

FIRST NATIONAL TO PAY 7 PCT. DIVIDEND

Now Here's the Proposition

Uncl. Hank of Hills Corners Sez:

At Hills Corners things is bad, fer the crops air rotten and the price is sad. It's rained so much that it's got so wet that the wheat is sproutin' an' the beans won't set, and the hens air quittin' an' the cows gone dry till we ain't got a cent fer to go and buy, but we'll soon hev all the cash we want, when we're paid fer the wheat that we didn't plant.

Them city guys air kinda dazed, cause we're paid fer wheat that we didn't raise, but I don't keer how much they rant, fer wurst I went to a restaurant, a meal o' vittles fer to get an' paid fer a lot that I never et.

Toreador! So the young folks of Buchanan are taking up that old Spanish game of spad, under the auspices of the Lions club. Well, they ain't got a thing on us oldsters, who have been experts for many years in that other old Spanish game—tossing the bull.

Weekly Parade

The annual hay fever trek to the north is starting. One of the saddest sights we ever saw was a number of the old boys standing on the corner Tuesday night unable to make up their minds whether to go to the Townsend meeting, at the Kathryn Park or the bathing beauty contest at the Hollywood. Omitted mention last week of the Bartlett peach which bloomed for the third time at the Warren Willard home at 502 S. Fortage Street. R. G. VanDeusen has excavated the basement for his new home at 205 N. Detroit, a Cotswold cottage, frame, story and a half, six rooms. Honorable mention cum laude for public improvement this week goes to Joe Manning for the handsome field stone curbing he has constructed on the Chicago street side of his lot. The installation includes a two-foot wall along the hillside, with two culverts which took two weeks of spare time to build. Ed Mitchell has a handsome new holster for his side arms this week, tan instead of black. The first spad hostilities were due to start at 8:30 p. m. last night between the Schram and Jerue clubs at the court at the Sinclair station. The lot owners in the rear of Front street and Main street stores made a handsome cleaning of weeds and underbrush on vacant lots. At last the city commission is getting sewer-minded. The young married couples gave the home town preachers a break this past week. Three in Buchanan in one week. Maybe they will set a new style.

Softball

The Wilson Dairy softball team won the first leg on the city title Tuesday evening, defeating the Clark team 3-3 in the title series, two out of three. The second game will be played at Athletic park this evening, starting at 8:30 p. m. In the event that the Wilson team wins the series will end, but if the Clark team wins a third game will be required.

The Wilson Dairy and Clark teams are entered in the district softball tournament to be held at Flynn Park, Niles, next week. The Clark team will play the Niles Kewpee team at 7:30 p. m. Tuesday, Aug. 20, and the Wilson team will play the Bau Claire team at 5:30 p. m. the same day.

Joseph Roti Roti drove to Rochester, Minn., Monday to bring Mrs. Roti home but found minor complications which delayed the start. They are expected home next Sunday.

RIVERSIDE OPENS WITH NEW CHAPEL

Quadrennial Convention of Christian Education Opens Monday.

The Riverside Park Campground opened last night for its annual session, with a new chapel and a number of modern improvements added to the forty-odd year old park.

The new chapel is in fact the old Mt. Olivet church of near Lima, Ind., torn down and rebuilt at the park. The church had been without a congregation for several years and title to the structure and the land it occupied was about to revert to the general church board, when Rev. E. S. Faust, Kalamazoo, district superintendent, conceived of moving the structure here.

It is 40x60 feet in dimension, with two stories. The upper story is to be used for a boys' dormitory and the lower has been divided into several rooms for the school of religious education. It is south of the tabernacle.

A repetition of the water shortage of last year has been insured against by the installation of a pipe line to the river with a power pump to raise the river water to the old elevated tank for use in the two camp toilets. A second tank has been installed above the old tank, which will be filled from the camp well for drinking water and hotel use.

At this same park on the banks of the St. Joseph river, the Michigan conference quadrennial convention of Christian education will be held August 19 to 25.

On the scheduled program are conferences, young people's conferences, leadership training school, boys' and girls' camp spiritual fellowship services and divisional conferences for leaders of young people's and children's groups.

Opens with Vesper The assembly opened with a vesper service on the evening of Aug. 14, which was led by E. S. Marks, state secretary of the Michigan Christian Endeavor Union. Mr. Marks is an earnest, popular young leader who will address young people each day and conduct the vespers for them each evening.

During the first week there will be ministerial meetings at 8:30 a. m. at which various ministers of the district will give papers on some phase of ministerial life or work.

The tabernacle preaching services will be held daily with District Superintendent Edgar S. Faust in charge. Sermons will be given by ministers of the district and guest speakers from Bay City district of the Evangelical church.

Special attractions will be the quadrennial convention of Christian education from Aug. 19 to 25. The chairman will be the Rev. Carwin B. Westfall of Jackson, Michigan conference director of Christian education.

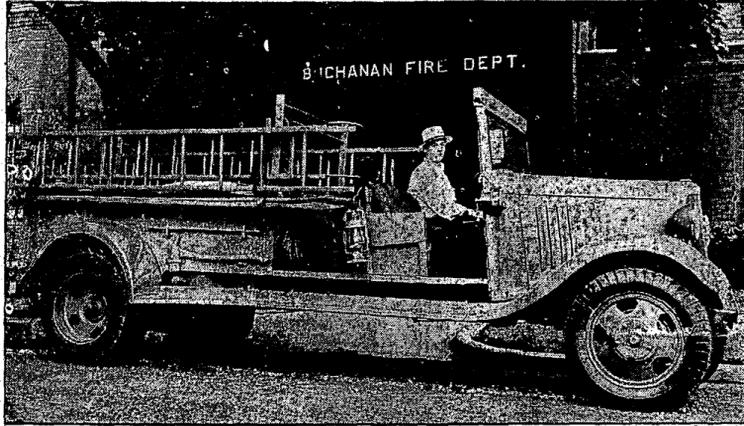

Speakers and leaders at the quadrennial convention will be the Rev. Grote; the Rev. J. F. Hatton, D. D., Michigan conference superintendent of United Brethren church; the Rev. H. I. Voelker of Flint; Mrs. Leonard Lester, Grand Rapids; the Rev. G. A. Spitzer, Cass City, experienced training school dean; the Revs. T. A. Moyer, S. P. Kinn and L. E. Willoughby of the Michigan conference; the Rev. O. G. Knetchel, convention director of music; the Rev. Oliver Francisco, convention pianist and the Rev. Leon F. Woodward of Lansing, former St. Joseph pastor.

Boys' and girls' camps will be a fine feature of the ten day assembly. They are conducted for boys and girls from 11 to 15 and are under direction of the Rev. M. R. Dyerett and Miss Irma Randall of the Benton Harbor First Evangelical church.

The Rev. W. E. Grote of Elgin, Ill., has been secured as the assembly evangelist and will speak each afternoon and night. Guest speakers will include the Rev. D. F. Bender of Dearborn and the Rev. C. A. Wilkie, Bay City, district superintendent.

Special days are: Aug. 15, women's missionary rally; August 16, Indiana day; Aug. 17, stewardship day; Aug. 18, dedication of new chapel.

Buchanan's Reconditioned Fire Equipment

Equipped with a new chassis Buchanan's old fire department transport is ready to go places. The old chassis was purchased in 1918 and recently had shown a disposition to stop on hills. Enroute to a fire at the state line it had to back up three times to get up Days avenue hill. Hose and ladders have been transferred to the new vehicle and the local fire department now is ready for fall fires.

Resurface and Treat Redbud Trail

The county road force completed installation of gravel and chloride on the Redbud trail last week and that highway is now much improved. Gravel is also being installed on the Clear Lake road, the Best road and other main travelled county thoroughfares.

PRELIMINARY PLAN FOR SEWERS BEGUN

S. B. Engineers Start Survey For Federal Project.

Engineer Gardner of the firm of Cole, Moore & Geupel, South Bend, started work yesterday morning on a preliminary survey of the city for the purpose of drawing up plans and estimates of cost for a sewer system covering the unsewered districts, all or part of which is being carried out as a Works Progress administration project, if plans initiated by the city commission are carried out.

The firm of Cole, Moore & Geupel was engaged at a special meeting Monday evening for the purpose of representing the city through, including the formation of plans and estimates and the subsequent spreading of the rolls and supervision of the work if the project is finally endorsed by the city and the federal government. The firm has a wide experience in this work and is now engaged in the supervision of sewage disposal installations at Gary, Fort Wayne, Goshen and other cities.

