Engineer To Submit Information on Paving Projects Monday Night

Buchanan property owners who are interested in the projects for additional sewerage drawn up recently and submitted for federal aid will be granted an opportunity to appear before the city commission and the city engineer at the city hall next Monday evening and secure further information and to make objections

The projects were drawn up and petitions signed by over 51% of the property frontage concerned in each case. The meeting Monday evening will constitute a final hearing where they may reverse themselves and enter objections if they so wish. F. F. A. FAIR GREAT SUCCESS

It was reported by Mr. Langer, the Future Farmer advisor, and Miss Krebs of the Home Economics Department, that the fair held last week was a great success. It was larger and better than the agriculture classes anticipated.

The quality of the exhibitions was good. The only weak point was in the potato exhibit, but this was due to the poor potato crop of the year.

Mr. Langer would like any suggestions on how to make the Future Farmer Fair a better community chapter.

The Future Farmers are now sponsoring an all county agriculture contest to judge poultry, apples, grain, and potatoes. Those

Sponsor Party

The high school dance, November 11, sponsored by the presidents of the Middle Atlantic and vice-presidents of the classes, turned out successfully as they usually do. A large crowd attended and the "jitterbugs" seemed to be enjoying themselves. The music was furnished by the high school orchestra which this year is very good. The players have done their part in becoming familiar with the popular swing pieces of today in order to satisfy the "whims" the students.
