The Cottage by the Sen Jerry's built a cottage. And he's happy as can be, Cause Jerry's little cottage, Is a cottage by the sea.

A place where man can rest, at

And let the world go by, Where roses bloom and night birds

Gad! How I wish 'twere I.

A boat, a hook, a lazy porch, A hammock in a tree, A frying pan and electric fan, For him, but not for me.

While we can't have a cottage, We still can wish that he, Has the "mostus of the bestus." In his cottage by the sea.

The Vacation Reading club was started Monday of this week at the Buchanan Public Library with a total of 26 enrolled. Those who took part in the program last summer will be required to read 15 books this summer. New readers will be required to read reading. The teachers of the Buchanan schools recommended on the report cards of all pupils that they do supervision reading in the summer months.

# Is Graduated from

Miss Lillie E. Brown, daughter of Mr and Mrs. Harry Brown, was graduated Saturday from the Evanston hospital at Evanston. Ill., where she had completed a training course of three years.

### Local News

Mrs. Leah Weaver is a guest several days at the home of her father-in-law, William Weaver of Berrien Springs.

Mr. and Mrs. J. E. Arney and daughter, Allene, Mr. and Mrs. E. N. Schram and daughter, Barbara, Robert Polley and Mrs. Grace Van Halst drove to Sylvan Lake, Ind., Sunday to spend the day at the cottage of Mr. and Mrs. Lester Van Halst of Fort

### Pass Thru Ohio Tornado District

Mr. and Mrs. Ellis Willsey passed through the tornado district of northern Ohio Sunday, while returning from a visit with relatives at Findley, O. They were in and around Bryan, O., which was badly hit by the storm, and saw farms where cattle and other stock had been killed and buildings demo-lished. The little town of Hightsville, was nearly demolished. They were accompanied back to Buchanan by Mrs. Willsey's niece, Miss Cleo Clark, who will visit at the Willsev and the James Dillman homes most of the summer.

Mr. and Mrs. E. F. Longworth had as guests Tuesday and Wednesday Mrs. Victoria Shorten and Miss Mary Jacobson of Regina, Saskatchewan, and Dr. S. J. De-Vocht of Indian Head, Saskatchewan, Canada.

# Plan WLS Home Talent Show at Dayton June 28-29-30 N

Upper Berth for the Motorist-Camper I. O. O. F. Lodge

One of the latest devices for the touring motorist who likes to pitch camp at night is this tent which can be put on top of the car. It was shown at a recent camping and hiking exhibition in London, and proved popular with the many motorists who prefer the by-paths instead of main traveled roads.

### Down Country Lanes

Find Old Newspaper At the auction sale held recently at the old Calvert farm on the Portage road to South Bend, Richard Schwartz bid in for a trifling sum a small "strong box" or portmanteau in good preservation. Taking it home he noted a number of old newspapers of the sixties and seventies and called the attention of the writer to it. Friday afternoon we went through it. It tions of keepsakes. ### 3 Sailor Boys Return to Navy

Three Buchanan boys now members of the U.S. Navy personnel left last Thursday for their stations at Newport, R. I. They were Gene Stretch, son of Mr. and Mrs. Claude Stretch, Jerry Cline, son of Mr. and Mrs. Jerry Cline, and Paul Thurston, son of Mr. and Mrs. William Thurston. They expected to be at Newport two or three a trip through the Panama Canal and to San Francisco, where they are to be a part of the fair.

Mr. and Mrs. Paul Crawford had as their guests Sunday Mr. and Mrs. William Long, Mr. and Mrs. William Kell, Mr. and Mrs. Kenneth Crawford, Mr. and Mrs. Greeley Korn, and Mr. and Mrs. Edwin Rough and daughter, Opal,

# Will Sponsor

Tryouts to Be Held at Schau Hall June 22 -- 23

Dayton I. O. O. F. Lodge 124, ong known as a leader in southwestern Michigan in its success in entertainment activities, will sponsor a WLS home talent bain dance show at the Chris Schau hall at Dayton on the evenings of June 28-29-30, with preliminaries at the same place Thursday and Friday of next week, June 22 and 23.

Miss Edith Schlytern, who has directed so many WLS shows in the Buchanan vicinity that she is practically considered a home town girl, will be in charge of preparations. She states that those who appeared on the programs of the WLS show held here two weeks ago by the local V. F. W. unit will be welcomed at the tryouts for the Dayton show. Tryouts will start at 7:30 m. at the Schau hall. The show proper will start at 8 p. m nightly June 28-29-30.

The usual opportunities to out standing performers to appear later in authetic WLS broadcasts from Chicago will be extended.

### Summer Schedule at St. Anthony's

St. Anthony's Roman Catholic church will begin the summer schedule next Sunday with masses at both 8 a. m. and 10 a. m. until further notice. Father Julthe sudden and unexpected death ius Bona is to have an assistant før the summer.

### Represent Buchanan at the Boys State

Lester Hanover and Kenneth Herman are leaving today to represent Buchanan at the Wolverine Boys State at East Lansing. The Boys State is maintained there by the Michigan American Legion from June 15 to June 25.

# Rev. R. C. Puffer

The many friends made by Rev. here are pleased with his return week, Rev. and Mrs. Puffer returned home Sunday. Their son Rev. Lloyd Puffer, is a patient in the Bronson hospital at Kalamazoo, where he underwent an operation for appendicitis Saturday. Rev. Puffer reports that Rev. Rice was returned to the Epworth Church at Grand Rapids, Rev Liddicoat to the Maple street church at Kalamazoo, and Rev. Maylan Jones to the superintendency of the Big Rapids district.

### Will Name Park Board of Three

John Russell was named by the school board of Fractional District No. 1 to act as the representative of that body on a park board of three to govern Athletic Park, The school board will provide the supervision. At an early meeting the city commission will appoint a member to the board and the third member is to come from the Buchanan Athletic Association. The city has voted the sum of \$300 and the use of the city trucks and equipment in main-

# Require Plumbing

Elsewhere in this issue is a city legal providing for the required installation of sanitary plumbing in all homes in Buchanan, and also for a city plumbing inspector who shall insist on certain standards in plumbing.

# Border-to-Border Cyclists Spurn Autos

Mr. and Mrs. Al Parker, both 20 years old, of Wenatchee, Wash, decided they couldn't see enough of the country traveling by auto, so they took to their bicycles. En route to Tia Juana, Mexico, the young couple pack a sleeping bag and a box of provisions. When they completed their trip they will have traveled from Canada to Mexico.

The budding Buchanan Electric Furnace company, which ori-R. C. Puffer during his short stay one of its early customers the Federal Motor Truck company, which parts. All were cast by the Bu-chanan Electric Furnace company and the machining was done either in some department of Celfor's or was sublet to the Lee & Porter Axle Works. It was one of Frank Habicht's jobs to carry the castings back and forth to the Lee & Porter plant for machining, using touring car for transportation,

Doubtless it was partly as a matter of reciprocity for these contracts that E. B. Clark decided to invest in a Federal Motor bus and take a flyer in the transportation business between Niles and Buchanan. So it was that the Buchanan-Niles Auto Interurban company was organized about 1912-13 and Habicht was made

Fred French, then employed at Celfors, had had same experience as chauffer, in the early days of Habicht as driver and told to go to Detroit and get the truck, Offices were opened at each end, in the Electric interurban depot at Niles and in the Kelling Cigar store in Buchanan. At the Buchanan end the bus stopped in front of the Kelling store, which was either where it is now or next door east, in the building which then occupied the present site of Murphy's barber shop.

