Old Maroon Stars to Shine Again in Merchant-Oriole Game Sunday

Start Transfer Of Wheel Dept.

Will Mean Employment 40 to 60 More Men in Buchanan

The Clark Equipment company began operations this week transferring the wheel department of the Clark Equipment company from Battle Creek here, in order to make room there for the anticipated increase in production of the modern streamlined street car.

The first equipment arrived here Tuesday from Battle Creek and it is anticipated that the department will be housed in the axle building here by the middle of the present month.

Company officials stated that the prospect for increase in production of the new street cars are at present very promising.

For some time the Clark Equipment had considered the erection of another building to house the wheel department, but the erection of the warehouse near the River street plant has enabled them to make the necessary space in the axle building.

Bowlers Form Round Robin

To Organize Friday Night League This Week For Men

In another column of this paper is carried an advertisement of interest to the nine-pin (or is it ten-pin?) fans of the Buchanan community, announcing the organization of a Round Robin bowling event to begin next Wednesday evening and to be held on each following Wednesday during the season.

In this event the men present will choose their lady partners by lot for the evening. The charge per couple will be 25 cents, 15 cents for the men and 10 cents for the ladies. In addition each couple will throw in a dime for a prize fund which will go to the couple with the high score for the evening.

Two men's leagues are now playing on Tuesday and Thursday evenings, and entries of teams for a Friday night league are asked for Friday evening of this week.

High scores of the past week for the Tuesday night league were: individual high, Deeds 202, Burks, 201; individual high 3-games, Burks, 544; high team score for single game, Wilsons 932.

High scores for the Thursday night league were: individual 200 scores, Rouse 219, Deeds 201; high individual 3-game score, Deeds, 571; high three game team score, Odd Fellows, 2925.

Table with 3 columns: Team Name, W, L, Pct. Lists scores for various leagues and teams.

Push Buchanan Faculty Play

Students Sell Tickets to Benefit Play to Be Staged November 20

Several of the school students have been selling tickets to "The Youngest," the play that is being given by the Buchanan Faculty Club. Since the faculty are working to bring to the public a worthwhile production, we want to give everyone in Buchanan an opportunity to purchase a ticket for this play, which is one of the outstanding events on Buchanan's school calendar.

Those who attended the last year's play will recall the work of Kermit Washburn playing the part of Andy, the kid brother. Mr. Washburn this year will take the part of Richard, the youngest son of the Winslow family. His part is that of the proverbial worm in all family concerns, being set upon from all sides of the family, and then "Ma" of last year's play—surely everyone will remember Miss Eunice Miller in that role. Again Miss Miller will play the part of mother in "The Youngest."

Auxiliary Names Committees for Year

The Legion Auxiliary met Monday evening, the main item of business being the naming of committees by the president, Miss Erma Wright, as follows: Americanization, Mrs. Lloyd Shire; welfare and membership, Mrs. W. Wm. Morgenthau Was Pro- tege of Henry Morganthau Sr., at Univ. Michigan

Those who have noted that this community has a resident with the same family name as Henry Morgenthau, Jr., secretary of the treasury in the cabinet of President Roosevelt will be interested to know that he is a first cousin of the cabinet member and that as a college student he was a protege of his still more famous uncle, Henry Morgenthau, Sr., one time ambassador to Turkey and known in Greece as "The Father of the Greek Republic."

third stories especially were the centers of social life in days when social life in the town was much more vital than today, because the entire community depended on local resources for entertainment.

The sale by Atty. A. A. Worthington to Atty. Bill R. Desenberg of the three-story structure on Front street which houses the B. R. Desenberg & Bro. clothing store once more recalls that there is much ado in Buchanan's skyscrapers—the three-decker brick buildings erected in the sixties.

Last Home H. S. Game Here Sat.

Maroons to Meet Dowagiac Here Saturday Afternoon

Buchanan's football squad will play their last home game of the season next Saturday against the Dowagiac Indians. The game will start promptly at 2:30 P. M.

Buchanan will line up for the tilt with the same lineup that has been starting the past contests. Coach Miller states that he will make no comments about the ensuing battle but maintains that his squad will come out on top.

The Desenberg building and the eastern half of the same structure, now owned by Mrs. L. B. Haskett, were erected by Capt. Benjamin Binns, an uncle of Harry Binns, and leader of Company C, 12th Michigan Infantry, which included a large number of the men who went from Buchanan to the war.

Seedling Apple Tree on John Walker Farm Dates From Days of Indians

It is known that there were a number of apple trees at Fort St. Joseph south of the present location of Niles. There is a record that Louis Chevalier, King's man at Fort St. Joseph during the rule of the French, planted an orchard. Several old trees yet remained some seventy years after the French were disposed, and were found when the first settlers came to Niles shortly before 1830.

It is also a matter of record that Isaac McCoy planted both apples and peaches at the Carey Mission. Burnett, a trader back in the old days of French and the subsequent English rule, had an orchard at his post on the St. Joseph river just above the present site of St. Joseph.

It is known that the French Catholic missionaries among the Indians introduced apple trees and that by both intention and accident these seedlings were scattered by the Indians through the forest.