Preference will likely be given to trunk sewers on Chicago or Front street or both, if the commission decides not to cover the city. All sewer installation will be paid for by special assessments of those served, and anyone not benefitting will not be involved in the cost. The residents of any section desiring the installation of a sewer may insure such installation by the petitions containing the proper representation of property owners.

Buchanan Dollar Days Aug. 23-24

To Form Townsend Ground Here Sunday

Joseph Kelsor, Dowagiac, spoke at the first Townsend plan meeting to be held in Buchanan at Kathryn Park Tuesday evening, with 250 present.

Much interest was manifested and a second meeting will be held at the park at 3 p. m. Sunday with a speaker present, at which time arrangements will be made for the organization of a local club. It was stated at the meeting that the movement has many adherents about Gallen, and an organization at New Carlisle with a membership of 1,000.

Honored at Party

Miss Belle Landis was hostess at a party at her home Tuesday evening for the girl employees of the three department of the Clark Equipment Co., honoring Miss Kathryn Pertz, who is leaving to enter training at St. Luke's hospital, Chicago.

REBUILDING OF PEARS APT. BEGUN

Complete Modern Funeral Home Opened Here November 1st.

L. O. Swem began alterations last week on the handsome old residence known for some years as the Pears apartment, 301 W. Front St., which he will build over into one of the most complete funeral homes in southwestern Michigan.

Swem says that the building will be ready for occupancy by Nov. 1. The one-story extension to the rear is to be demolished and a new garage built in its place. A drive will be opened from Front street along the west side, extending in the rear of the garage and into Clark St. The front of the building will be altered, part of the porch being removed, and the front squared up even with the present partial extension in front. Another addition will be built on the rear of the east side, squaring up that side and affording two more rooms downstairs and added space to a large store room upstairs.

The business entrance will be on Front street and nine rooms in the front part up and down stairs will be devoted to funeral home purposes. Eight rooms will be fitted up for residence, with the entrance on Clark street. A circulating hot air heating system will be installed which will also serve for air conditioning in the summer.

MARY HEIERMANN IS MISS BUCHANAN

Entries Assured for Co. Contests to be Held Here August 21.

Miss Mary Jane Heiermann was selected as Miss Buchanan to represent the city in the county-wide bathing beauty contest to be held here next Wednesday evening, Aug. 21, the selection having been made at the Hollywood theatre Tuesday evening with five local entries.

A. S. Root, who is managing the contest, stated that chairmen in several other cities had assured him that the selection of entries was under way and that competition was assured for next Wednesday night.

The county contest will be held about 7:30 p. m. Wednesday night on the platform at Main and Front street, with Mrs. Harold Bradford of Niles, Mrs. Harold Stark of Buchanan and Roy Haines, circulation manager of the Benton Harbor News-Palladium, as judges. It will be followed by the usual entertainment of square dances and other dances.

Concerto, Symphony

A concerto is an extended composition in sonata form for a solo instrument with orchestra accompaniment. A symphony is (especially since 1780) a work for an orchestra in the form of a sonata but generally with fuller development and greater breadth of treatment.

Flower Sale for Help of Blind Here Saturday

One hundred years ago, Louis Braille, a Frenchman, conceived the idea that by arranging six simple dots (known as the Braille cell) and by utilizing their various possible combinations for letters and word-signs, the blind could be made to "see" through their finger tips.

This proved to be one of the outstanding accomplishments of his time, truly an "eye-opener" to those bereft of sight. Today there are 173 combinations of these dots representing the alphabet and word signs in general use, as almost a universal language for the million blind throughout the world, of whom there are 100,000 in this country.

The American Brotherhood for the Blind, a non-profit organization, produces and distributes the Braille books without charge, for blindness is a terrible handicap and Braille is so expensive to produce that few can afford to purchase it. The Brotherhood publishes also the All-Story Braille Magazine, the only all-fiction magazine for the blind in America, which gives to the sightless the very best stories, reprinted from the popular ink magazines, and is greatly enjoyed by its readers. The magazine is sent free to the blind and now circulates in every state in the Union and in 17 foreign countries.

Among those sponsoring the sale are the Lions club, Rev. C. A. Sanders, Mrs. Glenn Smith, Dr. J. C. Strayer, Rev. Paul Carpenter, Mrs. Ralph DeNardo with Mrs. Vine Cook in charge of sale and finances.

Orchard Hills

A meeting of the members of the Orchard Hills Country Club was held at the club house Tuesday evening, a review of the business of the year being made, followed by election of directors resulting as follows: L. L. Lyon to replace E. B. Ross as Buchanan representative; C. E. Drake to replace W. H. Parlin and Frank French to replace H. O. Parker as Niles representatives. A board meeting will be held soon to choose officers for the next year.

Incurs Fractured Skull in Wreck

William Smith, Buchanan, is a patient at the Pawating hospital, Niles, with a fractured skull, incurred when the car which he was driving turned over on M-60 west of Gallen about 11:15 p. m. Saturday. Smith was driving at about 45 miles an hour when he turned to speak to an occupant of the rumble seat, his car veering off the edge of the pavement. When he righted the car the wheels buckled and it turned entirely over, alighting on its wheels again. Smith was thrown clear and was found lying unconscious. Miss Mae Stick of Niles, in the front seat, was unhurt, as were also Sylvester Sands and Edna Hushower, Buchanan, who were in the rumble seat.

1ST PUBLIC SPAD MEET AUGUST 14

Enos Schram and John Jerue Clubs to Play on Oak Street.

The Spad game, which recently has become so popular in Buchanan, is expanding quite rapidly. The first public contest was scheduled for the evening of Wednesday, Aug. 14, between Enos Schram's club and Johnnie Jerue's club. The contest was arranged at Schram's new Spad court on Oak street, opposite Lundgren's implement shop and next to Holmes Battery shop. The contestants have been practicing for some time to get ready for the fray. Spad, apparently, is so much faster than tennis that experienced tennis players require some practice to become used to the increased tempo.

D's Cafe is preparing the vacant lot on Front street, two doors west of the cafe for a spad court and it is planned to enter the contests with the other clubs at an early date.

The Montague Motor Sales plan to have a spad court near their sales room.

A number of spad clubs are in process of formation and quite a number of young and middle aged people have expressed their desire to enter one of these clubs. In order that club organizers and those who wish to play in spad clubs may get together, it has been arranged that those who wish to play may leave their names and addresses at the office of Enos Schram, corner of Front and Oak streets.

A spad court has been erected on the Athletic grounds and seems to be quite popular.

Howard Qualifies As a Native Son

Howard Monroe, former Hollywood helmsman, writes that he has finally taken over the Ritz theatre, 600 seats, a neighborhood house at Long Beach, Calif., after travelling up and down the coast two months, following which he raves on and on about the glories of the climate in that Eden where all the weather is unusual and the sun always shines except at night and on rainy days.

He asserts that the climate has Michigan beat a mile, although he admits that business there is six months behind Michigan in pick-up. (And maybe he will come back some time.)

Recreation

About forty have signed up for the city tennis tournament which will begin Thursday. Anyone wishing to enter should sign at once.

No medals will be given in the horseshoe tournament but the event will be held nevertheless.

A soft ball team from the high school age group will meet a Niles Junior league team here today.

The Buchanan junior age tennis team comprising D. Ellis, L. Brewster, D. Neal and H. Gross, were defeated by a Niles team Tuesday.

The high school age softball team defeated the Niles Kewpee Midgets Monday 4-2. A return game will be played here Monday.

The junior softball team defeated Bertrand Tuesday 13-6.

Kyle Walters won a practice horseshoe tournament.

Races and other contests for children will be held at Kathryn Park Friday afternoon for prizes given by Ralph DeNardo. Last Friday a vehicle parade was held.

The Dramatics classes of the summer recreation program held a picnic at Jean Klock Park, Benton Harbor, Tuesday, students from 11 to 16 attending.

These classes are preparing four one-act plays to be given the last week in August.

Mrs. D. W. Ewing is in Kalamazoo caring for her mother's home, while the latter is under observation at the Mayo clinic at Rochester, Minn.

Confesses to Theft at Ida Freeland Home

Paul Regenes, 215 Woodward street, Niles, was placed under arrest in Jersey City, N. J. Wednesday for disorderly conduct and confessed to having stolen \$90 from Mrs. Ida Freeland, Cayuga street, Buchanan, a week ago Sunday night.

