The Buchanan prayer meeting of the Methodist church was held at the home of Mr. and Mrs. Arthur Rose Tuesday evening.

All the grades above the third were taken to New Troy to give a demonstration lesson of our nature study class for the P. T. A. of New Troy. The lesson was on wasps and hornets.

The Fords won the spelling contest. Everyone wanted another contest so we chose sides again and at present there is a tie.

Jane Rotzien took home the fish to feed over the week-end and when she returned them Monday morning they were in a nice fish bowl. The fish are much more attractive now than they were in the two quart can they were in.

We have a glass can of black ants in the school now. They are making tunnels all thru the soil and are very interesting to watch.

Our school will play baseball with Currier school May 1st at 3 o'clock.

Many of the May baskets have been finished. Some are red and others are green.

Some boards blew off the bell tower during the wind storm last week.

The 5th grade had their language exam Tuesday. They have finished their book and review. The language time will be put on geography from now on.

Janette Rotzien and Naomi Van-Lew visited school this week.

Dayton Church

Saturday evening, 8 o'clock E. S. T.—Community night. The lecture, "The Evok Gor Forth" with beautifully colored stereopticon pictures of the American Bible Society's work around the world. An offering will be taken toward new song books.

Most Primitive People

The natives of Tasmania, even up to the time of their complete extinction in 1876, were considered to be the most primitive people ever encountered in historic times, writes Herbert Hillmer, Cincinnati, Ohio, in Collier's Weekly. They never reached a degree of development, it is believed, much beyond that of the cave men who lived in central Europe more than 25,000 years ago.

Henry III of England

Henry VIII of England was the third child and second son of Henry VII and Elizabeth of York. He was born at Greenwich on June 28, 1491. His brother died in 1501, and after the death of his father in 1509 he succeeded to the throne.

See the New KELVINATOR

with *Visible* COLD, *Visible* ECONOMY and *Visible* PROTECTION

Today we recommend that every owner of an automatic refrigerator learn about the new 1936 Kelvinator. It has three outstanding, fundamental values that buyers want. **Visible Cold:** Safe temperatures in the food compartment, proved by a Built-In Thermometer so there can be no doubt about how cold it is. **Visible Economy:** It uses from one-third to one-half as much current, as shown in advance by a Certificate of Low Cost of Operation. **Visible Protection:** A 5-year Protection Plan, signed by the oldest company in the industry. The new Kelvinator gives you flexible rubber grids in all ice trays, and such conveniences as automatic defrosting switch, interior electric light and many others. See the 1936 Kelvinator whether you now have an electric refrigerator or not.

First in pulling power... First in all-round economy... WORLD'S THRIFTIEST HIGH-POWERED TRUCKS

IN TRUCKS, it's pulling power that counts... and the new Chevrolets for 1936 have the greatest pulling power of any trucks in the entire low-price range! Moreover, they give you this greater pulling power with the lowest gas and oil costs, lowest maintenance costs and maximum all-round economy!

They are the world's thriftiest high-powered trucks; and the whole secret of their extra pulling power, extra thrift, extra safety and dependability is the fact that they have a combination of features not found in any other low-priced truck.

These new Chevrolets alone have a High-Compression Valve-in-Head Six-Cylinder Engine, the most efficient engine built for all-round duty... a Full-Floating Rear Axle of maximum ruggedness and reliability... New Perfected Hydraulic Brakes, giving the quickest, safest, "straight line" stops... and New Full-Trimmed De Luxe Cab for driver comfort, with clear-vision instrument panel for safe control.

See or phone your Chevrolet dealer for a thorough demonstration—today!

Jennings, nee Esther Hess, Iowa City, Iowa, were guests from Sunday until Tuesday at the home of the latter's mother, Mrs. Rose Hess and her three sisters. Mrs. Charles King has as her guest this week her mother, Mrs. Nellie Newman, Battle Creek. Mr. and Mrs. John Walsch spent the week-end visiting in Milwaukee. Mrs. Con Kelley is ill at her home on North Chippewa.

CCC Camps' Usefulness Told on 3rd Birthday The third birthday of the Civilian Conservation Corps, April 5, was marked by a report showing the work accomplished by the 1,600,000 persons it has employed. Outstanding features were the planting of 558,000,000 trees; 1,963,500 soil erosion dams built, 69,000 miles of roads and trails cut through forests. Explaining that CCC concentrated on improving and preserving the nation's forests, the report speaks volumes to foresters, conservationists and to millions of citizens interested in preserving, expanding and developing the timbered areas that still re-

Homographs Homographs are words spelled alike, but from different sources, and, usually, of different meanings, such as "bark," the outer covering of a tree; "bark," the cry of a dog, and "bark," a kind of boat.

