

SCHEDULE HEARINGS FOR WPA PAVING

Clark Equipment and Schools Consider Apprentice System in Shops

City Applies For WPA Grant

Projects Will Be Paid for By Lot Owners and WPA; No General Bonds

In another column of this issue is a resolution by the city commission calling for a meeting to hear objections to the proposed WPA blacktop paving projects on 12 streets, which were initiated by petitions last fall.

The hearing is set for the city commission chambers on the evening of May 1, beginning at 7:30 p. m., to hear objections. The application for a WPA grant was made about two weeks ago, and has not been heard from yet, but the city officials feel assured that the funds will be available. The combined projects, if none are barred by the required amount of objections, will total about \$100,000 in cost, of which the city property owners whose frontage is on the projects will pay \$35,000. There will be no general bonds issued by the city and no general indebtedness incurred.

Portage street was dropped from the list of projects by the city commission on advice of the engineer, on the grounds that there are not sufficient properties affected which are able to carry the expense. The Charles and Theoda court projects were substituted.

The specifications call for three inches of blacktop paving and for concrete curb and gutters. The cost on the lot owners would be about \$1.10 per lineal foot.

Fred Smith Named Commissioner
Fred Smith was reappointed city commissioner and took his seat on the city governing body Monday evening, replacing Phay Graffort who resigned. Mr. Graffort submitted to the commission the following letter:

Honorable Board of Commissioners Gentlemen:
For business reasons and the assurance of harmony on the board for the coming year, I hereby tender my resignation as city commissioner to take immediate effect.

Yours respectfully,
P. A. Graffort.

City Births Double Deaths in Past Year
Births in the city of Buchanan were more than double the deaths during the year from April 1, 1938 to April 1, 1939, according to City Clerk Harry Post, the numbers reported including only the births and deaths actually occurring in the city. Births for the year were 81, of which 25 occurred in the months of January, February and March. Deaths in the year totaled 38, of which 14 occurred in January, February and March. Births or deaths which occurred in hospitals outside the city are not included.

WPA Relays Portage Street Sewer
The WPA force is relaying the sewer tile on Portage street from Third street to Chicago, because of excessive ground water leakage into the old tile there. While 95% of the present sewage of the city which runs through the Third street sewer amounts only to about 4 inches of flow in the 12 inch tile, the remaining 5% which empties through the Portage sewer is diluted with a heavy leakage of ground water which fills the 12 inch tile to capacity. Proper handling of the sewage through the new disposal plant required the elimination of this ground water by the relaying of the tile.

Evan. Church Has New Bulletin Board

A handsome illuminated bulletin board, the workmanship of George Nelson and William and Milford Schultz was erected in the past week in front of the Evangelical church. The words "Evangelical Church" are in handsome gold lettering and the entire bulletin is enclosed in glass and lit with electric lights.

Mr. and Mrs. Curtis Thornburgh of Muncie, Ind., were guests Saturday and Sunday at the home of the latter's parents, Mr. and Mrs. Herbert Hanover.

Divorcee Asks for 'Freedom of Dress'

The fondness of Ellen Tilton Holmsen, society divorcee, for going about in woolen pajamas finally convinced police chiefs of three New Jersey towns that she should be "expelled" because she attracted too much attention. She then wrote to Washington for a badge saying "Leave this girl alone, she's all right." Mrs. Holmsen is pictured here with Hollywood's Peter the Hermit whom she visited shortly after her divorce in 1934.

Mercury at 20 Above Yesterday

Cold Weather of Past Month Has Held Fruit Back in Safety

The hard freeze of Wednesday morning, which extended in the form of hard frost as far south as Texas, did little or no fruit damage in the Buchanan district, in the opinion of local fruit growers. The fruit has remained practically static in advancement for the past month by reason of the cold weather during that time, and the fruit has at no time been advanced to the point of possibility of damage.

The mercury registered 20 above early Wednesday morning, and branches of trees and shrubbery were encased in ice, but scarcely long enough to have a smothering effect. The only possible damage, growers stated, would be in the case of unusually early or sensitive fruits, such as apricot or early sweet cherries.

Funeral Friday for H. H. Ropp

Had Lived in Buchanan 20 Years, Farming and Keeping Store

Horatio H. Ropp, 77, died at his home at 505 Berrien street at 8 a. m. Wednesday as the result of a stroke suffered Monday.

Mr. Ropp had lived in the vicinity of Buchanan since 1920, farming in this vicinity and also conducting a neighborhood grocery at Fourth and Moccasin.

He was born in Ohio Sept. 14, 1861, the son of Andrew and Catherine Ropp. He married Barbara Morris on July 21, 1881, at Urbana, O. He is survived by his widow; by the following children: Mrs. Florence Snedeker of Hensseler, Ind.; George Ropp of Pokagon, Guy Ropp of Indianapolis, Coral Hunsberger of Dowagiac; by one sister, Mrs. Barbara Green of Cable, O., by one brother, Emmanuel Ropp of Urbana, O.; by 15 grandchildren and nine great grandchildren. One son, Roy, died in 1934, and a daughter died in infancy.

