Dr. James M. Miller Dies Instantly in Auto Crash, Tuesday

Now Here's the Proposition

J. E. Johnson
Along the Big Bend

Now just to look at things and not spend any money. . . All kinds of people . . . all sizes and shapes . . . Say, that fellow just got about three or four coins from that slot machine. . . Well let's just try one . . . Ought to have got something then from the looks of it. . . Nope, they have to be in reverse order. . . All right, let's get away, they're only a sucker game anyway.

Look at that. . . All you've got to do is toss a penny on the metal plate and make the bell ring. . . Always used to have a pretty good eye.

Four pennies to blow . . . here goes. . . One, nope. . . Two, closer. . . Three . . . pretty wild. Here goes, once a sucker, always a sucker . . . and the bell rings. Pretty hefty box of chocolates for a penny. . . Well, four pennies. Feeling kind of chesty now. . . Luck's probably got under full swing. . . Now that you think of it, always did have had pretty good luck. . . Should have capitalized on it oftener. . . Let's try this slot machine. . . Loaded with nickels in the jack pot. . . Oh, well, it always takes a few to get warmed up. . . Once more, in this one. . . Well, you can't win all the time. . . Maybe what I need is a system. . . You know, just play one nickel in a machine . . . and then quit for life. . . Alright let's try this one. . . No go. . . All right, all right, let's go.

Haven't been living right I guess. . . Say what's that. . . Three pictures for a dime. . . Can't lose much on that. . . Let's have a fling at it. . . "All right smile." . . "This way." . . Now, the other way. . . "Here they are." . . Pretty good at that. . . Make me look like-uh, like-uh, well, like something, no, that isn't what I mean. . . Any way they're pretty good.

Car Rams Tree On U. S. 12 in Early Morning

Heart Attack Advanced as Possible Explanation of Tragedy

Dr. James M. Miller, well known Benton Harbor veterinarian, and twice Democratic candidate for Berrien county sheriff, was instantly killed at 5:45 o'clock on Tuesday morning when his car struck a tree on U. S. 12, near Benton Harbor. His death is the 20th traffic fatality on Berrien highways this year.

The accident occurred when Dr. Miller was returning from an early morning call near Harbert in southern Berrien. There were no witnesses to the accident.

Dr. James M. Miller

Klemm of Stevensville on his way from St. Joseph. Sheriff Charles Miller was notified and rushed to the scene. Coroner Louis Kerlikowski was called and concluded that Dr. Miller had not been dead over a half hour.

That Dr. Miller might have suffered a heart attack was advanced as a possible cause of the disaster.

Sheriff Miller reports that there were no marks on the concrete or in the surrounding grounds to indicate that Dr. Miller had applied the brakes.

Lost Elections by Close Margins
Dr. Miller had lost the election for county sheriff by close votes in 1932 and again in 1936. In the 1932 campaign Sheriff Charles Miller was counted in by a close vote and Dr. Miller's friends urged him to demand a recount. The recount vote gave the Republican sheriff a close victory.