INSURE AGAINST FIRE LOSSES You cannot afford to be without fire insurance! Our policies give the finest available protection. Our premiums are low and convenient payment terms will be arranged in proportion to your income. E. N. Schram The Insurance Man

Why the Cat Stretches When a cat wakes up, it stretches, bends, twists. The intelligent animal thus stimulates its circulation, improves the tone of its muscles and benefits its respiratory and digestive apparatus. Purpose of Lightning Rod Nothing will prevent lightning from striking anything in its path. The purpose of the lightning rod is to offer a conducting path by which lightning that strikes a building may pass harmlessly to the earth. Spiritual Values Count When civilization reaches a sufficient height, we find that the better minds are occupied with spiritual values; the true, the beautiful, the good and holy.

"The Pines" To Publish Soon

1936 Edition Half Larger Than Last Year, Many More Cuts.

In a few short weeks the 1936 edition of the Buchanan High School Annual, "The Pines," will be off the press. This annual is edited and published by the senior class under the personal direction of the senior class adviser, Mrs. Velma Dunbar.

The annual is chiefly written and edited by an annual staff composed of competent members of the class. The staff this year includes: editor-in-chief, Eleanor Miller; society editor, Una Kelley; literary editor, Cherry Helm; sport editor, Spencer Kohlman; snapshot editors, Barbara Hamilton and Ted Lyon; artist, Milburn Shafer; typist, Evelyn Dolph; joke editor, Howard McClellan; business manager, Ben Franklin; assistant business manager, William Habicht.

Probably few people realize the ceaseless work and untiring effort the publishing of an annual entails. First a general list of all the features and departments which are to be given space in the annual must be made. Then each editor takes charge of the articles falling upon his division, sees that they are correctly written up, and hands them to the editor-in-chief on a set deadline. Pictures in the meantime, must be taken, and also the business aspects of the book must be put on a stable basis by the efforts of the business managers.

When all written material has been turned in to the editor-in-chief, all advertisements sold and placed, and all pictures returned from the photographer, then part of the hardest work on our annual begins. This is the preparation of the dummy.

The dummy is composed of every feature, picture, article, and advertisement that is to be a part of the finished annual. Blank pages are taken for each page of the annual, and on that page is placed in the exact proportion and position it will be when printed. The arduous task this job is, can plainly be realized when one thinks only of all the pictures and art motifs alone whose exact dimensions must be drawn to scale on each page they appear. All material, too, must be classified and arranged in the most entertaining and pleasing manner. This whole wearing process falls on the editor-in-chief and adviser.

For that matter, with all the work an annual staff does, with all their willingness and effort they are largely an inexperienced group in the intricate and numerous details that go toward making a successful annual. Mrs. Dunbar, who has been a senior class adviser for many years and whose classes have always published annuals, is the one who unceasingly guides and aids the staff in its dealings with printers, engravers and photographers, helps arrange and decide on material, and a million other details.

A number of interesting and helpful changes have been made by the annual staff this year. The cover will be black and carry a replica in silver of the high school ring insignia. The book has been enlarged by one half its size last year to include pictures of the clubs, the 7th and 8th graders, and the grade faculty. There are also many more diverting articles. The printer this year is, as in the past, The Berrien County Record. This

organization has for many years given the school great service and support toward the production of a successful annual. The pictures for the publication are engraved by the South Bend Engraving Co.

will speak on "The Christian Platform."
The prayer circle will be held Tuesday at 7:30. Scripture for roll call will begin with the letter "F." The book of Obadiah will be used for study. A very helpful meeting was held at the home of Arthur Rose last Tuesday evening.

ter carnival in February. The directory includes a list of festivals, conventions, regattas and other features as nearly complete as is possible to make at this time.
The directory is issued by the West Michigan Tourist and Resort Association, Grand Rapids, which is one of four non-profit tourist and resort agencies in the state.
The preliminary work of land acquisition on Isle Royale, which is to become a national park, is advancing steadily.
Options on surface and mineral rights amounting to approximately \$500,000 had been accepted by the United States Government National Park Service up to April 13, according to word received by B. G. Willem, agent of the Michigan Isle Royale National Parks commission here.
More than \$21,000 in options were reported in Washington awaiting consideration for acceptance and approximately \$10,000 in options in Lansing awaiting assignment.
No offers have yet been made to owners of improved property on Isle Royale, Mr. Willem said, and none will be made until after detailed appraisals of improved property can be undertaken this summer.

