Smart to See—Smarter to Buy!
The model illustrated is the Buick SPECIAL model '39 four-door touring sedan \$996 delivered at Flint, Mich.
NOBODY has to tell you, skimming along at that brisk Buick pace, that plenty of eyes are turning your direction!
It's a smart car to see, all right—what you're discovering there behind the wheel is how much more there is to this beauty than a look or two will uncover!
You're feeling the eager power that a straight-eight can pour—when it's a Dynaflex eight with a cyclone in each cylinder to give life, lift—and thrift—to every smooth-flowing mile!
You're finding out that bumps can be tamed, that car riding can be level as flying—when all four wheels, not just the front, ride on stout coiled springs of soft and cushiony steel!
You're discovering how pleasant it is to look out through windows enlarged as much as 412 square inches. And you're enjoying that very special Buick "feel," firm and taut and steady, nowhere any skittery looseness, or wind wander, or hunt!
In a word, you're beginning to realize that, smart as it is to see, this Buick's even smarter to buy.
Smarter for the extra contentment you'll get from owning it—smarter even if you had to pay a premium to get it.
But you don't have to pay a premium! Instead, this great-eight beauty is today priced lower than some sixes. Costs are below those of a year ago. Total outlay—counting included equipment you'd pay extra for elsewhere—is often less than for some cars with lower advertised prices.
So what to do? Easy! Simply turn around, head for the showroom, get down to the details of trade-in terms, monthly payments, all that!
Even there you'll find your Buick dealer ready, willing, eager to serve—just like the good and gallant car he sells!

15,000 Hours Spent Building Largest Model Bridge

Dominick de Gregorio, 40, of Philadelphia, Pa., is pictured with his 30-foot model of the Delaware river bridge. De Gregorio started his miniature in 1933, during a time when he was unemployed. He has spent 15,000 hours in its construction, and has spent \$1,000 in the building of it. The bridge, unusually light, is made of balsa wood, and stands only 22 inches high. The only tools used were homemade knives and a razor.

Mr. and Mrs. Wm. Strunk returned home from Battle Creek last Sunday, having visited at the home of Mr. and Mrs. Harry Strunk for a week.

Curier School News
The pupils of Currier School went to The Chamberlain Museum in Three Oaks, Michigan, last Friday. The following Monday all English classes wrote a story about what they saw at the museum. Here are three of the stories. They are written by Carol Hawkins, Betty Straub and Betty Hall.

The Museum
(Story written by Betty Hall)
The things that interested me most at the museum were the stuffed birds, old ways of traveling and the old books. There were many stuffed birds, such as robins, cardinals, gold finch, and bluebirds. They were all in glass cases. In each case there was some sand or grass on the bottom of the case and trees and bushes in which the birds had their nests.

When our grandparents were our ages they used to travel in buggies or sleighs. When riding in these buggies or sleighs if it was cold they used a foot warmer. A foot warmer is something you get hot and put it under your feet to keep them warm.

There were many old books that were used long ago, such as old arithmetic and geography books. One book was brought from Italy. It was written 432 years before Christ was born. It was written by the brother of Moses. There were many old books written in foreign languages.

The Museum
(Written by Carol Hawkins.)
We went to the museum after dinner. It was about 12:45. When we got there we went inside. We saw the old fashioned lights they had long ago. Some were candle stick holders, others were candle molds, they were sometimes in lots of a dozen or more. Most of the things were in glass cases others were just in the open. In one of the cases were old fashioned school books. In another case were relics, one was a piece of the elm tree under which Washington took command of his army in Massachusetts. Another thing was a spoon that went through the Chicago fire.

Then we saw an old bath tub. There was a place to sit down and a place to put your feet. In one room was a lot of old money and clocks and watches. One clock was made out of wood the wheels and case and everything.

We went down stairs. The first thing we saw was a black hearse they used in Three Oaks. Then we saw an old fashion fire engine. Then there was an old threshing machine built in 1804. On another floor were old dresses with bustles. Then there was an Indian room. It had a lot of Indian relics and bead work. In one room was Mr. Chamberlain's office and living room just as he left it after he died. He did a lot in getting the things for the museum.