There is a story which had as its basis no more than legend that Johnny Applesed, the traditional folk character who is said to have planted fruit through the middle-west from 1800 to 1810, paid this section a visit. In the published lives of Johnny Applesed, whose (Continued on page 5)

### Atwood Asks Safe Driving to Games

A novel note of caution to drivers of cars bound to and from football games, is sounded by Orville B. Atwood, Secretary of State and Chairman of the Michigan State Safety Council. Statistics on mass movement of automobiles, and their relation to safety on streets and highways, reveal normal expectations of deaths and injuries from careless driving in heavy football traffic.

### REOPENING Our Christmas Savings Club

Because of public demand we have decided to reopen our Christmas Savings Club for next year. There is no better way to prepare for Christmas spending than to save in advance for 50 weeks as a Christmas Club member. Many people who did not realize this before, realize it now. Christmas is a time to be glad, not sad—and it is sad not to have money for gifts to friends, and especially to little children who believe in the reality of Santa Claus. Your December income cannot carry the whole burden; it must be distributed over the 12 months. You will never miss the small weekly payments—and when you receive your Christmas check a week or two before the 25th, you will know the real joy of giving, and you can buy the best of everything before the last minute rush starts. Join our 1937 Christmas Savings Club now forming.

Breeders to Stage  
Largest Stock Show

At the 37th International Live Stock Exposition, November 28 to December 5, leading stockmen and farmers of North America will join those of distant lands in staging the largest exhibition of pure-bred herds, prime market animals, and farm crops ever seen in the United States.

The exposition will be held at the Chicago Stock Yards in the new amphitheater and pens completed less than two years ago as a permanent home for the show.

Numerous High Lights  
Its main arena, surrounded by 7,500 seats, will be the setting for such headline events in agricultural affairs as the selection of the International grand champion steer; the naming of the winners in the various breeds of beef cattle, and draft horses that represent the source of improvement for the major part of America's beef supply and its farm power.

The Junior Live Stock Feeding Contest, in which hundreds of farm boys and girls exhibit their prize winning stock from county and state fair competitions; the Junior Live Stock Judging Contest, participated in by farm youngsters from many states; the Collegiate Live Stock Judging Contest, in which students from a score of agricultural colleges take part.

And as a daily climax, the famous International Horse Shows. In these events the continent's best saddle and harness horses, riding and driving ponies, and hunters and jumpers will be seen in contest for the top ribbons.

Exhibits From Australia  
Visitors will see a perfection of products from American farms matched in competition with the exhibits of prominent Canadian farmers, and for the crops show, samples of wheat are being sent from Australia.

Winners from the national horse shows of France, Belgium, and Scotland will be shown against the best American bred specimens in the classes for Percherons, Belgians, and Clydesdales. It is re-

ported that the entries for these breeds, in addition to Shires and Suffolks, assure the largest draft horses exhibition in the history of the International show.

Recognizing the extensive national interest in this premier event on the agricultural calendar, all railroads entering Chicago have announced that they will grant reduced round-trip fares throughout the week that the exposition is in progress.

Stream Piracy  
In the history of many river systems, one stream, either because of its greater supply of water or by reason of the greater ease of down-cutting in its course, has worked headward a distance of the headwaters of a neighboring river system. For example, the headwaters of Beaver creek in Virginia were stolen by the Shenandoah river.

The Early Coast Guard  
When the Coast guard was founded in 1790 there were 10 small boats manned by 10 men each.

Dry Referendum  
Coming in Spring

A party comprising Mrs. M. L. Mills and daughter, Miss Mae Mills, Mrs. Harry Hartline and Mrs. W. F. Runner, motored to Muskegon last week to attend the state W. C. T. U. convention.

Chief item of business was consideration of the proposed referendum sponsored by the Anti-Saloon League to be held if possible at the state spring election in 1937, which will deal with the following points: 1. No license to villages of 1,000 or less; 2. Increase of required distance of taverns from churches and schools from 200 ft. to 400 ft.; 3. Increase of age limit for liquor sales from 18 to 21; 4. No licenses for dance halls; 5. Closing time 11 p. m. instead of 2 p. m.; 6. No girls as barmaids; 7. Local option for places which desire it.

AT THE THEATRE

Today's most talked-about love story brings Warner Baxter and Myrna Loy back into each others arms in "To Mary—With Love," Twentieth Century-Fox picture at the Hollywood theatre Sunday, Monday and Tuesday.

Brilliantly, the sweethearts of "Penthouse" and "Broadway Bill" bring to the screen the great modern story of two lovers who find in tears and heartbreak, the true depth of their emotion and affection.

Directed by John Cromwell from Richard Sherman's best selling novel of the same title, "To Mary—With Love" also features Ian Hunter, Clare Trevor and Jean Dixon.

Ricardo Cortez, again the smooth villain who uses both a gun and a line with equal facility, laughs at rewards and the law until a small town girl and her reporter boy friend teach him a couple of things in "Man Hunt," the Warner Bros. hit coming on Friday and Saturday.

The beautiful and famous Santa Anita race track, scene of many of the turf's most important spectacles, was used for the racing scenes of "Charlie Chan at the Race Track," Twentieth Century-Fox picture Friday and Saturday.

