

# COMPLETE PLANS FOR JULY 4 FETE

## Chicago Area Scouts Start Camp Season at Camp Waters, Blackhawk

## Fine Program of Sports Arranged

### Now Here's the Proposition

About all the political arguers I know need to take one of these patent medicines warranted to cure gas an' dizziness.

The sailor sings out, "There She blows!"

There are few whales in these here parts; I think it is because of knowing They'd never even get a start Where fishermen do so much blowing.

8 1/2 lb. fish in Dayton Lake Our good friend and booster of the Dayton community, Fred Richter, sends us some spot news from that section this week tending to combat some aspersions made against the quality of the fishing in Dayton Lake.

### Mrs. Vance Smith Is Song Author

One of the features of the WLS show to be staged by the Dayton Odd Fellows at Scher hall in Dayton tonight and Friday night will be the first public rendition of two songs, words and music of which were written by Mrs. Vance Smith.

### Mrs. Nancy Lyon Critically Ill

Otto Lyon arrived Monday from Golden, Colorado, called here by the severe illness of his mother, Mrs. Nancy Lyon, age 90.

Mr. and Mrs. Angelo Barnard and daughter, Joan, were guests Tuesday of Mr. and Mrs. Edward Stult.

Mr. and Mrs. Everett Watson will have as their guest for the coming week-end Mr. and Mrs. Otis Wirth of New Troy.

Mr. and Mrs. Victor Phuit of Frankfort, Ind., are guests of Mr. and Mrs. Arthur Watson. Mrs. Phuit is a niece.

Mr. and Mrs. R. R. Rouse had as guest Sunday, the latter's niece, Mrs. Goldie Emig, of Wadsworth, O. She was accompanied here by Mr. and Mrs. Charles Shook of Kalamazoo, with whom she had been visiting.

### Camp Blackhawk, Waters Both Open

#### Chicago Scouts Will Not Use St. Joseph River For Swimming

Chicago summer Scouting headquarters area, again in full use in this area, with contingents from Harvey, Chicago Heights, Aurora and other Chicago suburbs being now in occupation at Camp Blackhawk and Camp Waters.

Camp Waters, summer scouting headquarters for the area under the jurisdiction of the Pottawatomie Trails Council, including Harvey, Chicago Heights, Homewood, Midlothian, Flossmoor, and other adjacent Chicago suburbs, opened for the first period Sunday, June 25.

Harold G. Boltz, scout executive of the area, is in charge of the camp with a staff of 12. Fifty-five Scouts were registered for the first period. The second period will open July 9, and the third on July 23, anticipated attendance for the latter two sessions being from 90 to 100 each.

After having been closed four years, Camp Blackhawk will be opened again Monday, July 3, as the summer headquarters for Boy Scouts Aurora and neighboring Chicago areas, with the scout executive, J. M. Guest, in charge and with Dr. C. L. Daniels as his assistant.

### B. H. S. Band Wins Preliminary of Chicago Music Fete

The Buchanan high school band won first in Class D, Juvenile band section, at the Chicago and Music Festival preliminaries at St. Joseph Saturday afternoon in competition with the St. Joseph summer school and is now eligible to enter the finals at Chicago if the trip can be financed.

### Talk of Equipping A Lighted Gridiron

Feasibility of a campaign for the equipment of a lighted football field at Athletic Park was discussed Tuesday evening at a joint committee meeting representing the Lions club and the American Legion.

Those present were Dr. Converse, Charles Clark, William Morganthau representing the Lions club, and Arthur Johnston, Oscar Swartz, George Fitch and H. C. Stark representing the American Legion.

Donald Virgil, son of Mr. and Mrs. George Virgil, and Sam McCormick, son of Mr. and Mrs. Thomas McCormick, spent the week-end at the home of their parents. Both are Western State Teachers College students who are working during the summer in Kalamazoo.

### Tales of An Old Town

#### An Attempt to Reproduce a Cross Section of The American Scene, As Witnessed Here Through the Past Century

CHAPTER 9  
Telling How Embattled Voter Went to Polls and Fought For Conviction in Civil War Days

As far as this chronicler knows there is only one house in the Buchanan community for which a well-authenticated claim can be made for a duration of a century, and that is the front and main part of the residence on the W. B. Haslett farm a mile and a half south of town.