In Kelling's store the customers in All Residences waited the arrival of the bus which ing car. stopped almost exactly opposite where McCollum's bus now stops. The busses ran every two hours from early morning until late at and even had a lawsuit, when night. Some believe that Kelling French scrapped a buggy one day sold tickets, but Matt does not and it was necessary to pay sevremember that detail. French be-eral dollars for damages on the lieves that the fare was 25 cents

each way. Habicht states that In Which E. B. Clark Does | there was a reduced rate for 10

The bus had a rear entrance and a step behind by which passengers mounted. The seats faced each other on opposite sides and carried about 9 each or a total of 18. For tion became progressively less, ated it ran on a two-hour schedule getting to Niles and getting back was quite a bit of traffic especially presented aspects that seemed on band concert nights in both Niles and Buchanan, when the bus It was in part with that in mind, would be loaded by the citizenry

# House Damaged

J. Weaver Home Damaged; Fruit, Forest Trees Demolished

Farm buildings were damaged and a large number of fruit and forest trees were blown down in tornado-like wind which traversed the farming section and north of Buchanan in a northeasterly direction shortly after 6 p. m. Saturday, dipping to earth in the Wagner and Mt. Fabor districts.

Part of one side of the roof and the belfry and bell were blown off ine Colvin school. The timbers of the belfry were cracked but the bell was undamaged. A large number of trees were blown down in the Sanford Carpenter woods. The shingles were blown off one side of the barn and the granary at the H. G. Wallquist home. The poultry house at the Dean Clark nome was blown over and several ruit trees were destroyed. Two arge trees were blown across the Glendora road at the Wallquist and Carpenter homes and traffic was held up until they could be cut away.

Before arriving at the Colvin district, the storm dipped in the vicinity of the Wagner grange hall, damaging the roof of the house at the N. J. Weaver home, and twisting the barn about on the foundation. A pile of lumber at the sawmill was picked up and scattered about the premises. Albert Weaver, age ten, had started to the springhouse when the wind struck and was unable to get back to the house ered by the flying lumber down until the wind went down The violent gust lasted not over three or four minutes.

At the Charles Hess home an apple tree was blown down, and two others damaged.

### To Finance 6 **Tenant Farmers**

Funds Available Again for Tenants to Buy Land

The Farm Security Administration of Berrien County has again been alloted funds for the fiscal year sufficient to assist approximately six (6) more tenant farmers to become land owners. This announcement was made this week by William A. Andreson, County

The number of tenant purchase loans approved and closed for Berrien County todate is eleven. The been loaned is \$68,010.00, or an average price per farm of \$6,182.-72. This includes money allowed for building and land improvements. The farms vary in size according to the type of farming. Fruit farms average 39.8 acres per farm, while those adapted to general farming (livestock and grain) average 116 acres. The latter type of farming is located mostly in the southern part of the county.

All applications for new Tenant Purchase loans must be filed at the Farm Security Administration of-

Applicants must be citizens of

Preference will be given to in winter and spring, and it was to make a down payment, or who nothing unusual for the back step own livestock and equipment necessary to carry on farming operaspot when the road was worst tions on a family sized farm.

The applicant who obtains these Security Administration in carrymanagement plan.

Miss Mary E. Reynolds and Miss Nancy Jean Scheetz motored to Kalamazoo Tuesday and were dinner guests of the latter's nunt, Mrs. L. L. Vanderbeek, They returned through the tornado district between Vicksburg and Schoolcraft.

### Winona Prospects Are Good This Year

The new organization, known as the Winona Lake Christian Assembly, Inc., which took over the operation and management of Winona affairs, has started extensive improvements in the hotels visiting at the home of her moth- and other buildings. The hotels have been completely renovated and will be under the experienced supervision of Arthur W. McKee, the General Manager.

Religious gatherings from many denominations are scheduled to meet at the well known religious resort. They are the National Youth Conference June 9-16; Free Methodist General Conference, June 14-28; The Chautauqua Program, July 2-August 7; the Christian Action Crusade, July 10-16; Bethany Camp, June 15-August 27; Winona Women's School Missions, June 17-24; Petrie Band Camp, July 3-August 6; Alcohol Educational Institute, July 3-15; Winona School of Theology, July 11-August 10; Winona Schools Reumon, July 24-23; National Reform Association, July 24-29; Prophetic Conference, August 8-12; Jewish Conference, August 12-16; Rescue Mission Convention, August 13-17; School of Sacred Husic, August 14-26: Winona Bible Conference, August 16-27; Winona Young Peo-Home Economics at the high ple's Conference, August 16-27; school, is entering Columbia Uni- Annual Camp Meeting, August 28-

ference, August 28- Sept. 2; United President of Moody Bible Institute, Brethren Conference, September 5-10.

Several nationally known speakers will be heard during the seas. Ironside; Dr. Wilbur M. Smith; on; among them Dr. Charles E. and many other men of national Fuller of Los Angeles, Director of the Gospel Broadcasting Association. He will speak on Sunday, July 2, at 3:00 and 7:30, broadcasting the 7:30 service. Other Sunday George Fitch, Barbara Swartz, speakers will be Dr. P. H. Wel- Salem and other places established snimer of Canton, Ohio; Dr. Carol V. Day of Kansas City, Mo., Dr. R. H. Martin of Pittsburgh, Pa.; Rev. Peter MasFarlane of St. Paul, Minn. and Rev. Mel Trotter of

Grand Rapids, Mich. The Bible Conference program will be the big activity of the seas on, Thousands gather annually for this religious assembly. Representatives from 42 to 44 states attend. This Conference has been called "The World's Greatest Bible Conference." Outstanding speakers from near and far are heard. Dr. W. E. Biederwolf is the Director. The speakers for the Conference include R. G. LeTourneau of

Chicago; Dr. J. Palmer Muntz, Buffalo, N. Y.; Dr. Harry Rimmer; Dr. Robert G. Lee; Dr. Harry reputation.

Boston was not the first of the Massachusetts bay settlements, and before it had administrations of their own. But from the time the colony and state may be said to have had a capital, it has always been Boston.

Hand Woven Rug of Wool

The Polish equivalent of the Mexican serape is the "kilim," a handwoven rug of rough wool, which has designs of beautiful balance and composition in harmonious colors woven into it with great care.

Only Egg-Laying Mammals The spiny anteater or echidna and the duckbill are the only egg-laying mammals.

# Give Your Boy or Girl A VACATION THRILL

Every boy and girl would be delighted over the prospect of spending their vacation at a camp where the program is made especially for young people.

Located on Lake Michigan, Camp Warren is an ideal place to send your boy or girl this summer. Sponsored by the Berrien County Sunday School association with Christian leadership, the program offers constructive study and recreation that is unexcelled. Clean, sanitary cottages, each with a counselor . . . experienced handicraft instruction . . . swimming . . . tennis. All this, plus wonderful food, makes Camp Warren the outstanding summer camp in Western Michigan. And the rates are surprisingly low.

GIRLS' CAMPS June 25 to July 16 BOYS' CAMP July 20 to July 27 Write today for complete information.

