City Advertises Bids For \$37,000 Bonds to Finance Share Cost

Start Work With Force 85 Workers

\$8,000 Charged City at Large

Issue to Carry Interest Rate of Not More Than 6%.

Elsewhere in this issue is an advertisement by the city of the sale of \$5,000 general obligation and \$32,000 special assessment bonds to finance the city's share of the cost of the 28,000 feet of sanitary sewer, installation of which has already begun.

The city at large is to pay 20% of the city's share of \$40,000 or \$8,000. Since the state law will not permit the sale of more than \$5,000 general obligation bonds without a special election, the city is selling the maximum amount and will take the remaining \$3,000 from the general fund.

The bonds as advertised may not carry an interest charge to exceed 6%. The potential purchasers will bid on the interest rate, the bonds going to the reputable purchaser who offers the lowest premium rate.

The city anticipates no difficulty in selling the bonds, as the municipal finances are in excellent condition, the bonded obligations having been reduced from \$53,000 in 1930 to \$23,000 this year.

The bonds are to be sold in denominations of \$1,000, bids being received at the office of the city clerk until 5 p. m. Jan. 20.

Mother Clarence Fulk Expires

Clarence Fulk received word on Tuesday of the death of the previous evening of his mother, Mrs. W. J. Fulk, at her home in California, Mo. She died of old age, having been 88 Oct. 17, at which time Mr. Fulk took a trip to Missouri to visit her.

She is survived by five children: Clarence Fulk of Buchanan and E. B. Fulk, R. L. Fulk, Mrs. W. R. Flynt and Mrs. L. F. Hert, all of California, Mo. Her husband died in 1930.

Births Up, Deaths Down in City '35

Buchanan experienced an increase of births and a decrease of deaths through the year 1935 as compared with 1934, according to City Clerk Harry Post, the comparison being: 1935, births, 68; deaths, 35; 1934, births, 58; deaths, 41. Six births and seven deaths were recorded in the city for December, 1935.

Old Buchanan Paper Mentioned In Saturday Evening Post Story

Joshua V. A. Himes' "Voice of the West" was Organ of Millerites.

Buchanan people who read the short story, "The Great Day" by Hugh McNair, in the Saturday Evening Post of last week possibly did not realize that in the reference to "Elder Himes' newspaper" as the fountain-head of truth for the Millerites alluded to the "Voice of the West" published by Joshua V. A. Himes in the rear of the Advent Christian church building, which now houses the Bristol Pattern Works.

The story deals with the "great day" in the forties of the last century, which the Millerites had set as the Day of the second coming of the Lord. The girl who is the main character had gleaned all of her ideas of religion from the Bible as interpreted by her uncle Jason and from Elder Himes' newspaper, but nevertheless while her uncle and the other devotees were on the River bluff in ascension robes, she chose to elect going to hell with a canal boatman whose craft was moored at the river beneath.

In gathering his "background" for the story Hugh McNair got the name of the Buchanan editor correctly, but it was twenty years after the "great day" that he published the "Voice of the West" in Buchanan.

To Open Electric Shop at Ft. Wayne

Ralph Wegner, salesman for several years for the Buchanan district of the Indiana & Michigan Electric company, left Monday for Fort Wayne, Ind., having resigned his position here the first of the year. He is opening a general electric shop for the sale of electrical appliances in that city today. His family remains here for a few weeks. The Wegners have made many friends during their residence here, who will wish them well in their new location.

Plan Memorial Concert Jan. 19

High School Music Dept. to Honor Stephen Collins Foster.

Stephen Collins Foster, greatest of the composers of American folk music, will be honored by a memorial concert to be held at the high school auditorium Sunday, Jan. 19, at 2:30 p. m.

The high school band and choir, under the direction of R. R. Robinson, will present a concert consisting entirely of the melodies of Foster, with an accompanying lecture by Dr. E. T. Waldo.

Robinson plans to recreate as far as possible the atmosphere of the early fifties during which the songs were written. There will be no charge and the auditorium should be filled for the occasion with those who wish to hear a musical treat and to do honor to the creator of "Old Kentucky Home," "Old Folks at Home" and other loved American songs.

Three Bowling Leagues in Play

The Clark Equipment and the Ardle's Recreation bowling fives were tied for top place in the Commercial League at the end of the play last week, standings being:

A City League of six teams is also playing and another 6-team league will be in operation by the end of the week. A meeting was held at the Ladies' Night session last night for the organization of a ladies league of six teams.