Western Mich. Vacation Guide Available Soon

Copies of the 1936 West Michigan vacation directory will be available within the next few days at Chambers of Commerce and other headquarters for tourist information.
The directory, 9 1/2 x 12 1/2 inches in size, with a cover in four colors, contains 64 pages of reading matter, devoted to swimming, fishing, boating, tennis and other outdoor vacation activities.
There is one page to appeal to hay fever sufferers, who can find relief from their malady in many Michigan resorts.
There are several pages devoted to Michigan's festivals, which open with Blossom Week May 3 to 10 and close with the Petoskey win-

POWER-PACKED AND PRIMED FOR ACTION

\$765*

WE'D like to show you what this Buick owner meant when he coined that phrase about the Buick Special! We'd like to take you out—over any route you care to name—and show you what it's like to ride behind the ablest straight-eight engine in the world! We'd like to level out a few hills for you—iron a couple of bad roads smooth—let you sample the velvet softness of hydraulic brakes as Buick knows how to build them. We'll take you through traffic, so that you may see how this nimble, thrifty, mile-eating beauty saves your time at every traffic light, takes the corners without weave or tire-squeal, slides through rush-hour snarls like a rabbit through the brush! We'd like you to see how obedient a Buick is—how completely it puts control in your hands—how reassuring it is to ride in it at any pace! After that, if you like, we'd like to prove that you can afford a Buick—how very little more it costs than the lowest priced automobiles. "Power-packed and primed for action!"—our hat's off to the man who put the words together. Come take a ride in a Series 40 Buick Special and see if you can find a phrase that describes it better!

to \$1945 are the list prices of the new Buicks at Flint, Mich., subject to change without notice. Standard and special accessories groups on all models at extra cost. All Buick prices include safety glass throughout at standard equipment.

MONTHLY PAYMENTS TO FIT YOUR PURSE!

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

Along McCoy's Crick

By Harrison Merrill

Now that all outside interference has been dispensed with—it is hoped—and the writer can proceed with his historical endeavors without outside static by those who seek to tear down rather than build up—the correct Latin phrase is forgotten for the nonce—the Crick series will continue without further delay.

There was a time in the history of Buchanan when Democrats, while quite prominent and likewise were very scarce. The members of that party were quite a novelty and it required a lot of strength of character, strength and knowledge to line up with the party of Jefferson, Cleveland and Bryan against the G. A. R. and G. O. P. hosts, who at that time were in control of all alphabetical assortments and alignments, same as the Democrats are at the present time.

One of the outstanding Democrats of his time was Ira Franklin (Mansy) Mansfield, son of John Mansfield, also another solid member of the Jeffersonian party, who was postmaster during Cleveland's administration.

"Mansy" was a year-round Democrat. He fought brilliantly for his party whenever the occasion demanded which was pretty much all of the time in those days. He was one of the stalwarts of his time.

Often when the county conventions were held at Berrien Springs "Mansy" as a delegate, would make the trip on foot. Once he pumped a handcar to that place over the narrow gauge rails in order not to be absent. When it came to debate or repartee he could more than hold his own with the members of the opposite party.

At the election of 1896 when William Jennings Bryan was running against William McKinley and free silver was the issue "Mansy" was a great factor in the fight carried on by the Democrats.

When November arrived and the election returns were being read by Jack Millar from the upper story of the Roe block one of the first reports to come in was from Weesaw township which Bryan had carried by a vote of 111 to 87. There was a great cheer went up from the Democrats below.

Then started the returns from so many precincts out of a possible 222 precincts in the city of Lincoln, Nebr., giving McKinley a handsome lead. And so it continued for hours with Bryan falling far behind as each bulletin was read. Finally after several hours "Mansy" in the crowd below was able to attract the attention of the announcer and in a voice that carried to the far corners, shouted:

"Read those Weesaw returns again, Jack!"

After the Weesaw report had been re-read "Mansy", after stating his opinion of Mark Hanna and all other members of the Republican party quietly left for home to prepare to step into harness the next day and in full battle array fight the good fight in behalf of the Democratic party four years hence when Bryan would again be the standard bearer.

In this writer's opinion there never was a more brilliant mind along the shores of the old Crick than that possessed by "Mansy." He was a student and scholar, keen witted and bright, and farther removed from being a yes-man than any person who has ever lived within the corporate limits of said village.

It must have been in the same year, 1896, that the first phonograph reached Buchanan. It is recalled that Bryan's speech made at the Chicago convention was on one of the cylinders. Also McKinley's speech. Also the "Raving of John McCullough," the great American actor, who at the time was an inmate of an asylum on the west coast.

Jake Rough was the owner of a machine built by Edison and was operated by a small motor which had an uncanny way of getting out of whack when there was a crowd around ready to pay 5c each to hear over the rubber tubes what was on the wax records inside of the phonograph.

The machine was exhibited at all the nearby towns and when the motor was behaving itself, which happened occasionally, profits were enormous.

There were several of the records which were considerably off-color and the writer recalls that people preferred such to the Bryan and McKinley speeches or the McCullough ravings. This will serve to correct a popular impression that the people of the previous century were considerably higher minded and much more sedate and modest.