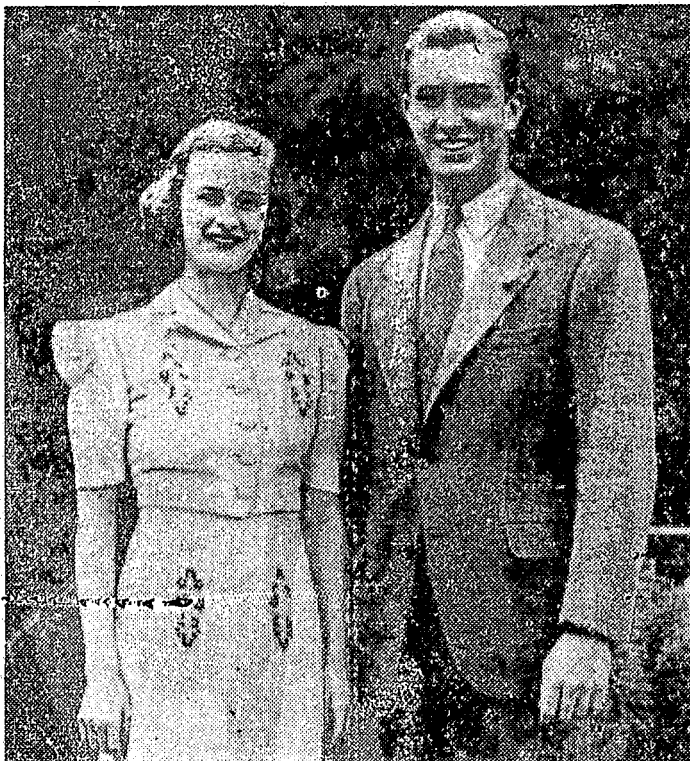

Dr. Miller was born in Bay City, Mich., December 9, 1878, the son of Mr. and Mrs. Miller. His family moved to Benton township in his early youth, and he lived there for 48 years. He attended the old Benton Harbor college, and the Phillips Veterinary College in Chicago. During the war he served in the veterinary corps. He was a member of the American Legion and the Elks.

Surviving are his widow, his parents, Mr. and Mrs. J. Miller, Benton Harbor; two brothers, Charles in Alaska, and Dr. Fred Miller, a Chicago physician, and one sister, Mrs. Glenn Woodward of Benton Harbor.

Franklin D., Jr., Weds Ethel du Pont

Franklin D. Roosevelt, Jr., and his bride, the former Ethel du Pont. The President's son and the daughter of Eugene du Pont were married in Christ church, Greenville, Del. A reception was held on the grounds of "Owl's Nest," the estate of Mr. and Mrs. du Pont.

Mrs. E. French, Mrs. J. Boone Celebrate Eighty-Sixth Birthday

Their eighty-sixth birthday was celebrated by Mrs. Ella French and Mrs. James Boone July 8.

Mrs. Boone was born July 8, 1851, in a log cabin where her father and mother, Mr. and Mrs. Calvin Myler, started housekeeping. She was married to James Boone, March 3, 1870, in that same log cabin. Mr. Boone died in 1933. In 1932 Mr. and Mrs. Boone had celebrated their sixty-third wedding anniversary. They moved to Buchanan in 1886 and had lived here ever since.

Mrs. French was born in Winham county, Vermont, and came to Michigan when eight years old. She attended the first high school in Buchanan. She married Willard French and they celebrated their golden wedding anniversary in 1921. He died in 1922. They lived in the old French homestead north of M-60 for 47 years. When Mr. French died Mrs. French came to Buchanan to reside with her son, Fred French. She has two other sons, George, Chicago, and Robert. She is the only living charter member of the Presbyterian Missionary Society and is the oldest member of the church.

Boy Hit by Car; Ankle Fractured

A broken right ankle and head bruises were incurred by Harold Bratton, five, son of Mr. and Mrs. Lloyd Bratton, W. Alexander St., when he was struck last Thursday by a car driven by Melvin Maxson. He is reported to be recovering nicely.

The Bratton boy is said to have suddenly run out into the street while playing with some neighbor youngsters.

Insurance Man Speaks at Local Lions Meet

G. E. Kelley of the Traveler's Insurance company, Grand Rapids, addressed the Buchanan Lions club last Wednesday on the history of insurance and the service of insurance in economic development. He was accompanied by H. R. Lang of the same company.

Week-End Death Brings Berrien Drownings to 10

Berrien County drownings reached the total of ten last week with the death of Raymond Lathrop, 34, of Ardmore, Ind., at 3:35 o'clock in Wagner Lake, about four miles west of Buchanan.

Deputies Vern Story, Fred French, Robert Rinker, and Clarence Dunbar dragged the lake until about 3:00 o'clock Sunday afternoon, when French's grappling iron caught the body, which was recovered nearly 300 feet from shore in water about 30 feet deep.