At the Chamberlain Museum
(Written by Betty P. Straub)
I went to see the museum at Three Oaks, I saw the different kinds of old fashioned things used in the olden days. While I was there I saw an old spoon that had been through the San Francisco fire. I saw some sea shells that had come from all parts of the world. In the basement there was an old cutter that looked like the one Santa Clause uses in his "Makko believe land."

There also was an old hearse that was used in Three Oaks before they had cars. There were all kinds of old fashioned dishes and kettles. In fact the little girls had pretty play dishes then than they have now. They were all hand painted. In a part of the building there were all kinds of old fashioned farm tools. All the way from a flail to a threshing machine.

Sunday guests of Mr. and Mrs. Carl Gilbert were Mr. and Mrs. R. H. Potter, Mr. and Mrs. Ward Doughton, Mr. and Mrs. Earl Swartz, Mrs. Arthur Swartz and daughter of Galien and Mr. and Mrs. George Nelson, Mrs. Knapp and Mrs. Hewitt of Buchanan.

Mr. and Mrs. Clarence Potter and daughter of Galien spent Saturday evening with Mr. and Mrs. Carl Gilbert.

Probably before the end of the present week the old depot will have disappeared. The people of Dayton regret very much to see it go but it seems that nothing could be done so as to convince the railroad company to let it stand. The people, of course, should be satisfied though, that the mail service will continue.

HOLLYWOOD

FRIDAY — SATURDAY
Roy Del Ruth Does It Again in "Tail Spin"

In an attempt to define what quality it is that makes the productions of Director Roy Del Ruth so outstanding, those who have seen "Tail Spin," a 20th Century Fox production, are convinced that his genius lies in his ability to capture the beauty of flying figures or forms.

It was Del Ruth who directed Sonja Henie in her most recent film success "My Lucky Star." Whether it be Miss Henie soaring through the air in graceful maneuvers, or racing planes hurtling through space with reckless abandon, the director never fails to transform the action to the screen with the maximum in breath-taking thrills. "Tail Spin," the story of three women who fly, stars Alice Faye, Constance Bennett and Nancy Kelly.

milk wagon under the guise of selling dairy products, forms one of the many hilarious sequences of this unusual story of politics and family matters. Virginia Weidler, Peter Holden, Donald MacEride, Granville Bates and Katharine Alexander have the principal supporting roles in this Cliff Reid production for RKO Radio. The picture, which is a charming satire on many matters of life in general is not, however, primarily concerned with the prohibition debate.

SUNDAY — MONDAY
Black and White Make-up
In "The Ice Follies of 1939," Joan Crawford introduces a new type of black and white film make-up designed by John Arnold, head of the Metro-Goldwyn-Mayer camera department, and George Foley, her own cameraman. The new make-up gives a transparency quality to the skin.

TUES. — WED. — THURS.
"Yes, My Darling Daughter"
Boasting one of the greatest comedy casts ever assembled "Yes, My Darling Daughter," the Warner Bros. screen adaptation of the sensationally successful

stage comedy of the same title. In the romantic leads are those two charming youngsters, Priscilla Lane and Jeffery Lynn, who were such a heart-warming pair of young lovers in the memorable "Four Daughters." Their romance again travels a rocky road, but this time there is no tragedy about it. In fact, it's the nucleus out of which all the amusing complications of the hilarious story evolve.

ALSO
Delirious Comedy
That ideal romantic team, Loretta Young and Warner Baxter, are back together again in "Wife, Husband and Friend," 20th Century-Fox's slambang comedy of a delirious romance. Darryl F. Zanuck, who was in charge of production, is to be congratulated on the season's most parking hit, and so is everyone else connected with the film. That goes for Director Gregory Ratoff, Associate Producer Nunnally Johnson, who wrote the screen play, based on the novel by James M. Cain; and the supporting cast headed by Binnie Barnes, Cesar Romero, George Barbier, J. Ed-

ward Bromberg, Eugene Pallette and Helen Westley. Everyone turns in a grand job.

Smoking Family Habit in Burma
Smoking is a family habit in Burma, where cheroots, up to two feet in length, are shared by everybody from old folks to babies.

Meaning of Name Orlando
The name Orlando is an Italian form of the Teutonic Roland, meaning "fame of the land," which might be interpreted as "great hero." Orlando Gibbons (d. 1625), whose compositions were among the earliest engraved musical works in England, was organist of Westminster Abbey. His anthems ("Hosanna to the Son of David," etc.) are popular.