MANY SIGN FOR TENNIS TOURNNEY

Enrollment Still Open For Entries for Record Trophies.

Thirty-eight racquet enthusiasts have signed up for the various classifications of the tennis tournament which is to begin Friday at Athletic park and continue two weeks under the direction of the recreation staff for trophies given by the Berrien County Record, with prospects for additional signers before the tournament is well under way. Entries in the various classifications to date are:

Men's Singles W. Zachman, D. Ellis, J. Liska, G. Zachman, Howard McClellan, Marvin Gross, W. Shreve, L. Brewster, J. Leggett, J. Eisenhart, C. Rice, L. Batchelor, Hubert McClellan.

Men's Doubles C. Rice-M. Gross, L. Batchelor-G. Zachman, F. Smith-H. Boyce, D. Ellis-J. Eisenhart.

Boys' Singles C. Bainton, H. Russell, H. Gross, B. Hollenbaugh, R. Neal, J. Frank, D. Beck, Rex Shreve, R. Rumsey.

Boys' Doubles Neal-Dalrymple, Frank-Russell, Shreve-Bainton.

Ladies' Singles Zelta Frank, Jean Russell, Betty Marrs, Doris Campbell.

Girls' Singles C. Wynn, R. Smith, V. Wright, C. Webb.

Girls' Doubles Wynn-Webb, Wright-Smith.

Blues Defeated By Glendora 9

In one of those baseball games where everybody hits and runs, the Buchanan Blues were handed their third community league defeat of the season when they bowed to the strong Glendora Wolverines by a count of 13 to 8 at Glendora Sunday.

This was the first time this season that the locals have been in such a poor form. It seemed to be an off day for everybody as they committed frequent errors.

It looked as though it was going to be a run away at the start of the contest, for the Blues tallied a total of six counters in the first frame, but the Wolves came back in their half of the first and scored five runs to pull down the big lead that the Blues pulled up. Glendora then tied up the count in the third, but the locals came through in the fifth to forge ahead again. But in the last half of the fifth the Wolverines knotted up the count again. In the seventh and eighth, Glendora went way ahead when they garnered five scores. The Blues tallied their last run in the ninth.

Dan Topash went the route for the Blues and was nipped for a total of fifteen hits, struck out six and walked two. Fred Prenkert worked on the hill for Glendora and allowed twelve safe bingles, struck out six and walked two. Lauren Morse, Harvey Letcher and Walt Schmidt led the hitters for the Blues with two apiece while Crouch got four safe bingles for Glendora. Next Sunday the Blues tackle the strong New Troy Millers. New Troy is a leading contender in the community league, so a fine ball game is expected. The game will be played at the Liberty Heights diamond and no admission will be charged. The Blues defeated New Troy in their previous tilt by a score of 4-2.

Correction

In the Record of Aug. 8, the name of William Nelson was mentioned as a joint purchaser of the Pangborn residence. The name should have been John Nelson.

Rural Power Lines

The Indiana & Michigan Electric Co. is completing installation of a line from the Ward corners to the Buchanan township lines on the Redbud trail this week. Next week work will be begun on installation of a line from the Pennellwood farm to the Tichenor farm.

RAISES TOTAL TO 92 PER CENT

Dividend Paid When Checks Return from Washington.

The First National Bank Trust will shortly pay a fifth dividend of seven per cent to all depositors who have proved their claims, according to H. R. Botkin, receiver. The dividend of seven per cent will amount to something over \$30,000, but the amount distributed will be increased somewhat by the fact that between 200 and 300 depositors who had not previously established claim will receive their first, second, third and fourth dividends in one.

This dividend will swell the total distribution by the trust to 92%, in excess of \$400,000. The bank was closed Oct. 16, 1931. The first dividend was 45%, paid in June, 1932. The second was 10%, in December, 1932. The third was 20%, in June, 1934. The fourth was 10% in January, 1935.

Mr. Botkin said that the exact date of payment is not certain, but will not be for several weeks. The trust is making out the checks at the Niles headquarters this week, and they must be sent to Washington and there signed and returned.

City Gets \$1958 Delinquent Taxes

City Treasurer Ada Dacy Sanders has received a check of \$1,958.67 from County Treasurer Forrest E. Brown, as the city's share of the delinquent taxes collected during July.

The payment included delinquent taxes for the years 1928-34 inclusive, and included many one-tenth installments of taxes due from 1932 and preceding years qualifying under the ten-year moratorium from 1935 to 1944.

Checks totaling \$29,301.28, covering delinquent taxes collected during July, were mailed to township, village and city treasurers on Thursday by County Treasurer Forrest E. Brown.

Benton Harbor received the largest check. Its share totaled \$3,926.75. St. Joseph was second with \$3,497.36, and Niles third with \$2,572.84.

Township received the largest amount of any township in the county. Its check was in the sum of \$1,331.33. New Buffalo township was second with \$1,110.15 and Chikaming township was third with \$1,015.53.

Other checks to township treasurers ranged from \$160.60 for Bertrand township to \$946.82 for Comloma township.

Checks to village treasurers ranged from \$25.50 for Stevensville, to \$153.85 for Bridgman.

Report Holdup of Beer Truck on M-60

Indefinite reports state that a beer truck owned at Stevensville, driver Pantella, was held up on M-60, about 3-4 miles east of the Hall Apple Farm shortly after 7 p. m. Monday by three men in a Ford V-8 car, Illinois license, who allegedly to have crowded the beer truck from the road.

The driver stated that he was robbed of the money on his person, amount not stated, but that \$200 which he had hidden in the truck was not found. He said that the first three numbers were 111; that one man had dark gray hair, was about 5 feet 8 inches tall and weighed about 180 lbs., that another was 6 feet tall, with dark hair and that the third had light hair. The Niles police went to the scene but noticed the case over to a highway patrolman who arrived shortly after. No trace was found of the perpetrators of the alleged robbery.

That Tax Moratorium

Buchanan people who wish to be sure that they are paying the one-tenth installment on delinquent taxes of 1932 and previous years in time to take advantage of the ten-year moratorium without penalty or interest should make sure that their payments reach the county treasurer not later than Aug. 31.

The notice issued by the county treasurer says that the installment must be paid before Sept. 1. It is important that some people may interpret this as "on or before." But it does not read that way, and it is quite likely that if you attempt to read that meaning into it, you may find yourself outside the pale of the moratorium, with a nice bill for penalty and interest facing you.

Out Along the Des Plaines

(The following appeared on the editorial page of the Chicago Daily News Tuesday. Change "Des Plaines" to "St. Joseph" and the editorial would be equally applicable here.)

Chicagoans who recognize the possibilities for beauty lying in the situation of their far-spreading metropolis will rejoice in the assurance that there is to be co-operative effort on the part of public agencies to make the Des Plaines river valley as lovely as nature intended.

Man's indifference to his greatest blessings has marred the delights of the Des Plaines. Pollution of its waters by the waste of villages and industries along its banks is an offense against the common good, and a flaw in our life to be considered civilized. There is the authority of law to end that of ending. The Chicago regional planning commission, enlisting the aid of the forest preserve and sanitary districts, the state sanitary water board and other interested bodies, proposes to liberate this ribbon river from its defilers, and restore it as a radiant scarf of sun and shadow, of mirrored bloom and fallage on the western shoulder of Chicago.

Only the indecencies of human neglect and abuse prevent the Des Plaines from being a clean, clear river of cool water, with tree-lined bathing pools for the swimmer; with shimmering bluegills and sun-fish, carp and bass to tempt and reward the fisherman; with gliding canoes upon its surface in summer and merry skaters in winter—all between banks, which, whether green and pink and golden with blossom or white with snow, are an invitation to forsake the cement road and the cliff dwellings of apartment house and office building for the foot path that leads back into man's happiest heritage of memories.

In the making of a city that is to remain human, these things are even more essential than are railroads and factories and markets. And a city that remains human is beloved by the world.

Mint Farms Lose Money

Reduced prices on the distilled product and the effect of heavy rains lately have greatly reduced the income of the mint farmers of the Glendora district.

Although the rains have caused a heavy straw growth, they have also reduced the peppermint yield per load. Although last year the fields yielded only about a load to the acre, the loads averaged from 35 to 40 pounds of distilled peppermint pieces. This year the fields are yielding as high as three loads to the acre, but the loads run from 7 to 10 pounds each in the distilled product. Also the price last year was \$2.75 to \$3.00 as compared with \$1.50 to \$1.75 this year. As the result of high mint content and a better price, the mint farmers made money last year and the acreage was greatly increased. This year most of the mint farmers claim to be losing money.