Featuring Warner Oland in the role of Earl Derr Biggers' famous sleuth, the cast of the production also includes Keye Luke, Helen Wood, Thomas Beck, Alan Dinehart and Gavin Muir.

"Straight from the Shoulder," Paramount's dramatic smash which opens next Wednesday at the Hollywood, with Ralph Bellamy, Katherine Locke, Onslow Stevens, David Holt and Andy Clyde in featured parts, brings to the screen one of fiction's favorite characters, Lucian Cary's "J. M. Payne," beloved old philosophical gunsmith of the Saturday

State Road Income  
Hits Record Mark

Yearly returns to the counties from state highway revenues today passed the \$22,000,000 mark for the first time in the history of the state.

The record amount was made known as Murray D. VanWagoner, state highway commissioner, turned over vouchers totaling \$3,246,365 to Aud. Gen. John J. O'Hara as the third-quarter payments to the counties from weight tax receipts.

The two officials revealed that total returns for 1936 will exceed \$24,000,000 when the final quarter of the weight tax payments are due together with the final payment from gasoline tax revenues. The later will amount to \$1,275,000.

Current payments to the coun-

ties from the third quarter weight tax receipts are 10 per cent above the amount turned over last year for the same period. At that time the third quarter returns were only \$3,949,244.

The exact amount of money vouchered to the counties to date from state highway revenues is \$22,830,662, Van Wagoner said. This total embraces \$17,555,662 in weight tax returns, \$4,000,000 under the McNitt law abolishing the township road system, and \$1,275,000 as the first half of the gasoline tax payment.

Commissioner VanWagoner estimated that total highway revenues this year will exceed \$38,000,000. Approximately three-fifths of the total revenue is returned to the counties including the entire weight tax collections and \$6,550,000 from gasoline tax receipts.

Concerning November Third

ON NOVEMBER THIRD the people of America and of Michigan will write history when they mark their ballots throughout the land. They have been doing this for many years, but seldom in history have Americans faced a more important issue at the polls than they will this November.

Since the New Deal moved its over-paid and under-brained Brain Trust into Washington, accompanied by 400,000 New Deal bureaucrats and yes-men, Americans have accustomed themselves to a frantic expenditure of federal funds. They have become hardened to the fact that Washington will spend millions of dollars for fish ponds, ping pong tournaments and classes in beauty culture.

And so long has the program persisted that many of us have come to believe that the Treasury Department possesses an inexhaustible supply of funds, which may be pumped out recklessly for any and every purpose, without a thought as to where a new supply of money is to come from. But, like the little boy who started taking small change out of mama's sugar bowl, the day of reckoning must eventually come and when the sugar bowl is empty Tommy must take his spanking like a man.

And the man and woman of today will take their spankings, when the Washington sugar bowl is emptied, in the form of a taxation program that will transcend anything ever experienced in this country.

BUT PERHAPS we've dealt too much with taxes in this department. More important, undoubtedly, are the facts to be faced which will limit American freedom and initiative. Today, with eleven million people out of work, and many of them on WPA and other federal projects, it may safely be said that a great percentage of those eleven million votes may be counted before they ever reach the ballot box. For the people who control those votes are "told" what to do and how to vote, much as is the Negro of the south today.

Another fact which is repellent to free Americans is that clause of the so-called Social Security Act which provides that 26,000,000 American workers are to be finger printed and issued cards bearing "their number," not unlike the work cards of Soviet Russia. The New Deal is determined to regiment America, so that the New Deal thumb may be brought to bear with the needed amount of pressure to "keep the American people in line and to insure the perpetuation of the New Deal." Four more New Deal years and America will no longer be peopled with independent, free-thinking citizens. You will be No. BZ-476,691. I will be No. VC-572,341 and so on. We will have wiped the finger-printer's ink off our

fingers, and every once-in-awhile a supercilious so-and-so will walk up and say "Come, my man, let's see your card!"

AND THE FARMER . . . they'll keep right on telling him how much to plant, what to plant, how much he shall sell it for, and perhaps whether he shall bed down his cows and horses with straw or silage . . . but you can bet your bottom dollar that as soon as they have him in hand they'll see how foolish it is to pay the poor dub for killing pigs or plowing under cotton.

SMALL BUSINESS will get its second big kick in the pants (not to mention the dozen or more little ones) when the power of the Supreme Court is circumvented and another NRA flourishes again. The old Blue Eagle will once again spread its wings, and the independent-grocer, garage man, druggist and their fellow businessmen will know what color blue is then, and it won't be because they've studied the sky and thrilled to the thoughts of American freedom.

AS FAR AS STATE politics go Michigan will go Republican, but the voter who is concerned with national progress, as well as state progress, will do his utmost to help improve the national picture with a straight Republican ticket. Fitzgerald and Brucker have Michigan pretty much in the bag. They polled tremendous pluralities at the last election and they have been good and faithful public servants ever since they took office. Michigan will go to bat for them, and for their cohorts on the Republican state ticket; Orville Atwood, Luren Dickinson, David Crowley, Howard Warner, John O'Hara and Harry S. Toy.