High scores in the past week was a 214 rolled by E. Deeds.

William Parker Rites Held Today

Last rites will be held at 2 p. m. today from the Swem Funeral Home for William Parker, 63, with Rev. Thomas Rice officiating and burial will be made in Oak Ridge cemetery. Pallbearers will be selected from the Workers Alliance of America.

He was born in eastern Pennsylvania Feb. 22, 1872. There were twelve other children but the names and whereabouts of them are not known. He was married Nov. 30, 1900 to Ethel Denslow, who survives him. Five children born to them all died. He came to Buchanan about ten years ago.

He was a member of the Workers Alliance of America.

Mrs. Mary Perry Dies in Chicago

News was received here too late for last week of the death of Mrs. Mary Skinn Perry, 75, which occurred in Ashbury Home for Convalescents, Chicago, Dec. 24. Mrs. Perry had been ill about a year. She came to Buchanan about seven years ago purchasing the home now occupied by Atty. Philip Landsman, which she used for a summer home, spending the winter in Florida. She left Buchanan about a year and a half ago.

Richard Moore left Sunday to resume his studies at Purdue university, after spending the holidays with his father, Charles Boone.

Stalin, the Iron Dictator, Can Smile

Being a dictator, be it in Italy, Germany or Russia, is a grim business and there is not much opportunity for smiles. In this instance, Dictator Josef V. Stalin of the Soviet is finding his "Iron Man" reputation being pierced by a little school girl, Mamlat Nakhingova, who is asking for his autograph. On the extreme left is M. A. Chernov, people's commissar of agriculture, and on the right is Ene Geldiyeva, president of the Farabsky district executive committee of Turkmenia.

Enrollment of Schools at Peak

Indicate Rapid Growth Population Here in Past Few Months.

Reports from Buchanan schools that the enrollment after the holidays had passed the 1,100 mark and established an all-time high to date indicate the extent to which the local population has grown under the stimulus of improved employment conditions probably much beyond the 3,916 reported by the 1930 census, although considerably less than it would be if housing were available.

Practically all houses and apartments of the city available for rent are now full according to local real estate men, and applicants are being turned away daily and are securing homes in nearby towns, driving back and forth. In some cases men have given up jobs here because they could not find houses.

The situation is reminiscent of that of the boom days of 1928 and 1929 when Buchanan was rated by the federal department of labor as one of the highest in the midwest in the ratio of the number on payroll to population. This was, of course, because of the fact that several scores were coming in to work from outside towns and cities.

Berrien County News Review

County Clerk Guy Tyler reports that a total of 502 marriage licenses were issued to Berrien county couples in 1935, or 37 more than was issued last year and the largest number since 1927. The low point for 40 years was touched in 1932 when only 297 were issued. In June of 1935 nearly 100 were issued. Licenses issued for the past ten years were as follows:

D's 5 Lose to Ponies 26-17

Studebaker Seconds Defeat Local Independents Sunday.

C. K. Detrick's independent basketball aggregation battled the highly touted Studebaker Ponies last Sunday afternoon in a preliminary to the Studebaker championship game but emerged on the short end of a 26-17 count.

D's team played a surprisingly exceptional brand of basketball throughout the entire game. It was a thrilling, exciting game to the spectators and the Bucktown boys stunts and plays went over big with the South Bend crowd. The crowd showed its appreciation by bursts of applause at different times. The game was well played by both units and it would have been still more interesting had the D boys experienced better luck with their shots.

Samples of Many Papers of Spanish-American War Days Bound.

We received an interesting contribution recently from William Brodrick in the form of a bound volume of newspapers of the vintage of 1898, when fires of the Spanish-American war were sweeping the land, and the names of Dewey, Sampson, Schley and Shafter were frequent in the headlines.

The volume is of special interest because it contains an assortment of papers from all over the country, including many famous newspapers of the past. The lists includes The Chicago InterOcean, The St. Louis Republic, The St. Louis Globe Democrat, The Detroit Free Press, The Denver Times, Denver Post, Denver Republican, Salt Lake Tribune, Detroit Tribune, Kalamazoo Daily Telegraph, Morning Oregonian, Deadwood Evening Independent and others.