About that home a story clusters which I will tell later, but this time I am concerned with the fact that for a number of years before during and after the Civil War it shared with the Howe home a mile south the honor of being the place for voting in Bertrand township.

Voting was much more exciting then than now. For one thing, there was no hiding of party allegiances. The secret or Australian ballot system was still some years ahead and it was necessary to walk boldly up to the polling table and ask for either a Democrat or a Republican ballot. Each party had a separate ballot, and the only way to scratch was to write in any substitutions desired.

Of course the Democrats were strong enough in numbers to be in a position to take care of themselves. Mrs. M. L. Mills tells of a parade of the Democrats past her father's home in Midland county in the fall of 1860.

This series has carried several parade stories, but before it closes I must give a condensation of a Democrat parade described in the Niles Republican of Oct. 8, 1864, during the campaign in which Gen. McClellan (Little Mac) ran against Lincoln.

The rally was held in Niles and there was the usual incoming of horse-mounted delegations from the surrounding communities. First according to the Republican, came a large body of horsemen from Howard township, Cass county. On the Michigan Central train from the west came a large delegation from Three Oaks.

In the first election of Lincoln in 1860 eight townships of Berrien county went for Douglas and ten for Lincoln, with a tie in Chickaming. Our only source of information is the Niles Republican, which gave only the majority polled for either party, not the total vote. The majorities in 1860 were:

Township	Dem.	Rep.
Niles City	30	40
Niles twp.	40	100
Bertrand	40	15
Buchanan	10	10
Gales	15	35
Wessaw	15	35
Chickaming, tie vote	35	35
New Buffalo	26	18
Berrien	4	18
Benton	4	18
Bainbridge	4	18
Oronoko	35	19
Royalton	19	

### Dry-Zero Plays Hoosiers Tonight

#### Four Out-of-Town Teams to Play Softball Here Tonight, Friday

Softball fans are offered an attractive bill of fare in extra-city games at Athletic Park this evening and Friday evening with two games between local teams and well known out-of-town teams featured each night.

Tonight the Dry-Zero team will meet a Eau Claire team and Reamers will play the Hoosier Beer team of Niles. This is the third appearance of the Hoosiers here this season. They were defeated week before last by the High Grade Oil team and won last week over the Future Farmers of America first team.

Friday evening the Middle States will play the Auto Specialties of the St. Joseph Industrial League, and the Footman team will play a Mishawaka team.

The Dry-Zero ten vanquished the Middle States ten 12-0. Short stop Toney of the Dry Zero team starred again with a perfect batting record, including a single, a double and three walks.

Phillips 66 Trims High Grade 2-1 The Phillips 66 team nosed out the High Grade team in a tight game 2 to 1. The contest was featured by a pitching duel between Frehling of the 66 team and Rufford of the High Grade team.

The game between the Bakerstown and Presbyterian tens was called in the last half of the sixth with the score standing at four all.

Local teams broke even in the contests with out-of-town teams the Foundry team defeating the Niles Elks 7-3, and the Hoosier Farmers first team 9-5.

While he sat there C. H. McCullough, superintendent of the Foundry team, came out.

### Mrs. Sarah Zerbe Dies at Hartford

Mrs. Sarah Zerbe, resident of this community for the most of her life, died June 21 at the home of her daughter, Mrs. Sherwood Penwell of Hartford at the age of 80.

She had gone to Hartford a few months ago after having been cared for at the home of another daughter, Mrs. Cora Howe of Buchanan. She had been an invalid for years. She was born in Indiana July 15, 1858. She married Michael Zerbe, who died in 1927. She is survived by three daughters, Mrs. Cora Howe and Mrs. Oliver Barnhart of Buchanan and Mrs. Sherwood Penwell of Hartford; by a son, Riley Zerbe of Constantine; by seven grandchildren. The funeral was held in the Penwell home at Hartford.

