

BUCHANAN SCHOOLS TO OPEN SEPT. 7

Dayton I. O. O. F. Plans Silver Jubilee Picnic for Labor Day, Sept. 6

Now Here's the Proposition

Of course, nobody loves a feller with a grouch but they ain't no law again his gittin' over it.

Friends and neighbors: We arrived back on the old home scenes early Saturday morning, having endeavored to time our return with the exhaustion of our finances, and our timing was something to put Joe Louis clear in the shade if he had not been in the shade already.

We found our pinch-hitter, Mr. J. E. Johnson, packing his belongings ready for departure. We found further that he had done an excellent job of pinch-hitting during the summer and that he had made a lot of friends for himself and the paper. He promised to write but did not leave his own address. However we know that at an early date he will resume his studies in the senior year of the journalism department of the University of Michigan.

During our absence of 10 weeks we saw more or less, briefly, Sweden, Norway, Denmark, Germany, Belgium, France, England, Scotland and Canada. In the case of Belgium at least our travels amounted to merely crossing a segment of territory, mostly in the dark. We did not see much more of Denmark, and only two days of Scotland. A month was spent very pleasantly in Sweden.

During our trip we hung several tourist records, including that of having gotten on the right bus going the wrong way in Paris more times than any other tourist in the same time, and of having scattered our change more thinly along the line of march than other tourist of the 1937 season at least. In fact we left very little behind us but gained looks on the faces of the natives.

We had intended to enjoy the vacation (and we did) and not to bother anyone else very extensively with its relation, but owing to pressure from our friends we have consented to start the story in an early issue. In fact in discussion of the matter one of our friends remarked, "Well, what's stopping you if you want to?" And the other added, "All right, if you feel like it."

And in the face of persuasion like that, what else can one do? Consequently in the next issue we will begin the exclusive account of our meanderings entitled: "Tight-Wedding It Through Europe" or "More Abroad Than Innocent." Don't miss this great feature.

Is Honored By General Motors

Lazelle Weaver was distinguished this week by being named one of two of the graduates of the General Motors Tech at Flint to be invited to continue for two more years. He will accept the invitation, specializing in industrial engineering. Graduation exercises for the students of the two-year course were held Tuesday. Students can attend the school only at the invitation of the General Motors corporation and an invitation to attend the course further is a recognition of special competence.

Mr. and Mrs. Weaver arrived here yesterday for a visit until Sunday with the former's mother, Mrs. Leah Weaver, and the latter's parents, Mr. and Mrs. C. D. Arnold.

Miss Mary Reynolds had as her guest from Friday until Sunday Miss Mabel A. Jones, Chicago.

To Mark 25th Anniversary

Jerome Seabasty, Who First Boosted Event, General Chairman

Once more the Dayton Odd Fellows picnic, greatest of fall entertainments in southwestern Michigan, is in the immediate offering on Sept. 6—only this year it is not the same old picnic.

It is to be the biggest of all Dayton picnics, streamlined and silver-trimmed. In fact it's to be the silver jubilee, marking the 25th anniversary since the beginning. It will also be the 25th anniversary of the connection of its original booster, Jerome Seabasty, with the picnic. Mr. Seabasty has also become somewhat silver-trimmed in the 25 years since he first gave the picnic a shove, but not so much at that. He is still the chairman of the central committee, assisted by W. Emsberger and S. Sarver. The sports committee consists of Ray Frame and C. Cripe.

Among the many entertainment attractions will be the Toonerville Trolley and the famous Debus sisters, radio singers and entertainers. There will be the time-honored baby show, special silver prizes in honor of the jubilee—and crowds and crowds of people if the weather man will only be a little reasonable.

Rev. E. Mather Dies at Albion

The Record has received the following clipping from an Albion, Mich., newspaper relative to the death of Rev. E. O. Mather, former pastor of the local Methodist church from 1912 to 1919.

Rev. Elbert O. Mather, 79 years old, retired Methodist minister residing at 517 East Erie street, was found dead in his automobile a mile south of the Bath Mills school, southeast of Albion, Monday, August 23.

Mr. Mather apparently became ill while driving, the car leaving the road but remaining upright and not being damaged. He apparently had been in his usual health previously.

Born in Groton City, N. Y., August 7, 1858, Mr. Mather lived in New York state until 1867, when he moved to Matherton, Mich. In 1884 he came to Albion and entered Albion college, being graduated in 1888. He attended Boston School of Theology in Boston, Mass., in 1888 and 1889, after which he served Methodist pastorates in Homer, Battle Creek, Galesburg, Paw Paw, North Adams, Ewart, Buchanan, Sparta, Pentwater and Lyons. He retired in 1926 and had made his home in Albion since. He was a member of the Albion college chapter of the Alpha Tau Omega fraternity.

Mr. Mather was president of the Michigan M. E. Conference Historical society from 1931 to 1935 and was president of the Albion Itinerant club in 1936.

In 1893 he was married to Annie M. Stevens, who died in 1904. April 17, 1907, he was married to Mary A. Wells, who died April 16, 1926. He is survived by two sons, Vernon W. Mather and George V. Mather, the latter an Evening Recorder reporter, both of Albion; two daughters, Miss Mabel J. Mather, Saul Ste. Marie, and Miss Grace Mather, Albion; and a sister, Mrs. E. C. Cook, Long Beach, Calif.