"I'm afraid that a lot of these young fellows between the ages of 18 and 25 who sat around for two or three years with nothing to do during the depression have received a job that will last them for life," said a local business man last week. "The experience of being without work at the time when a young man is normally getting placed will handicap their working power."

It may be that he is right but our observation of specific cases indicates that human nature is more resilient, not so likely to permanently be dented. There are indications that these young men who have gone back to work after a long lay-off have not suffered in working power but appreciate a job the more for that fact. Most of the young men of that age in Buchanan have gained a foothold on payrolls and are staying there with no apparent handicap from their uncomfortable experience.

A current magazine retells an old saddle story. A firm sold a

saddle on credit, neglecting to make a record of the transaction. No pay came for the saddle and no one could remember who bought it. On a chance the firm sent a bill for the saddle to twelve different persons. Eleven of the twelve paid for the saddle. As it eventually transpired, the only one who did not pay was the person who actually bought the saddle.

Alf George of Co-ops, Inc., called our attention to the following advertisement:

"You've heard about the city farmer, who, upon learning of a food shortage in China, figured, 'Ah, there's a market for my crops.' So to get a direct route there he started in the pasture to dig a hole eight feet square to China. After six months of steady digging he was down just a half mile, and his shovel was worn to the hilt so he had to quit. In all that time he shoveled 174,080 cubic feet of earth. Quite a big pile, we'll admit, but it isn't any more than you handle in digging a ten-acre patch of potatoes. And with a blank potato digger you can do the whole job in two or three days."

New Contracts Are Issued for Wheat Growers

Michigan wheat growers will be offered crop control contracts covering the crops for 1936 and three succeeding years, according to Chester G. Davis, administrator of the A.A.A. The contracts will be ready for signatures soon and will be handled through the county control committees chosen by the farmers themselves.

Mr. Davis says that recent court decisions on some phases of the A.A.A. will not affect the government making benefit payments to farmers who fulfill the new wheat contracts. He states, "Even if an adverse decision by the Supreme Court should materialize at some future time, the contract in its present form is admirably devised to protect both the farmers and the Government."

"The government would have both a moral and a legal obligation to compensate farmers fully for performance up to the date of such a decision. The Government, in fairness and honesty, would pay, and legally would be bound to pay in full for their compliance up to that time, but not beyond that time."

The contract period is for four years, beginning with 1936, but the grower can terminate the contract at the end of two years. The secretary of agriculture can terminate the contract at the end of a marketing year or for non-compliance with contract terms within a crop year.

"OLDEST CRUDES MAKE TOUGHEST MOTOR OILS" - SINCLAIR

Sinclair engineers have found that, by and large, the oldest crudes make the toughest motor oils. The crude oils used in making Sinclair Opaline and Sinclair Pennsylvania Motor Oils are among the oldest ever discovered.

Each of these oils gives a lubricating film that will withstand a pressure of more than 3 tons per square inch. This toughness has been proved on special Film-Breaking Machines in Sinclair's East Chicago Testing Laboratories.

Look for the dinosaur on the Tamper-Proof cans in which Sinclair Opaline and Sinclair Pennsylvania Motor Oils are sold.

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip—to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

A Thoughtful Legislature has made an earnest effort to lighten your tax burden

EVER since the immortal Gettysburg Address, the accepted standard for American government has been "of the People, by the People, for the People."

This applies to the matter of taxation no less than to other functions of government.

So it is entirely natural that the Legislature of Michigan has had the People of this great state in mind when it has taken certain measures to lighten the tax-burden of our citizens.

It is now the part of good, loyal, co-operative citizenship for the tax-payers of Michigan to take fullest advantage of the provisions that have been passed for their benefit.

Not only has the Legislature made generous concessions in the matter of interest and penalties, but it has also pro-

vided a convenient plan whereby taxes for 1932 and prior years may be paid over a period of time. There are indeed few tax-payers who can not now protect their homes by paying their taxes.

You can now pay up this important obligation just as you pay for a home or an automobile or furniture; putting aside a little each week or month, and then making an annual payment equal to one-tenth of the amount of your delinquent tax. On the ten-year plan you pay only a small carrying charge for this privilege.

Get in touch with your County Treasurer right away. He is prepared to accept payment of your back taxes either in full or on the ten-year plan. Bring him your old tax bills or the legal description of your property. But don't wait until the last-minute! Act now and avoid the last-minute crowds.

Chain Store Cards Ready for Mailing

Certificates showing payment of chain store taxes for 1935, are ready for mailing by the Department of State to operators of 26 chain store firms who recently reached a compromise with the state as to the amount of total chain store taxes owned. More than 3,500 stores are operated in Michigan by the 26 operators; as many certificates will be forwarded when the Attorney General's office gives formal notice of the receipt of the tax payment agreed upon.

In the meantime, the department, following acceptance by the administrative board of an idea proposed by Orville H. Atwood, secretary of State, has mailed out about 1,400 refund checks for a total of some \$34,000, to the operators of chain stores who had paid their 1933 chain store taxes in full. The 26 litigants settled for about 38 per cent of their 1933 taxes; the refund to some 1,400 other operators was for about 38 per cent of the taxes each had paid.

Questions Arise on Gas Delivery Many wholesale distributors of gasoline are making inquiry of the department of State as to requirements for permission to deliver gasoline to retail stations during night hours, after Sept. 21. An act of the 1935 legislature, aimed at possible gas tax evasion by deliveries to retail stations by night, took effect on its effective date, Sept. 21, at such deliveries between 9 p. m. and 5 a. m., without permission from the Secretary of State. Information as to conditions necessary for such certification, is being forwarded to those who ask for it.

The first opposition which had appeared against Governor Fitzgerald's economy program faded as the highway commissioner, Murray D. VanWagoner, explained that he had placed a wrong construction on the issue.

VanWagoner declared he would accede to a five per cent cut ordered by Gov. Fitzgerald against the budgets of all state departments. He accused the governor at the time of increasing the pay bills in his own office by 40 per cent. "I, myself, placed a wrong construction on the issue in my talk with newspapermen," the highway commissioner told his audience in a speech at Stockbridge, Ingham county, recently.

The five per cent reduction has been absorbed by paring my administrative budget. It would be impossible, however, to reduce the total salary payroll by five per cent because we are now operating under a \$20,700,000 highway construction program compared with a \$14,520,000 construction program last year.

Isle Royale National Park An executive order authorizing purchase by the government of privately owned land on Isle Royale, Lake Superior, has been signed by President Roosevelt, advancing the movement to make the island a national park.

The president, at the same time, authorized the allocation of \$705,000 for the purchase, \$50,000 of which is to be used for administrative expenses in connection with the acquisition.

Senator Arthur H. Vandenberg, Republican, of Grand Rapids, long an advocate of the national park movement at Isle Royale, was jubilant last night when he was informed of the president's action. Vandenberg was the author of a bill passed four years ago authorizing the government to take over the island as a national park provided the state acquired title to the land.

"I am delighted this has been done," the senator said. "Every authority in the country agrees that this is one of the finest locations for a park and it is bound to be a tremendous thing."

The executive order placed the authority for acquisition of the land with the secretary of the interior, and left it to his discretion whether the funds went through the national park service or another channel.

6,000 on Mich Pension Rolls Dr. Philip A. Callahan, director of the old age assistance bureau, said that 1,000 persons have been placed on the pension rolls within the last month. There are now 6,000 persons on the rolls.

He explained that pensions now are limited to \$15 a month because the federal government has not matched a state appropriation of \$2,000,000. Dr. Callahan said that possibly 20,000 Michigan residents were eligible for pensions.

State Farm Income To Be \$40,000,000 Higher Michigan's farm income for 1935 will be \$40,000,000 greater than in 1934, according to officials preparing for the eighty-sixth annual Michigan State Fair at Detroit on Aug. 30 to Sept. 8th.

The U. S. Census Bureau reports that during the five years, April 1, 1930, to Jan. 1, 1935, the number of farms in Michigan jumped from 109,372 to 196,517 while the value had from \$1,160,651,607 to \$2,271,381,102, or a drop of \$883,518,505 in

the value of the state farming land and buildings.

During this same period the number of acres in cultivation jumped 1,378,730 acres or from 17,118,861 acres in 1930 to 18,497,591 acres in 1935.