The papers illustrate the first of the banner, big-type scareheads, which were the product of the Spanish-American war, itself reputed to largely a product of the journalism of Hearst. The headlines appear quaint to modern eyes. They carry the news of the battle of Manila, the battles near Santiago, the bottling of Cervera's fleet, the election of McKinley and Theodore Roosevelt. The last story is illustrated by interesting specimens of early photo-engraving, which was then beginning to supplant the old line drawing engraving.

Another marked difference of these papers of nearly 40 years ago are the sporting departments, lacking entirely in not a few of the leading journals, and dominated when present by the horse racing reports, which overshadowed the baseball in season. The sporting page as we know it today was a form of ballyhoo invented after the World War to fill news gaps and keep up circulation after that great news-making event.

Start Excavation at Third and Portage Street.

The long-discussed Buchanan WPA sewer project assumed the semblance of reality with the beginning of work of installation on Tuesday, with a force of 85 men, practically all drawn from Buchanan.

Installation of 12-inch tile began at the intersection of Portage and Third street, the force digging west from the manhole on Third to Short for the main trunk outlet. The main trunk line will be laid on Third to Short, thence north on Short across Dewey avenue through the alley behind the old Rough building and the Russell Sales building, across the lots purchased from McGaghie by the city and through the lot bought from Bremer to Front street, where it will divide on Front and Days avenue.

The force of men employed will work five seven-hour days per week, common labor drawing \$48 per month and pump operators and sheeting-setters \$50 per month. Employment of 10% non-relief men at the prevailing wages will be allowable if necessary. The project is supposed to be completed in ten months. T. M. Swaim of Niles is supervisor of the job, representing the WPA. Fred Salisbury of Buchanan is foreman and John Juch of Niles is time keeper. W. H. Gartner is the resident engineer on the job continuously, representing the firm of Cole, Moore & Geupel, South Bend, who represent the city both in regard to the character and the progress of the work.

The project application calls for the employment of 300 men, but it would be impossible to find that number, according to the engineers. However, it is likely that the force will be increased later and the work at particular places may be especially hastened if it seems advisable.

To Form Tarzan Safety Club

The Hollywood theatre is going to organize a Tarzan Safety club. Manager Hoffman states that at the Saturday matinee Jan. 11, all children 12 years of age or under will be given a membership blank to be taken home to be filled out and returned to the theatre the following Saturday when each member will be given a Tarzan Safety button to wear indicating that they are members of this nation-wide club.

Some of the theatres throughout the country have as many as 2000 members in their respective clubs. It will pay every boy and girl to join this club as during the year there will be special events and privileges that will be extended to members of this club only.

After this club is organized each child will be given a number and every Saturday thereafter five members will be admitted to the Saturday matinee free. This Saturday the third chapter of Tarzan will be shown and Manager Hoffman states that this serial has drawn larger crowds and both the children and adults have taken more interest in it than any other serial that has been shown at the local playhouse. Tarzan is a household name in every country on earth and is known to millions of people the world over.

NO PRESENT, BUT WE HAVE TO PAY FOR IT ANYWAY

This week the long discussed Buchanan WPA sewer project takes on the promise of reality.

There is little opposition to or criticism of the action of the city commission, regardless of opinion as to the wisdom of WPA expenditures.

The general attitude runs something like this: 1. Sometime the state board of health would force the installation of a complete sanitary sewer system here and it would quite likely be at a time when costs were highest, which would cause us to greatly regret that we did not take advantage of this opportunity.

2. Although WPA installation is undoubtedly expensive, yet the cost to Buchanan will be only the \$40,557.58 for materials for which the city is held directly responsible, and it is not likely that we would ever again be able to sewer the city for that price.

3. It is true that the city will have to pay for the federal share of the WPA—but what it will pay is its share of the debt burden on the country at large and not the particular sum paid to this city in remuneration for WPA labor.

This generation and its children, will of course, learn that the WPA projects must be paid for, whether in direct taxes or invisible and indirect charges, and that the most expensive thing in the world is the apparent gift.

CIVIL SERVICE FOR MICHIGAN

All friends of good government in Michigan will approve of Governor Fitzgerald's plan to place state appointments on a civil service basis, although the Democrats will undoubtedly point to the fact that he did not initiate the reform until the offices had been well cleared of Democrats and filled with Republicans.