Funeral services will be held at the Graves and King home for funerals at 2:30 p. m. Thursday. Rev. S. B. Owens will officiate, assisted by Rev. I. T. Weidon, Albion, and Rev. Fred G. Dunbar, Tonia. Burial will be in Riverside cemetery.

Donley Bros. Tavern Robbed

The Donley Bros. Tavern was entered by unknown parties Saturday night or Sunday morning and about \$12 in cash taken. Entrance was made by breaking a window on the rear alley.

'ROUND ABOUT BUCHANAN

One-Woman Cat Attacks Police Dog. There may possibly be older cats than Fluffy, Feline guardian of the Charles Dodge home on east Front street, but it is not likely that there are any more lively or more mentally alert cats 13 years old.

Last week Fluffy drove a large German police dog yelping from the yard and a distance down Front street. In fact a dog—any dog—is simply pie for Fluffy and she doesn't allow them around. In addition to guarding the Dodge premises she is the self-constituted protector of Mrs. Dodge, and ill betide the person who even appears to threaten her. Recently she made a vicious attack on a garden hose when Mrs. Dodge happened to turn the water through it and the coiled end straightened out with the force of the current and struck her on the leg.

Fluffy will inform her mistress of a telephone call when she is out in the yard, and on one occasion she came mewing and clawing at her mistress's dress, leading her to a redhot radiator.

In fact Fluffy is no common cat and the royal blood of the Angoras predominates in her family tree.

McGuffey's Speller

Mrs. George Huff exhibited a quaint and time-honored relic in the form of a copy of McGuffey's Eclectic speller, 1865, in a visit to the Record office the first of the week. The McGuffey speller is one of the famous series of textbooks issued by McGuffey, whose centenary was celebrated last year. The books are in considerable demand now by libraries, museums and old book collectors.

Old Apple Trees Fall

Two old Northern Spy trees in the orchard at the home of Mrs. Byron Brant on Fourth street were broken down last week by the weight of the heavy crop of apples which burdened the boughs. The trees and the crop are a total loss.

NORTH BUCHANAN NEWS

About 65 of Oronoko church including the Chicago friends enjoyed a weiner roast Saturday evening at the summer home of E. T. Berry. The same crowd attended services and Sunday school on Sunday. The little church extends a welcome to you. Services at 9 a. m. and Sunday school at 10.

The last picnic of the summer for Mt. Tabor Grange will be held next Sunday at Island Park, Niles. A chicken dinner will be served at 12:30.

Mr. and Mrs. Arthur Ruger and Mrs. and Mrs. Frank Kann were shopping in South Bend, Tuesday.

Lions' Jamboree To be Staged by Tri-City Clubs

Event to be Held at Indian Fields—Joint Sports Club Formed

Plans to hold a jamboree at Indian Fields, September 12, for members of the Buchanan, Niles, and Berrien Springs and other nearby Lions clubs, and their friends, were made at a joint meeting of the three clubs at Penelwood Inn, last week.

A Lions Tri-City Sports Club to be composed of members of Niles, and Berrien Springs Lions clubs was organized and the following officers for the new organization were elected: President, Ed Bufham, of Berrien Springs; secretary, William Pifer, of Niles, and treasurer, Bert Bouws of Buchanan.

Further discussion at the meeting centered about the proposed water regatta to be held next year by the tri-city organization. Earlier plans to hold the water event this year were definitely discarded because of the lateness of the season. The jamboree this year is to be somewhat of a trial experience to provide experience for the club's program for next year.

Entertainment provided at the session included several numbers on the guitar by Dale Florey of Buchanan, and presentations on an electric guitar by a Niles member.

Daylight Robbery on Streets Here

A daring daylight robbery occurred on the streets of Buchanan during the noon hour Monday, when some unknown thief or thieves broke into a locked car parked in front of the Rexall Drug store on Front street and escaped with about \$10 in money and \$40 in drugs.

The owner, Robert Winslow, salesman of the McKesson, Fuller & Morrison Drug company of Chicago, was in the drug store talking with Mr. Gondtke from 12:30 until 1 p. m. It is believed that the thief was frightened away before he had completed rifling the car as he left several paper rolls of small coins in a cigar box, and also left a pile of checks and drafts on the sidewalk. He effected entrance by prying open the forward ventilation window so that he could reach the inside latch of the door and open it.

Issue Warning On Delinquent Taxes

Issuing a note of warning to delinquent tax-payers, Auditor General George T. Gundry again calls attention to the fact that after September 1st, the delinquent tax-payer will automatically, come under the provisions of Act 28, passed by the 1937 Legislature, an Act which leaves no option to public officials on the matter of property delinquent for taxes.

After September 1st, Mr. Gundry points out "if the 1936 taxes are not paid in full, and if the matured installments of 1932 and prior years have not been paid, and if the first installment of 1933, 1934 and 1935 taxes have not been paid, (prior to September 1st), the tax-payer has completely lost his opportunity to take advantage of the ten payment plan."