The Moving World

Sleeper Busses

The Pacific Greyhound Lines now operate the first daily cross-country sleeper-bus in the U. S., running from Los Angeles to Kansas City. The 1500-mile trip takes 52 hours. Regular basic fare is \$24 plus \$5 for a berth, upper or lower. Built by General Motors, the night coach has berths for 25 including five double berths, 47 inches wide, which cost \$7. Single berths are 29 inches wide and six feet long. Each compartment has its own radio, mirror, table, wash stand with hot and cold running water. At the rear of the coach is a men's lavatory, and women's lounge with dressing table, mirror and settee. Passengers prepare for bed in perfect privacy, standing up. On duty at all times is a porter.

Photographing the Stomach

The earlier a disease can be recognized the greater the possibility that it can be dealt with successfully. Concerns of the stomach have heretofore been extremely difficult to recognize. Two new diagnostic devices will prove of immense value. One is a gastroscope, a sort of flexible periscope, invented by Dr. Rudolph Schindler of the University of Chicago. Employing a system of 40 lenses, it enables the physician to examine every portion of the interior of the stomach. The other, the invention of two doctors in Buenos Aires, is a camera no larger than the end of a lead pencil, which is swallowed by the patient at the end of a rubber tube. It takes 16 simultaneous pictures from which a complete model of the stomach's interior can be constructed.—David Dietz in N. Y. World-Telegram.

How Hot is Your Hat?

It is difficult to realize just how hot the inside of a man's hat can be. One experiment was performed in which a thermometer was placed inside a hat worn by a man, and kept there. When the outside temperature was 77 degrees F., the thermometer inside the hat was 90, and when the outside temperature

Properly Stowed Bags Add to Comfort

Comfort, pleasure, and safety on a tour depend largely on efficient loading of the luggage, and modern body designs have done much to ease the problem, as these views of Chevrolet models reveal. In the upper left view, the suitcases have been fitted in snugly, the adjustable front seat having been moved forward to allow extra room, and the driver is now pushing back the seat to clamp the bags in place for the day. Upper right, the tourist is utilizing the baggage space back of the rear seat. The two lower pictures show the loading of a coupe compartment and a sedan trunk.

Death on the Highway

An enterprising judge now and again sentences reckless drivers to tour the accident end of a city morgue. But even a mangled body on a slab, waddly portraying the consequences of bad motoring judgment, isn't a patch on the scene of the accident itself. No artist working on a safety poster would dare depict that in full detail. That picture would have to include motion-picture and sound effects, too—the flopping, pointless efforts of the injured to stand up; the queer, grunting noises; the steady, panting groaning of a human being with pain creeping up on him as the shock wears off. It should portray the slack expression on the face of a man, drugged with shock, staring at the Z-twist

Dry Cleaning and Dying

Compared to the price of even a shabby funeral it is cheaper to have your dry cleaning done by the professional. And if you want to safeguard yourself economically, let the professional do the cleaning and return the garment to you unpressed. The bulk of the cleaner's charge is for pressing not cleaning, and you can save the ironing charge by doing it yourself without risking your neck. But if you must do your own dry cleaning, there are plenty of safe

cleaners on the market, at least 18 different ones classified by the Underwriters Laboratories as non-combustible and non-inflammable.

Obviously, gasoline is tricky stuff—so tricky that New York City alone has an average of 16 fires a day from its mishandling. And 90 per cent of these fires involve thrifty housekeepers who do their dry cleaning at home—and who can't be satisfied with anything short of liquid dynamite with which to do it! What is the solution? Simple: Don't ever allow a can of gasoline or benzine or naphtha to come into your home, because you cannot possibly clean with it safely. In your car gasoline is all right because it is under mechanical control, but in the kitchen or laundry—never.—Popular Science Monthly

in his broken leg, the insane crumpled effect of a child's body after its bones are crushed inward, a realistic portrait of an hysterical woman with her screaming mouth opening a hole in the bloody drip that fills her eyes and runs off her chin. Minor details would include the raw ends of bones protruding through flesh in compound fractures, and the dark red, oozing surfaces where clothes and skin were flayed off at once.

Those are all standard, everyday sequels to the modern passion for going places in a hurry and taking a chance or two by the way. If ghosts could be put to a useful purpose, every bad stretch of road in the United States would greet the oncoming motorist with groans and screams and the educational spectacle of ten or a dozen corpses, all sizes, sexes and ages, lying horribly still on the bloody grass.

Save your home - Save interest - Save worry - Pay Your Taxes Now!

THIS month the eyes of America are on Michigan, and its drive for taxes. Involved in its success are the security and happiness of many homes, and the financial integrity of various units of government. Aided by a considerate legislature, the State of Michigan now asks its delinquent tax-payers to meet their important obligation without further delay.

For those who are prepared to pay in full, taxes for 1932 and prior years may be taken care of without any interest or penalties. This means a saving of 27% to 45%—and even more.

For those who aren't able to pay taxes for 1932 and prior years in full, there has been provided a 10-year plan, with the same substantial savings, but with a small added carrying charge.

Those who owe 1933 and 1934 taxes, may also save all interest and penalty, by paying a 4%

collection fee. (For these taxes there is no deferred payment plan.)

Regardless of how you plan to take care of the obligation the important thing is that you do so without further delay. The immediate cash saving is an important item for anyone; but no less important is the saving of worry, doubt, and bother.

Acting under the Law, the Auditor-General must soon offer most of the delinquent taxes at public sale. This difficult task will be considerably lightened if the individual property-owners take the situation promptly to heart and proceed to pay their taxes.

See your County Treasurer at once. Show him your tax bills; or at any rate, give him the legal description of your property.

Then he will tell you the exact amount of your back taxes, and accept your payments. If you are not familiar with the details of the tax laws he will give you a descriptive folder that describes in simple terms just what you must do to save your home. See your County Treasurer at once.

BY ORDER OF THE ADMINISTRATIVE BOARD.

John J. O'Hara Auditor-General

The Symbol of an Ideal

THE history of American industry affords no example of lasting success that came by chance. Instead, it shows that enduring institutions are products of an honest policy applied intelligently and faithfully over a period of years.

The vital place which the telephone occupies in modern life did not result from accident. It was won—and is held—by supplying the public with a service of genuine and steadily increasing value.

To better that value is the abiding principle of the Michigan Bell Telephone Company's policy. Even during the recent years of sharply reduced revenues, years in which all values were subjected to bitter tests, this company did not relax in its obligation to achieve further improvements in its service.

As a direct result of this policy, the people of Michigan are receiving a higher grade telephone service than

ever before. This statement is not made lightly. The improvement is revealed by carefully compiled records of daily performance. They show a greater speed and accuracy in handling local calls; a continued decrease in "out-of-order" reports; more prompt repair service; and a greater proportion of out-of-town messages completed while the subscriber holds the line.

These records, though undramatic in themselves, are important as milestones of progress toward complete satisfaction for the users of this vital public service. The improvements they signify were not won by chance—they did not "just happen."

They were achieved by this company's rigid adherence to a policy having as its basic ideal the best possible service for the least possible cost that will maintain the present standards and assure the improvements of the future.

CHEVROLET OWNERS: Standard Red Crown is the favorite gasoline of the men who demonstrate your car

Chevrolet Salesmen
vote 2 to 1 for
Live Power OVER ANY OTHER BRAND

BOX SCORE

In a recent survey by a nationally-known research organization, automobile salesmen in 125 middle west towns and cities were asked this question by impartial investigators:
What gasoline do you usually use when you demonstrate your cars?
"On the basis of this survey, the ratio of gasoline preference per 1000 Chevrolet salesmen is as follows:

STANDARD'S LIVE POWER GASOLINE	218
Second Brand	98
Third Brand	85
Fourth Brand	81
Fifth Brand	71
Sixth Brand	67

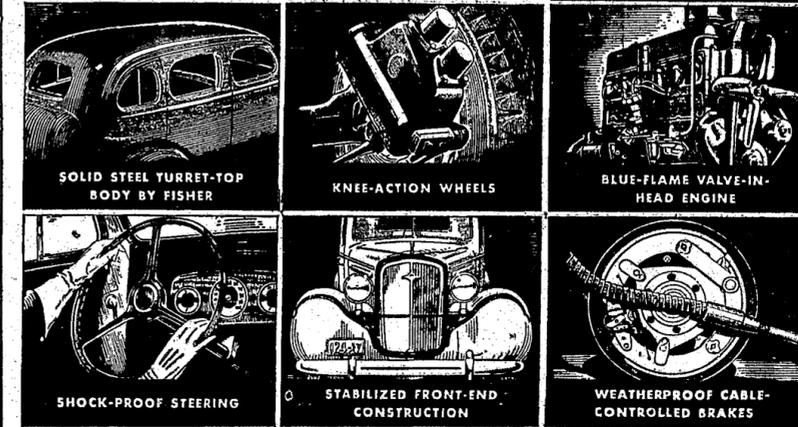

"We have examined the data on which the above tabulation is based and certify that figures, as shown, are correct."

