STAGE SET FOR GALA FALL FESTIVAL

Now Here's the Proposition

And That's More Than John Barrymore Ever Did

Several prominent local gentlemen state that they have achieved the extraordinary by staging their debut and their farewell appearance on the stage at one and the same time. In other words, they crowded an entire career in two vivid and never-to-be-forgotten

I Dedicate Tender Sonnet in Memory of My Easter Bonnet The summer is a finished book and scattered lies the rose; the B. V. D. is on the hook; the bloom is on the nose; the frost is sparkling on the pump; the bird is on the wing, and sadly on the village dump my battered straw I fling.

Thy splendor now is hardly what it was in days agone; thy former glory is forgot with Tyre and Babylon. When blazed the sun with sultry heat a tender task was thine -to shelter from its fiery beat these sundry hairs of mine.

You shed the scorching heat aside in sweltering July; you saved my brains from being fried be-neath the August sky. The vulgar crowd imagines not how neath thy rounded dome the noble dream the skyborn thought have found a summer home.

A growing lump I sadly gulp my aching throat adown to think how snows will melt to pulp thy Blues Win 1st dinted lid and crown. The cold wind in the yellow tree hath rung thy funeral knell; thy license plate reads "23" and we must bid farewell. And so in Time's voracious maw, with overflowing eye I sadly cast my summer straw-goodbye, old lid, goodbye!

TOMATOES RIPEN INSOUP FIELDS

Warm Dry Weather Hastens Progress in Local Acreages.

Aided by the first weather favorable to tomato ripening this summer, the Campbell Soup acreages south and west of Buchanan have been yielding at peak during the past week with the prospect of a profitable season if warm weather continues throughout the month.

The early and middle summer were very favorable to the growth of the plants and the setting of the tomatoes, but the cold and cloudy weather of late August delayed the ripening and fostered the growth of disease in the fruit, causing a good per centage to rot before ripening.

Requirements for soup tomatoes are practically the opposite of the requirements for a market tomato, according to Ralph Sebasty, who has a fine field of 10 acres on his Famous Circus farm near Bakertown. . A soup tomate must be dead ripe on delivery and to be grade No. 1 it must be a deep red. Buchanan high school's new grid nentor, Coach Johnny Miller, has had to build up almost an entirely new grid machine. This is a most difficult problem since it is Coach Miller's first year here.

The first game will be played on a foreign field of battle. The game will be Sept. 21, with Coloma at Coloma. Now let's see if we (the townspeople and students) can support our team. It would surely seem good and be good to see a large group of the Buck boosters at the game Saturday.

On Curbing Traffic At last we have figured out a way to control reckless drivers and cut down traffic casualties.

The idea came Monday evening like a flash out of a clear sky while we were reading our home town paper from out in Wyoming. The paper told how the county attorney was jaywalking across the street from the court house and flow an automobile driven by a drunken driver sheared the clip off his fountain pen and the top button from his pants. It was that close. But was there action! In less

time than it takes to write it that d, d. was in the stern grip of the law that had at last found a personal reason to be quite stern. There were no ifs or ands about it, would be worth the price, as this and Mrs. Wm. Now this idea of ours. All we have to do is to run over the right parties. Run down the mayor or the chief of police or even a judge or two. Of course it seems rough to advocate such a course, for the mayor doubtless has a family that adores him and a friend or two that think well of him, but it spending several weeks with Mr. would be in the nature of a "war to end war."

HEALTHFUL STIMULATION

NOTHING is more stimulating to the average person than a hot shower. Even on the hottest day, the hot bath, followed by a cold plunge, refreshes as nothing else will ... first by freeing the pores of waste matter

and then by stimulating them to normal activity.

A quick hot bath will do wonders as a "pick-me-up." Let Electric Hot Water be your first aid. The whole family will benefit, and we have the make and model to do the trick for you.

Citizens of Tomorrow

It is an obligation of good citizenship to pay taxes; it is an obligation of government to spend this tax money wisely. In common with many thousands of other citizens, Michigan Bell Telephone Company recognizes its obligation to pay a share in the support of the functions of government.