Rev. John Koehler, Superintendent Camp Warren,

Benton Harbor, Michigan Please send me further information concerning this summer's program for Camp Warren. My (son-daughter) is ..... Years old.

### Plumbing Ordinance City of Buchanan, Michigan

An Ordinance Entitled, "An Ordinance Regulating the Installation of All Apparatus and Equipment for the Plumbing and Drainage of Buildings, for the Inspection of Plumbing and House Drainage, and for the Appointment of an Inspector Thereof and Matters Relating Thereto."

The City of Buchanan Ordains:

Section 1. That it shall be unlawful for any person, persons, firm or corporation to do, cause or permit to be done any plumbing or house drainage except in accordance with the following rules and

Section 2. The provisions and requirements of this ordinance shall apply to all extensions, alterations, changes or additions, or other work to be made or done in plumbing and house drainage in all buildings, except as otherwise provided herein, and to the execution of all

classes of work usually performed by plumbers.

Section 3. The term "building," as herein used shall be construed to mean any dwelling house, hotel, factory, church, hall, opera house, or stable and each store, flat or separate apartment of any store,

apartment or flat building, and other enclosed structure.

Section 4. Upon application of a plumber having a contract with the owner or any person having the legal possession of a building, for the doing of plumbing work, a permit shall be issued to do the work, and it shall be unlawful for any person, firm, or corporation to construct any water closet, privy, cesspool, sink, plumbing or duain within the City of Buchanan, Michigan without first having such permit, for which a fee of Fifty (\$.50) cents shall be paid to the Plumbing Inspector for a trap or vented fixture, and for each trap or vented fixture in excess of four, a further charge of 25 cents shall be made.

Section 5. In determining the amount to be paid, the following shall count as one fixture: water closet, bath tub, wash basin, sink, urinal, set of laundry trays, slop sink, refrigerator, soda fountain, drinking fountain, shower bath, bar fixture, dental cuspidor, floor drain and any trap when roughing in is done each opening into a soil or waste pipe for the future installation of any fixture above named shall be counted as a fixture. And it shall be unlawful to construct any such water closet, privy, cesspool, sink, plumbing or drain except in strict accordance with the several conditions, provisions and specifications hereinafter enumerated, except, however, that this ordinance fixture. shall not apply nor shall any permit be required in case of repairs not affecting sanitation, such as mending of leaks in soil, waste or vent pipes, faucets, valves or water supply pipes, mending or replacing broken fixtures, closet bowls, tanks, kitchen boilers, or removing stoppage or releasing frozen pipes, and it shall be unlawful for any plumber or plumbers to do, cause, suffer or permit to be done, any work s other than that for which a permit is issued.

Section 6. The inspector must be notified by the plumber in charge of the work when the work is ready for inspection. All work must be left uncovered and convenient for examination until inspected and approved. No notice shall be sent for any inspection until the work

is entirely ready for thorough inspection.

Section 7. All notices herein required to be given to the Plumbing Inspector shall be in writing on blank forms to be prepared and furnished by such inspector at his office.

Such inspector shall number same in the order received, and shall make inspection of the work herein referred to in the order in which such notices are received as nearly as may be practicable and as soon

Wherever in this ordinance it is provided any act may be done, or material used, with the consent of said inspector, or wherever such inspector's approval is required, such consent or approval shall be in

writing.

Section 8. The Plumbing Inspector is hereby authorized and empowered to inspect and, subject to the approval of the Health Officer, either of the last two columns.

The number of fixtures in a building shall determine the size of the combined area of the soil or waste stacks rany dwelling house, hotel, apartment house, tenement house, factory, store or any other building, if he shall find the same is unsanitary and detrimental to public health. Said inspector shall notify in writing the owner or occupant of the premises whereon such work is situate, that same has been condemned or ordered removed, and it shall be unlawful for any person or persons thereafter to use or suffer or permit

same to be used.

Section 9. Said Inspector of Plumbing is hereby directed and authorized and empowered to inspect plumbing and house drainage in all buildings in said city, both public and private, erected after the passage and legal publication of this ordinance, and condemn same, if not in accordance with the provisions hereof. And he shall have power to enter any building in the performance of his duties, and it all be unlawful for any person to deny or refuse him admission.

Section 10. The Plumbing Inspector is hereby also authorized and directed to properly condemn poor workgraphing and to order the

and directed to properly condemp poor workmanship and to order the removal of or to remove any defective material or any work done other than in accordance with the provisions of this ordinance, and, thereafter, it shall be unlawful for any person or persons to use said material until such material or work is reconstructed in accordance with the provisions of this ordinance.

Such inspector shall immediately after such condemnation, notify the plumber doing such work and the owner of the property that such work has been condemned, and state briefly the grounds of such con-demnation. Such notices may be mailed to such person or persons or delivered in person; provided, however, the giving of such notice or the failure to give such notice shall in no way affect or alter the liability of such person or persons, or any other person or persons to a fine or penalty for any violation of any of the provisions of this ordinance.

The authority, power and duties imposed on such inspector and the

provisions of this ordinance shall extend to and include any plumbing or house drainage, private sewer, or cesspool work about to be done or being constructed on any premises, and the same for the purposes of this ordinance, shall extend over all premises and to the curb line of the public ways.

Section 11. All work as herein described shall be performed un-

der the entire supervision of an employing or master plumber, properly licensed as herein provided, and it shall be the duty of all plumbers to report to the inspector any defective plumbing in old buildings, public or private, where they may be called to make repairs. They must not make these repairs when construction work is necessary, unless after inspection, the inspector so authorized.

of Buchanan, Michigan, or his deputy duly authorized to have supervision of plumbing and drainage.

Section 13. In this code the term "main soil pipe" is applied to

any pipe above the basement floor connection to the house drain receiving the discharge of one or more water-closets, with or without other fixtures, and extending through and above the roof.

The term 'branch soil pipe' is applied to any pipe receiving the discharge from one or more water-closets and with or without other fixtures and leading towards and connecting with the main soil pipe but not necessarily extending through the roof.

The term "waste pipe" is applied to any pipe receiving the discharge from any fixture or fixtures other than water closets.

The term "house drain" is applied to the pipe within any building buried in the ground or below the basement floor which receives the total discharge from any fixture or set of fixtures, and may or may not include rainwater leader which conducts or carried the same to

the house sewer. The term "House Sewer" is applied to the tile sewer, which shall be not less than four (4) inches internal diameter, and which begins outside of the wall of a building and connects the house drain with the public sewer in the street.

The term "main vent" is applied to the vertical line of air pipe running through two or more floors to which the vent or revent pipes Diag from the various floors are connected.

The term "vent pipe" is applied to any pipe provided to ventilate a system of piping, and to which the revents are connected.

The term "revent pipe" is applied to any pipe used to prevent trap siphonage and back pressure. The term "soil vent" or "waste vent" is applied to that part of the main soil pipe or waste pipe which is above the highest installed

fixture waste connection and extends through the roof When sizes of pipes are specified the internal diameters of the pipes are meant.
Section 14. All material used in the installation of any plumb

ing and drainage system, or part thereof, shall be of good quality and free from defects, and all labor on the above installation shall be performed in a thorough and workmanlike manner.

pendent connection with the street sewer at the point designated by weights: the Plumbing Inspector, except as is hereinafter provided in case of small residences having not more than four fixtures. No conductor, soil, waste or house sewer from one building shall

connect to a conductor, soil, waste or house sewer from another build-

Exception: Where one building is in the rear of another on an interior lot and no sewer is available for the rear building, the house sewer from the front building may be extended to the rear building and the whole will be considered as one drain, but a permit for such connection must be secured from the Plumbing Inspector.