While Murphy will probably do fairly well in Wayne county he is a dead issue in practically every other part of the state. People who are "in the know" will avoid him like poison, simply because they dread the thought of "Tammany" in Michigan. Frank is a good boy, and likeable, but the set of his sails isn't right for the Governor's office, to my notion, and I hate to think that a free-born state would ever sacrifice her State's Rights and accept Washington domination . . . and that's what would occur if Frank moved to Lansing. He is one of Roosevelt's fair-haired boys . . . just a chessman that F.D.R. moves about at will.

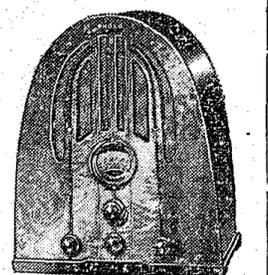

MANY VOTES will go to the Democrats on November third . . . from thousands of intimidated souls on New Deal payrolls . . . but the thinking men and women of America are going to vote too—and I hope their votes make history, promising history, for it's time to write another page.

**Chevy Breakfasts Celebrate Models**

Chevrolet dealer employees throughout the United States will celebrate the public announcement of Chevrolet's new 1937 models with several thousand Chevrolet Breakfasts, held simultaneously from coast to coast on the morning of Nov. 7, when the new cars make their formal bow. W. E. Holler, vice president and general sales manager of Chevrolet, announced the breakfast program this week, explaining that it celebrated this year's all-time sales record and the outlook for new records in 1937.

More than 50,000 employees will sit down to the breakfast, Mr. Holler said. Immediately following the event, show rooms will be thrown open for the first public inspection of the new models, which are being kept a closely-guarded secret up to the announcement date.

In spite of the fact that the new cars have not yet been shown, thousands of the new Chevrolets have been ordered for immediate delivery," said Mr. Holler. "It is doubtful if any industrial organization ever received a more eloquent endorsement than that which thousands of men and women have given Chevrolet this year, by placing their orders for the new models before they were introduced—in fact, before anything at all was known of them except that they were Chevrolets."

"The engineering department and the manufacturing department have given the public an outstanding product, and it is gratifying to know that their efforts are fully appreciated—that Chevrolet cars and trucks and the institution behind them, enjoy such a reputation that America will unhesitatingly purchase thousands of these products before anyone outside the factory knows definitely what they will be like."

**Bruce Meffert Tells of Days When They Built Log Rafts at Bear Cave**

**Robert Burgoyne, Ship Builder, Picked Trees to be Rafted To St. Joseph**

Among those who took part in the old lumbering and bit boating days north of Buchanan was Bruce Meffert, now 80 years old, who worked in the lumber camps here as a youth and later for twenty years ran a logging crew in the north woods, in Manistee and Benzie counties.

There are not many living besides Meffert that remember the lumber raftering days on the St. Joseph River. Meffert was, in fact a lumberman rather than a river man. He banked the logs on the river bank at what is now known as Bear Cave park and he helped make up the rafts of logs in the spring. They laid the logs side by side, the width of raft being from 12 to 20 feet or the length of the logs.

The rafts were floated down to the mouth of the river by professional river men, among whom were Jonas and James Price. Usually two men rode the raft, one at the front and the other at the rear, each armed with a pole 15 to 20 feet long to push the raft off the bank or away from snags, and to "pole" it across the shallows and riffles. Usually the trip could be made in a day and night.

Among the men who picked the lumber was Robert Burgoyne, grandfather of Clyde Burgoyne of the St. Joe Valley Creamery. Robert Burgoyne was a shipbuilder by profession. He came from England, where his people had all been army or navy men and a relative had been the British general who was defeated at Saratoga. He served in the British navy, rising to the rank of lieutenant before his discharge, when he came to America. Settling in Michigan he followed the trade of ship builder at St. Joseph. Part of his work was to scout through the timber, selecting fit trees, oak for the hull, hickory for the ribs, white-oak for the cabin and trim of the ships.

Meffert cut one whitewood tree west of the Miller school reputed to be largest ever cut in the Buchanan district. Five feet through at the butt, the log cut from it was 75 feet long. It was sawed into five sections. The butt section cut 1887 board feet and the top section 826 board feet.

In building the raft, Meffert said, it was necessary to put in enough logs which would float, such as whitewood, basswood or oak. Maple and beech would not float. Consequently a maple log would be sandwiched between two logs of lower specific gravity to buoy them along.

Americans, then known as the Highlanders, played baseball. Morgenthau was also for years the chairman of the finance committee of the national Democratic party organization.

He first came into international notice as ambassador to Turkey under Wilson. Following the war he was head of an international committee placed in charge of the rehabilitation of Greece. So successful was the work of this committee that Morgenthau became known as "The Father of the Greek Republic." The story of his work in Greece is told in his book "They Sent Me To Athens," written in collaboration with Con Struthers, a magazine writer.

The elder Morgenthau is still living, and William Morgenthau of Buchanan has met him a number of times since his graduation from the University of Michigan in 1915.