Ernest Ernst
Certified Public Accountants

This just bears out what's been claimed all along by the men who produce Standard's 1935 gasoline. They've said it has more Live Power, more active working-power, in other words—power that is more completely converted into performance when it gets on the job in an automobile engine. Naturally—any car, old or new—puts its best foot forward when it's drawing on the Live Power that's packed in Standard's great 1935 gasolines—

ALL NEW THRILLS WITH HUGE CIRCUS

Mighty Ringling Bros and Barnum & Bailey Combined Organizations Offer Among Vast Hosts of New Features Col. Tim McCoy, Screen's Great Western Star, His Indian Village and Mary, the Tarzan Rhinoceros.

With one hundred double-length, silver-hued railroad cars, bearing 1600 people, seven herds of elephants, 1000 menagerie animals, and 700 horses, the Ringling Bros. and Barnum & Bailey Combined Circus will arrive in La Porte Tuesday, Aug. 20, for afternoon and night exhibitions.

The big top, seating 16,000 persons, covers seven rings, and stages a huge hippodrome track and encircling grandstands, and is one of 31 great tents, among them the menagerie, sheltering the world's largest traveling zoo.

In its center this season will be seen Col. Tim McCoy's Indian Village, with Sioux, Crow, Shawnee and Arapahoe warriors encamped. Col. McCoy, the screen's most outstanding western star, will himself lead his congress of rough riders of the world in the main performances and in the wild west.

The Greatest Show on Earth offers scores of foreign features new to America this year, including a Saharan racing caravan of acrobatic liberty camels and Tautags; a Moroccan sixty-horse liberty act; the largest aerial ballet ever produced, headed by the Annetta; and Nellyta troupes of revolving flyers, the Jennies and the Lydias. Fresh from Europe are the Walkmires, the Axtaleks, the Buertrangs, the Romeoos, the Maschinos, the Dementais, the Wilois, the Torrence-Dolores, Lauries, the Polis, the Rooneys, aerial novelty sensations. The Loyal-Repenskis, the Rieffenachs, the Walters, famous bareback riding troupe; the two Guice aerial comedy troupes on the lofty bars; the two renowned Wallenda troupes of high wire thrillers; the Otaris, who fly in mass somersaults from an aerial cart; the Flying Concellos, with Antoinette, only girl to accomplish a two-and-a-half mid-air somersault to a hand-to-hand catch; the Flying Comets; the great Con Colleano, only artist ever to achieve a forward somersault on the tight wire; Dorothy Herbert, madcap rider of reinless jumping horses over fire hurdles, and Hugo and Mario, human projectiles, who are fired at the same instant from the mouth of a giant cannon across the upper reaches of the big top—these are some of the most prominent features of the superb 1935 Ringling Bros and Barnum & Bailey program, to say nothing of Mary, the famed rhinoceros, which is a newcomer to the rhino colony in the vast menagerie.

Victory in Rhode Island Election Elates the Republicans—Cuffey Coal Bill Undergoes Changes—Black's Probers Enrage Hurley.

By EDWARD W. PICKARD
© Western Newspaper Union.

Chas. F. Risk

REPUBLICAN leaders throughout the country were immensely heartened—probably too much so—by the result of the by-election in the first district of Rhode Island.

Charles F. Risk, Republican and determined opponent of the New Deal, defeated Antonio Prince, Democrat, by nearly 13,000 votes, capturing the seat in congress which Francis B. Condon, Democrat, resigned to go on the State Supreme court.

The reversal was so decisive that the Republicans hailed it as a clear indication that President Roosevelt would be defeated for reelection next year.

Representative B. H. Snell of New York, minority leader, made a speech about it in the house in which he said: "This is the first time the people of any part of the country have had an opportunity to pass on the reckless and extravagant expenditures of the administration. They have passed upon it in a very decisive manner. The election shows the people are beginning to think. The handwriting is on the wall. From now on we will witness similar rejections by the citizenry of the New Deal program."

Other Republican congressmen spoke in similar vein, but John J. O'Connor, New York Tammany Democrat, countered with the assertion that there was a split in the Democratic party in the Rhode Island district; while Tom Blanton of Texas shouted shame on Rhode Island because it had asked more federal aid than almost any other state.

Former Senator Fess of Ohio with surprising frankness expressed the belief that the G. O. P. would have to wait until 1940 to elect a President. Volving the opinion of many, the veteran campaigner said: "I don't see how the strongest Republican without all that money next year can beat the weakest Democrat with nearly \$5,000,000,000 at his disposal."

REPUBLICANS of the ten Midwestern states that participated in the Grass Roots conference in Springfield, Ill., have made the Grass Roots movement a permanent auxiliary of the party.

SENATOR HUGO BLACK of Alabama may bring out a lot of facts in his inquiry into lobbying, but his way of conducting the investigation is not winning him any credit.

One of these witnesses who complained bitterly was Patrick J. Hurley, secretary of war in the Hoover administration. He testified that he had received \$100,000 from the Associated Gas and Electric system in the last three years, but insisted he was paid for legal advice only and had done no lobbying.

Walsh, Tumulty said, are attorneys and aided in work done for the utility clients.

THERE were strong indications that the house ways and means committee would produce an entirely new measure to replace the Cuffey bituminous coal bill.

According to current report, the changes agreed upon in the committee included:

Elimination of the section forbidding the Interstate Commerce commission to issue certificates of convenience and necessity for operation of railroads to bituminous mines without prior approval by the bituminous coal commission.

Establishment of a consumers' council to safeguard the interests of consumers.

Addition of a provision for hearings to determine whether the method of fixing prices was working to the detriment of any district.

Reduction from nine to five in the number of commission members, and the addition of a stipulation that none shall have any outside connections.

Reduction from 25 to 15 per cent in the amount of the tax assessed against mine operators.

Reduction from 90 to 90 per cent in the amount of credit allowed the producers who abide by the code.

Violently attacked from all sides and nowhere defended with enthusiasm, the President's new share-the-wealth tax bill nevertheless was put through the house because of the great administrative majority and also because the congressmen are tired out and eager to go home.

As passed by the house, the bill is not quite what the President asked for. Briefly summarized, it increases taxes on individual incomes over \$50,000, substitutes a graduated corporation-income tax for the present flat levy, puts new taxes on inheritances and gifts in addition to those already borne by estates and gifts, imposes new taxes of 5 to 10 per cent on "excess" profits of corporations.

It is designed to raise revenue estimated at between \$250,000,000 and \$270,000,000. Its warmest friends couldn't explain how this would bring about what the President calls "wider distribution of wealth" or in the way of balancing the budget.

The measure was handed on to the senate with dubious prospects. It was expected the senate finance committee would study it for about a week, and in the meanwhile the conservative Republicans and not a few Democrats were preparing to fight it.

Declaring the bill "has no relation to making income meet outgo, but is intended to accomplish some weird social objective," Barbour continued: "What this bill actually attempts is to climb upon that hard-riden steed, 'Share-the-Wealth,' and ride him away while the demagogues who have pressed him sorely in the past are looking in the other direction."

"The bill should be laid away until the next session of congress when the budget for the ensuing year will be presented. Then, in the light of carefully appropriated federal moneys, we can determine how much revenue will be needed to operate."

Taxes can be levied deliberately as a true revenue measure. Any other program is not good business and is not good government. One change made by the house against the President's wishes involved corporations' gifts to charities. Mr. Roosevelt was firmly against letting corporations deduct from their taxable income any gift to charity. Just as firmly the house voted to let them deduct up to 5 per cent of their incomes.

WITH some reluctance the senate began consideration of the Walsh bill giving the President power to require minimum wage and maximum-hour standards of all firms bidding for government contracts. That measure has been added to the administration's "must" list. The Republicans were preparing to fight the bill as another government plan for regulation of private industry. They point out that it hits about every industry in the country, since it not only applies to corporations selling to the government, but extends also to state and local projects wholly or partly financed by federal funds.

NOT to be dismayed by the death of NRA, Senator J. G. O'Mahoney of Wyoming thinks the objectives of that contraction, high labor standards and fair competition, can be realized, and for that purpose he has drawn up a measure for the regulation of all national commerce by licensing business.