The minority party will consequently view the plan with some hostility and will no doubt resolve that when and if the circling wheel of political fortunes restores them to power they will make short shrift of that particular law and again fill the appointments with deserving party workers in the good old way that has built parties and kept government inefficient for many long years.

But it is a fair question whether it would not have been very fortunate for ex-Governor Comstock if this civil service system had been in effect when he took office in 1932. For even his own party members, who are fair, must admit that if there was one thing more than another that undid the fortunes of Comstock, it was the nature of his appointments.

But the difficulty was that the man who is fitted to be a skillful political worker is by no means the man who makes a good routine office worker. The consequence was that Comstock loaded the offices with a sad assemblage of his political friends.

How fortunate it would have been for Comstock if he had never had a chance to make a single appointment! The Republicans were luckier. They had held a monopoly of state offices for many terms; it was necessary only to recall previous office holders, fresh for duty after a vacation of only two years.

There's usually a variety of ways to look at almost anything, and whether you point with pride or view with alarm depends on just how you are affected.

THE FREE-LANCE TRUCKER

Some time since we were much engrossed by the spectacle of the "free-lance" truck operations. We visited the Benton Harbor fruit market, known over the United States as the "home of the truck," and saw scores of "fly-by-nighters" peddling out cargoes which they had traded for in various parts of the south.

These truckers cannot be said to be irresponsible as they buy their loads and take their own chances. But they do not pay much for the use of the roads—in fact they cross states by night and pay only when they are caught. Kentucky is a state where truck charges are high and evasion is studied.

Viewed as a return to the opportunity for small capitalistic enterprises, these operations have an interesting side. With a possible initial investment of but a few hundred dollars, the free-lance trucker enters into successful competition with the railroads.

These trucks cannot be said to be irresponsible as they buy their loads and take their own chances. But they do not pay much for the use of the roads—in fact they cross states by night and pay only when they are caught.

Oklahoma Town Is Quarantined

An outbreak of spinal meningitis in Snyder, Okla., necessitated a quarantine that closed up most of the business places as well as the schools. Grocery and drug stores were permitted to make emergency deliveries of foods and medicines through their front doors only, and National Guardsmen enforced the regulations.

AT THE THEATRE

Friday-Saturday "So Red the Rose" starring Margaret Sullivan and Randolph Scott is a moving love story that carries through a welter of heart-break and tragedy, but so word-painting copy that it does not create a depressing reaction, the picture has the entertainment values for appeal to any type of audience. Tim McCoy will appear in "Law Beyond the Range" on the Friday-Saturday double feature program. Sunday-Monday-Tuesday Four leading feminine players in "Miss Pacific Fleet," the Warner Bros. comedy with music are blondes. The four actresses are Joan Blondell, Glenda Farrell, Mina Gombell and Marie Wilson, all being blonde enough to please those much-heralded gentlemen who prefer them. "Miss Pacific Fleet" is the latest comedy featuring Miss Blondell and Miss Farrell. Others in the cast are Warren Hull, Allen Jenkins and Hugh Herbert. Wednesday-Thursday The thrilling story of a beautiful girl who, wholly feminine at heart, invaded a man's vocations and found romance as well; and who captured the world's rifle-shooting championship is brot to the screen in "Annie Oakley," starring Barbara Stanwyck. The film is based on stirring, unusual events in the life of Annie Oakley, who attained international fame in the eighties with the Buffalo Bill Wild West show. In her debut demonstration of her shooting skill, she met the man who was later to become her husband. Few beliefs have been as powerful and dominant in the lives of any group of people as the mysterious, weird forces of Voodoo which influence the lives of millions of people. This belief in the powers of the Devil is one of the

most fascinating and dangerous studies. Murders, sacrifices, terrifying rites, orgiastic dances all are associated with the black magic which forms such an important part of the action in "Sanders of the River," the Alexander Korda production of the famous Edgar Wallace story with Paul Robeson, Leslie Banks and Nina Mae McKinney in its leading roles. Indians Are Strong Tarahumara Indians in the southern part of Chihuahua, Mex., are so prodigiously strong that in heavy bridge timbers they will turn out twice as much labor daily as the average Mexican. The secret of the Tarahumara's speed is that in wielding an ax, he cuts clean through and hits the wood again on the back-stroke. Life of Insects The life cycle of most insects is very brief. Many do not live longer than a single season. The longest period of the life history of any insect is undoubtedly the space of 17 years which lapses between the burial of the larva and the emergence of the adult insect in the case of the periodical cicada.