The funeral will be held from the Swem Funeral home at 1:30 p. m. Friday, with Rev. Paul Ewing in charge and burial will be made at Riverside cemetery, Dowagiac.

Arthur J. Newsom Expires Thursday

Funeral services were held at 2:30 p. m. Saturday at the Portage Prairie Evangelical church for Arthur J. Newsom, who had died at his home on Portage Prairie Thursday.

Rev. C. H. Trueschall preached the funeral sermon, and burial was made in the Portage Prairie cemetery. Pallbearers were Lewis Smith, William Kell, Ira Swartz, Isaac Wells, Clifford Upham, Clarence Trickle.

He was born Jan. 29, 1882, at Buck Creek, Ind., the son of John Williams Newsom and Amelia Ann Yost Newsom. He married Sarah Rebekah Hughes May 16, 1904, at Galena, Ill.

He is survived by his widow and by the following children: Mrs. Mervin Andrews, Darlington, Wis.; William Newsom, at home; Mrs. Otto Siwert, Portage Prairie; Mrs. Lyle Korn, Portage Prairie; by the following sisters and brothers, Mrs. Edgar Rose and Charles Newsom of South Bend, Guy Newsom of Buchanan.

Street Railway Engineers Predict Extensive Use of Clark Subway Car

Is Planned in Else on New York-Brooklyn Run

The following article on the trial run of the experimental subway car built by the Clark Equipment company at its Battle Creek plant is taken from the New York Herald-Tribune of March 29:

The first rapid transit car ever to be entirely rubber-sprung instead of being suspended on clanking metal parts made a swift and silent trip over tracks of the Brooklyn-Manhattan Transit Corporation yesterday carrying an enthusiastic group of railroad manufacturers and engineers who predicted that the radically different subway car would be the forerunner of the same type not only throughout the subway systems of New York but also those of Chicago, Philadelphia and Boston.

The car will be exhibited to the public today from 10:30 a. m. to 4 p. m. at the B. M. T. Park Row station at the Brooklyn Bridge. It will go on a regular passenger service on the B. M. T. Fulton Street "F" line between Park Row and Lefferts Avenue, Queens.

Built of aluminum alloys, the car is mounted on resilient wheels and is cushioned with 1,000 new rubber parts. The most noticeable change in subway car design is that the car is divided into three separate sections, so that it bends in two places on curves. This, and the use of lightweight metals, was necessary to make use of the new type trucks which have made the swift, quiet, modern streamlined street cars possible. The trucks would not bear the weight of the present heavy one-piece steel car.

The car has the pick-up and deceleration speeds of a good automobile, reaching twenty miles an hour in six seconds, and cruising at forty. Passengers on a local line party.

equipped with the new cars will reach their destinations almost as swiftly as the present express covers the same distance. The smooth-riding qualities of the car were emphasized for the 200 persons on the round trip from City Hall to Queensboro Plaza by the service of a four-course box lunch, including coffee, all of which was consumed with comfort.

William S. Menden, president of the B. M. T., said during the ride that the cars were more economical, costing about \$500 a lineal foot, compared with \$700, the price he said the Independent Subway system paid for their most recently added cars. The car is eighty feet four inches long, ten feet wide, and weighs 76,000 pounds. There are four trucks per car. The maximum wheel load is 7,500 pounds, half that of the standard sixty-seven-foot subway car.

The car ran out to Queensboro Plaza and back to City Hall in one hour, pausing a few seconds at forty-second Street and at a few other stations where crowds collected to gaze at the strange car, and the stranger sight of subway passengers dining from airplane box lunches of chicken, Waldorf salad, celery, olives, ice cream and other delicacies.

Among others on the run were E. B. Clark, president of the Clark Equipment Company, which built the car; John H. Delaney, chairman of the Board of Transportation; M. Malvoin Fertig, a member of the Transit Commission; Gerhard M. Dahl, chairman of the board of the B. M. T.; Col. David M. Goodrich, chairman of the board of the B. F. Goodrich Company; Roy A. Hunt, president of the Aluminum Company of America, and H. L. Andrews, vice-president of the General Electric Company.

Finish Paying \$50,000 Principal \$85,000 Interest on Waterworks

Total Cost to Taxpayers in 46 Years is \$125,000

The payment of the last \$15,000 of the waterworks bonds, voted at the regular April meeting of the city commission, will bring to an end 46 years of interest paying on that obligation, during which the city has paid the original cost of \$50,000, plus not less than \$85,000 in interest, bringing the total cost of the original plant up to \$135,000, not to mention the cost of later installations, additions, maintenance and repair. The story of the payment of the bonds has been a melancholy chapter in the financial history of the city. There is no readily accessible record of the interest payments during the first

sixteen years until the refinancing in 1909.

That time new bonds were issued at 5% for \$49,000, the refinancing company donating the equivalent of one of the \$1,000 bonds. Interest payments continued after that at approximately \$2,500 per year. In 1911 the first actual debt payment was made, when three bonds were retired. Then there were four more years of slightly diminished interest, and in 1915 2 bonds (\$2,000) were paid, bringing the total reduction of that date to \$6,000.