Section 16. All piping shall be run as direct as practicable and so arranged that it may be readily repaired, but no part of a plumbing or drainage system shall be needlessly exposed to damage.

Section 17. All horizontal piping shall be run in practical align-

ment and at a uniform grade of one-half (1/2) inch per foot when possible, but in no case shall the grade be less than one-quarter (14) of an inch to one (1) foot for soil or waste pipe and house drains suspended by iron hangers upon piers or posts or wall ledges; and not properly reamed on the inside.

less than one-eighth (%) of an inch per foot for vent or ventilating

pipes, house sewers and underground drains, Section 18. All drainage and plumbing pipes shall be rigidly secured or properly supported to keep their alignment and grade, and all changes of direction, either horizontal or vertical, shall be made with the appropriate use of "Ya," half "Ya," sanitary "TYa," long sweep quarter, sixth, eighth or sixteenth bends, with short nipples where screw joints are used.

Increase or reduction in size shall be made by the use of a proper fitting. Section 19. No double hub, or doubt T, shall be used on horizon

tal runs, nor shall sanitary T branches be used to change the direction of flow in or to horizontal runs, nor shall double hubs or straight es be used on the soil or waste pipe. Saddle hubs and bands are

in all cases prohibited.

Section 20. Offset in the mains of all stacks shall be avoided if possible, but when unavoidable they shall be made with forty-five (45) degree fittings.
Section 21. In the installation of any plumbing system, all dead

ends in pipes shall be avoided.

Section 22. All excavations required to be made for the installation of a house drainage system, or any part thereof, within the walls of a building, shall be open trench work. All such trenches shall be kept open until the piping has been inspected.

Section 23. All free standing stacks shall be thoroughly supported on concrete or masonry plers at their base, and those forty (40) feet or more in height shall also be provided with foot rests at their base and also with floor rests or supports at every ten (10) feet intervals.

The pipe supports according to their location shall be made either with heavy iron posts, hangers, wall brackets or steel fittings, concrete or masonry piers; provided that no brick pier shall be less than eight (8) inches square. The use of pipe hooks shall be prohibited for larger than one and one-half  $(1^{1}_{2})$  inch pipe.

No elbow or 14 bend shall be used on any soil stack or waste line when the change in direction of flow is from vertical to horizontal. Section 24. When computing the size of house drains, soll and waste stacks, mains and branches, fifty (50) square feet of roof or

yard area in horizontal projection shall count as one fixture.

Three feet of urinal trough or wash sink shall count as one fix-One bath, basin or sink or smaller fixture shall count as one

One pedestal urinal or slop hopper sink shall count as two fixtures.

One water closet shall count as four fixtures.

diameter of the trap.

If the length of a branch or main vent pipe is to exceed the giver

Section 12. Wherever in this ordinance the word "inspector" is maximum, the above diameter must be increased to the tabulated sizused, it shall be held to mean the Inspector of Plumbing of the City opposite the length required, irrespective of the number of traps ventshall the main vent be less than one-half the diameter of the adjoining soil pipe.

Section 27. All cast iron pipe and fittings shall be sound, cylindrical and smooth, free from cracks, sand holes and other defects, of

a uniform thickness and not lighter than the commercial grade known as "Standard." All shall be coated at the factory with asphaltum or coal tar pitch inside and outside.

Section 28. All wrought from or mild steel pipe used for soil waste or vent pipes shall be thoroughly galvanized inside and out side, and not lighter than the commercial grade known as "Full Weight."

The fittings and couplings for wrought iron or mild steel waste soil and refrigerator waste shall be threaded cast iron or brass recessed drainage fittings, with smooth interior waterway and threads tapped out of solid metal, so as to give a uniform grade to branches of not less than 14 inch per foot.

Threaded fittings for vent pipe or revent pipes shall be brass, galvanized malleable iron or cast iron fittings of the drainage type. Section 29. Brass pipe for soil, waste and vent pipe shall be thoroughly annealed, seamless drawn or brazed tubing having weight and outside diameter of not less than the following:

mmai	Gauge		
meter	No. B&S	Thickness	Weight
14"	12	5-64"	1.08 lb

Section 32. Section 33. 'ull bore. All joints and connections shall be made gas and double sanitary T or TY, and there are no other fixtures discharging above them said fixtures may be re-vented through a common vent or water-tight, and all wrought iron or mild steel waste pipes shall be

Section 34. Joints in cast iron pipes shall be made with oakum re-vent pipe. and molten lead, caulked and smoothly faced. Joints in wrought iron pipes shall be "made up" with screv

threads having white or red lead or mineral paint applied to the male part of the thread, and shall be screwed up to the shoulder of the fitting. Lead pipes shall be joined by wiped joints.

Connections of lead and iron pipes shall be made by means of an extra heavy brass socket ferrule, brass soldering nipple or ground seat orass union and wiped joint.

In no case shall a combination lead bend and ferrule be used. Exception: Lead ferrules may be used under slop sinks or for water closets in basements.

The use of cup or drive ferrule is hereby prohibited. Section 35. Where different sizes of pipe or pipes and fittings are be connected, proper size increasers or reducers shall be used. Section 36. Every trap shall be self cleaning. No form of trap which

depends upon the action of moveable parts for its seal shall be used. No trap which depends upon concealed interior partitions for its seal or which has an interior partition that, in cast of defect, would allow the passage of sewer air, shall be used. Each urinal must be separately trapped immediately under the fixture except when batteries of urinals are used of a type having a

continuous flow of water, when a single trap will suffice.

Traps for bath tubs, basins, sinks or other similar fixtures shall be made of lead, brass, or galvanized iron. Drum traps shall be used for the foot, seat or bath tubs and shall not be less than 4 inches in

diameter when used on other than first floor.

Galvanized iron traps shall be extra heavy full bore, and have a

Galvanized from traps shall be extra heavy full bore, and have a smooth interior water way and threads tapped out of solid metal.

Iron drum traps shall be made of extra heavy cast or malleable iron, and the drum shall not exceed four (4) inches in diameter. Drum traps shall have a water seal of not more than seven (7) inches

nor less than two (2) inches or be a trap approved by inspector.

Section 37. Each trap except floor drains, shall have a water seal of not less than two (2) inches. Traps placed between the floor shall have a brass trap screw

for cleaning, in plain view or flush with the floor, or readily accessible from or under the floor.

All traps shall be rigidly supported and set true with respect to their water level, and shall be so located as to protect their seals.

Section 38. There shall be no trap at the foot of soil or waste

pipe stacks upon the house drain or house sewer. Bell traps or traps having covers over handholes on the sewe side of the trap which are held in place by lugs or bolts, are prohibited In no case shall the waste from a bath tub or other fixture be con-

nected with a water closet trap.

In no case shall a waste pipe from any other fixture be connected. to the house side, or in the seal of the water closet trap, or be wiped into the heel of a lead bend.

Such connections shall be made so that the discharge of water shall not distrub the seal of the water closet trap.