The Federal, State and other taxes paid this year by Michigan Bell averaged \$7.28 for each telephone in use. In total this amounts to more than \$3,225,000, of which \$2,737,-955.25 is in the form of payments to the State of Michigan. It is particularly pleasing to us that these State taxes go into the primary school fund for the purpose of educating our citizens of tomorrow.

The primary school fund helps support the State's clementary, grammar and high schools. It erects and maintains the buildings, buys supplies, helps pay the salaries of our 32,000 teachers. Into it go the State taxes paid by many of the utilities of Michigan, and of these Michigan Bell Telephone Company pays the largest individual tax. From 1921 to the present year the total taxes paid by us into the primary school fund amounted to \$32,643,350.99.

Like all other citizens who have a genuine pride in the progress of Michigan, we appreciate the value and profound importance of an adequate school system.

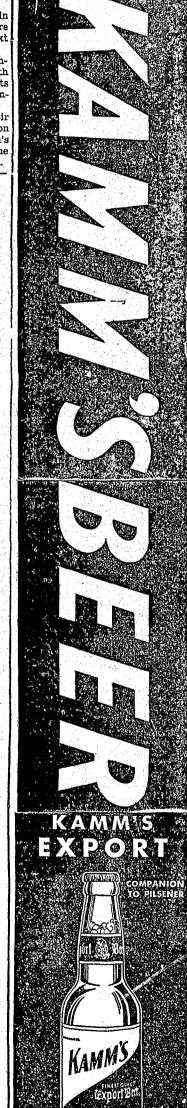

And to the telephone users of our State it must be a great satisfaction to know that indirectly they make an important contribution to a school system entrusted with the education and character-molding of

960,000 boys and girls-Michigan's school children today, her citizens of tomorrow.

Hold Seed Wheat Til Needs Determined

Adequate reserves of adapted varieties of seed wheat will be held until more complete information on needs for seed are received, the Agricultural Advustment Administration announced. This decision in the northwest area which has been hit by heat and rust. The report was from the chief cerealist of the Department of Agriculture's Bureau of Plant Industry who just returned after spending two weeks in the northwest. The seed conservation committee, a unit of the President's Drought Committee. announced that reserves of at least wheat and 350,000 bushels of durum wheat will be maintained. While it still is too early to get a complete picture of this year's small grains crops, and although yields are running light, it is reported that agronomists in the area feel that if farmers and elevators save the best of locally produced crops they probably will have enough seed to meet their planting A more definite estimate of the situation may be made by the midle of October. HARTFORD FAIR **OFFERS DOUBLE** FREE ACT BILL

Complete Change of Program Planned for Patrons of Show From Oct. 1 to 5.

Last of the contracts were closed this week for the program of attractions to be presented on the ree act platform at the Van Buren ounty fair at Hartford from Oct. 1

To give fair patrons a greater variety of entertainment this year he fair management has adopted the innovation of buying two comolete programs. The first group of attractions wil appear at the fair on Wednesday and Thursday afternoons and evenings, with a com plete change of acts on Friday and Saturday.

Fireworks will conclude the evening show each night, while the public wedding on Saturday night will climax the week.

The week's entertainment, say fair officials, will provide more and better free acts than have heen offered at any previous fair To omprove the platform facilities for the performers who will entertain fair crowds a new floor is being laid on the free attraction platform, and an efficient sound system has been engaged to amplify the entertainment features for patrons of the grandstand and carry the program to crowds of

the grounds. The entire program of the fair is rapidly taking shape Space along the midway and exhibition space along the second midway is largely sold, states Paul F. Richter. secretary of the fair and superintendent of priviliges. In floral hall, which is under di-

rection of Ralph Hubbard, booths available for comercial displays are largely sold, while superintendvegetable, farm and garden and other floral hall exhibits are asking for additional space to house arger exhibits which they forecast as a result of the substantial increase in premiums to be paid exhibitors. The balcony of the floral hall is

eserved for school exhibits now in reparation by the schools of Van Buren and adjoining counties.