Mr. Rough also was an outspoken Democrat. He was postmaster under Cleveland and for many years he was manager of the opera house.

The first phonograph that could be heard without paying for the service was owned by George Black, who used to wind the machine up and start it going on the porch of his home atop the Front street hill and the entire valley would then be flooded with melody.

Next door to Mr. Black toward the east on the hill lived William "Bill" Churchill, a splendid likeable fellow and also considerable of a

musician. For years he had practiced "Old Black Joe" on the piano in his home. He figured that no one could play the piece with as much feeling and with as many variations.

And then one spring night Mr. Black, unthinkingly of course, placed a record on his phonograph which contained a piano solo by one of the outstanding musicians of the day. The tune was "Old Black Joe" with variations.

Mr. Churchill next door, heard and likewise understood. He tore the music into shreds and tossed them out of the window into the May breeze. He also banged down the top of the piano and threw the key out of the window. He would have given the instrument a similar toss had he been able to do so. He never played the piano-forte again. From then on he confined his musical endeavors to the five-string banjo on which he was a real artist.

Mr. Churchill, a good Republican, held many village offices during his time. He was at one time owner of the "Smoke House" on Front street at the foot of Days avenue, where the home folks used to foregather for their daily seltz at the enticing game of "freeze out."

Buchanan, at the time the populace was being musically entertained by the Black phonograph on the hill was pretty much a nine o'clock town. To be correct, perhaps it would be better to make 9:10 the time.

By then the male members of the community had dropped into one of the three saloons and had their "night-cap," a drink furnished free to all who happened to be on hand when the clock on the backbar struck nine. Ten minutes later most of the folks were at home and tucked in for the night.

It was necessary to retire early in those days in order to be up at seven the next morning when the "eye-opener," also a free drink, was served over the bars. Between the "eye-opener" and the "night-cap" life was pretty much num-drum for many. Except, of course, when the brewery agent happened along and all the drinks were on him. The arrival of the party in question was duly announced by frequent blasts by the waterworks whistle and by that method those who were physically fit never lost out on the celebration.

Directly across the street from the Black residence at the top of the hill lived William Palmer, who was in the insurance business, and had also served as the Philo Vance of his time. There was no sharper or keener officer to be found any place.

He was at one time the deputy sheriff in the Buchanan district. The pay was not great but the fee of 10c per mile under right condi-

tions mounted up rather rapidly. It is recalled that Mr. Palmer in an effort to capture an alleged horse thief traveled from Chicago to San Francisco with the fellow just one train ahead of him, then traveled from Frisco back to Chicago making little, if any, headway except so far as the mileage was concerned, and then followed the party across the continent again, and back to Chicago, before he finally caught up with him. The jury after being out for a short time finally came to the decision that the Buchanan officer had captured the wrong person.

Mr. Palmer was a kindly, good-natured fellow. He was also an outstanding Republican and he also owned one, if not the first Buick ever delivered along the Crick.

To the west of the Palmer home and across Moccasin avenue was the home of Dr. Francis H. Berrick, one of the pioneer physicians of the village. He came to Buchanan in 1868.

Dr. Berrick, also was a pioneer Democrat. He was senator from the 12th district, 1875-6. He was one of the most highly educated gentlemen of his time. He was born in Clemsford, Mass., Sept. 18, 1823. His father was a soldier under Napoleon. The son received a common school education and learned the trade of machinist. During the nine years he worked at his trade down to 1852 he employed all his leisure time in the study of theology. In 1859 he entered Harvard law school and remained there until graduation in 1861. He continued his studies under Judge Perkins of Salem, Mass., and was admitted to the bar in 1864. The following year he began the study of medicine and was graduated from the Hahnemann Medical college, Chicago, and upon graduation located in Buchanan.

Dr. Berrick, during his residence along the Crick was a very active man. That was before the day when physicians studied financial reports before starting out on a call. He was on the go all the time, summer and winter, behind steeds that could carry him out through the country at lightning speed in response to cries for aid.

Dr. Berrick was one of Buchanan's real patriots and his memory should be revered by all. His death was a direct result of overwork in his profession.

Just had a letter from Clyde Dalrymple at South Bend in which he states that Henry "Red" Spohr gave him his first chew of Light Burley. He managed to survive, he claims. There must be others!

Now that the interference has ceased it is possible that the Crick articles will move along a little faster, particularly as the top of Front street hill has been reached and there's only a few more miles either way yet to traverse.

Committee Sees Student Rule

Five Go to Holland to Study Student Government System There.

Five delegates, who were chosen from the five upper classes, attended the Holland high school in Holland, Mich., to study the student government system there.

The purpose of the visit was to investigate the unique student government system for which the high school is outstanding.