Overflow pipes from fixtures shall in each case be connected on the inlet side of the trap. Section 39. Cleanouts shall be the same size as the pipe up to submerge any matter deposited in them and properly flushed and scour four (4) inches in diameter and not less than four (4) inches for larg-, the soil pipe when the contents of the bowl are discharged, except.

er pipe or traps. Cleanouts shall be provided as follows: At entrance of all buildings and at the end of each horizontal line. The distance between the cleanouts shall not exceed fifty (50) feet.

All traps and cleanouts shall be located so as to be easily accessible for cleaning.
Section 40. The entire house sewer shall have a solid support

Section 41, Joints between the hub and spigot shall be well filled with mortar made of one (1) part clean sharp sand to one part cement, or an approved bituminous compound.

Each joint shall be carefully banked, wiped and cleaned. Under

ground joints between earthenware and iron pipe shall be made the

same as above required for earthenware pipe.

Section 42. All joints be left with a smooth interior surface.

Section 43. All sewer pipe must be of best quality glazed tile and shall be laid in as straight a line as possible and all changes of directions shall be made with curved pipes and "Y" branches. The chipping of sewer pipe for the purpose of changing the course of the same is expressly prohibited.

Section 44. Yards and areas shall be properly graded and drain ed. When the drain from said yard or area is connected with the house drain, it shall be effectually trapped. Section 45. No steam, exhaust, blowoff, drip or return pipe from

any steam trap shall connect with the sewer or with any house drain soil, or waste pipe or rain water pipe, without being properly trapped. The water or steam of condensation from such pipes entering any sewer or drain, shall not be over 100 degrees Fahrenheit.

Section 46. When drains are laid outside of the building and ad joining foundation wall, if of tile they must not be below footing unless three or more feet away from foundation wall. Section 47. Conductor pipes shall not be used as soil, waste, vent-

ing, or back vent pipes.

Section 48. When the rainwater drain connects inside of the building, it shall be of the same material as a soil drain.

Section 49. It is hereby declared unlawful to connect rainwater downspouts to the sanitary sewer system. Section 50. All main and branch soil, waste and vent and revent pipes shall be of iron, lead, brass or copper.

Section 51. Every building in which water closets are installed shall have at least one four (4) inch soil pipe stack extending through

Section 52. The house drain from three (3) feet outside of the basement wall to a point immediately above the basement floor shall be of the grade in commerce known as "Standard" cast iron soil pipe From this point the soil stack shall be either standard cast iron pipe galvanized wrought iron pipe or galvanized mild steel pipe.

Section 53. All soil and waste pipes into which the various fix-

tures discharge, shall be extended not less than one (1) foot above the roof of the building at the high side of the stack terminating with open end for ventilation, and at least five (5) feet when such roof used for other purposes than weather covering the building.

In no case shall a vent pipe passing through the roof be less than two (2) inches in diameter. Changes in diameter shall be made by long increaser, at least six any soil pipe. inches below roof. When roughing in is done, the vent pipe necessary Section 8

for the fixture intended to be used must be installed.

Section 54. The roof terminals of all vent pipes shall be at least three (3) feet above any door, window, scuttle or air shaft when located at distance less than ten (10) feet from such terminal.

Section 55. No soil, waste or vent pipe extension of any new or existing building shall be run or placed on the outside of a wall, but shall be carried up in the inside to the roof.

In the event that a new building is built higher than an existing building, the owner of the new building shall not locate windows within twelve (12) feet of any existing vent stack in the lower building. unless the owner of such new building shall himself make such alteration to conform with this code.

Section 56. Where a single basement or first floor closet is placed more than 8 foot from the point of connection to the inside house drain or soil stack, in addition to the 4 inch main soil stack, a vent stack not less than 2 inches in diameter shall be provided and extend-

Section 57. Each soil pipe connection to the house sewer vertical or otherwise, above or below the ground receiving the discharge from any closet shall be of a diameter of not less than (4) inches and must

extend not less than one (1) foot above the roof. Section 58. Where there are a series of closets one above other the lower closets must be protected by venting.

Section 59. All main vents shall be run undiminished and connected full size at their base to the main waste or soil pipe at or below the lowest fixture branch and shall be extended above the roof They may be connected with the adjoining soil or waste vent one (1)

foot above the highest fixture opening.
Section 60. Every branch soil or waste pipe to which a group of two (2) and not more than eight (8) water closets or pedestal urinals only are connected, may be vented by a circuit or loop vent, provided such horizontal branch does not exceed twenty-five (25) feet in length. Connections from such branch shall be taken from Y or TY branches. The vent shall be taken off in front of the last fixture connection, and must rise one (1) foot above the top of the highest fixture before off-setting horizontally or connecting to the branch, main, waste or soil

Where other fixtures discharge into said waste line, each fixture

must be separately revented.

Section 61. Where the vent or revent pipes are not continuous and traps are ventilated through the waste fitting, the center of the outlet of such fitting shall not be set below the water seal of the trap, and the traps shall not be more than 5 ft. from said waste fitting. Section 62. Every fixture trap shall be protected from siphon-

age and back pressure and air circulation assured by means of a vent or re-vent pipe. Except as provided in section 61. Buildings more than three stories in height shall be provided with an approved method of relief vents when in the opinion of the Plumb-

ing Inspector the same are necessary.

Section 63. The back vent of any fixtures shall be as close to the traps as possible, consistent with its location and effectiveness. In no case shall the vent be taken off from the crown of the trap.

Section 64. Where two (2) water closets located on the same floor, discharge into a double sanitary T or TY in a soil or waste stack they need not be re-vented if such fixtures do not exceed the five (5) foot limit without other fixtures above them. When two fixtures other than water closets discharge into a

The waste of a bath tub, basin, or sink may be connected to a Y or TY fitting between the closet bend and the stack or wiped to the lead bend, without re-venting the closet bend providing there are no

other fixtures discharging above. Section 65. The waste pipe from a refrigerator, ice box or ice tray or any receptacle in which provisions are stored, shall not con-

nect directly to any drain, soil, or waste pipes.

Section 66. The overflow pipe from a tank shall not be directly

connected with a drain, soil or waste pipe. Such pipe shall discharge into an open fixture or into a roof gutter. Section 67. Waste pipes from safes placed underneath fixtures shall not be directly connected with any drain, soil or waste pipe. Such pipes shall discharge into an open fixture or upon the cellar floor. All arrangements shall be subject to the approval of the Plumbing In-

Section 68. The waste pipes and traps for acid tanks, sinks and other receptacles receiving the discharge of acids in chemical labora-tories, electrotyping, lithographing and other similar establishments must be made of extra heavy cast iron, coated inside and out with tar and asphaltum, extra heavy lead pipe, or lead-lined iron pipe of adequate durability. The waste pipes may be of vitrified clay when placed outside the building, or when serving as a local conveyor between acid

tank, dilution tank or other receiving basin.

Section 69. Waste pipes from milk vats, sterilizers, etc., shall be of the same size and material as wastes from sinks, etc. Such wastes may discharge on a watertight floor having a catch basin, or they may discharge into a properly constructed sink.

When connected to a drain, soil or waste pipe, such waste pipes

shall be separately trapped and re-vented.

Section 70. Waste pipes for wash trays, washing machines and other like fixtures in public laundries, or dye houses, etc., located in rooms having water-tight floors and a properly constructed floor wash trap, may discharge on said floor.