The accident is reported to have happened when Lathrop sank in what appeared to be the throes of a heart attack after making several dives from rowboat in which he was riding with his nieces, Dorothy and Catherine.

Lathrop, an employee of a South Bend oil drilling company, came to the lake for the week-end with his brother, Alfred, also of Ardmore, and the latter's two daughters.

Coroner Bernard J. Reiser, summoned from Benton Harbor, waived an inquest.

The body was taken to the Swem funeral home and then removed to South Bend where funeral services were held Tuesday afternoon. Burial was in Mt. Pleasant cemetery.

A message was received Monday by Mrs. D. D. Pangborn from Mr. and Mrs. Willis Tomlinson of Maryland, who went to Belgium in May, that they expect to be back in the U. S. sometime in August. Mr. and Mrs. Tomlinson visited here this spring.

Mrs. Charles Pears visited Mr. and Mrs. Frank Steiner of South Bend the latter part of last week.

Ceremonies Usher in Opening Games at Lighted Field

Record Crowd Sees French's Paper, Industrial Rubber, Teams Win

Attended by a record crowd, estimated at 1,000, the lighted ball field was dedicated, Friday, by appropriate ceremonies and two ball games. Attendants reported that about 100 car admissions and 270 individual admissions were paid. The members of the local soft ball teams, the three outside teams, and members of the high school band were guests at the events.

The evening's program began with a parade starting downtown, of the soft ball teams, preceded by the high school band. The lights were turned on by John Miller, Athletic Director, and Harold "Curly" Bradfield, district soft ball commissioner, gave a congratulatory speech. Mayor Merson threw the first ball.

French's Win 7-3
The Buchanan All-Stars were defeated by the French Paper company, leaders of the Niles A. League in the feature game, and the Auto Specialty girls' team was beaten by the girls' industrial rubber team in a five inning exhibition game.

French's banded out three hits to score two runs in the first inning, chalked up their third run on three errors by the All-Stars in the second, countered a fourth run on a hit and an error in the seventh, and clinched the game with three more runs in the 8th. Deeds' triple in the fourth gave the losers two runs. A single and a double enabled them to score again in the ninth.

Both Teams Get 7 Hits
French's got seven hits off the combined pitching of Sherburn, Jesse, and Freehling. The All-Stars got seven hits from Frank Seals.

Crouch, with two singles in four times up, led the winners in hitting. Deeds knocked out a triple in two times up to lead the losers.

Summary:
French 210 000 130 7 7 3
All-Stars 000 200 001 3 7 9

Scorer, John Schultz.
Umpires, Chain and Bristol.
The Industrials were on the loser's end of a 4 to 1 score, but came through in the last half of the fourth to win. Kimball, pitching to Daily, for the Industrials, allowed three hits, while Gast and Pitcher formed the battery for the Auto Specialties.

Summary:
Auto Specialties 102 10 4 3 2
Industrial Rubber 100 4 5 6 3

Detroit Woman Hurt in M-60 Auto Accident

An auto-smashup on M-60 resulted in a brain concussion and body bruises for Mrs. Christine Sampson, of Detroit, about 3:00 o'clock last Thursday afternoon. She was taken to Pawtucket Hospital, Niles for treatment.

The accident is reported to have occurred when the west-bound car driven by Mrs. Sampson struck a truck after she cut over to avoid hitting an east bound car driven by Jacob Hilton, which had turned in front of her.

City Plans Drive on Wrong Angle Parking of Cars

Stickers Cautioning Offending Drivers to be Distributed

A drive against motorists who park at the wrong angle was started by city officials, Monday, with the authorization of the printing of stickers pointing out the effects of careless parking.

The stickers are to be placed on the windshield of the offending motorist's car by local police officers. Local officials have voiced hopes that the campaign will make drivers more attentive to their methods of parking, and have also indicated that more drastic methods may be undertaken if the plan fails to prove effective.