"If payments are made before September 1st, there is a saving in fees amounting to 3 1/2% on 1933 tax, 25 1/4% fees on 1934 tax, and 16 1/4% fees on 1935 tax."

The penalty for default of any installment is that the entire balance of the tax is offered for sale at the next tax sale, which is in May 1938.

County treasurers, continues Mr. Gundry, are greatly encouraged by the response to the State and County advertising concerning delinquent tax collections and it is anticipated that by the time September 1st is reached, that the total delinquency for taxes will be substantially reduced.

Famous Father and Two-Year-Old Son

An exclusive pose of John Jacob Astor and his two-year-old son, William Henry Astor, as they appeared in commune, on the steps of "Chetwode," their summer home at Newport, R. I. William Henry recently celebrated his second birthday with his dad and mother, the former Ellen Tuck French.

Thiele Is Held In Federal Jail

Major Lester W. Thiele, local veterinarian, is being held in the Ottawa federal jail pending the raising of \$1,500 bonds for his appearance to answer charges of sending objectionable messages on postcards through the U. S. mails. Maj. Thiele had been engaged in a controversy with the federal department of agriculture for some time and the postcard for which he is held were sent to that department. Thiele was a veteran of the World War and of the Mexican border campaign in 1916, and is said to be in line for a lieutenant colonel's rating at the expiration of his major's commission in 1939.

Aid in Forming New V. F. W. Post

Commander Stanley Raybuck and other officers of the Gladys Lyon post of the Veterans of Foreign Wars went to Hartford Friday night to aid in establishing a new post there. The ritualistic team of Kalamazoo exemplified the work. This is the 11th post established in the Berrien-Cass-Van Buren district.

Clark Addition At Berrien Springs

The Clark Equipment company, has let a contract for the construction of 130x48 foot addition to the Berrien Springs plant, also a new garage and loading dock 51x30 feet in dimension there. The total expansion will provide 15,000 square feet additional space. Frank L. Shoemaker, who erected several of the buildings at the Buchanan plant, is the contractor.

City To Gravel 6 Miles of Streets

The city street department is beginning graveling streets where sewers were installed on Liberty Heights this week, and expects to be through by week after next, having gravelled in all over six miles of streets. Work was completed the first of the week on the replacement of cross walks torn out at various places over the city.

Missing Man Comes Home Safe

Herman Clayton, Buchanan man reported missing last week, reap- peared safe and sound the first of the week, explaining that he had been visiting her there. Born to Mr. and Mrs. James Dickinson, a daughter, at their home on North Portage, Saturday.

New Position Added to Staff

Superintendent Stark Announces His 1937-38 Staff

The Buchanan schools will open Tuesday, Sept. 7, according to an announcement by Supt. Stark, with seven new faces on the faculty, and one added position, that of a third 2nd grade teacher.

There will be a meeting of all the teachers at 9 a. m. Sept. 7. The pupils of the six lower grades will be asked to meet in their respective rooms at 10 a. m. that day, and the pupils of the junior and senior high schools will meet at 1 p. m. in the high school auditorium.

All pupils who are enrolling for the local schools for the first time are asked to register on one of the dates Sept. 1-2-3. Tuition for outside students in the four upper grades of the high school will be paid as usual by the state. Tuition for pupils from outside, of the 7th and 8th grades will be \$65, and for the pupils of the six lower grades \$50.

The new grade principal is Miss Helen Graves, who comes from several years of junior high school and grade work in Illinois schools. She has studied at the University of California and at the University of Chicago, having her master's degree from the latter school. She also served as grade principal at Gilbert, Minn. She succeeds Mrs. Mabel Walton, who was a loved figure in the local schools for many years.

C. A. Langer succeeds Kermit Washburn as Smith-Hughes instructor in agriculture, coming here from the same post at Charlotette, Mich. He is a graduate of Michigan State College.

Miss Enid Reams is a local girl, a daughter of Mr. and Mrs. Oscar Reams. She is a graduate of this local high school and of Western State Teachers College, and had had previous teaching experience at Alanson, Mich. She takes charge of the special grade room, succeeding Olga Bender Underwood.

Miss Virginia Felhank will teach in the second grade. She is a graduate of the Michigan State Normal at Ypsilanti, and has had previous experience at St. Charles, Mich. Her position is a new one, made necessary by the moving ahead of the three first grades of last year and the consequent creation of a new second grade this year.

Miss Sara Quickel, a graduate of the Millersville Teachers College, Penn., and of the University of Chicago with her master's degree from the latter school, is engaged to teach the third grade. She has had previous teaching experience at Downingtown, Penn., and in Honolulu. She succeeds Mrs. Emma Bohl.

Mrs. Emma Bohl Brunka, engaged to teach English and library work, succeeding Mrs. Judith Bulla Moore. She is a graduate of the Eau Claire Teachers College, Eau Claire, Wis., and of the University of Wisconsin. She has had previous teaching experience at Iron River, West Salem and Merrill, Wis.

Miss Ruth Rutledge succeeds Mrs. Ida Ahola Mann as fourth grade teacher. She is a graduate of the University of Nebraska, and taught in the fifth grade of the Holdrege, Nebr., schools last year.