**Johnny Applesseed**

(Continued from Page 1)  
real name was said to have been Johnathan Chapman, he is alleged to have made one trip down the St. Joseph river to the mouth, passing through this section, and talking at the old French chapel which once existed at Pokagon's village on Pokagon creek, in Bertrand township.

Some historians who incline to be critical of all tradition have branded the Johnny Applesseed story as an entire myth. It is said that there is a record of a purchase of land made by him in Ashland County, Ohio. Even if there is a basis in fact for his existence, it is more than likely that the truth has been well overlaid with fictional exaggeration.

Certainly the rosy story by one

biographer telling how Chief Pokagon went to meet Johnny Applesseed in his legendary wagon with wheels of huge oak tree slabs, is pretty much a tissue of myth.

But there is a vast body of legend relating how Jonathan Chapman traversed Ohio and Indiana, with occasional dips into Michigan at Detroit and on the St. Joseph River, in his self-appointed mission of planting apple trees to prepare the way of the settler. In addition to, being an advance fruit tree agent, he was something of a missionary. It is related that when he stopped in the cabins of the settlers he would lie down in front of the fire place after supper and deal to them "news fresh from heaven" from the Bible which he always carried. He was always treated with courtesy and hospitality, both by whites and by

the Indians, who left him unmolested even on their war raids, in accordance with their belief that the insane or mentally unbalanced were favorites of the Great Spirit. It is claimed in the accounts of his life that he was born in Boston, Mass., about 1775, and that he was first seen in the west planting apple seeds along the Licking river in Ohio. He carried his cargo then on a horse, in a leathern bag, the only container strong enough to resist tearing in his trips through the pathless forest. Five years later it is related that he was seen drifting down the Ohio river with two canoes bound together, both laden with apple seeds. It is said that on this trip he turned up the Muskingum river to its headwaters in Ashland county, Ohio, and there or in that vicinity planted his seed. It is alleged that he at first took

some repayment for his plantings and with the money thus earned bought a piece of land. Later he took cast-off clothing and shoes in payment; subsequently it is related that he refused even this payment, and went clad only in a coffee sack, in which he had cut holes for head and arms.

It is said that he went regularly to Pennsylvania and got his cargoes of apple seed from the cider presses of the farmers there, carrying them down the Ohio and in later years peddling them from a leathern bag carried on his back. The settlers were always glad to welcome him. He slept at nights on the floor in front of the cabin fireplace. There one morning in 1840, in the cabin of a settler in Allen county, Ind., he was found in a dying condition but with his face alit as though he was witnessing one of the Swedenborgian

visions which he professed to see all of his life. It cannot be said with certainty that there was a Johnny Applesseed, but it is a pleasant legend and there is no law prohibiting belief in it. So believe in it if you wish and if you can, why not believe also that the tree on the rear line of Johnny Walker's farm was one planted by that other Johnny, surnamed Applesseed, alias Chapman?

**Maroons Lose to South Haven 13-0**

By Chuck Wesner  
Buchanan's hard luck ridden Bucks lost another hard fought battle to the South Haven high eleven on the Havenites gridiron

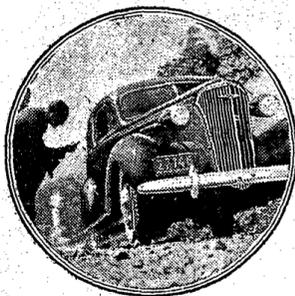

last Saturday afternoon by a tally of 13 to 0. As they have done many times before the Maroons outgained their opponents in first down 7 to 5 but again they were defeated. During the first half South Haven opened up and the Bucks were forced to put their backs to the wall on various occasions. The first half was played in Buchanan territory.

At the outset of the second half Coach Miller started making substitutes, near the end of the third quarter Buchanan got the ball on their own 10 yard stripe. Smith, Buck quarterback reeled off several long gains one of 26 yards. The Bucks piled up 5 of their first downs in the drive which netted them 85 yards. Smith took the ball on the five yard stripe and tried to score but three Havens hit him on the one foot line and he fumbled the ball.

## Editorial

Marion Miller  
 Do we not all too often judge men and women by their family or social connections, and by material possessions rather than by what they have accomplished personally, or what they represent individually? Some people enjoy the honor and respect of their community merely because of something their ancestors have accomplished, without their having lifted a finger to merit this consideration. On the other hand, a person of lowly origin is handicapped by the refusal of a community to forget his parentage. Surely it is something to be good and honorable, no matter from what rank you spring. That man who can rise above an unfavorable early environment should command the respect and praise of every fair-minded individual. No man is responsible for his forefathers. How much of the joy of living those people lose who show good will only toward those of their own social set.

## JUST BETWEEN YOU AND ME

Phyllis De Nardo is stuck on some certain senior.  
 Rutho Babcock's biggest moment lives in Galien.  
 Jack Polley is quite the chick.  
 Edward Smith ranks high over all the senior boys in his class.  
 Donald Harroff is quite the he-man around school.  
 Albert Heckathorne knows his history.  
 Warren Borst is not as bashful as he appears to be.  
 Robert Parker is the new blonde seen about school.  
 Billy Poorman is vitally interested in a certain freshman girl who sits in front of him sixth hour.  
 Catherine Wynn is just the girl for some certain boy.  
 Robert Fairman and Tom Fitch have ended their race over a certain freshman girl.  
 Ruth Beardsley likes to sing the sixth hour speech class to sleep.