### Father Mulcaire Named Assistant at St. Anthony's

Father Mulcaire, formerly vice president of Notre Dame University, is acting as assistant during the summer months to Father Julius Bona, pastor of St. Anthony's Roman Catholic church.

### With The Medal Men at Clark's

#### Being The Story of The Plant and Of The Men Who Built It By Building the Quality of Their Souls Into Their Work

CHAPTER 17  
Wherein E. B. Clark Has An Idea for Enterprise; Also Buchananite Wants to Limit Cars to 2 Days on the Roads

The growth of the Clark Equipment company from a struggling business in a basement room on Canal street, later pursuing an equally precarious course in the old Hatch Cutlery building, three jumps behind its bills and less than a jump ahead of the receiver, is the story of the evolution of a typical American industry.

The story may be roughly divided into three parts: 1. The George R. Rich Manufacturing company period; 2. The Colfor Tool company period; 3. The Clark Equipment company period.

The first period includes the Canal street basement days and also about two years after the transfer to Buchanan. During this time the company was evolving marketable products and was also groping away from inventive management towards a competent business management and adequate finances. During this period it was on the edge of receivership on more than one occasion and its future was a poor to middling bet.

There was something incidental about the beginning of the company—there is always in fact. In a reminiscence talk, Eugene B. Clark stated that the first step toward actual organization occurred one day when he elected to sit on the steps of the offices of the South Chicago plant of the Illinois Steel Company after the day's work. There he sat, mulling over some ideas of taking a flyer in industry on his own account.

While he sat there C. H. McCullough, superintendent of the Foundry team, came out.

Thus began casually, and yet not casually at all, the chain of circumstances that resulted eventually in the Clark Equipment company. The executives of the South Chicago plant had been watching the devices of a mechanic in the plating mill, one George R. Rich. Rich had devised several improvements, seemingly with the idea at first of making his own work easier. The devices actually helped very materially.

The attitude of the public is indicated by a letter published in the Record that summer of 1904 when the Rich concern was getting underway in the Canal street basement. The letter dealt with the menace of the automobile as an intruder in horse traffic. It said: "Should the automobile be allowed to run on the country roads as it does at present at any time of day and at any speed and without any signal when approaching or passing?"

"I think I am expressing the sentiments of nearly everyone who lives in the country when I say that it should not be allowed to run without limitations. "What would we think of the person who would travel up and down our highways carrying a large red flag which would scare our horses and thereby cause the death of ten or a dozen people? But how much worse would that be than the auto? The primary object of the highway is the transport of the necessary articles of use, and while they may be used for pleasure, it must not interfere with the necessary travel. "A law cannot be passed too soon which should be about as follows: "Automobiles should be allowed to run only two days a week, and at specified hours in the day, at a slow rate of speed and should be required, by whistle or otherwise, to notify others of their whereabouts." (To be continued)

### Co-Ops to Furnish Ice Cream, Drinks for Huge Picnic at Noon Hour

The Buchanan Co-Ops are holding their first annual picnic on July 4th at Bear Cave Park, 4 miles north of Buchanan on the scenic Red Bud Trail.

At 10:30 a. m. a soft ball game is to be played. The contending teams are to be picked one from the employees of the Buchanan Co-Ops and the other from the many customers of the store.

Donald Garwood, bookkeeper will be captain and manager of the employees team and Ivan Price will be organizer and high official of the customers gang. No person now playing regularly with a soft ball team is to be allowed to participate on either side, so the teams should be well matched and put on an interesting exhibition.

There will be a short program of music and entertainment immediately following the dinner. Loud speaker amplifiers are to be provided so that all may hear and enjoy the entire performance.

Novel games and contests are being arranged for the afternoon. There will be appropriate prizes and awards for all these events. There will be adequate variety so that all ages can participate.

Horse shoe pitching contests will be staged under the direction of O. V. York. Players are asked to bring their own shoes and stakes. The final game will be pitched off before the stand where all may watch the keen skill of some of the real champions of this section. Come early and participate in this elimination contests in the forenoon.