Farm Buying  
Raises Nation's  
Total Business

From 1929 to the first quarter of 1933 farm cash income dropped 61 per cent and rural retail sales fell 57 per cent, and from the bottom of the depression to the present time, farm cash income has advanced 86 per cent and rural retail sales 93 per cent, this increase in rural purchasing power contributing to about 40 per cent of the industrial improvement, a study of income figures and rural trade indexes reveals. A comparison of the U. S. Department of Agriculture indexes of farm income, and national income, exclusive of farm income, with the department of Commerce indexes of retail business reveals how closely the flow of income in the rural areas corresponds with the flow of rural business, how very closely the flow of city incomes corresponds with city retail business, and further offers a basis for appraising the effect of agricultural purchasing power on industrial production and employment.

Starting from the 1929 levels, farm income fell 61 per cent while the total of all other money income fell 43 per cent. Rural retail sales during the same period fell 57 per cent and city department store sales fell 46 per cent. During the period in which farm income increased approximately 86 per cent and rural retail sales about 93 per cent, the total of money income, other than agricultural, has risen 25 per cent and city retail sales have risen 33 per cent. As a result of the various governmental and other activities since early 1933, the 1929 balance between gross farm cash income and total money incomes of the country as a whole has been restored. One of the major problems before agriculture is the preservation of this restored balance as further general expansion of industrial activity and a further rise in the national income take place.

The effect on industry of the drop in rural trade may be deduced from the fact that sales at retail in places having a population of less than 2,500 and sales by mail order companies contracted from \$9,200,000,000 in 1929 to \$3,900,000,000 in 1932, a total decline of \$5,300,000,000. This drop accounted for 23 per cent of the contraction in all retail business, which fell from \$49,100,000,000 in 1929 to \$26,600,000,000 in 1932. With the sharp recovery in farm income which appeared early in 1933 came also a quick pick-up in rural retail sales, resulting in an estimated gain for the year of more than 20 per cent—\$800,000,000. This contrasted with a further loss in total retail business of over \$500,000,000, urban sections buying \$1,400,000,000 less at retail than in 1932.

By the end of 1933 rural buying had recovered to its 1929 relationship to total trade. What the improvement in rural buying has meant to industry can be roughly computed by assuming that the same amount of employment is necessary to produce a dollar's worth of goods for the rural market as for the urban. On this basis it appears that approximately 40 per cent of the 1932-34 increase in factory employment was attributable to improved rural trade—roughly half of this increase comes direct through increased buying by farmers, and half through greater purchases by rural population in communities where income is largely dependent on farm conditions. Rural retail trade probably approximated \$6,800,000,000 in 1934. The trend of sales in rural and urban areas for the first 11 months of 1935 suggests a probable further increase in retail business of over \$2,000,000,000 this year, the increase to be about evenly divided as between rural and urban areas. This will bring rural sales to about \$6,900,000,000 and the total to \$30,700,000,000.

LETTER TO EDITOR  
Mr. Editor: I wish to correct a couple of errors in the Honorable Mr. Hoffman's statement of the Townsend plan given in your last issue.  
First, he says we asked him to help pass a law giving a pension of \$200 a month to every person 60 years of age or over, regardless of need. This is misleading and only a half truth, because the Townsend plan does not say anything of the kind. The Townsend plan says: "Who are eligible: all men and women 60 years of age or over, whose net income is not in excess of \$2400 a year."  
Secondly, which is also misleading: If you have followed recent events you have learned that Dr. Townsend is not hoping to get you the \$200 pension which he promised. That the now acknowledged unsoundness of and the hardships that would be worked by his transaction tax. Could a more flagrant mis-statement be printed?  
DR. J. HARRISON,  
Buchanan, Mich.

Drugged Cigaret  
Menaces Mich. Youth

Marihuana smoking, almost unknown in Michigan five years ago, has spread so rapidly that the drug has become a serious menace, particularly among youthful law-breakers.

Bootleggers of this dangerous narcotic plant have found that it can be grown in the Michigan climate, thus greatly increasing the danger of widespread addiction in the State, declares Inspector E. W. Kunath, head of the Detroit police narcotic squad, writing in the Delinquency News Letter, issued at the University of Michigan.