A student council makes up the most important group of the students and the council consists of a mayor, who is the head of the council and presides at the meetings; the clerk, who is the secretary and who keeps a record of all transactions; the treasurer, whose duty is to take care of the finances and lastly, a chief-of-police, who has boys under him to conduct hall traffic during the passing period between classes and at fire drills. Only sophomores, juniors and seniors participate in this council.

Student class presidents automatically become members of it and other pupils are elected to serve on committees or boards such as the School Newspaper Board, Literary Board, Police Board, Athletics Board, Park Board, Maroon and Orange Board, Public Improvement Board and Service Pins Committee Board.

Included in this system is a constitution by which students govern themselves, and if any one breaks any of the ordinances they are subject to penalties inflicted by the council or the student body.

These students have grown up with this system for it has been in use for 20 years. Students have come and gone—each having been taught the value of discipline, consideration and helpfulness.

Buchanan high school's faculty is going to try to maintain a student government similar to the one in Holland. This type of training will make better all around people.

"Burning of the Brush" Ceremony On May 7th

Berrien County Farmers Asked to Participate in Novel Custom Relative to Blossom Festival.

Farmers of Berrien and VanBuren counties can co-operate in the 1936 Blossom Festival, without cost to themselves, by joining in the annual ceremony known as "Burning of the Brush," according to County Agricultural Agent Harry J. Lurkins, who is asking the farmers' help at all farm meetings this month.

The burning of the brush will take place on Thursday evening, May 7. Farmers will have been cleaning brush from their farms for several days previous to this time, and at a specified hour all these bonfires can be lighted to cast a reflection against the sky over two counties.

"This is the least the farmers can do as their part of Blossom Week," Mr. Lurkins says. "The entire burden of Blossom Week is paid by the cities. It is designed to help the farmers and they contribute nothing in the way of money. Farmers should help by cleaning up their farms and homes, and by waiting until Thursday night to burn their rubbish. If everyone will do it, we can illuminate two counties, in a spectacle that will be worth coming to see."

"Most farmers prefer to burn brush at night," Mr. Lurkins said, "for usually there is little wind, and there is dew on the ground which prevents falling sparks from setting other fires."

"Yosemite" Indian Name California's Yosemite Valley gets its name from the Indian word for grizzly bear, "uzumaiti."

Just a light touch on the steering wheel turns the new Row-Crop "70" completely around. It's the easiest tractor to operate you ever saw. Every control's right at your finger tips—and you have steering and gear shifting like an automobile.

This is Oliver's new 6-cylinder tractor that has caused so much talk. There are two "70's"—one designed solely for regular gasoline—and the other to get the utmost fuel economy out of kerosene or distillate.

With either one you'll get unusually great power with light weight—and great speed. Under ordinary soil conditions, you can plow with two 14-inch bases at over 4 miles an hour! That gets the work done quicker and gives more spare time for other things.

The Row-Crop "70" comes from the tractor factory of the founders of the tractor industry. You'll want to see this latest, modern tractor at once—with its complete line of mounted listing, busting, planting and cultivating equipment.

Michigan Gas Tax Below U. S. Average

Michigan's tax of three cents a gallon levied on motor fuel is below the average for the nation, according to a survey just made by the Standard Statistics company of New York City. State taxes range from two cents a gallon in the District of Columbia, Missouri and Rhode Island, to seven cents in Florida and Tennessee. Every state in the union has levied a gasoline tax since 1929. In that year Massachusetts and New York joined the other 46 states in this form of taxation for the building and maintaining of highways used by owners of the motor vehicle which use the highways.

An Old Belief To have a crow fly over the house is a sign of death.

Farm Bureau Fertilizer

There are Many Reasons why YOU Should Use Farm Bureau Brand

Water Soluable Nitrogen

EDITORIAL

"God's temples" is what an author once said referring to the trees. Considering what stately picturesque plants they are, one can readily understand the significance between the "temples" and trees. They are pieces of art that nature's mystical fingers molded and shaped. Such art can't even be done by wizards and genius.

Thousands of virgin forest areas have been cut away because of necessity and put into homes in every country of the world. But the trees are being cut down more rapidly than others are able to grow. Very little is being done by the people who could help establish reforestation. It has been claimed that in fifty years the United States will face a timber shortage at the rate wood is being cut away at the present time.

In Germany, which is noted for its wonderful forests, and especially its Black Forest, when a tree is removed from the forests, it is replaced by another tree. This plan insures the growth of trees even though some are removed and helps to combat the problem of their timber becoming exhausted.

The U. S. saw a real need for a day in which all citizens should plant new trees and a day in which trees should rule and be king. During this day trees are given due respect for rendering their services in the form of pencils, desks, fuel, buildings, paper and countless other useful articles to mankind. Arbor Day is near at hand.