The stickers are to be modeled after suggestion made by L. B. Spafford on behalf of the Lions safety committee, and are to show by diagram how careless parking produces accident causing conditions and how the parking of one driver at an angle other than that indicated by the parking lines forces all motorists parking next to him to do the same if they want to park safely.

The present angle of parking was made more obtuse than the former angle in order to allow more room for traffic.

Cub Scout Camp Ends; Local Boys Acquire Citations

Consider Hiring Motorcycle
Cop to Curb Traffic
Violations

Approval of a contract with John Cole of the Cole, Moore and Guepel engineering firm of South Bend, for plans for a sewage disposal plant was made at the meeting of the City Commission, Monday night, and an appropriation of \$700 to permit the expansion and improvement of library services was authorized. An application for a P. W. A. grant was sent Monday afternoon from the city clerk's office.

The advisability of hiring a motorcycle officer to curb present speeding and other traffic violations of motorists was considered by the commission in a discussion precipitated by the request of Arthur Johnston that some action be taken to keep drivers from ignoring city traffic ordinances.

Ask Bids for New Truck
A resolution providing for the advertisement of bids for a new ton and a half truck was passed by the council as the culmination of previous suggestions that a new one be purchased to relieve the city of the present expense of hiring an extra truck at a costly hour rate.

That the city would in all likelihood be forced by the state to install the sewage disposal plant whether or not they received the federal grant, was pointed out in remarks by Mayor Merson and Mr. Cole.

The State Board of Health and the Stream Control Commission have been attempting to clean up all rivers in the state and lately have been concentrating attention on the St. Joseph river and all contributing waters.

Plant to Cost About \$64,000
Cost of the proposed sewage plant is estimated at about \$64,000. Acceptance by P. W. A. officials of the city's application would provide for the payment by the federal government of about \$29,500, the remainder to be paid by the city.

The contract with Cole will become effective only upon the acceptance of a bid for the actual construction at which time the engineer will be paid one third of his fee, the remainder to be paid in graduated installments as the work progresses. His total fee will be six per cent of the construction costs.

Careless Driving Criticized
In his statement to the council, Mr. Johnston said that on one recent occasion, a motorist had driven up on his lawn and that at another time a motorist had driven on the Ross yard, and that he had observed several other cases of disobedience of traffic regulations and of careless driving. Expressions favoring action to make Buchanan traffic safer were voiced by members of the commission during the evening's discussions.

State Laws Prohibit Luminous Cast Plug

The use by fishermen of the new-style luminous casting plugs or any other type of artificially-lighted lure is illegal in Michigan, is the opinion of the Attorney General.

A transparent casting plug, lighted from the inside by a small battery and bulb, has been introduced by a tackle manufacturer and is being advertised in sportsmen's magazines this year.

Under a literal interpretation of Michigan's fishing laws, which forbids the use of artificial light in taking game fish, this plug cannot legally be used in this state.

The law also specifically forbids the possession of artificial light for use in taking of game fish.

CHILDREN IN COURT

By Judge Malcolm Hatfield

The price of a half fare bus ticket proved the means of landing a thirteen year old girl in the juvenile court today.

Twenty four hours before her apprehension by juvenile authorities for stealing from a ten cent store, this child had heard her mother tell a bus driver that she was eleven years of age. While the mother saved a small amount of money by misrepresenting her daughter's actual age, this proved to be the most expensive ticket she ever purchased for an example of dishonesty was set which the child was not slow in adopting.

Tips to Conserve Electricity Given By Home Expert

If the directions accompanying electric appliances have been mislaid they may be summed up as follows: Operate the appliance as instructed. Keep it clean and covered when not in use. Oil as required. Watch the cord that connects the appliance to the source of current and repair or replace it promptly if it becomes worn or frayed.