Rex Milhon will be in charge of the games, and contests. Robert Koenigshoff will be in charge of the co-operative dinner arrangements. Frank Hamilton will be in charge of the grounds and the picnic facilities. Earl Herrick of Michigan City, an Allis-Chalmers representative, will be in charge of the tug-of-war. A fine list of attractive prizes is being provided. Arrangements are being made for a huge co-operative dinner, with everyone sitting down together. Ice cream and drinks will be furnished by the Co-Ops.

### Fine Yacht Model Displayed Here

#### Harold Calbetzor Places Model in Window of Allen's Hardware

Much attention is being attracted by the large and beautiful yacht model which was placed in the window of the Allen Hardware yesterday by the maker, H. L. Calbetzor, who has been making a hobby of yacht designing for several years.

The ship is known as maritime circles as an International Class A Racing Model. It stands 95 inches high from mast top to keel, is 65 inches long over all, and has an 11 inch beam. The weight is 41 1/2 pounds, 4 1/2 pounds above the keel and 37 pounds keel weight.

The hull is made of white pine 1-16 inches thick. All the wood was sawed from a white pine board, 12 feet long, a foot wide and an inch thick. The work required the spare time of two winters. Calbetzor was formerly a member of the Sagawack Yacht club and sailed the boat in model races there and at Chicago and Detroit. The boat is named the "Roberlee." It is one of several models which Calbetzor has made and he is now at work on another.

Writes Appreciation of Guest Artists The following appreciation of the work of guest artists and others at the recital of the pupils of Josephine Kelley recently came to the Record office last week too late for publication. Friday evening, June 16th, was the occasion of a double musical treat for a select audience in the Presbyterian church. The advanced piano pupils of Josephine Kelley were first on the program and the string trio, composed of Clarence

Roth, violinist, Bruno Rampoldt, cellist, and Mrs. Kelley, pianist, closed the evening's performances. The audience enthusiastically received the young pianists, all of whom played with the proper phrasing, technical brilliance and tone coloring. The numbers were all two piano arrangements with Mrs. Kelley rendering the second piano parts.

However, the most admirable quality which these students displayed was poise. Not once did one betray a case of stage fright or anxiety except in a tendency to speed up once in a while—a tendency which delights audiences, but shortens the teachers term of mortal existence. Incidentally, I wonder what a difference it would make in this world of aggressive nations if poise were better developed all the way around. The study of music—and its performance, under competent instruction is one of the finest ways known by means of which to cultivate this elusive quality.

The playing of the trio was really beautiful music—remarkable for the feeling, beauty of tone, technical adequacy, and most important of all, team work. (Team work is something which our aforementioned world of nations could use, also.)

Several in the audience expressed the opinion that the trio's playing stacks up with any string ensemble you may care to mention—a very flattering opinion, but very probably true. Speaking for myself, after hearing Mozart at his lyric best and Weber in brilliant contrast, I felt as though I were a better person than I was before. If you can honestly say that, after you've attended a musical event, you can rest assured that you've spent profitable time.

Bridgman Plans Annual Five Day Fete for July 4

Bridgman, long noted for celebrations and its ability to entertain and draw overflow crowds, is again in readiness for the opening of the Bridgman Business Builders 8th annual Fourth of July celebration tomorrow evening, June 30th, and continuing five days. According to James W. Harris, general chairman of the Fourth carnival, all arrangements have been successfully completed and with the excellent co-operation of the various committees, the carnival will present more entertainment features and as a result will probably attract more pleasure seekers to Bridgman than ever before.

As during the past years, the Miller Amusement Enterprise of Chicago, will again furnish the main attractions of the celebration, including three rides, a merry-go-round, ferris wheel and tilt-a-whirl.

The main street of Bridgman will become a big midway, lined with the latest thing in concessions of all kinds. There will be displays, cat stands, corn game, games of skill and other amusements which will furnish thrills in the true carnival spirit. The merchants are busy decorating their places of business and the streets will be a blaze of light from the overhead strings of colored bulbs.