## A BIOGRAPHY OF LIZZY

A biography of our "Lovellorn Lizzy" is as follows. "It" is about twenty years old (we will call Lizzy "it") so as not to reveal its identity.  
 "Its" age is given as twenty, but in reality Lizzy is at least fifty years old if it weren't, how could it be such a "savante" of love affairs? "It" has been married five times, widowed three times by suicides and the other two guys shot themselves.  
 Lizzy has fitted in a neighborhood of 150 suitors (not in our neighborhood, we hope). This makes us believe that Lizzy is well qualified to write advice to the Lovellorn. If you have any problems, send them in to Lizzy in care of the Journalism class.  
**DOPE ON B. H. S. ATHLETES**  
 Earl Stevens, a junior, six feet high, weighs around 170 lbs. has black hair and dark complexion, with a "woman slaying" profile.  
 Earl has earned one football major and this is his second year on the first squad. Last year he started the season as fullback and was shifted to left tackle where he played a whole season. This year with the return of tackle material he is again at fullback for the Bucks, picking up yards and yards.  
 In basketball he has been on the varsity one year, and has received one letter. He played regular guard for Buchanan and really smashed 'em up. We're waitin' for the coming season when Earl will probably be a cog in the Buck's new class "B" squad.

## THIS'LL DO

Cutting across lawns.  
 Whistling in the corridors.  
 Being late to school.  
 Writing notes.  
 Chewing gum.

## D'WEY AVENUE NEWS

Kindergarten  
 Carol Covert's name has been added to our dental honor roll.  
 First Grade  
 Skyler Hinman is out of school on account of whooping cough.  
 People who have had a perfect attendance for the months of September and October are: Donald Clemens, Helena Davidson, Clifford Good, Franklin Green, Donald Bryant, Herbert Achenrider, Ruth Ross, Duane Weaver, and Ruth Young.  
 Second Grade  
 We are studying animals in our mature study work. Last week we made cat posters.  
 Third Grade  
 Jacqueline Henson has returned from a two week's trip to Arizona. She brought us two plants from the desert.  
 Fourth Grade  
 Boverly Jean McClain from South Bend, Indiana, entered our grade this week.  
 Lovery Mills has had his name added to the Dental Honor Roll.  
 Opportunity Room  
 The following have had a perfect attendance so far this year: David Coultas, Raymond Ferris, Junior Gregory, LeRoy Mikesell.  
 The assembly, Friday, October 30, held sixth hour, was in charge of Mr. Ray Miller. Mr. George McLeane from the Omateo Supply Company was the principal speaker. Joe Bachman and Bob Squires gave an outline of the courses in Mechanical drawing and general shop.

## School Slants

It seems good to see the bulletin boards bare again after all the party advertising which has been draped around them for the past two weeks.  
 Our last home game is this Saturday, and our opponent is Dowagiac. Enough said!  
 I wonder why we didn't have a straw vote on the national election? A few fights would liven this school up a bit.  
 Did you know that the senior class president is becoming quite a dancer?  
 The faculty play shows promises of being as good as it was last year. The date is November 20.  
 The new silver pins for the Girls' Home Makers Club are really quite neat.  
 Must be tough on the football fellows to stay home on Friday nights. Our last three games were scheduled for Saturday.  
 Have you noticed our new teacher's substitute, Miss Reynolds?  
 At last the famous bibliographies have been completed. Seniors, what next?

## HIGH SCHOOL NEWS

Algebra classes are studying positive and negative numbers and their representation by means of a graph.  
 Advanced algebra classes are learning how to find the square root of numbers, and how to simplify quadratic surmes.  
 Geometry classes are studying angles which are formed by corresponding sides being parallel.  
 The sizes of angles formed in triangles are being studied in mathematics.  
 The physics class is dealing with the graphic solution of problems involving forces.  
 The eighth grade history class is studying problems arising in the United States as a result of the French and English war in the early nineteenth century.  
 Seventh grade geography classes are studying the fundamental reasons for the greatness of the United States.  
 The Department of State and how it is organized is being studied by the eleventh grade government classes.

## WHAT WOULD HAPPEN IF--

Everyone was wide awake on Monday morning?  
 Seventh graders stopped running in the halls?  
 Margaret Huse didn't get A's on her report card?  
 Everybody studied their lessons?  
 Donald "Tubby" Harroff decided to grow?  
 Clyde Shaffer studied his French lesson?  
 The school's three gigglers, Max-

ine Shaffer, Virginia Lolmaugh and Natalie Proud, were serious? Teachers forgot to put anyone on the failure list?  
 Everybody in typing class received an A?

## "TEACHER SEZ"

The more we work with individuals or classes, the more convinced we are that the ability to read is now vitally essential for every one. Man once lived a very simple life and could obtain from the lips of others or his own observation, everything essential to his primitive life.