Section 71. Mitchen or other grees, wester from hotels restaus.

Section 71. Kitchen or other greasy wastes from hotels, restaurants, club houses, public institutions or other establishments in which much cooking is done or greasy wastes obtain, shall be intercepted by an approved catch basin or a grease trap, and then conducted to the house sewer. Said grease trap must be cleaned at intervals not to exceed 60 days apart or as often as may be necessary at the discretion of the Plumbing Inspector.

Section 72. Any change in the style or location of a plumbing fixture shall be governed by the same rules as herein provided for new work, and shall be subject to the inspection and approval of the

Plumbing Inspector. Section 73. All receptables used for water closets, otherwise for the disposal of human excreta, shall be either vitrified earthenware, hard natural stone or cast iron white porcelain enameled on inside. If cast iron is used, it shall be enameled, or painted on the outside with at least three (8) coats of non-absorbent and non-

corrosive paint.

Section 74. The bowls and traps for water closets shall be made in one piece and of such shape and form as to hold a sufficient quantity of water when filled up to the trap overflow so as to completely

that nothing in this section shall apply to latrine closets.

Section 75. All water closets, or pedestal urinals shall be provided with flushing rims, constructed so as to flush the entire interior surface of the bowl thereof with water as prescribed in a subsequent

ection of this ordinance. Section 76. All plumbing fixtures shall be installed or set free and open from all enclosing work.

Section 77. Water closets with low down tanks shall be of syphon

pattern provided with refilling devices.

Section 78. The use of pan, plunger, offset, with or without flush tank, trough, Latrine or Smead system closets are prohibited.

Section 79. Long oval or straight back hoppers are prohibited except for anti-frost closets. All such now in use when out of repair or condemned by the Plumbing Inspector shall be removed.

Section 80. No urinal shall be placed over or in close proximity to wood. Some non-absorbent material shall be used, such as slate,

hard marble, or Portland cement smoothly troweled.

Urinal floors shall be directly connected to a drain soil or waste pipe; a deep seal or drum trap shall be used and arrangements made for flushing the same in all cases. The use of galvanized iron urinal trough is hereby prohibited.

Section 81. Fixed wooden wash trays or sinks are prohibited any building or part of building designed or used for human habitation. Section 82. No new copper lined wooden bath tubs shall be in-

stalled, nor shall any old fixture of this class be reconnected. Any de-lective bath tub condemned by the Plumbing Inspector—shall be re-Section 83. Outside water closets shall not be connected direct. to city water but must be flushed through an approved tank. Section 84. Outside water closets shall not be connected or placed in a room adjoining any dwelling providing the door to same must not open into said dwelling proper; but must have an entrance to same

from the outside only.

Section 85. Where water closets or other plumbing fixtures are placed under a sidewalk, street, alley or other like place adjoining and opening into the basement of any building each and every fixture so placed shall be ventilated in the same manner as is provided for other plumbing fixtures in this ordinance, and the water-closet compartments shall be adequately lighted and ventilated, and the bowls of such closets must be caulked to the soil pipe or securely bolted to a

east iron flange, or provided with an approved screw connection. Section 86. In all places of employment where more than five men and women are employed, separate and sufficient water closets shall be provided for males and females. Water closets for men shall be plainly marked "Men's Toilet" and water closets for women shall be plainly marked "Women's Toilet."

Section 87. In all buildings used jointly for residence and business purposes, separate and sufficient water closets shall be provided for the use of families and for the use of employees and patrons of he place. In tenement houses not less than one closet for every two

'amilies shall be provided.

Section 88. No paper other than what is commonly known as 'oilet paper shall be placed in any water closet or allowed to enter

Section 89. No water closet or urinal bowl or trough shall be supplied directly from water supply pipes, except anti-freezing closets, or by any improved flusho-meter valve. Every water closet or urinal bowl or trough shall be indirectly flushed through a flushing tank of at least four (4) gallons capacity for each water closet and two (2)

gallons for each urinal. Section 90. A group of urinals, on the same floor, subject to constant use as in schools and factories may be supplied from one (1) tank, if provided with an automatic simultaneous flush provided that each individual urinal shall receive not less than one (1) gallon of water at each flushing and the discharge is of such force as to cleanse each individual bowl at each flush. All public urinals in hotels, comfort stations and similar locations shall be equipped with automatic

flush tanks. Section 91. All urinals having either intermittant or automatic flushing devices shall be flushed at regular intervals not to exceed ten (10) minutes each during the hours that such fixtures are in use. The pack of gutter stalls to the height of three and one-half (31/2) feet shall be kept constantly moist with a proportionate supply of water while in use

Section 92. No plumbing fixtures shall be located in any room or apartment which does not contain a window placed in an external wall of the building or is not provided with a system of ventilation.

The size, ventilation and lighting of bathrooms and water-closet compartments and the installation of water closet accommodations shall conform in all respects to the Housing Law of Michigan.

Section 93. All rooms containing a public lavatory shall have ventilation to the outer air by an air shaft or duct sufficient to provide

the necessary ventilation of the room. Ventilation from toilet rooms shall be separate and distinct and have no connection whatever with the other ventilating ducts in the

When water closets or urinals are not placed in a separate and properly ventilated room the partitions around the same shall be extended to the ceiling or shall be ceiled over not less than 7 feet above the floor, and the space so enclosed shall be ventilated in an approved

Section 94. In all buildings the outside partitions of any water closet or urinal apartment shall be solid and extend to the ceiling or be independently ceiled over not less than 7 feet above When necessary to light such apartments the upper part of the partitions may be provided with translucent, or clear glass. The interior partitions of such apartments shall be dwarf partitions not less than 6'0" high.

Section 95. When bath room or toilet room fixtures are replaced by modern fixtures, the waste connections under the floor trappings and vent pipes shall conform to these Rules and Regulations, the same as in a new building.

Section 96. No cess pool or privy vault or similar means of sewage disposal shall be used in connection with any apartment house or tenement, but every such house shall have its plumbing system directly connected with the public sewer.

When cess pools are built they shall be constructed or erected under a permit granted by the Plumbing Inspector, in accordance with the provisions of this ordinance, and with reference to permits issued for plumbing or house drainage work, so far as same may be ap-

plicable. Brick or other material equally as good, shall be used in the construction of all cess pools; provided, such other material shall not be (Continued on page 7)

### Start Fight Vs. Cherry Fly Here

Recognizing the possibility of more serious infection in 1939 than in previous seasons, every available piece of spraying equipment in the state has been placed in action in the annual war against the spected free today by a Termite cherry fruit fly, which has been rance throu the state since the first emergence of the past was recorded in Berrien county last Wednesday. Agricultural Commissioner Elmer A. Beamer reported that conditions in 1938, bad weather and low prices, which caused cherry producers to neglect their orchards is expected to reflect this season with

greater number of flies. Departmental records disclose that the pest made its appearance this year four days later than in 1938, the early weather last season hastening their emergence. With high prices for cherries in 1937. were well sprayed and cultivated, cured by said mortgage, or any the two recognized methods of controlling the fly, with the result that the department was encouraged early last season with com

D. 1939, at ten o'clock in the forenoon, Eastern Standard Time.

Dated the 18th day of May, A D. 1939.