The first night of the carnival will see several old favorites in the squared arena. Promoter "Swede" Larson has signed the following for the wrestling card. Opener Mr. Skanes of Benton Harbor an old favorite here will wrestle Chuck Hale of Indianapolis. Semi-Final Gus Orosz the tough boy from Three Rivers will be matched with Dug Chute of Boston. Final Geo. Kozar the lunatic from Kalamazoo will tackle Red Evans of Battle Creek. Wrestling will be held on Friday evening, June 30th, only.

Wheat Allotment

The 1940 wheat allotment for Berrien County is 13,688 acres, according to an announcement issued this week by Martin H. Kretchman, Chairman of the Berrien County Agricultural Conservation Committee. County wheat acreage allotments for 1940 represent an apportionment of the State allotment of 739,792 acres, which in turn represents Michigan's proportionate share of the National allotment of 62 million acres.

The 739,792 acre allotment for Michigan was established in accordance with the Agricultural Adjustment Act of 1938. It compares with an allotment of 689,954 acres for 1939.

The Berrien County wheat allotment is being announced nearly six weeks earlier than last year in order that farmers may have the opportunity to plan operations for 1940 well ahead of seeding time.

In announcing the county allotment Martin H. Kretchman said that he believed the county office would be able to notify farmers in the county of their individual allotments by the middle of July.

The Berrien County basic wheat loan rate for farm storage of the 1939 wheat crop was also made known this week. The basic rate of Red Winter, Hard Winter and Soft Winter Wheat, No. 2 grade with a maximum moisture content of 14 percent, will be 69 cents per bushel. The loan value on mixed wheat or wheat with a moisture content between 14 and 14 1/2 percent will be two cents per bushel below the established rate. Smutty and garlicky wheat also will be subject to a lower loan value, ranging from 3 to 6 cents less than the basic rate of 69 cents.

Crop insurance on wheat planted this fall will be available to those farmers who planted within their 1939 wheat acreage allotments. Last fall, 5077 farmers insured 75 percent of their average production. State Crop Insurance officials expect the number to be at least doubled this fall. Active selling of Federal Crop Insurance will start in August.

Something to Reflect On It takes more than 12,000 workers to make the plate glass mirrors sold in this country every year. This big business pays \$14,000,000 annually in wages, buys \$41,000,000 worth of raw material and sells mirrors valued at \$86,000,000.

Clomet Economy May Be Costly, Says C. V. Glover

"Lack of adequate closet and storage space is one of the great- est contributing factors to making an otherwise good house obsolete and of low resale value," said C. V. Glover, Secretary of the Bu- chanan Federal Savings and Loan Association. A new standard of closet space requirements and arrangements for all homes financed under the savings and loan plan has been adopted by the Michigan League and the home financing institu- tions are cooperating in construc- tion supervision of new homes to maintain the new standards throughout the state. This local executive warns that the current trend toward economy houses may prove hazardous to the residential real estate market in years to come, in addition to being less serviceable than the prospective owner believes the home will be, unless the financing institutions and the contractors guard against the universal ten- dency to affect economies in floor space by the elimination of closets. In many metropolitan areas throughout the state where the number of residential permits have almost doubled the 1933 records,

Throughout the state, in the new homes being financed under the savings, building and loan plans, special attention is given to this storage space feature, and there is a united effort on the part of the loan managers to prevent the con- struction of the inadequate type of house economies in closet space produce.

Faced with the facts that he is mayor, president of the Chamber of Commerce, newspaper editor and chairman of the advisory board of the Studio City branch of the Bank of America, he blushed modestly and said, that what he had accomplished is possible to any normal American boy willing to apply himself.

RED-BLOODED ACTION IN WESTERN SERIAL

There's a thrill to every foot of film in Johnny Mack Brown's new Universal serial of the old West, "Flaming Frontiers."

Wild riding, furious action, gun play galore, yelling Indians, and buckskin clad pioneers includ- ing even the redoubtable Buffalo Bill, himself, make this the rip- tearing serial of the current season and far and away the best Johnny has done. There is even a bit of romance in the film, with Eleanor Hansen, newcomer from radio as the beautiful heroine. If the 14 chapters yet to come, measure up to the opening epi- sode, "Flaming Frontiers" should rank as about tops in cowboy serials.