The faculty will be as follows: H. C. Stark, Superintendent; Paul Moore, high school principal; Ray Miller, manual arts; C. A. Langer, agriculture; Velma Dunbar, English; Joseph Hyink, mathematics; May Whitman, social studies; Claude Carter, science; John Ebers, social studies; Allegra Henry, physical education; Lucille Quade, commercial; Orpha McNeil, English; Helen Krebs, domestic science; Luella Cernahan, English; Ralph Robinson, music; Helen Graves, grade principal; John Miller, Physical education; Earl Rizer, mathematics; Leah Weaver, language; Lilly Abell, sixth grade; Doris Reams, sixth grade; Lena Elkstrom, 6th; Jane Spears, 5th; Alma Fuller, 4th; Ruth Rutledge, 4th; Nina Fischner, 3rd; Sara Quickel, 3rd; Blanche Helm 2nd; Mabel Wilcox, 2nd; Virginia Felhank, 2nd; Belle (Continued on Page 4)

Jean Reinke Is Called by Death

Jean Elizabeth Reinke, ten year old daughter of Mr. and Mrs. Otto Reinke, died Friday morning at 2:00 o'clock in Pawating hospital. Death was caused by a cardiac embolism following a tonsilectomy. She was born June 2, 1927, in Buchanan, Mich. She was a member of the Christian Church.

Surviving besides her parents are a brother, Herman of Buchanan; two sisters, Miss Bernadine, at home, and Mrs. Mary Boswell of Kalamazoo, and a niece Mary Boswell of Kalamazoo. Services were held at the parent's home, Sunday afternoon at 3:00 o'clock, the Rev. Thomas Rice officiating. Burial was at Oak Ridge cemetery.

Paul bearers were the Misses Norma Hamilton, Betty Metzger, Betty Squiers, Janice Pierce, Dorothy Irvin, and Della May Heckathorn, all playmates. The Sunday school class attended in a body. The floral offerings were many.

Farmers' Roundup Is Postponed

Due to the heavy rain last Saturday, the second annual Berrien County Farmers' Roundup at Indian Fields, Berrien Springs, Michigan, has been postponed until Saturday, September 4.

If owners of teams are planning to enter their team in the horse-pulling contest, and have not already done so, entries are still accepted by Frank Sommer of Eau Claire.

The program will be the same as was arranged for the first-planned date.

All farm families are invited to attend this all-day roundup.

Local News

Mrs. Carl Thaning will leave Friday for Woods, Wis., where her husband is a patient in the General Hospital.

Mr. and Mrs. R. E. Donley left Tuesday for Washington, D. C., to meet their son, Edwin Donley, on his return from an European cruise as a U. S. naval cadet. He will come home with them for a four-week furlough.

Mrs. Charles Pears, who has been quite ill at her home for nearly three weeks, is improving and was able to sit up for the first time Monday. Her daughter, Mrs. Hugh Blair, came again last week from Elgin and is with her. Mrs. Blair was accompanied from Elgin by her little niece, Miss Donna Pears, St. Joseph, who had been visiting her there.

Born to Mr. and Mrs. James Dickinson, a daughter, at their home on North Portage, Saturday.

TWENTY-THREE PER CENT OF THE CUSTOMERS ARE EATING PEACH PIE

Recently, in a large city in the United States, we took advantage of the newspaper man's prerogative to ask questions.

It was in a large restaurant which we learned later, feeds in two establishments, as many as 10,000 to 15,000 daily. The manager of the place we were in was a young woman. There seemed to be a close checking system on all meal orders, with a filing clerk operating an adding machine to tabulate them.

It seems that they kept a record of each order, working the mass of accumulated information into percentages, which served as the basis of future buying of supplies. Where people ate in large numbers, the food consumption could be worked out in percentages which are reliable from year to year and which aid greatly in eliminating guesswork and consequent waste in food purchasing.

"We know as a matter of past record just what percent of our customers are eating which kind of meat at this moment," said the manager.

"But that's all private information in your own files?" we queried.

"Well, er-er-rather," she hesitated, "but I can tell you that 23 per cent of them are eating peach pie this evening. Hand me the peach pie tabulations."

"Why what is happening—there's 26 per cent eating peach pie! Well, that's just an accident when all the orders are in there will have been 23 per cent who ate peach pie."

Peach pie, it seemed, was a special that week, marked down from 10 cents to 8 cents. On the basis of returns this year they will order peaches for pies next year. Allowing, of course, for a percentage of increase in total business. Food tastes may change slowly over a long period but these averages are reliable as a basis of food purchasing from year to year.

The result is that the institution buys closely, eliminates waste, and is consequently able to serve its foods on a close margin to the customer,—and the customer gets a better food bargain. Which explains the immense clientele. Which is a real and striking example of the undoubted fact that efficient operation of a business institution, even though done with an eye mainly to the competition, may work out in a large benefaction to the public.

The young woman manager was graduated from a four year home economics course in a midwest university and from a year of "internship" in food production in a great restaurant, where she worked for nothing in order to get an insight in the operation of all departments. She kept daily charts of the relation food costs to total intake, which were posted prominently in the rear of the restaurant, and were studied daily with much interest by the large force of workers. They know that 43% is considered the desirable proportion of food cost to total receipts. That day the percentage was only 38. A few days before it had been in the red. Anytime that cost rises out of proportion it will eat into the proportion available for wages. The entire force know this; they watch it; it becomes an incentive for efficiency.