The senator, who is a lawyer, carefully avoided the phrase "interests commerce." He proposed to define "commerce among the states" in the language of the leading decisions of the Supreme court.

The bill creates a licensing system for businesses engaged in commerce among the states and provides a national incorporation law. The federal trade commission, the government's business policeman in the days before NRA and the agency to which the New Deal turned after NRA codes were outlawed, would be the keystone of the new plan.

NOTWITHSTANDING warnings by Dr. Hjalmar Schacht and other sane Germans, some of the Nazi leaders insist on pushing to further extremes the war on Jews and Catholics.

Paul Goebbels, minister of propaganda, in a speech at Essen announced drastic action against all "enemies" of the Nazi state—Jews, Catholics, the foreign press and the Stahlhelm war veterans. He predicted these important developments:

1. Suppression of the Catholic press and intensification of the Nazi campaign against all Catholic opponents of the third reich.
2. Nationwide dissolution of the Stahlhelm.
3. An official ban in near future on marriages between Jews and Aryans.

ENGLAND and France were still trying to find the way to avert a war between Italy and Ethiopia, but Premier Mussolini of Italy was so skeptical that he ordered 75,000 more men to the colors. By the first of October he will have a million men in uniform. Haile Selassie, the Ethiopian emperor, was reported to have sanctioned the concentration of 60,000 of his troops on Italy's east African frontiers. The chiefs, it is said, are finding it increasingly difficult to restrain their warriors from overt acts that would precipitate warfare.

ANADA, the eleven-year-old king of Siam, nearly lost his throne the other day. A widespread plot was formed under the leadership of noncommissioned officers of the regular army to overthrow the government. The loyalists uncovered it and effectually smashed it. The plotters intended to seize and kill their superior officers and oust the regency council that rules the country.

SUDDEN death put an end to the career of Nathan P. Bryan of Jacksonville, Fla., presiding judge of the United States Circuit Court of Appeals, Fifth Judicial circuit. Judge Bryan, who was sixty-three years old, was formerly United States senator from Florida.

JOE LOUIS, negro pugilist of Detroit who hopes some day to be the heavyweight champion of the world, advanced another step toward that goal by defeating "King" Levinsky in the first round of a scheduled ten round bout in Chicago. Levinsky was knocked down four times in little more than two minutes, and the referee then gave the fight to Joe on a technical knockout. Louis and Max Baer, former champion, have signed for a battle in September.

SAMUEL INSULL'S annual pension of \$21,000 has been restored by vote of the directors of the Chicago utilities companies which he formerly headed, and he also receives about \$33,250 to cover payments accruing since the beginning of last year when payments were suspended by the companies.

The Folks in History

Ten Years Ago

Play director Ray Miller is planning a Field Day for athletic Park for August 22. All games that are being played this summer are to be featured. Prizes are to be announced later. The Chamber of Commerce is sponsoring the big event. One of the events will be a tennis tournament. Men and boys will compete in horse shoes singles tournaments. A baseball tournament is expected to be pulled off by the boys who have been rarin' to go all summer. It may be that a game of indoor baseball will be arranged. The new swimming hole will be inaugurated with two diving contests for form, one for boys and one for girls. The pool is not big enough for distance diving. The three-hole golf course will be used, three times around for nine holes, the two lowest scores to draw prizes. If the fishermen want a casting contest they had better speak up soon. McCoy's creek is ideal for such contests.

Thrashing Time and Thrashing Dinners

It's thrashing time in the Buchanan country, and the thought of it stirs a lot of memories in a fellow with a farm background. In the Chicago Tribune of last Sunday was reproduced in color Grant Wood's painting "Dinner for Thrashers." If you are not interested in the fact that Grant Wood is the best known of the younger American artists, you may remember that he married this past spring a former Sawyer woman, Mrs. Sara Sherman Maxon, well known to many in Buchanan. Wood's picture is remarkably realistic. It shows a farm house in cross section, with the farmers in overalls and blue or checked cotton shirts around the loaded table, with four women forming relays between the kitchen stove and the table. On the front porch two thrashers are washing in the familiar old tin wash basin and combing their hair.

Thrashing dinners are not the rite they once were, so they say. One thrashing crew to the north of Buchanan went to the restaurants regularly last year. But when we were boys, ah-h-h those thrashing dinners. Neighbors exchanged work at thrashing and vied with each other in bounteous feasts. We talked with Ed Edwards, old time Niles thrasher at the Kansas school reunion Saturday evening. His father and grandfather before him ran thrashing machines, which spanned the whole farm history of Michigan. His grandfather was first located at Sunnerville, where he thrashed his first crops by having horses trample it out on a floor. Then he got a small thrashing machine, one of the first in the state. It was so small that four men could pick it up and set it on strong sawbucks on the barn floor. It had a small hopper about two feet wide, set with teeth, but no straw conveyer. The straw and grain came out together and men caught it with forks and tossed it in the air to winnow it. It was operated with horse power with the old time "tumbling rod" attachment.

The senior Edwards also had one of the earliest harvestors in the Niles country, a platform with a sickle in front, no binder or reel to push the grain back. They drove the horses on a trot so that the impact would knock the grain back. Later men stood on the platform and pushed the grain against the sickle with forks.

The Edwards also got the first steam engine for power in this section, and burned a barn down on their first job. They were not held responsible for the barn, but it almost ruined them, for no other farmer would have them for a long time. Finally they devised a spark screen.

A lady, at the reunion told about the thrashing dinners of her girlhood. They had a custom in this section of buying specially colored sugar to decorate cakes for the attachment.

Mr. and Mrs. William Mann and daughter, Hazel, Niles, and Mr. and Mrs. Sam McClellan and family were guests of Mr. and Mrs. T. C. Stearns on the river Sunday.

Miss Madeline Gross returned Friday from Kansas City where she had spent the past four months with relatives and friends. Sunday afternoon a party of friends from South Bend came over to surprise her.

Mr. and Mrs. B. G. Kozalier and son, Bernard, Detroit, spent the week-end at the home of Mr. and Mrs. E. B. Ross, Sunday. Mr. and Mrs. Ross and their guest motored to Culyer, Ind., where they visited Edwin Ross and the two sons of Mr. and Mrs. Koether.

Mrs. J. F. Vile and Dorothy Rortz returned home Wednesday from a week's visit at Saugatuck and Grand Rapids.

Alvin Rokely leaves Sunday on a 10-day vacation trip to Washington, D. C., going by boat from Detroit to Buffalo and stopping at Niagara Falls. He will also visit at Harrisburg, Baltimore and Pittsburgh on the return trip.

Mr. and Mrs. Dean Clark and son, Kenneth, spent Sunday at the home of Mr. and Mrs. John Zeiger, Wakarusa, Ind.

Mrs. Warren Willard entertained 20 relatives Sunday in honor of the birthday of her mother, Mrs. F. F. Pierce.

Mr. and Mrs. Charles Mills are moving into the house on Liberty avenue recently vacated by Lloyd Sands and family.

Mr. and Mrs. Fred Gawthrop and Mr. and Mrs. J. G. Melvin and daughter spent Sunday at St. Joseph as the guest of Mrs. Gawthrop's cousin, Wm. Pikes.

Miss Matilda Plahn, a teacher in the public schools of Chicago, is spending part of her vacation at the home of her friends, Mr. and Mrs. W. F. Runner.

Miss Dorothy Clark was among the first to patronize the Niles Airways. She enjoyed a ride over Buchanan and Niles Sunday afternoon.

Mr. and Mrs. Marlin Kean are spending a week's vacation at Barron Lake.

C. H. Proseus and Miss Mayme Proseus drove to Valparaiso, Ind., Friday returning home Sunday. Miss Marcia Dillingham returned with them for a few days visit.

Mrs. Sam Rouse entertained the B. G. U. sorority at a potluck supper at Clear Lake Tuesday evening in honor of three new members, Ruth Mills, Gail Pears and Lillian Brown.

Mrs. Fred Bromley is entertaining her sister, Mrs. Nora Evans, Chicago. She had the past week-end her sister and husband, Mr. and Mrs. Clarence Welsh, and their two children, Owosso, Michigan.

True Function of Art
The true function of art is to stimulate imagination and evoke new vision in the beholder.

thrashing dinner until she came to associate those vari-colored concoctions as specially made for thrashers. Away back they used to have chicken dinners for thrashers almost entirely, for farmers did not have beef at that time of the year. Later when markets were more convenient, beef became the piece of resistance of thrashing dinners with chicken as an occasional luxury.