Johnny Mack Brown in his familiar black top-gallon hat, is cast as Tex Houston, daring plainsman, who comes to the aid of pioneer wagon trains when the wild Indian tribes attack them. After getting the settlers safely through their Indian troubles, he protects Mary Grant, played by Miss Hansen from the menaces of outlaws. The story of "Flaming Frontiers" is crammed with drama and punch. It is based on the popular novel "The Tie That Binds" by the noted author, Peter H. Kyne and was skillfully di- rected by Ray Taylor and Alan James.

Johnny is well as the hard riding Tex and Miss Hansen is very appealing as Mary. Charles Middleton, veteran "menace" does a great job as the villain, Ace Daggett. John Rutherford will thrill the fans, young and old, with his uncanny likeness to Buf- falo Bill, in his role as the fam- ous scout. All in all, "Flaming Frontiers" is ace high serial drama.

Sunday-Monday MISS COLBERT GETS SOCKED

James Stewart clipped Clau- dette Colbert on her charming chin five minutes after they had met, knocking her cold, but only for photographic purposes. The action taking place during their first scene together in "It's a Wonderful World."

Tues.-Wed.-Thurs. LITTLE SIR ECHO

Sing near an airplane and you get an echo—unless you loosen the struts and guy wires which hold the wings together. How- ard Hawks picked up this bit of movie-making lore while filming scenes for Columbia's "Only An- gels Have Wings," which co-stars Cary Grant and Jean Arthur.

Action called for Grant, Miss Arthur and Thomas Mitchell to sing in an airplane hanger. Take after take was ruined by a cur- ious humming noise which seem- ed to be coming from a nearby plane. Investigation revealed that guy wires, necessarily stretched to absolute tautness be- tween the wings, were acting as tuning forks, picking up certain notes of the trio's songs and buzzing like a harp.

Traditional Fishing Rite

Every year since the landing of the Pilgrims, a fish trap has been rigged in Town brook, near Plym- outh, Mass., to catch alewives when they come upstream to spawn. The tradition is made the occasion of a celebration.

Trout Devour Many Insects

Fish research workers claim that it is possible to make an extensive collection of insects taken from the stomachs of trout. There apparent- ly is no limit to the number of species trout will eat.

Last week we talked about different kinds of appetizers to be served with those long, cool, frosted drinks. Today I would like to tell you a bit about butter spreads that make a perfect base for starting sandwiches or canapes. They lend an added zip.

Many of these butters can be made up ahead of time, put in small containers and stored in your refrigerator for your convenience. Some excellent butter spreads do come to us on the market all ready for use, but I think you will find it fun to make several different ones yourself. You will be able to create quite a variety of individual flavors if you once start mixing them yourself.

For all recipes, softened butter is the first requirement. I'm sure you will find a wooden spoon is the easiest implement to use to soften the butter and that a good spatula is handy too for spreading. Do not make up a large quantity

of each individual recipe for you will find that you use a smaller amount of the seasoned butters on the bread and crackers than you would of just plain softened butter.

Spreads that you will enjoy are: Blend 1/4 cup butter, 1/4 teaspoon curry powder, dash of pepper, and a dash of paprika. Cream until light and fluffy, put in glass container and store in refrigerator until ready to use. Recream just before using. This butter spread is excellent served with eggs, cold meats, fish; also very good on broiled meats. Try it melted too, and served with cauliflower, broccoli or baked potato.

Curry butter spread on crackers, put into a 350 degree oven for about 10 minutes. Then use as a base for canapes or an accompaniment for fish.

Served on broiled ham or meat patties, you will find that Mustard Butter will soon become a favorite. It is excellent as a substitute in making egg salad, sardine or Tuna fish or minced meat

sandwiches. Cream 1/2 cup butter and add one teaspoon prepared mustard and 1/2 teaspoon onion salt. Beat until fluffy and store in refrigerator until ready to use. Always recream before using. Another excellent butter that blends well with most foods is Pickle Butter. Blend and cream until fluffy 1/2 cup butter, 2 tablespoons finely minced sweet pickle, 2 tablespoons drained horseradish, one teaspoon Worcestershire sauce,