The management knows that this summer the average meal check is 37 cents on week days, mounting toward fifty cents on Sundays. They know, also, that in the restaurant in the shopping section they must take into account special sales in the large stores in making their food requisitions. They know that a hot spell of weather will affect food consumption in a certain way, which possibly explains the erratic behaviour of the peach pie market that evening. All in all it was a most interesting glimpse in how a well-managed business may affect public welfare. Ten thousand eaters approved of their method and management in a general way daily—without knowing anything about it. And ten thousand customers can't be wrong.

When a checking account customer writes a check for more money than he has in his account, it is called an "overdraft." In such cases the bank is obliged to refuse payment and the check is returned marked, "N.S.F."—meaning "Not Sufficient Funds."

An overdraft is a black mark against the credit of the one who issues it. It is illegal for a bank to honor such a check and bank examiners hold the bank strictly accountable in all such cases.

Most overdrafts are unintentional. They can be prevented by the use of more care in figuring the amounts on the check stubs.

HOLLYWOOD

DRAMA AND COMEDY IN FILM

In the screen adaptation of Bret Harte's immortal story of California of the gold rush days, "The Outcasts of Poker Flat," Jean Muir portrays the figure of the pretty school-marm whose coming to "the flats" changes the world for the self-assured gambler, John Oakhurst, who falls in love with her, despite the fact that their schools of philosophy are worlds apart. Colorful drama and rich, native comedy mark the RKO Radio film presentation, showing here Friday and Saturday.

FIVE NEW SONG HITS

Five new song hits are introduced in the new Hal Roach feature-length comedy, "Pick a Star," which comes to the Hollywood Theatre Friday and Saturday with an all-star comedy cast headed by Patsy Kelly, Jack Haley, Rosina Lawrence, Mischa Auer, Lyda Roberts and Laurel and Hardy.

DRAMATIC ADVENTURE STORY

William Powell and Luise Rainer are co-starred in another dramatic adventure story of international intrigue, in Metro-Goldwyn-Mayer's adaptation of Baroness Orczy's novel, "The Emperor's Candlesticks," which comes Sunday for three days. George Fitzmaurice directed John Considine, Jr., produced.

This romantic novel starts in Vienna after the kidnapping by socialists of Nicholas, last of the Czars, when he was a man of twenty. Powell, as socialist who hates Russia, is commissioned to carry a message offering release of the Czarevitch in exchange for the release of socialist prisoners. He hides his papers in one of a pair of candlesticks once used for this purpose by Marie Antoinette. Miss Rainer as a secret agent for the Russian police conceals papers in the other candlestick. The story then revolves into an exciting race between these two for the candlesticks which are stolen by thieves who do not know of the papers within them.

RIOTOUS PIRATE PICTURE GUEST FEATURE

Guy Kibbee, Sybil Jason and May Robson—stars of "The Captain's Kid," the first National comedy-drama coming to the Hollywood Theatre on Monday, as the guest feature—compose a trio of "pirates" who capture the hearts of everyone who sees them in their hilarious story of sea robber fiction and treasure hunts. DOUBLE FEATURE WED. - THURS.

The funniest lad in "Wake Up and Live" meets the hungriest girl in the world in a rousing comedy of love and laughter, "She Had To Eat," features Jack Haley, who hijacked all the laughs in the Winchell-Bernie musical, with Rochelle Hudson, Arthur Treacher and Eugene Pallette.

Harriet Hilliard and William Brady's romance is set to song and dance in RKO radio's new musical extravaganza, "New Faces of 1937," which features the pair with Joe Penner, Milton Berle, Parkyakarkus, Thelma Leeds and a hundred others.

Ruff Grouse 'Spotty' Game Officers Say

Reports this summer of conservation officers as to the number of ruffed grouse indicate that if this game bird is coming back in northern Michigan its recovery is "spotty."

In the western end of the upper peninsula, the consensus of opinion is that partridge broods have been both large and numerous in that region. Reports from the eastern end of the upper peninsula are not as optimistic.

Reports from the northern lower peninsula counties have been conflicting. In some localities ruffed grouse have appeared more numerous than last year and in other localities less numerous. If any generalizations were to be made on the basis of such reports, game men would be inclined to the notion that the eastern side of the lower peninsula is not showing as much progress as the western side in the partridge recovery trend.

In the Pigeon River and the Houghton lake grouse cover areas, broods observed by game workers this year were not as large or as numerous as last year.

PROUD BARTELLS

Is Ready to Begin Legal Career at the Age of 70

Washington.—That current adage of life beginning at 40 means nothing to Frank J. Cushman, who soon will begin his legal career at the age of seventy.

Spanish war veteran and jack of many trades, Cushman, at the age of sixty-seven settled down to studying law at Columbia university. He is scheduled to graduate in June.

Age is solely a question of outlook, Cushman believes, explaining: "It is quite natural that I have lost what they call physical pep. I can't run a hundred yards, for example, but my mental powers are sharper than ever. I believe age has its compensations."

