal service.

Mr. Russell has been prominently identified with St. Joseph fraternal organizations for many years. He has served as secretary of the St. Joseph Masonic lodge for the past twenty years and has occupied all of the chairs in the Elks and Eagles lodges. He is a charter member of the latter lodge.

"My only campaign promise," said Mr. Russell in making his announcement, "is a promise to give my best service to the office."

The St. Joseph man added that his nominating petitions would soon be placed in circulation, and that he would shortly begin a campaign that would reach into every section of the county.

Tires Smoke in 500-Mile Race at Indianapolis

Drivers Choose Tires with Greatest Care to Withstand This Ordeal

"There is not an engineer in a thousand that will believe that tires smoke at modern racing speeds—unless he has seen it," says E. Waldo Stein, veteran Firestone racing tire expert who has devoted his time to the speedways since the early days when he rode at Indianapolis. "Yet I can take the engineers around and show them tires smoking almost any time, from tire tread grinding on track."

The spectators at the great Indianapolis race, May 30, will see the usual haze of smoke hovering above the track, and few will stop to consider that any part of the smoke might be due to any other cause than exhaust fumes; however, if they were to look closely at the cars negotiating the

turns, they would no doubt see smoke rising from the brick track in back of the whirling rear tire of some of the fastest cars. Traveling 140 miles per hour or faster on the straightaways, the cars go into the turns with a terrific thrust on the tires. This continues mile after mile over the hot brick.

Mr. Stein has a keen eye and is always on the lookout. He seems to have every car, every driver, and every tire in his mind's eye. The drivers constantly consult him with their problems. He is a great lover of racing and is a member of the A.A.A. Contest Boards.

He is in his collection of racing tires a recent photograph with the tires, to "test" his point.

"I have had racing drivers come to me many times the first time they noticed their tires smoking. No less a racing driver than Bob McDonough, known for his daring on the speedways, stopped one of his practice rounds and hurried to me, badly worried by the smoking of his rear tires. I might add that it takes heat to produce smoke, and it takes real tread stock and real tire construction to stand that kind of treatment."

The drivers choose their tires with extreme care and for the Indianapolis race practically every driver insists upon Firestone Tires. Likewise, in other championship races throughout the country, on dirt tracks as well as brick, Firestone Tires are on the winning cars.

He's Glad Foulkes is at Last Waking the Democrats Up

(Editorial Note: The following letter was published in a recent issue of the Washington, D. C. News):

Editor The News:
At last I am glad to see some glimmerings of intelligence among the Democrats who lately have seemed to be walking or talking in their sleep. Puts me in mind of the song, "Did You Ever See a Dream Walking?" At least one of the sleeping Democrats has waked up and is really demanding a new look for the oppressed. I refer to that courageous, splendid statesman, Hon. George Foulkes of Michigan.

Rep. Foulkes has delivered some really remarkable frank speeches recently over the radio and in Congress, altho the stupid leadership in the House suppressed him for several days until he threatened to appeal direct to the White House. He hates injustice.

Also he has taken up the championship of the 18-year-old injustice of capitalist persecution similar to the infamous Dreyfuss case of France, the atrocious frame-up and imprisonment of Tom Mooney for a crime that everybody knows he did not commit.

Those who wish to hear and see this fearless Democrat in action will have an opportunity to do so tomorrow night in the Town Hall at Waldorf Md., where a monster mass meeting is to be staged demanding the release of Tom Mooney, the political prisoner.

Dinner Guests
At Benton Harbor
Mr. and Mrs. L. E. LeCave and Mr. and Mrs. Basil LeCave were dinner guests Sunday evening at the home of Mr. and Mrs. William Starch, Benton Harbor.

Evangelical Class
At Weko Beach
The Mountain and Beacon Light classes of the Evangelical Sunday school will have a wienie roast at Riverside Park on Wednesday evening at 8 o'clock. Meet at the parsonage not later than 7:45.

The Indian Wigwam
Wigwam is the name for the dwellings of eastern Indians of Algonquian stock. It was an arbor-like or conical structure in which from Canada to North Carolina was employed the same general mode of erection, which varied mainly in the plant materials (saplings, barks, rushes or thigs) used. The typical house of tribes of the Algonquian family housed more than one family, was oblong in shape, with a round roof, and was generally made with a frame of poles, having the roof covered with bark. The interior was divided into compartments and a smoke hole was left in the roof.

A Natural Compass
A beetle called the telephone is described by a bugologist of Paris in relating experiments with insects at the Paris museum. This little beetle, when suspended in the air, always succeeds in turning its body until it points directly north and south. No matter how much it may be turned, it always adjusts itself in this manner by means of its antenna.—Pathfinder Magazine.

GREAT RED CROWN AMPHITHEATER IS FAIR ATTRACTION

World's Foremost Animal
Trainer to Direct Great
Animal Show Before
2,500.