G. A. A.
The G. A. A. girls held a pot luck supper Friday evening in the Home Economics room. The entertainment was furnished by the following girls who were initiated into the G. A. A. club: Thelma Heckathorn, Vella Grey, Marion Miller, Maxine Shaffer, Evelyn Proud, Betty Semple, Betty Penwell, Shirley Trapp, Carolyn Webb, Geraldine Ketchum, Marguerite Haas.

After the supper several speeches were given by the new members. The organization has 24 members.

The G. A. A. is still creeping. Their pep will never fail, anyway it appears that way. The girls will have a tennis team this year that will really be worth while and have pep. Any girl that wishes to be on the team and has the ability to get out and practice every night may enter. They will have individual championship and will also compete with other schools.

So don't be bashful girls, bring your tennis rackets and come down to the courts. There's always room for another player.

Bits of Gossip
If he couldn't take it, he certainly must be able to now! Ted, I heard, took quite a nice spanking from the boys of the physics class about a week ago. It happened to be his birthday and the boys really laid it on.

Everyone was glad to welcome back a certain girl that attended school here previous to this year. Shirley Rolan visited school last week and we all hope she enjoyed herself as much as the students enjoyed having her.

Mr. Robinson fared quite well when his orchestra and glee club classes gave him a birthday present. Maybe the rest of the faculty should have the dates of their birthdays known.

Senior play practice has started and before long the cast will be displaying their talent. We hope the senior class has as much success with their play as the juniors had.

F. F. A. MEETING

The Buchanan F. F. A. club held a meeting in the high school Tuesday evening, April 14.

Due to the fact that it would take several weeks to obtain an agricultural picture and Mr. Lurkins was unable to be the guest, the Father and Son banquet was postponed.

Memorizing the creed is one of the qualifications necessary to become a "Green Hand" and Charles Bainton, Glenn Sult, Jack Sult, Donald Bennit, James Hemminger, Bernard Humminger, Lawrence Bachman, and Ivan Price have succeeded in reciting it.

The club has decided to purchase a bushel of certified seed corn to give out to four boys, who are carrying out corn projects. These boys will return to the club five bushels of corn next year for the one they received this year. Eventually this will mean a nice annual income for the club as well as an aid to boys carrying corn projects. (T.Ots:ecdyml-85)

GLEE CLUB CONCERT

Sunday, April 19th, the Glee club gave a concert at the Methodist church. The program included the following numbers:

"My Heart's in the Highland," by Noble Cain; "Pilgrim Chorus" from "Tannhauser" by Richard Wagner; "Soldiers' Chorus" from "Faust," Charles Gounod; "Who's That Calling?" an old Southern Melody; "Meditation" by Brahms; "Gloria" from the "twelfth mass."

The program was divided into two parts. Between the first and second parts the high school trio gave some selections.

New Books for Library

During the past week several new books have been added to the high school library.

Among the books added were: "Handbook of Nature Study" by Comstock, "Chessle" by Ruth Carroll, "South of the Sunset" by Wame Churchill, "Penelope Elen" by Ethel Parton and "Whitler's Van" by Idwal Jones.

ALONG TIME

In 1926 Buchanan high had quite a good baseball team. Some of the members of the team were: Harold Knight, Robert Morse, Harold Pierce, Mitchell and Conrad. This team played with high school nines from Dowagiac, Three Oaks, Eau Claire and Berrien Springs.

Then, for some reason, baseball was discontinued. Ten years filed slowly by and much good baseball material passed through the high school portals, but was never used.

After ten long years the national pastime, one of the greatest of all sports—baseball—has again been added to the sport roster of Buchanan.

VELMARIAN LIT PROGRAM

The April Velmarian Literary meeting will open with the roll call. Each member must answer by giving an original four line verse about spring.

The program will consist of a report on William L. Phelps, by Dic' Ellis. Cherry Heim will give the story of novel. Barbara Hamilton will give a report on the Theater and End of Dramatic Era. The program will close with Eleanor Miller giving the life of Edna St. Vincent Millay and her "Conversations at Midnight."

VISIT NOTRE DAME

Thursday, April 16, the 25 members of the Latin club and their teacher, Mrs. Weaver, traveled to Notre Dame to visit the University. They were escorted through the Art Gallery and Library by a Notre Dame official. The trip proved very interesting as well as instructive.

CLASS ACTIVITIES

Mathematics
The algebra classes are working on miscellaneous reviews and later will be given a written test on material covered so far.

Used Car Headquarters

For Berrien County
We maintain a complete stock of all model used and nearly new cars at all times. Get our prices before deciding on your next car.

ROUND TRIP **\$3.60**

CHICAGO SOUTH SHORE & SOUTH BEND RAILROAD

37 for the juniors.
We had some visitors last week in school. They were persons who had at one time taught or attended school here.