That was the last payment for 12 years, when retirement was again begun with the payment of \$4,000 during 1937.

The following retirements were then made: 1928 \$3,000; 1929 \$3, (Continued on Page Five)

Vocat. Training Chief Pays Visit

F. W. Dalton Visits Plant and Schools; Talks to Lions Club

F. W. Dalton, chief of the trade and industrial division for the state board of control for vocational education, visited the Buchanan schools and the Clark Equipment company shops yesterday afternoon in the interest of possible collaboration in an apprentice system here.

Interest began locally in the apprentice system of collaboration between schools and industries, but nothing definite had been done until recently. Messrs. Charles King, M. F. Surls and A. H. Kiehn of the Clark Equipment committee on education accompanied Supt. H. C. Stark of the Buchanan schools to Dowagiac recently to inspect the apprentice system which has been in effect there two years. In Dowagiac this system involves collaboration not only between the schools and the industrial plants but with stores and other business houses as well.

Mr. Dalton spoke on the subject last night before the Lions club.

The Reliable Independent Workmen of the Clark Equipment company plant met Wednesday evening of last week and elected as trustees Ernest Grimes, Carl Thanning, and Nicholas Howard, to succeed Maurice Dalrymple, William Shultz and Loren Perry.

Justin Howe Dies at 13 Years Old

Funeral services were held at 2 p. m. yesterday from the Swem Funeral Home for Justin Howe, 13, son of Mr. and Mrs. William Howe of the Range Line road, with Rev. C. A. Sanders officiating and burial was made at Long Lake cemetery.

The boy died at 9:15 a. m. Monday at the Pawating hospital cause of death being sarcoma of the cheek.

He was born Aug. 11, 1925, the son of William and Esther Herman Howe. He is survived by his parents, and by the following brothers and sisters, all at home: Hilda, Shirley, Robert, Jack, Raymond and Gordon; by a grandfather, Frank Herman; by a grandmother, Mrs. Peters of New Troy.

Library Exceeds Circulation Mark

The Buchanan Public Library established what was very likely an all-time high for circulation in March with a total of 2,240 books loaned over the library's desk. The all-time mark for circulation in one day was 186 on March 3 which exceeded the average for a month before the reorganization. Other good days were: March 6, 128; March 9, 108; March 20, 116.

Must Apply Early To Enter Military Training Camps

Supt. Stak, who is a member of the Berrien County Committee for enrollment in the Citizens Military Training school, states that he has application blanks at his office. Young men or boys who will be 17 before July 11, 1939, should see him and enter their names at once as application must be made within the next few days. Training for the various branches is given at the following places: Camp Custer and Fort Brady, basic and infantry; Fort Sheridan, cavalry; Camp McCoy (Sparta, Wis.) field artillery.

A Cottage Cheese
In summer days I trim the rose
My cottage lawn around
And ply the pruning shears and hose
About my verdant grounds.

Nor envy he of lurid taste
Who joyous whoopee makes
Among the sinned, sonkissed dames
In hot spots on the lakes.

For me the rose has more allure,
More hint of beauty's law
Than poddy guys with knobby legs
And women in the raw.

And yet I know that he who lusts
For simple sights like these
Has thereby marked himself as just
Another cottage cheese.

Miss Grace Enk Wins \$250 Prize

The magazine "Win" announces that Miss Grace Enk of Buchanan is winner of \$250 in a prize contest for a sentence of 25 words or less telling why she liked the magazine. Of the total amount, \$50 was for the best sentence submitted before March 10, and the remaining \$200 was for the best sentence submitted during the whole month of March.

Schuyler Hinman Dies in New Mex.

Schuyler Hinman, 78, son of the late Judge David E. Hinman, died April 4 at the Clovis hospital at Clovis, New Mex., after a long illness. The funeral was held April 7th, at 2 p. m. and burial was made in the Clovis cemetery. Mr. Hinman was born March 6, 1861, in LaPorte county, Ind. He spent his early life in and about Buchanan. He was united in marriage to Nellie O. Davidson, who died March 19, 1938. To them were born three sons: James E. who preceded him in death; Harold L. of Los Angeles, Calif.; David E. of Buchanan. He is also survived by a sister, Mrs. Alfred Hall of Buchanan.

Revival Services at Bertrand Church

A series of evangelistic meetings are to be held at the Bertrand Community Church of Bertrand, Michigan beginning Monday, April 17 and closing Sunday, April 30. WHY NOT A GARDEN CLUB THIS YEAR?

Buchanan is one of a minority of towns of any size at all in Michigan lacking a garden club.

Towns in the county that have maintained garden clubs in the past years are Niles, Watervliet, Coloma, St. Joseph, Benton Harbor and possibly Berrien Springs although the information the writer has on the latter place is not definite.