The drug, also known as loco weed, muggles, Indian hay, Indian hemp, hashish, laughing tobacco and reefer, is dried and rolled into cigarettes, selling from five to twenty-five cents apiece. From 300 to 500 cigarettes can be made from a pound, making it highly profitable for its underworld vendors.

Marihuana produces a wide variety of symptoms in the user, including hilarity, swooning and sexual excitement. Combined with intoxicants, it often makes the smoker vicious, with a desire to fight and kill, according to Inspector Kunath. A particularly dangerous phase of this drug problem, especially for girls, is the fact that the buyer must usually come in contact with the lowest type of criminals among whom the marihuana addict is often persuaded to take up morphine or opium habits.

Addiction to the drug is common in Mexico and some authorities have estimated that as many as one out of every four persons in some of the southern states are users. Out of 450 prisoners examined in New Orleans in 1930, 125 were found to be addicts, states Inspector Kunath. Despite the vicious effects of marihuana, only 17 states have laws against it and its control is not yet included under the federal Harrison narcotic act.

The Moving World

More Graduates Get Jobs  
About 75 per cent of the students who were graduated last June from the various schools of Columbia University have obtained positions, it was announced by W. Emerson Gentzler, secretary of appointments in his annual report to the university trustees, made public recently.

He also revealed that the number of positions, including part time and summer jobs, filled during the year ending June 30, totaled 7,283, the largest number since 1929.

At the same time, the report noted, employers were showing a tendency to shun the holders of the B. A. degree whose training had been general and to choose graduates of professional schools fitted for specialized work.

More Jobs in Some Fields  
In fields of applied science, economics, political science and in some phases of business such as accounting, advertising and merchandising, positions were more plentiful than in 1934, Mr. Gentzler said.

On the other hand, the fields of the preceding year, and the outlook for those now studying law is probably darker than it has been for the last ten years or more.  
Restore Cedars of Lebanon  
The forests comprising the famous cedars of Lebanon, in Syria, which have been dying away through the centuries until there are relatively few left, are to be restored through the efforts of governments in the Near East. In Palestine the British Director of Agriculture and Forestry has just put into effect a five-year plan of reforestation which will cost \$3,000,000 annually; locust trees are to be planted and oaks are to be protected. The Society of Friends of

the Forest, recently formed, has been instrumental in persuading the French High Commissioner (Lebanon is under the mandate of France) to put into effect a stringent forest code.

Of the cedars of Lebanon there remain only a few clusters, scattered in the mountains, some 3,000 to 7,000 feet above sea level. The oldest among them—numbering 11—are the brothers of those which King Solomon bought from Hiram, King of Tyre, to use in the building of his palace. But in early days it is probable that the banks of the Euphrates River and the mountains of Lebanon and Palestine, which, up to a height of 10,250 feet, extended north and south for 400 miles, were covered with immense forests.

The people who were later to become Egyptians brought with them the first cedars of Lebanon, and from then on the trees became famous in biblical history.

But evil times fell upon the forests. The Near East is a crossroads for those races who, having come centuries ago from India, Mongolia, Tibet, Persia and Egypt, directed their footsteps toward the west in their efforts to recapture the sun in its course. They ravaged the forests, and this increasing deforestation has been carried on through seven successive civilizations.

B. H. S. Cage 5  
to 3 Oaks Jan. 10

Will Play Cassopolis H. S. on Local Floor Jan. 14th.  
The basketball aggregation of B. H. S. will travel to Three Oaks Friday evening to engage the so-called class "C" champs of Berrien county.

Three Oaks made a clean sweep of the county tournament held during the holiday vacation and in doing so earned the title of class "C" champions of this county. The Bucks reached the semi-final round where they were knocked off by the Acorns. The Bucks had a decidedly "off" night, but Coach Miller predicts they will give a much better account of themselves in the approaching tilt.