The greatest of all Expositions, A Century of Progress, Chicago's world's fair of 1934, amid pomp and ceremony befitting the occasion, swung open its portals at 9 a. m. May 26th with the entire world invited to come and see a bigger and better show than last year. The crowds that flocked to the opening were enthusiastic and found that even to those who have visited the Fair before it is in many respects a new Exposition.

Among the outstanding attractions is the new Red Crown "Live Power" amphitheatre, which the Standard Oil Co. of Indiana has erected on the lake front. This amphitheatre is an ideal structure, seating 2,500 persons, with each seat in perfect arrangement so that no person has an obstructed view of the huge wild animal arena where Fair visitors will be admitted free of charge to witness the most thrilling show staged on the exposition grounds.

The star performer will be Allen King, the world's youngest and foremost animal trainer, who will put thirty lions and tigers thru an amazing series of tricks. This intrepid entertainer is a living example of physical courage. Fearless in entering the big arena with the mass of jungle beasts jumping, leaping and snarling about him, he shows what the live power of the cats means by demonstrating their agility, action and stamina.

Four free shows will be given daily. Handling of the animals, many times a day is extremely hazardous, yet King smiles and goes about his nerve-racking performances as though they were all part of a normal day's work.

Aside from the big wild animal show by King, the Red Crown arena directors have engaged Miss Estrella Nelson, expert and skillful woman trainer, to present a group of elephants in a diversified program of tricks and maneuvers.

State Prepares New Annual of Election Laws

A new manual of instructions for local election officials is being prepared by the Department of State incorporating changes made in election laws by the 1933 legislature.

One of the important changes now allows persons who are properly registered to transfer on primary or election day from one precinct to another in the same city or township, regardless of length of residence in the ward to which removal was made. Previously the law required 20 days residence in the ward prior to the election.

Another change provides that on three-man election boards not more than two shall be of the same political party and that on larger boards not more than 50 per cent shall be members of the same party.

Firestone Nearly Doubles Size of Fair Building

The Firestone factory and exhibition building, which together with the Firestone Scientific rubber exhibit in the Hall of Science represents the rubber industry at "A Century of Progress," has been almost doubled in size. The many new exhibits are both interesting and instructive.

Visitors approaching the building on Lief Erickson Drive will first see the magnificent Firestone Singing Color Fountain, the only one of its kind in the world, with additional sprays this year, bringing out more amazing coloring to the tones of the music.

Immediately inside both entrances the spectators will see a replica of the Firestone rubber plantations in Liberia, Africa, showing tapping of the trees, the latex dripping, and natives bringing it into the preparation mill. Next the visitor will see the processes of rubber treatment, including coagulation, sheeting, smoking and baling. Sounds and native typical of the African plantations, including bird calls and native tom-toms. An attendant will describe interesting facts of African life and the plantations.

Four displays of scientific phenomena of rubber come to view next and then the actual tire factory with its gleaming machinery of the newest type, turning out 70 new tires a day from the efficient production line. Firestone air balloon tires, the newest development in safety and comfort for motorists, will be manufactured this year, as motorists everywhere are interested in these big soft, low-pressure tires that absorb road irregularities, give increased traction and protection against skidding, and give low-swing style to the car.

Continuing along the production line, after seeing the tires built from the raw material to the finished product and wrapped for shipping, the visitor will see displays portraying the development of tires—the solid carriage tire, the non-skid tread, the balloon tire and the air balloon tire. A series of dynamic product exhibits presents a beautiful and most interesting display. Whirling discs will show how Firestone Aquaplug brake lining brings cars to a stop more quickly and smoothly than old types. A huge Firestone battery will open to show how a battery is constructed and the results of the revolutionary new Firestone all-rubber separator. A typical product from Firestone Mechanical Goods Division, the Vibration Damper, will show how noise and vibration are being outlawed, not only for industries and automobiles, but for household appliances.

A huge Firestone spark plug unfolds secrets of its construction and new scientific advancements. Climaxing the product exhibits is an ultra-modern one-stop Firestone Service Station showing motorists the latest word in automotive service efficiency, convenience and economy.

The offices of the building will be on the first floor where dealers from all parts of the country will register before visiting the lounge rooms above, and balconies overlooking the singing color fountains or looking out across the entire fair grounds. In the gardens will be exhibits in glass enclosures. One of these includes cars that have won the Indianapolis races. Another will consist of an endless parade of Firestone automotive

products, upon which an "electric eye" controls spotlights. Another will show a replica of a Washington Electric Railway Company bus making trips to the moon, illustrating the fact that this fleet has traveled the equivalent of 23 round trips to the moon without a single tire failure.

The tractor tire display will include tractors and farm attachments. There will be an interesting exhibit of the lines manufactured at Firestone Steel Products Company, including rims and wheels.

The gardens will be beautifully landscaped and there will be more than a hundred benches where visitors can rest and enjoy the music of the singing color fountain.