These recommendations offered by Miss Helen Noyes, home management specialist at Michigan State College. In handling an appliance cord, she says, always grasp it by the plug and not by the cord itself. Rough handling is hard on the fine wires inside the cord and will eventually cause them to break. Then they may cut through the protective covering in which they are wrapped. The cord should not be twisted or bent. Bicycle tape may be used to wrap a cord where it has become worn.

For best service an electric washing machine should not be overloaded either with clothes or water. In starting the machine, first start the motor and then throw the machine into gear. In stopping, throw the machine out of gear before turning off the motor. Wringer rolls, of course, should have the tension released when left. The machine should be stored in a dry, clean place.

Best results with an electric iron come from keeping its sole or bottom surface clean, being careful not to scratch it. It is important that the iron be disconnected when not in use.

Clean the dust bag of a vacuum cleaner regularly but never wash it because washing will remove the "filter" in the fabric which helps to make the bag dustproof. Bits of glass, pins, or metal objects, if picked up with a vacuum cleaner, may clip the fan blades or make holes in the dust bag. Sparking of the motor is usually the result of worn brushes. These may be replaced.

The enameled parts of an electric range may be washed with soap and water or a mild abrasive such as whiting when the range is cold. Metal parts may be polished with metal polish or whiting. Food spilled on cooking units is simply burned off and any particles left in the grooves brushed out with a soft brush.

Electric refrigerators require but little attention. The food compartment needs regular cleaning and whenever anything is spilled it should be wiped up immediately.

Why Do Banks Return Overdrawn Checks?

To put the question another way, we are occasionally asked, "Why can't you hold up a check of mine for a few days until I can make a deposit to cover it?"

We are naturally anxious to accommodate customers whenever we can, but to hold up checks is not sound banking practice.

If we cashed a check for a customer when the had insufficient funds to cover it we would, in effect, be giving him money that belonged to someone else. If we did this for him, other depositors of our bank would be entitled to the same consideration.

Banks are required to list all overdrafts on their books as overdrafts. Such overdrafts are discouraged by all banking authorities and banks which permit them are subject to censure by the bank examiners.

Better Market for Mich. Farm Produce Sought

State to Fight Faulty Grading, Sharp Practices, Ag Head Declares

Every weapon available to the Department of Agriculture will be brought into use to boost Michigan farm produce, according to Commissioner John B. Strange. Every effort is to be made to enable purchasers of produce to buy with an absolute confidence, he declared, in order to increase the demand and assure better prices. "Marketing problems," said Commissioner Strange, "are to receive thorough attention of the department. Every law covering these problems will be used to correct practices of the past, which have served to penalize the honest Michigan farmer. Faulty grading in the past and sharp practices by a few producers have harmed the reputation of Michigan farm produce."

"In many instances, Michigan has no established grades but the buyer is being protected under the fraud and deception section of the agriculture laws. For example, buyers of strawberries have learned this year that it is possible to purchase Michigan fruit with confidence. Michigan has no strawberry grades but at the Benton Harbor market the department inspectors have stopped practice of placing larger berries on top of basket and top of crates."

"This overfading of any product is illegal. Fines as high as \$25.00 and costs have been assessed in strawberry cases for overfading. Honest growers were being penalized because of this practice, the buyer losing confidence and not offering top prices. These few producers who are harming the market for Michigan products are going to either mend their ways or be driven from business, Michigan farm produce is of the highest quality and finest taste and every effort will be made by the department to have it assume its rightful place at the top of the list."

Record Bass 'Crop' Hatched at Lydell

"Bumper" crop of small-mouth black bass fry has been hatched at Lydell state fish hatchery at Grand Rapids. A total of approximately 920,000 small-mouth fry was hatched in the Lydell ponds this spring, the largest hatch on record for recent years. Last year the Lydell hatchery produced approximately 620,000 small-mouth bass fry.