They were Mr. and Mrs. George Wynn, who taught school last year and Shirley Rolan, who attended school here last year.

Geometry classes are working on the proportions which are derived from the study of similar polygons.

Learning the use of trigonometric formulas in finding areas of triangles is the duty of the trigonometry classes.

The seventh grade arithmetic classes are finding areas, triangles, parallelograms, and trapezoids, and also finding areas of figures formed by each.

Doing indirect measuring by using ratio proportion and indirect measurements is the work of the 8th grade arithmetic classes. The instructor has made plans to go on regular field trips and find heights of trees and the distance across valleys.

Commercial classes are working on problems of land, finding the principal meridian and base line from those determining the townships; also studying general farm problems.

History and Government

The topic of discussion for the 12th grade government class is "Boards and Commissions."

The industrial revolution and reform movements have been studied and discussed by the 10th grade history classes.

A study of our national Congress and the making of laws has been taken up by the citizenship class.

Eleventh and twelfth grade typing classes are working on a project of artistic typing. Designs, borders, etc., are being made.

The shorthand class is completing the chapter on word endings and the intersection principle of phrasing. A test will be given over this work.

Finishing the transactions for December in the practice set has been the work of the bookkeeping class. The students are getting ready to prepare the trial balance.

Science and Manual Training
Students of the 8th grade general science class are studying aeroplane instruction and radio.

Hubert McClellan and Roland Shreve of the mechanical drawing class are working at the Clark Equipment Co. under the supervision of Mr. Pascoe, doing machine shop sketching.

The ninth grade manual training classes are doing preparation of surfaces for refinishing.

Manual training seven classes are building small bird houses.

The physics class went down to the Methodist church and examined the pipe organ one day during the past week.

The study of light, different lens reflections and the study of color has been taken up in the physics class.

The chemistry classes have studied synthetic oil of wintergreen, banana oil, dynamite, soap making, starch and sugar.

It is interesting to note that some scientists believe that it is possible that both plants and animals had a common ancestor.

The Miracle Becomes a Commonplace

This Michigan gentleman takes modern telephone service calmly. He does no marveling over the fact that he can so easily call up a friend to ask about a sledding party, or to find out tomorrow's assignment in arithmetic.

And yet his father knew a day when it was still considered a miracle that two people, miles apart, could talk to one another just as if they were standing face to face. He can remember when the telephone was a curiosity, when the service was slow, expensive and almost entirely restricted to local use.

What changed the miracle to a commonplace? Why did telephones in Michigan, during a single generation, increase from 340,000 to 630,000? The chief factor behind this change was value. A constantly growing usefulness made the telephone a good "buy." Each year additional thousands of people found it worth more than it cost. Every new telephone installed broadened the range—and value—of the others. The service grew steadily more prompt, more dependable. New uses were found for it. Subscribers learned that it brought them profitable convenience, comfort, protection. And the telephone, meanwhile, changed from a curiosity to an indispensable part of the social and business life of Michigan.

The sincere desire of the Michigan Bell Telephone Company is that each year shall see greater telephone value rendered for every dollar of telephone cost.

MICHIGAN BELL TELEPHONE COMPANY

Reduced rates are now in effect to most places on both station-to-station and person-to-person calls every night after seven and any time Sunday.

Buy More Fresh Milk and save on Your Food Expense

Not only is Fresh Milk the best food for babies and growing children, it is the best food for adults. It contains needed minerals and vitamins in addition to easily digested fats. By the use of more fresh milk in the preparation of daily meals and serving it as a beverage, a distinct saving can be made in the family food budget. Watch for suggested ways of using more Milk in cooking, that your Milk Dealer will leave with your milk for the next few months.

Southwestern Michigan Milk Dealers' Association

This picture shows all that is left of a fine barn belonging to Martha Davis Reihing, section 20, Alalodon township, Ingham county, March 22, 1925 a cyclone did this damage amounting to \$1,512.00 which this company promptly paid.

Experienced Business Management Fair Dealing with Policyholders
Prompt and Equitable Adjustments Reasonable Cost for Protection

Every year for over 40 years Michigan has had Destructive Windstorms.

If Windstorm Destroys Can You Rebuild Without Help?

The Windstorm Insurance Money paid by this company to policyholders after a cyclone had wrecked their buildings, has enabled many to rebuild at once at no cost to themselves. Many could not otherwise have done so.

This Company Has Paid a Yearly Average of Almost \$209,000 in Windstorm Losses to its Policyholders Since 1917. \$261,000 Paid in 1935. What Will It Be in 1936? Will You Be One To Whom We Will Pay?

Michigan Mutual Windstorm Insurance Company

At State Music Meet
Mrs. H. B. Thompson returned Saturday from Lansing, where she was one of the delegates of the Niles Music Club in attendance at the Michigan Federation of Music clubs. A high light of the program was the appearance of Miss Gladys Swartout, young sensation of the Metropolitan Opera of New York City.