A primary purpose of the garden club is the mutual benefit which the members receive in the development of their own gardens. This takes the form of swapping ideas, literature, seeds, cuttings, plants and the like. The organization operates as a sort of clearing house for the garden-minded.

In some towns the club is also an agency for the improvement of the appearance of the community. The club may not actually do the work, but its membership brings influence to bear on the proper agencies to get things done.

There are few places in this part of the country where there are more neglected opportunities for scenic improvement which would cost little but energy and interest.

Interest in flower gardening is growing here as elsewhere. It is a fine leisure-time hobby, comparatively inexpensive, rich in returns in health and peace of mind.

Unique Car Conditioning System at Chevrolet Plant

One of the major accomplishments of the motor industry has been the placing of hundreds of thousands of automobiles in owners' hands the world over in absolutely uniform condition. Chevrolet does this in a unique manner. In a building entirely separate from the production lines, a Car Conditioning department takes the units after final assembly and inspection. Here they are not only inspected but actually conditioned for delivery. Details such as tire pressure, radiator anti-freeze, transmission and rear axle grease, motor oil, and ignition timing are thoroughly checked and adjusted for the locality to which the car is consigned. The photo shows the Car Conditioning department at the Flint plant, where a staff of 70 trained mechanics turns out about 50 cars an hour.

GALIEN NEWS

Galien Boy Heads NYA Project

A. Marshall
Stanley Leo Thompson of Galien has been elected president of the newly-formed youth council of the NYA Resident Work Project at Marshall by a vote of the youth on the project.

The Council is made up of four officers and a member-at-large who may vote on all questions. Incorporated primarily to give experience in solving the daily problems that arise at the project, it also gives the enrollees a voice in the Marshall unit. Although final decisions rest with the project supervisor, James E. Brown, the Council acts as a sort of board of directors, submitting to the NYA officials their interpretation of administrative problems.

The members of the Council are: President, Stanley Leo Thompson of Galien; vice-president, Earl Yonahs of Grand Lodge; secretary, Marvin Harper Jr., of Watervliet; treasurer, Maynard Gray of Owagiac; director-at-large, Merrill Root of Charlotte.

This Council supervises the work of committees comprised of workers at the Marshall unit, which in turn has charge of athletics, kitchen, shop, recreation, conduct and discipline, and rooms and occupants.

The Marshall Resident Work Project is sponsored by the city's board of education and financed by the National Youth Administration. It gives academic and vocational

training along with exploratory work experience to 40 young men who otherwise would be financially unable to continue their education. The boys work 35 hours a week two weeks out of each month. On alternate weeks they attend classes in manual arts and other prescribed studies. In this way, theory learned in the classroom is supplemented by practical application on the job.

The Marshall unit is one of seven Resident Work Projects now maintained by the NYA in Michigan.

Mt. Tabor Grange
The Mt. Tabor Grange will hold its regular meeting Friday evening, the program to be featured by a talk by Dean Clark on soil conservation, and by talks by Clifford Hollenbeck and Arthur Spaulding on matters of farm interest. There will also be readings and music.

158 Year-Old Sampler
An article of more than usual antiquarian interest is a sampler, the property of Mrs. Jane Dunbar of the Coveny district and the handwork of her great-grandmother, Catherine Dupes, in 1781. The sampler is 24-26 inches in dimension, made of white linen and worked with red, blue, yellow and pink threads. Both the linen and the thread retain their original colors. Catherine Dupes lived in Cherry Valley in eastern Pennsylvania and was a widow of one of the victims of the Cherry Valley massacre. Her story, which has been in print, is included in the life of one of the characters of Pearl Buck's "The Exile," the book which won Mrs. Buck the Nobel prize for literature. Mrs. Buck's mother was a native and resident of Cherry valley.

Rev. Paul Ewing of the Buchanan Church of Christ gave a fine sermon before a near-capacity audience at the Oronoko Methodist church Friday evening.

Actors Avoid Sitting

On "Western" Location
There wasn't any danger of a sit down strike on the Kernville, California location during the filming of producer Harry Sherman's new "Hopalong Cassidy" action romance, "Sunset Trail." In fact, the members of the company refused to sit down because William Walker, a cowboy actor, while reclining on the ground, was bitten by a pahulla, a rare but poisonous insect. William Lloyd is seen again as "Hopalong."

RENCEY LESSONS

A LA BENNETT

French might well be the universal language if everyone could be coached by the glamorous teacher, Eddie Conrad had during filming of Hal Roach's "Topper" takes a "trip." His tutor was Constance Bennett, star of the production.

Conrad, former vaudeville headliner who is now one of motion pictures' foremost character actors, plays the role of a warden in a jail in Southern France. Miss Bennett, well versed not only in Parisian French but also in the patois of the various districts through many years residence in that country, undertook to coach Conrad in the argot of the particular district in which the scene is laid.

NOW IT'S SWINGTIME

FOR "OLE MAN RIVER"

Old man river has gone swing!