CHARLES L. MILLER Sheriff of the County of Berrien, Michigan,

By RAYMOND E. GRANZOW Undersheriff.

### Plumbing Ordinance City of Buchanan, Michigan

(Continued from page 6)
used unless specially authorized by the Inspector in a special permit
therefor, issued in the same manner as herein provided for the regular
permit for cess pools. Provided, that the person signing and filing
said statement shall deposit the sum of \$1.00 for each cess pool described in said statement.

Section 97. In case any cess pool is allowed, because of inability to connect with a public sewer, then, or as soon thereafter as it becomes possible to make such sewer connections, such cess pool shall be cleaned out, and filled with fresh earth and the sewer connection made provided however, that every person, firm and/or corporation shall within one (1) year from date of availability, of sanitary sewer connect therewith

All cess pools shall be left open for inspection as herein provided. Within forty-eight (48) hours after the completion of any cess pool, notice thereof shall be given the Plumbing Inspector in the same manner and by the person or persons as herein provided with reference to notices for final inspection of plumbing and house drainage. Said inspector shall file such notice, and make such inspection under the same regulations herein provided with reference to final inspecting of plumbing and house drainage as far as same may be applicable If the same be approved by him, he shall issue a certificate of ap-

proval therefor to the proper person.

It shall be unlawful for any person or persons to use such cess

pool until such inspector has approved same. Section 98. Privy vaults may be constructed only on premises

where water and sewers are not accessible.

Section 99. Privy vaults shall not be constructed where a sewage system is available, nor on any lot where, in cleaning, the night soil would have to be carried through any building of human habita-

tion, nor shall any old vault be connected to a sewer.

Vaults now existing on premises accessible to a sewer shall be

cleaned to the bottom and filled with ashes or earth.

Section 100. No vault, open top cess pool, septic tank or other reservoir which is used as a privy or receptacle for human or animal excreta, shall be located within (2) feet of any lot or alley line or (20) feet of any street line or any building of human habita tion or occupancy or within 100 feet of any cistern, well, spring or other source of water supply used for drinking or culinary purposes whether they are located on the same or an adjoining lot or premises

No privy vault shall be located within seventy-five (75) feet of any school building.

Section 101. Over each privy vault, which shall receive nothing but human excreta, there shall be placed an outhouse.

The seats shall be provided with tight fitting covers, and the space underneath shall be ventilated by a vent pipe or box extending

upward through and three (3) feet above the roof. Such vent pipe chall be at least six (6) inches square for every square yard or part thereof of vault surface.

Section 102. Floors of outhouses shall be made as tight as

Section 103. It shall be unlawful for any person or persons to turn on or cause to be turned on, the water supply in any service pipe leading from the city water system and conducting water to any premises or building without a written order from the Plumbing Inspector approving the plumbing and drainage of said buildings; provided, however, that the water may be turned on for the purpose of testing the plumbing and drainage systems, and it is hereby made the duty of the person or persons causing said water to be turned on to see that same is turned off immediately after such tests have been made, provided, further, however, that water may be turned on use during building construction if the proper permit has been obtained from the Water Department of the City of Buchanan, and it shall be the duty of the person or persons desiring use of said water to so

David Murphy, deceased. \_Herbert Section 104. After the completion of the installation of the water Roe having filed in said Court his service in any building or premises, the plumber doing such work final administration account, and shall sign and execute a written report of such work giving a name, his petition praying for the allowhis petition praying for the allow-ance thereof and for the assign-performed, the size and location of the tap, location of service pipe and service box, between the main and consumer's property, the number and kind of fixtures, if fixtures are installed for the use of more due of said estate, and his petition than one family or tenant, the number of such persons. Such plumb praying that he be allowed extra or shall file said written report with the inspector of plumbing, who compensation as administrator of shall examine the same, and if he finds it to be correct, shall approve said estate over and above the fees it and file the same with the City Clerk, and it shall be a violation of this ordinance for any person to file a false statement or report as to the number and kind of fixtures or the size and location of tap or

> Section 105. No service pipe shall be installed to or into any building or property smaller than %" internal diameter.
>
> Section 106. No fixtures shall be supplied with water through pipe having a smaller internal diameter than that specified in the following table and in no case shall more than the one fixture be supplied for

the pipe of the size specified for each fixture. Water closet \_\_\_\_\_

Sprinkling \_\_\_\_\_\_ %" pipe
All water piping to fixtures must be that specified for service piping except that nickle plated brass piping of equal strength may be ed for fixture connections.

Section 107. The plumbing inspector shall make a report of each inspection to the City Clerk of the City of Buchanan and the Water Department must not start service through any connection until said inspector's approval has been filed with said clerk, Section 108. No person shall hereafter follow, engage in or work

at the trade or occupation of plumbing in the city, either as master plumber or journeyman plumber, until he shall have first procured a li-Section 109. A Master Plumber within the meaning of this ordinance is any person who enters into contracts with the public for

doing plumbing work and who does such work either by himself or

by employing other person or persons to do the same.

Section 119. A Master Plumber desiring to engage in or perform any of the work comprehended in this ordinance shall pay an initial license fee of Ten (\$10.00) Dollars and Ten (\$10.00) Dollars and nually to the City and shall make application in writing to the Clerk of the City of Buchanan for a license to engage in the business of plumbing. The applicant shall furnish a bond with surety to the approval of the City Commission in the penal sum of Two Thousand (\$2,000.00) Dollars, conditioned to reimburse said City of Buchanan for all damages caused by any act or commission of said plumber, to any property which the City may own or for which it may be re-sponsible, and to hold said City of Buchanan free and harmless from Range 18 West, Thence South of term of 25 years from and after all claims or damages on account of the negligence or misfeasance of the Section line six (6) rods three October 1, 1933, covering the following described property situated fense of such claims. Said bond is to be in force from date of its acceptance and the issuance of license by said City of Buchanan, both license and bond must be renewed annually, June 1st, and no other

> the City, except for making excavations in paved streets.
>
> A journeyman Plumber desiring a license to do work within the about 113 feet by 183 feet, and being about 15 acre, more or cense fee of Two (\$2.00) Dollars, and One (\$1.00) Dollar annually to the City and shall make application in writing to the City Clerk of

bond shall be required of such plumber by any other department of

less, of the Northeast Quarter of the Fractional Section 27, No license shall be issued by the City Clerk to either a Master Township 5 South, Range 18 Plumber and/or Journeyman Plumber until the Plumbing Board shall West, and more particularly have certified to the said City Clerk the fact that said applicant has described as being the property upon which a log house with a cement foundation has been saidsfactorily passed an examination.

Section 111. Any license provided for in this ordinance may at any time be revoked for incompetency, fraudulent use thereof, or violations.

tion of the ordinance of the City of Buchauan relative to building and plumbing after a full and fair hearing before the Mayor and City Com-

ing plant and plumbing sys-, mission of the City as now provided by law. After revocation of any license as aforesaid, no license shall be issued to such party until at least six (6) months shall have elapsed. In all cases of revocation, an examination shall be had as in case of original application. In any case of such re-issuance of license, the same fee shall be required as specified in this ordinance for original licenses. In case any license should become lapsed for a period of ninety (90) days, the fee for renewal shall be \$5.00 in addition to fee. The applicant for renewal of any license which may have become lapsed for a period of more than two (2) years must submit to an examination as herein provided for the original license and the same fee shall be collected as for the original license.