Married and the father of four children, Cushman's grandson, Albert A. Cushman, also is studying law in a midwestern university, he said, adding: "After we both graduate we intend to set up a partnership."

Urges Sod Care on Pasture Land to Curb Erosion

Specialist Advises Use of Furrows, Fertilizer to Rehabilitate Soil

It takes more than a few strands of rusty barbed wire stretched around a worn-out field to make a pasture, says James Porter, extension soils specialist of Michigan State College.

Many Michigan pastures are severely eroded, Porter says, largely because the land was severely eroded before it was put in pasture. Since a good sod controls erosion and provides an almost immediate return in low cost feed, he urged careful planning in establishing new pastures on eroded land.

Contour furrows help to control erosion and also conserve moisture thus aiding in establishing a good sod, according to Porter. Plowing in small gullies before constructing the furrows is usually recommended. Small galled spots can be revegetated more readily by broadcasting manure over them or mulching these areas, he said.

"After contour furrows have been constructed, the next step in providing a good sod is to apply lime if needed, and to fertilize adequately," Porter said. "The disturbed areas and other portions of the pasture where vegetation is insufficient should be seeded to a good pasture mixture."

Porter's recommendations are in accord with those of the Soil Conservation Service.

Unusual Exhibits To be Presented at 1937 Mich. Fair

Incubators to Hatch 8 Colors of Chicks Daily—Nature Scene Planned

Two outstanding exhibitions to be presented at the Michigan State Fair at Detroit, September 3-12, have been announced. The first, a startling new educational exhibit which will interest both adults and youngsters, is called The Chicken Walk.

This exhibit will have a battery of 12 large electric incubators, placed in a straight line one hundred feet long. Each incubator will hold one thousand eggs and will hatch out eight different colors of chicks, each day of the Fair. Glass fronts will enable visitors to pass along and see every phase of the hatching process, from the tiny pip hole in the shell to the day-old chicks after they have been fed and the incubators cleaned of shells.

These incubators are to be electrically controlled and the eggs set 22 days, 21 days, 20 days, etc., preceding the opening of the fair, so that they will start hatching Friday night, Sept. 3. The last

hatching will coincide with the last day of the Fair, Sunday, Sept. 12.

The other unusual exhibit, which is to be sponsored by the State Conservation Department, will be a beautiful falls, 25 feet high, spilling into a flowing creek which empties into a real little lake. Surrounding this delightful exhibit will be a grove of trees inhabited by live fauns; and in the lake, hundreds of varieties of fish native to Michigan.

Delinquent Taxes Peril Ownership, Cautions Grundy

Says Ten-Pay Plan or Full Payment Necessary to Avoid Forfeiture

In order to bring to the attention of the people of Michigan the danger of neglect to pay delinquent taxes, the State Administrative Board has authorized a State-wide campaign of advertising which calls attention to Public Act 28, passed in the 1937 Session of the Legislature. (See our advertising columns).

The Act clearly provides that properties delinquent for taxes for 1935 and prior years will go on sale in May next unless advantage is taken of the provisions for partial payment, before September 1, 1937. The Legislature has recognized that a method of relief is necessary in the case of some property-owners and has made possible the payment of back taxes on a "10 and 10 plan."

Windsor's Parson on Lecture Tour

Rev. and Mrs. Robert Anderson Jardine, who sprang into the international spotlight when he defied the Church of England's highest dignitaries to perform the wedding ceremony for the Duke of Windsor and the former Wallis Warfield; shown as he arrived in New York recently for a lecture tour of the United States, the proceeds of which will be donated to charity.

According to Auditor-General George T. Gundry, who is charged with the duty of supervising the operation of this law, all 1933, 1934, 1935 back taxes, as well as taxes levied in prior years, must be paid before September 1st, 1937 or else it is mandatory to place such properties on tax sale in May of next year.

The "10 and 10 plan," says Mr. Gundry, helps those property-owners who cannot pay in full at this time, by permitting the payment of 10 per cent of taxes due up to and including 1935, and allows the balance to be paid on a 10 year plan. It is decidedly to the advantage of taxpayers to use this plan. Interest and penalties have been cancelled and the only added charge is a 2% collection fee on the amount paid.

In order to take advantage of the provisions of the law it is necessary that 1936 taxes be paid in full. County Treasurers are fully acquainted with the Act and are already receiving applications from many tax-payers who welcome this method of discharging their tax obligations and keeping

their properties from the certainty of tax sale next May. It is very important, however, that arrangements be made before September 1st, after which no further relief can be granted.

Do Banks Want to Make Loans Now?

The answer to this question is emphatically, "Yes!" Banks generally, are making loans every day—and would like to make more of them. In the first place, banks have funds to loan—for restored public confidence has greatly increased bank deposits. Secondly, loans are a chief source of a bank's profits. No bank knowingly refuses to make a good loan for the same reason that a merchant does not lose a good sale if he can help it.

Bank loans are made when business men see clearly a profitable use for the money and the bank is satisfied the loan will be repaid when due.