The Mississippi may keep on rolling, just as it has in thousands of time-honored folk songs, but it will have to roll to swingtime after the nation has seen "St. Louis Blues," the new Dorothy Lamour, Tito Guizar, Maxine Sullivan and Matty Malneck and his orchestra. The songs are: "Kind'a Lonesome," "Junior," "I Go For That," "Blue Nightfall" and "Let's Dream In the Moonlight." Miss Sullivan—as is her custom—swings the classics, this time, "Loch Lomond" and "Dark Eyes."

"I Am the State" Saying
King Louis XIV of France, the "Grand Monarch," is credited with the phrase "L'etat c'est moi," or "I am the state."

Sherwood Is a Forest
Considerable sections of Sherwood forest, legendary retreat of Robin Hood, still remain.

With the Medal Men at Clarks

Continued from Page One
operating the hotel. He was then in Niles for a time, paying \$3 a week for room and board, and later in Kalamazoo he paid \$3 per week for his meals, and his share of the weekly cost of a room occupied with a roommate was \$2. After he had returned to Buchanan in 1905 to work for the George R. Rich Manufacturing company the board and room at the Hotel Rex for \$7 per week for both himself and wife. Later he rented a furnished house at \$5 per month for the winter. This was a reduced price, but he later rented a partly furnished house for \$10 per month. During the late nineties Stephen Gladwish was working at Three Oaks and was getting room and board at the Martin Hotel for \$2.50 per week. He hired to Harry Berry at the George R. Rich plant in 1905 and in several succeeding years he rented a 7-room house on Detroit street for \$10 per month. Arthur Voorhees came to Buchanan in 1906 and for some time room and board from Mrs. D. Kent at \$4.50 per week. Later he rented the old Eaton house Fourth and Moccasin (now occupied by a grocery) at \$8 month. He went from there to Bird property, now the Bert Mo

gomery property, which he also rented for \$8 per month. Charles Hoffman worked at the Lee & Porter plant in early years, and previous to his marriage in 1902 paid \$3.50 and \$4 for room and board. Arthur Johnston got room and board, with mending and washing included, for \$4 per week up until the World War. Frank Chubb started at the Celcor plant in 1907, and got board and room at the Cottage hotel for \$8 per week. Harry Berry started at the Rich plant immediately after its opening in 1904, renting a 6 room house for \$8 per month. Frank Mann started in 1908, renting the house where Mrs. Bertha Hanover now lives at \$8 per month. J. E. Cook started at the Celcor plant in 1908 and rented a house on ground now occupied by the plant at \$7 per month. Guy Young started at the Lee & Porter plant in 1901 and secured room and board for \$3.50 per week. J. L. Vincent rented the home

week. George Ekner started at Celcor's first in 1910, getting \$9 per week. On those wages he bought a small house still standing on Cayuga, making monthly payments and also making improvements. He was also able to buy a horse and a swanky buggy, a second-hand custom-built rig from Pete Bachman, with Lee & Porter wire wheels and rubber tires. Walter Lamb started in 1910, rooming in the present Marble home for \$1.50 a week and getting his meals at Harry Stanton's restaurant (where Snyder Cafe now is) for \$3.50 for 21 meals. S. W. Denno started in 1911 at \$10.50 per week and bought a house with \$900 due.

The above and also the experience of men versed in real estate operations indicates that rents started to rise with the beginning of installation of modern improvements. The same homes that I have spoken of above as renting from \$5 to \$10 before 1910 and from \$8 to \$15 in the early teens will rent to day from \$18 to \$30 per month and more. Only—they are not the same houses. There have been modern installations—bathrooms, central heating, electric lights, gas, sewers, hot and cold water, etc. In 1905 it is very likely they had none of the above except perhaps water and lights. They rent, with these conveniences added at from 200% to 250% more. Much of the rise in rent is due to the added improvements.

It seems then that the meddler man today pays at least two to three times as much rent if he rents—but demands and gets more house. He paid as much for his food with the exception of meat poultry products and milk, all then home produced. He paid nearly as much for shoes, nearly as much for his work clothes. His salary is nearly equal in buying power to that of 1910, let us say, in the item of food, and clothing, less than half as efficient in buying rent. But the salary today falls down mainly because of the extra demands he makes on it. If he were willing to live in a wholly unimproved house, walk as he did in 1910 stay at home and get along on few and simple pleasures, \$12 at least would do what \$10 did then. The rest of the present salary could be saved on the basis of the same living scale.

But, you say, who wants to live that way?
Yes, who does?

Devil's Food Cake
Temperature: 350 degrees;
Time: about 50 minutes.
1 1/2 cups cake flour
1/2 teaspoon salt
1/2 cup fat
1 1/4 cups sugar
2 eggs
4 oz. unsweetened chocolate
1 cup milk
1 teaspoon baking soda
1 teaspoon vanilla

Sift, then measure the flour and sift 3 times with the soda and salt. Cream the fat until light and fluffy. Add the sugar, beating after each addition. Add the unbeaten eggs, one at a time beating until the mixture resembles thick whipped cream. Melt the chocolate, and when cooled add to shortening and sugar mixture. Add the dry and liquid ingredients alternately, mixing well after each addition. Pour into a 9-inch square greased pan. Bake. When cool cover with boiled icing, then pour a thin coating of unsweetened, melted chocolate over the top.