Special License Needed for Bow Arrow Hunters

Archers Seeking Deer, Bear, to Have Own Open Season

This fall for the first time in Michigan, bow and arrow hunters who go after deer or bear will be required to buy a special license and will hunt during a special open season in two lower peninsula counties.

Under a bill passed by the legislature and signed by Governor Murphy, the bow-and-arrow season on deer and bear will extend from Nov. 1 to Nov. 14, inclusive, only in the counties of Newaygo and Iosco, being followed on Nov. 15 by the regular deer season in these counties.

Under this arrangement the bow-and-arrow hunter may shoot deer or bear in Iosco and Newaygo counties without competition with rifle hunters. The bow and arrow license fee for residents is \$2.25; for non-residents, \$25. Groups of four or more may obtain a permit for \$3 to take one deer for camp use under the same regulations as apply to the regular deer season.

All bow-and-arrow licenses will be sold from the Lansing office of the department of conservation; no licenses of this type will be sold in the field.

No hunter may buy both a "bow and arrow" license and a regular deer license. The law forbids the bow-and-arrow hunter to hunt deer or bear with a rifle during the regular open deer season. The general regulations affecting regular deer and bear hunting apply to bow-and-arrow hunters. Each bow-and-arrow licensee may kill only one antlered deer, whose antlers are no less than three inches above the skull, and one bear. Possession of firearms by the archer is forbidden, either on his person or in his car.

Albino Deer Reported Seen in Upper Mich.

Three albino deer have been reported from various sections of the upper peninsula this summer. A mature doe of spotless white with bright pink eyes discernable, witnesses say, at a distance of 100 feet has been seen by a number of persons in the Escanaba region. An albino fawn was found dead near Seney, and turned over to conservation authorities for examination. At Pickford south of Sault Ste. Marie a near-albino with a brown face, neck and hooves, and a white body with small brown spots has been reported.

Speaker Warns of T. B. Dangers to Public Health

Medical Science Equipped To Control Scourge, Werle Says

Still seriously menaced by tuberculosis is the health of every community, Theodore J. Werle, executive secretary of the Michigan Tuberculosis Association, pointed out to listeners in a recent radio talk. And this in spite of the fact that medical science has developed effective weapons to control the disease.

"Today medical science is in a position to wipe out tuberculosis," Mr. Werle declared. "Now it is up to every man and woman to take some personal initiative in this fight. We can no longer face the fact simply that 70,000 die yearly from tuberculosis in this country. Nor can we see tuberculosis listed year after year as the chief cause of death for all ages between fifteen and forty-five, the most productive years of human life."

Early Detection Important
"As is true in any hand-to-hand combat with disease, the family physician must have a major role. With tuberculosis this is especially important because so many of us are walking around with hidden trouble in our bodies, that only a doctor can detect, and which if discovered can save so much grief and needless expense."

"The first task, of course, is to discover the disease. After that the way is well-defined. Doctor after doctor tells us the same story: 'If only we could get them early, we could practically guarantee recovery.'"

"Tuberculin testing as a first screening process, followed by X-ray pictures of the lungs of all reactors, is the accepted procedure. We are glad, indeed, that these two modern weapons are increasingly taking their rightful places as a part of the regular periodical health examination. Widespread adoption of that policy would do much to hasten the eradication of tuberculosis."

T. B. Costs State Over \$4,500,000
"Though the death rate from this disease has declined in the United States from 202 per 100,000 in 1900 to less than 60 per 100,000 today, we cannot feel that the battle has been won, by any means. And from a financial point of view, tuberculosis is actually costing the state of Michigan more than \$4,500,000 annually for hospitalization alone. This does not include the millions of dollars lost in current wages by patients who will eventually get well; nor does it include the loss to the state or the nation of the millions of dollars of potential income from those who die of the disease. More regrettable still, however, is the story of human anguish and suffering and grief left in the wake of the tubercle bacillus."

"A tremendous challenge is presented us. It is up to us to take advantage of the modern weapons of medical science."