This bank is willing to loan its funds to business concerns and individuals whose qualifications give adequate protection for our depositors' money entrusted to our care. —American Bankers Association

Science, Like Law, Has Own "Bureau of Missing Persons"

Hunt Is On Now for Long Lost Parents of Actinium

Rochester, N. Y.—The police may have their missing persons bureaus who hunt for the Charley Rosses and Judge Craters of the world but science too has similar mysteries and none so famous as the "missing" parents of the element actinium.

From heaviest of all elements, uranium, down through radium to lead, the atoms undergo a step by step disintegration and "beget" order that reads like a scientific old testament.

Just as there is a "missing link" in the hypothesis of animal evolution between the apes and modern man so too is there a theoretical stone out of place in the structure which welds the whole of radioactivity theory into a compact unit.

How Lost Are Traced.

In a report to the American Physical Society, Prof. T. R. Wilkins and Dr. W. M. Rayton of the University of Rochester present new evidence which helps make clearer the origins of the missing long-lived parents of the actinium series of radioelements.

Scientific happenings which make it possible to throw light on the atomic "missing persons" problem are that sometimes the change from one element to another is accompanied by a loss of weight and sometimes merely by a loss of electrical charge without the weight loss.

The loss of weight occurs when the nucleus of a helium atom, known as an alpha particle, is liberated in the radioactive disintegration. Then, the parent atom drops down two whole numbers in the numerical scale which rates chemical element from hydrogen, at one, to uranium at 92.

When electricity is given off by the emission of an electron the atomic number of the element jumps back up the scale by one unit. Thus Uranium I (92) gives off an alpha particle and becomes Uranium X, (90). But Uranium X, gives off an electron and becomes Uranium X, with atomic number 91.

Radium Best Known.

Thus in stepwise fashion, but sometimes up and sometimes down the scale of atomic numbers, go the disintegrations of the heavy radioactive elements, of which the best known is, perhaps, radium with atomic number 88. Common, gray and soft lead are the final offspring of all these spontaneous changes and there are four different kinds of lead; radium lead, thorium lead, actinium lead and just lead. The radium, thorium and actinium here mean that it is lead which had each of these specific origins. Plain lead merely means that scientists cannot specifically fix its origin.

The ability of the radioactive atoms to lose or take on weight at various stages means that there will frequently be two or more varieties all having the same chemical properties but slightly different masses even though they may have the same atomic number rating. Thus Uranium X, and its three isotopes (as they are known) all have atomic weight of 234. One has an atomic number of 90, another is number 92 and two are number 91.

While chemical methods are not sufficiently exact to permit distinguishing between all these varieties, other methods, and in particular, the range with which alpha particles are emitted, serve as experimental checks.

All that remains now is the name—and a few abandoned farms and gaping cellar-holes.

1,600,000 VETERANS GET HOSPITAL CARE

Illness Outside Service Account for Most Cases.

Washington.—Since the demobilization of our World war army, nearly 1,600,000 veterans have been admitted to Federal hospitals, the veterans bureau recently disclosed. Admissions during 1936 totaled 120,365, as compared with a peak of 148,662 in 1932.

Since June 7, 1924, when congress authorized hospitalization without regard to the origin of illness, disabilities not connected with service have accounted for 68 per cent of all admissions. During 1936, nine out of ten veterans admitted to hospitals were treated for disabilities sustained outside the army.

Neuropsychiatric patients continue to show a sharp increase, accounting for well over half of the patients. Tuberculosis and general medical and surgical cases are declining. At the close of the last fiscal year, June 30, there were 41,875 patients in veterans bureau hospitals. In addition to 36,824 veterans of the World war, the roster included 2,356 from the Spanish-American war, 103 from the Civil war and sundry others.

There are veterans hospitals now at eighty different places. Nearly 46,000 beds are available in these institutions, an increase of more than 1,000 over 1935. Including beds in other government hospitals and in places under its supervision, the veterans administration has under its care 65,000 beds. New hospitals will add 12,000.

Since March 3, 1919, congress has appropriated nearly \$150,000,000 for hospital facilities for veterans. The opening of a new cancer center at Atlanta last year added a sixth well-equipped hospital to the facilities for the treatment of cancer victims. There are also special centers for the care of pulmonary tuberculosis and mental diseases.

Popular Ballad

Undoubtedly America's most popular ballad was "Frankie and Johnnie." During the latter part of the Nineteenth century, says Collier's Weekly, this simple song, despite its theme, attained such widespread fame that more than 300 variations of it were sung from coast to coast. This number equals, possibly exceeds, the total of all extant original ballads in the English language.

First Really Democratic King
William IV was the first really democratic king to occupy the British throne. He was also the first British sovereign who knew New York at first hand. As a midshipman, says London Answers Magazine, he was in that city towards the end of the American War of Independence, and had a narrow escape from being kidnaped by agents of Washington.