Orange Raisin Muffins
Temperature 425 degrees
Time, about 20 minutes
2 cups flour
1/2 teaspoon baking soda
1/2 teaspoon salt
1-3 cup sugar
1/2 cup raisins
1-3 cup strained orange juice
1/2 teaspoon grated orange rind
2-3 cup buttermilk
1-3 cup fat, melted
1 egg

Sift, then measure the flour. Sift it three times with the baking soda, salt and sugar. Add the raisins. Combine the well-beaten egg, orange juice, rind and buttermilk. Add the melted fat, then the dry ingredients, stirring just enough to blend. Fill greased muffin tins 2-3 full and bake. Makes 1 dozen.

Finish Paying For Waterworks Bonds

(Continued from page 1)

000; 1930 \$4,000; 1931 \$4,000. Of the latter figure \$2,000 were retired Oct. 1, 1931, only two weeks before the closing of both banks in Buchanan. That stopped bond retirements until 1935 when \$6,000 was retired. Then \$5,000 was retired in 1936, leaving \$15,000 still due, which are to be taken up by the city at the retirement date April 15, 1939.

On Feb. 26, 1893, the Record said:

The waterworks committee of the common council has agreed with Peter English of Benton Harbor upon the terms of a contract for a system of waterworks to be built in a first class manner for the village of Buchanan and to construct the long contemplated dam across the St. Joseph at this point.

By the terms of the contract the village will own the waterworks, will pay \$50,000 for it and will receive all rents and benefits from it. Mr. English builds the dam; owns it and operates it on his own responsibility; pays all ex-

penses of erecting the maintaining the dam; all overflow damages; receives all rentals and receipts for its use, excepting that amount required to operate the waterworks plant for a term of five years, he agreeing to furnish electricity delivered to the power house free of charge for that length of time.

The waterworks plant agreed on includes piping as follows: on front street from the arch over the creek to the Terre Coupe road; Detroit street from school lot to Third Street; full length of Lake street; Clark street from Front street to Alexander; Chicago street from Detroit to Clark; full length of Oak street; full length of Days avenue; full length of Main; full length of Portage street except from Front to Second; second street from West to Portage; Third street from Oak past the churches to West; Third street (south side) from Oak to Portage; Fourth from Portage to Lake; West street (now Moccasin Avenue) 1,000 feet north from Fourth; Railroad street from Oak to Portage. In all nearly five miles of piping.

The pumps are to have a capacity of 2,000,000 gallons in 24 hours. The water is to be taken from 8 tubular wells six inches in diameter, somewhere in the vicinity of the pad factory (now the Virginia apartment buildings). The largest pipe will be 10 and the smallest four inches in diameter. The plan is such that at any time in the future the village may build a standpipe without additional expense for large pipe, as the ten inch pipe will lead to the old school now the Dewey Avenue school house grounds, where it is thought the standpipe will be located.

The dam is an independent matter, to be built by Mr. English and owned by him, operated by him and kept in repair by him but he contracts to use all of the power inside of the village limits of the village of Buchanan, and not to transmit it to any point outside of the village, excepting on special permission of the common council of the village.

The commission called an open meeting in the Rough Opera House Friday, March 10, for public discussion of the issue. On Monday, March 13, the voters went to the polls and voted the bonds over \$10 for to 15 against.

The issue of the Record of April 6 contained three items bearing on the public improvement situation. The common council allowed a bill of \$7.50 to Jessie Proud for lamp-lighting for six nights. It was reported that a Mr. Rynearson had completed a test well on Zinc collar pad lot encountering a fine flow of water in a strata overlaid with four feet of blue clay and extending from 10 feet to 50 feet below the surface. The council granted a lighting franchise to Peter English.

On April 13, 1893, the Record said:

We are to have 'em. A corporation has been formed and articles of association filed with the secretary of state under the title of Buchanan Power & Electric company to furnish electric light, heat and power in the village of Buchanan. That company now comes before the people with the following proposition: For all lamps ordered

The marks of the fire in charred timbers still visible in the loft of the barn.
No mention was made of the rate of interest paid for the first sixteen years on the bonds issued but it is likely that the rate was 5 1/2% since the original call for bids was for offers not to exceed that amount. The only description of the successful bid was that it was for "par less \$950." If the above supposition is correct the interest for the first sixteen years was about \$44,000; if the rate was 5%, the interest was about \$40,000. At any rate the total interest was fully \$85,000.

A STAR NO LONGER

Two reasons were given why Mike Klotovich, backfield ace, quit school recently at St. Mary's, depriving Coach Slip Madigan of one of his best men. Mike said he needed the money to support his parents. University officials stated that he suffered from "academic apathy." Here he is at work on a construction job in San Francisco.

the Bell System.

For example, we get our equipment from the Western Electric Company, manufacturing unit for all Bell Telephone Companies. This assures us of the finest standardized equipment at a lower cost than we could buy it elsewhere.