But as time went on, life became more complex, until now man is controlled to a large degree by the printed word. The farmer must read his farm bulletins, his farm papers. The university of print aids him in solving his educational problems. The business man, too, is indebted to the printed page all day, starting with his morning news paper. The woman of today reads her cook book as well as her fiction and non-fiction books, magazines, and daily paper. Everyone is enrolled in this school--this university of print.  
 Bacon, long ago, well said that reading maketh a full man. If this is true in adult life, it is just as true with the pupil in school. Beginning with the first grade, children start the interesting work of reading, and just as soon as they have learned the first principles, they begin using their reading ability as a tool in acquiring information in other subjects. From that time on, pupils are reading both for pleasure and profit. The pupil who reads much certainly enriches and enlarges his experience.

The school, today, offers a wide variety in reading material; history, science, and fiction. How many of the pupils from the early elementary grades on through even the high school are earnestly availing themselves of the wonderful fund of pleasurable and profitable material found in the books in the various rooms? Surely, the more we read, the more we enjoy it, and the richer is our experience.

**GIRL ATHLETES**  
 Girls of high schools do not have the advantages boys do to get out and show that they can do, but just the same there are quite a few girls who deserve being mentioned for their athletic ability.  
 Margaret Huse, a senior, entered the athletic work in her freshman year, and she competes in all sports. Margaret is especially fond of basket-ball, and has made the team each year playing forward. Margaret is five feet one inch tall and weighs 112 pounds. She is a light brunette and has blue eyes.  
 Rose Zachman, a senior, entered athletic work in her freshmen year. Rose is very fond of tennis, just go to the tennis court at the Buchanan Athletic park any time you wish to find her in the summer. She has entered in practically every sport available in high school. Rose also plays forward on first team in basketball. Ross has blond hair and brown eyes. She is five feet three inches tall and weighs one hundred pounds.

**DOPE ON B. H. S. ATHLETES**  
 Kenneth "Streaky" Luke, a senior, five feet, eight inches, weighs 150 pounds, has curly red hair, and is considered a "fast" man.  
 Kenneth has been on the varsity basketball squad two years and has received two letters in that sport. Last season he was the only Buck who had played first string ball. He will undoubtedly be a mainstay for the Bucks this year. Last year Luke held the individual scoring honors, dropping as high as nineteen points through the net in a single game.  
 During the last two years in track he has run the 100 and 220 yard dashes, and the relay. He also has received two letters in this sport. He got a medal in the relay at state in the last two seasons.  
 Dividing his time in the spring he pitched five games for Buchanan's baseball squad and won three of them, incidentally, they were the only three that Buchanan won. He was the only man on the squad to receive a track and baseball letter.

**WHO'S WHO**  
 A gallant young junior born in Jonesville, Virginia, whose age is eighteen, likes dating girls as a hobby. He tells us he likes fried chicken as a main dish, football as a sport and mechanical drawing as his chief subject. Can you guess his name? No? Ha! Ben Harvel.

**WE WONDER**  
 By Keith Dalrymple  
 If Mr. Stark and Mr. Moore really spend their free hours climbing up and down the new fire chute?  
 If Robert "Hosty" Irwin has a new trick to perform at the football game while riding in Pierce's model "T" ford?  
 If Robert Fairman has improved his water carrying ability, seven yards down is his average.  
 If the chemistry class will make any perfume this year, using the rotten egg formula?  
 Where our teachers get their good jokes this year?

Sports are his hobby. He likes to eat better than anything else. No wonder he has so much energy, he eats Wheaties.

Arthur Trapp, senior, was born in Chicago. He is nineteen years old. He likes to draw pictures. Football is his favorite sport. When asked what food he likes best he answered, "dates with peaches."

## JUST THINKING--BUT I'VE GOT TO GET A STORY

Many students editors have had these thoughts running through their minds, and more than once, too: What's news? Anything? Let's see, Aw nuts! nothing exciting. Why doesn't some one turn in a false fire alarm, or set off a package of fire crackers? Why, if somebody would even push a teacher down the fire chute, we could concoct some sorta of story. Teacher's mad; no story. If only the home economics class would bring her a hot pot of coffee, then we could quiet her down. Gee, look at those seniors parade around in new suits, not a mislaid hair on their heads. Can you imagine Miss Miller warming up old "Liz" every morning for a grand two block drive? We bet she likes that extra five minutes snooze. Gee, those girls with hair ribbons--well, just wait till the boys get their bow ties.

## TRUE CONFESSIONS

Twelfth grade English class turned into a true confession session Tuesday. There were certain questions to be answered by using

a source book in the library. Mrs. Dunbar asked a certain young gentleman where he received his information. He admitted that he received it from the young man just mentioned admitted that he received his information from a young lady sitting in the next row. What very effective mental telepathy! Ha! Ha!

**I'm the Doctor**  
 I Prescribe Adequate Light  
 Measured by this Precise Little Instrument

**I AM a light specialist. As the Lighting Service Man for this Company I go into business concerns and industrial plants to prescribe proper lighting. It is my function to measure the light as it is when I make my visit, with the little measuring device called a "Light Meter," and then to suggest what the illumination for a given job SHOULD be.**

Our job is to show a customer how he can get the maximum benefits from his existing lighting equipment. By merely cleaning the lighting fixtures the illumination is improved and therefore displays merchandise to better advantage.  
 The astonishing fact developed by our visits to business establishments is that the star salesman, "light" has only been working in many places at from one half to three quarters of its maximum efficiency.