July 4, Straits' Tourist Traffic Reported Record

Pre-season predictions by State Highway Commissioner Murray D. Van Wagoner for a record tourist year apparently have become a reality.

At least this is true if traffic on the state-operated ferry system at the Straits of Mackinac is an indication. The heaviest one-day traffic in the history of ferry operation was handled by the state highway department July 4. The ferries carried vehicles on Independence Day compared with a previous high one-day record of 2,932 vehicles carried on September 6, 1936. One year ago the traffic amounted to 2,425 vehicles, or 40 per cent under this year's figure.

Traffic for the first five days of July jumped 47 per cent above the volume last year. The ferries carried 12,074 vehicles during that period this year compared with 8,165 vehicles in 1936.

Five boats operated upon random schedules during the recent holiday rush. In addition to the three state-owned boats and the leased steamer, Sainte Marie, the railroad ferry, Chief Wawatam, was also pressed into service.

Heavy Rain Fails to Prevent Forest Fires

A heavy rain didn't always end affire wardens' worries when the woods are dry. Five forest fires were reported in Marquette county one day recently when a heavy rain fell. The rainfall at Marquette was reported at .66 of an inch.

Pigs Saved Per Litter Reported Highest Since '31

The average number of pigs saved per litter by Michigan hog producers this spring was the largest for any spring farrowing season since 1931, according to the June Pig Crop Report issued today by the Michigan Co-operative Crop Reporting Service. Favorable weather conditions during the principal farrowing months, together with better than average care because of high prices for both corn and hogs are given credit for the larger number of pigs saved per litter this year.

Because of this increase in average size of litter, the 1937 spring pig crop for this State was 2 per cent larger than that of 1936 although the number of sows farrowed showed a reduction of 3 per cent. The estimate of 665,000 head of pigs for the spring season of 1937 compares with 660,000 head for 1936, 479,000 head for 1935, and 724,000 head, the 1932-33 average.

Short supplies and high prices of corn and uncertainty regarding the 1937 corn crop prospects have caused many hog producers in Michigan to plan reductions in their fall breeding operations. Breeding intentions reports received by the Crop Reporting Service during June indicate a prospective decrease of 10 per cent, compared with a year ago, in the number of sows to farrow during the fall months of 1937.

For the country as a whole, the 1937 spring pig crop is estimated to be 7.3 per cent less than that of 1936, while the number of fall litters is expected to show a reduction of 3.4 per cent. In the Corn Belt States the reduction in this year's spring crop, compared with that of 1936, amounts to 10 per cent with a prospective decrease of 4 per cent in number of sows to farrow this fall. This report is based upon information collected by the Department of Agriculture through the co-operation of the Rural Mail Carriers and the Post Office Department.

HOLLYWOOD

Friday - Saturday
Double Feature

Charles Ruggles acts as Cupid's aid in "Turn Off the Moon" the new Paramount musical, before he can set his own romance straight. As a star-bedazzled believer in astrological destiny it is his duty to see to it that Eleanor Whitney and Johnny Downs achieve a happy conclusion for their amorous adventures in the picture that marks Fanchon's debut as a producer.

Brian Donlevy is a secret Treasury agent vowed to uncover the nefarious counterfeiting ring flooding the country with spurious banknotes in the Twentieth Century-Fox thriller, "Midnight Taxi," with Frances Drake feature opposite in a romantic role. Alan Dinehart, Sig Ruman and Gilbert Roland are cast as members of the ring.

Thrill Packed Drama of War

As bandaged figures limped along a muddy road where ambulances bore more serious casualties, and stretcher-bearers carried their burdens into a barracks field hospital, cameras turned on Metro-Goldwyn-Mayer's picturization of William Joyce Cowen's best-selling novel, "They Gave Him a Gun," which comes to the Hollywood Sunday for a 3 day showing.

With Spencer Tracy, Gladys George and Franchot Tone teamed in the leading roles, opening sequences re-enacted some of the bloodiest moments of 1917 and 1918 on the western front.