Instead of conducting our own research department, we pay a fraction of the cost of maintaining the centralized Bell Telephone Laboratories, "Home of Telephone Progress." In this way we have the use of the improvements developed by a complete research program which no one associated Bell Telephone Company could afford to maintain.

This efficiency . . . avoiding wasteful duplication . . . is one reason why your telephone service is better and costs less than any other telephone service in the world.

You are invited to listen to a new radio program, "Here's Your Party," presented at 6:30 P.M. each Tuesday, Thursday and Saturday night over WXYZ and the Michigan Radio Network.

When you use certain ingredients haven't you wished you often knew more about them? Just what they are and why? At intervals along with everything else that we discuss in our column, I shall tell you about some of these supposedly mysterious ingredients.

Baking soda is one of the household's simplest ingredients to use and has a hundred and one uses if not more. To the grocer and homemaker it is known as baking soda, but to the pharmacist and doctor it is bicarbonate of soda.

In reality baking soda is a mildly alkaline, highly refined powder, quickly and easily soluble in water. It contains large quantities of carbon dioxide, the same gas found in ginger ale and soda pop. In combination with acid cooking ingredients, it is among the oldest chemical leavening agents.

In order to obtain the delicious, tender, and moist baked products made with baking soda and sour milk the carbon dioxide gas must be released. The baking soda naturally reacts with acids, and therefore, reacts with many ingredients other than sour milk. Those commonly found in the home are molasses, buttermilk, cottage cheese, sour cream, chocolate, cocoa, lemon juice, orange juice, vinegar, brown sugar, honey, and apple sauce. One or more of these may be used in the same recipe with baking soda.

Developing recipes is not as simple as one, two, three. Without generous reservations, no hard and fast rules for leavening can be followed successfully under all conditions. So I say once more select a recipe from a reliable source—one you know has been thoroughly tested. Then measure, don't GUESS! Bake a masterpiece each time.

Many fine recipes call for sour milk or buttermilk and upon inspection you find none available. Don't worry, simply place 4 teaspoons lemon juice or vinegar in a standard measuring cup, fill to the one cup mark with sweet milk or diluted evaporated milk. The resulting liquid is equal to natural sour milk or buttermilk when it is best for baking. Sour cream

Who knows most about Building cars?

Ford has built more than
one-third of all the automobiles ever built in the world

THERE are more Ford cars in use today than any other make. And there are more Ford V-8s than any other 8-cylinder car.

The 1939 Ford V-8 represents the broadest experience in building cars any manufacturer ever had. You will find values in it far beyond what any other maker can put into a car at the low Ford price.

Ford performance, traditional for a generation, has reached new heights in the 1939 V-8.

And now Ford style leadership is equally outstanding. "The smartest cars on the road" is the way owners describe their new Fords. Smartest in action. Smartest in appearance. Leaders, as they deserve to be.

FORD V-8

APRIL IS FORD INVITATION MONTH! Your Ford dealer invites you to drive America's most modern low-priced car. Make a date for a new experience.

Look at these FORD FEATURES

- **STYLE LEADERSHIP**—The luxury car in the low-price field.
- **V-8 TYPE 8-CYLINDER ENGINE**—Eight cylinders give smoothness. Small cylinders give economy.
- **HYDRAULIC BRAKES**—Easy-acting—quick, straight stops.
- **TRIPLE-CUSHIONED COMFORT**—New flexible roll-edge seat cushions, soft transverse springs, double-acting hydraulic shock absorbers.
- **STABILIZED CHASSIS**—No front-end bobbing or dipping. Level starts, level stops, level ride.
- **SCIENTIFIC SOUNDPROOFING**—Noises hushed for quiet ride.
- **LOW PRICES**—Advertised prices include many items of desirable equipment.

Kittie Creviston Dies at Garrett

Funeral rites were held at Garrett, Ind., at 10 a. m. Monday for Mrs. Kittie Boone Creviston, 67, native and former resident of Buchanan, who died there Thursday evening.

She was born Sept. 6, 1871, on Portage Prairie, the daughter of Mr. and Mrs. James Boone, and moved with the family to Buchanan when she was eight. She married Frank Creviston and soon after they moved to Minneapolis. Thirty-five years ago they moved to Garrett, Ind. Her husband preceded her in death ten years. Survivors are her mother, Mrs. James Boone of Buchanan; two children, Mrs. Mary Nagle of Washington, Ind., and Kenneth Creviston, Garrett, Ind. The funeral was held at 10 a. m. Thursday from the family home and burial was made in the family mausoleum at Garrett.

Mrs. James Boone, Mrs. Nellie Boone and Jack Boone of Buchanan attended the funeral.

Eugene Smith Ends Life at South Bend

Mrs. Judson Markham was called to South Bend Saturday by news of the death of her nephew, Eugene Smith, who committed suicide at the home of his sister, Mrs. Lela LaRoche, 140 Lewis Avenue, in that city, by turning the jets of a gas stove in a closed room. He was born in Buchanan March 15, 1916, the son of Chester and Hazel Smith. At the age of three he accompanied his parents to St. Paul, Minn. He was survived by his wife, Mrs. Evelyn Smith who had gone to Detroit for employment and had sent for him to follow her.