Outstate Sellers of Produce Lose Fraud Exemption

Use of Unfair Tactics Will Bring Prosecution, Declares Strange

Commissioner John B. Strange of the Department of Agriculture has pointed out that, as a result of action by the legislature, outstate producers of fruits and vegetables are now liable under the fraud and deception act. The commissioner warned that if outstate producers resort to tactics used formerly that they are to be prosecuted by the department. "This law," Commissioner Strange stated, "previously exempted outstate producers and the department was powerless to act. These operators found it possible to enter our state and resort to practices that would have resulted in arrest of Michigan producers. This was especially true following hail storms, etc., in neighboring states. Unable to sell produce at home, they would enter Michigan markets, often with overfaced merchandise. The removal of this exemption from the law will make it possible for us to prosecute in cases of this nature." The fraud and deceptions act provides that not more than 20 per cent of the fruits and vegetables in the package shall be of inferior grade than that shown by the face.

Warns Autoists New Act Boosts Accident Costs

Case Points Out Law Bars Drivers Unable to Pay \$150 Judgment

With the tide of highway accidents in Michigan on the upgrade, and an accompanying increase in the toll of life, limb and property damage, Leon D. Case, Secretary of State, has pointed out an act of the 1937 legislature which will make accidents more expensive than ever for the person deemed responsible for them. In 1933, the financial responsibility law was passed, barring from the roads any operator unable to satisfy a judgment of \$300 or more in property damage, or for any amount in personal injury, as the result of an automobile accident. Bar Non-Paying Drivers Drivers are barred until they pay their judgments, and even after that, in order to regain the privilege of driving, a driver must prove his future financial responsibility, as the law directs. "Proof" must be in the form of the posting with the Secretary of State, of \$11,000 in cash or negotiable securities, or the filing of a special form of liability insurance. The 1937 legislature reduced the unsatisfied judgment provision from \$300 to \$150, which means, Case points out, that more drivers than ever will probably become involved in the law. Drunk Drivers Caught The most interesting feature of the law's operation, however, is that the overwhelming number of persons brought under the law are those convicted of drunk driving, rather than those unable to meet damage judgments. Operators are barred from driv-

ing for three years periods following conviction of a number of motoring offenses specified in the financial responsibility law. It is believed, however, that with the lowering of the amount which will involve drivers in the law's provisions, that lack of financial responsibility, rather than lack of sobriety, will eventually be a major cause for disbarment from highways.

Place Furniture in Utility Groups, Suggest Experts

Useful Arrangements Make Room More Inviting, Specialists Say

Grouping furniture for usefulness such as for reading, sewing, or writing makes the room inviting because it suggests what one may do when he enters, say extension specialists in home furnishing at Michigan State College. The furniture should be grouped for a purpose, and separate pieces should not be left alone. Single pieces appear isolated and useless, as few persons sit down and do nothing. Desks are useless without a chair and a lamp, and so are tables unless they are near a person who is sewing, reading, or working on a hobby, say the extension specialists.

Activities of the various members of the family should be considered when one is planning the various furniture groups, suggest the home furnishings specialists. For instance, the living room may have one or more reading groups. These reading groups usually consist of two chairs turned toward each other with a table and a lamp between. Readily accessible bookshelves are necessary, of course. Low home-made shelves of simple construction often fit into the furniture arrangement better than the larger, more elaborate, ready-made type, say the specialists. Besides the reading group, the homemaker should consider provisions for writing, sewing, rest, conversation, and perhaps a play corner for children. Rest Lounge Needed Every living room needs a day bed, a couch, or a davenport to enable one to rest without having to use a regular bed. If there is no space in the living room, the day bed may be placed in the dining room, or even in a corner of the kitchen. Provisions should be made so that two or three people may sit together to visit, without the inconvenience of first carrying chairs across the room. In addition to adding an appearance of order and neatness, grouping the furniture gives the effect of added space.

Man-Labor Still Leads Expenses on Mich. Farms

M. S. C. Survey Shows Tractor, Horse Costs Only 25 Per Cent

Muscles of men still dominate Michigan agriculture. In a survey of labor costs on 33 typical farms in the state where two-plow tractors are in use, man labor costs averaged 75 per cent of the total, horse labor costs were 15 per cent and tractor labor costs were 10 per cent.

K. T. Wright and H. B. Taylor, in the farm management section of Michigan State College, conducted the survey. Because men and horses continue to do much of the work in the state, a large change in tractor costs is necessary to bring about any appreciable effect on the total labor and power costs on any farm, they conclude.

Tractor Costs Vary

The survey proves, as previous surveys have shown, that tractor costs vary greatly, usually showing sharp reductions when a larger number of hours of work is found for a tractor during a year. One-plow tractors average 1.2 years in age, were used an average of 508 hours per farm at a cost of \$201.64, half for operating, the other half for fixed cost including depreciation, interest and shelter.

Two-Plow Average \$171.75
Two-plow tractors averaging five years in age cost an average of \$171.75 for 291 hours of work. Operating costs averaged 52 per cent. The six-year-old three-plow tractors showed a year's cost averaging \$233.33 for 344 hours

of work.
On an hourly basis, the one-plow machines cost 40 cents, varying on farms from 25 cents for 967 hours to 73 cents an hour for 302 hours. The two plow tractors averaged 59 cents an hour for total cost. Variations were from 32 cents for 207 hours of use, to \$2.28 for only 47 hours. Three-plow tractors showed costs of 68 cents an hour, hanging from 46 cents for 332 hours to \$1.06 for 106 hours of use.