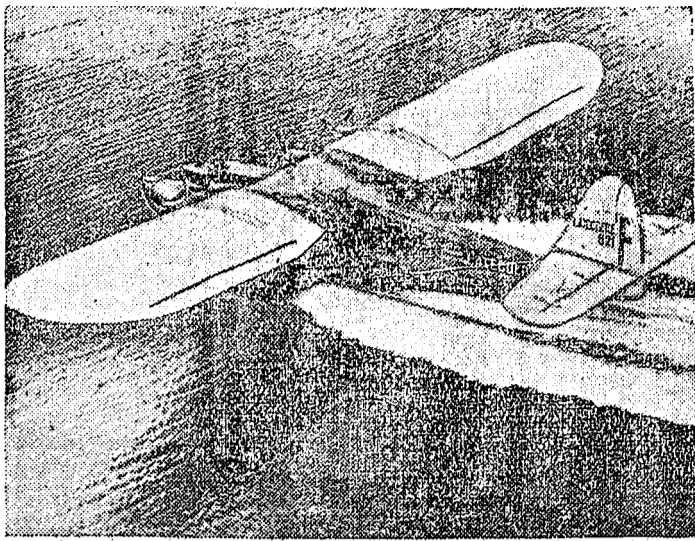

The game Friday evening will bring together two squads that boast an athletic rivalry dating way back when. They are both coached by mentors who graduated from the same educational institution. The Acorns team this year is way above the average while the Bucks can exhibit only an average team. Three Oaks' whole team is composed of veterans of 2 and 3 years' experience, while this year the Bucks had to start from scratch.

Cassopolis vs. Buchanan Jan. 14  
Buchanan and Cassopolis will be brought together on the Bucks' home court next Tuesday evening, Jan. 14, at 7:30 C. S. T. This will be the second meeting of the schools in basketball. Last year the game was played at Cass with the Bucks coming out on top.

Only a single game is played each year. Not a great deal is known about the tactics of the Rangers, but they are coached by a former B. H. S. student and graduate. The aforesaid coach is Harold Knight, former B. H. S. star athlete. The coaches of the opposing teams are graduates of the same class from the same college. Supt. Knoblauch of Cass was formerly principal of B. H. S. Considering everything, an interesting ball game is in the offing so be sure and attend.

New Car Gets  
Accessory Minded

"More automobile accessories by far have been bought by motorists in the last three months than during any similar period in the history of the motor car business," says O. A. Lamoreux, parts and accessories manager of Pontiac Motor Co.

"It is said on good authority," continues Mr. Lamoreux, "that the automotive accessories volume for the country is running at the rate of between \$150,000,000 and \$200,000,000 a year. A huge business in itself."  
"Contrary to the practice of a few years ago, a large percentage of the accessories business is being done by the car dealer himself. The accessories are approved by the car manufacturer and in most cases carry the car builder's trade mark like the Pontiac Indian head.

"Our own accessories sales for the last quarter of this year will easily be five times greater than they were during the same period of 1934. Of course, early announcements and fall auto shows have helped tremendously, but there has been a greater volume than ever before coming under the head of Christmas present trade."

"One of our most popular items is the car heater. Fully 50 per cent of our new cars are being 'hold with heaters. One reason for their increased popularity is that they are equipped with a shut-off valve so that there is no discomfort in summer time."

"Radios are being installed on 25 per cent of the Pontiac cars that are sold today. Windshield defrosters and ash receivers are very popular. The principal accessory that has been added to the line is the electric clock which is installed in the glove and package compartment door at the right of the dash. These clocks are going on from 35 to 40 per cent of the new Pontiac cars."

"Other standard accessories approved by Pontiac Motor Co. for sale, by its dealers include the mirror watch, gear-shift ball, cigar lighter, matched dual horns, right hand sun visor and right hand tail lamp."

Classes of Boxers  
The difference between "heavy weight," "lightweight," and "light-heavyweight," when used in reference to boxers is: Heavyweight, not less than 175 pounds; lightweight, between 127 and 135 pounds; light-heavyweight, not less than 161, nor more than 175 pounds.

To Run 4th Dist.  
Townsend Man  
For Congress

Niles Speaker Challenges Rep. Hoffman in Local Hall.

"There will be a Townsendite congressman from the Fourth District after the next election," said Mrs. Kavanagh of Niles, in an address before the local Townsend club in the Woodman hall on Tuesday evening.

"I am not permitted yet to tell who the candidate will be but he has already been selected and will be up to speak to you sometime. The election of Vernon Main as congressman from the Third district is as the cloud the size of a man's hand which is to grow until it covers the whole heaven. After 1936 we will have a Townsend president, vice president and House of Representatives. We can't have a Townsend senate then because we only elect a third of them every two years."