Thrashing time was, and doubtless still is, an exciting occasion. The farmers kept close tab on the progress of the machine. They are at Jones today; it will take them a half day more there, and then a day at Baker's; then they will come to our place. My, how we hoped it would not rain while they were there. We were glad to see them come and gladder to see them go. If they were on our hands through a rain, there would be two or three at least and a team or two of horses we would have to board.

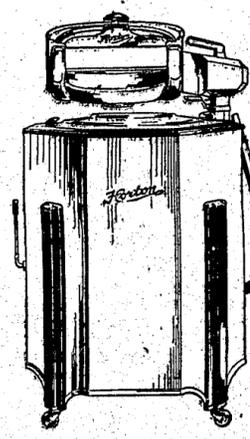

Then there was the big question of how much the wheat would go. Thrashing time was the pay-off of the farm year. If the wheat went well, thirty bushel or more to the acre, it meant extra money, new or used farm equipment, a trip. If grain went under expectation, as was so often the case, then it was simply a matter of digging in, re-trenchments all along the line. In any event we didn't get paid for the wheat we never raised.

Townsendites Active
Editor DeFoe of the Charlotte Republican apparently got in a hot spot with some of his readers lately by stating that if the Townsend pension plan were submitted in a referendum it would sweep the country. Editor DeFoe did not endorse the plan, as hardly anyone can that considers it comprehensively. He merely registered his opinion that the movement for old age support was stronger than the general public realizes. The movement will bear watch-

ing. There will be a picnic of adherents at Island Park, Niles, next Sunday, with Rev. Hill of Kalamazoo and J. A. Kriziga, Dowagiac, as speakers. A picnic was held at Indian Lake last Sunday with an attendance of 500. The Dowagiac club is reported to have a membership of 1300. We have an unverified report that the Kalamazoo club has signed up over 20,000. Workers are scheduled to form clubs in Buchanan Aug. 18, and in Berrien Springs Aug. 14. Workers and speakers are reported to include a number of men under thirty years of age.

A TAX "NOAH'S ARK"

INDIANA & MICHIGAN ELECTRIC CO.

TO OUR CUSTOMERS:
We are told that the animals in every known variety "went in two by two" when they waded into the ark.

Indirectly, through their electric bills, our customers pay almost every known variety of tax. Read the list at the left of the 11 different taxes paid for your account.

History does not tell how much Noah's menagerie ate during their stay in the ark but we can tell you to the penny just what part of the revenue you pay was eaten up by taxes. In 1934 we provided for taxes in the amount of \$752,783.04. Had we been free of taxes to the same extent as are government power projects, the cost of service to our customers would have been reduced by well over \$700,000.00 per year.

The two men are William Hurlbut and John L. Balderston, and though their story has for its central character the grotesque "Monster" originated by Mary Wollstonecroft Shelley, the screenplay is an original one.

The management of the Hollywood Theatre is offering five dollars in cash to the woman picked from the applicants that have turned in coupons to view the showing of the "Bride of Frankenstein" alone in the theatre Tuesday evening, August 20th at 12 o'clock midnight, this is the night before the picture will be shown to the public and is known as a private preview, as all arrangements have been made with the Universal Film company to have this picture here for this event. Their is still time to enter this contest as a coupon will be found at the bottom of our ad in this paper, which should be filled out and mailed or brought to the theatre not later than Saturday evening. Out of the list of applicants a drawing will be made on our stage Saturday evening, August the 17th, at the end of the first show. An alternate will also be picked.

Local baseball teams in search of an error-proof fielder should consider "Red," a resident of South Days Ave.

To be exact, Red makes his home in a maple tree, and is a member of the woodpecker or picidae family. His record to date has been made fielding pieces of doughnut tossed in the air from the Michigan Central crossing tower by the gate keeper, Ava Schram.

Two or three times a day Red shows up at the crossing, perching on a pole across the pavement and setting up a yammering staccato until he gets Schram's attention. (If you don't believe all of this, check up for yourself. We scarce could until we saw it.) The gatekeeper will lean out of the window of the tower, shout "Hi Red," and toss a piece of doughnut in the air. There follows a flash of red, black and white through the air and Red looms under the doughnut and scoops it up. There are never any errors, or catches on first bounce. The doughnut weaves a slow arc through the air in comparison with Red's lightning dart. Red has now been coming for three summers.

The gatekeeper has other feathered friends in two robins who call regularly in the summer, perching on the window sill of the tower a few feet from Schram and eating the crumbs that he regularly leaves there. Then a gopher ambles regularly up the track from the west, and sits and begs under the tower windows, until he gets his daily ration.

Wallpaper as newsprint is a rarity, but Manager Hoffman of the Hollywood theatre has a copy of the famous edition printed on that substance in the city of Vicksburg, Miss., July 2, 1863, just before the surrender of the city to Gen. Grant.

Echoes of the siege are: "We are indebted to Major Gillespie for a steak of 'Confederate beef,' alias mule meat. It is sweet, savory and tender and as long as we have a mule left our soldiers will be content to subsist of it."

"A rumor reaches us that parties in our city have been and are selling flour at \$5 a pound, molasses at \$10 a gallon and corn at \$10 a bushel. If so, let a brand be placed

on their brow and let it be scarred into their very brains that humanity may scorn and shun them as they would the portals of hell itself."

"Mrs. Cisco was instantly killed Monday on Jackson Road . . . Jerre Askew, one of our most esteemed merchant citizens, was wounded at the works in the rear of the city a few days ago and breathed his last Monday."

Note July 4, 1863. (Evidently the July 2 paper was held up by battle.)

"Two days bring about great changes. The banner of the Union floats over Vicksburg . . . For the last time the Citizen appears on wallpaper. No more will it imagine the luxury of mule meat and fricasseed chicken . . . This is the last wallpaper edition, and is, excepting this note, from the types as we found them."

Several days a week during the early and middle summer you might have seen a tall, pleasant-faced elderly woman trudging the streets of Buchanan with a basket of vegetables on her arm, selling radishes, onions, lettuce, and beets from door to door. The vegetables were fresh and the nickel bunches were large and people bought, some because they wanted the vegetables and some because they liked the woman. Not all bought by any means. Some had gardens of their own and some haggled about the price. She usually went home with 50 or 60 cents, sometimes less, never as much as a dollar. In fact she had been doing this for quite a number of years.

She was 74 years old and not well. She trudged two or three hours and sometimes she could hardly drag home. But her husband was 78 and ill and they had little to live on so the 40, 50 or 60 cents helped. She couldn't be independent but while she had the strength she would do what she could for herself. And the casual readers of these lines will consider the story either a striking example of praiseworthy thrift and independ-

Hollywood Has Unusually Fine Schedule of Shows

Romantic WARNER BAXTER co-stars with beautiful KETTI GALLIAN in "Under the Pampas Moon", Fox Film's flaming romance of the Argentine.

In "Under the Pampas Moon", which opens Sunday for a three day run at the Hollywood Theatre, the popular Mr. Baxter portrays an Argentine Pampas gaucho who can ride, throw the boleadora, sing, dance and woo the ladies more proficiently than any of his comrades.

Co-starring with Warner Baxter, in this colorful production, is Ketti Gallian, who sprang into instant popularity in her first American picture, "Marie Galante." Miss Gallian portrays the role of a beautiful cabaret entertainer from Paris, who, bound for an engagement in Buenos Aires, Argentina, meets Baxter when her plane becomes disabled and lands in the vast expanse of the pampas.

Baxter falls madly in love with the beautiful "angel," but Ketti departs for Buenos Aires, where later their romance flowers amid exciting adventures and conflicting emotions.

Veloz and Yolanda, the celebrated dance team that has long been a favorite in South America and the United States, are featured in the film in a new sensation—"The Cobra Tango."

On Friday and Saturday the glamorous Claudette Colbert, winner of the Academy Award for 1934, heads the cast of "Private Worlds" in the character of a woman who seeks refuge from love in the memory of a dead sweetheart.

Opposite Miss Colbert is Charles Boyer as her colleague, a man who has been taught to hate women by the willful misdeeds of his sister, Joan Bennett, Joel McCrea and Helen Vinson are in the supporting cast.

Two American playwrights combined their talents to write "The Bride of Frankenstein," the strange Universal screen drama which comes to the Hollywood Wednesday and Thursday of next week, with