Plan Mothers Day
The Legion Auxiliary met at the hall Monday making plans for the Mother's meeting to be held there

next Monday evening. All mothers of ex-service men are invited to attend. The guest of honor will be Mrs. Nancy Lyon, Buchanan's only Gold Star Mother. Miss Irma Wright will be in charge of the arrangements. Plans will also be made for Poppy Day, which is May 23, with Mrs. Claude McGowan as chairman of arrangements.

F. Bilotti is Wedded in Chicago

Filbert Bilotti, Buchanan, was married Sunday to Miss Lucille Coda, daughter of Mr. and Mrs. Gregory Coda, Chicago, the ceremony taking place at 2 p. m. at All Saints Roman Catholic church at 25th and Low street. Vincent DeNardo was best man. The bride wore a long white satin dress and carried a corsage of white roses and sweet peas. A reception was given following the ceremony at the home of the bride's parents. They are at home at 314 Moccasin Ave. Mr. Bilotti came to Buchanan nine years ago from Italy and is employed at the Clark plant. Guests from Buchanan were Miss Jeanne Roti and Vincent DeNardo.

Thos. Kinyon Weds Julia Frances Hanley

Miss Julia Frances Hanley and Thomas Kinyon were united in marriage Wednesday morning, Apr. 16th, at the Catholic church in Three Oaks. Rev. Father John R. Day officiating. The couple was attended by John and Anna Hanley, brother and sister of the bride. Following the ceremony the bridal party, accompanied by Mr. and Mrs. LaRue Gillette, motored to Dewey Lake, where a wedding breakfast was served by the groom's sister, Mrs. Sara Wiest. Mr. and Mrs. Kinyon will make their home on South Hillview St., Buchanan, Mich.

Pure Copper Pink Color
Pure copper is not exactly copper colored, but rather a silvery pink. The coppery shade is the result of the partial obscuring of the darker colored copper oxide. But the colors shown by gold and some of its alloys, writes Dr. Thomas M. Beck, in the Chicago Tribune, are not due to any such oxide film, since gold is exceedingly reluctant to combine with oxygen. Rather they are due to the actual color of the metal.

Voltaire and Catherine
The Empress Catherine of Russia was a great admirer of Voltaire, the great French philosopher, and once sent him a small ivory box made by her own hand as token of her admiration. Voltaire, in return, had himself taught knitting and started on a pair of stockings for her. He only half finished before his patience gave out, but unfinished as they were, he sent them on to the empress, as token of work also done by his own hands.

April Bride

—By Courtesy S. B. News-Times
Mildred Bachman

Weds John Mattix
Miss Mildred Bachman, daughter of Mr. and Mrs. Charles F. Bachman, 117 Charles Court, was united in marriage to John Mattix, son of Mr. and Mrs. Fred Mattix, 1606 Oak street, Niles, the ceremony taking place at the local Presbyterian Manse at 3 p. m. Sunday with Rev. Brunelle reading the marriage ritual for the single ring ceremony. The bridal couple were attended by the bride's sister, Mrs. H. D. Swank and husband, Buchanan. The bride wore a dress of brown net taffeta, with a bouquet of gardenias. The bridesmaid wore a brown dress with yellow accessories and carried a bouquet of talisman roses.

The bride was graduated from Buchanan high school in 1932 and the bridegroom from Niles high school in 1933. He is employed at the Railway express office at Niles. They are at home at 218 South Fifth street, Niles.

MISS DOROTHY CHARLES.
—By Courtesy S. B. Tribune

Announce Engagement Of Dorothy Charles

The engagement of Miss Dorothy Elizabeth Charles to Hugh Franklin Pierce was announced Saturday at a luncheon in honor of the bride-to-be given by her mother, Mrs. A. W. Charles and her sister, Mrs. Milton Ludwig, at the home of Mrs. H. Brown, Moccasin Ave. As the eleven guests were seated at the table, the announcement was made in a unique manner by Valerie Beth Ludwig, tiny niece of Miss Charles, who appeared as Cupid bearing a scroll inscribed with the message that the wedding would take place in June. Table appointments were dominated by a color scheme of pink, yellow and lavender, with a bowl of daffodils as a centerpiece and favors of sweet pea corsages, miniature replications of those given the guests of honor. The guests were Mesdames Ira Wagner, Jr., of St. Joseph and Roy Pierce, and the Misses Helen Hanlid, Katherine Allen, Little Brown, Ruth Pierce, Jeanne Roti, Gale Pears of Elgin, Ill., Elizabeth Kiern of Detroit, Virginia Snowden of Chicago and Margaret Whitman of Hartford.