The speaker charged that Congressman Hoffman misrepresented the plan in his recent letter widely published through the state press, when he said that the pension was to be paid regardless of need. The Townsend plan is a poor man's proposition, she stated. If anyone has an income equivalent to the pension they will not be entitled to it.

Spending the pension would be no trouble at all, she stated, enumerating some of the permissible ways of spending as follows: building or buying homes, modernizing or improving homes, buying cars, electrification of all kinds, paying taxes, debts of all kinds, education.

Great for Throat Colds

Thioxine Loosens Phlegm—Brings Quick Relief  
If you have a "common cold" settled in your throat, relief comes fast when you take pure, swift-acting Thioxine—never improved and better than ever now. One swallow helps raise and expel germ-laden phlegm—soothes rawness and hard swallowing—and relieves the sore throat and cold. Thioxine is double-acting, doubly effective—soothes as you swallow, then acts internally, too. Hence so superior to gargles. Try it! If not delighted, get your money back. 35c, 60c, \$1.00 bottles. Corner Drug Store and all other good drug stores.

The payment of any and all debts is not only permissible, she said, but an absolute requirement. In drawing the pension the drawee must affirm by sworn oath that he or she will first pay all debts.

The plan is being misrepresented by those who refer to the 2% tax as a sales tax when it is in fact a transaction tax, she stated. The 2% will be levied on any and all transactions and in fact a large part of the income is expected from the sale of stocks and bonds. The Woodman hall was filled with an audience which applauded the Niles woman frequently. At the conclusion the secretary stated that the local membership included 44 who are or have been connected with business or professional life. Vice President C. C. Runner requested that the club elect a successor as he did not feel equal to the task of carrying on the duties of the post of president during the absence of Phay Graffort, but the membership was minded otherwise.

Politics Barred  
on WKAR Talks

When officials of the state of Michigan begin the series of broadcasts over WKAR, the radio broadcasting station of Michigan State College at East Lansing, they will discuss, for the information of listeners, problems of state government.

ment of interest to individuals who support the government. There will be no party lines, department heads of both major political parties will be invited to speak. The state's only non-commercial radio station, in competing for attention, will offer programs unique because of the absence of appeal to anything but listener interest.

On Friday, Jan. 10, Gov. Frank D. Fitzgerald will speak at 4:45 in the afternoon; Orville E. Atwood, Secretary of State, will precede him at 2:45 p. m. Each will speak for 15 minutes. The later period will be designated governor's hour each Friday; on the first four Fridays, an official from the department of state will speak at the earlier period. Others who will be invited to speak during this series of broadcasts include David H. Crowley, Attorney General; T. I.

Fry, State Treasurer; Dr. Eugene Elliott, State Superintendent of Public Instruction; John J. O'Hara, Auditor General; Murray D. VanWagoner, State Highway Commissioner and others.

So far as listeners are concerned, WKAR became, on Jan. 6, virtually a new station. Its transmitting frequency was changed from 1040 to 850 kilocycles; its power of 1,000 watts will give anyone in Michigan virtually "clear channel" reception, as a result. Only one broadcasting station in the state has more power; only three have as much. The state's own station is on the air 30 hours a week. The addresses by state officials will be in line with the "college of the air" theme which will emphasize culture and entertainment.

HOTEL MAJESTIC

The Enduring Ingredient

EVEN the stoutest cedar pole must at length succumb to weather and wear. New methods surpass—and replace—the old. Equipment disappears as progress renders it obsolete.

There is, however, one factor in your telephone service that never alters; one important ingredient that survives all the effects of the passing years—and this is the factor of policy.

The policy of this Company is to supply Michigan with the best and most economical telephone service that human effort and sincerity can provide. To accomplish this purpose, there has been a long series of changes—unending changes—that grew out of American inventive genius as applied to the art of telephonic communication.

A noteworthy example of this is seen in the evolution of the cable. Year by year a greater number of wires—each an avenue of speech—has been successfully packed into a smaller circumference. This, with many other improvements, has steadily widened the use of cable. Utilized at first only to link subscribers' telephones with central offices, storm-resistant cable is now used in toll circuits connecting cities, and in a large percentage of all present-day circuits.

This progressive change was not haphazard. It grew out of a policy which itself does not change. That is why telephone service in the State of Michigan is better today than it was yesterday. And that is why it will improve for tomorrow.