"Topper Takes Trip" is Senior Choice

The sparkling film, "Topper Takes a Trip" which will be shown at the Hollywood theatre next Sunday, Monday and Tuesday evening, was selected by the senior class of the Buchanan high school as the best of the month at the Hollywood, on the score of competent acting and general appeal.

"Stage Coach" was second choice.

Derivation of Word Goulash The word goulash is from gulyash, meaning cattle herdman. The first goulash was cooked at Hortobad, near Debrecen, Hungary, more than five centuries ago by the herdsmen in the open.

The Golden Text (Romans 5:11) is: "We also joy in God through our Lord Jesus Christ, by whom we have now received the atonement."
Among the Bible citations is this passage (John 3:16): "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 333): "Christ expresses God's spiritual, eternal nature. The name is synonymous with Messiah, and alludes to the spirituality which is taught, illustrated, and demonstrated in the life of which Christ Jesus was the embodiment."

Busses leave Niles for South

Auxiliary President, Mrs. Anna Mae Lochner, St. Petersburg, Fla., and Captain Robert G. Woodside, Pittsburgh, Pa., President of the Board of Trustees of the V. F. W. National Home.

The new structure will provide gymnasium and recreational facilities for approximately 200 orphans of war veterans. Funds for this building were provided by the Ladies' Auxiliary which also constructed a \$35,000 Hospital for this child welfare undertaking.

Unique among philanthropic projects of the country, the V. F. W. National Home is a community of individual homes, in addition to the hospital and the new Community Center. Without cost, the children are provided with food, shelter, clothing and education in the public schools of Eaton Rapids, Mich., until they reach the age of self-sustenance.

The V. F. W. National Home, founded in 1925, represents an investment of nearly one million dollars. It is maintained largely through the voluntary contributions of the individual members of the Veterans of Foreign Wars of the U. S., and its Ladies' Auxiliary, represented throughout the country in 6500 local units.

The dedication ceremonies on April 23 will serve also to launch the 1939 nationwide distribution of Buddy Poppies which will be offered to the public by the V. F. W. and its Ladies' Auxiliary prior to Memorial Day. One penny from each Buddy Poppy sold is devoted to the maintenance of the V. F. W. National Home.

Society Notes

Emil Reinke and Myrtle Davis Wed

Mrs. Myrtle K. Davis, daughter of Mr. and Mrs. William E. Koons of Dowagiac, and Emil H. Reinke, son of Mrs. Pauline Reinke of Buchanan, were married in Epworth Methodist church at 9:30 Saturday morning. Rev. Thomas Rice read the service in a setting of palms, ferns and pink and white snapdragons. Mrs. Reinke wore a blue costume suit with navy accessories and a corsage of white gardenias.

Lois E. Harwood, the only attendant, was clothed in a cyclamen dressmaker suit with navy accessories. Lillies of the valley and Joanna Hill roses made up her corsage.

J. Morrow Chubb of Buchanan assisted Mr. Reinke as best man and Lyle and Harold Davis, sons of the bride, seated the guests.

Out-of-town guests at the wedding were Mr. and Mrs. Koons, Mr. and Mrs. Richard Mallory of Dowagiac, Herbert Sweet of Chicago and Mr. and Mrs. Albert Carson and Mr. and Mrs. Howard Gray of Kalamazoo. The couple will be at home at Buchanan as soon as their new house is completed.—Grand Rapids Press.

Robert Watson Weds Nellie Mae Hall

Friends will be interested to

learn of the marriage of Miss Nellie-Mae Hall, daughter of Mr. and Mrs. Roland R. Hall of Fort Collins, Colorado, to Mr. Robert Watson of Burbank, California, son of Mr. and Mrs. Arthur Watson of Buchanan. The ceremony took place at the Hollywood Wedding Chapel, overlooking Beverly Hills, at 9:00 p. m. March 24th. The little chapel was lighted by many white candles and an organ prelude which included "O Promise Me" and "I Love You Truly" preceded the wedding march.

"The bride wore an 'ice blue' chiffon gown, pleated from the waist to the floor, and white satin sandals. Her bouquet was white roses. The couple were unattended."

Following the ceremony there was a small reception at the home of the bride's sister in Los Angeles. For "going away," Mrs. Watson wore a light "teal blue" dress with darker "teal" coat, and Japonica accessories.

Mrs. Watson graduated from Colorado State College in 1937, at which time she received a scholarship for a year's study at the Merrill-Jalmer school in Detroit to specialize in Nursery School teaching. It was while there that the bride and groom met. He was then stationed at the Selfridge Field air base. He is now employed at the Lockheed Aircraft corporation in Burbank. The bride was employed as head teacher in the Longfellow Nursery school at Royal Oak, until she went to California to be married.

The couple are now at home at 1703 Keeler street in Burbank.