Section 112. Any person receiving a permit from the Plumbing Inspector as in the ordinance required shall not be required to take out a permit from any other office or department of the City: Provided, however, that where street excavation is necessary in the performance of the work, permits for the same must be obtained as re-

quired by City Ordinance.
Section 113. That all persons doing any work within the terms of this ordinance shall also abide by any rules established by the City Commission regulating the Water Department, which are not in conflict with this ordinance.

Section 114. Any person dissatisfied with any decision of the

Plumbing Inspector may appeal to the City Commission and said City Commission after a hearing of the matter shall decide such matter so appealed and their decision shall be final.

Section 115. The Plumbing Inspector shall be appointed by the

Mayor with the approval of the City Commission and shall hold at the will of the City Commission. He shall hold office for the term of One (1) year unless he shall be removed, or until his successor is appointed and qualifies. He shall have had at least (6) years experience either as plumber or as inspector of plumbing, and shall also be a resident of the city or shall have had a technical college training.

Section 116. The Plumbing Inspector shall not receive inspection fees paid under the provisions of this ordinance as compensation for

services and all fees are to be paid to the City.
Section 117. The Plumbing Inspector is hereby directed to prepare forms for all applications, permits, notices or other statements required by this ordinance, and to furnish the same to any person on

request. Forms to be paid for by the City.

Section 118. It is hereby expressly provided that nothing in this ordinance shall prohibit any owner to personally install or repair plumbing in his own residence and he is hereby given this privilege of so doing, subject however, to his taking out the necessary and to inspection of all work so installed, in conformily with this or-

Section 119. Any person who shall violate any of the provisions of this ordinance shall, upon conviction be fined in a sum not exceeding One Hundred (\$100.00) Dollars, and upon failure to pay may be imprisoned until such fine and costs are paid not exceeding thirty (30) days. Section 120. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Section 121. This ordinance shall be in full force and effect twenty-one (21) days after its passage and adoption by the City Com-

mission of the City of Buchanan. Dated: June 5, 1939.

C. J. WILSON, Mayor. Attest: HARRY A. POST,

City Clerk.
Approved and adopted by the City Commission, June 5, 1939. Published in the Berrien County Record, June 15th, 1939.

An Ordinance Relating To Plumbing and Drainage and Providing for the Examination, Regulation, Licensing, and Registration of Plumbers and for the Punishment of Offenders of This Ordinance.

The City of Buchanan Ordains:
Section 1. As soon as this ordinance takes effect it shall be the duty of the Mayor of the City of Buchanan to appoint a Board, to be confirmed by the City Commission, for the examination of Plumbers. Such Board shall consist of three (3) persons of whom one shall be employing or Master Plumber of not less than ten (10) years experience in the business of Plumbing and the other members of such Board shall be the City Clerk and Water Works Engineer.

snan pe the City Cierk and Water Works Engineer.

The term of office of the Master Plumber appointed unit the provisions of this ordinance shall be three years, provided howethat the first appointment shall be for the period ending June 1 following the passage of this ordinance, provided further, that all members of said board shall hold office until their successors have been appointed. The Mayor shall have the power to fill any vacancy caused in such board of evaporations by the death warment includes the caused in such board of examiners by the death, removal, inability to act, resignation or removal from the city of any member thereof and such appointment shall be for the unexpired term.

such appointment snall be for the unexpired term.

Such officer in charge of Plumbing Inspection of the City and such City Engineer or the officers holding equivalent positions or acting in like capacities designated or appointed by the Mayor as herein provided, when they shall cease to hold offices or positions by reason or on account of which they were so designated or appointed, their

successor shall act on the examining Board in their stead. Section 2. The Master Plumber and members serving as such Board shall not be paid for services in the performance of their duties

pertaining to the office.

Section 3. All the members of such Board shall be citizens and actual residents of the City of Buchanan.

Section 4. The Board of examiners who shall be appointed under

this Ordinance shall have the power and it shall be their duty to meet at stated intervals not less than four times each year; they shall also meet whenever the Mayor shall request them to do so; to have jurisdiction over and to examine all persons desiring to engage in the trade, business or calling of plumbing, either as journeymen or employing or master plumbers in the City of Buchanan, Michigan, with the power of examining all persons applying for a license as such journeyman or employing master plumbers, to determine their fitness and qualifications for conducting the trade, calling or business of journeymen or master plumbers, and to certify to the City Clerk 101 license all such persons who shall have submitted to and passed a satis-factory examination before such Board, and shall be by it determined to be qualified for engaging in, carrying on or conducting the trade,

calling or business of journeyman or employing or master plumber.

Section 5. Any person desiring or intending to conduct the trade, business or calling of a plumber or of plumbing as journeyman, employing or master plumber, shall be required to submit to an examination. tion before such Board of examiners as to his experience and qualifi-cations in cuch trade, business or calling; Provided that any persons desiring to engage in the trade, calling or business of plumbing, either as journeyman, plumber or employing plumber, if at a time when said board is not in session, upon satisfactory proofs made by him either by examination or otherwise to the members of said Board of his fitness and qualifications to engage in such trade, business or calling, shall be entitled to receive from said members a temporary license, which shall entitle him to engage in and carry on such trade, calling or business until the next regular meeting of such Board when he shall be required to submit to the regular examination of such Board.

Section 6. All certificates of registration issued under the pro-visions of this Ordinance and all licenses authorizing connections with visions of this Ordinance and all licenses authorizing connections with street sewers or watermains shall expire on the thirty-first day of May following the date on which they shall be issued, and may be renewed within thirty days preceding such expiration, such renewals to be for one year from the first day of June in each year; Provided, that a certificate of registration issued to a person under the provisions of the last proviso of section five of this Ordinance shall expire at the time of the next regular meeting of the Board of examiners of such City, and shall not be renewed unless the person requesting of such City, and shall not be renewed unless the person requesting such renewal shall then hold a license issued by the Board of exam-

called upon to enlist in the effort to find employment for young people between 16 and 25 years of age who will finish school and turn to the business world to begin their careers.

Attention will also be called to graduates themselves and they Monday evening at the home of are requested to apply to the nearest office of the Michigan State Employment Service interviews and registration.

"An overwhelming majority of Michigan youngsters who will graduate next month will immediately seek jobs," McDonald said. "We would like to have them register their abilities and training with us in order to help them find work.

"At the same time we will also continue our over-all efforts to find work for the thousands of Herman Boyer and Mr. and Mrs. others registered with the Service," McDonald added, "and we will continue to match men with jobs in the future as we have in the past."

> Caviar Old Table Delicacy Caviar was known as a table delicacy as far back as the Sixteenth century as is evidenced by Hamlet's "His play . . . pleased not the million, 'twas caviare to the general."

Washington's Address Was Short Washington's second inaugural address, consisting of only 134 words, is the briefest on record.

Freaks of Lightning

Lightning has traveled down lode of ore and shocked miners working at a depth of 1,000 feet; it has removed all the hair from a man without injuring him in any other way; and it has altered the ompass of a stern-struck ship. In this last case, says Collier's Weekly, the vessel itself was also "reversed" by the storm and the wheelsman steered back over his course for a considerable distance before realiz-

Good Judgment, Says Uncle Eben "Some people," said Uncle Eben, "talk so much dey can't hear derdey shows good judgment, after