This is the seventh of a series of advertisements presenting the people behind your electric switch.

Cleaning of lighting fixtures and lamps will increase your illumination 10% to 15%, depending upon the amount of dirt in the air.  
 Eighty-seven per cent of our mental impressions are through the eyes, therefore good lighting is essential.  
 It is estimated that 50% of the customers who visit your store have subnormal or defective vision. This should be considered in planning your lighting system.

The next meeting will be the annual Thanksgiving dinner of the club at the home of Mrs. W. F. Runner, Nov. 16.

**Observe Golden Wedding Anniversary**  
Mr. and Mrs. John Houswerth were married Nov. 3, 1886 in the Evangelical parsonage in Dearborn, Mich., by Rev. Jacob Young, uncle of Mr. Houswerth.

Mrs. Houswerth was the daughter of Rev. and Mrs. G. A. Hettler and resided at that time at 111 E. Wesley St., Jackson, Mich. Mr. Houswerth was the son of Mr. and Mrs. Henry Houswerth and resided on Portage Prairie.

They began housekeeping in the brick house on his father's farm, where Mr. Silkman now lives. After five years they purchased a farm north of Jackson, where they lived nine years. They then sold that and moved back to Buchanan where they purchased a farm north just across the river. While living here he began working for the I. & M. Electric Co., and then moved into town on Detroit St. in the house where Mrs. Miller now lives. Then again he sold his property here and purchased a farm north of Jackson, from Rev. G. A. Hettler and moved there until his health became such that he must give up hard work. He then moved into Rives Junction and after regaining his health, purchased a hardware store where he engaged in that business until in 1932 when he sold out. In 1934, being active and not liking idleness he bought another farm eight miles from Jackson where he now resides and which is being farmed by his son.

Sunday, Nov. 1, their children, entertained for them at the home of their son, at a chicken dinner.

Forty-four sat down to dinner. The house was decorated for the occasion with golden bells and yellow chrysanthemums. The grand-children acted as waiters and waitresses.

During the day a mock wedding was staged by Mr. and Mrs. Arthur Eisele and the Carson Cauffman family. Then Mr. and Mrs. Houswerth pledged their vows. Rev. A. J. Hettler of Blissfield, Mich., brother of Mrs. Houswerth, performed this ceremony. Mr. and Mrs. Chester Houswerth, whose thirteenth anniversary occurs on the same date, and Mr. and Mrs. Charles Davis whose third anniversary occurs one week later were their attendants. Mrs. Davis is a granddaughter.

Those present were Mr. and Mrs. Albert Beebe, Mr. and Mrs. Arthur Beebe, of Niles; Mr. and Mrs. Jacob Cauffman, Mr. and Mrs. Carson Cauffman and children of South Bend; Mr. and Mrs. Albert Houswerth, Mr. and Mrs. Carson Houswerth and children, Mr. and Mrs. Oscar Swartz and daughter, Mr. and Mrs. Arthur Eisele, Mr. and Mrs. Arthur Mead and daughter, Ruth, Mr. and Mrs. Charles Davis and son, of Buchanan; Mr. and Mrs. Frank Miller and son of Akron, Ind.; Rev. A. J. Hettler and Mrs. Roland Kring of Blissfield; Mr. and Mrs. Ben Helmer and sons and Mr. and Mrs. Chester Houswerth and son, of Jackson.

Mr. and Mrs. John Houswerth have three children, Mrs. Arthur Mead of Buchanan, Mrs. Ben Helmer and Chester Houswerth of Jackson, five grand children and one great grand son.

Mr. and Mrs. Houswerth received a number of nice gifts.

**Boy Chorus at Bertrand Church**  
The "White Shirt Brigade" from Chicago will give a program, consisting of favorite gospel songs in the Bertrand Community church of Bertrand, Michigan, Saturday, Nov. 7. The program will begin at 7:30 Central Daylight Saving time. This group consists of eight boys that possess unusually fine, talented voices. The group has been entertaining large audiences in Chicago and surrounding districts for several years. They have appeared a number of times over various Chicago radio stations and have established themselves as favorites wherever they have been heard. Mr. Lance B. Latham, their director, has a reputation of being one of Chicago's best gospel pianists. He was formerly the pianist in The Chicago Gospel Tabernacle while Paul Rad-

er was pastor. He is now doing a fine work as a leader amongst boys and is a director of a boys' camp, located at Lake Harbor, Mich.

The meeting is being sponsored by the boys Sunday School classes of the Bertrand church of which J. W. Hyink is pastor. The people in and around Buchanan are cordially invited to attend. No admission will be charged. A free-will offering will be taken which will go toward the support of the boys' camp at Lake Harbor.

**Presidents Ministers' Sons**  
Chester A. Arthur was a son of an Episcopalian minister; Grover Cleveland and Woodrow Wilson, were sons of Presbyterian ministers.