A grand acting combination, a thrilling fast-paced and imaginatively directed story, and a human and appealing theme, are the elements that Paramount put into the making of "Now and Forever," which will be shown as the guest feature, Monday night.

Romantic Gary Cooper, Carole Lombard and lovable Shirley Temple are the three who play out this tale of a reckless young international crook, his light of love, and the child who changes the whole course of their gay lives.

Female Spy Story

The woman operatives of Scotland Yard, heretofore ignored by fiction writers and the movies, have their day in "The Girl From Scotland Yard," a story of European intrigue which opens on Wednesday. Karen Morley and Katherine Alexander portray two of these operatives. The cast also includes Robert Baldwin, Eduardo Ciannelli and others.

Wednesday - Thursday

The screen's newest romantic couple—Katharine Hepburn and Franchot Tone! They are to be seen in the sumptuous screen presentation of the famous J. M. Barrie play, "Quality Street," which RKO Radio has now brought to the screen. Katharine Hepburn, as the girl who thinks

the man she loves has forgotten, and Tone, as the "dashing doctor," who all-but-breaks her heart, engage in an entrancing love duel, with gay humor and tender charm seasoning the beguiling drama.

Many Autoists To Be Barred by Sticker Deadline

Several thousand owners of motor vehicles will be barred from driving in the streets and highways of Michigan on Sunday, Aug. 1, because they delayed too long to buy 1937 license plates to replace their half-year "stickers." It is estimated by Leon D. Case, Secretary of State.

It has been computed that by July 16, with only 10 working days remaining before Aug. 1—the "sticker deadline"—about 375,000 motor vehicles will still be equipped with stickers which their owners plan to replace with 1937 plates by Aug. 1. This takes into consideration cars which will be junked when stickers expire, together with stickers already replaced with plates.

Case points out that it would tax the facilities of the Department and its 150 branch offices throughout the state to issue an average of 37,500 sets of plates daily, in the time then remaining, even if applications were made at that rate. Inasmuch as a large part of the stickers are being used in congested Wayne county, it is believed that time will not permit.

It's a Grand Feeling

Indeed there's none grander than to climb in your car and drive away—with your Auto-Owners Insurance policy for another year tucked away in your pocket.

Expect Banner Year in Fish License Sale

Indications point to another banner year in the sale of Michigan fishing licenses.

As of July 1 more than 235,000 resident 50-cent fishing licenses had been reported sold, representing nearly half the total sale of 1936. Dealers have been exhausting their supplies of fishing licenses in many parts of the state and ordering new supplies. In one day more than 30 re-orders were filled by the department of conservation at Lansing.

So far more than 650,000 resident fishing licenses have been distributed for sale this year, but it is not likely that all of these will be sold. The high record in resident licenses sales is 520,814 established last year.

YOU'LL GET A BANG OUT OF THIS ONE!

DO you get a kick out of a golf ball's click when you really lean into one on the tee?

Does your heart beat faster when the big fish strikes, and your singing reel almost smokes?

Can a brisk breeze and a taut sail make you feel like a kid again, forgetting care in the sheer joy of action?

Mister, if you're like that, what a bang you'll get out of this big Buick!

You'll go for the way it goes for you. You'll like the quick, eager spurt of its get-away, the buoyant, swiftness steadiness of its travel.

You'll thrill to the businesslike manner in which it settles to the pull, its quiet, dogged competence in long, tough going.

You'll welcome the way it cradles you over the bumps, the neat, compact, handily mobile feel of it. You'll be proudly aware of its beauty, of the picture you make riding in its this-minute style.

But don't forget this major thing—it's the buy of the season, price-wise as well as on performance! It's still selling at the lowest price in all Buick history—you can still get a big Buick eight for less than some sixes would cost you.

So don't hold back. Good things, you know, can't last forever. Don't pass up a buy such as Buick is at its low prices now.
